

Werewolf Therapeutics to Present at the H.C. Wainwright 24th Annual Global Investment Conference

September 7, 2022

WATERTOWN, Mass., Sept. 07, 2022 (GLOBE NEWSWIRE) -- Werewolf Therapeutics, Inc. (the "Company" or "Werewolf") (Nasdaq: HOWL), an innovative biopharmaceutical company pioneering the development of conditionally activated therapeutics engineered to stimulate the body's immune system for the treatment of cancer, today announced that management will present virtually at the H.C. Wainwright 24th Annual Global Investment Conference, taking place in New York, NY from September 12-14, 2022.

Management's pre-recorded presentation will be made available on-demand at 7:00 AM EDT on September 12. A link to the webcast will be available at <https://investors.werewolf.com/news-and-events/events>. An archived replay of the webcast will be available for approximately 90 days.

About Werewolf Therapeutics:

Werewolf Therapeutics, Inc., is an innovative biopharmaceutical company pioneering the development of therapeutics engineered to stimulate the body's immune system for the treatment of cancer. We are leveraging our proprietary PREDATOR™ platform to design conditionally activated molecules that stimulate both adaptive and innate immunity with the goal of addressing the limitations of conventional proinflammatory immune therapies. Our INDUKINE™ molecules are intended to remain inactive in peripheral tissue yet activate selectively in the tumor microenvironment. Our most advanced product candidates, WTX-124 and WTX-330, are systemically delivered, conditionally activated Interleukin-2 (IL-2), and Interleukin-12 (IL-12) INDUKINE molecules, respectively, for the treatment of solid tumors. We expect to advance both WTX-124 and WTX-330 in multiple tumor types as a single agent and in combination with an immune checkpoint inhibitor. To learn more visit www.werewolf.com.
