For those elements of the arrangement that are accounted for pursuant to ASC 606, we recognize revenue when our customer obtains control of promised goods or services, in an amount that reflects the consideration that the entity expects to receive in exchange for those goods or services. In applying ASC 606, we perform the following five steps: (i) identify the contract(s) with a customer; (ii) identify the promises and performance obligations in the contract; (iii) determine the transaction price; (iv) allocate the transaction price to the performance obligations in the contract; and (v) recognize revenue when (or as) we satisfy the performance obligations. We only apply the five-step model to contracts when it is probable that we will collect the consideration to which we are entitled in exchange for the goods or services we provide to the customer. At contract inception, once the contract is determined to be within the scope of ASC 606, we assess the goods or services promised within each contract, determine those that are performance obligations and assess whether each promised good or service is distinct. We then recognize as revenue the amount of the transaction price that is allocated to the respective performance obligation when (or as) the performance obligation is satisfied. As part of the assessment, we must develop assumptions that require judgment to determine the standalone selling price for each performance obligation identified in the contract. We use key assumptions to determine the standalone selling price, which may include reimbursement rates for personnel costs, development timelines and probabilities of regulatory success. We do not assess whether a contract has a significant financing component if the expectation at contract inception is that the period between payment by the customer and the transfer of promised goods or services to the customer will be one year or less.

Arrangements that include upfront payments may require deferral of revenue recognition to a future period until obligations under these arrangements are fulfilled. Event-based milestone payments represent variable consideration, and we use the "most likely amount" method to estimate this variable consideration. Given the high degree of uncertainty around the occurrence of these events, we consider the milestones and other contingent amounts to be fully constrained until the uncertainty associated with these payments is resolved. Revenue will be recognized from sales-based royalty payments when or as the sales occur. We will re-evaluate the transaction price in each reporting period as uncertain events are resolved and other changes in circumstances occur.

Research and Development Expenses

Expenditures relating to research and development are expensed as incurred. Research and development expenses include external expenses incurred under arrangements with third parties, academic and non-profit institutions and consultants; salaries and personnel-related costs, including non-cash stock-based compensation expense; license fees to acquire in-process technology and other expenses, which include direct and allocated expenses for laboratory, facilities and other costs. Non-refundable advance payments for goods and services that will be used in future research and development activities are expensed when the activity has been performed or when the goods have been received rather than when the payment is made.

Intellectual Property Expenses

We expense costs associated with intellectual property-related matters as incurred and classify such costs as general and administrative expenses within the consolidated statements of operations.

Stock-based Compensation

We issue stock-based awards to employees and directors, generally in the form of stock options, restricted stock units ("RSUs"), restricted stock awards ("RSAs"), or as awards under the 2021 Employee Stock Purchase Plan (the "2021 ESPP"). Occasionally, we may also grant inducement equity awards in the form of non-qualified stock options to purchase shares of our common stock to newly hired employees pursuant to Nasdaq Listing Rule 5635(c)(4) ("Inducement Awards"). Stock-based compensation is measured at the grant date based on the estimated fair value of the award and recognized as expense over the requisite service period of the award on a straight-line basis. For awards with performance conditions, we estimate the likelihood of satisfaction of the performance condition, which affects the period over which the expense is recognized. When the likelihood of satisfying the performance conditions related to an award is determined to be probable, the expense is recognized over the requisite service period. We have not granted any awards with market conditions. We recognize forfeitures of stock-based awards as they occur.

The grant date fair value of stock options, Inducement Awards, and awards granted under the 2021 ESPP are measured using the Black-Scholes valuation model, which requires us to make assumptions about the fair value of the underlying common stock on the date of grant. The grant date fair value of RSUs and RSAs is estimated to be equal to the closing price of our common stock on the date of grant. In the event that stock-based awards are granted in contemplation of or shortly before a planned release of material non-public information, and such information is expected to result in a material increase in the share price of our common stock, we may consider whether an adjustment to the observable market price is required when estimating the grant date fair value.

Debt Issuance Costs

Certain costs associated with the issuance of debt instruments are capitalized and amortized over the term of the respective debt instrument using the effective interest method through the maturity date of the related debt instrument and are recognized as a non-cash component of interest expense. The carrying value of our debt instruments is presented net of debt issuance costs.

Equity Issuance Costs

Equity issuance costs represent costs paid to third parties to secure equity financing and generally consist of sales agent commissions, incremental legal fees and other professional fees. Equity issuance costs are capitalized as other assets until the associated equity financing is consummated. Upon consummation of an equity financing, these costs are recorded as a reduction of additional paid-in capital. In the event that a planned equity financing is abandoned, any capitalized equity issuance costs are immediately expensed to operating expenses in the consolidated statement of operations.

Income Taxes

Income taxes are recorded in accordance with ASC Topic 740, *Income Taxes* ("ASC 740") which provides for deferred taxes using an asset and liability approach. We recognize deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the consolidated financial statements or tax returns. Deferred tax assets and liabilities are determined based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. A valuation allowance against deferred tax assets is recorded if, based on the weight of the available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized.

We account for uncertain tax positions using a more-likely-than-not threshold for recognizing and resolving uncertain tax positions. The evaluation of uncertain tax positions is based on factors, including, but not limited to, changes in the law, the measurement of tax positions taken or expected to be taken in tax returns, the effective settlement of matters subject to audit, new audit activity and changes in facts or circumstances related to a tax position. We recognize any material interest and penalties related to unrecognized tax benefits in income tax expense.

Comprehensive Loss

We do not have items of other comprehensive loss for the years ended December 31, 2025 and 2024, and therefore do not present a consolidated statement of comprehensive loss. Our comprehensive loss equals our net loss.

Basic and Diluted Net Loss per Common Share

Basic net loss per share is calculated based upon the weighted-average number of common shares outstanding during the period, excluding outstanding stock options and RSUs that have been issued but are not yet vested. Diluted net loss

per share is calculated based upon the weighted-average number of common shares outstanding during the period plus the dilutive impact of weighted-average common equivalent shares outstanding during the period. The potentially dilutive shares of common stock resulting from the assumed exercise of outstanding stock options and the assumed vesting of RSUs are determined under the treasury stock method. The potentially dilutive shares of common stock resulting from the assumed conversion of the currently outstanding convertible term loan is determined using the if-converted method.

Concentration of Credit Risk and Off-Balance Sheet Risk

Financial instruments that potentially subject us to significant concentrations of credit risk consist of cash and cash equivalents. Cash and cash equivalents are primarily held with one reputable financial institution in the United States. At times, such deposits may be in excess of insured limits. We have not experienced any losses on our deposits of cash and cash equivalents. We have no significant off-balance sheet concentrations of credit risk, such as foreign currency exchange contracts, option contracts or other hedging arrangements.

Recently Adopted Accounting Pronouncements

In December 2023, the FASB issued ASU No. 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures* ("ASU No. 2023-09"), which enhances the transparency and decision usefulness of income tax disclosures primarily related to rate reconciliation and income taxes paid. We adopted ASU No. 2023-09 on January 1, 2025 and have applied the amendments in this update on a prospective basis. The adoption of ASU No. 2023-09 did not have a material impact on our consolidated financial statements. The income tax disclosures required by ASU No. 2023-09 have been included in Note 12.

Recent Accounting Pronouncements

In November 2024, the FASB issued ASU No. 2024-03, *Income Statement — Reporting Comprehensive Income — Expense Disaggregation Disclosures (Subtopic 220-04)* ("ASU No. 2024-03"), which requires the disclosure of additional information about specific expense categories in the notes to the consolidated financial statements at interim and annual reporting periods. The provisions of ASU No. 2024-03 are effective for annual reporting periods beginning after December 31, 2026, with early adoption permitted, and may be applied on a prospective or retrospective basis. We are currently evaluating the impact that this standard will have on our consolidated financial statements and have not yet selected a transition method.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on our consolidated financial statements upon adoption.

Subsequent Events

We have evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the financial statements were issued. Other than as described in these consolidated financial statements, we did not identify any subsequent events that would have required adjustment to or disclosure in the consolidated financial statements.

4. Collaboration and License Agreement

In April 2022, we entered into an exclusive global collaboration and license agreement (the "Collaboration Agreement") with Jazz Pharmaceuticals Ireland Limited ("Jazz") pursuant to which we granted Jazz certain licenses to develop and commercialize products containing our Interferon alpha ("IFNα") INDUKINE™ molecule, JZP898 (formerly WTX-613), as well as products containing certain isolated recombinant polypeptides comprising IFNα that meet specified criteria (each such product, a "Licensed Product"). Under the Collaboration Agreement, we were responsible for certain preclinical development activities with respect to JZP898 and other development activities specified in mutually agreed upon development plans. Jazz had generally reimbursed us for the cost of such activities. Jazz is responsible for all other development and commercialization activities conducted to exploit the Licensed Products, including submission of an investigational new drug application ("IND") to the U.S. Food and Drug Administration (the "FDA"). Jazz received IND application clearance for JZP898 in July 2023 and initiated a Phase 1 clinical trial of JZP898 in the fourth quarter of 2023.

In June 2024, we executed a transfer agreement (the "Transfer Agreement") to assign our rights in a development agreement with a contract manufacturer of JZP898 to Jazz. The execution of this Transfer Agreement was the last material performance obligation required of us under the Collaboration Agreement.

Milestones and Royalties

As of December 31, 2025, we are eligible to receive up to $515.0 million in development and regulatory milestones, and up to $740.0 million in sales-based milestones for all Licensed Products. In addition, we are eligible to receive tiered mid-single digit royalties based on Jazz's, and any of its affiliates' and sublicensees' annual net sales of Licensed Products, subject to reduction in specified circumstances.

As of December 31, 2025, we have not recognized any revenue related to sales-based milestones.

Accounting Analysis under ASC 606

Identification of the Contract(s)

We assessed the Collaboration Agreement and concluded that it represents a contract with a customer within the scope of ASC 606.

Identification of Promises and Performance Obligations

We have concluded that the exclusive license to our intellectual property, JZP898, and the non-exclusive corresponding "know-how" are not capable of being distinct from the other promises within the contract, and as such, we have determined that the license and "know-how" combined with the other research and development services and supply represent a single combined performance obligation.

Determination of Transaction Price

The overall transaction price as of the inception of the contract was determined to be $32.3 million, which was comprised of a nonrefundable upfront payment of $15.0 million and estimated costs for research services of $17.3 million. Outside of the estimated costs for research services, there was no other variable consideration included in the transaction price at inception. We used the most likely amount method to estimate variable consideration and estimated that the most likely amount for each potential development and regulatory milestone payment under this agreement was zero at inception of the contract, as achievement of those milestones was uncertain and highly susceptible to factors outside of our control. Accordingly, all such milestone payments were excluded from the transaction price at inception. We re-evaluate the transaction price at the end of each reporting period and as uncertain events are resolved or other changes in circumstances occur, and adjust the transaction price as necessary. During the years ended December 31, 2025 and 2024, we did not recognize any adjustment to the transaction price associated with variable consideration previously excluded from the transaction price. Sales based royalties, including milestones based on the level of sales, were also excluded from the transaction price, as the license is deemed to be the predominant item to which the royalties relate. We will recognize such revenue at the later of (i) when the related sales occur, or (ii) when the performance obligation to which some or all of the royalty has been allocated has been satisfied (or partially satisfied).

Recognition of Revenue

We use the cost-to-cost input method, which best depicts the research services performed for the customer, to measure the revenue recognized under the Collaboration Agreement. Significant judgments used in the cost-to-cost method include estimated costs for research services and assumptions about the timing of when those costs are expected to be incurred. Differences in these estimates and assumptions can have a significant impact on the measurement and timing of when revenue under the Collaboration Agreement is recognized. For the year ended December 31, 2024, we recognized $1.9 million of revenue related to the Collaboration Agreement. Revenue recognized during the year ended December 31, 2024 includes $1.3 million of revenue that was included in deferred revenue as of December 31, 2023. Revenue from the reimbursement of costs for research activities was recognized during the year ended December 31, 2024 in an amount equal to the costs incurred.

As of December 31, 2025, we have not received any royalty payments under the Collaboration Agreement.

5. Financial Instruments and Fair Value Measurements

Our assets that are required to be measured at fair value on a recurring basis consist of money market funds, classified as cash, cash equivalents and restricted cash and cash equivalents on our consolidated balance sheets as of December 31, 2025 and 2024.

Our liabilities that are required to be measured at fair value on a recurring basis consist of a derivative liability pursuant to a loan and security agreement (the "K2HV Loan Agreement") with K2 HealthVentures LLC ("K2HV") (see Note 8, *Term Loan*) on our consolidated balance sheet as of December 31, 2025 and 2024.

The carrying amounts reflected in the consolidated balance sheets for cash, prepaid expenses and other current assets, accounts payable and accrued expenses approximate their fair values, due to their short-term nature.

Assets and liabilities measured at fair value on a recurring basis as of December 31, 2025 were as follows:

	Level 1	Level 2	Level 3	Total
		(in thousands)		
Assets:				
Money market funds	$56,548	$—	$ —	$56,548
Total assets	$56,548	$—	$ —	$56,548
Liabilities:				
Derivative liability	$ —	$—	$759	$ 759
Total liabilities	$ —	$—	$759	$ 759

Assets and liabilities measured at fair value on a recurring basis as of December 31, 2024 were as follows:

	Level 1	Level 2	Level 3	Total
		(in thousands)		
Assets:				
Money market funds	$105,526	$—	$ —	$105,526
Total assets	$105,526	$—	$ —	$105,526
Liabilities:				
Derivative liability	$ —	$—	$2,829	$ 2,829
Total liabilities	$ —	$—	$2,829	$ 2,829

There were no changes in valuation techniques during the year ended December 31, 2025.

Derivative Liability

In May 2024, we entered into the K2HV Loan Agreement, as further described in Note 8, which provides up to $60.0 million principal in term loans. Pursuant to the terms of the K2HV Loan Agreement, the lenders thereto may elect, prior to the full repayment of the term loans, to convert up to $5.0 million of the outstanding principal of the term loans into shares of our common stock at a conversion price of the lesser of $6.3182 per share (the "Fixed Price Conversion") and the lowest effective price per share of our first equity financing following the closing of the K2HV Loan Agreement (the "Variable Price Conversion"), subject to customary adjustments and 9.99% and 19.99% beneficial ownership limitations. The Fixed Price Conversion and Variable Price Conversion within the K2HV Loan Agreement are required to be bifurcated as a single compound embedded derivative carried at fair value, with subsequent changes in fair value recognized in the consolidated statements of operations.

The following table reconciles the change in fair value of the derivative liability based on Level 3 inputs:

	Year Ended December 31,	
	2025	2024
	(in thousands)	
Balance at beginning of period	$ 2,829	$ —
Fair value of derivative liability at issuance of term loan	—	4,450
Change in fair value	(2,070)	(1,621)
Balance at end of period	$ 759	$ 2,829

The change in fair value of the derivative liability is included in other income, net in the accompanying consolidated statements of operations. We recognized gains of $2.1 million and $1.6 million related to change in fair value of the derivative liability during the years ended December 31, 2025 and 2024, respectively.

The fair value of the derivative liability in the term loan was estimated using the Monte Carlo model. A summary of the weighted-average significant unobservable inputs (Level 3 inputs) used in measuring the derivative liability in the term loan is as follows:

	December 31,	
	2025	2024
Stock Price	$ 0.63	$ 1.48
Volatility	105.0%	103.0%
Risk-free rate (continuous)	3.5%	4.2%

8. Term Loan

PWB Loan Agreement

In April 2022, we entered into the PWB Loan Agreement with PWB and subsequently drew down an aggregate of $40.0 million in term loans. The term loans accrued interest on the outstanding daily balance at a floating annual rate equal to greater of (i) 0.5% above the prime rate then in effect or (ii) 4.5%. If the prime rate changed throughout the term, the interest rate would have been adjusted effective on the date of the prime rate change. All interest chargeable under the PWB Loan Agreement was computed on a 360-day year for the actual number of days elapsed, with interest payable monthly. We recognized interest expense related to the PWB Loan Agreement of $1.3 million during the year ended December 31, 2024.

In May 2024, we repaid all amounts outstanding under the PWB Loan Agreement, using $29.5 million in net loan proceeds received under the K2HV Loan Agreement, as described below, together with $10.5 million in existing cash. We recognized a total loss on extinguishment of debt in the amount of $0.6 million during the year ended December 31, 2024 primarily due to the write off of unamortized debt issuance costs.

K2HV Loan Agreement

In May 2024, we, as borrower, entered into the K2HV Loan Agreement with K2HV (together with any other lender from time to time, the "Lenders"); K2HV, as administrative agent for the Lenders; and Ankura Trust Company, LLC, as collateral trustee for the Lenders. The K2HV Loan Agreement provides up to $60.0 million principal in term loans. We received $30.0 million in gross loan proceeds at closing; $25.0 million from the first tranche commitment and $5.0 million from the second tranche commitment. A third tranche commitment of up to $10.0 million was available to be drawn at our option through June 30, 2025, subject to the achievement, as determined by the administrative agent in its discretion, of certain time-based, clinical and regulatory milestones and receipt of not less than $60.0 million in net cash proceeds from certain financing activities, with at least $50.0 million from a single offering of common stock. Our ability to draw upon the third tranche commitment expired on June 30, 2025 without being drawn upon. A fourth tranche commitment of up to $20.0 million is available to be drawn down at our option through May 1, 2026, subject to Lender's review of our clinical, financial and operating plan and subject to the Lender's consent in its sole and absolute discretion.

The term loan matures on May 1, 2028, and we are obligated to make interest only payments for the first 24 months, followed by interest and equal principal payments each month thereafter through the maturity date. The term loan bears a variable interest rate equal to the greater of (i) 10.3%, and (ii) the sum of (A) the prime rate last quoted in The Wall Street Journal (or a comparable replacement rate if The Wall Street Journal ceases to quote such rate) and (B) 1.8%. We may prepay, at our option, all, but not less than all, of the outstanding principal balance and all accrued and unpaid interest with respect to the principal balance being prepaid of the term loans, subject to a prepayment premium to which the Lenders are entitled and certain notice requirements. We are obligated to pay a final fee equal to 6.95% of the aggregate amount of the term loans funded, or the Final Fee, to occur upon the earliest of (i) the maturity date, (ii) the acceleration of the term loans, and (iii) the prepayment of the term loans. The Final Fee is being accreted to interest expense using the effective interest method over the life of the debt.

The Lenders may elect prior to the full repayment of the term loans to convert up to $5.0 million of outstanding principal of the term loans into shares of our common stock, pursuant to the Fixed Price Conversion or the Variable Price Conversion, subject to customary adjustments and 9.99% and 19.99% beneficial ownership limitations. There will be no prepayment penalty for any principal amount converted into common stock. We determined that the Fixed Price Conversion and the Variable Price Conversion within the K2HV Loan Agreement are required to be bifurcated as an embedded derivative under ASC 815, *Derivatives and Hedging* ("ASC 815"), at fair value, and recorded as a discount on the debt on the date of issuance, with subsequent changes in fair value recognized in the accompanying consolidated statements of operations. See Note 5 for further discussion on this derivative instrument.

As security for our obligations under the K2HV Loan Agreement, we granted the Lenders a first priority security interest on substantially all of our assets (other than intellectual property), subject to certain exceptions. The K2HV Loan Agreement contains customary representations and warranties, events of default and affirmative and negative covenants, including covenants that limit or restrict our ability to, among other things, dispose of assets, make changes to our business, management, ownership or business locations, merge or consolidate, incur additional indebtedness, incur additional liens, pay dividends or other distributions or repurchase equity, make investments, and enter into certain transactions with affiliates, in each case subject to certain exceptions. Upon the occurrence of an event of default, a default interest rate of an additional 5.0% per annum may be applied to the outstanding loan balances, and the Lenders may declare all outstanding obligations immediately due and payable and exercise all of their rights and remedies as set forth in the K2HV Loan Agreement and under applicable law. As of December 31, 2025, we are in compliance with all covenants.

Subject to certain conditions, we granted the Lenders the right, prior to repayment of the term loans, to invest up to $5.0 million in the aggregate in future offerings of capital stock, at market terms, subject to certain exceptions and conditions.

We incurred debt issuance costs of $0.7 million in connection with the term loans, composed of the facility fee of $0.4 million and other expenses paid to the Lenders of $0.2 million and external legal fees of $0.1 million. These debt issuance costs, together with the fair value of the embedded derivative of $4.5 million at inception of the K2HV Loan

Agreement, resulted in a debt discount of $5.1 million which is being amortized to interest expense over the term of the K2HV Loan Agreement using the effective interest method. As of December 31, 2025, the fair value of the term loan was estimated to be approximately $29.5 million. The fair value was measured using a discounted cash flow analysis, specifically the yield method, which requires the use of Level 3 inputs in the fair value hierarchy.

The outstanding term loans payable consists of the following:

	December 31,	
	2025	2024
	(in thousands)	
Note payable	$ 30,000	$30,000
Unamortized debt discount and issuance costs	(1,764)	(3,905)
Net carrying amount of note payable	28,236	26,095
Less: current portion of note payable	(28,236)	—
Note payable, net, less current portion	$ —	$26,095

The following table provides the components of interest expense related to the K2HV Loan Agreement:

	Year Ended December 31,	
	2025	2024
	(in thousands)	
Interest expense based on coupon interest rate (10.3%) of outstanding term loans	$3,133	$2,094
Amortization of debt discount and accretion of Final Fee (8.94%)	2,141	1,217
Total interest expense on effective rate (19.24%)	$5,274	$3,311

The following table presents the total principal payments and Final Fee contractually scheduled to become due during each of the years ended December 31 (in thousands):

2026	$ 9,600
2027	14,400
2028	8,085
Total principal payments and Final Fee	$32,085

We have presented the full amount of the term loan payable, net of discount and issuance costs, as a current liability as of December 31, 2025, given the potential that the loan may be repaid in the subsequent twelve months.

9. Common and Preferred Stock

Common Stock

We are authorized to issue 200,000,000 shares of common stock. Common stockholders are entitled to dividends if and when declared by our board of directors. As of December 31, 2025, no dividends on common stock had been declared by us.

On May 10, 2022, we entered into a Sales Agreement (the "Sales Agreement") with Leerink Partners, LLC ("Leerink Partners"), pursuant to which we are entitled to offer and sell shares of our common stock (the "ATM Offering"). The Sales Agreement provides that Leerink Partners will be entitled to a sales commission equal to 3.0% of the gross sales price per share of all shares sold under the ATM Offering. We were initially entitled to offer and sell shares of our common stock having an aggregate offering price of up to $50.0 million in the ATM Offering, which was subsequently increased in February 2024 to $75.0 million. On May 8, 2025, we filed a new Registration Statement on Form S-3 and filed a new prospectus covering the ATM Offering (the "Prospectus") for the offer and sale of shares of our common stock with an aggregate offering price of up to $12.5 million in the ATM Offering as a result of being subject to General Instruction I.B.6 of Form S-3 (the "Baby Shelf Limitation"). As of December 31, 2025, we remain subject to the Baby Shelf Limitation. During the year ended December 31, 2025, we sold an aggregate of 3,626,701 shares under the ATM Offering at an average price of $1.77 per share for net proceeds of $5.9 million after deducting sales commissions and offering expenses. During the year ended December 31, 2024, we sold an aggregate of 5,272,538 shares under the ATM Offering at an average price of $4.71 per share for net proceeds of $23.5 million after deducting sales commissions and offering expenses.

We have reserved shares of common stock for issuance as follows:

	As of December 31,	
	2025	2024
Shares reserved for exercises of outstanding stock options	9,954,872	7,634,937
Shares reserved for exercises of warrants	—	58,904
Shares reserved for issuance under the 2021 Employee Stock Purchase Plan	560,929	433,264
Shares reserved for future issuance under the 2021 Stock Incentive Plan	2,039,026	1,919,921
Shares reserved for future issuance as part of the K2HV Loan Agreement conversion feature	791,364	791,364
Total shares reserved for future issuance	13,346,191	10,838,390

Preferred Stock

We are authorized to issue 5,000,000 shares of undesignated preferred stock in one or more series. As of December 31, 2025, no shares of preferred stock were issued or outstanding.

10. Stock-based Compensation

2017 Stock Incentive Plan

In December 2017, we adopted the 2017 Stock Incentive Plan (the "2017 Plan"), as amended and restated, pursuant to which we have outstanding stock options. No future awards may be granted under the 2017 Plan.

2021 Stock Incentive Plan

In April 2021, our board of directors adopted and our stockholders approved the 2021 Stock Incentive Plan (the "2021 Plan"), which became effective immediately prior to the effectiveness of our initial public offering (the "IPO"). As a result of the adoption of the 2021 Plan, no further awards will be made under the 2017 Plan.

The 2021 Plan provides for the grant of incentive stock options ("ISOs"), non-qualified stock options, RSAs, RSUs, stock appreciation rights and other stock-based awards. Our employees, officers, directors, consultants and advisors are eligible to receive awards under the 2021 Plan. The terms of awards, including vesting requirements, are determined by our board of directors, subject to the provisions of the 2021 Plan.

We initially registered 3,352,725 shares of common stock under the 2021 Plan, pursuant to a Registration Statement on Form S-8 filed with the SEC on April 30, 2021, which was comprised of (i) 2,843,116 shares of common stock reserved for issuance under the 2021 Plan, (ii) 31,884 shares of common stock originally reserved for issuance under the 2017 Plan that became available for issuance under the 2021 Plan upon the completion of the IPO, and (iii) 477,725 shares of unvested restricted stock subject to repurchase by us that may become issuable under the 2021 Plan following such repurchase. The 2021 Plan also provides that an additional number of shares will be added annually to the shares authorized for issuance under the 2021 Plan on the first day of each fiscal year, beginning with the fiscal year ending December 31, 2022 and continuing until, and including, the fiscal year ending December 31, 2031. The number of shares added each year will be equal to the lesser of (i) 5% of the number of outstanding common stock on such date and (ii) such amount as determined by the board of directors. As of December 31, 2025, a total of 7,152,859 additional shares have been added to the total shares authorized for issuance under the 2021 Plan in accordance with these terms.

As of December 31, 2025, there were 2,039,026 shares available for future issuance under the 2021 Plan.

2021 Employee Stock Purchase Plan

The 2021 ESPP permits eligible employees to purchase shares of our common stock at a discount and consists of consecutive six-month offering periods, each containing a single six-month purchase period. On the first day of each offering period, each employee who is enrolled in the 2021 ESPP will automatically receive an option to purchase up to a whole number of shares of our common stock. The purchase price of each of the shares purchased, in a given purchase period, will be equal to 85% of the lesser of the closing price of a share of our common stock on (i) the first day of the offering period, or (ii) the last day of the offering period. During the year ended December 31, 2025, 96,470 shares of our common stock were purchased by participants of the 2021 ESPP for total proceeds of $0.1 million. During the year ended December 31, 2024, 73,849 shares of our common stock were purchased by participants of the 2021 ESPP for total proceeds of $0.1 million.

Inducement Stock Option Awards

During the year ended December 31, 2025, we granted 201,720 Inducement Awards. No Inducement Awards were granted during the year ended December 31, 2024. The valuation assumptions and activity associated with Inducement Awards are included in the stock option activity described below.

Stock-Based Compensation Expense

Total stock-based compensation expense recognized in the consolidated statements of operations was as follows:

	Year Ended December 31,	
	2025	2024
	(in thousands)	
Research and development	$3,201	$4,606
General and administrative	3,044	4,220
Total stock-based compensation	$6,245	$8,826

RSU Activity

We have granted RSUs to our employees under the 2021 Plan. As of December 31, 2024, all RSUs granted to employees or non-employees had become fully vested or had been previously forfeited. No RSUs were granted during the year ended December 31, 2025. Accordingly, we had no unrecognized stock-based compensation expense related to unvested RSUs as of December 31, 2025. The aggregate fair value of RSUs that vested during the year ended December 31, 2024, based upon the fair value of the stock underlying the RSUs on the day of vesting was $1.0 million.

Stock Option Activity

The fair value of stock options granted during the years ended December 31, 2025 and 2024 was calculated on the date of grant using the following weighted-average assumptions:

	Year Ended December 31,	
	2025	2024
Risk-free interest rate	4.4 %	4.0 %
Expected term (in years)	5.9	6.0
Expected annual dividend yield	— %	— %
Expected volatility	95.4 %	92.7 %

The valuation assumptions were determined as follows:

- *Risk-free interest rate:* The yield on zero-coupon U.S. Treasury securities for a period that was commensurate with the expected term of the awards.
- *Expected term (in years):* The expected term of the awards represents the period of time that the awards were expected to be outstanding. We use the simplified method to estimate the expected term due to a lack of sufficient historical exercise data to provide a reasonable basis on which to estimate the expected term. Under this method, the expected term equals the average of the vesting term and the original contractual term of the option.
- *Expected annual dividend yield:* The estimated dividend yield was zero because we have no history of paying dividends, and do not intend to do so in the foreseeable future.
- *Expected volatility:* The expected term of stock options granted by us is generally longer than the trading history of our common stock since the IPO on April 30, 2021. Accordingly, we estimated the expected volatility based on the historical volatility of a group of publicly-traded companies with similar characteristics to us, including stage of product development and therapeutic focus within the life sciences industry. The historical volatility of these companies was calculated over a period of time commensurate with the expected term of the stock option.

Using the Black-Scholes option pricing model, the weighted-average grant date fair value of stock options granted during the years ended December 31, 2025 and 2024 was $1.16 and $3.43 per share, respectively.

The following table summarizes stock option activity during the year ended December 31, 2025:

	Options Outstanding			
	Number of Options	Weighted-Average Exercise Price per Share	Weighted-Average Remaining Contractual Life (in years)	Aggregate Intrinsic Value (in millions)
Outstanding at December 31, 2024	7,634,937	$6.24		
Granted	3,390,691	$1.49		
Exercised	—	$ —		
Cancelled	(1,070,756)	$5.43		
Outstanding, December 31, 2025	9,954,872	$4.71	7.16	$—
Exercisable at December 31, 2025	6,203,856	$6.19	6.26	$—

No stock options were exercised during the year ended December 31, 2025. The aggregate intrinsic fair value of stock options exercised during the year ended December 31, 2024 was nominal.

As of December 31, 2025, we had unrecognized stock-based compensation expense related to unvested stock options of $5.4 million, which we expect to recognize over a weighted-average period of approximately 1.9 years.

11. Commitments and Contingencies

Leases

Our leases are as follows:

- An April 2019 operating lease for approximately 9,949 square feet of office and laboratory space which commenced in April 2019 and terminated in March 2024. The lease was subject to fixed-rate rent escalations and provided for a term extension option, which was not reasonably certain of exercise. In May 2022, we entered into a sublease agreement with Crossbow Therapeutics, Inc. (“Crossbow”), to sublease the entirety of this space. The total rent due to us for the subleased premises over the term of the sublease was approximately $2.1 million, which is greater than the annual rent paid by us to the landlord for the leased premises over the same term. Rent expense associated with the April 2019 operating lease was recognized net of the lease income generated from the sublease agreement. Lease income was allocated to either research and development expense or general and administrative expense in the same manner as the associated rent expense was allocated. Crossbow was obligated to pay all real estate taxes and costs related to the subleased premises, including cost of operations, maintenance, repair, replacement, and property management. The sublease with Crossbow terminated in March 2024 concurrently with the termination of the lease.
- A June 2021 operating lease for approximately 25,778 square feet of office and laboratory space, which commenced in May 2022 and terminates in May 2030. The lease is subject to fixed-rate rent escalations and provided for $5.7 million in tenant improvements, which we fully utilized, and a term extension option, which was not reasonably certain of exercise. We provided the landlord with a security deposit in the form of a letter of credit in the amount of $1.0 million upon signing. In May 2025, the letter of credit was reduced to $0.7 million in accordance with the terms of the lease. The balance of the letter of credit is included in restricted cash and cash equivalents as of December 31, 2025 and 2024.

The following table summarizes operating lease costs:

	Year Ended December 31,	
	2025	2024
	(in thousands)	
Operating lease costs	$1,565	$1,918
Variable lease costs	1,073	1,280
Sublease income	—	(398)
Total	$2,638	$2,800

Cash paid for amounts included in the measurement of lease liabilities were $2.3 million and $2.5 million for the years ended December 31, 2025 and 2024, respectively.

The following table summarizes the lease term and discount rate for operating leases:

	As of December 31,	
	2025	2024
Weighted-average remaining lease term (years)	4.4	5.4
Weighted-average discount rate	8.0 %	8.0 %

As of December 31, 2025, the future minimum lease payments due under our lease for each of the next five years ended December 31, and thereafter are as follows (in thousands):

2026	$ 2,403
2027	2,471
2028	2,542
2029	2,614
2030	1,102
Total future minimum lease payments	11,132
Less: imputed interest	(1,697)
Total lease liability	$ 9,435

License Agreements

Harpoon License

In March 2018, we entered into an Assignment and License Agreement (the "Harpoon Agreement") with Harpoon Therapeutics, Inc. ("Harpoon"), a clinical-stage immune-oncology company developing a novel class of T cell engagers to fight cancer and other diseases. Under the terms of the Harpoon Agreement, Harpoon granted us a license to use its intellectual property, solely to make, have made, use, sell, offer for sale and import covered products in the licensed field and Harpoon sold, assigned and transferred other specific patents to us (the "Harpoon License").

On October 19, 2018, we entered into the First Amended and Restated Assignment and License Agreement with Harpoon, which amended certain terms of the original agreement, but did not change the terms of the license to us, patent assignments between the parties or payments due to Harpoon. Further, on December 20, 2019, the companies entered into the Second Amended and Restated Assignment and License Agreement, which also amended certain terms of the original agreement to expand the licenses and assignments for specific patents granted to us or by us to Harpoon. In exchange for these additional terms, Harpoon agreed to reimburse up to $75,000 of our legal costs. Additionally, we agreed to pay to Harpoon royalties on future net sales and pay minimum annual royalties of $250,000 upon achievement of our first commercial sale.

Under the terms of the Harpoon License, we paid an upfront fee of $500,000 in 2018 and are obligated to reimburse Harpoon for certain legal costs incurred by Harpoon. In addition, we are obligated to pay Harpoon royalties based on future net sales and have agreed to pay a minimum annual royalty payment at an amount in the low hundreds of thousands of dollars upon achievement of our first commercial sale. In 2018, we recorded the upfront fee as research and development expense upon payment as the intellectual property was acquired prior to regulatory approval and does not have an alternative future use. The royalty payments are contingent upon sales and, as such, the royalty payments made to Harpoon will be considered probable and estimable and treated as cost of sales when incurred. Accordingly, at the commencement of sales, we will account for the royalty payments as cost of sales equal to the greater of a percentage in the low-single digits of the net sales of the patent-covered products or a minimum annual royalty payment at an amount in the low hundreds of thousands of dollars. Any legal fees incurred in connection with the Harpoon Agreement will be expensed as incurred.

The Harpoon License will expire on a country-by-country basis upon the expiration of the last to expire patent or patent application included in the licensed patents within the applicable country. We have the right to terminate the Harpoon License upon 30 days prior written notice to Harpoon, and either party may terminate for a material breach if such breach is not cured within a specified number of days.

Adimab 2018 License

In March 2018, we entered into a Development and Option Agreement (the "Adimab Agreement") with Adimab LLC ("Adimab"), a company specializing in antibody discovery, humanization and optimization. Under the terms of the Adimab Agreement, Adimab granted us the rights to initiate certain research initiatives on a specified number of targets. Adimab also granted us a license to certain Adimab core technologies, antibodies and products applicable to certain targets ("Adimab License").

In August 2020, we entered into Amendment One to the Development and Option Agreement with Adimab, which extended the period of time for us to evaluate candidate antibodies in advance of electing to exercise the option to acquire exclusive rights to licensed antibodies (the "Evaluation Term"), but did not otherwise change the terms of the Adimab License. The Evaluation Term was then further extended in December 2020 by entering into Amendment Two to the Development and Option Agreement, through delivery of a non-refundable payment of $100,000 by us to Adimab, which was creditable toward the option fee. The non-refundable payment was recorded immediately as research and development expense in the consolidated statements of operations. In July 2021, we entered into the First Amended and Restated Development and Option Agreement with Adimab to extend the target selection time period and to allow for us to add additional antibody discovery programs to be covered under the agreement, but otherwise retaining all other material provisions of the Adimab License.

Under the terms of the Adimab License, we must pay both an upfront fee and final fee of $200,000 for all research programs. We must also pay Adimab milestone fees with respect to each research program ranging from $150,000 to $200,000 based on the achievement of technical milestones by Adimab for the applicable research program. In order to exercise any options in the Adimab Agreement, we must pay a $500,000 fee for each target option exercised.

For each target option exercised, we are also obligated to pay certain milestones ranging from $1.0 million to $4.0 million for certain clinical and commercialization achievements. Additionally, for licensed products sold during the applicable royalty term, we must pay Adimab royalties at percentages in the low-to-mid single digits.

The Adimab Agreement will expire upon the expiration of any options or if an option is exercised, on a country-by-country and licensed product-by-licensed product basis on the expiration of the last royalty term for a licensed product in the particular country. As of December 31, 2025, we have exercised the target option for one target covered under the Adimab Agreement. As of December 31, 2025, we have not made any payments for clinical or sales-based milestones or royalties pursuant to the Adimab Agreement.

Adimab 2022 Collaboration

In November 2022, we entered into a Collaboration Agreement (the "Adimab Collaboration Agreement") with Adimab. Under the terms of the Adimab Collaboration Agreement, Adimab has agreed to provide us with services to help discover, generate, optimize and/or engineer specified proteins. In addition, Adimab will provide us with a license to certain Adimab core technologies, patents and products applicable to certain targets ("Adimab Collaboration License"), separate from those provided in the 2018 Adimab Agreement.

Under the terms of the Adimab Collaboration Agreement, we must pay Adimab milestone fees with respect to each research program ranging from $500,000 to $1.5 million based on the achievement of certain clinical milestones by us. The Adimab Collaboration Agreement provides us with an option to obtain any development and commercialization licenses from Adimab used in products. To exercise an option, we must pay a $500,000 fee for each product option exercised.

For each product sold, we are also obligated to pay certain milestones ranging from $1.0 million to $2.0 million based on the achievement of the first commercial sale in certain countries. Additionally, for licensed products sold during the applicable royalty term, we must pay Adimab royalties at percentages in the low-to-mid single digits.

The Adimab Collaboration Agreement will expire upon the expiration of any options or if an option is exercised, on a country-by-country and licensed product-by-licensed product basis on the expiration of the last royalty term for a licensed product in the particular country. As of December 31, 2025, we have not exercised any options and have not made any payments for clinical or sales-based milestones or royalties pursuant to the Adimab Collaboration Agreement.

The Tax Cuts and Jobs Act (“TCJA”) requires taxpayers to capitalize and amortize research and experimental (“R&E”) expenditures under Section 174 for tax years beginning after December 31, 2021. For tax years prior to the year ended December 31, 2025, we amortized these costs for tax purposes over 5 years for research and development (“R&D”) performed in the U.S. and over 15 years for R&D performed outside the U.S. On July 4, 2025, the One Big Beautiful

Bill Act ("OBBBA") was signed into law. The legislation includes significant corporate tax reforms, including the permanent reinstatement of the ability to deduct domestic R&D expenditures as incurred beginning in tax year 2025, replacing the previous requirement to amortize these such expenditures over 5 years. The requirement to amortize R&D expenditure incurred outside the U.S. over a period of 15 years was unchanged by the OBBBA. With respect to domestic R&D expenditures capitalized prior to the enactment of the OBBBA, we have elected to amortize these costs for tax purposes at a rate of 50% of the total capitalized costs during the year ended December 31, 2025, and the remaining 50% is expected to be amortized during tax year 2026.

Following the enactment of the OBBBA, we capitalized R&E expenditures totaling $6.8 million during the year ended December 31, 2025. Prior to the enactment of the OBBBA, we capitalized R&E expenditures totaling $50.2 million during the year ended December 31, 2024.

We evaluated the positive and negative evidence bearing upon our ability to realize the deferred tax assets as of December 31, 2025 and 2024. We considered our cumulative net losses and concluded as of December 31, 2025 and 2024, that it was more likely than not that we would not realize the benefits of the deferred tax assets. Accordingly, a full valuation allowance was established against the net deferred tax assets as of December 31, 2025 and 2024. The valuation allowance increased by $18.8 million during the year ended December 31, 2025 as the result of operating losses generated with no corresponding financial statement benefit and partially offset by a decrease in deferred assets related to capitalized R&E expenditures as a result of the enactment of the OBBBA described above. The valuation allowance increased by $20.7 million during the year ended December 31, 2024 primarily due to an increase in deferred tax assets related to capitalized R&E expenditures, and as the result of operating losses generated with no corresponding financial statement benefit.

We have incurred net operating losses since inception. As of December 31, 2025 and 2024, we had federal net operating loss carryforwards of $215.3 million and $126.8 million, respectively, available to reduce future federal taxable income. The carryforwards generated from losses incurred prior to January 1, 2018 will expire in 2037. The carryforwards generated from losses incurred after December 31, 2017 do not expire. As of December 31, 2025, federal net operating loss carryforwards includes $215.2 million of carryforwards that do not expire. The TCJA enacted on December 22, 2017 limits a taxpayer's ability to utilize a net operating loss deduction in a year to 80% taxable income for federal net operating losses arising in tax years beginning after December 31, 2017. As of December 31, 2025 and 2024, we had state net operating loss carryforwards of $153.7 million and $76.8 million, respectively, available to reduce future state taxable income, which expire at various dates beginning in 2037.

As of December 31, 2025 and 2024, we had federal research and development tax credit carryforwards of $6.5 million and $4.9 million, respectively, available to reduce future federal tax liabilities, which expire at various dates beginning in 2042. We had state research and development tax credit carryforwards as of December 31, 2025 and 2024 of $1.6 million and $1.3 million, respectively, available to reduce future state tax liabilities, which expire at various dates beginning in 2034.

Utilization of our net operating loss carryforwards and research and development tax credit carryforwards may be subject to a substantial annual limitation under Section 382 of the Internal Revenue Code of 1986 due to ownership changes that have occurred previously or that could occur in the future. These ownership changes may limit the amount of carryforwards that can be utilized annually to offset future taxable income. In general, an ownership change, as defined by Section 382, results from transactions increasing the ownership of certain stockholders or public groups in the stock of a corporation by more than 50% over a three-year period.

We completed a Section 382 study for the period of January 22, 2018, through December 31, 2022 and identified three ownership changes that occurred on June 10, 2019, August 2, 2019, and August 31, 2022 for Section 382 purposes. As we experienced these ownership changes, all pre-change net operating loss and research and development tax credit carryforwards are subject to limitation. Due to the unlimited carryover period for net operating losses generated after December 31, 2017, none of our federal net operating losses will expire unused. A portion of our state net operating losses, and federal and state research and development tax credits are expected to expire unused. We have analyzed the impact of these limitations on our attributes and included the impact of these limitations in our deferred tax assets as of December 31, 2025 and 2024.

We have not recorded any reserves for uncertain tax positions as of December 31, 2025 and 2024. We have conducted a study of research and development tax credits for tax years 2018 through 2020. The amounts of federal and state research and development tax credit carryforwards presented above have reflected the results from the study. A full valuation allowance has been provided against our research and development credits.

We file tax returns as prescribed by the tax laws of the jurisdictions in which we operate. In the normal course of business, we are subject to examination by federal and state jurisdictions, where applicable. There are currently no pending tax examinations. The statute of limitations for assessment by the Internal Revenue Service, or IRS, and state tax authorities is closed for tax years prior to 2022, although carryforward attributes that were generated prior to 2022 may still be adjusted upon examination by the IRS or state tax authorities if they either have been or will be used in a future period.

13. Related Parties

In May 2022, we entered into a sublease agreement with Crossbow, for which entities affiliated with MPM Capital ("MPM Capital") are also beneficial owners, to sublease the entirety of our office and laboratory space in Cambridge, Massachusetts. Luke Evnin, Ph.D., the chair of our board of directors, co-founded MPM Capital and serves as Managing Director of MPM Capital. Briggs Morrison, who serves on our board of directors, serves as Executive Partner of MPM Capital and Chief Executive Officer of Crossbow. The term of the sublease agreement commenced in June 2022 and ended in March 2024, with no option to extend (see Note 11, *Commitments and Contingencies*). We received cash payments under our sublease of $0.4 million during the year ended December 31, 2024. In addition, we received $0.2 million from Crossbow in June 2022 as a security deposit, which was remitted to Crossbow following the termination of the sublease.

14. Defined Contribution Benefit Plan

We sponsor a defined contribution benefit plan under Section 401(k) of the Internal Revenue Code (the "401(k) Plan"). The 401(k) Plan covers all employees who meet defined minimum age and service requirements, and allows participants to contribute a portion of their annual compensation, subject to statutory limitations. We match 50% of each participant's contribution up to a maximum of 6% of such participant's eligible compensation paid in a calendar year. We recognized expenses of $0.3 million related to matching contributions during each of the years ended December 31, 2025 and 2024.

15. Net Loss Attributable to Common Stockholders per Share

For purposes of the diluted net loss attributable to common stockholders per share calculation, outstanding stock options, the conversion option derivative under the K2HV Loan Agreement, common stock to be issued under the 2021 ESPP, and warrants to purchase common stock are considered to be potentially dilutive securities, however the following weighted-average amounts were excluded from the calculation of diluted net loss attributable to common stockholders per share because their effect would be anti-dilutive:

	December 31,	
	2025	2024
Outstanding stock options	9,954,872	7,634,937
Warrants to purchase common stock	—	58,904
Common stock to be issued under the 2021 ESPP	85,368	67,445
Total	10,040,240	7,761,286

Basic net loss per share is computed by dividing net loss by the weighted-average number of shares of common stock outstanding during the applicable period. In computing diluted net loss per share, only potential shares of common stock that are dilutive are included. We considered each issue or series of issues of potential shares of common stock separately when determining whether potential shares of common stock are dilutive or anti-dilutive. We made such determination in sequence from the most dilutive to the least dilutive and concluded that the conversion option derivative under the K2HV Loan Agreement is dilutive to net loss per share for the years ended December 31, 2025 and 2024. Pursuant to FASB ASC Topic 260, *Earnings Per Share*, we applied the if-converted method to determine the effect of the conversion option derivative under the K2HV Loan Agreement on the diluted earnings per share calculations. Pursuant to such method, we adjusted the numerator for the gain recognized during each period in net loss due to the change in the fair value of the conversion option derivative liability under the K2HV Loan Agreement and the interest expense recognized during each period that is attributable to the portion of the term loan that is subject to the conversion option. We also increased the denominator to include the weighted-average number of additional shares of common stock that would have been outstanding if the conversion option derivative under the K2HV Loan Agreement

were converted at the beginning of the period or at the inception of the K2HV Loan Agreement for the years ended December 31, 2025 and 2024, respectively. The following table summarizes the computations of basic and diluted net loss per share as presented in our consolidated statements of operations:

	Year Ended December 31,

16. Segment Information

We have one reportable segment which focuses on the discovery and development of cancer therapeutics. The segment derives its revenues from the Collaboration Agreement with Jazz (see Note 4, *Collaboration and License Agreement*).

Our CODM manages our operations on an integrated basis for the purpose of allocating resources. When evaluating our financial performance, our CODM regularly reviews total expenses and expenses by function and makes decisions using this information based on the performance of the enterprise as a whole. Our CODM primarily evaluates the performance of the enterprise based on results that have a direct impact on our available cash and cash equivalents and accordingly places less significance on non-cash expenses such as stock-based compensation and depreciation expenses in determining how to allocate resources.

Segment assets regularly reviewed by our CODM include measures of liquidity, primarily available cash and cash equivalents, and are consistent with the presentation of cash and cash equivalents reported in our consolidated balance sheets.

The following is a summary of our segment and consolidated net loss, including significant segment expenses:

Werewolf Therapeutics, Inc.
Notes to Condensed Consolidated Financial Statements
(unaudited)

1. Nature of Business

Werewolf Therapeutics, Inc. was incorporated in the state of Delaware in October 2017. As used throughout these unaudited, condensed consolidated financial statements, the terms "Werewolf," the "Company," "we," "us," and "our" refer to the business of Werewolf Therapeutics, Inc., and its wholly owned subsidiary. We are an innovative biopharmaceutical company pioneering the development of therapeutics engineered to stimulate the body's immune system for the treatment of cancer and other immune-mediated conditions. Our headquarters are located in Watertown, Massachusetts.

Since inception, we have devoted substantially all of our efforts and financial resources to organizing and staffing the company; business planning; raising capital; developing and optimizing our platform technology; identifying potential product candidates; enhancing our intellectual property portfolio; undertaking research, preclinical studies, and clinical trials; and enabling manufacturing for our development programs. We are subject to risks and uncertainties common to early-stage companies in the biotechnology industry including, but not limited to, technical risks associated with the successful research, development and manufacturing of product candidates, development by competitors of new technological innovations, dependence on key personnel, protection of proprietary technology, compliance with government regulations and the ability to secure additional capital to fund operations. Current and future programs will require significant research and development efforts, including extensive preclinical and clinical testing and regulatory approval prior to commercialization. These efforts require significant amounts of additional capital, adequate personnel and infrastructure. Even if our product development efforts are successful, it is uncertain when, if ever, we will realize significant revenue from product sales.

2. Strategic Review and Liquidity

In February 2026, we adopted a restructuring plan to extend our capital resources (the "2026 Restructuring") in connection with initiating a process to explore a full range of strategic alternatives to advance our promising platform and drug development pipeline to maximize stockholder value. We have engaged Piper Sandler & Co. ("Piper Sandler") to serve as exclusive financial advisor to assist in the strategic review process. Measures contemplated during the strategic review process include the asset purchase agreement described in Note 4, and may also include, among other options, a sale of the Company, a business combination or merger, a sale of our assets, licensing or collaboration arrangements, or other strategic transactions. There can be no assurance that the strategic review process will result in any agreement or transaction that will enhance stockholder value, or any agreement or transaction at all.

As part of the 2026 Restructuring, our board of directors approved a reduction in force in February 2026, representing 64% of our workforce to better align our resources with our pursuit of strategic alternatives. In May 2026, an additional reduction in force occurred, representing 36% of our workforce at that time. See Note 12 for further discussion of the impact of the 2026 Restructuring.

We had cash and cash equivalents of $22.0 million at June 30, 2026. The outcome of our strategic review process will inform future development plans and the costs associated with those efforts. We expect to incur substantial operating losses and negative cash flows from operations for the foreseeable future as we continue to execute on our strategic review process. Our ability to maintain ongoing operations is dependent on our ability to obtain additional financing, as to which we can make no assurance. These conditions raise substantial doubt about our ability to continue as a going concern for at least twelve months from the date these condensed consolidated financial statements are issued in this Quarterly Report. There can be no assurance that the strategic review process will result in any agreement or transaction that will mitigate the conditions which raise substantial doubt about our ability to continue as a going concern, or at all.

Our condensed consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and settlement of liabilities and commitments in the ordinary course of business. Our condensed consolidated financial statements do not include any adjustments that might result from the outcome of the conditions described above.

3. Summary of Significant Accounting Policies

Basis of Presentation and Consolidation

The accompanying condensed consolidated financial statements as of June 30, 2026 and December 31, 2025, and for the three and six months ended June 30, 2026 and 2025, have been prepared in accordance with the rules and regulations

of the Securities and Exchange Commission (the "SEC") and generally accepted accounting principles in the United States of America ("GAAP") as found in the Accounting Standards Codification ("ASC") and Accounting Standards Updates ("ASU") of the Financial Accounting Standards Board ("FASB") for condensed consolidated financial information. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, these condensed consolidated financial statements reflect all normal recurring adjustments which are necessary for a fair presentation of our financial position and results of our operations, as of and for the periods presented. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto contained in our Annual Report on Form 10-K for the year ended December 31, 2025 filed with the SEC on March 27, 2026 (the "2025 Annual Report").

The information presented in the condensed consolidated financial statements and related notes as of June 30, 2026, and for the three and six months ended June 30, 2026 and 2025, is unaudited. The December 31, 2025 condensed consolidated balance sheet included herein was derived from the audited financial statements as of that date, but does not include all disclosures, including notes, required by GAAP for complete financial statements.

Interim results for the three and six months ended June 30, 2026 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2026, or any future period.

The accompanying condensed consolidated financial statements include the accounts of Werewolf Therapeutics, Inc. and its wholly owned subsidiary, Werewolf Therapeutics Mass Securities, Inc. All intercompany transactions and balances have been eliminated in consolidation.

Summary of Significant Accounting Policies

The significant accounting policies and estimates used in the preparation of the condensed consolidated financial statements are described in our audited financial statements as of and for the year ended December 31, 2025, and the notes thereto, which are included in our 2025 Annual Report. Other than as set forth below, there have been no material changes in our significant accounting policies during the six months ended June 30, 2026.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Significant estimates and assumptions reflected in these condensed consolidated financial statements include, but are not limited to, those related to accrued expenses and assumptions used in the valuation of stock-based compensation expense and the fair value of the derivative liability. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In November 2024, the FASB issued ASU No. 2024-03, *Income Statement — Reporting Comprehensive Income — Expense Disaggregation Disclosures (Subtopic 220-04)* ("ASU No. 2024-03"), which requires the disclosure of additional information about specific expense categories in the notes to the consolidated financial statements at interim and annual reporting periods. The provisions of ASU No. 2024-03 are effective for annual reporting periods beginning after December 31, 2026, with early adoption permitted. We are currently evaluating the impact that this standard will have on our consolidated financial statements.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on our consolidated financial statements upon adoption.

Subsequent Events

We have evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the financial statements were issued. Other than as described in Note 13, we did not identify any subsequent events that require adjustment or disclosure in the condensed consolidated financial statements.

4. Collaboration Revenue

In April 2022, we entered into an exclusive global collaboration and license agreement (the "Collaboration Agreement") with Jazz Pharmaceuticals Ireland Limited ("Jazz") pursuant to which we granted Jazz certain licenses to develop and commercialize products containing our Interferon alpha ("IFNα") INDUKINE™ molecule,

JZP898 (the "898 Program"), as well as products containing certain isolated recombinant polypeptides comprising IFNα that meet specified criteria (each such product, a "Licensed Product"). Under the Collaboration Agreement, we were responsible for certain preclinical development activities with respect to JZP898 and other development activities specified in mutually agreed upon development plans. Jazz had generally reimbursed us for the cost of such activities. Jazz is responsible for all other development and commercialization activities conducted to exploit the Licensed Products, including submission of an investigational new drug application ("IND") to the U.S. Food and Drug Administration (the "FDA"). In June 2024, we executed a transfer agreement (the "Transfer Agreement") to assign our rights in a development agreement with a contract manufacturer of JZP898 to Jazz. The execution of this Transfer Agreement was the last material performance obligation required of us under the Collaboration Agreement. We were eligible to receive up to $515.0 million in development and regulatory milestones, and up to $740.0 million in sales-based milestones for all Licensed Products upon meeting certain conditions.

On May 6, 2026 (the "Closing"), we entered into an asset purchase agreement (the "Purchase Agreement") with Jazz. Subject to the terms and conditions of the Purchase Agreement, we sold to Jazz the 898 Program for the development, manufacturing, commercialization, use and other exploitation of the Licensed Product. Pursuant to the Purchase Agreement and related ancillary agreements, in consideration for all material assets, properties, rights and interests used or held for use in the conduct of the 898 Program, Jazz paid us upfront consideration of $21.0 million, and has agreed to pay an additional $2.0 million upon the consent to the partial assignment of a certain license agreement, as and to the extent such agreement relates to the conduct of the 898 Program. Jazz also assumed certain liabilities of ours relating to the 898 Program arising after the Closing.

The Purchase Agreement contains customary representations, warranties and covenants of each of us and Jazz. The Purchase Agreement further provides that, subject to certain limitations, we and Jazz will each indemnify the other for certain losses arising from such breaches of representations, warranties and covenants and liabilities allocated to such party pursuant to the terms of the Purchase Agreement.

In addition, the Purchase Agreement contains a non-competition covenant pursuant to which we agreed not to exploit any IFNα or variant thereof, or any product containing any IFNα or variant thereof, for a period of eighteen (18) months after the Closing, subject to customary exceptions for change of control transactions.

Effective as of the Closing, the Collaboration Agreement was terminated, and as a result, we are no longer eligible to receive payment for meeting the conditions of the development and regulatory milestones or sales-based milestones for any Licensed Products.

Concurrently with the Purchase Agreement, we also entered into a license agreement (the "New License Agreement") with Jazz to license to them certain patents and "know-how" (the "Licensed Patents" and "Licensed Know-How," respectively). The Licensed Patents and the Licensed Know-How are necessary in the development of the 898 Program, however are not exclusive to the 898 Program.

Accounting Analysis under ASC 606

Identification of the Contracts(s)

We have previously concluded that the Collaboration Agreement represents a contract with a customer within the scope of ASC Topic 606, *Revenue from Contracts with Customers* ("ASC 606").

We have assessed the Purchase Agreement and the New License Agreement, and have concluded that they represent a single combined arrangement due to the fact that they were negotiated as a package with a single commercial objective. We have further concluded that the Purchase Agreement and the New License Agreement represent a modification to the Collaboration Agreement within the scope of ASC 606.

Identification of Promises and Performance Obligations

Previously, we have concluded that the license granted to Jazz under the Collaboration Agreement, and the corresponding "know-how" are not capable of being distinct from the other promises within the contract, and as such, determined that the license and the "know-how" combined with the other research and development services and supply represent a single combined performance obligation. Under the Purchase Agreement and the New License Agreement, Jazz continues to have rights to the same patents and "know-how" that were granted under the Collaboration Agreement. However, under the Purchase Agreement, we transferred ownership of certain patents and "know-how" to Jazz. At the time of the Closing, our performance obligation to Jazz had been fulfilled.

Determination of Transaction Price

We have assessed the Purchase Agreement and the New License Agreement, and have concluded that they represent a modification that results in an increase in the overall transaction price of the contract with Jazz. We've determined that the upfront consideration included in the Purchase Agreement of $21.0 million should be added to the overall transaction price.

The Purchase Agreement also includes a $2.0 million contingent payment that is payable to us upon the successful partial assignment of a certain license agreement. We've determined that this contingent payment represents variable consideration that should not be included in the transaction price. We used the most likely amount method to estimate variable consideration and estimated that the most likely amount of the contingent payment was zero at the Closing as the success of completing the partial assignment of the license agreement is highly susceptible to factors outside of our control.

The Collaboration Agreement included various development and regulatory and sales-based milestones. The payments associated with these milestones represented variable consideration that were excluded from the overall transaction price at the inception of the Collaboration Agreement. As of the Closing, we are no longer entitled to receipt of payment for any of the unpaid milestones included in the Collaboration Agreement. Accordingly, the unpaid milestone payments are no longer considered for inclusion in the overall transaction price as of the Closing.

We re-evaluate the transaction price at the end of each reporting period and as uncertain events are resolved or other changes in circumstances occur, and adjust the transaction price as necessary. During the period from the Closing through June 30, 2026, we did not recognize any adjustment to the transaction price associated with the contingent payment.

Revenue Recognition

As noted above, we have no remaining performance obligation to Jazz as of the Closing. Accordingly, we have recognized revenue of $21.0 million during the three and six months ended June 30, 2026 related to the increase in the overall transaction price described above. As of June 30, 2026, all consideration included in the overall transaction price has been recognized as revenue.

5. Financial Instruments and Fair Value Measurements

Our assets that are required to be measured at fair value on a recurring basis consist of money market funds classified as cash and cash equivalents on our condensed consolidated balance sheets as of June 30, 2026 and December 31, 2025.

Our liabilities that are required to be measured at fair value on a recurring basis consist of a derivative liability pursuant to a loan and security agreement (the "K2HV Loan Agreement") with K2 HealthVentures LLC ("K2HV") (see Note 7, *Term Loan*) on our condensed consolidated balance sheet as of December 31, 2025. We do not have any liabilities that are required to be measured at fair value on a recurring basis as of June 30, 2026.

The carrying amounts reflected in the condensed consolidated balance sheets for cash, prepaid expenses and other current assets, accounts payable and accrued expenses approximate their fair values, due to their short-term nature.

Assets measured at fair value on a recurring basis as of June 30, 2026 were as follows:

	Level 1	Level 2	Level 3	Total
		(in thousands)		
Assets:				
Money market funds	$21,489	$—	$—	$21,489
Total assets	$21,489	$—	$—	$21,489

Assets and liabilities measured at fair value on a recurring basis as of December 31, 2025 were as follows:

	Level 1	Level 2	Level 3	Total
		(in thousands)		
Assets:				
Money market funds	$56,548	$—	$ —	$56,548
Total assets	$56,548	$—	$ —	$56,548
Liabilities:				
Derivative liability	$ —	$—	$759	$ 759
Total liabilities	$ —	$—	$759	$ 759

There were no changes in valuation techniques used during the three or six months ended June 30, 2026.

Derivative Liability

In May 2024, we entered into the K2HV Loan Agreement, as further described in Note 7, which provided up to $60.0 million principal in term loans. Pursuant to the terms of the K2HV Loan Agreement, the lenders thereto could elect, prior to the full repayment of the term loans, to convert up to $5.0 million of the outstanding principal of the term loans into shares of our common stock at a conversion price of the lesser of $6.3182 per share (the "Fixed Price Conversion") and the lowest effective price per share of our first equity financing following the closing of the K2HV Loan Agreement (the "Variable Price Conversion"), subject to customary adjustments and 9.99% and 19.99% beneficial ownership limitations. The Fixed Price Conversion and Variable Price Conversion within the K2HV Loan Agreement were required to be bifurcated as a single compound embedded derivative carried at fair value, with subsequent changes in fair value recognized in the condensed consolidated statements of operations.

In May 2026, we repaid all amounts owed under K2HV Loan Agreement, as described in Note 7. Upon repayment of the outstanding principal of the term loan, the lenders' ability to exercise the conversion option expired.

The following table reconciles the change in fair value of the derivative liability based on Level 3 inputs:

	Six Months Ended June 30,	
	2026	2025
	(in thousands)	
Balance at beginning of period	$ 759	$2,829
Change in fair value	(707)	(190)
Extinguishment of note payable	(52)	—
Balance at end of period	$ —	$2,639

The change in fair value of the derivative liability is included in other income, net in the accompanying condensed consolidated statements of operations. We recognized nominal gains related to change in fair value of the derivative liability during the three months ended June 30, 2026 and 2025. We recognized gains of $0.7 million and $0.2 million related to change in fair value of the derivative liability during the six months ended June 30, 2026 and 2025, respectively. The fair value of the derivative liability immediately prior to repayment of the amounts owed under K2HV Loan Agreement was written off and is included in the loss on extinguishment of note payable in the accompanying condensed consolidated statement of operations in the amount of $0.1 million for the three and six months ended June 30, 2026.

The fair value of the derivative liability in the term loan was estimated using the Monte Carlo and the Black-Scholes models, each weighted based on the probable outcomes of various scenarios. A summary of the weighted-average significant unobservable inputs (Level 3 inputs) used in measuring the derivative liability in the term loan as of December 31, 2025 is as follows:

Stock price	$ 0.63
Volatility	105.0%
Risk-free rate (continuous)	3.5%
Expected term (in years)	0.25
Dividend yield (continuous)	—%

6. Accrued Expenses and Other Current Liabilities

Accrued expenses and other current liabilities were comprised as follows:

	June 30, 2026	December 31, 2025
	(in thousands)	
Contract research	$3,189	$2,376
Professional fees	2,316	1,388

Manufacturing	90	928
Restructuring costs	34	—
Accrued interest	—	266
Other	84	147
Total accrued expenses and other current liabilities	$5,924	$5,407

7. Term Loan

In May 2024, we, as borrower, entered into the K2HV Loan Agreement with K2HV (together with any other lender from time to time, the "Lenders"); K2HV, as administrative agent for the Lenders (in such capacity, together with its successors, the "Administrative Agent"); and Ankura Trust Company, LLC, as collateral trustee for the Lenders (the "Collateral Trustee"). The K2HV Loan Agreement provided up to $60.0 million principal in term loans. We received $30.0 million in gross loan proceeds at closing; $25.0 million from the first tranche commitment and $5.0 million from the second tranche commitment. A third tranche commitment of up to $10.0 million was available to be drawn at our option through June 30, 2025, subject to the achievement, as determined by the Administrative Agent in its discretion, of certain time-based, clinical and regulatory milestones and receipt of not less than $60.0 million in net cash proceeds from certain financing activities, with at least $50.0 million from a single offering of common stock. Our ability to draw upon the third tranche commitment expired on June 30, 2025 without being drawn upon. A fourth tranche commitment of up to $20.0 million was available to be drawn at our option through May 1, 2026, subject to Lender's review of our clinical, financial and operating plan and subject to the Lender's consent in its sole and absolute discretion. Our ability to draw upon the fourth tranche commitment expired on May 1, 2026 without being drawn upon.

The term loan was scheduled to mature on May 1, 2028, and we were obligated to make interest only payments for the first 24 months followed by equal interest and principal payments each month thereafter through the maturity date. The term loan bore a variable interest rate equal to the greater of (i) 10.3%, and (ii) the sum of (A) the prime rate last quoted in The Wall Street Journal (or a comparable replacement rate if The Wall Street Journal ceases to quote such rate) and (B) 1.8%. We could prepay, at our option, all, but not less than all, of the outstanding principal balance and all accrued and unpaid interest with respect to the principal balance being prepaid of the term loans, subject to a prepayment premium to which the Lenders were entitled and certain notice requirements. We were obligated to pay a final fee equal to 6.95% of the aggregate amount of the term loans funded (the "Final Fee") to occur upon the earliest of (i) the maturity date, (ii) the acceleration of the term loans, and (iii) the prepayment of the term loans. The Final Fee was being accreted to interest expense using the effective interest method over the life of the debt.

The Lenders had the option, prior to the full repayment of the term loans, to convert up to $5.0 million of outstanding principal of the term loans into shares of our common stock, pursuant to the Fixed Price Conversion or the Variable Price Conversion, subject to customary adjustments and 9.99% and 19.99% beneficial ownership limitations. There would

have been no prepayment penalty for any principal amount converted into common stock. We determined that the Fixed Price Conversion and the Variable Price Conversion within the K2HV Loan Agreement were required to be bifurcated as an embedded derivative under ASC Topic 815, *Derivatives and Hedging* ("ASC 815"), at fair value, and recorded as a discount on the debt on the date of issuance, with subsequent changes in fair value recognized in the accompanying condensed consolidated statements of operations. See Note 5 for further discussion on this derivative instrument.

As security for our obligations under the K2HV Loan Agreement, we granted the Lenders a first priority security interest on substantially all of our assets (other than intellectual property), subject to certain exceptions. The K2HV Loan Agreement contained customary representations and warranties, events of default and affirmative and negative covenants, including covenants that limited or restricted our ability to, among other things, dispose of assets, make changes to our business, management, ownership or business locations, merge or consolidate, incur additional indebtedness, incur additional liens, pay dividends or other distributions or repurchase equity, make investments, and enter into certain transactions with affiliates, in each case subject to certain exceptions. Upon the occurrence of an event of default, a default interest rate of an additional 5.0% per annum may have been applied to the outstanding loan balances, and the Lenders may have declared all outstanding obligations immediately due and payable and exercised all of their rights and remedies as set forth in the K2HV Loan Agreement and under applicable law.

Subject to certain conditions, we granted the Lenders the right, prior to repayment of the term loans, to invest up to $5.0 million in the aggregate in future offerings of capital stock, at market terms, subject to certain exceptions and conditions.

We incurred debt issuance costs of $0.7 million in connection with the term loans, composed of the facility fee of $0.4 million and other expenses paid to the Lenders of $0.2 million and external legal fees of $0.1 million. These debt issuance costs, together with the fair value of the embedded derivative of $4.5 million at inception of the K2HV Loan Agreement, resulted in a debt discount of $5.1 million which was being amortized to interest expense over the term of the K2HV Loan Agreement using the effective interest method.

On May 6, 2026, we entered into a letter agreement providing for the repayment by us of all amounts owed under the K2HV Loan Agreement. On May 6, 2026, upon payment by us of $31.4 million, all of our indebtedness and obligations to the Collateral Trustee and the Lenders under the K2HV Loan Agreement and any other related loan and collateral security documents was deemed paid and discharged in full. During the three and six months ended June 30, 2026, we recognized a loss on the extinguishment of debt in the amount of $3.4 million, primarily due to the write off of unamortized debt issuance costs and the unaccreted balance of the Final Fee.

The outstanding note payable consisted of the following as of December 31, 2025 (in thousands) :

Note payable	$30,000
Unamortized debt discount and issuance costs	(1,764)
Net carrying amount of note payable	$28,236

The following table provides the components of interest expense related to the K2HV Loan Agreement:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
	(in thousands)			
Interest expense based on coupon interest rate (10.3%) of outstanding term loans	$299	$ 781	$1,072	$1,554
Amortization of debt discount and accretion of Final Fee (8.94%)	176	520	771	1,010
Total interest expense on effective rate (19.24%)	$475	$1,301	$1,843	$2,564

We had presented the full amount of the term loan payable, net of discount and issuance costs, as a current liability as of December 31, 2025 based on our assessment that repayment of the loan was probable in the subsequent twelve months of December 31, 2025.

8. Common and Preferred Stock

Common Stock

We are authorized to issue 200,000,000 shares of common stock. Common stockholders are entitled to dividends if and when declared by our board of directors. As of June 30, 2026, no dividends on common stock had been declared by us.

On May 10, 2022, we entered into a Sales Agreement (the "Sales Agreement") with Leerink Partners LLC ("Leerink Partners"), pursuant to which we are entitled to offer and sell shares of our common stock (the "ATM Offering"). The Sales Agreement provides that Leerink Partners will be entitled to a sales commission equal to 3.0% of the gross sales price per share of all shares sold under the ATM Offering. We were initially entitled to offer and sell shares of our common stock having an aggregate offering price of up to $50.0 million in the ATM Offering, which was subsequently increased in February 2024 to $75.0 million. On May 8, 2025, we filed a new Registration Statement on Form S-3 and filed a new prospectus covering the ATM Offering (the "Prospectus") for the offer and sale of shares of our common stock with an aggregate offering price of up to $12.5 million in the ATM Offering as a result of being subject to General Instruction I.B.6 of Form S-3 (the "Baby Shelf Limitation"). As of June 30, 2026, we remain subject to the Baby Shelf Limitation. During the six months ended June 30, 2026, we did not sell any shares of our common stock under the ATM Offering. During the six months ended June 30, 2025, we sold 421,766 shares of our common stock at an average price of $1.33 per share for net proceeds of $0.3 million after deducting sales commissions and offering expenses.

We have reserved shares of common stock for issuance as follows:

	As of June 30, 2026	As of December 31, 2025
Shares reserved for exercises of outstanding stock options	8,206,431	9,954,872
Shares reserved for issuance under the 2021 Employee Stock Purchase Plan	1,044,648	560,929
Shares reserved for issuance under the 2021 Stock Incentive Plan	6,070,054	2,039,026
Shares reserved for issuance as part of the K2HV Loan Agreement conversion feature	—	791,364
Total shares reserved for future issuance	15,321,133	13,346,191

Preferred Stock

We are authorized to issue 5,000,000 shares of undesignated preferred stock in one or more series. As of June 30, 2026, no shares of preferred stock were issued or outstanding.

9. Stock-based Compensation

2017 Stock Incentive Plan

In December 2017, we adopted the 2017 Stock Incentive Plan (the "2017 Plan"), as amended and restated, pursuant to which we have outstanding stock options. No future awards may be granted under the 2017 Plan.

2021 Stock Incentive Plan

In April 2021, our board of directors adopted and our stockholders approved the 2021 Stock Incentive Plan (the "2021 Plan"), which became effective immediately prior to the effectiveness of our initial public offering (the "IPO"). As a result of the adoption of the 2021 Plan, no further awards will be made under the 2017 Plan.

The 2021 Plan provides for the grant of incentive stock options ("ISOs"), non-qualified stock options, restricted stock awards ("RSAs"), restricted stock units ("RSUs"), stock appreciation rights and other stock-based awards. Our employees, officers, directors, consultants and advisors are eligible to receive awards under the 2021 Plan. The terms of awards, including vesting requirements, are determined by our board of directors, subject to the provisions of the 2021 Plan.

We initially registered 3,352,725 shares of common stock under the 2021 Plan, pursuant to a Registration Statement on Form S-8 filed with the SEC on April 30, 2021, which was comprised of (i) 2,843,116 shares of common stock reserved for issuance under the 2021 Plan, (ii) 31,884 shares of common stock originally reserved for issuance under the 2017 Plan that became available for issuance under the 2021 Plan upon the completion of the IPO, and (iii) 477,725 shares of unvested restricted stock subject to repurchase by us that may become issuable under the 2021

Plan following such repurchase. The 2021 Plan also provides that an additional number of shares will be added annually to the shares authorized for issuance under the 2021 Plan on the first day of each fiscal year, beginning with the fiscal year ending December 31, 2022 and continuing until, and including, the fiscal year ending December 31, 2031. The number of shares added each year will be equal to the lesser of (i) 5% of the number of shares of outstanding common stock on such date and (ii) such amount as determined by our board of directors. As of June 30, 2026, a cumulative total of 9,582,699 additional shares have been added to the total shares authorized for issuance under the 2021 Plan in accordance with these terms.

2021 Employee Stock Purchase Plan

The 2021 Employee Stock Purchase Plan ("2021 ESPP") permits eligible employees to purchase shares of our common stock at a discount and consists of consecutive six-month offering periods, each containing a single six-month purchase period. On the first day of each offering period, each employee who is enrolled in the 2021 ESPP will automatically receive an option to purchase up to a whole number of shares of our common stock. The purchase price of each of the shares purchased, in a given purchase period, will be equal to 85% of the lesser of the closing price of a share of our common stock on (i) the first day of the offering period, or (ii) the last day of the offering period. During the six months ended June 30, 2026 and 2025, 2,249 and 39,853 shares of our common stock, respectively, were purchased by participants of the 2021 ESPP.

Stock-Based Compensation Expense

Total stock-based compensation expense recognized in our condensed consolidated statements of operations was as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
	(in thousands)			
Research and development	$ 83	$ 973	$ 586	$2,028
General and administrative	336	820	762	1,771
Total stock-based compensation	$419	$1,793	$1,348	$3,799

As part of the severance benefits offered to former employees impacted by the 2026 Restructuring described in Note 2 (the "Former Employees"), the forfeiture conditions of outstanding stock options belonging to the Former Employees were modified such that the Former Employees will retain their rights to exercise their stock options through the original expiration dates of each respective stock option to the extent that such stock options had become vested at the time that the Former Employees' employment with us was terminated. Absent these modifications, the impacted stock options would have been forfeited by the Former Employees after a period of 90 days following the termination of their employment with us, if not exercised sooner. The expiration date for all stock options impacted by these modifications will occur on the tenth anniversary of the grant date of each respective stock option. For the three and six months ended June 30, 2026, the stock-based compensation expense above includes $0.1 million and $0.7 million, respectively, of expense recognized related to these modifications.

Stock Option Activity

No stock options were granted during the three or six months ended June 30, 2026. The fair value of stock options granted during the three and six months ended June 30, 2025 were calculated on the date of grant using the following weighted-average assumptions:

	Three Months Ended June 30, 2025	Six Months Ended June 30, 2025
Risk-free interest rate	4.0%	4.4%
Expected term (in years)	5.8	5.9
Expected annual dividend yield	— %	—%
Expected volatility	95.2%	95.3%

Using the Black-Scholes option pricing model, the weighted-average grant date fair value of stock options granted during the three and six months ended June 30, 2025 was $0.82 and $1.17 per share, respectively.

The following table summarizes stock option activity during the six months ended June 30, 2026:

	Options Outstanding			
	Number of Options	Weighted-Average Exercise Price per Share	Weighted-Average Remaining Contractual Life (in years)	Aggregate Intrinsic Value (in millions)
Outstanding at December 31, 2025	9,954,872	$4.71		
Granted	—	$ —		
Exercised	—	$ —		
Cancelled	(1,748,441)	$2.23		
Outstanding at June 30, 2026	8,206,431	$5.24	6.35	$—
Exercisable at June 30, 2026	6,948,699	$5.77	6.02	$—

No stock options were exercised during the three and six months ended June 30, 2026 and 2025.

As of June 30, 2026, we had unrecognized stock-based compensation expense related to unvested stock options of $2.0 million, which we expect to recognize over a weighted-average period of approximately 1.7 years.

10. Net Income (Loss) Attributable to Common Stockholders per Share

We reported net income for the three months ended June 30, 2026 and net losses for the six months ended June 30, 2026 and for the three and six months ended June 30, 2025. For purposes of the diluted net income (loss) attributable to common stockholders per share calculation, outstanding stock options, common stock to be issued under the 2021 ESPP, and the conversion option derivative under the K2HV Loan Agreement are considered to be potentially dilutive securities; however, the following amounts were excluded from the weighted-average common stock outstanding in the calculation of diluted net income (loss) attributable to common stockholders per share because their effect would have been anti-dilutive:

	June 30,	
	2026	2025
Outstanding stock options	8,206,431	10,461,702
Common stock to be issued under the 2021 ESPP	—	70,602
Common stock to be issued upon exercise of the K2HV Loan Agreement conversion feature	—	791,364
Total	8,206,431	11,323,668

11. Segment Information

We have one reportable segment which focuses on the discovery and development of cancer therapeutics. The segment derives its revenue from the Purchase Agreement with Jazz (see Note 4, *Collaboration Revenue*).

Our chief operating decision maker (“CODM”) manages our operations on an integrated basis for the purpose of allocating resources. When evaluating our financial performance, our CODM regularly reviews total expenses and expenses by function and makes decisions using this information based on the performance of the enterprise as a whole. Our CODM primarily evaluates the performance of the enterprise based on results that have a direct impact on our available cash and cash equivalents and accordingly places less significance on non-cash expenses such as stock-based compensation and depreciation expenses in determining how to allocate resources.

Segment assets regularly reviewed by our CODM include measures of liquidity, primarily available cash and cash equivalents, and are consistent with the presentation of cash and cash equivalents reported in our condensed consolidated balance sheets.

The following is a summary of our segment and consolidated net income (loss), including significant segment expenses:

	Three Months Ended June 30,		Six Months Ended June 30,

(a) Other segment expenses includes non-cash expenses for stock-based compensation and depreciation expenses.

12. Restructuring

In February 2026, we initiated a strategic review process and the 2026 Restructuring. The 2026 Restructuring is expected to be completed by the end of 2026.

We estimate that we will incur approximately $6.5 million in costs associated with the 2026 Restructuring, consisting of severance payments, retention bonuses, employee benefits and related taxes, stock-based compensation, and contract termination costs. Our estimate of costs we expect to incur and the expected timing of when the 2026 Restructuring will be completed are subject to a number of assumptions, and actual results may differ. We may also incur additional costs, including, but not limited to, potential impairment charges not currently contemplated that may occur as a result of, or that are associated with the 2026 Restructuring.

The following table summarizes the restructuring costs incurred and the total estimated costs expected to be incurred in connection with the 2026 Restructuring:

	Three Months Ended June 30, 2026	Six Months Ended June 30, 2026	Cumulative Costs to Date	Total Estimated Costs
		(in thousands)		
Employee severance, benefits and related taxes	$ 83	$2,640	$2,640	$2,640

Contract termination costs	(50)	300	300	300
Total restructuring costs	$1,379	$5,684	$5,684	$6,486

Total restructuring costs recognized in our condensed consolidated statements of operations were as follows:

Accrued restructuring costs, which are included in accrued expenses and other current liabilities on our condensed consolidated balance sheets were as follows (in thousands):

Restructuring costs recognized during the period	4,305
Cash payments made during the period	(3,971)
Employee retention bonuses paid in advance	724

Amortization of employee retention bonuses paid in the prior period	(509)
Non-cash charges recognized during the period	(50)
Balance as of June 30, 2026	$ 34

13. Lease Termination

On May 7, 2026 (the "Modification Date"), we entered into an Agreement for Termination of Lease and Voluntary Surrender of Premises (the "Lease Termination") with ARE-770/784/790 Memorial Drive, LLC (the "Landlord"), pursuant to which we and the Landlord agreed to terminate that certain lease, dated June 1, 2021, as amended, by and between us and the Landlord (the "Lease"), effective October 31, 2026 (the "Lease Termination Date"). Either party may elect to accelerate the Lease Termination Date by providing 30 days' prior written notice to the other party, provided that such notice is given no earlier than July 1, 2026 (the "Termination Option"). Under the Lease, we leased approximately 25,778 square feet of space, consisting of the entire building located at 200 Talcott Avenue, Watertown, Massachusetts. Pursuant to the Lease Termination, we paid the Landlord an aggregate termination fee of $2.7 million, which represented full satisfaction of all remaining payments and other financial obligations due from us to the Landlord under the Lease including, without limitation, Base Rent (as defined in the Lease) for the months of May 2026 through October 2026. We have no further rent obligations to the Landlord pursuant to the Lease after the Lease Termination Date.

We have assessed the Lease Termination and have concluded that it represents a modification to the Lease within the scope of ASC Topic 842, *Leases* ("ASC 842"). Upon the execution of the Lease Termination, we were reasonably certain that the Termination Option would be exercised, and accordingly we estimated that the lease would terminate on July 31, 2026 for purposes of measuring the modified lease liability. On the Modification Date, we measured our modified lease liability to be $2.5 million. We reduced our lease liability to the modified lease liability through an adjustment to our right-of-use asset as of the Modification Date. We have recognized a reduction to our operating expenses during the three and six months ended June 30, 2026 in the amount of $1.1 million, representing the remaining reduction in our lease liability required after our right-of-use asset was reduced to zero. The reduction to our operating expenses has been allocated between research and development and general and administrative operating expenses proportionately with how the operating lease costs have been allocated over the term of the Lease.

As a result of the Lease Termination, we have determined that the estimated useful lives for the majority of our property and equipment will no longer extend beyond July 31, 2026. We have recognized additional depreciation expense during the three and six months ended June 30, 2026 as a result of the change in the estimated useful lives, and will continue to recognize higher-than-expected depreciation expense during each period until our property and equipment is fully depreciated or disposed of.

On July 1, 2026, the Landlord exercised the Termination Option to terminate the Lease, effective July 31, 2026.

Ambros Therapeutics, Inc.
Notes to Financial Statements

Note 1. Organization and Description of Business

Description of Business

Ambros Therapeutics, Inc. (the "Company") is a clinical-stage biotechnology company focused on the development of innovative and transformative medicines for diseases with a high unmet medical need. The Company's lead investigational program targets complex regional pain syndrome ("CRPS") type 1 ("CRPS-1"), a severely painful and debilitating orphan disease that typically develops after an inciting or trauma to a limb. The Company's lead product candidate, neridronate, is a potentially differentiated, bisphosphonate licensed from Abiogen Pharma S.p.A. ("Abiogen"), an Italian pharmaceutical company, providing the Company with exclusive rights to neridronate in the United States, Canada, and Mexico. Neridronate has received U.S. Food and Drug Administration ("FDA") Breakthrough Therapy and Orphan Drug designations for CRPS, and Fast Track designation for CRPS-1. The Company's potentially pivotal Phase 3 trial, CRPS-RISE, evaluating neridronate in participants with CRPS-1, initiated enrollment in the first quarter of 2026 and we expect to report topline results in 2028.

The Company was incorporated in Delaware in September 2024.

Liquidity and Going Concern Assessment

The Company has experienced net operating losses and negative cash flows from operations since September 4, 2024 ("Inception"). As of December 31, 2025, the Company has an accumulated deficit of approximately $40.9 million.

The Company has not established a source of revenues sufficient to cover its operating costs, and as such, the Company has financed its initial operations primarily through sale and issuance of convertible promissory notes and convertible preferred stock. The Company may seek to raise additional capital through private or public equity financings, debt financings, license agreements, collaborative agreements, or other arrangements with other companies, or other sources of financing.

The Company believes its cash, cash equivalents, and short-term investments balance of $36.4 million and restricted cash balance of $1.0 million as of December 31, 2025, together with the $83.6 million in tranche 2 proceeds from its Series A-1/A-2 Financing (as defined below) received in June 2026, will be sufficient for the Company to continue as a going concern for at least one year from the date these financial statements are available for issuance.

Management expects to incur net losses for the foreseeable future. There can be no assurance that the Company will ever earn revenues or achieve profitability, or if achieved, that such revenues and profitability will be sustained on a continuing basis. There can be no assurance that in the event the Company requires additional financing, such financing will be available at terms acceptable to the Company, if at all. Failure to generate sufficient cash flows from operations, raise additional capital, and reduce discretionary spending, should additional capital not become available, could have a material adverse effect on the Company's ability to achieve its intended business objectives.

Risks and Uncertainties

The Company is subject to risks and uncertainties common to early-stage companies in the pharmaceutical industry, including, but not limited to, development by competitors of new technological innovations, dependence on key personnel, protection of proprietary technology, compliance with government regulations and those specific to the pharmaceutical industry such as the FDA, and the ability to secure additional capital to fund operations. The Company's investigational program currently under development will require significant additional research and development efforts, including clinical testing and regulatory approval, prior to commercialization. These efforts require significant amounts of additional capital, adequate personnel and infrastructure, and extensive compliance and reporting capabilities. The Company's CRPS-RISE clinical trial requires significant compliance and monitoring by government agencies and there can be no assurances that such agencies will approve procedures followed in the Company's trial. Another likely scenario is that such agencies would require additional procedures to be performed which would push out commercialization timing. Further, even if the Company's product development efforts are successful, it is uncertain when, if ever, the Company will realize significant revenue from product sales.

If the Company's product development efforts are successful, the Company will be subject to significant risks and uncertainties related to product commercialization and launch, including being unable to secure additional funding to

support the Company's commercial launch efforts. The industry is subject to technology advancements as well as being affected by political conditions which could impact the market's reimbursement and regulatory policy, and by economic conditions surrounding availability and affordability of health insurance and access to health services. The pharmaceutical industry is heavily regulated, from obtaining approval to sell products to complying with reimbursement policies and restrictions on how companies interact with physicians and hospitals.

Note 2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") and include all adjustments necessary for the fair presentation of the Company's financial position for the periods presented. Any reference in these notes to applicable accounting guidance is meant to refer to the authoritative GAAP included in the Accounting Standards Codification ("ASC"), and Accounting Standards Update ("ASU") issued by the Financial Accounting Standards Board ("FASB").

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. The Company regularly evaluates estimates and assumptions related to assets and liabilities, and disclosures of contingent assets and liabilities at the dates of the financial statements and the reported amounts of expenses during the reporting period. Areas where management uses subjective judgments include, but are not limited to, the incremental borrowing rates for leases, accruals for research and development costs, the fair value of common stock and various other inputs used in estimating stock-based compensation expense, and accounting for income tax uncertainties, including a valuation allowance for deferred tax assets, in the accompanying financial statements. Actual results may differ materially from these estimates under different assumptions or conditions.

Cash and Cash Equivalents, Restricted Cash and Short-Term Investments

The Company considers all highly liquid financial instruments with original maturities of three months or less at the date of purchase to be cash and cash equivalents. Investments with original maturities of greater than three months from date of purchase are classified as short-term investments. Cash and cash equivalents consist of cash held in bank accounts, money market funds and commercial paper that matures within three months from the date of purchase.

Restricted cash at December 31, 2025 was $1.0 million and represents funds the Company is required to set aside as collateral, in accordance with one of the Company's vendor service agreements.

Concentration of Credit Risk and Other Risks and Uncertainties

Cash and cash equivalents are financial instruments that are potentially subject to concentrations of credit risk. The Company is exposed to credit risk in the event of default by the financial institutions holding its cash, which may exceed federally insured limits. The Company has no financial instruments with off-balance-sheet risk of loss.

The Company is subject to a number of risks similar to other early-stage biopharmaceutical companies, including, but not limited to, the need to obtain adequate additional funding, possible failure of current or future nonclinical or clinical development of its product candidate, its reliance on third parties to conduct its clinical trials, the need to obtain regulatory and marketing approvals, and competitors advancing medicines in a field that the Company intends to enter that constrains its ability to compete effectively for market share.

Short-term Investments

The Company accounts for short-term investments in accordance with ASC 320, *Investments — Debt Securities*, and ASC 326, *Financial Instruments — Credit Losses*. Management determines the appropriate classification of its investments at the time of purchase and reevaluates such determinations at each balance sheet date.

The Company's investment policy limits investments to high credit quality instruments, including U.S. Treasury and agency securities, corporate debt securities, commercial paper, and money market funds, and places restrictions on credit ratings, maturities, and concentration by issuer. Under the investment policy, the maturity of any individual security is limited to 24 months from the date of purchase and the weighted-average maturity of the portfolio is limited to 12 months.

The Company's short-term investments consist of U.S. treasury securities, corporate bonds and commercial papers and are classified as available-for-sale securities. Available-for-sale securities are carried at fair value, with unrealized gains and losses reported as a component of accumulated other comprehensive income (loss) in the stockholders' deficit.

The Company evaluates its available-for-sale debt securities for impairment at each reporting date. For securities in an unrealized loss position, the Company first assesses whether it intends to sell the security, or whether it is more likely than not that it will be required to sell the security before recovery of its amortized cost basis. If either criterion is met, the entire difference between the amortized cost basis and fair value is recognized in the statements of operations and comprehensive loss. For securities where neither criterion is met, the Company evaluates whether the decline in fair value has resulted from credit losses or other factors. The portion of the decline attributable to credit losses is recognized through an allowance for credit losses, limited to the amount by which the fair value is below the amortized cost basis, with the remaining non-credit-related decline recorded in accumulated other comprehensive income (loss). The Company did not recognize any credit-related impairment charges on its short-term investments during the year ended December 31, 2025, and the period from Inception through December 31, 2024.

Realized gains and losses on sales of investments, if any, are included in interest income (expense), net, and are determined using the specific identification method. The Company did not sell any investments during the year ended December 31, 2025, and the period from Inception through December 31, 2024.

Property and Equipment, Net

Property and equipment are presented at cost, net of accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Costs for capital assets not yet placed into service are capitalized as construction in progress and depreciated once placed into service.

The following estimated useful lives were used to depreciate or amortize the Company's assets:

	Estimated Useful Life
Furniture and fixtures	5 years
Computers and software	3 years

Impairment of Long-Lived Assets

The Company reviews the carrying amounts of its long-lived assets, including property and equipment and right-of-use leased assets, for potential impairment whenever events or changes in circumstances indicate that the assets may not be recoverable. There was no impairment of long-lived assets for the year ended December 31, 2025 and the period from Inception through December 31, 2024.

Leases

At the inception of a contract, the Company assesses whether the contract is a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. If a lease is determined to exist, the commencement date of such lease is assessed based on the date on which the Company gains control over the use of the underlying assets. The Company's assessment of the lease term reflects the non-cancelable term of the lease, inclusive of any rent-free periods and/or periods covered by early-termination options which the Company is reasonably certain of not exercising, as well as periods covered by renewal options that the Company is reasonably certain of exercising. At lease commencement, the Company also determines lease classification based on whether the arrangement is effectively a financed purchase of the underlying asset (finance lease) or not (operating lease), which governs the pattern of expense recognition and the presentation reflected in the statements of operations and comprehensive loss and statements of cash flows over the lease term.

For leases with a term exceeding 12 months, a lease liability is recorded on the Company's balance sheet at lease commencement reflecting the present value of its fixed minimum payment obligations over the lease term. A corresponding right-of-use asset equal to the initial lease liability is also recorded, adjusted for any prepaid rent and/or initial direct costs incurred in connection with execution of the lease and reduced by any lease incentives received. For purposes of measuring the present value of its fixed payment obligations for a given lease, the Company uses its incremental borrowing rate, determined based on information available at lease commencement, as rates implicit in its leasing arrangements are typically not readily determinable. The Company's incremental borrowing rate reflects the rate it would pay to borrow on a secured basis and incorporates the term and economic environment of the associated lease.

For the Company's operating leases, fixed lease payments are recognized as lease expense on a straight-line basis over the lease term. For leases with a term of 12 months or less, any fixed lease payments are recognized on a straight-line basis over the lease term and are not recognized on the Company's balance sheet as an accounting policy election. Variable lease costs are expensed in the statements of operations and comprehensive loss as incurred.

The Company did not have any finance leases as of December 31, 2025 and 2024.

Convertible Notes

The Company elected the fair value option under ASC 825-10, *Financial Instruments — Overall*, to account for its Convertible Notes. Under this election, the Convertible Notes are initially measured at fair value on the date of issuance and remeasured at each subsequent reporting date. Changes in fair value are recognized in the statements of operations and comprehensive loss as "Change in fair value of convertible notes". Direct transaction costs associated with the issuance of the notes were expensed as incurred, consistent with the fair value option election. Interest is not accrued separately; rather, the economic value of accrued interest is captured within the overall fair value measurement of the Convertible Notes (see Note 2, Fair Value Option, for further discussion of the methodology used by the Company).

Preferred Stock

The Company applies the guidance in ASC 480, *Distinguishing Liabilities from Equity*, ASC 815, *Derivatives and* Hedging, and ASC 505-10, *Equity*, to determine the classification of its preferred stock. Preferred stock that is redeemable upon the occurrence of an event not solely within the Company's control is classified as temporary equity (mezzanine) on the Company's balance sheets. Preferred stock that does not meet the criteria for temporary equity classification is presented as permanent equity. The Company's Series A-1 Convertible Preferred (as defined below) and Series A-2 Convertible Preferred (as defined below) is classified as temporary equity.

Preferred stock issuance costs are legal and professional fees incurred in obtaining funding and are presented as a direct deduction of the carrying amount of the preferred stock. Preferred stock is initially recorded at fair value upon issuance, net of issuance costs. The Company does not accrete preferred stock to redemption value unless redemption is probable.

Research and Development Expenses and Accruals

The Company records research and development expenses as incurred. Included in research and development expenses are clinical trial and manufacturing costs, salaries and related costs, stock-based compensation expenses, benefits and other operating costs, facilities, supplies, external services, and overhead directly related to research and development operations, as well as costs to acquire technology licenses.

The Company bases its expense accruals related to clinical trials on its estimates of the services received and efforts expended pursuant to contracts with multiple research institutions and clinical research organizations ("CROs") that conduct and manage clinical trials on its behalf. The financial terms of these agreements vary from contract to contract and may result in uneven payment flows. Payments under certain contracts depend on factors such as the successful enrollment of participants and the completion of clinical trial milestones. In accruing costs, the Company estimates the time period over which services will be performed and the level of effort to be expended in each period.

Nonrefundable advance payments for goods or services to be received in the future for use in research and development activities are recorded as prepaid expenses. The prepaid amounts are expensed as the related goods are delivered or the services are performed and classified as current or non-current prepaid expenses and other assets.

In-Process Research and Development Expenses

In accordance with ASC 805, *Business Combinations*, the Company evaluates acquisitions of assets and related liabilities and other similar transactions to assess whether or not a transaction should be accounted for as an asset acquisition or business combination by first applying a screen test to determine if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or a group of similar identifiable assets. If the screen test is met, a transaction is accounted for as an asset acquisition. If the screen test is not met, further determination is required as to whether or not the Company has acquired inputs and processes that have the ability to create outputs that would meet the requirements of a business. The Company accounts for an asset acquisition by recognizing net assets based on their cost on a relative fair value basis. Goodwill is not recognized in an asset acquisition and any excess consideration transferred over the fair value of the net assets acquired is allocated to the non-monetary identifiable assets and liabilities assumed based on relative fair values. In-process research and development acquired in an asset acquisition is expensed provided there is no alternative future use.

The Company accounts for future payments such as those upon the achievement of certain regulatory, development, or sales milestones in an asset acquisition when the underlying milestone is deemed payable. Milestone payments made to third parties subsequent to regulatory approval may be capitalized as intangible assets, if deemed to have alternative future use, and amortized over the estimated remaining useful life of the related product. Royalties, if any, will be recognized as cost of sales when the covered products are sold and royalties are payable.

Patent and Trademark Costs

All patent-related and trademark costs incurred in connection with filing and prosecuting patent and trademark applications are expensed as incurred due to the uncertainty about the recovery of the expenditure. Amounts incurred are classified as general and administrative expenses on the statements of operations and comprehensive loss.

Stock-Based Compensation Expense

For stock-based awards issued to employees and nonemployees, the Company measures the estimated fair value of the stock-based awards on the date of grant and recognizes compensation expense for those awards over the requisite service period, which is generally the vesting period of the respective awards. The Company records expense for awards with service-based vesting using the straight-line, ratable attribution method. The Company accounts for forfeitures as they occur.

The fair value of each stock option grant is estimated on the date of grant using the Black-Scholes option-pricing model.

The Company is a privately held company and lacks company-specific historical and implied volatility information. Therefore, it estimates its expected stock volatility based on the historical volatility of a publicly traded set of peer companies and expects to continue to do so until such time as it has adequate historical data regarding the volatility of its own traded stock price. The expected term represents the weighted-average period the stock options are expected to remain outstanding and is based on the options' vesting terms and contractual terms, as the Company does not have sufficient historical information to develop reasonable expectations about future exercise patterns and post-vesting employment termination behavior. The risk-free interest rate is determined by reference to the U.S. Treasury yield curve in effect at the time of grant of the award for time periods approximately equal to the expected term of the award. The expected dividend yield is based on the fact that the Company has never paid cash dividends and does not expect to pay any cash dividends in the foreseeable future.

The Company classifies stock-based compensation expense in its statements of operations and comprehensive loss in the same manner in which the award recipient's cash compensation costs are classified.

Fair Value Measurement

The Company applies fair value accounting for all financial assets and liabilities and non-financial assets and liabilities that are required to be recognized or disclosed at fair value in the financial statements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability, or an exit price, in the principal or most advantageous market for that asset or liability in an orderly transaction between market participants on the measurement date. Fair value measurement establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs, where available, and minimize the use of unobservable inputs when measuring fair value. Financial assets and liabilities carried at fair value are to be classified and disclosed in one of the following three levels of the fair value hierarchy, of which the first two are considered observable and the last is considered unobservable.

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs (other than Level 1 quoted prices), such as quoted prices in active markets for similar assets or liabilities, or other inputs that are observable or can be corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to determining the fair value of the assets or liabilities.

Fair Value Option

The Company elected the fair value option under ASC 825-10 to account for the Convertible Notes. Under this election, the Convertible Notes were initially measured at fair value and subsequently remeasured at each reporting date, with changes in fair value recorded in the statements of operations and comprehensive loss as "Change in fair value of convertible notes." No separate interest expense was recognized, as accrued interest was fully captured within the fair value measurement.

The Company has elected the fair value option for each of its convertible promissory note issuances. The fair value of the convertible promissory notes was estimated using an analysis that estimated the fair value of the convertible promissory notes based on the probability-weighted present value of expected future investment returns, considering possible outcomes available to the noteholders. The assumptions used to determine the fair value of the convertible promissory notes upon issuance, at each period end, and upon conversion included an estimated probability of conversion of the promissory notes at a 20% discount and an estimated time to settlement.

The fair value measurement of the Convertible Notes was classified within Level 3 of the fair value hierarchy because it relied on significant unobservable inputs, principally (a) the estimated fair value per share of the Company's convertible preferred stock and (b) the expected timing of the qualified financing and resulting conversion.

Comprehensive Loss

Comprehensive loss consists of two components: net loss and other comprehensive income or loss. Other comprehensive income (loss) refers to gains or losses that are recorded as an element of stockholders' equity but are excluded from net loss. The Company's other comprehensive income (loss) consists of unrealized gains and losses on marketable securities. Components of other comprehensive income are presented net of related tax effects. For the year ended December 31, 2025 and the period from Inception through December 31, 2024, no income tax expense or benefit was allocated to other comprehensive income (loss) due to the Company's full valuation allowance on its net deferred tax assets. The Company releases income tax effects from accumulated other comprehensive income (loss) on a specific identification basis as the underlying items are realized. No reclassification adjustments out of accumulated other comprehensive income (loss) to net loss were recognized during the year ended December 31, 2025 and the period from Inception to December 31, 2024.

Income Taxes

The Company applies the provisions of ASC 740, Income Taxes ("ASC 740"). Under ASC 740, the Company accounts for its income taxes using the asset and liability method whereby deferred tax assets and liabilities are determined based on temporary differences between the bases used for financial reporting and income tax reporting purposes. Deferred income taxes are provided based on the enacted tax rates and laws that will be in effect at the time such temporary differences are expected to reverse. A valuation allowance is provided for deferred tax assets if it is more likely than not that the Company will not realize those tax assets through future operations.

The Company also utilizes the guidance in ASC 740 to account for uncertain tax positions. ASC 740 contains a two-step approach to recognizing and measuring uncertain tax positions. The first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates it is more likely than not that the position will be sustained on audit, including resolution of related appeals or litigation processes, if any. The second step is to measure the tax benefit as the largest amount which is more likely than not to be realized and effectively settled. The Company considers many factors when evaluating and estimating its tax positions and tax benefits, which may require periodic adjustments and which may not accurately reflect actual outcomes. The Company recognizes interest and penalties on unrecognized tax benefits as a component of benefit of income taxes in its statements of operations and comprehensive income (loss).

Operating Segments

Operating segments are defined as components of an enterprise for which separate discrete financial information is available for evaluation by the chief operating decision maker in deciding how to allocate resources and assess performance. The Company's chief operating decision maker, its Chief Executive Officer, views the Company's operations and manages its business as a single operating segment, which includes all activities related to discovery, development, and commercialization of medicines for specific diseases. See Note 14, Segment Reporting for financial information related to the Company's one segment.

Net Loss Per Share Attributable to Common Stockholders

Basic net loss per common share is calculated by dividing the net loss attributable to common stockholders by the weighted-average number of common shares outstanding during the period, without consideration of common stock equivalents. Diluted net loss per common share is computed by dividing the net loss attributable to common stockholders by the weighted-average number of common share equivalents outstanding for the period determined using the treasury stock method or the if-converted method. Potentially dilutive securities consisting of options to

purchase common stock, unvested common stock subject to repurchase and redeemable convertible preferred stock are considered to be common stock equivalents and were excluded from the calculation of diluted net loss per common share because their effect would be antidilutive for all periods presented.

Basic and diluted net loss attributable to common stockholders per share is presented in conformity with the two-class method required for participating securities as the redeemable convertible preferred stock and legally outstanding unvested common stock subject to repurchase are considered participating securities. The Company's participating securities do not have a contractual obligation to share in the Company's losses. As such, the net loss is attributed entirely to common stockholders.

Related Parties

Transactions between related parties are considered to be related party transactions even though they may not be given accounting recognition. FASB ASC 850, Related Party Disclosures ("ASC 850") requires that transactions with related parties that would make a difference in decision making shall be disclosed so that users of the financial statements can evaluate their significance.

Commitments and Contingencies

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, and penalties and other sources are recorded if and when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

Recent Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the FASB or other standard setting bodies and adopted by the Company as of the specified effective date. The Company is currently evaluating the impact of recently issued standards that are not yet effective on the Company's financial position or results of operations upon adoption.

On December 14, 2023, the FASB issued ASU No. 2023-09, *Improvements to Income Tax Disclosures* ("ASU 2023-09"). ASU 2023-09 amends ASC 740, Income Taxes to expand income tax disclosures and requires that the Company disclose (i) the income tax rate reconciliation using both percentages and reporting currency amounts; (ii) specific categories within the income tax rate reconciliation; (iii) additional information for reconciling items that meet a quantitative threshold; (iv) the composition of state and local income taxes by jurisdiction; and (v) the amount of income taxes paid disaggregated by jurisdiction. The Company early adopted ASU 2023-09 for the year ended December 31, 2025 on a prospective basis. Adoption of this standard did not have a material impact on the Company's financial statements.

In November 2024, the FASB issued ASU 2024-03, *Income Statement — Reporting Comprehensive Income — Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses*. ASU 2024-03 will require public business entities to disclose in the notes to the financial statements, at each interim and annual reporting period, specific information about certain costs and expenses, including purchases of inventory, employee compensation, depreciation, and intangible asset amortization included in each expense caption presented on the face of the income statement, and the total amount of an entity's selling expenses. ASU 2024-03 is effective for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027, and may be applied either prospectively or retrospectively. Early adoption is permitted. The Company is currently evaluating the impact of adopting this standard on the financial statements.

In December 2025, the FASB issued ASU 2025-11, *Interim Reporting (Topic 270): Narrow-Scope Improvements*. This standard clarifies current interim reporting requirements on Topic 270 and introduces a disclosure principle requiring entities to disclose events since the end of the last annual reporting period that have a material impact on the entity. This standard will be effective for fiscal years beginning after December 15, 2027, with the option to apply it retrospectively. Early adoption is allowed. The Company is currently assessing the potential impact of this guidance on its financial statement disclosures.

The Company continues to monitor new accounting pronouncements issued by the FASB and does not believe any accounting pronouncements issued through the date of this report will have a material impact on its financial statements.

Note 5. Short-term Investments

The following tables summarize short-term investments:

	As of December 31, 2025			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Market Value
Available-for-sale Securities:				
Commercial Paper	$24,884	$7	$(1)	$24,890
Corporate Bonds	3,462	1	—	3,463
U.S. Treasury Securities	1,506	1	—	1,507
Total	$29,852	$9	$(1)	$29,860

As of December 31, 2025, the Company had three available-for-sale investment debt securities in an unrealized loss position without an allowance for credit losses. Unrealized losses on the Company's investments in debt securities have not been recognized into income as the issuers' bonds are of high credit quality and the decline in fair value is largely due to market conditions and/or changes in interest rates. The Company does not intend to sell, and it is more likely than not that the Company will not be required to sell the securities prior to the anticipated recovery of their amortized cost basis. The issuers continue to make timely interest payments on the bonds. The fair value is expected to recover as the bonds approach maturity.

The Company elected the practical expedient to exclude accrued interest receivable from both the amortized cost basis and estimated fair value of its short-term investments for purposes of identifying and measuring impairment. Accrued interest receivable was immaterial as of December 31, 2025, and is presented within prepaid expenses and other current assets on the balance sheets.

Note 6. Balance Sheet Components

Prepaid Expenses and Other Current Assets

Prepaid expenses and other current assets consist primarily of prepaid insurance, general prepaid expenses, prepaid clinical trial costs, and accrued interest receivable.

Property and Equipment, Net

Property and equipment are stated at cost, less accumulated depreciation and amortization. Property and equipment are depreciated using the straight-line method over the estimated useful lives of the assets. Maintenance and repairs are expensed as incurred.

Property and equipment, net consisted of the following (in thousands):

	As of December 31,	
	2025	2024
Computer, software and office equipment	$ 99	$42
Total property and equipment, gross	99	42
Less: accumulated depreciation and amortization	(16)	—
Total property and equipment, net	$ 83	$42

Other Non-current Assets

Other non-current assets include a deposit of $2.5 million to the Company's CRO related to the CRPS-RISE clinical trial, to be held for the duration of the study. The deposit will be applied against final invoices upon completion of the study, with any remaining balance to be refunded to the Company. Research and development expenses associated with the study are recognized in the period in which the underlying services are rendered, independent of the timing of cash settlement. As of December 31, 2025, the remaining unapplied deposit balance was $2.5 million.

Accrued Expenses and Other Current Liabilities

Accrued expenses and other current liabilities consisted of the following (in thousands):

	As of December 31,

Note 7. Operating Leases

As of December 31, 2025, the Company's headquarters were located in Irvine, California, where the Company subleases office space under a sublease agreement entered into on January 10, 2025, that expires in November 2026. At December 31, 2025, the weighted average incremental borrowing rate was 10% and the weighted average remaining lease term was 0.9 years for the operating lease held by the Company. For the year ended December 31, 2025, cash paid for amounts included for the measurement of lease liabilities was $0.2 million. For the year ended December 31, 2025, operating lease expense was $0.2 million.

Future minimum lease payments under non-cancellable leases as of December 31, 2025 were as follows (in thousands):

	As of December 31, 2025
2026	$224
Total lease payments	224
Less: Imputed interest	(9)
Present value of lease liabilities	$215

Note 8. Convertible Notes

In November 2024, December 2024, and January 2025, the Company issued convertible promissory notes to certain investors for aggregate principal amounts of $10.0 million, $15.0 million and $2.5 million, respectively (collectively, the "Convertible Notes"). The $15.0 million convertible promissory note was issued to Abiogen as non-cash consideration for the license of neridronate rights under the License and Development Agreement with Abiogen ("License Agreement"). All Convertible Notes were issued as part of one integrated financing series on substantially similar terms and bear simple interest at a rate of 8.0% per annum. Upon the closing of a preferred stock financing, all outstanding principal and unpaid accrued interest under the Convertible Notes would automatically convert into the convertible preferred stock issued in such financing at a 20% discount to the price per share paid by investors, subject to a conversion price cap based on a $200.0 million pre-money valuation.

As of December 31, 2024, the Convertible Notes had an aggregate carrying value of $25.7 million and were classified as a current liability on the balance sheet. As of December 31, 2024, accrued interest on the Convertible Notes was $0.2 million.

On September 30, 2025, the Company closed the initial closing of its Series A-1/A-2 convertible preferred stock financing ("Series A-1/A-2 Financing") pursuant to which it sold shares of its Series A-1 Convertible Preferred Stock, par value $0.00001 per share (the "Series A-1 Convertible Preferred"), at a price of $4.70 per share. In connection with such initial closing, all outstanding principal and accrued interest under the Convertible Notes converted into an aggregate of 7,790,211 shares of the Company's Series A-2 Convertible Preferred Stock, par value $0.00001 per share (the "Series A-2 Convertible Preferred" and, together with the Series A-1 Convertible Preferred, the "Series A Convertible Preferred") at a conversion price of $3.76 per share, representing the 20% discount.

The Company elected the fair value option under ASC 825-10, *Financial Instruments — Overall*, to account for its Convertible Notes (see Note 1 and Note 2).

Note 9. Capital Structure

Convertible Preferred Stock

The Company is authorized to issue 34,476,913 shares of convertible preferred stock, $0.00001 par value. As of December 31, 2025, 16,685,777 shares were issued and outstanding.

On September 30, 2025, the Company entered into a Series A Preferred Stock Purchase Agreement (the "Series A Purchase Agreement") providing for the sale and issuance, in two tranches, of shares of Series A-1 Convertible Preferred and Series A-2 Convertible Preferred. The Series A-1 Convertible Preferred was sold at an original issue price of $4.70 per share and the Series A-2 Convertible Preferred at an original issue price of $3.76 per share.

At the initial closing on September 30, 2025, the Company issued 8,009,041 shares of Series A-1 Convertible Preferred in exchange for aggregate cash proceeds of approximately $37.6 million and issued 7,790,211 shares of Series A-2 Convertible Preferred upon the conversion and cancellation of outstanding convertible promissory notes with an aggregate face amount of approximately $27.5 million. The Series A Purchase Agreement further permitted an additional total of approximately $4.2 million of Series A-1 Convertible Preferred (886,525 shares) to be sold to two purchasers on or before October 15, 2025 (the "Extended Initial Closing"), which was fully purchased.

The Series A Purchase Agreement also obligated the purchasers, subject to satisfaction or waiver of certain conditions (including dosing of the first participant in the Company's CRPS-RISE trial) to purchase an additional 17,791,136 shares of Series A-1 Convertible Preferred at a milestone closing for $4.70 per share, for aggregate cash proceeds of approximately $83.6 million (the "Milestone Shares" and such closing, the "Milestone Closing", and such conditions, the "Milestone Closing Conditions").

The Company determined that the second tranche right subject to the Milestone Closing Conditions was an embedded feature of the Series A Convertible Preferred and not a freestanding instrument under ASC 480. As the embedded feature's economic characteristics and risks were determined to be clearly and closely related to the host contract, bifurcation under ASC 815 was not required and the second tranche right was not accounted for separately.

The rights and preferences of the Company's convertible preferred stock are as follows:

Dividends

The holders of the Series A Convertible Preferred are entitled to receive a pro rata share of any dividends, when and if declared and paid to the holders of common stock, calculated on an as-if-converted basis. No dividends have been declared to date.

Liquidation Preference

Upon the (i) sale, lease, transfer, exclusive license, or other disposition of all or substantially all of the assets of the Company, (ii) merger or consolidation of the Company in which the shares of capital stock outstanding immediately prior to such transaction represent less than a majority of the voting power of the surviving or resulting entity, or (iii) liquidation, voluntary or involuntary dissolution, or winding up of the Company, the holders of the redeemable convertible preferred stock are entitled to a liquidation preference, prior and in preference to any distribution of any of the assets or funds of the Company to the holders of shares of common stock. The liquidation preference per share is equal to the greater of (a) the applicable original issue price ($4.70 per share for Series A-1 Convertible Preferred and $3.76 per share for Series A-2 Convertible Preferred), plus any declared but unpaid dividends, or (b) the amount per share that would have been payable had all shares been converted into common stock immediately prior to such event. If available assets are insufficient to pay the full liquidation amount to all holders, holders of convertible preferred stock share ratably in proportion to their respective liquidation amounts.

Conversion

Each share of Series A Convertible Preferred is, at the option of the holder, convertible into one share of common stock, subject to adjustment upon any future stock splits, stock dividends, combinations, subdivisions, recapitalizations, dilutive issuances, or the like. Each share of convertible preferred stock will be automatically converted into shares of common stock upon the closing of a public offering covering the sale of the Company's common stock in which the gross cash proceeds are at least $100.0 million and the shares are listed on the Nasdaq Stock Market, the New York Stock Exchange, or another exchange approved by the Company's Board of Directors ("Board").

The Series A Convertible Preferred conversion price is subject to a potential downward adjustment if the United States Patent and Trademark Office has not issued a Notice of Allowance with respect to the Company's method-of-use patent application prior to August 31, 2027.

Redemption Rights

The holders of Series A Convertible Preferred do not have any redemption rights, except upon certain liquidation and dissolution events that are not solely within the Company's control. Accordingly, the Series A Convertible Preferred are classified as temporary equity on the accompanying balance sheet. The Company has determined not to adjust the carrying values of the Series A Convertible Preferred to the liquidation preferences of such shares because it is not probable as of December 31, 2025, whether or when such liquidation or dissolution events would occur.

Voting

Each holder of redeemable convertible preferred stock shall be entitled to the number of votes equal to the number of shares of common stock into which such shares of redeemable convertible preferred stock could be converted.

Common Stock

The Company is authorized to issue 54,000,000 shares of common stock, $0.00001 par value. As of December 31, 2025, 11,565,000 shares were issued and 10,633,540 shares were outstanding.

Common stock reserved for future issuance, on an as-if-converted basis, consisted of the following:

	Shares Reserved

Common shares issuable upon conversion of Series A convertible preferred stock	16,685,777
Unvested restricted stock awards	931,460
Available for future grants under the 2024 Equity Incentive Plan	801,768
Total shares of common stock reserved	22,733,005

Note 10. Equity Incentive Plan and Stock-Based Compensation Expense

Equity Incentive Plan

On September 9, 2024, the Company adopted the 2024 Equity Incentive Plan (as amended, the "2024 Plan"). The 2024 Plan provides for the granting of restricted stock, incentive stock options ("ISOs"), and nonqualified stock options to employees, officers, directors, consultants and other service providers of the Company, except that ISOs may be granted only to employees (including employee-directors). The Company's 2024 Plan permits the early exercise of stock options granted upon board approval prior to vesting. Shares of restricted stock and shares issued upon early exercise are subject to repurchase by the Company at the original purchase price if the holder's service terminates before the underlying award vests and continues to vest in accordance with the original award's service-based vesting schedule. Cash proceeds received from early exercises are recorded as a liability and reclassified to additional paid-in capital as the underlying shares vest. Shares subject to repurchase are excluded from shares outstanding for accounting purposes until the repurchase right lapses.

Options granted under the 2024 Plan may have terms of up to ten years from the date of grant. The exercise price of each option must be no less than 100% of the fair market value of the underlying shares on the date of grant, as determined by the Board.

With respect to ISOs granted to any employee who, at the time of grant, owns stock representing more than 10% of the total combined voting power of all classes of stock of the Company, (i) the option term shall not exceed five years from the date of grant, and (ii) the exercise price shall not be less than 110% of the fair market value of the underlying shares on the date of grant.

Options granted under the 2024 Plan generally vest over four years, with 25% vesting after the first year and the remainder vesting monthly thereafter. Annual refresh options granted to employees generally vest monthly over four years.

Stock-Based Compensation Expense

The following table summarizes stock-based compensation expense (in thousands) related to stock options granted during the year ended December 31, 2025. The Company's first stock option grants occurred in December 2025, and no options were granted during the year ended December 31, 2024:

Research and development	$124
General and administrative	96
Total	$220

Stock-based compensation expense related to restricted stock awards was immaterial for the year ending December 31, 2025 and the period from Inception through December 31, 2024.

As of December 31, 2025, there was $5.9 million of unrecognized stock-based compensation expense related to unvested stock options which the Company expects to recognize over a weighted-average remaining period of 3.8 years.

Unrecognized stock-based compensation expense related to unvested restricted stock awards was immaterial as of December 31, 2025, with a weighted average remaining recognition period of 2.8 years.

Time-Based Restricted Stock Awards

The Company measures the fair value of restricted stock awards based on the fair value of the Company's common stock on the grant date. Because the Company's common stock is not publicly traded, the Board determines the fair value of the common stock on each grant date, considering, among other factors, third-party valuations prepared in accordance with the guidance outlined in the AICPA Practice Aid, *Valuation of Privately-Held-Company Equity Securities Issued as Compensation*. Compensation expense for restricted stock awards is recognized on a straight-line basis over the requisite service period, generally the vesting period of the award, with forfeitures recognized as they occur.

As of December 31, 2025 and 2024, there were 931,460 and 2,165,000 shares of restricted common stock issued, respectively, remained subject to repurchase. During the year ended December 31, 2025, the Company repurchased 600,000 unvested shares of restricted common stock. The Company's unrecognized compensation expense and liability as of December 31, 2025 and 2024 was immaterial.

The following table summarizes the activity time-based restricted stock awards:

Note 11. Related Parties

In November 2024 and January 2025, the Company issued convertible promissory notes to certain related party investors for aggregate cash proceeds of $3.1 million and in December 2024, the Company issued a $15.0 million convertible promissory note to Abiogen as non-cash consideration for the license of rights to neridronate under the License Agreement described below (collectively, the "Related Party Convertible Notes").

Under the License Agreement, Abiogen is the sole supplier of neridronate drug substance. The Company also entered into a related supply agreement with Abiogen pursuant to which Abiogen, other than in the event of a supply failure, serves as the Company's sole supplier of commercial drug product.

As of December 31, 2024, the Related Party Convertible Notes had an aggregate carrying value of $16.3 million and were classified as a current liability on the balance sheets. The Company recognized losses on change in fair value of Related Party Convertible Notes of $5.7 million and $0.3 million for the year ended December 31, 2025, and the period from Inception through December 31, 2024, respectively, and interest expense of $1.1 million and $0.1 million for the year ended December 31, 2025, and the period from Inception through December 31, 2024, respectively.

On September 30, 2025, upon the initial closing of the Series A-1/A-2 Financing all outstanding principal and accrued interest under the Related Party Convertible Notes automatically converted into an aggregate of 5,124,942 shares of Series A-2 Convertible Preferred at a conversion price of $3.76 per share, reflecting the 20% contractual conversion discount.

Note 12. Commitments and Contingencies

License Agreement with Abiogen

In December 2024, the Company entered into the License Agreement with Abiogen, pursuant to which Abiogen granted the Company exclusive rights to develop and commercialize neridronate in the United States, Canada and Mexico.

The License Agreement was accounted for as an asset acquisition and the upfront consideration consisting of a $15.0 million convertible promissory note issued to Abiogen, was recognized as in-process research and development expense during the period from Inception through December 31, 2024. See also Note 8, *Convertible Notes*.

The Company is obligated under the License Agreement to pay mid-single digit percentage royalty on aggregate annual net sales of licensed products, payable upon first commercial sale. No royalties had been incurred as of December 31, 2025.

Under the License Agreement, Abiogen is the sole supplier of neridronate drug substance. In connection with the License Agreement, the Company concurrently entered into a supply agreement with Abiogen under which, other than in the event of a supply failure, Abiogen is the sole supplier of commercial drug product. The Company purchased approximately $0.6 million of drug substance from Abiogen during the year ended December 31, 2025. As of December 31, 2025, the Company had no material non-cancelable minimum purchase commitments outstanding under the supply agreement.

CEO Performance Bonus

In connection with the employment agreement entered into on December 1, 2025, the Company's Chief Executive Officer is entitled to receive a performance bonus (the "CEO Performance Bonus") upon the occurrence of a qualifying liquidity event during the Chief Executive Officer's continued service to the Company (a "Bonus Event"). A Bonus Event is defined as the earliest to occur of: (i) a change in control in which net proceeds to the Company's securityholders equal or exceed $1.0 billion; (ii) a bona fide third-party equity financing prior to an initial public offering or direct listing that results in a post-money valuation of the Company equal to or exceeding $1.0 billion on a fully diluted basis; or (iii) the Company's market capitalization reaching $1.0 billion following an initial public offering or direct listing, calculated based on the 60-trading-day volume-weighted average price of the Company's common stock. The CEO Performance Bonus equals 0.75% of the applicable valuation metric at the time of the Bonus Event. The award may be settled in cash, equity, or a combination of both, at the sole discretion of the Board.

The CEO Performance Bonus is a share-based payment arrangement accounted for in accordance with ASC 718 — *Stock Compensation* and is classified as a liability in the Company's balance sheet. The award may be settled in cash, equity, or a combination of both at the sole discretion of the Board and will be remeasured at fair value each reporting period until settlement.

Compensation cost will be recognized when a Bonus Event becomes probable, at which point the Company will record expense based on the then-current fair value of the award, estimated using a Monte Carlo simulation. As of

December 31, 2025, no Bonus Event had occurred, and none was considered probable. Accordingly, no compensation cost has been recognized with respect to the CEO Performance Bonus for the year ended December 31, 2025.

Purchase Commitments

The Company enters contracts in the normal course of business with contract research organizations and other third-party vendors for clinical trials and testing and manufacturing services. These contracts generally do not contain minimum purchase commitments and are cancellable by the Company upon written notice. Payments that may be due upon cancellation consist of payments for services provided or expenses incurred prior to cancellation. As of December 31, 2025, and 2024 there were no amounts accrued related to termination charges.

Legal Contingencies

The Company may, from time to time, be involved in various claims and legal actions that arise in the ordinary course of business. The Company accrues for legal contingencies when it is determined probable that a liability has been incurred and the amount of the loss can be reasonably estimated. The Company is not involved in any pending legal proceedings that it believes could have a material adverse effect on its financial condition, results of operations, or cash flows. There were no legal contingencies requiring accrual or disclosures as of December 31, 2025 and 2024.

Indemnification

In the ordinary course of business, the Company enters into agreements that may include indemnification provisions. As permitted under Delaware law and in accordance with its bylaws, the Company indemnifies its officers and directors for certain events or occurrences while the officer or director is or was serving in such capacity. The Company has never incurred material costs to defend lawsuits or settle claims related to these indemnification provisions.

Note 13. Income Taxes

Loss before income taxes for the year ended December 31, 2025 and the period from Inception through December 31, 2024, were comprised of the following (in thousands):

Domestic	$(24,236)	$(16,643)

The Company did not record a provision for income taxes for the year ended December 31, 2025, and the period from Inception through December 31, 2024, due to a full valuation allowance against its deferred tax assets.

The difference between the tax provision at the statutory federal income tax rate and the benefit (provision) for income taxes in dollars and as a percentage of loss before income taxes (effective tax rate) for each year, after adoption of ASU 2023-09, is as follows:

Tax provision (benefit)	$ —	0.0%	$ —	0.0%

The Company made no material income tax payments and did not receive any income tax refunds during the year ended December 31, 2025.

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Company's deferred taxes as of December 31, 2025 and 2024 are as follows (in thousands):

	2025	2024
Deferred tax assets:

As of December 31, 2025 and 2024, the Company had federal net operating loss carryforwards of approximately $17.4 million and $1.0 million respectively. As of December 31, 2025 and 2024, the Company had state net operating loss carryforwards of approximately zero. As of December 31, 2025, the Company had federal research and development tax credit carryforwards of $1.3 million. The federal research and development tax credit carryforwards will begin to expire in 2045 unless previously utilized.

Pursuant to Internal Revenue Code ("IRC") Sections 382 and 383, annual use of the Company's NOL and R&D credit carryforwards may be limited in the event that a cumulative change in ownership of more than 50% occurs within a three-year period. As of December 31, 2025, the Company has not performed a formal analysis to determine whether an ownership change has occurred. If such ownership changes are determined to have occurred, the Company's ability to use its NOL and R&D credit carryforwards to offset future taxable income and income tax expense could be significantly limited or eliminated. Due to the existence of a full valuation allowance on U.S. deferred tax assets, any limitations resulting from current or future ownership changes are not expected to impact the Company's effective tax rate.

ASC 740, *Income Taxes*, requires that a valuation allowance be established to reduce a deferred tax asset to its realizable value when it is more likely than not that all or a portion of a deferred tax asset will not be realized. A review of all positive and negative evidence needs to be considered, including the utilization of past tax credits and length of carryback and carryforward periods, reversal of temporary differences, tax planning strategies, current and past performance, the market environment in which the Company operates, and the evaluation of tax planning strategies to generate future taxable income.

Changes in valuation allowance for deferred tax assets were as follows (in thousands):

	As of December 31,	
	2025	2024
Valuation allowance at beginning of year	$3,339	$ —
Change in valuation allowance	4,274	3,339
Valuation allowance at end of year	$7,613	$3,339

As of December 31, 2025, the Company determined that it is "more likely than not" that substantially all of the deferred tax assets will not be realized and therefore a valuation allowance of $7.6 million has been recorded against the Company's deferred tax assets as of December 31, 2025.

A reconciliation of the beginning and ending amount of unrecognized tax benefits related to uncertain tax positions was as follows (in thousands):

	Year Ended December 31,	
	2025	2024
Beginning balance of unrecognized tax benefits	—	—
Additions based on tax positions related to the current year	326	—
Ending balance of unrecognized tax benefits	$326	$—

As of December 31, 2025, the Company had approximately $0.3 million of uncertain tax positions. Due to the valuation allowance recorded against the Company's deferred tax assets, none of the total unrecognized tax benefits as of December 31, 2025 would reduce the effective tax rate if recognized.

The Company's policy is to classify any interest and penalties as a component of income tax expense, if applicable. The Company had no accrued interest or penalties related to income tax matters on its balance sheets at December 31, 2025 or 2024, and has not recognized interest or penalties in its statements of operations and comprehensive loss for the year ended December 31, 2025 and the period from Inception through December 31, 2024. Further, the Company is not currently under examination by any federal, state or local tax authority.

The Company is subject to U.S. federal income tax as well as income tax in state tax jurisdictions. The Company's federal income tax return is open to audit under the statute of limitations for the years ended December 31, 2024 through 2025, and state income tax returns are open to audit under the statute of limitations for the years ended December 31, 2024 through 2025.

Note 14. Segment Reporting

Operating segments are identified as components of an enterprise about which separate discrete financial information is available for evaluation by the chief operating decision-maker ("CODM") in making decisions regarding resource allocation and assessing performance. The Company's CODM is the Company's Chief Executive Officer.

To date, the CODM has viewed the Company's operations and managed the Company's business as one segment, which includes all activities related to the discovery, development and commercialization of neridronate, operating primarily within the United States.

Segment profit or loss is measured as the Company's net loss as reported on the Company's Statement of Operations and Comprehensive Loss. The Company monitors its cash, cash equivalents and short-term investments as reported on the Company's Balance Sheets to determine funding for its research and development.

As the Company does not currently generate revenue, the CODM assesses Company performance through progress measurement against defined corporate goals. In addition to the Company's Statement of Operations and Comprehensive Loss, the CODM is regularly provided with budgeted and forecasted cash projection information at a financial statement level which is used to analyze financial trends, determine liquidity needs and make resource allocation decisions.

Note 15. Subsequent Events

First Participant Dosing in CRPS-RISE Clinical Trial

On June 2, 2026, the Company dosed its first participant in the CRPS-RISE trial and, on June 3, 2026, the Board approved the Milestone Closing, thereby satisfying the second tranche Milestone Closing Conditions under the Series A Purchase Agreement. The Company consummated the Milestone Closing on June 22, 2026, and the Company received approximately $83.6 million in gross proceeds. Under the closing of the Milestone Closing, the Company issued 17,791,136 shares of Series A-1 Convertible Preferred, which were issued at the same terms and conditions as the Series A-1 Convertible Preferred issued under the initial closing of the Series A-1/A-2 Financing.

New Corporate Headquarters Operating Lease

On July 28, 2026, the Company entered into a lease agreement with La Jolla Eastgate LLC (the "New Lease"). The Company is using the premises as its new corporate headquarters.

The New Lease has a term of 65 months, commenced on September 1, 2026, and is expected to expire on or around January 31, 2032. The New Lease does not contain any options to extend the term or to terminate the New Lease early. Total base rent payable over the term of the New Lease is approximately $1.2 million.

Merger Agreement

On August 21, 2026, the Company entered into an Agreement and Plan of Merger (the "Merger Agreement") with Werewolf Therapeutics, Inc., a Delaware corporation ("Werewolf"), and its direct, wholly-owned subsidiary, Wave Atlantis Merger Sub, Inc. ("Merger Sub"). Upon the terms, and subject to the satisfaction of the conditions described in the Merger Agreement, including the approval of the stockholders of each of Werewolf and the Company, Merger Sub will be merged with and into the Company, with the Company surviving as a wholly owned subsidiary of Werewolf (the "Merger").

Notes to Condensed Financial Statements (Unaudited)

Note 1. Organization and Description of Business

Description of Business

Ambros Therapeutics, Inc. (the "Company") is a clinical-stage biotechnology company focused on the development of innovative and transformative medicines for diseases with a high unmet medical need. The Company's lead investigational program targets complex regional pain syndrome ("CRPS") type 1 ("CRPS-1"), a severely painful and debilitating orphan disease that typically develops after an inciting injury or trauma to a limb. The Company's lead product candidate, neridronate, is a potentially differentiated, bisphosphonate licensed from Abiogen Pharma S.p.A. ("Abiogen"), an Italian pharmaceutical company, providing the Company with exclusive rights to neridronate in the United States, Canada, and Mexico. Neridronate has received U.S. Food and Drug Administration ("FDA") Breakthrough Therapy and Orphan Drug designations for CRPS, and Fast Track designation for CRPS-1. The Company's potentially pivotal Phase 3 trial, CRPS-RISE, evaluating neridronate in participants with CRPS-1, initiated enrollment in the first quarter of 2026 and expect to report topline results in 2028.

The Company was incorporated in Delaware in September 2024.

Basis of Presentation

The accompanying condensed financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information and in accordance with the rules and regulations of the Securities and Exchange Commission. Accordingly, certain information and footnote disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted. The condensed balance sheet as of December 31, 2025 has been derived from the audited financial statements at that date. These condensed financial statements should be read in conjunction with the Company's audited annual financial statements and notes thereto for the year ended December 31, 2025.

In management's opinion, the accompanying financial statements reflect all adjustments, consisting of normal recurring adjustments, considered necessary for a fair presentation of the results for the interim periods presented. The results for the interim periods presented are not necessarily indicative of results that may be expected for any future quarter or for the full fiscal year ending December 31, 2026.

Use of Estimates

The preparation of the condensed financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts in the condensed financial statements and accompanying notes. The Company regularly evaluates estimates and assumptions related to assets and liabilities, and disclosures of contingent assets and liabilities at the dates of the condensed financial statements and the reported amounts of expenses during the reporting period. Areas where management uses subjective judgments include, but are not limited to, the incremental borrowing rates for leases, accruals for research and development costs, the fair value of common stock and various other inputs used in estimating stock-based compensation expense, and accounting for income tax uncertainties, including a valuation allowance for deferred tax assets. Actual results may differ materially from these estimates under different assumptions or conditions.

Liquidity and Going Concern Assessment

The Company has experienced net operating losses and negative cash flows from operations since September 4, 2024 ("Inception"). As of June 30, 2026, the Company has an accumulated deficit of approximately $60.8 million.

The Company has not established a source of revenue sufficient to cover its operating costs, and as such, the Company has financed its initial operations primarily through the sale and issuance of convertible promissory notes and convertible preferred stock. In the future, the Company will seek to raise additional capital through private or public equity financings, debt financings, license agreements, collaborative agreements, or other arrangements with other companies, or other sources of financing.

The Company believes its cash, cash equivalents, and short-term investments balance of $103.2 million and restricted cash of $1.0 million as of June 30, 2026, will be sufficient for the Company to continue as a going concern for at least one year from the date these financial statements are available for issuance. Restricted cash represents funds the Company is required to set aside as collateral, in accordance with one of the Company's vendor service agreements.

Management expects to incur net losses for the foreseeable future. There can be no assurance that the Company will ever earn revenues or achieve profitability, or if achieved, that such revenues and profitability will be sustained on a continuing basis. There can be no assurance that, in the event the Company requires additional financing, such financing will be available at terms acceptable to the Company, if at all. Failure to generate sufficient cash flows from operations, raise additional capital, and reduce discretionary spending, should additional capital not become available, could have a material adverse effect on the Company's ability to achieve its intended business objectives.

Note 2. Summary of Significant Accounting Policies

There have been no material changes to the Company's significant accounting policies as described in the audited financial statements as of and for the year ended December 31, 2025, except as described below.

Recently Adopted Accounting Pronouncements

On December 14, 2023, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2023-09, *Improvements to Income Tax Disclosures* ("ASU 2023-09"). ASU 2023-09 amends Accounting Standards Codification ("ASC") 740, Income Taxes to expand income tax disclosures and requires that the Company disclose (i) the income tax rate reconciliation using both percentages and reporting currency amounts; (ii) specific categories within the income tax rate reconciliation; (iii) additional information for reconciling items that meet a quantitative threshold; (iv) the composition of state and local income taxes by jurisdiction; and (v) the amount of income taxes paid disaggregated by jurisdiction. The Company early-adopted ASU 2023-09 for the year ended December 31, 2025, on a prospective basis. Adoption of this standard did not have a material impact on the Company's condensed financial statements.

Recently Issued Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the FASB or other standard setting bodies and adopted by the Company as of the specified effective date. The Company is currently evaluating the impact of recently issued standards that are not yet effective on the Company's financial position or results of operations upon adoption.

In November 2024, the FASB issued ASU 2024-03, *Income Statement — Reporting Comprehensive Income — Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses*. ASU 2024-03 will require public business entities to disclose in the notes to the financial statements, at each interim and annual reporting period, specific information about certain costs and expenses, including purchases of inventory, employee compensation, depreciation, and intangible asset amortization included in each expense caption presented on the face of the income statement, and the total amount of an entity's selling expenses. ASU 2024-03 is effective for annual reporting periods beginning after December 15, 2026, and interim reporting periods beginning after December 15, 2027, and may be applied either prospectively or retrospectively. Early adoption is permitted. The Company is currently evaluating the impact of adopting this standard on the condensed financial statements.

In December 2025, the FASB issued ASU 2025-11 *Interim Reporting (Topic 270): Narrow-Scope Improvements*. This standard clarifies current interim reporting requirements on Topic 270 and introduces a disclosure principle requiring entities to disclose events since the end of the last annual reporting period that have a material impact on the entity. This standard will be effective for fiscal years beginning after December 15, 2027, with the option to apply it retrospectively. Early adoption is allowed. The Company is currently assessing the potential impact of this guidance on its condensed financial statement disclosures.

There were no transfers between Level 1, 2 and 3 during the six months ended June 30, 2026, and the year ended December 31, 2025.

Note 5. Short-Term Investments

The following table summarizes short-term investments as of June 30, 2026 (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Market Value
Available-for-sale Securities:				
Commercial Paper	$ 9,378	$—	$—	$ 9,378
Corporate Bonds	499	—	—	499
U.S. Treasury Securities	1,501	—	—	1,501
Total	**$11,378**	**$—**	**$—**	**$11,378**

As of June 30, 2026, the Company had four available-for-sale debt securities in an unrealized loss position without an allowance for credit losses. Unrealized losses on the Company's investments in debt securities have not been recognized into income as the issuers' bonds are of high credit quality and the decline in fair value is largely due to market conditions and/or changes in interest rates. The Company does not intend to sell, and it is more likely than not that the Company will not be required to sell the securities prior to the anticipated recovery of their amortized cost basis. The fair value is expected to recover as the bonds approach maturity.

The Company elected the practical expedient to exclude accrued interest receivable from both the amortized cost basis and estimated fair value of its short-term investments for purposes of identifying and measuring impairment. Accrued interest receivable was $0.1 million and less than $0.1 million as of June 30, 2026 and December 31, 2025, respectively, and is presented within prepaid expenses and other current assets on the condensed balance sheets.

Note 6. Balance Sheet Components

Depreciation expense was less than $0.1 million for each the three and six months ended June 30, 2026 and 2025.

Other Non-current Assets

Other non-current assets include a deposit of $2.5 million to the Company's clinical research organization related to the CRPS-RISE clinical trial, to be held for the duration of the study. The deposit will be applied against final invoices upon completion of the study, with any remaining balance to be refunded to the Company. Research and development expenses associated with the study are recognized in the period in which the underlying services are rendered, independent of the timing of cash settlement. As of June 30, 2026 and December 31, 2025, the remaining unapplied deposit balance was $2.5 million.

Accrued Expenses

Accrued expenses consisted of the following (in thousands):

Less: Imputed interest	(2)
Present value of lease liabilities	**$100**

Note 8. Convertible Notes

In November 2024, December 2024, and January 2025, the Company issued convertible promissory notes to certain investors for aggregate principal amounts of $10.0 million, $15.0 million and $2.5 million, respectively (collectively, the "Convertible Notes"). The $15.0 million convertible promissory note was issued to Abiogen as non-cash consideration for the license of neridronate rights under the License and Development Agreement with Abiogen ("License Agreement"). All Convertible Notes were issued as part of one integrated financing series on substantially similar terms and bore simple interest at a rate of 8.0% per annum.

On September 30, 2025, the Company closed the initial closing of its Series A-1/A-2 convertible preferred stock financing ("Series A-1/A-2 Financing") pursuant to which it sold shares of its Series A-1 Convertible Preferred Stock, par value $0.00001 per share (the "Series A-1 Convertible Preferred"), at a price of $4.70 per share. In connection with such initial closing, all outstanding principal and accrued interest under the Convertible Notes converted into an aggregate of 7,790,211 shares of its Series A-2 Convertible Preferred Stock, par value $0.00001 per share (the "Series A-2 Convertible Preferred" and, together with the Series A-1 Convertible Preferred, the "Series A Convertible Preferred") at a conversion price of $3.76 per share, representing the 20% discount.

During the three and six months ended June 30, 2025, the Company recognized losses on changes in the fair value of the Convertible Notes of $2.8 million and $5.5 million, respectively, including $1.9 million and $3.8 million, respectively, related to Related Party Convertible Notes (as further described and defined in Note 11). No Convertible Notes were outstanding during the three and six months ended June 30, 2026.

The Company elected the fair value option under ASC 825-10, *Financial Instruments — Overall*, to account for its Convertible Notes (see Note 2 in the Company's audited financial statements as of and for the year ended December 31, 2025).

Note 9. Capital Structure

Convertible Preferred Stock

On September 30, 2025, the Company entered into a Series A Preferred Stock Purchase Agreement (the "Series A Purchase Agreement") providing for the sale and issuance, in two tranches, of shares of Series A-1 Convertible Preferred and Series A-2 Convertible Preferred. The Series A-1 Convertible Preferred was sold at an original issue price of $4.70 per share and the Series A-2 Convertible Preferred at an original issue price of $3.76 per share.

At the initial closing on September 30, 2025, the Company issued 8,009,041 shares of Series A-1 Convertible Preferred in exchange for aggregate cash proceeds of approximately $37.6 million and issued 7,790,211 shares of Series A-2 Convertible Preferred upon the conversion and cancellation of outstanding convertible promissory notes with an aggregate face amount of approximately $27.5 million. The Series A Purchase Agreement further permitted an additional total of approximately $4.2 million of Series A-1 Convertible Preferred (886,525 shares) to be sold to two purchasers on or before October 15, 2025 (the "Extended Initial Closing"), which was fully purchased.

The Series A Purchase Agreement also obligated the purchasers, subject to satisfaction or waiver of certain conditions (including dosing of the first participant in the Company's CRPS-RISE trial) to purchase an additional 17,791,136 shares of Series A-1 Convertible Preferred at a milestone closing for $4.70 per share, for aggregate cash proceeds of approximately $83.6 million (the "Milestone Shares" and such closing, the "Milestone Closing", and such conditions, the "Milestone Closing Conditions").

The Company determined that the second tranche right subject to the Milestone Closing Conditions was an embedded feature of the Series A Convertible Preferred and not a freestanding instrument under ASC 480. As the embedded feature's economic characteristics and risks were determined to be clearly and closely related to the host contract, bifurcation under ASC 815 was not required and the second tranche right was not accounted for separately.

On June 2, 2026, the Company dosed the first participant in the CRPS-RISE trial and, on June 3, 2026, the Company's board of directors approved the Milestone Closing, thereby satisfying the second tranche Milestone Closing Conditions under the Series A Purchase Agreement. The Company consummated the Milestone Closing on June 22, 2026, and the Company received approximately $83.6 million in aggregate net cash proceeds.

The Series A-1 Convertible Preferred conversion price was subject to a potential downward adjustment if the United States Patent and Trademark Office had not issued a Notice of Allowance with respect to the Company's method-of-use patent application prior to August 31, 2027. In March 2026, the Company received a Notice of Allowance from the United States Patent and Trademark Office with respect to such patent application, and accordingly this adjustment provision is no longer in effect as of June 30, 2026.

There were no changes to the rights and preferences of the Company's convertible preferred stock during the six months ended June 30, 2026, from those described in the audited financial statements as of and for the year ended December 31, 2025.

Common Stock

Common stock reserved for future issuance, on an as-if-converted basis, consisted of the following:

Note 10. Equity Incentive Plan and Stock-Based Compensation Expense

Equity Incentive Plan

On September 9, 2024, the Company adopted the 2024 Equity Incentive Plan (as amended, the "2024 Plan"). The 2024 Plan provides for the granting of restricted stock, incentive stock options ("ISOs"), and nonqualified stock options to employees, officers, directors, consultants and other service providers of the Company, except that ISOs may be granted only to employees (including employee-directors).

As of June 30, 2026, 205,268 shares were available for future grant under the 2024 Plan.

The 2024 Plan permits the early exercise of stock options granted upon board approval prior to vesting. Shares of restricted stock and shares issued upon early exercise are subject to repurchase by the Company at the original purchase price if the holder's service terminates before the underlying award vests and continues to vest in accordance with the original award's service-based vesting schedule. Cash proceeds received from early exercises are recorded as a liability and reclassified to additional paid-in capital as the underlying shares vest. Shares subject to repurchase are excluded from shares outstanding for accounting purposes until the repurchase right lapses.

Stock-Based Compensation Expense

The following table summarizes stock-based compensation expense (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025

General and administrative	432	—	784	—
Total	**$563**	**$—**	**$1,016**	**$—**

As of June 30, 2026, there was approximately $6.6 million of unrecognized stock-based compensation expense related to unvested stock options, which the Company expects to recognize over a weighted-average remaining period of approximately 3.4 years.

Unrecognized stock-based compensation expense related to unvested restricted stock awards was immaterial as of June 30, 2026.

Time-Based Restricted Stock Awards

The following table summarizes the activity for time-based restricted stock awards:

	Number of Units

Outstanding at June 30, 2026	**733,752**

As of June 30, 2026, and December 31, 2025, there were 733,752 and 931,460 shares of common stock, respectively, that were early exercised and remained subject to repurchase.

Time-Based Stock Options

The following table summarizes the activity for time-based stock options:

The Company granted stock options to purchase 971,000 and 1,196,500 shares of common stock to employees under the 2024 Plan during the three and six months ended June 30, 2026, respectively. No stock options were granted during the three and six months ended June 30, 2025. The fair value of each option grant was estimated using the Black-Scholes option pricing model with the following weighted-average assumptions for the three and six months ended June 30, 2026:

Note 11. Related Parties

The Company's lead product candidate, neridronate, is licensed from Abiogen, a related party of the Company. Pursuant to the License Agreement, Abiogen granted the Company exclusive rights to develop and commercialize neridronate in the United States, Canada, and Mexico (see Note 12). Under the License Agreement, Abiogen is the sole supplier of neridronate drug substance. The Company also entered into a related supply agreement with Abiogen pursuant to which Abiogen, other than in the event of a supply failure, serves as the Company's sole supplier of commercial drug product.

In November 2024 and January 2025, the Company issued convertible promissory notes to certain related party investors for aggregate cash proceeds of $3.1 million and in December 2024, the Company issued a $15.0 million convertible promissory note to Abiogen as non-cash consideration for the license of rights to neridronate under the License Agreement described below (collectively, the "Related Party Convertible Notes").

On September 30, 2025, upon the initial closing of the Series A-1/A-2 Financing all outstanding principal and accrued interest under the Related Party Convertible Notes automatically converted into an aggregate of 5,124,942 shares of Series A-2 Convertible Preferred at a conversion price of $3.76 per share, reflecting the 20% contractual conversion discount.

During the three and six months ended June 30, 2025, the Company recognized losses on changes in the fair value of Related Party Convertible Notes of $1.9 million and $3.8 million, respectively. There were no Related Party Convertible Notes outstanding during the three and six months ended June 30, 2026.

During the three and six months ended June 30, 2026, the Company incurred research and development expenses with related parties of less than $0.1 million and $0.1 million, respectively. During the three and six months ended June 30, 2025, the Company incurred research and development expenses with related parties of $0.4 million and $0.6 million, respectively.

Note 12. Commitments and Contingencies

License Agreement with Abiogen

In December 2024, the Company entered into the License Agreement with Abiogen, pursuant to which Abiogen granted the Company exclusive rights to develop and commercialize neridronate in the United States, Canada, and Mexico.

The License Agreement was accounted for as an asset acquisition and the upfront consideration consisting of a $15.0 million convertible promissory note issued to Abiogen, was recognized as in-process research and development expense during the period from Inception through December 31, 2024. See also Note 8, *Convertible Notes*.

The Company is obligated under the License Agreement to pay a mid-single-digit percentage royalty on aggregate annual net sales of licensed products, payable upon first commercial sale. No royalties had been incurred as of June 30, 2026.

Under the License Agreement, Abiogen is the sole supplier of neridronate drug substance. In connection with the License Agreement, the Company concurrently entered into a supply agreement with Abiogen under which, other than in the event of a supply failure, Abiogen is the sole supplier of commercial drug product. During the three and six months ended June 30, 2026, the Company purchased drug substance in amounts totaling less than $0.1 million and $0.1 million, respectively. During the three and six months ended June 30, 2025, the Company purchased drug substance in amounts totaling $0.4 million and $0.6 million, respectively.

As of June 30, 2026, the Company had no material non-cancelable minimum purchase commitments outstanding under the supply agreement.

CEO Performance Bonus

In connection with the employment agreement entered into on December 1, 2025, the Company's Chief Executive Officer is entitled to receive a performance bonus (the "CEO Performance Bonus") upon the occurrence of a qualifying liquidity event during the Chief Executive Officer's continued service to the Company (a "Bonus Event"). A Bonus Event is defined as the earliest to occur of: (i) a change in control in which net proceeds to the Company's securityholders equal or exceed $1.0 billion; (ii) a bona fide third-party equity financing prior to an initial public offering or direct listing that results in a post-money valuation of the Company equal to or exceeding $1.0 billion on a fully diluted basis; or (iii) the Company's market capitalization reaching $1.0 billion following an initial public offering or direct listing, calculated based on the 60-trading-day volume-weighted average price of the Company's common stock. The CEO Performance Bonus equals 0.75% of the applicable valuation metric at the time of the Bonus Event. The award may be settled in cash, equity, or a combination of both, at the sole discretion of the Company's board of directors.

The CEO Performance Bonus is a share-based payment arrangement accounted for in accordance with ASC 718 — *Stock Compensation* and is classified as a liability in the Company's balance sheet. The award will be remeasured at fair value each reporting period until settlement.

Compensation cost will be recognized when a Bonus Event becomes probable, at which point the Company will record expense based on the then-current fair value of the award, estimated using a Monte Carlo simulation. As of June 30, 2026, no Bonus Event had occurred, and none was considered probable. Accordingly, no compensation cost has been recognized with respect to the CEO Performance Bonus for the three and six months ended June 30, 2026.

Purchase Commitments

The Company enters contracts in the normal course of business with contract research organizations and other third-party vendors for clinical trials and testing and manufacturing services. These contracts generally do not contain minimum purchase commitments and are cancellable by the Company upon written notice. Payments that may be due upon cancellation consist of payments for services provided or expenses incurred prior to cancellation. As of June 30, 2026, and December 31, 2025, there were no amounts accrued related to termination charges.

Legal Contingencies

The Company may, from time to time, be involved in various claims and legal actions that arise in the ordinary course of business. The Company accrues for legal contingencies when it is determined probable that a liability has been incurred and the amount of the loss can be reasonably estimated. The Company is not involved in any pending legal proceedings that it believes could have a material adverse effect on its financial condition, results of operations, or cash flows. There were no legal contingencies requiring accrual or disclosures as of June 30, 2026, and December 31, 2025.

Indemnification

In the ordinary course of business, the Company enters into agreements that may include indemnification provisions. As permitted under Delaware law and in accordance with its bylaws, the Company indemnifies its officers and directors for certain events or occurrences while the officer or director is or was serving in such capacity. The Company has never incurred material costs to defend lawsuits or settle claims related to these indemnification provisions.

Note 13. Segment Reporting

Operating segments are identified as components of an enterprise about which separate discrete financial information is available for evaluation by the chief operating decision-maker ("CODM") in making decisions regarding resource allocation and assessing performance. The Company's CODM is the Company's Chief Executive Officer.

To date, the CODM has viewed the Company's operations and managed the Company's business as one segment, which includes all activities related to the discovery, development and commercialization of neridronate, operating primarily within the United States.

Segment profit or loss is measured as the Company's net loss as reported on the Company's Statement of Operations and Comprehensive Loss. The Company monitors its cash, cash equivalents and short-term investments as reported on the Company's Balance Sheets to determine funding for its research and development.

As the Company does not currently generate revenue, the CODM assesses Company performance through progress measurement against defined corporate goals. In addition to the Company's Statement of Operations and Comprehensive Loss, the CODM is regularly provided with budgeted and forecasted cash projection information at a financial statement level which is used to analyze financial trends, determine liquidity needs and make resource allocation decisions.

Note 14. Subsequent Events

The Company has evaluated all subsequent events through September 22, 2026, for potential recognition or disclosure within the financial statements.

Merger Agreement

On August 21, 2026, the Company entered into an Agreement and Plan of Merger (the "Merger Agreement") with Werewolf Therapeutics, Inc., a Delaware corporation ("Werewolf"), and its direct, wholly-owned subsidiary, Wave Atlantis Merger Sub, Inc. ("Merger Sub"). Upon the terms, and subject to the satisfaction of the conditions described in the Merger Agreement, including the approval of the stockholders of each of Werewolf and the Company, Merger Sub will be merged with and into the Company, with the Company surviving as a wholly owned subsidiary of Werewolf (the "Merger").

New Corporate Headquarters Operating Lease

On July 28, 2026, the Company entered into a lease agreement with La Jolla Eastgate LLC (the "New Lease"). The Company is using the premises as its new corporate headquarters.

The New Lease has a term of 65 months, commenced on or around September 1, 2026, and is expected to expire on or around January 31, 2032. The New Lease does not contain any options to extend the term or to terminate the New Lease early. Total base rent payable over the term of the New Lease is approximately $1.2 million.

2.3 Organizational Documents; Directors and Officers. At the Effective Time:

(a) the certificate of incorporation of the Surviving Corporation shall be amended and restated in its entirety to read identically to the certificate of incorporation of Merger Sub as in effect immediately prior to the Effective Time, until thereafter amended as provided by the DGCL and such certificate of incorporation; provided, however, that at or immediately prior to the Effective Time, the Surviving Corporation shall file an amendment to its certificate of incorporation to change the name of the Surviving Corporation to "Ambros Merger Sub," or such other name as shall be mutually agreed upon by Werewolf and Ambros prior to filing such amendment;

(b) the certificate of incorporation of Werewolf shall be identical to the certificate of incorporation of Werewolf immediately prior to the Effective Time, until thereafter amended as provided by the DGCL and such certificate of incorporation; provided, however, that at or immediately prior to the Effective Time, Werewolf shall file an amendment to its certificate of incorporation (the "**Werewolf Charter Amendment**") to: (i) change the name of Werewolf to "Ambros Therapeutics, Inc."; (ii) effect the Werewolf Reverse Stock Split; (iii) subject to the approval of the Werewolf Authorized Share Increase Proposal, effect the Werewolf Authorized Common Stock Increase; and (iv) make such other changes as shall be mutually agreed upon by Werewolf and Ambros prior to filing such amendment;

(c) the bylaws of the Surviving Corporation shall be amended and restated in their entirety to read identically to the bylaws of Merger Sub as in effect immediately prior to the Effective Time (except that the name of the Surviving Corporation in such bylaws shall reflect the name identified in Section 2.3(a)), until thereafter amended as provided by the DGCL and such bylaws;

(d) the Parties shall act in compliance with Section 6.10 (including, to the extent necessary, procuring the resignation or removal of any directors or officers of Werewolf immediately prior to the Effective Time) so that, as of the Effective Time, the directors and officers of Werewolf, each to hold office in accordance with the certificate of incorporation and bylaws of Werewolf, shall consist of the Persons set forth in Section 6.10(a)(i) of the Ambros Disclosure Schedule after giving effect to the provisions of Section 6.10, or such other Persons as shall be designated by Ambros in its sole discretion; and

(e) the directors and officers of the Surviving Corporation, each to hold office in accordance with the certificate of incorporation and bylaws of the Surviving Corporation, shall be the directors and officers of Merger Sub.

2.4 Conversion of Shares of Ambros.

(a) Immediately prior to the Effective Time, all issued and outstanding Ambros Preferred Stock shall be converted into Ambros Common Stock in accordance with, and pursuant to the terms and conditions of, the Organizational Documents of Ambros (the "**Ambros Preferred Stock Conversion**").

(b) At the Effective Time (after giving effect to the Ambros Preferred Stock Conversion), by virtue of the Merger and without any further action on the part of Ambros, Werewolf, Merger Sub, or any stockholder of Werewolf or Ambros, subject to Section 2.4(d), each share of Ambros Common Stock outstanding immediately prior to the Effective Time (excluding Dissenting Shares, as defined below) shall be automatically converted solely into the right to receive a number of shares of Werewolf Common Stock equal to the Ambros Exchange Ratio. Werewolf shall issue a number of shares of Werewolf Common Stock equal to the Ambros Exchange Ratio for each share of Ambros Common Stock outstanding immediately prior to the Effective Time (excluding Dissenting Shares, as defined below); provided, however, that if a holder of Ambros Capital Stock sends written notice to Werewolf and Ambros at least ten (10) Business Days prior to the Closing, (i) setting forth such holder's holdings of Ambros Capital Stock in sufficient detail to evidence that the aggregate number of shares of Werewolf Common Stock to be issued to such holder at Closing (including Werewolf Common Stock to be issued in connection with the Concurrent PIPE Financing) would result in such holder and its affiliates beneficially owning, immediately after giving effect to the Merger and the Concurrent PIPE Financing, a number of shares of Werewolf Common Stock (as calculated pursuant to Section 13(d) of the Exchange Act and Rule 13d-3 promulgated thereunder) in excess of 9.99% of the Werewolf Common Stock issued and outstanding immediately after giving effect to the Merger and the Concurrent PIPE Financing (the "**Beneficial Ownership Limitation**") (if any), and (iii) electing to receive pre-funded warrants in lieu of any shares of Werewolf Common Stock in excess of the Beneficial Ownership Limitation (such excess shares, the "**Remaining Entitlement**"), then Werewolf shall issue to such holder in lieu of the issuance of shares of Werewolf Common Stock to which such holder would otherwise receive by virtue of the Merger (x) shares of Werewolf Common Stock up to the Beneficial Ownership Limitation and (y) pre-funded warrants, substantially in the form attached hereto as Exhibit G, to purchase a number of shares of Werewolf Common Stock (the "**Merger Pre-Funded Warrants**") upon exercise of such Merger Pre-Funded Warrants equal to the Remaining Entitlement, in such manner to provide any such holder of Ambros Common Stock with the same economic effect as contemplated by this Agreement. If any stockholder shall fail to make any such election, such stockholder shall receive the Remaining Entitlement in the form of Werewolf Common Stock. For the avoidance of doubt, no holder of Ambros Common Stock whose ownership of Werewolf Common Stock upon Closing will be below the Beneficial Ownership Limitation shall have the right to elect to receive the Merger Pre-Funded Warrants. Other than as used in this Section 2.4(b), references to Werewolf Common Stock issued as consideration in the Merger in any other provision of this Agreement shall be deemed to also reference Merger Pre-Funded Warrants issued as consideration in the Merger unless inconsistent with such provision.

(c) If any Ambros Common Stock underlying any restricted stock award agreement or other similar agreement with Ambros outstanding immediately prior to the Effective Time is unvested or is subject to a repurchase option or a risk of forfeiture, then the shares of Werewolf Common Stock issued in exchange for such Ambros Common Stock will to the same extent be unvested and subject to the same repurchase option or risk of forfeiture and other applicable terms and conditions, and such shares of Werewolf Common Stock shall accordingly be marked with appropriate legends. From and after the Closing, Werewolf shall be entitled to exercise any such repurchase option or other right set forth in any such restricted stock award agreement or other agreement without any further action by Werewolf, Merger Sub or any holder of Ambros Capital Stock.

(d) No fractional shares of Werewolf Common Stock shall be issued in connection with the Merger, and no certificates, book-entry credits, scrip or warrants representing fractional shares of Werewolf Common Stock (or Merger Pre-Funded Warrants in lieu thereof) shall be issued. For purposes of determining the number of shares of Werewolf Common Stock (or Merger Pre-Funded Warrants in lieu thereof) issuable to any holder of Ambros Common Stock pursuant to this Agreement, all shares of Ambros Common Stock held by such holder immediately prior to the Effective Time shall be aggregated, and the aggregate number of shares of Werewolf Common Stock issuable to such holder shall be rounded up to the nearest whole share. No cash shall be paid in lieu of any fractional share of Werewolf Common Stock that is so rounded up.

(e) At the Effective Time, by virtue of the Merger and without any further action on the part of Ambros, Werewolf, Merger Sub, or any stockholder of Ambros, each share of common stock, $0.0001 par value per share, of Merger Sub issued and outstanding immediately prior to the Effective Time shall be converted into and exchanged for one validly issued, fully paid and nonassessable share of common stock, $0.0001 par value per share, of the Surviving Corporation. If applicable, each stock certificate of Merger Sub evidencing ownership of any such shares shall, as of the Effective Time, evidence ownership of such shares of common stock of the Surviving Corporation until presented for transfer or exchange.

(f) If, between the date of this Agreement and the Effective Time, the outstanding Ambros Common Stock or Werewolf Common Stock shall have been changed into, or exchanged for, a different number of shares or a different class, by reason of any stock dividend, subdivision,

reclassification, recapitalization, split (including the Werewolf Reverse Stock Split to the extent such split has not been previously taken into account in calculating the Ambros Exchange Ratio), combination or exchange of shares or other like change, the Ambros Merger Shares and the Concurrent PIPE Financing Merger Shares shall, to the extent necessary, be equitably adjusted to reflect such change to the extent necessary to provide the holders of Ambros Common Stock with the same economic effect as contemplated by this Agreement prior to such stock dividend, subdivision, reclassification, recapitalization, split (including the Werewolf Reverse Stock Split), combination or exchange of shares or other like change; provided, however, that nothing herein will be construed to permit Ambros or Werewolf to take any action with respect to Ambros Common Stock or Werewolf Common Stock that is prohibited or not expressly permitted by the terms of this Agreement.

(g) At the Effective Time, each Ambros Option outstanding and unexercised immediately prior to the Effective Time shall automatically without any further action on the part of Ambros, Werewolf, Merger Sub, or any holder of an Ambros Option, be assumed and converted into an option (an "**Assumed Ambros Option**") to acquire, on the same terms and conditions (including the same vesting and exercisability terms and conditions) as were applicable under the Ambros Equity Plan and option agreement applicable to such Ambros Option immediately prior to the Effective Time, the number of shares of Werewolf Common Stock determined by multiplying the number of shares of Ambros Common Stock subject to such Ambros Option immediately prior to the Effective Time by the Ambros Exchange Ratio, rounding down to the nearest whole number of shares, at a per share exercise price determined by dividing the per share exercise price of such Ambros Option immediately prior to the Effective Time by the Ambros Exchange Ratio, rounding up to the nearest whole cent; provided, that the conversion of the Ambros Options will be made in a manner consistent with Treasury Regulations Section 1.424-1, such that the conversion will not constitute a "modification" of such Ambros Options for purposes of Section 409A or Section 424 of the Code. As of the Effective Time, Werewolf will assume the Ambros Equity Plan; provided, further, that (i) the terms of the Assumed Ambros Options shall be further amended as may be necessary to reflect such assumption and conversion of the Ambros Options into Assumed Ambros Options (such as by making any change in control or similar definition relate to Werewolf instead of Ambros and having any provision that provides for the adjustment of Ambros Options upon the occurrence of certain corporate events of Ambros relate to similar corporate events of Werewolf instead); and (ii) the Werewolf Board or a committee thereof shall succeed to the authority and responsibility of the Ambros Board or any committee thereof with respect to each Assumed Ambros Option.

2.5 Contingent Value Right; Process for Pre-Closing Permitted Werewolf Asset Disposition Agreements.

(a) Immediately prior to the Effective Time, Werewolf shall declare a distribution (the "**Pre-Closing Distribution**") to holders of Werewolf Common Stock of record the right to receive one non-transferable contingent value right (each, a "**CVR**") for each outstanding share of Werewolf Common Stock held by such stockholder (less applicable withholding Taxes), each representing the right to receive contingent payments upon the occurrence of certain events set forth in, and subject to and in accordance with the terms and conditions of, the Contingent Value Rights Agreement in the form attached hereto as Exhibit F, to be entered into between Werewolf and such nationally recognized rights agent agreed to between Werewolf and Ambros) (the "**Rights Agent**"), with such revisions thereto requested by the Rights Agent that are not, individually or in the aggregate, materially detrimental to the holders of CVRs and reasonably acceptable to Werewolf and Ambros (the "**CVR Agreement**"). The record date for the Pre-Closing Distribution shall be the close of business on the last Business Day prior to the Effective Time (prior to giving effect to the Werewolf Reverse Stock Split) and the payment date for the Pre-Closing Distribution shall be three (3) Business Days after the Effective Time; provided that the payment of such distribution may be conditioned upon the occurrence of the Effective Time. For the avoidance of doubt, the number of CVRs issuable to each holder of Werewolf Common Stock shall be determined based on the number of shares of Werewolf Common Stock held by such holder as of the record date on a pre-Werewolf Reverse Stock Split basis. In connection with the Pre-Closing Distribution, Werewolf shall cause the CVR Agreement to be duly authorized, executed and delivered by Werewolf and the Rights Agent.

(b) The CVRs are solely contractual rights and shall not constitute equity or ownership interests in Werewolf, Ambros or any of their respective Affiliates, and Werewolf and Ambros shall cooperate, including by making changes to the CVR Agreement, as necessary to ensure that the CVRs are not subject to registration under the Securities Act, the Exchange Act or applicable state securities or "blue sky" Laws. Notwithstanding anything to the contrary herein or in the CVR Agreement, none of Werewolf, Ambros or any of their respective Affiliates shall owe any fiduciary or other duties to any holder of CVRs, except to the extent expressly set forth in the CVR Agreement.

(c) Prior to the Closing Date, Werewolf shall engage a consultant (the "**Legacy Asset Consultant**") mutually agreed by, and pursuant to an agreement on terms and conditions acceptable to, each of the Parties to oversee, market and negotiate the Permitted Werewolf Asset Disposition as set forth in the CVR Agreement; provided that any definitive agreement for such Permitted Werewolf Asset Disposition shall remain subject to Ambros' prior written approval (prior to the Closing) or Werewolf's prior written approval (following the Closing) as provided in clause (d) below or the CVR Agreement, respectively. The Legacy Asset Consultant shall provide Werewolf with periodic reporting on the status of monetization efforts relating to the Legacy Assets and such other information as requested by Werewolf following the Effective Time as provided in the CVR Agreement.

(d) As of the date hereof, neither Werewolf nor any of its Subsidiaries is party to, or bound by, any Permitted Werewolf Asset Disposition Agreements. Notwithstanding anything to the contrary set forth in this Agreement (but subject to the provisions of this Section 2.5(d)), prior to the Effective Time, Werewolf shall not, nor shall it permit any of its Subsidiaries, to enter into, or become bound by, any Permitted Werewolf Asset Disposition Agreement without Ambros' prior written consent. Prior to Werewolf or any of its Subsidiaries entering into or becoming

bound by any Permitted Werewolf Asset Disposition Agreement, Werewolf shall seek consent thereto from Ambros and shall provide a summary of the material terms and conditions of the proposed Permitted Werewolf Asset Disposition thereunder and written copies of any proposed transaction agreements related thereto and all other information within the possession or control of Werewolf reasonably requested by Ambros with respect to such proposed Permitted Werewolf Asset Disposition.

(e) Werewolf agrees to pay all costs and fees of the Rights Agent, the Legacy Asset Consultant and any other relevant CVR relates costs and expenses contemplated by this Section 2.5, otherwise in this Agreement or in the CVR Agreement (the "**CVR Fees**").

2.6 Closing of Transfer Books. At the Effective Time, (i) all Ambros Common Stock outstanding immediately prior to the Effective Time shall be treated in accordance with Section 2.4, and all holders of certificates representing Ambros Common Stock that were outstanding immediately prior to the Effective Time shall cease to have any rights as stockholders of Ambros (other than the right to receive Ambros Merger Shares or Merger Pre-Funded Warrants in lieu thereof) and (ii) the stock transfer books of Ambros shall be closed with respect to all Ambros Common Stock (including any Ambros Common Stock underlying Ambros Options) outstanding immediately prior to the Effective Time. No further transfer of any such Ambros Common Stock shall be made on such stock transfer books after the Effective Time.

2.7 Surrender of Ambros Common Stock.

(a) On or prior to the Closing Date, Werewolf and Ambros shall jointly select a reputable bank, transfer agent or trust company to act as exchange agent in the Merger (the "**Exchange Agent**"). At the Effective Time, Werewolf shall deposit with the Exchange Agent, for the benefit of the holders of Ambros Common Stock evidence of book-entry shares representing the shares of Werewolf Common Stock issuable pursuant to Section 2.4 in exchange for Ambros Common Stock, together with one or more certificates representing shares of Werewolf Common Stock in an amount sufficient to satisfy any elections made by holders of certificated Ambros Common Stock to receive certificated shares of Werewolf Common Stock pursuant to Section 2.7(b).

(b) Promptly after the Effective Time, the Parties shall cause the Exchange Agent to mail to the Persons who were record holders of Ambros Common Stock that were converted into the right to receive Ambros Merger Shares or Merger Pre-Funded Warrants in lieu thereof: (i) a letter of transmittal in customary form and containing such provisions as Werewolf may reasonably specify, including, in the case of any holder of a certificate that immediately prior to the Effective Time represented outstanding shares of Ambros Common Stock (an "**Ambros Certificate**"), an option for such holder to elect to receive its Ambros Merger Shares (or Merger Pre-Funded Warrants in lieu thereof) in certificated form in lieu of book-entry form and (ii) instructions for effecting the surrender of Ambros Common Stock (including, where applicable, any Ambros Certificates) in exchange for the Ambros Merger Shares or Merger Pre-Funded Warrants in lieu thereof (the "**Letter of Transmittal**"). Upon execution and delivery of a duly executed Letter of Transmittal and, in the case of a holder surrendering an Ambros Certificate, such Ambros Certificate (or an affidavit of loss in lieu thereof), together with such other documents as may be reasonably required by the Exchange Agent or Werewolf, the holder of such Ambros Common Stock shall be entitled to receive in exchange therefor (x) book-entry shares representing Ambros Merger Shares (in a number of whole shares of Werewolf Common Stock) that such holder has the right to receive pursuant to the provisions of Section 2.4, or Merger Pre-Funded Warrants in lieu thereof or (y) if such holder has validly elected to receive certificated shares in accordance with this Section 2.7(b), one or more certificates representing such number of whole shares of Werewolf Common Stock. Until so surrendered, each Ambros Certificate shall be deemed, for all purposes, to represent only the right to receive the Ambros Merger Shares (or Merger Pre-Funded Warrants in lieu thereof) issuable in respect thereof pursuant to this Agreement.

(c) No dividends or other distributions declared or made with respect to Werewolf Common Stock with a record date after the Effective Time shall be paid to the holder of any Ambros Common Stock with respect to the shares of Werewolf Common Stock or Merger Pre-Funded Warrants in lieu thereof that such holder has the right to receive in the Merger until such holder delivers a duly executed Letter of Transmittal (at which time (or, if later, on the applicable payment date) such holder shall be entitled, subject to the effect of applicable abandoned property, escheat or similar Laws, to receive all such dividends and distributions, without interest).

(d) Any shares of Werewolf Common Stock deposited with the Exchange Agent that remain undistributed to holders of Ambros Common Stock as of the date that is 180 days after the Closing Date shall be delivered to Werewolf upon demand, and any holders of Ambros Common Stock who have not theretofore delivered a duly executed Letter of Transmittal in accordance with this Section 2.7 shall thereafter look only to Werewolf for satisfaction of their claims for Werewolf Common Stock and any dividends or distributions with respect to shares of Werewolf Common Stock.

(e) No Party shall be liable to any former holder of any Ambros Common Stock or to any other Person with respect to any shares of Werewolf Common Stock (or dividends or distributions with respect thereto) or for any cash amounts delivered to any public official pursuant to any applicable abandoned property Law, escheat Law or similar Law.

2.8 Calculation of Net Cash.

(a) Not less than fifteen (15) Business Days prior to the anticipated date for Closing as mutually agreed in good faith by Werewolf and Ambros (the "**Anticipated Closing Date**"), Werewolf will deliver to Ambros a certificate that includes a (i) schedule (the "**Werewolf Net Cash Schedule**", and the date of delivery of the Werewolf Net Cash Schedule, the "**Delivery Date**") setting forth, in reasonable detail, Werewolf's good faith, estimated calculation of Werewolf Net Cash (the "**Werewolf Net Cash Calculation**"), including a good faith estimate of the CVR Fees, at the close on business of the Anticipated Closing Date (the "**Cash Determination Time**") prepared and signed by Werewolf's chief financial officer (or if there is no chief financial officer at such time, the principal financial and accounting officer for Werewolf) and (ii) the Section 382 Study. Werewolf shall make available to Ambros (electronically to the greatest extent possible), as reasonably requested by Ambros,

the work papers and back-up materials (including, without limitation, documentation supporting the calculation of any accrued and unpaid Taxes of Werewolf or its Affiliates for taxable periods (or portions thereof) ending on or before the Closing Date) used or useful in preparing the Werewolf Net Cash Schedule and, if reasonably requested by Ambros, Werewolf's accountants and counsel at reasonable times and upon reasonable notice. Set forth on Section 2.8(a) of the Werewolf Disclosure Schedule is an illustrative example of Werewolf Net Cash calculation calculated on a hypothetical basis as of the date described therein.

(b) Within ten (10) Business Days after the Delivery Date (the last day of such period, the "**Response Date**"), Ambros shall have the right to dispute any part of the Werewolf Net Cash Calculation by delivering a written notice to that effect to Werewolf (a "**Dispute Notice**"). Any Dispute Notice shall identify in reasonable detail the nature and amounts of any proposed revisions to the Werewolf Net Cash Calculation.

(c) If, on or prior to the Response Date, (i) Ambros notifies Werewolf in writing that it has no objections to the Werewolf Net Cash Calculation or (ii) if prior to 5:00 p.m. (New York City time) on the Response Date, Ambros has failed to deliver a Dispute Notice as provided in Section 2.8(b), then the Werewolf Net Cash Calculation as set forth in the Werewolf Net Cash Schedule shall be deemed to have been finally determined for purposes of this Agreement and to represent the Werewolf Net Cash at the Cash Determination Time (the "**Final Werewolf Net Cash**") for purposes of this Agreement.

(d) If Ambros delivers a Dispute Notice on or prior to 5:00 p.m. (New York City time) on the Response Date, then Representatives of Werewolf and Ambros shall promptly, and in no event later than one calendar day after the delivery of the Dispute Notice, meet and attempt in good faith to resolve the disputed item(s) and negotiate an agreed-upon determination of Werewolf Net Cash, which agreed upon Werewolf Net Cash amount shall be deemed to have been finally determined for purposes of this Agreement and to represent the Final Werewolf Net Cash for purposes of this Agreement.

(e) If Representatives of Werewolf and Ambros are unable to negotiate an agreed-upon determination of Final Werewolf Net Cash pursuant to Section 2.8(d) within three (3) calendar days after delivery of the Dispute Notice (or such other period as Werewolf and Ambros may mutually agree upon), then any remaining disagreements as to the calculation of Werewolf Net Cash shall be referred to an independent auditor of recognized national standing jointly selected by Werewolf and Ambros (the "**Accounting Firm**"). The Accounting Firm shall act as an expert and not as an arbitrator and shall resolve only those matters that remain in dispute and that have been submitted to the Accounting Firm in accordance with this Section 2.8(e). The Accounting Firm shall make its determination in accordance with the applicable definitions and provisions of this Agreement, including the definition of Werewolf Net Cash, and shall not make any determination on the basis of principles of equity, independent legal standards or any other basis inconsistent with this Agreement. Werewolf shall promptly deliver to the Accounting Firm all work papers and back-up materials used in preparing the Werewolf Net Cash Schedule, and Werewolf and Ambros shall use commercially reasonable efforts to cause the Accounting Firm to make its determination within ten (10) calendar days of accepting its selection. Werewolf and Ambros shall be afforded the opportunity to present to the Accounting Firm any material related to the unresolved disputes and to discuss the issues with the Accounting Firm; provided, however, that no such presentation or discussion shall occur without the presence of a Representative of each of Werewolf and Ambros. The determination of the Accounting Firm shall be limited to the disagreements submitted to the Accounting Firm, and the Accounting Firm shall not assign a value to any item greater than the highest value claimed by either party or lower than the lowest value claimed by either party with respect to such item. The determination of the amount of Werewolf Net Cash made by the Accounting Firm shall be made in writing delivered to each of Werewolf and Ambros, shall be final and binding on Werewolf and Ambros and shall be deemed to have been finally determined for purposes of this Agreement and to represent the Final Werewolf Net Cash for purposes of this Agreement. The Parties shall delay the Closing until the resolution of the matters described in this Section 2.8(e). The fees and expenses of the Accounting Firm shall be allocated between Werewolf and Ambros in the same proportion that the disputed amount of Werewolf Net Cash that was unsuccessfully disputed by such Party (as finally determined by the Accounting Firm) bears to the total disputed amount of Werewolf Net Cash. If this Section 2.8(e) applies as to the determination of the Final Werewolf Net Cash described in Section 2.8(a), upon resolution of the matter in accordance with this Section 2.8(e), the Parties shall not be required to determine Werewolf Net Cash again even though the Closing Date may occur later than the Anticipated Closing Date, except that either Werewolf or Ambros may require a redetermination of the Final Werewolf Net Cash if the Closing Date is more than five (5) calendar days after the Anticipated Closing Date or if there shall occurred any closing of any Permitted Werewolf Asset Disposition. Notwithstanding anything to the contrary in this Section 2.8, if the process for determining Final Werewolf Net Cash could reasonably be expected to extend past the Outside Date, then notwithstanding the time periods provided for in this Agreement, each of the Parties shall use commercially reasonable efforts to cooperate with the other to expedite the process for calculating Final Werewolf Net Cash in a manner reasonably acceptable to each of the Parties and designed to facilitate the occurrence of the Closing prior to the Outside Date.

2.9 Further Action. If, at any time after the Effective Time, any further action is determined by the Surviving Corporation to be necessary or desirable to carry out the purposes of this Agreement or to vest the Surviving Corporation with full right, title and possession of and to all rights and property of Ambros, then the officers and directors of the Surviving Corporation shall be fully authorized, and shall use their and its commercially reasonable efforts (in the name of Ambros, in the name of Merger Sub, in the name of the Surviving Corporation and otherwise) to take such action.

2.10 Withholding. Each of the Exchange Agent, Werewolf and the Surviving Corporation (each, a "**Withholding Agent**") shall be entitled to deduct and withhold from any consideration deliverable pursuant to this Agreement such amounts as are required to be deducted or withheld from such consideration under the Code or under any other applicable Law; provided, however, that if any Withholding Agent determines that any payment to any stockholder of Ambros hereunder is subject to deduction and/or withholding (other than with respect to compensatory payments, or as a result of a failure (i) by Ambros to deliver the certificate described in Section 6.7(b) or (ii) by any stockholder to deliver an IRS Form W-9 or applicable IRS Form W-8), then the applicable Withholding Agent shall (x) provide written notice to Ambros as soon as reasonably practicable after such

determination (and in no event later than three (3) Business Days prior to undertaking such deduction and/or withholding), and (y) cooperate with Ambros in good faith prior to the Closing to reduce or eliminate any such deduction or withholding to the extent permitted by applicable Law. To the extent such amounts are so deducted or withheld, and timely remitted to the appropriate Governmental Authority, such amounts shall be treated for all purposes under this Agreement as having been paid to the Person to whom such amounts would otherwise have been paid.

2.11 Appraisal Rights.Notwithstanding any provision of this Agreement to the contrary, shares of Ambros Common Stock that are outstanding immediately prior to the Effective Time and which are held by stockholders who have exercised and perfected appraisal rights for such shares of Ambros Common Stock in accordance with Delaware Law (collectively, the "**Dissenting Shares**") shall not be converted into or represent the right to receive the consideration described in Section 2.4 attributable to such Dissenting Shares. Such stockholders shall be entitled to receive payment of the appraised value of such shares of Ambros Common Stock held by them in accordance with Delaware Law, unless and until such stockholders fail to perfect or effectively withdraw or otherwise lose their appraisal rights under Delaware Law. All Dissenting Shares held by stockholders who shall have failed to perfect or shall have effectively withdrawn or lost their right to appraisal of such shares of Ambros Common Stock under Delaware Law (whether occurring before, at or after the Effective Time) shall thereupon be deemed to be converted into and to have become exchangeable for, as of the Effective Time, the right to receive the consideration, without interest, attributable to such Dissenting Shares upon their surrender in the manner provided in Section 2.4. Ambros shall give Werewolf prompt written notice of any demands by dissenting stockholders received thereby, withdrawals of such demands and any other instruments served thereupon and any material correspondence received thereby in connection with such demands, and Werewolf shall have the right to direct all negotiations and proceedings with respect to such demands; provided that Ambros shall have the right to participate in such negotiations and proceedings. Neither Ambros nor Werewolf shall, except with the other party's prior written consent (which shall not be unreasonably withheld, conditioned or delayed), voluntarily make any payment with respect to, or settle or offer to settle, any such demands, or approve any withdrawal of any such demands or agree to do any of the foregoing.

ARTICLE III
REPRESENTATIONS AND WARRANTIES OF AMBROS

Except as set forth in the written disclosure schedule delivered by Ambros to Werewolf (the "**Ambros Disclosure Schedule**"), Ambros represents and warrants to Werewolf as follows:

3.1 Due Organization; Subsidiaries.

(a) Each of Ambros and its Subsidiaries is a corporation or other legal entity duly incorporated or otherwise organized, validly existing and in good standing under the Laws of the jurisdiction of its incorporation or organization and has all necessary power and authority: (i) to conduct its business in the manner in which its business is currently being conducted, (ii) to own or lease and use its property and assets in the manner in which its property and assets are currently owned or leased and used and (iii) to perform its obligations under all Contracts by which it is bound. All of Ambros' Subsidiaries are directly or indirectly wholly-owned by Ambros.

(b) Each of Ambros and its Subsidiaries is licensed and qualified to do business, and is in good standing (to the extent applicable in such jurisdiction), under the Laws of all jurisdictions where the nature of its business in the manner in which its business is currently being conducted requires such licensing or qualification other than in jurisdictions where the failure to be so qualified individually or in the aggregate would not be reasonably expected to have an Ambros Material Adverse Effect.

(c) Except as set forth on Section 3.1(c) of the Ambros Disclosure Schedule, Ambros has no Subsidiaries and Ambros does not directly or indirectly own any capital stock of, or any equity ownership or profit sharing interest of any nature in, or control directly or indirectly, any other Entity. Ambros is not and has not otherwise been, directly or indirectly, a party to, member of or participant in any partnership, joint venture or similar business entity. Ambros has not agreed and is not obligated to make, nor is Ambros bound by any Contract under which it may become obligated to make, any future investment in or capital contribution to any other Entity. Ambros has not, at any time, been a general partner of, and has not otherwise been liable for any of the debts or other obligations of, any general partnership, limited partnership or other Entity.

3.2 Organizational Documents. Ambros has delivered to Werewolf accurate and complete copies of Ambros' and its Subsidiaries' Organizational Documents. Neither Ambros nor any of its Subsidiaries is in breach or violation of its Organizational Documents in any material respect.

3.3 Authority; Binding Nature of Agreement.

(a) Each of Ambros and its Subsidiaries has all necessary corporate power and authority to enter into and to perform its obligations under this Agreement and to consummate the Contemplated Transactions. The Ambros Board (at meetings duly called and held or by written consent in lieu thereof in accordance with the Organizational Documents of Ambros) has unanimously (i) determined that the Contemplated Transactions are fair to, advisable and in the best interests of Ambros and its stockholders, (ii) approved and declared advisable this Agreement and the Contemplated Transactions and (iii) determined to recommend, upon the terms and subject to the conditions set forth in this Agreement, that the stockholders of Ambros vote to adopt this Agreement and thereby approve the Contemplated Transactions. This Agreement has been duly executed and delivered by Ambros and assuming the due authorization, execution and delivery by Werewolf, constitutes the legal, valid and binding obligation of Ambros, enforceable against Ambros in accordance with its terms, subject to the Enforceability Exceptions.

3.4 Vote Required. The affirmative vote of the holders of a majority of the outstanding shares of capital stock of Ambros, voting together as a single class on an as-converted to Common Stock basis (as required by Delaware Law), and (ii) the Requisite Holders (as defined in Ambros'

Amended and Restated Certificate of Incorporation) (the "**Required Ambros Stockholder Approval**"), is sufficient to adopt and approve this Agreement and approve the Contemplated Transactions, and no other vote of the holders of any class or series of Ambros Capital Stock is necessary to adopt and approve this Agreement and approve the Contemplated Transactions.

3.5 Non-Contravention; Consents.

(a) Subject to obtaining the Required Ambros Stockholder Approval and the filing of the Certificate of Merger required by Delaware Law, neither (x) the execution, delivery or performance of this Agreement by Ambros, nor (y) the consummation of the Contemplated Transactions, will directly or indirectly (with or without notice or lapse of time):

(i) contravene, conflict with or result in a violation of any of the provisions of the Organizational Documents of Ambros or its Subsidiaries;

(ii) contravene, conflict with or result in a material violation of, or give any Governmental Authority or other Person the right to challenge the Contemplated Transactions or to exercise any remedy or obtain any relief under, any Law or any Order to which Ambros or its Subsidiaries, or any of the assets owned or used by Ambros or its Subsidiaries, is subject;

(iii) contravene, conflict with or result in a material violation of any of the terms or requirements of, or give any Governmental Authority the right to revoke, withdraw, suspend, cancel, terminate or modify, any Governmental Authorization that is held by Ambros or its Subsidiaries or that otherwise relates to the business of Ambros, or any of the assets owned, leased or used by Ambros;

(iv) contravene, conflict with or result in a violation or breach of, or result in a default under, any provision of any Ambros Material Contract, or give any Person the right to: (A) declare a default or exercise any remedy under any Ambros Material Contract, (B) any material payment, rebate, chargeback, penalty or change in delivery schedule under any such Ambros Material Contract, (C) accelerate the maturity or performance of any Ambros Material Contract or (D) cancel, terminate or modify any term of any Ambros Material Contract, except in the case of any nonmaterial breach, default, penalty or modification; or

As to Ambros and its Subsidiaries, as of the date of this Agreement, each

Ambros Material Contract is valid, binding, enforceable and in full force and effect, subject to the Enforceability Exceptions. No Person is renegotiating, or has a right pursuant to the terms of any Ambros Material Contract to change, any material amount paid or payable to Ambros under any Ambros Material Contract or any other material term or provision of any Ambros Material Contract.

(b) Each of Ambros and its Subsidiaries holds all required Governmental Authorizations that are material to the operation of the business of Ambros as currently conducted (collectively, the "**Ambros Permits**"). Section 3.14(b) of the Ambros Disclosure Schedule identifies each Ambros Permit. Each of Ambros and its Subsidiaries is in material compliance with the terms of Ambros Permits. Ambros has timely maintained and is in compliance in all material respects with the Ambros Regulatory Permits and neither Ambros nor any of its Subsidiaries has, since the Lookback Date, received any written notice or other written communication from any Drug Regulatory Agency regarding (A) any material violation of or failure to comply materially with any term or requirement of any Ambros Regulatory Permit or (B) any revocation, withdrawal, suspension, cancellation, termination or material modification of any Ambros Regulatory Permit.

(e) As of the date of this Agreement, all clinical, pre-clinical and other studies and tests conducted by or, to the Knowledge of Ambros, on behalf of, or sponsored by, Ambros or its Subsidiaries, in which Ambros or its Subsidiaries or their respective product candidates, including the Ambros Product Candidates, have participated, were and, if still pending, are being conducted in compliance in all material respects with the applicable regulations of the Drug Regulatory Agencies and other applicable Law, including, without limitation, 21 C.F.R. Parts 50, 54, 56, 58 and 312, 45 C.F.R. Part 46, and all other applicable Laws governing informed consent, institutional review boards and the protection of human subjects. Neither Ambros nor any of its Subsidiaries has received any written notices, correspondence, or other communications from any Drug Regulatory Agency requiring or, to the Knowledge of Ambros, threatening any action to place a clinical hold order on, or otherwise terminate, delay, or suspend any clinical studies conducted by or on behalf of, or sponsored by, Ambros or any of its Subsidiaries or in which Ambros or any of its Subsidiaries or its current product candidates, including the Ambros Product Candidates, have participated.

(f) Neither Ambros nor any of its Subsidiaries, and, to the Knowledge of Ambros, any contract manufacturer in relation to its activities with respect to any Ambros Product Candidate, is the subject of any pending or, to the Knowledge of Ambros, threatened investigation in respect of its business or products by the FDA pursuant to its "Fraud, Untrue Statements of Material Facts, Bribery, and Illegal Gratuities" Final Policy set forth in 56 Fed. To the Knowledge of Ambros, neither Ambros nor any of its Subsidiaries nor any contract manufacturer in relation to its activities with respect to any Ambros Product Candidate has committed any acts, made any statement, or failed to make any statement, in each case in respect of Ambros' business or products that would violate the FDA's "Fraud, Untrue Statements of Material Facts, Bribery, and Illegal Gratuities" Final Policy, and any amendments thereto, or any other applicable Law. Neither Ambros nor any of its Subsidiaries, nor their officers, directors, employees or to the Knowledge of Ambros, their agents, have been or currently is debarred or excluded under (i) 21 U.S.C. Section 335a, (ii) 42 U.S.C. § 1320a 7, or (iii) any other applicable Law. None of Ambros, any of its Subsidiaries, and to the Knowledge of Ambros, any contract manufacturer in relation to its activities with respect to any Ambros Product Candidate, or any of their respective officers, employees or agents has been convicted of any crime or engaged in any conduct that could result in a debarment or exclusion under (i) 21 U.S.C. Section 335a, (ii) 42 U.S.C. § 1320a-7, or (iii) any other applicable Law. To the Knowledge of Ambros, no debarment or exclusionary claims, actions, proceedings or investigations in respect of Ambros' and its Subsidiaries' business or Ambros Product Candidates are pending or threatened against Ambros, any of its Subsidiaries, and to

the Knowledge of Ambros, any contract manufacturer in relation to its activities with respect to any Ambros Product Candidate, or any of its respective officers, employees or agents. Neither Ambros nor any of its Subsidiaries is a party to or has any reporting obligations under any corporate integrity agreements, monitoring agreements, deferred or non-prosecution agreements, consent decrees, settlement orders, or similar Orders with or imposed by any Governmental Authority.

(g) All manufacturing operations conducted by, or to the Knowledge of Ambros, for the benefit of, Ambros or its Subsidiaries in connection with any Ambros Product Candidate, since the Lookback Date, have been and are being conducted in compliance in all material respects with applicable Laws, including the FDA's standards for current good manufacturing practices, including applicable requirements contained in 21 C.F.R. Parts 210, 211, 600-680 and 1271 and the applicable respective counterparts thereof promulgated by Governmental Authorities in countries outside the United States.

(h) No manufacturing site owned by Ambros or its Subsidiaries, and to the Knowledge of Ambros, no manufacturing site of a contract manufacturer or laboratory, with respect to any Ambros Product Candidate, (i) is subject to a Drug Regulatory Agency shutdown or import or export prohibition or (ii) has since the Lookback Date received any unresolved Form FDA 483, notice of violation, warning letter, untitled letter, or similar correspondence or notice from the FDA or other Governmental Authority alleging or asserting material noncompliance with the FDCA, PHSA or any applicable Law, and, to the Knowledge of Ambros, neither the FDA nor any other Governmental Authority is considering such action.

3.15 Legal Proceedings; Orders.

(a) There is no pending Legal Proceeding and, to the Knowledge of Ambros, no Person has threatened in writing to commence any Legal Proceeding: (i) that involves Ambros or any of its Subsidiaries or any Ambros Associate (in his or her capacity as such) or any of the material assets owned or used by Ambros or any of its Subsidiaries or (ii) that challenges, or that may have the effect of preventing, delaying, making illegal or otherwise interfering with, the Contemplated Transactions.

All such Tax Returns are correct and complete in all material respects and have been prepared in material compliance with all applicable Law. Subject to exceptions as would not be material, no claim has ever been made by a Governmental Authority in a jurisdiction where Ambros or any of its Subsidiaries does not file a particular type of Tax Return that Ambros or any of its Subsidiaries is subject to taxation by that jurisdiction that would require the filing of such a Tax Return.

(b) All income and other material amounts of Taxes due and owed by Ambros and each of its Subsidiaries (whether or not shown on any Tax Return) have been timely paid. The unpaid Taxes of Ambros and each of its Subsidiaries for periods (or portions thereof) ending on or prior to the date of the Ambros Balance Sheet do not materially exceed the accruals for current Taxes set forth on the Ambros Balance Sheet. Since the date of the Ambros Balance Sheet, neither Ambros nor any of its Subsidiaries has incurred any material Liability for Taxes outside the Ordinary Course of Business or otherwise inconsistent with past custom and practice.

(c) Each of Ambros and each of its Subsidiaries has withheld and paid to the appropriate Governmental Authority all material Taxes required to have been withheld and paid in connection with any amounts paid or owing to any employee, independent contractor, creditor, stockholder, or other third party.

There are no pending (or, based on written notice, threatened) material audits, assessments, examinations or other actions for or relating to any Liability in respect of Taxes of Ambros or any of its Subsidiaries. Neither Ambros nor any of its Subsidiaries has waived any statute of limitations in respect of material Taxes or agreed to any extension of time with respect to a material Tax assessment or deficiency.

(f) Neither Ambros nor any of its Subsidiaries is a party to any Tax allocation, Tax sharing or similar agreement (including indemnity arrangements), other than customary indemnification provisions in commercial Contracts entered into in the Ordinary Course of Business with vendors, customers, lenders, or landlords (an "**Ordinary Course Agreement**").

(g) Neither Ambros nor any of its Subsidiaries has been a member of an affiliated group filing a consolidated U.S. federal income Tax Return (other than a group the common parent of which is Ambros). Neither Ambros nor any of its Subsidiaries has any Liability for the Taxes of any Person (other than Ambros) under Treasury Regulations Section 1.1502-6 (or any similar provision of state, local, or foreign law), as a transferee or successor, or by Contract (other than an Ordinary Course Agreement).

(h) Since the Lookback Date, neither Ambros nor any of its Subsidiaries has distributed stock of another Person, or has had its stock distributed by another Person, in a transaction that was purported or intended to be governed in whole or in part by Section 355 of the Code or Section 361 of the Code.

(k) Neither Ambros nor any of its Subsidiaries has made an election or taken any other action to change its federal and state income tax classification.

(l) Neither Ambros nor any of its Subsidiaries has taken or knowingly failed to take any action, nor to the Knowledge of Ambros, are there any facts or circumstances, in each case, that would reasonably be expected to prevent or impede the Merger from qualifying for the Intended Tax Treatment.

(d) Each Ambros Employee Plan that is intended to be qualified under Section 401(a) of the Code has received a favorable determination letter or may rely on a favorable opinion letter with respect to such qualified status from the IRS to the effect that such plan is qualified under Section 401(a) of the Code. To the Knowledge of Ambros, nothing has occurred that would reasonably be expected to cause the loss of the qualified status of any such Ambros Employee Plan or the Tax exempt status of any related trust.

(e) Each Ambros Employee Plan has been established, maintained and operated in compliance, in all material respects, with its terms and all applicable Laws, including, without limitation, the Code and ERISA. No material Legal Proceeding (other than those relating to routine claims for benefits) is pending or, to the Knowledge of Ambros, threatened with respect to any Ambros Employee Plan. All material payments and/or contributions required to have been made with respect to all Ambros Employee Plans have been made or accrued on the financial statements of Ambros in accordance with the terms of the applicable Ambros Employee Plan and applicable Law and neither Ambros nor any Ambros ERISA Affiliate has any material Liability for any such unpaid contributions with respect to any Ambros Employee Plan.

(g) No Ambros Employee Plan provides for medical or other welfare benefits to any service provider beyond termination of service or retirement, other than (i) pursuant to COBRA or an analogous state Law requirement (the full cost of which is borne by such Person or such Person's dependents or beneficiaries) or (ii) continuation coverage through the end of the month in which such termination or retirement occurs.

(h) No Ambros Employee Plan is subject to any law of a foreign jurisdiction outside of the United States.

(i) Each Ambros Employee Plan that constitutes in any part a nonqualified deferred compensation plan within the meaning of Section 409A of the Code has been operated and maintained in all material respects in operational and documentary compliance with Section 409A of the Code and applicable guidance thereunder, and no compensation has been or would reasonably be expected to be includable in the gross income of any Ambros Associate as a result of the operation of Section 409A of the Code.

(j) Ambros and its Subsidiaries are, and since the Lookback Date have been, in compliance in all material respects with all applicable Laws respecting labor, employment and employment practices, including terms and conditions of employment, worker classification, tax withholding, unemployment compensation, workers' compensation, prohibited discrimination, harassment, equal employment, fair employment practices, meal and rest periods, work authorization and immigration status, employee safety and health, wages (including overtime wages), pay equity, affirmative action, restrictive covenants, compensation, and hours of work. Except as would not reasonably be expected to have, individually or in the aggregate, an Ambros Material Adverse Effect, there are no, and since the Lookback Date there have been no, Legal Proceedings pending or, to the Knowledge of Ambros, threatened against Ambros or any of its Subsidiaries relating to any labor or employment matters or any Ambros Associate. (n) None of the execution and delivery of this Agreement, the stockholder approval of this Agreement, or the consummation of the Contemplated Transactions (either alone or in conjunction with any other event, including without limitation, a termination of employment) would result in any (i) payment or benefit (including severance, forgiveness of indebtedness or otherwise) becoming due to Ambros Associate, (ii) increase in any benefits or the compensation payable under any Ambros Employee Plan, (iii) acceleration of the time of payment, funding or vesting of any such compensation or benefits or any loan forgiveness under any Ambros Employee Plan, (iv) restriction on the right of Ambros or any of its Subsidiaries or, after the consummation of Contemplated Transactions, the Surviving Corporation, to merge, amend, terminate or transfer any Ambros Employee Plan, or (v) "parachute payment" (within the meaning of Section 280G of the Code).

Neither Ambros nor any of its Subsidiaries has received since the Lookback Date, any written notice or other communication (in writing or otherwise), whether from a Governmental Authority, citizens group, employee or otherwise, that alleges that Ambros or any of its Subsidiaries is not in compliance with any Environmental Law, and, to the Knowledge of Ambros, there are no circumstances that may prevent or interfere with Ambros' or any of its Subsidiaries' compliance with any Environmental Law in the future, except where such failure to comply would not reasonably be expected to have an Ambros Material Adverse Effect. To the Knowledge of Ambros: (a) no current or prior owner of any property leased or controlled by Ambros or any of its Subsidiaries has received since the Lookback Date, any written notice or other communication relating to property owned or leased at any time by Ambros or any of its Subsidiaries, whether from a Governmental Authority, citizens group, employee or otherwise, that alleges that such current or prior owner or Ambros or any of its Subsidiaries is not in compliance with or violated any Environmental Law relating to such property and (b) neither Ambros nor any of its Subsidiaries has any material Liability under any Environmental Law.

(iii) To the Knowledge of Werewolf, no current or former member, officer, director, or employee of Werewolf or any of its Subsidiaries has any claim, right (whether or not currently exercisable), or interest to or in any Werewolf IP Rights purported to be owned by Werewolf. To the Knowledge of Werewolf, no current employee of Werewolf or any of its Subsidiaries is (A) bound by or otherwise subject to any Contract restricting him or her from performing his or her duties for Werewolf or such Subsidiary or (B) in material breach of any Contract with any former employer or other Person concerning Werewolf IP Rights purported to be owned by Werewolf or such Subsidiary or confidentiality provisions protecting trade secrets and confidential information comprising Werewolf IP Rights purported to be owned by Werewolf or such Subsidiary.

(iv) No funding, facilities, or personnel of any Governmental Authority or any educational or research institution were used, directly or indirectly, to develop or create, in whole or in part, any Werewolf Owned IP Rights, or, to the Knowledge of Werewolf, any Werewolf Licensed IP Rights. To the Knowledge of Werewolf, no Governmental Authority or educational or research institution has any right to (including any "step-in" or "march-in" rights with respect to), ownership of, commercialization of, or right to royalties or other payments for any Werewolf Owned IP Rights, or, to the Knowledge of Werewolf, any Werewolf Licensed IP Rights.

(v) Werewolf and each of its Subsidiaries has taken reasonable steps to maintain the confidentiality of and otherwise protect, maintain and enforce its rights in all proprietary information that Werewolf or such Subsidiary holds, or purports to hold, as confidential or a trade secret.

(vi) Neither Werewolf nor any of its Subsidiaries has assigned or otherwise transferred ownership of, or agreed to assign or otherwise transfer ownership of, any Werewolf IP Rights to any other Person.

(vii) To the Knowledge of Werewolf, each item of Werewolf IP Right has been duly maintained and is not expired, abandoned or cancelled. To the Knowledge of Werewolf, each of the Patents included in the Werewolf IP Rights identifies each and every inventor of the claims thereof as determined in accordance with the applicable laws of the jurisdiction in which such Patent is issued or pending. To the Knowledge of Werewolf, each of Werewolf and its Subsidiaries and their respective patent counsel have complied with its duty of candor and disclosure and have made no material misrepresentations in the filings submitted to the applicable Governmental Authorities with respect to all Patents included in the Werewolf IP Rights for which Werewolf or any of its Subsidiaries is responsible for prosecuting.

(viii) To the Knowledge of Werewolf, the Werewolf IP Rights constitute all Intellectual Property material to or necessary for Werewolf to conduct its business as currently conducted; provided, however, that the foregoing representation is not a representation with respect to non-infringement of Intellectual Property.

(f) Werewolf has delivered, or made available to Ambros, a complete and accurate copy of all material Werewolf IP Rights Agreements.

(g) To the Knowledge of Werewolf, the conduct of the business of Werewolf as has been conducted since the Lookback Date and as is currently being conducted, including the manufacture, marketing, offering for sale, sale, importation, use or intended use or other disposal of any product as currently sold or under development by Werewolf, (i) has not violated and does not presently violate, any license or agreement between Werewolf or its Subsidiaries and any Person in any material respect, and (ii) to the Knowledge of Werewolf, has not infringed, misappropriated, or otherwise violated, and does not infringe, misappropriate or otherwise violate any valid and issued Patents or other Intellectual Property of any other Person, which infringement would reasonably be expected to have a Werewolf Material Adverse Effect. To the Knowledge of Werewolf, since the Lookback Date, no Person has engaged in the unauthorized use of, or has infringed, misappropriated, or otherwise violated any Patents within the Werewolf IP Rights, or otherwise violating any Werewolf IP Rights Agreement.

(h) As of the date of this Agreement and since the Lookback Date, neither Werewolf nor any of its Subsidiaries is or has been a party to any, or is the subject of any pending or, to the Knowledge of Werewolf, threatened in writing, Legal Proceeding (including, but not limited to, opposition, interference or other proceeding in any patent or other government office) contesting the validity, enforceability, ownership or right to use, sell, offer for sale, license or dispose of any Werewolf IP Rights. None of the Werewolf Owned IP Rights, and to the Knowledge of Werewolf, any Werewolf Licensed IP Rights, have been adjudged invalid or unenforceable in whole or part, and all Werewolf Owned IP Rights, and to the Knowledge of Werewolf, all Werewolf Licensed IP Rights, are in full force and effect. Neither Werewolf nor any of its Subsidiaries have received any written notice asserting that any Werewolf IP Rights or the proposed use, sale, offer for sale, license or disposition of products, methods, or processes claimed or covered thereunder infringes or misappropriates or violates the rights of any other Person or that Werewolf or any of its Subsidiaries have otherwise infringed, misappropriated or otherwise violated any Intellectual Property of any Person.

(i) To the Knowledge of Werewolf, no trademark (whether registered or unregistered) or trade name owned, used, or applied for by Werewolf conflicts or interferes with any trademark (whether registered or unregistered) or trade name owned, used, or applied for by any other Person except as would not have a Werewolf Material Adverse Effect. To the Knowledge of Werewolf, none of the goodwill associated with or inherent in any trademark (whether registered or unregistered) in which Werewolf or its Subsidiaries has or purports to have an ownership interest has been impaired as determined by Werewolf in accordance with GAAP. Section 4.12(i) of the Werewolf Disclosure Schedule sets forth all material unregistered trademarks included in the Werewolf IP Rights.

(j) Except (i) as would not reasonably be expected to have a Werewolf Material Adverse Effect, (ii) as may be set forth in Section 4.12(j) of the Werewolf Disclosure Schedule or (iii) as contained in license, distribution or service agreements entered into in the Ordinary Course of Business by Werewolf, to the Knowledge of Werewolf, (A) neither Werewolf nor any of its Subsidiaries is bound by any Contract to indemnify, defend, hold harmless, or reimburse any other Person with respect to any Intellectual Property infringement, misappropriation, or similar claim which is material to Werewolf or any of its Subsidiaries, taken as a whole and (B) neither Werewolf nor any of its Subsidiaries has ever assumed, or agreed to discharge or otherwise take responsibility for, any existing or potential liability of another Person for infringement, misappropriation, or violation of any Intellectual Property right, which assumption, agreement or responsibility remains in force as of the date of this Agreement.

(k) None of the execution and delivery of this Agreement, the consummation of the transactions contemplated hereby or the performance by Werewolf of its obligations hereunder conflict or will conflict with, alter or impair any of Werewolf's rights in, to and under any material Werewolf IP Rights or the validity, enforceability, priority, scope or duration of any material Werewolf IP Rights. Without limiting the foregoing, to the Knowledge of Werewolf, neither Werewolf nor any of its Subsidiaries is party to any Contract that, as a result of such execution, delivery and performance of this Agreement, will (i) cause the grant, assignment or transfer to any other Person of any license or other right to or in any Werewolf IP Rights, (ii) result in breach of, default under or termination of such Contract with respect to any Werewolf IP Rights, (iii) alter, encumber impair or extinguish, or result in any Encumbrance with respect to the right of Werewolf or the Surviving Corporation and its Subsidiaries to use, sell or license or enforce any Werewolf IP Rights or portion thereof or (iv) result in Werewolf or any of its Subsidiaries being bound by or subject to any exclusivity obligations, non-compete or other restrictions on the operation or scope of their respective businesses, or to any obligation to grant any rights in or to any Werewolf IP Rights, except, in each of (i), (ii), (iii) and (iv), for the occurrence of any such grant or impairment that would not individually or in the aggregate, reasonably be expected to result in a Werewolf Material Adverse Effect.

As to Werewolf and its Subsidiaries, as of the date of this Agreement, each Werewolf Material Contract is valid, binding, enforceable and in full force and effect, subject to the Enforceability Exceptions. No Person is renegotiating, or has a right pursuant to the terms of any Werewolf Material Contract to change, any material amount paid or payable to Werewolf under any Werewolf Material Contract or any other material term or provision of any Werewolf Material Contract.

No investigation, claim, suit, proceeding, audit, Order, or other action by any Governmental Authority is pending or, to the Knowledge of Werewolf, threatened against Werewolf or any of its Subsidiaries. There is no agreement or Order binding upon Werewolf or any of its Subsidiaries which (i) has or could reasonably be expected to have the effect of prohibiting or materially impairing any business practice of Werewolf or any of its Subsidiaries, any acquisition of material property by Werewolf or any of its Subsidiaries or the conduct of business by Werewolf or any of its Subsidiaries as currently conducted, (ii) is reasonably likely to have an adverse effect on Werewolf's ability to comply with or perform any covenant or obligation under this Agreement or (iii) is reasonably likely to have the effect of preventing, delaying, making illegal or otherwise interfering with the Contemplated Transactions.

(b) Each of Werewolf and its Subsidiaries holds all required Governmental Authorizations that are material to the operation of the business of Werewolf as currently conducted (collectively, the "**Werewolf Permits**"). Section 4.14(b) of the Werewolf Disclosure Schedule identifies each Werewolf Permit. Each of Werewolf and its Subsidiaries is in material compliance with the terms of the Werewolf Permits. No Legal Proceeding is pending or, to the Knowledge of Werewolf, threatened, which seeks to revoke, substantially limit, suspend, or materially modify any Werewolf Permit.

(c) There are no Legal Proceedings pending or, to the Knowledge of Werewolf, threatened in writing with respect to an alleged material violation by Werewolf or any of its Subsidiaries of the FDCA, PHSA, FDA regulations adopted thereunder, the Controlled Substances Act or any other applicable Law promulgated by a Drug Regulatory Agency.

(d) Each of Werewolf and its Subsidiaries holds all required material Governmental Authorizations issuable by any Drug Regulatory Agency necessary for the conduct of the business of Werewolf as currently conducted, and, as applicable, the research, development, testing, manufacturing, packaging, processing, storage, labeling, sale, marketing, advertising, distribution and importation or exportation, as currently conducted, of any of its product candidates (the "**Werewolf Product Candidates**") (collectively, the "**Werewolf Regulatory Permits**") and no such Werewolf Regulatory Permit has been (i) revoked, withdrawn, suspended, cancelled or terminated or (ii) modified in any material, adverse manner, in the case of each of (i) and (ii) by a Drug Regulatory Agency. Werewolf has timely maintained and is in compliance in all material respects with the Werewolf Regulatory Permits and neither Werewolf nor any of its Subsidiaries has, since the Lookback Date, received any written notice or other written communication from any Drug Regulatory Agency regarding (A) any material violation of or failure to comply materially with any term or requirement of any Werewolf Regulatory Permit or (B) any revocation, withdrawal, suspension, cancellation, termination or material modification of any Werewolf Regulatory Permit.

(e) As of the date of this Agreement, all clinical, pre-clinical and other studies and tests conducted by or, to the Knowledge of Werewolf, on behalf of, or sponsored by, Werewolf or its Subsidiaries, in which Werewolf or its Subsidiaries or their respective product candidates, including the Werewolf Product Candidates, have participated, were and, if still pending, are being conducted in compliance in all material respects with the applicable regulations of the Drug Regulatory Agencies and other applicable Law, including, without limitation, 21 C.F.R. Parts 50, 54, 56, 58 and 312, 45 C.F.R. Part 46, and all other applicable Laws governing informed consent, institutional review boards, and the protection of human subjects. Other than as set forth on Section 4.14(e) of the Werewolf Disclosure Schedule, neither Werewolf nor any of its Subsidiaries has received any written notices, correspondence, or other communications from any Drug Regulatory Agency requiring, or, to the Knowledge of Werewolf, threatening any action to place a clinical hold order on, or otherwise terminate, delay, or suspend any clinical studies conducted by or on behalf of, or sponsored by, Werewolf or any of its Subsidiaries or in which Werewolf or any of its Subsidiaries or its current product candidates, including the Werewolf Product Candidates, have participated.

(f) Neither Werewolf nor any of its Subsidiaries, and, to the Knowledge of Werewolf, any contract manufacturer in relation to its activities with respect to any Werewolf Product Candidate, is the subject of any pending or, to the Knowledge of Werewolf, threatened investigation in respect of its business or products by the FDA pursuant to its "Fraud, Untrue Statements of Material Facts, Bribery, and Illegal Gratuities" Final Policy set forth in 56 Fed. Reg. 46191 (September 10, 1991) and any amendments thereto, or any other applicable Law. To the Knowledge of Werewolf, neither Werewolf nor any of its Subsidiaries nor any contract manufacturer in relation to its activities with respect to any Werewolf Product Candidate has committed any acts, made any statement, or failed to make any statement, in each case in respect of Werewolf's business or products that would violate the FDA's "Fraud, Untrue Statements of Material Facts, Bribery, and Illegal Gratuities" Final Policy, and any amendments thereto, or any other applicable Law. Neither Werewolf nor any of its Subsidiaries, nor their officers, directors, employees or to the Knowledge of Werewolf, their agents, have been or currently is debarred or excluded under (i) 21 U.S.C. Section 335a, (ii) 42 U.S.C. § 1320a 7, or (iii) any other applicable Law. None of Werewolf, any of its Subsidiaries, and to the Knowledge of Werewolf, any contract manufacturer in relation to its activities with respect to any Werewolf Product Candidate, or any of their respective officers, employees or agents has been convicted of any crime or engaged in any conduct that could result in a debarment or exclusion under (i) 21 U.S.C. Section 335a (ii) 42 U.S.C. § 1320a-7, or (iii) any other applicable Law. To the Knowledge of Werewolf, no debarment or exclusionary claims, actions, proceedings or investigations in respect of Werewolf's or its Subsidiaries' business or Werewolf Product Candidates are pending or threatened against Werewolf, any of its Subsidiaries, and to the Knowledge of Werewolf, any contract manufacturer in relation to its activities with respect to any Werewolf Product Candidate, or any of its respective officers, employees or agents. (g) All manufacturing operations conducted by, or to the Knowledge of Werewolf, for the benefit of, Werewolf or its Subsidiaries in connection with any Werewolf Product Candidate, since the Lookback Date, have been and are being conducted in compliance in all material respects with applicable Laws, including the FDA's standards for current good manufacturing practices, including applicable requirements contained in 21 C.F.R. (h) No manufacturing site owned by Werewolf or its Subsidiaries, and to the Knowledge of Werewolf, no manufacturing site of a contract manufacturer or laboratory, with respect to any Werewolf Product Candidate, (i) is subject to a Drug Regulatory Agency shutdown or import or export prohibition or (ii) has since the Lookback Date, received any unresolved Form FDA 483, notice of violation, warning letter, untitled letter, or similar correspondence or notice from the FDA or other Governmental Authority alleging or asserting material noncompliance with the FDCA, PHSA or any applicable Law, and, to the Knowledge of Werewolf, neither the FDA nor any other Governmental Authority is considering such action.

4.15 Legal Proceedings; Orders.

(a) Except as set forth in Section 4.15 of the Werewolf Disclosure Schedule, there is no pending Legal Proceeding and, to the Knowledge of Werewolf, no Person has threatened in writing to commence any Legal Proceeding: (i) that involves Werewolf or any of its Subsidiaries or any Werewolf Associate (in his or her capacity as such) or any of the material assets owned or used by Werewolf or any of its Subsidiaries or (ii) that challenges, or that may have the effect of preventing, delaying, making illegal or otherwise interfering with, the Contemplated Transactions.

(b) There is no Order to which Werewolf or any of its Subsidiaries, or any of the material assets owned or used by Werewolf or any of its Subsidiaries is subject. To the Knowledge of Werewolf, no officer or other Key Employee of Werewolf or any of its Subsidiaries is subject to any Order that prohibits such officer or employee from engaging in or continuing any conduct, activity or practice relating to the business of Werewolf or any of its Subsidiaries or to any material assets owned or used by Werewolf or any of its Subsidiaries.

4.16 Tax Matters.

(a) Each of Werewolf and each of its Subsidiaries has timely filed all income Tax Returns and all other material Tax Returns that were required to be filed by or with respect to it under applicable Law. All such Tax Returns are correct and complete in all material respects and have been prepared in material compliance with all applicable Law. Subject to exceptions as would not be material, no claim has ever been made by a Governmental Authority in a jurisdiction where Werewolf or any of its Subsidiaries does not file a particular type of Tax Return that Werewolf or any of its Subsidiaries is subject to taxation by that jurisdiction that would require the filing of such a Tax Return.

(b) All income and other material amounts of Taxes due and owing by Werewolf and each of its Subsidiaries (whether or not shown on any Tax Return) have been timely paid. The unpaid Taxes of Werewolf and each of its Subsidiaries for periods (or portions thereof) ending on or prior to the date of the Werewolf Balance Sheet do not materially exceed the accruals for current Taxes set forth on the Werewolf Balance Sheet. Since the date of the Werewolf Balance Sheet, neither Werewolf nor any of its Subsidiaries has incurred any material Liability for Taxes outside the Ordinary Course of Business or otherwise inconsistent with past custom and practice.

(c) Each of Werewolf and each of its Subsidiaries has withheld and paid to the appropriate Governmental Authority all material Taxes required to have been withheld and paid in connection with any amounts paid or owing to any employee, independent contractor, creditor, stockholder, or other third party.

(d) There are no Encumbrances for material Taxes (other than Encumbrances described in clause (i) of the definition of "**Permitted Encumbrances**") upon any of the assets of Werewolf or any of its Subsidiaries.

(e) No deficiencies for a material amount of Taxes with respect to Werewolf or any of its Subsidiaries have been claimed, proposed or assessed by any Governmental Authority in writing that have not been timely paid in full. There are no pending (or, based on written notice, threatened) material audits, assessments, examinations or other actions for or relating to any Liability in respect of Taxes of Werewolf or any of its Subsidiaries. Neither Werewolf nor any of its Subsidiaries has waived any statute of limitations in respect of material Taxes or agreed to any extension of time with respect to a material Tax assessment or deficiency.

(f) Neither Werewolf nor any of its Subsidiaries is a party to any Tax allocation, Tax sharing or similar agreement (including indemnity arrangements), other than Ordinary Course Agreements.

(g) Neither Werewolf nor any of its Subsidiaries has been a member of an affiliated group filing a consolidated U.S. federal income Tax Return (other than a group the common parent of which is Werewolf). Neither Werewolf nor any of its Subsidiaries has any Liability for the Taxes of any Person (other than Werewolf) under Treasury Regulations Section 1.1502-6 (or any similar provision of state, local, or foreign law), as a transferee or successor, or by Contract (other than an Ordinary Course Agreement).

(h) Since the Lookback Date, neither Werewolf nor any of its Subsidiaries has distributed stock of another Person, or has had its stock distributed by another Person, in a transaction that was purported or intended to be governed in whole or in part by Section 355 of the Code or Section 361 of the Code.

(i) Neither Werewolf nor any of its Subsidiaries has entered into any transaction identified as a "listed transaction" for purposes of Treasury Regulations Section 1.6011-4(b)(2).

(j) Neither Werewolf nor any of its Subsidiaries will be required to include any material item of income or gain in, or exclude any material item of deduction or loss from, taxable income for any taxable period (or portion thereof) ending after the Closing Date as a result of any: (i) change in, or use of improper, method of accounting for a taxable period ending on or prior to the Closing Date; (ii) "closing agreement" as described in Section 7121 of the Code (or any corresponding or similar provision of state, local or foreign income Tax law) executed on or prior to the Closing Date; (iii) installment sale or open transaction disposition made on or prior to the Closing Date; (iv) prepaid amount, advance payments or deferred revenue received or accrued outside the Ordinary Course of Business on or prior to the Closing Date; or (v) intercompany transaction or excess loss amount described in Treasury Regulations under Section 1502 of the Code (or any corresponding or similar provision of state, local or foreign income Tax Law).

(k) Neither Werewolf nor any of its Subsidiaries has made an election or taken any other action to change its federal and state income tax classification.

(l) Neither Werewolf nor any of its Subsidiaries has taken or knowingly failed to take any action, nor to the Knowledge of Werewolf, are there any facts or circumstances, in each case, that would reasonably be expected to prevent or impede the Merger from qualifying for the Intended Tax Treatment.

4.17 Employee and Labor Matters; Benefit Plans.

(a) Section 4.17(a) of the Werewolf Disclosure Schedule contains a complete and accurate list of all Werewolf employees as of the date of this Agreement, setting forth for each employee: job title; classification as exempt or non-exempt for wage and hour purposes; annual base salary, hourly rate or other rates of compensation; target bonus opportunity; full-time or part-time status; date of hire; business location; status (i.e., active or inactive and if inactive, the type of leave and estimated duration); and any visa or work permit status and the date of expiration, if applicable.

(b) Section 4.17(b) of the Werewolf Disclosure Schedule contains a complete and accurate list of all of the individual independent contractors, consultants, temporary employees, leased employees or other agents employed or used by Werewolf and classified by Werewolf as other than employees, or compensated other than through wages paid by Werewolf through Werewolf's payroll department ("**Werewolf Contingent Workers**"), showing for each Werewolf Contingent Worker such individual's engagement date, role in the business, work location, and fee or compensation arrangements.

(c) Neither Werewolf nor any of its Subsidiaries is a party to, bound by the terms of, or has a duty to bargain under, any collective bargaining agreement or other Contract with a labor union, works council or labor organization representing any Werewolf Associate, and there are no labor unions, works council or labor organizations representing or, to the Knowledge of Werewolf, purporting to represent or seeking to represent any Werewolf Associates, including through the filing of a petition for representation election.

(d) Section 4.17(d) of the Werewolf Disclosure Schedule lists all material Werewolf Employee Plans.

(e) As applicable with respect to each material Werewolf Employee Plan, Werewolf has made available to Ambros, true and complete copies of (i) the plan document, including all amendments thereto, and in the case of an unwritten Employee Plan, a written description of all material terms thereof, (ii) all related trust instruments or other funding-related documents and insurance contracts, (iii) the summary plan description and each summary of material modifications thereto, (iv) the financial statements for the most recent year for which such financial statements are available (in audited form, if available or required by ERISA) and, where applicable, annual reports required to be filed with any Governmental Authority (*e.g.*, Form 5500 and all schedules thereto), (v) the most recent IRS determination or opinion letter, (vi) written results of any required compliance testing for the three most recent plan years, and (vii) all material, non-routine notices, filings or correspondence during the past three years with any Governmental Authority.

(f) Each Werewolf Employee Plan that is intended to be qualified under Section 401(a) of the Code has received a favorable determination letter or may rely on a favorable opinion letter with respect to such qualified status from the IRS to the effect that such plan is qualified under Section 401(a) of the Code. To the Knowledge of Werewolf, nothing has occurred that would reasonably be expected to cause the loss of the qualified status of any such Werewolf Employee Plan or the Tax exempt status of any related trust.

(g) Each Werewolf Employee Plan has been established, maintained and operated in compliance, in all material respects, with its terms and all applicable Laws, including, without limitation, the Code and ERISA. No material Legal Proceeding (other than those relating to routine claims for benefits) is pending or, to the Knowledge of Werewolf, threatened with respect to any Werewolf Employee Plan. All material payments and/or contributions required to have been made with respect to all Werewolf Employee Plans have been made or accrued on the financial statements of Werewolf in accordance with the terms of the applicable Werewolf Employee Plan and applicable Law and neither Werewolf nor any Werewolf ERISA Affiliate has any material Liability for any such unpaid contributions with respect to any Werewolf Employee Plan.

(h) Neither Werewolf, any of its Subsidiaries nor any of their ERISA Affiliates maintains, contributes to or is required to contribute to, or has any Liability with respect to, or has in the past six (6) years, maintained, contributed to, has been required to contribute to, or has had any Liability with respect to (i) any "employee benefit plan" (within the meaning of Section 3(2) of ERISA) that is or was subject to Title IV or Section 302 of ERISA or Section 412 of the Code, (ii) a Multiemployer Plan, (iii) any Multiple Employer Plan, or (iv) any Multiple Employer Welfare Arrangement.

(i) No Werewolf Employee Plan provides for medical or other welfare benefits to any service provider beyond termination of service or retirement, other than (i) pursuant to COBRA or an analogous state Law requirement (the full cost of which is borne by such Person or such Person's dependents or beneficiaries) or (ii) continuation coverage through the end of the month in which such termination or retirement occurs.

(j) No Werewolf Employee Plan is subject to any law of a foreign jurisdiction outside of the United States.

(xv) make any material change in any method of financial accounting or financial accounting practice of Werewolf, except for any such change required by reason of a change in GAAP or other applicable financial accounting standards;

(xvi) other than in connection with actions contemplated by this Agreement, adopt, approve, consent to or propose any change in the Organizational Documents of Werewolf;

(xvii) sell, assign, transfer, license, sublicense or otherwise dispose of any material Werewolf Intellectual Property or any material Werewolf IP Rights, other than pursuant to non-exclusive licenses in the Ordinary Course of Business or pursuant to a Permitted Werewolf Asset Disposition Agreement otherwise entered into in accordance with this Agreement;

(xviii) (A) fail to maintain any material insurance policies in full force and effect prior to the renewal period of any such material insurance policies or (B) fail to use commercially reasonable efforts to renew any such material insurance policies following the applicable expiration or acquire substantially similar insurance policies; or

(xix) agree or commit to do any of the foregoing.

(c) Notwithstanding the generality of the foregoing, nothing set forth in this Section 5.2(b) shall restrict Werewolf's rights to effectuate the Concurrent PIPE Financing upon the terms set forth in the Securities Purchase Agreement on the date hereof. Nothing contained in this Agreement shall give Ambros, directly or indirectly, the right to control or direct the operations of Werewolf prior to the Effective Time. Prior to the Effective Time, Werewolf shall exercise, consistent with the terms and conditions of this Agreement, complete unilateral control and supervision over its business operations.

(d) During the Pre-Closing Period, Werewolf (including any Affiliate or Representative of Werewolf) shall not, and shall not permit any of its Subsidiaries to, enter into, or agree, resolve or commit to enter into, any Permitted Werewolf Asset Disposition Agreement or any other Contract providing for the sale, license, transfer or other disposition of any or all of the Legacy Assets, without Ambros' prior written consent.

(e) From the date of this Agreement until the Effective Time, Werewolf shall use commercially reasonable efforts to timely file with the SEC all reports, schedules, forms, statements and other documents required to be filed by Werewolf with the SEC. As of its filing date, or if amended after the date of this Agreement, as of the date of the last such amendment, each such document filed by Werewolf with the SEC shall comply in all material respects with the applicable requirements of the Exchange Act and the Securities Act.

5.3 Access and Investigation.

(a) Subject to the terms of the Confidentiality Agreement, which the Parties agree will continue in full force following the date of this Agreement, during the Pre-Closing Period, upon reasonable written notice, Werewolf, on the one hand, and Ambros, on the other hand, shall and shall use commercially reasonable efforts to cause such Party's Representatives to: (i) provide the other Party and such other Party's Representatives with reasonable access during normal business hours to such Party's Representatives, personnel and assets and to all existing books, records, Tax Returns, work papers and other documents and information relating to such Party and its Subsidiaries, (ii) provide the other Party and such other Party's Representatives with such copies of the existing books, records, Tax Returns, work papers, product data, and other documents and information relating to such Party and its Subsidiaries, and with such additional financial, operating and other data and information regarding such Party and its Subsidiaries as the other Party may reasonably request, (iii) permit the other Party's officers and other employees to meet (with virtual meeting sufficient), during normal business hours, with the chief financial officer and other officers and managers of such Party responsible for such Party's financial statements and the internal controls of such Party to discuss such matters as the other Party may deem reasonably necessary or appropriate, and (iv) promptly provide the other Party with copies, when available, of unaudited financial statements or management accounts, and communications sent by or on behalf of such Party to its stockholders or any material notice, report or other document filed with or sent to or received from any Governmental Authority in connection with the Contemplated Transactions. Any investigation conducted by either Werewolf or Ambros pursuant to this Section 5.3 shall be conducted in such manner as not to interfere unreasonably with the conduct of the business of the other Party.

(b) Notwithstanding anything herein to the contrary in this Section 5.3, no access or examination contemplated by this Section 5.3 shall be permitted to the extent that it would require any Party or its Subsidiaries to waive the attorney-client privilege or attorney work product privilege, conflict with any third party confidentiality obligations to which such Party is bound, or violate any applicable Law; provided, that such Party or its Subsidiary (i) shall be entitled to withhold only such information that may not be provided without causing such violation or waiver, (ii) shall provide to the other Party all related information that may be provided without causing such violation or waiver (including, to the extent permitted, redacted versions of any such information) and (iii) shall enter into such effective and appropriate joint-defense agreements or other protective arrangements as may be reasonably requested by the other Party in order that all such information may be provided to the other Party without causing such violation or waiver.

5.4 No Solicitation.

(a) Each of Werewolf and Ambros agrees that, during the Pre-Closing Period, neither it nor any of its Subsidiaries shall, nor shall it or any of its Subsidiaries permit any of its or their respective directors or officers to, nor shall it or any of its Subsidiaries authorize any of its other Representatives to, directly or indirectly (other than, in the case of Ambros, in connection with the Concurrent PIPE Financing or any non-exclusive licensing transaction in the Ordinary Course of Business): (i) solicit, assist, initiate, engage, or knowingly encourage, induce or facilitate the communication, making, submission or announcement of any Acquisition Proposal or Acquisition Inquiry or take any action that could reasonably be expected to lead to an Acquisition Proposal or Acquisition Inquiry, (ii) furnish any nonpublic information regarding such party to any Person or group (other than to a Party to this Agreement or its Representatives) in connection with or in response to an Acquisition Proposal or Acquisition Inquiry, (iii) engage, encourage or participate in discussions or negotiations with any Person or group with respect to any Acquisition Proposal or Acquisition Inquiry, (iv) approve, endorse or recommend any Acquisition Proposal (subject to Section 6.2(c) and

Section 6.3(e)), (v) negotiate, execute or enter into any letter of intent, agreement in principle, acquisition agreement or any other Contract contemplating or otherwise relating to any Acquisition Transaction, (vi) take any action that could reasonably be expected to lead to an Acquisition Proposal or Acquisition Inquiry, (vii) release any Person from, or waive any provision of, any confidentiality agreement to which such Party is a party, the release or waiver of which could reasonably be expected to lead to an Acquisition Proposal or Acquisition Inquiry, or (viii) publicly propose to do any of the following.

(b) Notwithstanding anything contained in this Section 5.4 and subject to compliance with this Section 5.4, prior to obtaining the Required Werewolf Stockholder Approval, Werewolf may furnish nonpublic information regarding Werewolf and its Subsidiaries to, and enter into discussions or negotiations with, any Person in response to a *bona fide*, unsolicited, written Acquisition Proposal by such Person which the Werewolf Board determines in good faith, after consultation with its financial advisors and outside legal counsel, constitutes, or is reasonably likely to result in, a Superior Offer (and is not withdrawn) if: (A) neither Werewolf nor any Representative of Werewolf shall have breached this Section 5.4 in any material respect, (B) the Werewolf Board concludes in good faith, after consulting with outside counsel, that the failure to take such action would be inconsistent with the Werewolf Board's fiduciary duties under applicable Law, (C) at least one (1) Business Day prior to initially furnishing any such nonpublic information to, or enter into discussions with, such Person, Werewolf receives from such Person an executed Acceptable Confidentiality Agreement and (D) at least one (1) Business Day prior to furnishing any such nonpublic information to such Person, Werewolf furnishes such nonpublic information to Ambros (to the extent such information has not been previously furnished by Werewolf to Ambros). Without limiting the generality of the foregoing, each party acknowledges and agrees that, in the event any Representative of such party takes any action that, if taken by such party, would constitute a breach of this Section 5.4 by such party, the taking of such action by such Representative shall be deemed to constitute a breach of this Section 5.4 by such party for purposes of this Agreement.

(c) Notwithstanding anything contained in this Section 5.4 and subject to compliance with this Section 5.4, prior to obtaining the Required Ambros Stockholder Approval, Ambros may furnish non-public information regarding Ambros or any of its Subsidiaries to, and enter into discussions or negotiations with, any Person in response to a *bona fide*, unsolicited written Acquisition Proposal by such Person, which the Ambros Board has determined in good faith, after consultation with Ambros's outside financial advisors and outside legal counsel, constitutes, or is reasonably likely to result in, a Superior Offer (and is not withdrawn) if: (A) neither Ambros nor any Representative of Ambros shall have breached this Section 5.4 in any material respect, (B) the Ambros Board concludes in good faith, after consulting with outside counsel, that the failure to take such action would be inconsistent with the Ambros Board's fiduciary duties under applicable Law, (C) at least one (1) Business Day prior to initially furnishing any such nonpublic information to, or enter into discussions with, such Person, Ambros receives from such Person an executed Acceptable Confidentiality Agreement and (D) at least one (1) Business Day prior to furnishing any such nonpublic information to such Person, Ambros furnishes such nonpublic information to Werewolf (to the extent such information has not been previously furnished by Ambros to Werewolf). Without limiting the generality of the foregoing, each party acknowledges and agrees that, in the event any Representative of such party takes any action that, if taken by such party, would constitute a breach of this Section 5.4 by such party, the taking of such action by such Representative shall be deemed to constitute a breach of this Section 5.4 by such party for purposes of this Agreement.

(d) If any Party or any Representative of such Party receives an unsolicited Acquisition Proposal or Acquisition Inquiry at any time during the Pre-Closing Period, then such Party shall promptly (and in no event later than one (1) Business Day after such Party becomes aware of such Acquisition Proposal or Acquisition Inquiry) notify the other Party orally and in writing of such Acquisition Proposal or Acquisition Inquiry, which notification shall contain the details of such Acquisition Proposal or Acquisition Inquiry (including the identity of the Person making or submitting such Acquisition Proposal or Acquisition Inquiry and either a copy of such Acquisition Proposal if in writing or a written summary of the terms thereof). Such Party shall keep the other Party reasonably and promptly informed with respect to the status and terms of any such Acquisition Proposal or Acquisition Inquiry and any material modification or material proposed modification thereto (including any revision in the amount, form or mix of consideration) and of all material verbal or written communications related thereto, together with copies of new written documentation and material correspondence to or from the Party or any of its Subsidiaries or any of their respective Representatives as well as written summaries of any material oral communications.

(e) Each Party shall immediately cease and cause to be terminated any existing discussions, negotiations and communications with any Person that relate to any Acquisition Proposal or Acquisition Inquiry as of the date of this Agreement, immediately terminate access to any nonpublic information of such Party provided to such Person via an electronic or physical data room and within three (3) Business Days after the date of this Agreement, request the destruction or return of any nonpublic information provided to such Person as soon as reasonably practicable after the date of this Agreement.

5.5 Notification of Certain Matters. During the Pre-Closing Period, each of Ambros, on the one hand, and Werewolf, on the other hand, shall promptly notify the other (and, if in writing, furnish copies of) if any of the following occurs: (i) any notice or other communication is received from any Person alleging that the Consent of such Person is or may be required in connection with any of the Contemplated Transactions, or (ii) any non-compliance with any Law is alleged or any Legal Proceeding against or involving or otherwise affecting such Party or its Subsidiaries is commenced, or, to the Knowledge of such Party, threatened against such Party or, to the Knowledge of such Party, any director, officer or Key Employee of such Party, in each case, in such person's capacity as such, in connection with the Contemplated Transactions. No such notice shall be deemed to supplement or amend the Ambros Disclosure Schedule or the Werewolf Disclosure Schedule for the purpose of (A) determining the accuracy of any of the representations and warranties made by Ambros or Werewolf in this Agreement or (B) determining whether any condition set forth in Article VII has been satisfied. Any failure by either Party to provide notice pursuant to this Section 5.5 shall not be deemed to be a breach for purposes of Section 7.2(b) or 7.3(b), as applicable, unless such failure to provide such notice was material, knowing and intentional.

5.6 Werewolf ESPP. As soon as reasonably practicable following the date of this Agreement, the Werewolf Board shall adopt appropriate resolutions and take all other actions necessary and appropriate to provide that (a) no offering periods or purchase periods shall be commenced following or in addition to any offering period underway as of the date hereof under the Werewolf ESPP (the "**Current Offering Period**"), (b) no payroll deductions or other contributions shall be made or effected after the Current Offering Period with respect to the Werewolf ESPP, (c) each purchase right issued pursuant to the Werewolf ESPP under the Current Offering Period shall be fully exercised not later than five (5) business days prior to the Effective Time or, if the Current Offering Period is not scheduled to end by no later than five (5) business days prior to the Effective Time, cause each Werewolf ESPP participant's accumulated contributions under the Werewolf ESPP to be returned to the participant in accordance with the terms of the Werewolf ESPP by no later than the Effective Time, and (d) the Werewolf ESPP shall terminate effective upon the Effective Time.

5.7 Werewolf Options. Prior to the Effective Time, the Werewolf Board shall adopt appropriate resolutions and take all other actions necessary and appropriate to provide that the vesting and exercisability of each outstanding, unexercised and unvested Werewolf Option that is not an Out of the Money Werewolf Options will be accelerated in full, in each case, effective as of immediately prior to the Effective Time, contingent on the occurrence of the Closing Date.

5.8 Concurrent PIPE Financing.

(a) Subject to the terms and conditions of this Agreement, the Parties shall use commercially reasonable efforts to obtain the Concurrent PIPE Financing on the terms and conditions described in the Securities Purchase Agreement and satisfy the conditions to the Concurrent PIPE Financing as described in the Securities Purchase Agreement and shall not permit any termination, amendment or modification to be made to, or any waiver of any provision under, or any replacement of, the Securities Purchase Agreement if such termination, amendment, modification, waiver or replacement (i) reduces the aggregate amount of the Concurrent PIPE Financing or (ii) imposes new or additional conditions or otherwise expands, amends or modifies any of the conditions to the receipt of the Concurrent PIPE Financing, or otherwise expands, amends or modifies any other provision of the Securities Purchase Agreement, in a manner that would reasonably be expected to (x) delay or prevent the funding of the Concurrent PIPE Financing (or satisfaction of the conditions to the Concurrent PIPE Financing) at or substantially simultaneously with the Closing or (y) adversely impact the ability of a Party to enforce its rights against other parties to the Securities Purchase Agreement. Each Party shall promptly deliver to the other Parties copies of any such termination, amendment, modification, waiver or replacement.

(b) The Parties shall use commercially reasonable efforts (i) to maintain in effect the Securities Purchase Agreement, (ii) to enforce its rights under the Securities Purchase Agreement and (iii) to comply with its obligations under the Securities Purchase Agreement.

Each Party shall promptly provide information reasonably requested by the other Parties relating to the circumstances referred to in clauses (i), (ii) or (iii) of the immediately preceding sentence.

ARTICLE VI
ADDITIONAL AGREEMENTS

6.1 Registration Statement; Proxy Statement.

(a) As promptly as practicable (i) Werewolf, in cooperation with Ambros, shall prepare and file with the SEC a proxy statement relating to the Required Werewolf Stockholder Approval to be obtained in connection with the Merger (together with any amendments thereof or supplements thereto, the "**Werewolf Proxy Statement**") and (ii) Werewolf, in cooperation with Ambros, shall prepare and file with the SEC a registration statement on Form S-4 (the "**Form S-4**"), in which the Werewolf Proxy Statement shall be included as a part (the Werewolf Proxy Statement and the Form S-4, collectively, the "**Registration Statement**"), in connection with the registration under the Securities Act of the shares of Werewolf Common Stock to be issued by virtue of the Merger, including shares of Werewolf Common Stock issuable upon exercise of any Merger Pre-Funded Warrants issued pursuant to this Agreement. Each of Werewolf and Ambros shall use their commercially reasonable efforts to respond promptly to any comments of the SEC or its staff and to cause the Registration Statement to become effective as promptly as practicable, and shall take all or any action required under any applicable federal, state, securities and other Laws in connection with the issuance of shares of Werewolf Common Stock and Merger Pre-Funded Warrants pursuant to the Merger. Each of the Parties shall furnish all information concerning itself and its Affiliates, as applicable, to the other Parties as the other Parties may reasonably request in connection with such actions and the preparation of the Registration Statement and the Werewolf Proxy Statement.

(b) Werewolf covenants and agrees that the Registration Statement (and the letter to stockholders, notice of meeting and form of proxy included therewith) will not, at the time that the Werewolf Proxy Statement or any amendments or supplements thereto are filed with the SEC, at the time the Werewolf Proxy Statement or any amendments or supplements thereto are first mailed to Werewolf's stockholders and at the time of the Werewolf Stockholder Meeting, (i) fail to comply as to form in all material respects with the requirements of applicable U.S. federal securities laws and Delaware Law, or (ii) contain any untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary in order to make the statements made therein, in light of the circumstances under which they were made, not misleading.

Ambros covenants and agrees that the information supplied by or on behalf of Ambros, concerning itself, to Werewolf for inclusion in the Registration Statement will not contain any untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary in order to make such information, in light of the circumstances under which they were made, not misleading. Notwithstanding the foregoing, Werewolf makes no covenant, representation or warranty with respect to statements made in the Registration Statement (and the letter to stockholders, notice of meeting and form of proxy included therewith), if any, based on information provided by or on behalf of Ambros or any of its Representatives for inclusion therein, and Ambros makes no covenant, representation or warranty with respect to statements made in the Registration Statement (and the letter to stockholders, notice of meeting and form of proxy included therewith), if any, other than with respect to the information provided by or on behalf of Ambros, or any of its Representatives for inclusion therein. Werewolf and Ambros shall each use commercially reasonable efforts to cause the Registration Statement and the Werewolf Proxy Statement to comply with the applicable rules and regulations promulgated by the SEC and applicable federal and state securities Laws requirements.

(c) Werewolf shall use commercially reasonable efforts to cause the Werewolf Proxy Statement to be mailed to Werewolf's stockholders as promptly as practicable after the Registration Statement is declared effective under the Securities Act.

(d) If at any time before the Closing (i) any Party (A) becomes aware of any event or information that, pursuant to the Securities Act or the Exchange Act, should be disclosed in an amendment or supplement to the Registration Statement, (B) receives notice of any SEC request for an amendment or supplement to the Registration Statement or for additional information related thereto, or (C) receives SEC comments on the Registration Statement, or (ii) the information provided in the Registration Statement has become "stale" and new information should be disclosed in an amendment or supplement to the Registration Statement; then, in each case such party, as the case may be, shall promptly inform the other parties thereof and shall cooperate with such other Parties in filing such amendment or supplement with the SEC (and, if appropriate, in mailing such amendment or supplement to Werewolf stockholders) or otherwise addressing such SEC request or comments and each party shall use their commercially reasonable efforts to cause any such amendment to become effective, if required. Werewolf shall provide Ambros with copies of any written comments, and shall inform Ambros of any oral comments, that Werewolf receives from the SEC or its staff with respect to the Registration Statement promptly after the receipt of such comments. Werewolf shall promptly notify Ambros if it becomes aware (1) that the Registration Statement has become effective, (2) of the issuance of any stop order or suspension of the qualification or registration of the Werewolf Common Stock issuance in connection with the Concurrent PIPE Financing for offering or sale in any jurisdiction, or (3) any order of the SEC related to the Registration Statement, and shall promptly provide to Ambros copies of all written correspondence between it or any of its Representatives, on the one hand, and the SEC or staff of the SEC, on the other hand, with respect to the Registration Statement and all orders of the SEC relating to the Registration Statement.

(e) Ambros shall reasonably cooperate with Werewolf and provide, and cause its Representatives to provide, Werewolf and its Representatives, with all true, correct and complete information regarding Ambros and its Subsidiaries that is required by law to be included in the Registration Statement or reasonably requested by Werewolf to be included in the Registration Statement. Without limiting their respective obligations in Section 6.6(a), Ambros will use commercially reasonable efforts to cause to be delivered to Werewolf a letter of its independent accounting firm, dated no more than two (2) Business Days before the date on which the Registration Statement becomes effective (and reasonably satisfactory in form and substance to Werewolf), that is customary in scope and substance for letters delivered by independent public accountants in connection with registration statements similar to the Registration Statement.

(f) Ambros and its legal counsel shall be given reasonable opportunity to review and comment on the Registration Statement, including all amendments and supplements thereto, prior to the filing thereof with the SEC, and on the response to any comments of the SEC on the Registration Statement, prior to the filing thereof with the SEC; provided that any such filings or responses shall be subject to the consent of Ambros (not to be unreasonably withheld, conditioned or delayed).

(g) Werewolf will use commercially reasonable efforts to cause Werewolf's independent accounting firm to deliver any Consent that Werewolf is required to file with the SEC with respect to the inclusion of the independent accounting firm's opinion on the audited financial statements of Werewolf in any filing of the Registration Statement with the SEC.

6.2 Ambros Stockholder Approval.

(a) Promptly after the Registration Statement has been declared effective under the Securities Act, and in any event no later than ten (10) Business Days thereafter, Ambros shall prepare, with the cooperation of Werewolf, and cause to be mailed to its stockholders an information statement, which shall include a copy of the Werewolf Proxy Statement, and the Ambros Stockholder Written Consent, in order to solicit the approval of Ambros's stockholders, including but not limited to Ambros's stockholders sufficient for the Required Ambros Stockholder Approval in lieu of a meeting pursuant to Section 228 of Delaware Law, for purposes of adopting and approving this Agreement and the Contemplated Transactions. Ambros shall use its reasonable best efforts to cause Ambros's stockholders sufficient for the Required Ambros Stockholder Approval to execute and deliver to Ambros the Ambros Stockholder Written Consent promptly following delivery thereof, and in any event no later than fifteen (15) days after the Registration Statement has been declared effective. Promptly following receipt of the duly executed Ambros Stockholder Written Consent, Ambros shall deliver a copy of the duly executed Ambros Stockholder Written Consent to Werewolf. In connection with the Ambros Stockholder Written Consent, Ambros shall take all actions necessary or advisable to comply in all material respects, and shall comply in all material respects, with Delaware Law, including Section 228 and Section 262 thereof, and the Organizational Documents of Ambros.

(b) Ambros agrees that, subject in all respects to Section 6.2(c): (i) the Ambros Board shall use commercially reasonable efforts to solicit stockholder approval within the timeframe set forth in Section 6.2(a) (the recommendation of the Ambros Board that Ambros' stockholders vote

to adopt and approve this Agreement being referred to as the "**Ambros Board Recommendation**") and (ii) (1) the Ambros Board Recommendation shall not be withheld, amended, withdrawn or modified (and the Ambros Board shall not publicly propose to withhold, amend, withdraw or modify the Ambros Board Recommendation) in a manner adverse to Werewolf, (2) no resolution by the Ambros Board or any committee thereof to withdraw or modify the Ambros Board Recommendation in a manner adverse to Werewolf or to adopt, approve or recommend (or publicly propose to adopt, approve or recommend) any Acquisition Proposal shall be adopted or proposed, and (3) the Ambros Board shall not publicly announce an intention or resolution to effect any of the foregoing (the actions set forth in the foregoing clauses (ii)(1), (2) and (3), collectively, an "**Ambros Board Adverse Recommendation Change**").

(c) Notwithstanding anything to the contrary contained in Section 6.2(b), and subject to compliance with Section 5.4 and Section 6.2, at any time prior to the receipt of the Required Ambros Stockholder Approval, (i) if Ambros receives a *bona fide*, unsolicited, written Superior Offer or (ii) as a result of an event, development or change in circumstances (other than any such event, development or change to the extent related to (A) any Acquisition Proposal, Acquisition Inquiry, Acquisition Transaction or the consequences thereof, or (B) the fact, in and of itself, that Ambros meets or exceeds internal budgets, plans or forecasts of its revenues, earnings or other financial performance or results of operations) that (x) is material to Ambros and its Subsidiaries (taken as a whole), (y) was not known to or reasonably foreseeable by the Ambros Board as of the date of this Agreement, (z) affects the business, assets or operations of Ambros (an "**Ambros Intervening Event**"), the Ambros Board may make an Ambros Board Adverse Recommendation Change if, but only if (i) Ambros Board determines in good faith, after consulting with outside legal counsel reasonably considering all relevant factors, that the failure to withhold, amend, withdraw or modify such recommendation would reasonably be expected to be inconsistent with the Ambros Board's fiduciary duties under applicable Law, (2) Ambros has delivered written notice to Werewolf confirming that the Ambros Board has determined to make an Ambros Board Adverse Recommendation Change at least four (4) Business Days in advance of making the Ambros Board Adverse Recommendation Change below (the "**Ambros Notice Period**"), which notice shall include a description in reasonable detail of the reasons for such Ambros Board Adverse Recommendation Change, and a summary of the material terms and conditions of the Superior Offer and written copies of any proposed transaction agreements (including with respect to financing arrangements) with any party making a potential Superior Offer or all information reasonably requested by Werewolf with respect to the Ambros Intervening Event, as applicable, (3) Ambros has, and has caused its financial advisors and outside legal counsel to, during the Ambros Notice Period, negotiate with Werewolf in good faith to make such adjustments to the terms and conditions of this Agreement so that such Acquisition Proposal ceases to constitute a Superior Offer (to the extent Werewolf desires to negotiate) or the failure to withhold, amend, withdraw or modify such recommendation would no longer reasonably be expected to be inconsistent with the Ambros Board's fiduciary duties under applicable Law as a result of the Ambros Intervening Event, as applicable, and (4) following the Ambros Notice Period, the Ambros Board shall have determined in good faith, based on the advice of its outside legal counsel, and after considering any proposals submitted by Werewolf to alter the terms and conditions thereof or enter into an alternative transaction and all other applicable matters, that the failure to withhold, amend, withdraw or modify the Ambros Board Recommendation would reasonably be expected to be inconsistent with its fiduciary duties under applicable Law (after taking into account such alterations of the terms and conditions of this Agreement); provided that (x) during any Ambros Notice Period, Werewolf shall be entitled to deliver to Ambros one or more counterproposals to such Acquisition Proposal and Ambros will, and cause its Representatives to, negotiate with Werewolf in good faith (to the extent Werewolf desires to negotiate) and (y) in the event of any material amendment to any Superior Offer (including any revision in the amount, form or mix of consideration or percentage of the combined company that Ambros' stockholders would receive as a result of such potential Superior Offer), Ambros shall be required to provide Werewolf with notice of such material amendment and the Ambros Notice Period shall be extended, if applicable, to ensure that at least two (2) Business Days remain in the Ambros Notice Period following such notification during which the Parties shall comply again with the requirements of this Section 6.2(c) and the Ambros Board shall not make an Ambros Board Adverse Recommendation Change prior to the end of such Ambros Notice Period as so extended (it being understood that there may be multiple extensions).

6.3 Werewolf Stockholder Approval.

(a) Promptly after the Registration Statement has been declared effective by the SEC under the Securities Act, Werewolf shall take all action necessary under applicable Law to call, give notice of and mail the proxy statement included in the Registration Statement (no later than five (5) Business Days after the Registration Statement has been declared effective by the SEC under the Securities Act) and hold a meeting of the holders of Werewolf Common Stock (the "**Werewolf Stockholder Meeting**") for the purpose of seeking approval of:

(i) (A) the issuance of Werewolf Common Stock or other securities of Werewolf (including any Pre-Funded Warrants) that represent (or are convertible into) more than twenty percent (20%) of the shares of Werewolf Common Stock outstanding immediately prior to the Merger to the holders of Ambros Capital Stock and Ambros Options in connection with the Contemplated Transactions pursuant to the Nasdaq rules and (B) the change of control of Werewolf resulting from the Merger pursuant to the Nasdaq rules;

(ii) if required, the share issuance in the Concurrent PIPE Financing for purposes of Nasdaq Listing Rule 5635(d), together with any resolutions in furtherance thereof;

(iii) the approval of the Werewolf Charter Amendment to (A) change the name of Werewolf to "Ambros Therapeutics, Inc.", (B) effect the Werewolf Reverse Stock Split and (C) effect the Werewolf Authorized Common Stock Increase (the matters contemplated by Section 6.3(a)(i), Section 6.3(a)(ii) (if applicable) and Section 6.3(a)(iii)(A) and (B), the "**Werewolf Stockholder Matters**," and the matter contemplated by Section 6.3(a)(iii)(C), the "**Werewolf Authorized Share Increase Proposal**");

(iv) the Equity Plan Proposals; and

(v) any other proposals the Parties reasonably deem necessary to consummate the Contemplated Transactions.

(b) The Werewolf Stockholder Meeting shall be held as promptly as practicable after the Registration Statement is declared effective under the Securities Act and, in any event, no later than forty-five (45) calendar days after the effective date of the Registration Statement. Werewolf shall take reasonable measures to ensure that all proxies solicited in connection with the Werewolf Stockholder Meeting are solicited in compliance with all applicable Law. Notwithstanding anything to the contrary contained herein, if on the date of the Werewolf Stockholder Meeting, or a date preceding the date on which the Werewolf Stockholder Meeting is scheduled, Werewolf reasonably believes that (i) it will not receive proxies sufficient to obtain the Required Werewolf Stockholder Approval or the approval of the Werewolf Authorized Share Increase Proposal, whether or not a quorum would be present or (ii) it will not have sufficient shares of Werewolf Common Stock represented (whether in person or by proxy) to constitute a quorum necessary to conduct the business of the Werewolf Stockholder Meeting, Werewolf may postpone or adjourn, or make one or more successive postponements or adjournments of, the Werewolf Stockholder Meeting as long as the date of the Werewolf Stockholder Meeting is not postponed or adjourned more than an aggregate of thirty (30) days in connection with any postponements or adjournments.

(c) Werewolf agrees that, subject in all respects to Section 6.3(d), (i) the Werewolf Board shall recommend that the holders of Werewolf Common Stock approve the Werewolf Stockholder Matters, the Werewolf Authorized Share Increase Proposal and the Equity Plan Proposals and shall use commercially reasonable efforts to solicit such approval within the timeframe set forth in Section 6.3(b), and that the Werewolf Proxy Statement filed in accordance with Section 6.3(a) shall include a statement to the effect that the Werewolf Board recommends that Werewolf's stockholders vote to approve the Werewolf Stockholder Matters, the Werewolf Authorized Share Increase Proposal and the Equity Plan Proposals (the recommendation of the Werewolf Board being referred to as the "**Werewolf Board Recommendation**") and (ii) (1) the Werewolf Board Recommendation shall not be withheld, amended, withdrawn or modified (and the Werewolf Board shall not publicly propose to withhold, amend, withdraw or modify the Werewolf Board Recommendation) in a manner adverse to Ambros, (2) no resolution by the Werewolf Board or any committee thereof to withdraw or modify the Werewolf Board Recommendation in a manner adverse to Ambros or to adopt, approve or recommend (or publicly propose to adopt, approve or recommend) any Acquisition Proposal shall be adopted or proposed, and (3) the Werewolf Board shall not publicly announce an intention or resolution to effect any of the foregoing (the actions set forth in the foregoing clauses (ii)(1), (2) and (3), collectively, a "**Werewolf Board Adverse Recommendation Change**").

(d) Notwithstanding anything to the contrary contained in Section 6.3(c), and subject to compliance with Section 5.4 and Section 6.3, at any time prior to the approval of the Werewolf Stockholder Matters by the Required Werewolf Stockholder Approval, (i) if Werewolf receives a *bona fide*, unsolicited, written Superior Offer or (ii) as a result of a material development or change in circumstances that (x) is material to Werewolf and its Subsidiaries (taken as a whole), (y) was not known to or reasonably foreseeable by the Werewolf Board as of the date of this Agreement and (y) affects the business, assets or operations of Werewolf (other than any such event, development or change to the extent related to (A) any Acquisition Proposal, Acquisition Inquiry, Acquisition Transaction or the consequences thereof, (B) the fact, in and of itself, that Werewolf meets or exceeds internal budgets, plans or forecasts of its revenues, earnings or other financial performance or results of operations), or (C) the value of any Legacy Assets covered under the CVR Agreement) (a "**Werewolf Intervening Event**"), the Werewolf Board may make a Werewolf Board Adverse Recommendation Change if, but only if (i) in the case of a Superior Offer, following the receipt of and on account of such Superior Offer, (1) the Werewolf Board determines in good faith, after consulting with outside legal counsel and after considering any proposals submitted by Ambros to match the terms and conditions thereof or enter into an alternative transaction and reasonably considering all relevant factors, that the failure to withhold, amend, withdraw or modify such recommendation would reasonably be expected to be inconsistent with its fiduciary duties under applicable Law, (2) Werewolf has, and has caused its financial advisors and outside legal counsel to, during the Werewolf Notice Period, negotiate with Ambros in good faith to make such adjustments to the terms and conditions of this Agreement so that such Acquisition Proposal ceases to constitute a Superior Offer (to the extent Ambros desires to negotiate) and (3) the Werewolf Board shall have determined in good faith, based on the advice of its outside legal counsel, and after considering any proposals submitted by Ambros to alter the terms and conditions of this Agreement, that the failure to withhold, amend, withdraw or modify the Werewolf Board Recommendation would reasonably be expected to be inconsistent with its fiduciary duties under applicable Law (after taking into account such alterations of the terms and conditions of this Agreement); provided that (x) Ambros receives written notice from Werewolf confirming that the Werewolf Board has determined to change its recommendation at least four (4) Business Days in advance of the Werewolf Board Adverse Recommendation Change (the "**Werewolf Notice Period**"), which notice shall include a description in reasonable detail of the reasons for such Werewolf Board Adverse Recommendation Change, and a summary of the material terms and conditions of the Acquisition Proposal and written copies of any proposed transaction agreements (including with respect to financing arrangements) with any party making a potential Superior Offer, (y) during any Werewolf Notice Period, Ambros shall be entitled to deliver to Werewolf one or more counterproposals to such Acquisition Proposal and Werewolf will, and cause its Representatives to, negotiate with Ambros in good faith (to the extent Ambros desires to negotiate) to make such adjustments in the terms and conditions of this Agreement so that the applicable Acquisition Proposal ceases to constitute a Superior Offer and (z) in the event of any material amendment to any Superior Offer (including any revision in the amount, form or mix of consideration or percentage of the combined company that Werewolf's stockholders would receive as a result of such potential Superior Offer), Werewolf shall be required to provide Ambros with notice of such material amendment and the Werewolf Notice Period shall be extended, if applicable, to ensure that at least two (2) Business Days remain in the Werewolf Notice Period following such notification during which the parties shall comply again with the requirements of this Section 6.3(d) and the Werewolf Board shall not make a Werewolf Board Adverse Recommendation Change prior to the end of such Werewolf Notice Period as so extended (it being understood that there may be multiple extensions) or (ii) in the case of a Werewolf Intervening Event, if and only if (1) the Werewolf Board determines in good faith, after consulting with outside legal counsel, that the failure to withhold, amend, withdraw or modify such recommendation would reasonably be expected to be inconsistent with the Werewolf Board's fiduciary duties under applicable Law, (2) Werewolf has delivered written notice to Ambros confirming that the Werewolf Board has determined to make a Werewolf Board Adverse Recommendation Change at least four (4) Business Days in advance of making such

Werewolf Board Adverse Recommendation Change, which notice shall include a description in reasonable detail of the reasons for such Werewolf Board Adverse Recommendation Change and all information in the possession of Werewolf reasonably requested by Ambros with respect to the Werewolf Intervening Event, (3) Werewolf has, and has caused its financial advisors and outside legal counsel to, during the Werewolf Notice Period, negotiate with Ambros in good faith (to the extent Ambros desires to negotiate) to make such adjustments to the terms and conditions of this Agreement so that the failure to withhold, amend, withdraw or modify such recommendation would no longer reasonably be expected to be inconsistent with the Werewolf Board's fiduciary duties under applicable Law as a result of the Werewolf Intervening Event, and (4) following the Werewolf Notice Period, the Werewolf Board shall have determined in good faith, based on the advice of its outside legal counsel, and after considering any proposals submitted by Ambros to alter the terms and conditions thereof and all other applicable matters, that the failure to withhold, amend, withdraw or modify the Werewolf Board Recommendation would reasonably be expected to be inconsistent with its fiduciary duties under applicable Law (after taking into account such alterations of the terms and conditions of this Agreement); provided that in the event of any material change to the facts and circumstances relating to such Werewolf Intervening Event, Werewolf shall be required to provide Ambros with notice of such material change and the Werewolf Notice Period shall be extended, if applicable, to ensure that at least two (2) Business Days remain in the Werewolf Notice Period following such notification during which the parties shall comply again with the requirements of this Section 6.3(d) and the Werewolf Board shall not make a Werewolf Board Adverse Recommendation Change prior to the end of such Werewolf Notice Period as so extended (it being understood that there may be multiple extensions).

(e) Werewolf's obligation to call, give notice of and hold the Werewolf Stockholder Meeting in accordance with Section 6.3(a) shall not be limited or otherwise affected by the commencement, disclosure, announcement or submission of any Superior Offer, Acquisition Proposal or Acquisition Inquiry, or by any Werewolf Board Adverse Recommendation Change.

(f) Nothing contained in this Agreement shall prohibit Werewolf or the Werewolf Board from complying with Rules 14d-9 and 14e-2(a) promulgated under the Exchange Act; provided however, that any disclosure made by Werewolf or the Werewolf Board pursuant to Rules 14d-9 and 14e-2(a) shall be limited to a statement that Werewolf is unable to take a position with respect to the bidder's tender offer unless the Werewolf Board determines in good faith, after consultation with its outside legal counsel, that such statement would reasonably be expected to be inconsistent with its fiduciary duties under applicable Law.

6.4 Efforts; Regulatory Approvals; Transaction Litigation.

(a) The Parties shall use commercially reasonable efforts to consummate the Contemplated Transactions. Without limiting the generality of the foregoing, each Party: (i) shall make all filings and other submissions (if any) and give all notices (if any) required to be made and given by such party in connection with the Contemplated Transactions, (ii) shall use commercially reasonable efforts to obtain each Consent (if any) required to be obtained (pursuant to any applicable law or Contract, or otherwise) by such Party in connection with the Contemplated Transactions or for such Contract to remain in full force and effect, and (iii) shall use commercially reasonable efforts to satisfy the conditions precedent to the consummation of the Contemplated Transactions.

(b) Without limiting the generality of the foregoing, Werewolf or Ambros, as applicable (hereinafter, the "**Transaction Litigation Party**"), shall give the other Party prompt (but not later than within two (2) Business Days) written notice of any "demand letter," investigation by a Governmental Authority, or any Legal Proceeding initiated, or threatened in writing against the Transaction Litigation Party and/or its directors or officers relating to this Agreement or the Contemplated Transactions (the "**Transaction Litigation**") (including by providing copies of all pleadings or correspondence with respect thereto) and keep the other Party reasonably informed with respect to the status thereof. The Transaction Litigation Party will (i) give the other Party the opportunity to participate in the defense, settlement or prosecution of any Transaction Litigation, (ii) consult with the other Party with respect to the defense, settlement and prosecution of any Transaction Litigation, (iii) consider in good faith the other Party's advice with respect to such Transaction Litigation and (iv) not settle or consent or agree to settle or compromise any Transaction Litigation without the other Party's prior written consent and no such settlement shall (A) impose any liability or obligation on Ambros or Werewolf, (B) affect the consideration or timing of the Closing, or (C) include any admission of wrongdoing by Ambros or Werewolf, in each case without such Party's prior written consent. Without otherwise limiting the rights of current or former directors and officers of the Transaction Litigation Party with regard to the right to counsel, current or former directors and officers of the Transaction Litigation Party with rights to indemnification as described in Section 6.6 shall be entitled to retain a single counsel, selected by such indemnified parties, to represent them in connection with the defense of any Transaction Litigation as it relates to such directors and officers.

6.5 Disclosures. Without limiting any Party's obligations under the Confidentiality Agreement, no Party shall, and no Party shall permit any of its Subsidiaries or any of its Representative to, issue any press release or make any disclosure (to any customers or employees of such Party, to the public or otherwise) regarding the Contemplated Transactions unless: (a) the other Party shall have approved such press release or disclosure in writing, such approval not to be unreasonably conditioned, withheld or delayed; or (b) such Party shall have determined in good faith, upon the advice of outside legal counsel, that such disclosure is required by applicable Law and, to the extent practicable, before such press release or disclosure is issued or made, such Party advises the other Party of, and consults with the other Party regarding, the text of such press release or disclosure; provided, however, that each of Ambros and Werewolf may make any statement in response to questions by the press, analysts, investors or those attending industry conferences or financial analyst conference calls, so long as any such statements are consistent with previous press releases, public disclosures or public statements made by Ambros and Werewolf in compliance with this Section 6.5. Notwithstanding the foregoing, a Party need not consult with any other Parties in connection with such portion of any press release, public statement or filing to be issued or made with an Acquisition Proposal, Werewolf Board Adverse Recommendation Change with respect to Werewolf only pursuant to Section 6.3(d), an Ambros Board Adverse Recommendation Change with respect to Ambros only pursuant to Section 6.2(c), or a dispute regarding this Agreement.

6.6 Indemnification of Officers and Directors.

(a) From the Effective Time through the sixth anniversary of the date on which the Effective Time occurs, each of Werewolf and the Surviving Corporation shall indemnify and hold harmless each person who is now, or has been at any time prior to the date hereof, or who becomes prior to the Effective Time, a director or officer of Werewolf or Ambros, respectively (the "**D&O Indemnified Parties**"), against all claims, losses, liabilities, damages, judgments, fines and reasonable fees, costs and expenses, including attorneys' fees and disbursements (collectively, "**Costs**"), incurred in connection with any claim, action, suit, proceeding or investigation, whether civil, criminal, administrative or investigative, arising out of or pertaining to the fact that the D&O Indemnified Party is or was a director or officer of Werewolf or of Ambros, whether asserted or claimed prior to, at or after the Effective Time, in each case, to the fullest extent permitted under Delaware Law. Each D&O Indemnified Party will be entitled to advancement of expenses incurred in the defense of any such claim, action, suit, proceeding or investigation from Werewolf or the Surviving Corporation upon receipt of a request therefor from such party; provided that any such person to whom expenses are advanced provides an undertaking to Werewolf, to the extent then required by Delaware Law, to repay such advances if it is ultimately determined that such person is not entitled to indemnification. No other form of undertaking shall be required. All rights to indemnification, exculpation and advancement of expenses or other protection in respect of any claim asserted or made, and for which a D&O Indemnified Party delivers a written notice to Werewolf prior to the sixth (6^{th}) anniversary of the Effective Time asserting a claim for such protections pursuant to this Section 6.6, shall continue until the final disposition of such claim.

(b) The provisions of Werewolf's Organizational Documents with respect to indemnification, advancement of expenses and exculpation of present and former directors and officers of Werewolf that are presently set forth in Werewolf's Organizational Documents shall not be amended, modified or repealed for a period of six (6) years from and after the Effective Time in a manner that would adversely affect the rights thereunder of individuals who, at or prior to the Effective Time, were officers or directors of Werewolf, unless such modification is required by applicable Law. The Surviving Corporation's Organizational Documents shall contain, and Werewolf shall cause the certificate of incorporation of the Surviving Corporation to so contain, provisions no less favorable with respect to indemnification, advancement of expenses and exculpation of present and former directors and officers as those presently set forth in Ambros' Organizational Documents.

(c) From and after the Effective Time, (i) the Surviving Corporation shall fulfill and honor in all respects the obligations of Ambros to its D&O Indemnified Parties as of immediately prior to the Closing pursuant to any indemnification provisions under Ambros' Organizational Documents and pursuant to any indemnification agreements between Ambros and such D&O Indemnified Parties, with respect to claims arising out of matters occurring at or prior to the Effective Time and (ii) Werewolf shall fulfill and honor in all respects the obligations of Werewolf to its D&O Indemnified Parties as of immediately prior to the Closing pursuant to any indemnification provisions under Werewolf's Organizational Documents and pursuant to any indemnification agreements between Werewolf and such D&O Indemnified Parties, with respect to claims arising out of matters occurring at or prior to the Effective Time.

(d) From and after the Effective Time, Werewolf shall maintain directors' and officers' liability insurance policies, with an effective date as of the Closing Date, on commercially available terms and conditions and with coverage limits customary for U.S. public companies similarly situated to Werewolf. In addition, Werewolf shall purchase, prior to the Effective Time, a six (6)-year prepaid "**D&O tail policy**" for the non-cancellable extension of directors' and officers' liability coverage of Werewolf's existing directors' and officers' insurance policies for a claims reporting or discovery period of at least six (6) years from and after the Effective Time with respect to any claim related to any period of time at or prior to the Effective Time with terms, conditions, retentions and limits of liability that are no less favorable than the coverage provided under Werewolf's existing policies as of the date of this Agreement with respect to any actual or alleged error, misstatement, misleading statement, act, omission, neglect, breach of duty or any matter claimed against a director or officer of Werewolf by reason of him or her serving in such capacity that existed or occurred at or prior to the Effective Time (including in connection with this Agreement or the Contemplated Transactions).

(e) From and after the Effective Time, Werewolf shall pay all expenses, including reasonable and documented attorneys' fees, that are incurred by the persons referred to in this Section 6.6 in connection with their enforcement of the rights provided to such persons in this Section 6.6.

(f) The provisions of this Section 6.6 are intended to be in addition to the rights otherwise available to the current and former officers and directors of Werewolf and Ambros by Law, charter, statute, bylaw or agreement, and shall operate for the benefit of, and shall be enforceable by, each of the D&O Indemnified Parties, their heirs and their Representatives.

(g) In the event Werewolf, the Surviving Corporation or any of their respective successors or assigns (i) consolidates with or merges into any other Person and shall not be the continuing or surviving corporation or entity of such consolidation or merger or (ii) transfers all or substantially all of its properties and assets to any Person, then, and in each such case, proper provision shall be made so that the successors and assigns of Werewolf or the Surviving Corporation, as the case may be, shall succeed to the obligations set forth in this Section 6.6. Werewolf shall cause the Surviving Corporation to perform all of the obligations of the Surviving Corporation under this Section 6.6.

(h) All rights to exculpation, indemnification and advancement of expenses for acts or omissions occurring at or prior to the Effective Time, whether asserted or claimed prior to, at or after the Closing, now existing in favor of the current or former directors, officers or employees, as the case may be, of Werewolf, Ambros or any of their respective Subsidiaries as provided in their respective Organizational Documents or in any agreement shall survive the Merger and shall continue in full force and effect.

(i) The obligations set forth in this Section 6.6 shall not be terminated, amended or otherwise modified in any manner that adversely affects any D&O Indemnified Party, or any person who is a beneficiary under the policies referred to in this Section 6.6 and their heirs and representatives, without the prior written consent of such affected D&O Indemnified Party or such other beneficiary.

6.7 Tax Matters.

(a) All transfer, documentary, sales, use, stamp, registration, excise, recording, registration value added and other such similar Taxes and fees (including any penalties and interest) that become payable in connection with or by reason of the execution of this Agreement and the transactions contemplated hereby (collectively, "**Transfer Taxes**") shall be borne and paid fifty percent (50%) by Werewolf and fifty percent (50%) by Ambros. The Person required by applicable law shall timely file any Tax Return or other document with respect to such Transfer Taxes.

(b) At the Closing, Ambros shall deliver to Werewolf a certificate pursuant to Treasury Regulations Sections 1.1445-2(c) and 1.897-2(h), together with a form of notice to the IRS in accordance with the requirements of Treasury Regulations Section 1.897-2(h), in each case, in form and substance reasonably acceptable to Werewolf; provided, however, that Werewolf's only remedy for Ambros' failure to provide such form or certificate will be to withhold from the payments to be made pursuant to this Agreement any required withholding Tax under Section 1445 of the Code, and Ambros' failure to provide any such form or certificate will not be deemed to be a failure of the conditions set forth in Section 6.7 to have been met.

(c) The Parties intend that, for United States federal income tax purposes, the Merger will qualify for the Intended Tax Treatment and the Parties agree not to take any action or tax reporting position (including during the course of any audit, litigation or other proceedings with respect to Taxes) inconsistent with the Intended Tax Treatment. The Merger shall be reported by the Parties for all Tax purposes in accordance with the foregoing, unless otherwise required by a Governmental Authority as a result of a "determination" within the meaning of Section 1313(a) of the Code. Each of the Parties shall (and shall cause their respective Affiliates to) use their respective reasonable best efforts to cause the Merger to qualify for the Intended Tax Treatment, and shall not take any action, or fail to take any action, which action or failure to act would reasonably be expected to prevent the Merger from qualifying for the Intended Tax Treatment. The Parties shall cooperate with each other and their respective counsel to document and support the Tax treatment of the Merger as qualifying for the Intended Tax Treatment, including in the event the SEC requests or requires an opinion with respect to any discussion in a registration statement of the United States federal income Tax consequences of the Merger. If such an opinion is requested or required by the SEC, the Parties agree to use their reasonable best efforts to cause their respective tax advisors to provide any such opinion, as reasonably determined by such Parties, subject to customary assumptions and limitations. Each Party shall execute and deliver customary tax representation letters to the applicable tax advisors in form and substance reasonably satisfactory to such advisors upon which such advisors shall be entitled to rely in rendering such tax opinion. Each of the Parties agrees to promptly notify the other Party of any challenge to the Intended Tax Treatment by any Governmental Authority.

(d) Ambros or Werewolf, as applicable, shall promptly notify the other Party in writing if, before the Closing Date, it determines that it is not reasonable for the Merger to qualify for the Intended Tax Treatment. Following such notice, Ambros or Werewolf may propose amendments to the terms of this Agreement that Ambros or Werewolf believes could reasonably facilitate such qualification without adversely affecting the rights and commercial position of Ambros, Werewolf, and their respective stockholders. In that case, Werewolf shall consider in good faith the proposed amendments and, if it determines in good faith that they would not result in unreasonable delay to Closing and would not adversely affect the rights or commercial position of Ambros, Werewolf, and their respective stockholders, the Parties shall use reasonable best efforts to effect any such amendments.

6.8 Listing and Listing Application(a) . From the date hereof until the Effective Time, Werewolf shall maintain its listing on Nasdaq, and Ambros will cooperate with Werewolf as reasonably requested by Werewolf with respect to the maintenance of such listing and promptly furnish to Werewolf all information concerning itself, its members and its stockholders that may be required or reasonably requested by Werewolf in connection with the maintenance of such listing. After the execution of this Agreement and as promptly as reasonably practicable in accordance with applicable Law, the Parties shall prepare and Ambros shall file with Nasdaq a listing application (the "**Nasdaq Listing Application**") for the listing on Nasdaq of (i) shares of Werewolf Common Stock deliverable in connection with the Merger and the Concurrent PIPE Financing and (ii) the shares of Werewolf Common Stock issuable upon exercise of the Pre-Funded Warrants , and the Parties shall cause the listing of shares of Werewolf Common Stock deliverable in connection with the Merger and the Concurrent PIPE Financing and shares of Werewolf Common Stock issuable upon exercise of the Pre-Funded Warrants to be authorized for listing on Nasdaq prior to the Effective Time, subject to official notice of issuance. Each Party and its Subsidiaries shall prepare and furnish all information (including any required financial statements) concerning itself as may reasonably be requested in connection with such actions and the preparation of the Nasdaq Listing Application, provided that no Party shall use any such information for any other purpose without the prior written consent of the providing Party (which consent shall not be unreasonably withheld, conditioned or delayed) or if doing so would violate or cause a violation of applicable Law or other applicable securities Laws. Werewolf authorizes Ambros to utilize in the Nasdaq Listing Application and in all such filed materials the information concerning Werewolf and its Subsidiaries furnished by Werewolf. Each Party will promptly inform the other Party of all verbal or written communications between Nasdaq and such Party or its Representatives. Any Party not filing the Nasdaq Listing Application will cooperate with Ambros as reasonably requested by Ambros with respect to the Nasdaq Listing Application and promptly furnish to Ambros all information concerning itself, its members and its stockholders that may be required or reasonably requested in connection with any action contemplated by this Section 6.8.

6.9 Legends. Werewolf shall be entitled to place appropriate legends on the book entries and/or certificates evidencing any shares of Werewolf Common Stock (or shares of Werewolf Common Stock issuable upon exercise of any Merger Pre-Funded Warrants) to be received in the Merger by equity holders of Ambros who may be considered "affiliates" of Werewolf for purposes of Rules 144 and 145 under the Securities Act reflecting the restrictions set forth in Rules 144 and 145 and to issue appropriate stop transfer instructions to the transfer agent for Werewolf Common Stock.

6.10 Officers and Directors.

(a) Directors and Officers of Werewolf.

(i) Werewolf shall cause, effective as of the Effective Time, the Werewolf Board to consist of the individuals set forth on Section 6.10(a)(i) of the Ambros Disclosure Schedule or as otherwise selected by the Ambros Board.

(ii) Werewolf shall cause the directors and officers of Werewolf prior to the Effective Time to sign written resignations in forms reasonably satisfactory to Ambros, dated on or before the Closing Date and effective as of the Effective Time.

(iii) The Werewolf Board shall take all necessary action to appoint the officers of Ambros to become the equivalent officers of Werewolf upon the Effective Time until the earlier of their resignation or removal or until their respective successors are duly elected or appointed and qualified, as the case may be.

(b) Directors and Officers of the Surviving Corporation.

(i) The Parties shall take all actions necessary (A) so that from and after the Effective Time, the Surviving Corporation's board of directors shall be constituted with those members as set forth on Section 6.10(b) of the Ambros Disclosure Schedule and (B) to secure the resignations of the existing members of the board of directors of the Surviving Corporation.

(ii) The Parties shall take all actions necessary so that the officers of Ambros immediately prior to the Effective Time shall, from and after the Effective Time, be the officers of the Surviving Corporation, until the earlier of their resignation or removal or until their respective successors are duly elected or appointed and qualified, as the case may be.

6.11 Termination of Certain Agreements and Rights. Ambros shall cause any stockholder agreements, voting agreements, registration rights agreements, co-sale agreements and any other similar Contracts between Ambros and any holders of Ambros Capital Stock, including any such Contract granting any Person investor rights, rights of first refusal, registration rights or director designation rights to be terminated immediately prior to the Effective Time, without any liability being imposed on the part of Ambros or the Surviving Corporation.

6.12 Section 16 Matters. Prior to the Effective Time, Werewolf shall take all such steps as may be required to cause any acquisitions of Werewolf Common Stock and Werewolf Options in connection with the Contemplated Transactions, by each individual who is reasonably expected to become subject to the reporting requirements of Section 16(a) of the Exchange Act with respect to Werewolf, to be exempt under Rule 16b-3 promulgated under the Exchange Act.

6.13 Allocation Certificate. Ambros shall prepare and deliver to Werewolf at least two (2) Business Days prior to the Closing Date a certificate signed by an executive officer of Ambros in a form reasonably acceptable to Werewolf setting forth (as of immediately prior to the Effective Time) (a) each holder of Ambros Capital Stock, (b) such holder's name and address, (c) the number and type of Ambros Capital Stock held as of the Closing Date for each such holder and (d) the number of shares of Werewolf Common Stock (or Merger Pre-Funded Warrants in lieu thereof) to be issued to such holder pursuant to this Agreement in respect of the Ambros Capital Stock held by such holder as of immediately prior to the Effective Time (the "**Allocation Certificate**"). For the avoidance of doubt, the Allocation Certificate shall be prepared in good faith, in accordance with the Organizational Documents of Ambros and contracts applicable to Ambros Capital Stock and Ambros Options, and shall show each holder's percentage ownership interest in Ambros on a fully diluted basis.

6.14 Obligations of Merger Sub. Werewolf will take all action necessary to cause Merger Sub to perform its obligations under this Agreement and to consummate the Merger on the terms and conditions set forth in this Agreement.

6.15 Takeover Statutes. If any takeover statute is or may become applicable to the Contemplated Transactions, each of Ambros, the Ambros Board, Werewolf and the Werewolf Board, as applicable, shall grant such approvals and take such actions as are necessary, to the extent permitted by Law, so that the Contemplated Transactions may be consummated as promptly as practicable on the terms contemplated by this Agreement and otherwise act to eliminate or minimize the effects of such statute or regulation on the Contemplated Transactions.

6.16 Werewolf Equity Plans. Prior to or as of the Effective Time, the Werewolf Board shall approve, adopt and submit for approval by the stockholders of Werewolf, and recommend and use commercially reasonable efforts to cause the stockholders of Werewolf to approve (a) the 2026 Werewolf Equity Incentive Plan in a form to be mutually agreed by Werewolf and Ambros, which will provide for new awards for a number of shares of Werewolf Common Stock not exceeding a certain percentage of the Werewolf Common Stock issued and expected to be outstanding immediately after the Effective Time, as Ambros shall determine prior to the date on which the Registration Statement is declared effective in consultation with its independent compensation consultant (for avoidance of doubt, such number of shares shall be in addition to the number of shares of Werewolf Common Stock subject to outstanding Werewolf Options or subject to Ambros Options assumed by Werewolf as contemplated by Section 2.4(g)), and which may include an annual increase pursuant to an "evergreen" provision to provide for optional annual increases of up to a certain percentage of the total number of fully diluted shares of capital stock of Werewolf as of the day prior to such increase, which percentages Ambros shall determine prior to the date on which the Registration Statement is declared effective in consultation with its independent compensation consultant; and (b) the 2026 Werewolf ESPP, in a form to be mutually agreed by Werewolf and Ambros with a total pool of shares of Werewolf Common Stock not exceeding a certain percentage of the Werewolf Common Stock issued and expected to be outstanding immediately after the Effective Time, and may include an annual increase pursuant to an "evergreen" provision providing for an annual increase of up to a certain percentage of the total number of fully diluted shares of capital stock of Werewolf outstanding as of the day prior to such increase, which percentages Ambros shall determine prior to the date on which the Registration Statement is declared effective in consultation with its independent compensation consultant ((a) and (b), collectively, the "**Equity Plan Proposals**"). Subject to the approval of the 2026 Werewolf Equity

Incentive Plan by the stockholders of Werewolf, Werewolf shall file with the SEC, promptly after the Effective Time, a registration statement on Form S-8 (or any successor form), if available for use by Werewolf, relating to the shares of Werewolf Common Stock issuable with respect to the 2026 Werewolf Equity Incentive Plan. All fees and expenses incurred in connection with such Form S-8 filing shall be borne by Ambros or the combined company after the Effective Time and shall not constitute Transaction Expenses or otherwise reduce Werewolf Net Cash.

6.17 Werewolf Employee Plans. Unless otherwise requested by Ambros in writing at least fifteen (15) Business Days prior to the Closing Date and without limiting Section 5.6, the Werewolf Board shall take (or cause to be taken) all actions to adopt resolutions providing for the termination, effective no later than the day prior to the Closing Date, of each Werewolf Employee Plan exclusive of those identified on Section 6.17 of the Werewolf Disclosure Schedule. If Werewolf is required to terminate a Werewolf Employee Plan, then Werewolf shall provide to Ambros prior to the Closing Date written evidence of the adoption by the Werewolf Board of resolutions authorizing the termination of such Werewolf Employee Plans (the form and substance of which shall be subject to the reasonable prior review and approval of Ambros).

6.18 Payoff Letters. Werewolf shall obtain and deliver to Ambros, at least three (3) Business Days prior to the Closing, (a) customary payoff letters with respect to any outstanding indebtedness of Werewolf or its Subsidiaries (the "**Payoff Indebtedness**") and (b) if applicable, other customary documents relating to the release in full of guarantees and liens under the Payoff Indebtedness (if any) and any related security documents. For the avoidance of doubt, any payoff amounts with respect to the Payoff Indebtedness (if any) shall be payable on the Closing Date.

6.19 Reservation of Werewolf Common Stock; Issuance of Shares of Werewolf Common Stock. For as long as any Merger Pre-Funded Warrant remains outstanding, Werewolf shall at all times reserve and keep available, free from preemptive rights, out of its authorized but unissued Werewolf Common Stock or shares of Werewolf Common Stock held in treasury by Werewolf, for the purpose of effecting the exercise of the Merger Pre-Funded Warrants, the full number of shares of Werewolf Common Stock then issuable upon the exercise of all Merger Pre-Funded Warrants then outstanding. All shares of Werewolf Common Stock delivered upon exercise of the Merger Pre-Funded Warrants shall be newly issued shares or shares held in treasury by Werewolf, shall have been duly authorized and validly issued and shall be fully paid and nonassessable, and shall be free from preemptive rights and free of any Encumbrance, other than restrictions on transfer under applicable state and federal securities Laws and Encumbrances imposed by the Investor.

ARTICLE VII
CONDITIONS TO CONSUMMATION OF THE MERGER

7.1 Conditions Precedent to Obligations of Each Party. The obligations of each Party to effect the Merger and otherwise consummate the Contemplated Transactions are subject to the satisfaction or, to the extent permitted by applicable Law, the written waiver by each of the Parties, at or prior to the Closing, of each of the following conditions:

(a) No temporary restraining order, preliminary or permanent injunction or other Order preventing the consummation of the Contemplated Transactions shall have been issued by any court of competent jurisdiction or other Governmental Authority of competent jurisdiction and remain in effect and there shall not be any Law which has the effect of making the consummation of the Contemplated Transactions illegal.

(b) Werewolf shall have obtained the Required Werewolf Stockholder Approval and approval of the Werewolf Stockholder Matters, and Ambros shall have obtained the Required Ambros Stockholder Approval, and each such approval shall remain in full force and effect as of the Closing Date, without amendment, rescission, or modification.

(c) (i) The existing shares of Werewolf Common Stock shall have been continually listed on Nasdaq as of and from the date of this Agreement through the Closing Date and (ii) the shares of Werewolf Common Stock (x) to be issued in the Merger pursuant to this Agreement (and shares of Werewolf Common Stock issuable upon exercise of any Merger Pre-Funded Warrants) and (y) to be issued in the Concurrent PIPE Financing pursuant to the Securities Purchase Agreement (and shares of Werewolf Common Stock underlying issuable upon exercise of any PIPE Pre-Funded Warrants) shall have been approved for listing (subject to official notice of issuance) on Nasdaq.

(d) The Securities Purchase Agreement shall be in full force and effect and not subject to any termination, rescission or material adverse modification, and all conditions to the funding thereunder shall have been satisfied or waived (other than those to be satisfied at Closing) and cash proceeds of not less than $100 million (less applicable expenses) shall have been received by Werewolf, or will be received by Werewolf prior to or substantially simultaneously with the Closing, in connection with the consummation of the transactions contemplated by the Securities Purchase Agreement.

(e) The Registration Statement shall have become effective in accordance with the provisions of the Securities Act, and shall not be subject to any stop order or proceeding seeking a stop order with respect to such Registration Statement that has not been withdrawn.

(f) The Werewolf Charter Amendment shall have been duly filed with the Secretary of State of the State of Delaware.

7.2 Conditions Precedent to Obligations of Ambros. The obligations of Ambros to effect the Merger and otherwise consummate the Contemplated Transactions are subject to the satisfaction or, to the extent permitted by applicable law, the written waiver by Ambros, at or prior to the Closing, of each of the following conditions:

(a) Each of the Werewolf Fundamental Representations shall be true, complete and correct in all material respects on and as of the Closing Date with the same force and effect as if made on and as of such date (except to the extent such representations and warranties are specifically made as of a particular date, in which case such representations and warranties shall be true and correct as of such date). The Werewolf Capitalization Representations shall be true, complete and correct on and as of immediately prior to the Effective Time with the same

force and effect as if made on and as of such date, except, in each case, (x) for such inaccuracies which are de minimis, individually or in the aggregate, or (y) for those representations and warranties which address matters only as of a particular date (which representations and warranties shall have been true and correct, subject to the qualifications as set forth in the preceding clause (x), as of such particular date). The representations and warranties of Werewolf contained in this Agreement (other than the Werewolf Fundamental Representations and the Werewolf Capitalization Representations) shall be true and correct on and as of the Closing Date with the same force and effect as if made on the Closing Date (except to the extent such representations and warranties are specifically made as of a particular date, in which case such representations and warranties shall be true and correct as of such date) except in each case, or in the aggregate, where the failure to be true and correct would not reasonably be expected to have a Werewolf Material Adverse Effect (without giving effect to any references therein to any Werewolf Material Adverse Effect or other materiality qualifications) (it being understood that, for purposes of determining the accuracy of such representations and warranties, any update of or modification to the Werewolf Disclosure Schedule made or purported to have been made after the date of this Agreement shall be disregarded).

(b) Each of Werewolf and Merger Sub shall have performed or complied in all material respects with all covenants and agreements required to be performed or complied with by it under this Agreement at or prior to the Closing Date.

(c) A Werewolf Material Adverse Effect shall not have occurred since the date of this Agreement and be continuing.

(d) Final Werewolf Net Cash determined in accordance with Section 2.8 shall be greater than or equal to $0.

(e) Ambros shall have received the following documents, each of which shall be in full force and effect:

(i) a certificate dated the Closing Date and signed by the chief executive officer or chief financial officer of Werewolf, certifying to the effect that the conditions set forth in Sections 7.2(a), 7.2(b), and 7.2(c) have been satisfied;

(ii) the Werewolf Closing Financial Certificate, a draft of which shall have been provided at least fifteen (15) Business Days prior to the Closing, which certificate shall be accompanied by such supporting documentation, information and calculations as are reasonably requested by Ambros to verify and determine the information contained therein;

(iii) a written resignation, in a form reasonably satisfactory to Ambros, dated as of the Closing Date and effective as of the Effective Time, executed by each of the directors of Werewolf who are not to continue as directors of Werewolf after the Effective Time pursuant to Section 6.10(a)(ii) hereof;

(iv) the deliverable set forth on Section 7.2(e)(iv) of the Werewolf Disclosure Schedule; and

(v) the executed CVR Agreement.

7.3 Conditions Precedent to Obligations of Werewolf and Merger Sub. The obligations of Werewolf and Merger Sub to effect the Merger and otherwise consummate the Contemplated Transactions are subject to the satisfaction or, to the extent permitted by applicable law, the written waiver by Werewolf and Merger Sub, at or prior to the Closing, of each of the following conditions:

(a) Each of the Ambros Fundamental Representations shall be true, complete and correct in all material respects on and as of the Closing Date with the same force and effect as if made on and as of such date (except to the extent such representations and warranties are specifically made as of a particular date, in which case such representations and warranties shall be true and correct as of such date). The Ambros Capitalization Representations shall be true and correct on and as of immediately prior to the Effective Time with the same force and effect as if made on and as of such date, except, in each case, (x) for such inaccuracies which are de minimis, individually or in the aggregate or (y) for those representations and warranties which address matters only as of a particular date (which representations and warranties shall have been true and correct, subject to the qualifications as set forth in the preceding clause (x), as of such particular date). The representations and warranties of Ambros contained in this Agreement (other than the Ambros Fundamental Representations and the Ambros Capitalization Representations) shall be true and correct on and as of the Closing Date with the same force and effect as if made on the Closing Date except (i) in each case, or in the aggregate, where the failure to be so true and correct would not reasonably be expected to have an Ambros Material Adverse Effect (without giving effect to any references therein to any Ambros Material Adverse Effect or other materiality qualifications) or (ii) for those representations and warranties which address matters only as of a particular date (which representations shall have been true and correct, subject to the qualifications as set forth in the preceding clause (i), as of such particular date) (it being understood that, for purposes of determining the accuracy of such representations and warranties, any update of or modification to the Ambros Disclosure Schedule made or purported to have been made after the date of this Agreement shall be disregarded).

(b) Ambros shall have performed and complied in all material respects with all covenants and agreements required to be performed or complied with by it under this Agreement at or prior to the Closing Date.

(c) An Ambros Material Adverse Effect shall not have occurred since the date of this Agreement and be continuing.

(d) Ambros shall have delivered to Werewolf a certificate (the "**Ambros Closing Certificate**"), dated the Closing Date and signed by an executive officer of Ambros, certifying to the effect that (i) the conditions set forth in Sections 7.3(a), 7.3(b) and 7.3(c) have been satisfied and (ii) the information set forth in the Allocation Certificate delivered by Ambros in accordance with Section 6.13 is true and accurate in all respects as of the Closing Date.

(e) The Ambros Lock-Up Agreements shall be in full force and effect as of immediately following the Effective Time.

7.4 Frustration of Closing Conditions. Werewolf and Merger Sub may not rely on the failure of any conditions set forth in Sections 7.1 or 7.3 to be satisfied if the primary cause of such failure was the failure of Werewolf or Merger Sub to perform any of its obligations under this Agreement. Ambros may not rely on the failure of any conditions set forth in Sections 7.1 or 7.2 to be satisfied if a primary cause of such failure was the failure of Ambros to perform any of its obligations under this Agreement.

ARTICLE VIII
TERMINATION

8.1 Termination. This Agreement may be terminated, and the Merger and the Contemplated Transactions may be abandoned at any time prior to the Closing Date, whether before or (subject to the terms hereof) after approval of the Werewolf Stockholder Matters by Werewolf's stockholders, unless otherwise specified below:

(a) by mutual written consent of Werewolf and Ambros;

(b) by either Werewolf or Ambros if the Merger shall not have been consummated by 5:00 p.m. Eastern Time on January 29, 2027 (the "**Outside Date**"); provided, however, that the right to terminate this Agreement under this Section 8.1(b) shall not be available to Werewolf or Ambros if such Party's action or failure to act has been a principal cause of the failure of the Merger to occur on or before the Outside Date and such action or failure to act constitutes a breach of this Agreement (other than a breach by Werewolf of its obligations to maintain its Nasdaq listing under Section 6.8 notwithstanding Werewolf's reasonable best efforts to comply with such obligations);

(c) by either Werewolf or Ambros if a court of competent jurisdiction or other Governmental Authority shall have issued a final and nonappealable Order, or shall have taken any other action, having the effect of permanently restraining, enjoining or otherwise prohibiting the Contemplated Transactions; provided, however, that the right to terminate this Agreement under this Section 8.1(c) shall not be available to Werewolf or Ambros if such Party's action or failure to act has been a principal cause of any such Governmental Authority issuing any such Order or taking any such other action;

(d) by Werewolf if the Required Ambros Stockholder Approval shall not have been obtained in accordance with the timeline set forth in Section 6.2(b); provided, however, that once the Required Ambros Stockholder Approval has been obtained, Werewolf may not terminate this Agreement pursuant to this Section 8.1(d); provided, however, that the right to terminate this Agreement under this Section 8.1(d) shall not be available to Werewolf where the failure to obtain the Required Ambros Stockholder Approval shall have been caused by the action or failure to act of Werewolf and such action or failure to act constitutes a material breach by Werewolf of this Agreement;

(e) by Ambros if (i) the Werewolf Stockholder Meeting (including any adjournments and postponements thereof) shall have been held and completed and Werewolf's stockholders shall have taken a final vote on the Werewolf Stockholder Matters, and (ii) the Werewolf Stockholder Matters shall not have been approved at the Werewolf Stockholder Meeting (or at any adjournment or postponement thereof) by the Required Werewolf Stockholder Approval; provided, however, that the right to terminate this Agreement under this Section 8.1(e) shall not be available to Ambros where the failure to obtain the Required Werewolf Stockholder Approval shall have been caused by the action or failure to act of Ambros and such action or failure to act constitutes a material breach by Ambros of this Agreement;

(f) by Ambros (at any time prior to the approval of the Werewolf Stockholder Matters by the Required Werewolf Stockholder Approval) if a Werewolf Triggering Event shall have occurred;

(g) by Werewolf (at any time prior to the adoption of this Agreement and the approval of the Contemplated Transactions by the Required Ambros Stockholder Approval) if an Ambros Triggering Event shall have occurred;

(h) by Ambros, upon a material breach of any representation, warranty, covenant or agreement set forth in this Agreement by Werewolf or Merger Sub or if any representation or warranty of Werewolf shall have become inaccurate such that the conditions set forth in Section 7.2(a) or Section 7.2(b) would not be satisfied as of the time of such breach or as of the time such representation or warranty shall have become inaccurate; provided that Ambros is not then in material breach of any representation, warranty, covenant or agreement under this Agreement, which breach by Ambros would cause any condition set forth in Section 7.3(a) or Section 7.3(b) not to be satisfied; provided, further, that if such inaccuracy in Werewolf's representations and warranties or breach by Werewolf or Merger Sub is curable by the Outside Date by Werewolf or Merger Sub, as applicable, then this Agreement shall not terminate pursuant to this Section 8.1(h) as a result of such particular breach or inaccuracy until the earlier of (A) the Outside Date and (B) the expiration of a 30-day period commencing upon delivery of written notice from Ambros to Werewolf of such breach or inaccuracy and its intention to terminate pursuant to this Section 8.1(h) (it being understood that this Agreement shall not terminate pursuant to this Section 8.1(h) as a result of such particular breach or inaccuracy if such breach by Werewolf or Merger Sub is cured prior to such termination becoming effective);

(i) by Werewolf, upon a material breach of any representation, warranty, covenant or agreement set forth in this Agreement by Ambros, or if any representation or warranty of Ambros shall have become inaccurate, in either case, such that the conditions set forth in Section 7.3(a) or Section 7.3(b) would not be satisfied as of the time of such breach or as of the time such representation or warranty shall have become inaccurate; provided that neither Werewolf nor Merger Sub is then in material breach of any representation, warranty, covenant or agreement under this Agreement, which breach by Werewolf would cause any condition set forth in Section 7.2(a) or Section 7.2(b) not to be satisfied; provided, further, that if such inaccuracy in Ambros's representations and warranties or breach by Ambros is curable by the Outside Date by Ambros, then this Agreement shall not terminate pursuant to this Section 8.1(i) as a result of such particular breach or inaccuracy until the earlier

of (A) the Outside Date and (B) the expiration of a 30-day period commencing upon delivery of written notice from Werewolf to Ambros of such breach or inaccuracy and its intention to terminate pursuant to this Section 8.1(i) (it being understood that this Agreement shall not terminate pursuant to this Section 8.1(i) as a result of such particular breach or inaccuracy if such breach by Ambros is cured prior to such termination becoming effective);

(j) by Werewolf or Ambros if the Registration Statement shall not have been filed with the SEC by Werewolf by the date that is forty (40) days following the date hereof; provided, however, that the right to terminate this Agreement under this Section 8.1(j) shall not be available to either Party where the failure of the Registration Statement to have been filed with the SEC by such date shall have been caused by the action or failure to act of such Party and such action or failure to act constitutes a material breach by such Party of Section 6.1(a); and provided, further, that no Party shall terminate this Agreement pursuant to this Section 8.1(j) after the date on which the Registration Statement shall have been filed with the SEC in accordance with the terms and conditions of this Agreement;

(k) by Ambros (at any time prior to obtaining the Required Ambros Stockholder Approval) and following compliance with all of the requirements set forth in the proviso to this Section 8.1(k), concurrently with Ambros entering into a definitive agreement for a Superior Offer (a "**Permitted Alternative Agreement**") and after having paid or caused to be paid to Werewolf the Ambros Termination Fee pursuant to Section 8.3(b) (if Werewolf has provided written payment instructions therefor, and if not such amount shall have been paid as promptly as practicable thereafter); provided, however, that Ambros shall have complied with its obligations under Section 5.4 and Section 6.2 (including with respect to delivery of all required written notices); or

(l) by Ambros, (i) if the approval of the listing of shares of Werewolf Common Stock (and shares of Werewolf Common Stock issuable upon exercise of the Pre-Funded Warrants) on Nasdaq shall (a) have been denied by Nasdaq or (b) not have been obtained and the Ambros Board has determined, in good faith and after consultation with its outside counsel, that such approval is not reasonably likely to be obtained or (ii) if Werewolf Common Stock ceases to be listed on Nasdaq; provided, however, that the right to terminate this Agreement under this Section 8.1(l) shall not be available to Ambros if Ambros' action or failure to act has been a principal cause of the failure of such approval being obtained and such action or failure to act constitutes a material breach of this Agreement.

The Party desiring to terminate this Agreement pursuant to this Section 8.1 (other than pursuant to Section 8.1(a)) shall give a notice of such termination to the other Party specifying the provisions hereof pursuant to which such termination is made and the basis therefor described in reasonable detail.

8.2 Effect of Termination. In the event of the termination of this Agreement as provided in Section 8.1, this Agreement shall be of no further force or effect; provided, however, that (a) this Section 8.2, Section 8.3, and Article IX shall survive the termination of this Agreement and shall remain in full force and effect and (b) the termination of this Agreement and the provisions of Section 8.3 shall not relieve any Party of any liability for Fraud or for any willful and material breach of any representation, warranty, covenant, obligation or other provision contained in this Agreement.

8.3 Expenses; Termination Fees.

(a) Except as set forth in this Section 8.3, all fees and expenses incurred in connection with this Agreement and the Contemplated Transactions shall be paid by the Party incurring such expenses, whether or not the Contemplated Transactions are consummated; provided, however, that Werewolf and Ambros shall share equally all fees and expenses incurred in relation to the printing and filing with the SEC of any filings with the SEC, including without limitation the Registration Statement (including any financial statements and exhibits) and any amendments or supplements thereto, and paid to a financial printer or the SEC with respect to filing and registration fees.

(b) If this Agreement is terminated (i) by Werewolf due to an Ambros Board Adverse Recommendation Change pursuant to Section 8.1(g) or (ii) by Ambros pursuant to Section 8.1(k), then Ambros shall pay or cause to be paid to Werewolf a non-refundable fee in an amount equal to $20,000,000, which shall be paid, with respect to clause (i) of this sentence, within two (2) Business Days of delivering notice of termination in accordance therewith, and with respect to clause (ii) of this sentence, concurrently with the termination of this Agreement (the "**Ambros Termination Fee**") by wire transfer of immediately available funds to an account designated by Werewolf. If (A) this Agreement is terminated pursuant to Section 8.1(b), Section 8.1(d) or Section 8.1(i), (B) an Acquisition Proposal with respect to Ambros shall have been publicly announced, disclosed or otherwise communicated to Ambros or the Ambros Board at any time after the date of this Agreement but prior to the termination of this Agreement (which shall not have been withdrawn) and (C) within twelve (12) months after the date of such termination, Ambros enters into a definitive agreement with respect to, or consummates, an Acquisition Transaction, then Ambros shall pay the Ambros Termination Fee upon the earlier of entering into such definitive agreement or the consummation of such Acquisition Transaction. The Ambros Termination Fee is non-refundable and shall not be credited against any other payment.

(c) If this Agreement is terminated by Ambros pursuant to Section 8.1(f) , then Werewolf shall , within two (2) Business Days of delivering notice of termination in accordance therewith, pay Ambros the Werewolf Termination Fee. If (A) this Agreement is terminated pursuant to Section 8.1(b), Section 8.1(e) or Section 8.1(h), (B) an Acquisition Proposal with respect to Werewolf shall have been publicly announced, disclosed or otherwise communicated to Werewolf or the Werewolf Board at any time after the date of this Agreement but prior to the termination of this Agreement (which shall not have been withdrawn) and (C) within twelve (12) months after the date of such termination, Werewolf enters into a definitive agreement with respect to, or consummates, an Acquisition Transaction, then Werewolf shall pay Ambros the Werewolf Termination Fee upon the earlier of entering into such definitive agreement or the consummation of such Acquisition Transaction. As used herein, the "**Werewolf Termination Fee**" means a non-refundable fee in an amount equal to $1,900,000 (together with the Ambros Termination Fee, the "**Termination Fees**"), payable by wire transfer of immediately available funds to an account designated by Ambros. The Werewolf Termination Fee is non-refundable and shall not be credited against any other payment.

(d) If this Agreement is terminated by either Party pursuant to Section 8.1(j) under the circumstances described in Section 8.3(d) of the Ambros Disclosure Schedule, then Ambros shall reimburse Werewolf for up to $2,000,000 of reasonable and documented out-of-pocket costs and expenses (including reasonable and documented fees and disbursements of counsel) incurred in connection with the Contemplated Transactions by Werewolf during the period from and after the date hereof until such termination, which payment therefor shall be made by Ambros within ten (10) Business Days following the receipt of written notice of request therefor from Werewolf (attaching the documentation of such costs and expenses) following such termination in accordance therewith.

(e) If either Party fails to pay when due the Termination Fee owed by it under this Section 8.3, then (i) such Party shall further reimburse the other Party for any additional reasonable and documented out-of-pocket costs and expenses (including reasonable and documented fees and disbursements of counsel) incurred in connection with the collection of such overdue amount and the enforcement by such Party of its rights under this Section 8.3 and (ii) the defaulting Party shall pay to the other Party interest on such overdue amount (for the period commencing as of the date such overdue amount was originally required to be paid and ending on the date such overdue amount is actually paid to the other Party in full) at a rate per annum equal to the United States "prime rate" as published in the Wall Street Journal or any successor thereto in effect on the date such overdue amount was originally required to be paid.

(f) The Parties agree that, subject to Section 8.2, the payment of the Termination Fee set forth in this Section 8.3 shall be the sole and exclusive remedy of a Party following a termination of this Agreement by the other Party, it being understood that in no event shall the Party required to pay the individual fees or damages payable pursuant to this Section 8.3 be required to pay on more than one occasion. Subject to Section 8.2, following the termination of this Agreement under the circumstances described in this Section 8.3 and the payment of the fees set forth in this Section 8.3, (i) each Party shall have no further liability to the other Party in connection with or arising out of this Agreement or the termination thereof or the failure of the Contemplated Transactions to be consummated, (ii) no other Party or their respective Affiliates shall be entitled to bring or maintain any other claim, action or proceeding against the terminating Party or obtain any recovery, judgment or damages of any kind against the terminating Party (or any partner, member, stockholder, director, officer, employee, Subsidiary, affiliate, agent or other representative of the terminating Party) in connection with or arising out of this Agreement or the termination thereof or the failure of the Contemplated Transactions to be consummated and (iii) all other Parties and their respective Affiliates shall be precluded from any other remedy against the terminating Party and its Affiliates, at law or in equity or otherwise, in connection with or arising out of this Agreement or the termination thereof, any breach by such Party giving rise to such termination or the failure of the Contemplated Transactions to be consummated; provided, however, that nothing in this Section 8.3(f) shall limit the rights of any Party under Section 9.10.

(g) Each of the Parties acknowledges that (i) the agreements contained in this Section 8.3 are an integral part of the Contemplated Transactions, (ii) the Ambros Termination Fee represents a good faith, fair estimate of the damages that Werewolf and its Affiliates would suffer upon termination of the Agreement, (iii) the Werewolf Termination Fee represents a good faith, fair estimate of the damages that Ambros and its Affiliates would suffer upon termination of the Agreement, (iv) without these agreements, the Parties would not enter into this Agreement and (v) any amount payable pursuant to this Section 8.3 is not a penalty, but rather is liquidated damages which shall not require Werewolf or Ambros or any other Person to prove actual damages.

ARTICLE IX
GENERAL PROVISIONS

9.1 Non-Survival of Representations and Warranties. The representations and warranties and those covenants that by their terms terminate at the Effective Time of Ambros, Merger Sub and Werewolf contained in this Agreement or any certificate or instrument delivered pursuant to this Agreement shall terminate at the Effective Time, and only the covenants that by their terms survive the Effective Time and this Article IX shall survive the Effective Time.

9.2 Amendment. This Agreement may be amended with the approval of the respective Ambros Board, the Werewolf Board, and the board of directors of Merger Sub at any time (whether before or after obtaining the Required Ambros Stockholder Approval and the Required Werewolf Stockholder Approval); provided, however, that after any such approval of this Agreement by a Party's stockholders or members (including the Required Ambros Stockholder Approval and the Required Werewolf Stockholder Approval), no amendment shall be made which by Law requires further approval of such stockholders or members without the further approval of such stockholders or members. Prior to the Closing, this Agreement may not be amended except by an instrument in writing signed on behalf of each of Ambros, Merger Sub and Werewolf.

9.3 Waiver.

(a) Any provision hereof applicable to a Party may be waived by the waiving Party solely on such Party's own behalf, without the consent of any other Party. No failure on the part of any Party to exercise any power, right, privilege or remedy under this Agreement, and no delay on the part of any Party in exercising any power, right, privilege or remedy under this Agreement, shall operate as a waiver of such power, right, privilege or remedy; and no single or partial exercise of any such power, right, privilege or remedy shall preclude any other or further exercise thereof or of any other power, right, privilege or remedy.

(b) No Party shall be deemed to have waived any claim arising out of this Agreement, or any power, right, privilege or remedy under this Agreement, unless the waiver of such claim, power, right, privilege or remedy is expressly set forth in a written instrument duly executed and delivered on behalf of such Party and any such waiver shall not be applicable or have any effect except in the specific instance in which it is given.

9.4 Entire Agreement; Counterparts; Exchanges by Electronic Transmission or Facsimile. This Agreement and the other schedules, exhibits, certificates, instruments and agreements referred to in this Agreement constitute the entire agreement and supersede all prior agreements and

understandings, both written and oral, among or between any of the Parties with respect to the subject matter hereof and thereof; provided, however, that the Confidentiality Agreement shall not be superseded and shall remain in full force and effect in accordance with its terms. This Agreement may be executed in several counterparts, each of which shall be deemed an original and all of which shall constitute one and the same instrument. The exchange of a fully executed Agreement (in counterparts or otherwise) by all Parties by facsimile or electronic transmission in PDF format shall be sufficient to bind the Parties to the terms and conditions of this Agreement.

9.5 Applicable Law; Jurisdiction. This Agreement shall be governed by, and construed in accordance with, the Laws of the State of Delaware, regardless of the Laws that might otherwise govern under applicable principles of conflicts of laws. In any action or proceeding between any of the Parties arising out of or relating to this Agreement or any of the Contemplated Transactions, each of the Parties: irrevocably and unconditionally (a) consents and submits to the exclusive jurisdiction and venue of the Court of Chancery of the State of Delaware or, to the extent such court does not have subject matter jurisdiction, the Superior Court of the State of Delaware or the United States District Court for the District of Delaware, (b) agrees that all claims in respect of such action or proceeding shall be heard and determined exclusively in accordance with clause (a) of this Section 9.5, (c) waives any objection to laying venue in any such action or proceeding in such courts, (d) waives any objection that such courts are an inconvenient forum or do not have jurisdiction over any Party, (e) agrees that service of process upon such Party in any such action or proceeding shall be effective if notice is given in accordance with Section 9.7 of this Agreement and (f) irrevocably and unconditionally waives the right to trial by jury.

9.6 Assignability. This Agreement shall be binding upon, and shall be enforceable by and inure solely to the benefit of, the Parties and their respective successors and permitted assigns; provided, however, that neither this Agreement nor any of a Party's rights or obligations hereunder may be assigned or delegated by such Party without the prior written consent of the other Parties, and any attempted assignment or delegation of this Agreement or any of such rights or obligations by such Party without the other Party's prior written consent shall be void and of no effect.

9.7 Notices. All notices and other communications hereunder shall be in writing and shall be deemed to have been duly delivered and received hereunder (a) one (1) Business Day after being sent for next Business Day delivery, fees prepaid, via a reputable international overnight courier service, (b) upon delivery in the case of delivery by hand or (c) on the date delivered in the place of delivery if sent by email or facsimile (with a written or electronic confirmation of delivery) prior to 6:00 p.m. New York City time, otherwise on the next succeeding Business Day, in each case to the intended recipient as set forth below:

9.8 Cooperation. Each Party agrees to cooperate fully with the other Party and to execute and deliver such further documents, certificates, agreements and instruments and to take such other actions as may be reasonably requested by the other Party to evidence or reflect the Contemplated Transactions and to carry out the intent and purposes of this Agreement.

9.9 Severability. Any term or provision of this Agreement that is invalid or unenforceable in any situation in any jurisdiction shall not affect the validity or enforceability of the remaining terms and provisions of this Agreement or the validity or enforceability of the offending term or

provision in any other situation or in any other jurisdiction. If a final judgment of a court of competent jurisdiction declares that any term or provision of this Agreement is invalid or unenforceable, the Parties agree that the court making such determination shall have the power to limit such term or provision, to delete specific words or phrases or to replace such term or provision with a term or provision that is valid and enforceable and that comes closest to expressing the intention of the invalid or unenforceable term or provision, and this Agreement shall be valid and enforceable as so modified. In the event such court does not exercise the power granted to it in the prior sentence, the Parties agree to replace such invalid or unenforceable term or provision with a valid and enforceable term or provision that will achieve, to the extent possible, the economic, business and other purposes of such invalid or unenforceable term or provision.

9.10 Other Remedies; Specific Performance. Except as otherwise provided herein, any and all remedies herein expressly conferred upon a Party will be deemed cumulative with and not exclusive of any other remedy conferred hereby, or by law or equity upon such Party, and the exercise by a Party of any one remedy will not preclude the exercise of any other remedy. The Parties agree that irreparable damage for which monetary damages, even if available, would not be an adequate remedy, would occur in the event that any of the provisions of this Agreement were not performed in accordance with their specific terms (including failing to take such actions as are required of it hereunder to consummate this Agreement) or were otherwise breached. It is accordingly agreed that the Parties shall be entitled to an injunction or injunctions to prevent breaches of this Agreement and to enforce specifically the terms and provisions hereof in any court of the United States or any state having jurisdiction, this being in addition to any other remedy to which they are entitled at law or in equity, and each of the Parties waives any bond, surety or other security that might be required of any other Party with respect thereto. Each of the Parties further agrees that it will not oppose the granting of an injunction, specific performance or other equitable relief on the basis that any other Party has an adequate remedy at law or that any award of specific performance is not an appropriate remedy for any reason at law or in equity. For avoidance of doubt, the right to specific performance hereunder shall include the right of (i) a Party to cause the Merger to be consummated on the terms and subject to the conditions set forth in this Agreement and (ii) Ambros to enforce Werewolf's obligations under Section 6.3(e) notwithstanding the occurrence of a Werewolf Board Adverse Recommendation Change.

9.11 No Third-Party Beneficiaries. Nothing in this Agreement, express or implied, is intended to or shall confer upon any Person (other than the Parties and the D&O Indemnified Parties to the extent of their respective rights pursuant to Section 6.6) any right, benefit or remedy of any nature whatsoever under or by reason of this Agreement.

CONTINGENT VALUE RIGHTS AGREEMENT

THIS CONTINGENT VALUE RIGHTS AGREEMENT, dated as of [•], 202[•] (this "**Agreement**"), is entered into by and among WEREWOLF THERAPEUTICS, INC., a Delaware corporation ("**Werewolf**"), and [•] (the "**Rights Agent**" and, collectively with Werewolf, the "**Parties**").

RECITALS

WHEREAS, Ambros Therapeutics, Inc., a Delaware corporation ("**Ambros**"), Werewolf, and Wave Atlantis Merger Sub, Inc., a Delaware corporation and a direct, wholly owned subsidiary of Werewolf ("**Merger Sub**") have entered into an Agreement and Plan of Merger dated as of August 21, 2026 (as it may be amended or supplemented from time to time pursuant to the terms thereof, the "**Merger Agreement**"), pursuant to which Merger Sub will merge with and into Ambros (the "**Merger**"), with Ambros surviving the Merger as a wholly owned subsidiary of Werewolf; and

WHEREAS, in accordance with the Merger Agreement, Werewolf will issue and distribute to each of the holders of Werewolf Common Stock of record as of the close of business on the last Business Day prior to the Effective Time, by way of a dividend or distribution consistent with the Merger Agreement, one CVR (as defined below) for each share of Werewolf Common Stock held by such holder, with each CVR representing the right to receive non-transferable contingent cash payments in respect of each Legacy Asset Agreement (as defined below) as hereinafter described.

NOW, THEREFORE, in consideration of the foregoing and the consummation of the transactions referred to above, the Parties agree, for the proportionate benefit of all Holders (as defined below), as follows:

1. DEFINITIONS; CERTAIN RULES OF CONSTRUCTION

1.1 Definitions. Capitalized terms used but not otherwise defined herein will have the meanings ascribed to them in the Merger Agreement, unless expressly set forth otherwise herein. As used in this Agreement, the following terms will have the following meanings:

"**Board of Directors**" means the board of directors of Werewolf following consummation of the transactions contemplated by the Merger Agreement.

"**Board Resolution**" means a copy of a resolution certified by the secretary or an assistant secretary of Werewolf to have been duly adopted by the Board of Directors and to be in full force and effect on the date of such certification, and delivered to the Rights Agent.

"**CVR Payment Period**" means an annual period (or portion thereof) beginning on the Effective Time and ending on December 31 of any given calendar year during the CVR Period; *provided*, that if the last CVR Payment Period would end subsequent to the expiration of the CVR Period, such CVR Payment Period will end on the Expiration Date.

"**CVR Payment Amount**" means an amount equal to one hundred percent (100%) of the Net Proceeds actually received, without duplication, in respect of any Legacy Asset pursuant to any Legacy Asset Agreement by any Payment Obligor from or on behalf of any Legacy Asset Counterparty.

"**CVR Payment Date**" means, with respect to any CVR Payment Period, no later than thirty (30) days following expiration of such CVR Payment Period; provided that if the aggregate Net Proceeds for such CVR Payment Period (together with any Net Proceeds carried forward from prior CVR Payment Periods pursuant to the definition of "Net Proceeds") is less than $1,000,000, no CVR Payment Amount shall be due and payable with respect to such CVR Payment Period, and instead such Net Proceeds shall be carried forward and added to the Net Proceeds for the subsequent CVR Payment Period(s) until (i) the aggregate Net Proceeds (after giving effect to all such carried-forward amounts) equal or exceed $1,000,000 or (ii) the last CVR Payment Period of the CVR Period, at which point the CVR Payment Date shall occur no later than thirty (30) days following the end of the CVR Period regardless of whether such $1,000,000 threshold has been met.

"**CVR Period**" means the period beginning at the Effective Time and ending on the Expiration Date.

"**CVRs**" means the right to receive contingent cash payments with respect to a Legacy Asset Agreement pursuant to this Agreement and the Merger Agreement.

"**Disposition Period**" means the period beginning at the Effective Time and ending on the date that is twelve (12) months following the Effective Time.

"**DTC**" means The Depository Trust Company or any successor thereto.

"**Expiration Date**" means [•][1].

"**Gross Proceeds**" means, without duplication, for any CVR Payment Period, the sum of all Cash and Cash Equivalents actually paid to the relevant Payment Obligor or received by any Payment Obligor under the Legacy Asset Agreement(s), in each case, solely to the extent attributable to one or more Legacy Asset(s); *provided that* the following shall be excluded from Gross Proceeds: (a) any amount paid by or on behalf of a Legacy Asset Counterparty in respect of goods or services, including for the conduct of research, development or manufacturing activities, amounts paid to purchase any goods, or amounts to reimburse or pay third parties for the cost of goods or services, including research, development, clinical, regulatory, commercialization, patent or manufacturing activities being conducted by a third party on behalf of Werewolf, or any other Affiliate of Werewolf; (b) any amounts paid by or on behalf of a Legacy Asset Counterparty for payment or reimbursement of patent prosecution, defense, enforcement and maintenance and other related expenses; (c) any consideration received by a Payment Obligor under a Legacy Asset Agreement after the Expiration Date; (d) any benefits, rights or value received pursuant to a Legacy Asset Agreement that are allocable or attributable to a right or asset other than a Legacy Asset that is disposed under a Legacy Asset Agreement; (e) profit-share, revenue-share, or similar participation payments; and (f) other ancillary, indirect or incidental benefits, rights or value received in connection with or arising out of a Legacy Asset Agreement. For the avoidance of doubt, equity securities shall constitute Gross Proceeds only to the extent such equity securities are listed and freely tradeable on a national securities exchange as of the date of receipt thereof by the relevant Payment Obligor, in which case the value of such equity securities shall be determined based on the volume-weighted average closing price of such equity securities on such national securities exchange for the five (5) trading days ending on the trading day immediately prior to the date of receipt thereof; and no other non-cash property or consideration (including debt securities, equity securities that are not so listed and freely tradeable, or other in-kind consideration) received by any Payment Obligor shall constitute Gross Proceeds at any time. For clarity, Gross Proceeds shall include, without duplication, all amounts received by Werewolf or any of its Subsidiaries prior to the Effective Time pursuant to any Legacy Asset Transaction consummated prior to the Closing, and all such amounts shall be deemed to have been received in the first CVR Payment Period of the CVR Period; *provided*, however, that all of such amounts should be excluded from Gross Proceeds if any value was ascribed to such amounts in reaching a determination (including but not limited to the calculation of Net Cash pursuant to Section 2.8 of the Merger Agreement) as to the consideration to be payable pursuant to the Merger Agreement.

"**Holder**" means a Person in whose name a CVR is registered in the CVR Register at the applicable time.

"**Legacy Asset**" means each of Werewolf's conditionally activated INDUKINE programs referred to as WTX-124 and WTX-330, including any and all and related clinical and preclinical assets (e.g., all molecules and sequences identified in the programs), in each case to the extent owned by Werewolf as of the date of the Merger Agreement and still owned by Werewolf as of the Closing.

"**Legacy Asset Agreement**" means any agreement or series of agreements entered into during the period beginning on the date of the Merger Agreement and ending upon the expiration of the Disposition Period between, on the one hand, Werewolf, Ambros or any other Affiliate of Werewolf, and, on the other hand, any other Person, under which Werewolf, Ambros or any other Affiliate of Werewolf consummates a Legacy Asset Transaction.

"**Legacy Asset Consultant**" means the consultant engaged pursuant to Section 2.5(c) of the Merger Agreement.

"**Legacy Asset Counterparty**" means any Person that is party to any Legacy Asset Agreement, other than Werewolf, Ambros or any other Affiliate of Werewolf.

"**Legacy Asset Transaction**" means any sale, license, sublicense, transfer, assignment, disposition, divestiture, out-license, or other monetization of any or all of the Legacy Assets.

"**Net Proceeds**" means, for each CVR Payment Period during the CVR Period, the aggregate Gross Proceeds attributable to all Legacy Assets for such CVR Payment Period minus the aggregate Permitted Deductions for such

[1] Note to Draft: To be the date that is three (3) years from the date of Closing.

CVR Payment Period, in each case as calculated in a manner consistent with GAAP. Net Proceeds shall be calculated on an aggregate basis across all Legacy Assets (and not on a Legacy Asset-by-Legacy Asset basis), such that Permitted Deductions attributable to any Legacy Asset may be applied against Gross Proceeds attributable to any other Legacy Asset; provided that any Permitted Deductions in excess of aggregate Gross Proceeds for any CVR Payment Period shall be carried forward and applied against aggregate Gross Proceeds in subsequent CVR Payment Periods. For clarity, if any of the applicable Gross Proceeds or Permitted Deductions are not in U.S. dollars, currency conversion to U.S. dollars shall be made by using the exchange rate published by Bloomberg on the date of receipt of such Gross Proceeds or date of payment of relevant Permitted Deductions, as applicable.

"**Officer's Certificate**" means a certificate signed by the chief executive officer, president, chief financial officer, any vice president, the controller, the treasurer or the secretary, in each case of Werewolf, in his or her capacity as such an officer, and delivered to the Rights Agent.

"**Payment Obligor**" means Werewolf or any Affiliate of Werewolf, or any of their respective successors (including any Assignee) or Affiliates.

"**Permitted Deductions**" means the sum of, without duplication of any deductions listed below or exclusions from Gross Proceeds, the following costs or expenses or amounts with respect to a particular CVR Payment Period.

(a) any applicable Taxes (including but not limited to any applicable value added, transfer, stamp, withholding or sales taxes) imposed on Gross Proceeds and payable by Werewolf or any of its Affiliates (regardless of whether the due date for such Taxes arises during or after the Disposition Period) and any income or other Taxes payable by Werewolf or any of its Affiliates that would not have been incurred by Werewolf or its Affiliates but for the Gross Proceeds having been received or accrued by Werewolf or its Affiliates; provided that for purposes of calculating income Taxes incurred by Werewolf or its Affiliates in respect of the Gross Proceeds, any such income Taxes shall be computed (i) assuming that the only items of gross income of Werewolf or its Affiliates are the applicable items of Gross Proceeds (for the avoidance of doubt, assuming that such items of Gross Proceeds are includable in the taxable income of Werewolf or its Affiliates, as applicable, no later than the taxable year that includes the corresponding CVR Payment Amount), (ii) assuming that the only items of expenses, losses, credits or other deductions of Werewolf or its Affiliates are (1) those items of expense, loss, credit and deduction (including net operating loss carryforwards or other Tax attributes) of Werewolf or its Affiliates existing as of immediately prior to the Effective Time for U.S. federal income tax purposes and applicable state and local income tax purposes that are actually usable by Werewolf or its Affiliates, as applicable, in the tax year of receipt of the applicable items of Gross Proceeds, to the extent such net operating loss carryforwards and other items are permitted by applicable Law to be, and are, taken as a deduction in such taxable year (for the sake of clarity, (A) taking into account any limits on the usability of such attributes, including under Section 382 of the Code as reasonably determined by a nationally recognized tax advisor, including, but not limited to, as a result of the transactions contemplated by the Merger Agreement and (B) excluding any net operating losses or other Tax attributes generated by (x) Werewolf or its Affiliates after the Effective Time, including by reason of any acquisition after the Closing, or (y) Ambros, the Surviving Corporation or any of their respective Subsidiaries before, on or after the Effective Time) and (2) those items of expense, loss, credit and deduction of Werewolf or its Affiliates that arise from any Permitted Deduction, (iii) all such items of Gross Proceeds are taxed in the hands of Werewolf or its Affiliates, as applicable, at the highest applicable marginal income or other similar U.S. federal, state, local and non-U.S. tax rate applicable to Werewolf and its Affiliates (as applicable) and (iv) without regard to whether any income Taxes are actually paid or payable by Werewolf or any of its Affiliates as a result of joining in the filing of any consolidated, combined, unitary or similar Tax Return that includes Ambros, the Surviving Corporation or any of their respective Subsidiaries (for the avoidance of doubt, to the extent that a Tax attribute of Ambros or any of its Subsidiaries is used by the group to reduce a tax payable, Werewolf and its Affiliates shall be deemed to have paid that Tax liability, and any amounts computed pursuant to this clause (a) shall be deemed to have been paid or payable and remitted by a Payment Obligor in the CVR Payment Period in which the related Gross Proceeds are included in Gross Proceeds); provided, further that, with respect to any Legacy Asset Transaction consummated prior to the Effective Time, including any such Legacy Asset Transaction consummated on the Closing Date but prior to the Effective Time, each amount in respect of Taxes described in this clause (a) that is attributable to proceeds included in Gross Proceeds shall, to the extent not taken into account in the determination of Final Werewolf

Net Cash, be deemed to have been paid or remitted by a Payment Obligor and shall constitute a Permitted Deduction for the first CVR Payment Period (for this purpose, an amount shall be treated as having been taken into account in Final Werewolf Net Cash only to the extent it resulted in a dollar-for-dollar reduction in Final Werewolf Net Cash, whether through a reduction of Werewolf's Cash and Cash Equivalents or as a separate deduction, reserve, accrual, funding amount, holdback, offset or other adjustment in the calculation of Final Werewolf Net Cash);

(b) any documented internal or out-of-pocket costs and expenses actually paid by Werewolf or any of its Affiliates reasonably allocable to one or more Legacy Asset(s), including any losses paid or payable by Werewolf or any of its Affiliates arising out of any third-party claims, demands, actions or other proceedings relating to or in connection with any Legacy Asset Transaction, including indemnification obligations of Werewolf or any of its Affiliates set forth in any Legacy Asset Agreement, technology transfer costs, litigation costs, contractual expenses or any costs in respect of head licenses for sublicensed technology and the development or prosecution, maintenance or enforcement by Werewolf or any of its Subsidiaries of intellectual property rights but excluding any costs related to a breach of this Agreement, including costs incurred in litigation in respect of the same; provided that internal costs for a particular activity shall only include the direct personnel and other incremental costs actually paid by Werewolf or its Affiliates in performing such activity under such Legacy Asset Agreement, and shall exclude (i) all general and administrative expenses, corporate overhead, shared services costs and any indirect or allocated costs (including finance, executive management, legal, human resources, IT, facilities, insurance and similar corporate functions), (ii) depreciation, amortization and other non-cash expenses, (iii) any recovery or allocation of capital expenditures or capitalized costs; *provided*, that, as determined in accordance with the Wind-Down Expense Determination Procedures, any Wind-Down Estimated Expenses that will no longer be incurred as a direct result of such disposition shall be added back in the calculation of Net Proceeds;

(c) any documented internal and out-of-pocket costs and expenses actually paid by Werewolf or any of its Affiliates in connection with business development related efforts with respect to the Legacy Asset(s), including any brokerage fee, finder's fee, opinion fee, success fee, transaction fee, legal costs, service fee or other fee, commission or expense owed to any broker, finder, investment bank, auditor, accountant, counsel, advisor or other third party in relation thereto (but excluding any costs or expenses previously deducted from Gross Proceeds), in each case as incurred by or on behalf of, or approved in advance by, the Legacy Asset Consultant;

(d) any documented expenses actually paid by Werewolf or any of its Affiliates in maintaining, enforcing, defending and filing patents covering the Legacy Assets until the expiration of the CVR Period, or to preserve or ready the Legacy Assets for disposition, including costs of maintaining the Legacy Assets, master cell banks, regulatory filings and intellectual property in existence as of the Closing Date;

(f) any Costs or Liabilities incurred by Werewolf or any of its Affiliates arising out of any third-party claims, demands, actions, or other proceedings relating to or in connection with any Legacy Asset or Legacy Asset Agreement;

(f) any documented fees and expenses of the Rights Agent and the Legacy Asset Consultant; and

(g) any other documented out-of-pocket costs incurred by or on behalf of, or approved in advance by, the Legacy Asset Consultant.

"**Permitted Transfer**" means a transfer of CVRs (a) on death of a Holder by will or intestacy; (b) by instrument to an inter vivos or testamentary trust in which the CVRs are to be passed to beneficiaries upon the death of the trustee; (c) pursuant to a court order; (d) made by operation of law (including a consolidation or merger) or without consideration in connection with the dissolution, liquidation or termination of any corporation, limited liability company, partnership or other entity; (e) in the case of CVRs held in nominee form, from a nominee to the applicable beneficial owner (through an intermediary if applicable) or from a nominee to another nominee for the same beneficial owner, to the extent allowable by the Rights Agent; (f) a transfer from a participant's account in a tax-qualified employee benefit plan to the participant or to such participant's account in a different tax-qualified employee benefit plan or to a tax-qualified individual retirement account for the benefit of such participant; or (g) to Werewolf for any or no consideration.

"**Requisite Holders**" means the Holders holding not less than ten percent (10%) of the then-outstanding CVRs.

"**Rights Agent**" means the Rights Agent named in the first paragraph of this Agreement, until a successor Rights Agent will have become such pursuant to the applicable provisions of this Agreement, and thereafter "Rights Agent" will mean such successor Rights Agent.

"**Wind-Down Expense Determination Procedures**" means, following any disposition of any Legacy Asset, a determination mutually agreed in good faith by Werewolf and the Legacy Asset Consultant that a Wind-Down Estimated Expense will no longer be incurred as a direct result of the wind-down of such Legacy Asset. In the event there is a dispute, Werewolf and the Legacy Asset Consultant shall cooperate in good faith to resolve such dispute as promptly as practicable, and any such resolution shall be final, conclusive and binding for all purposes hereunder. In the event the Werewolf and the Legacy Asset Consultant are unable to resolve any such dispute within 30 days of such disposition, or such longer period as Werewolf and the Legacy Asset Consultant shall mutually agree in writing, such dispute shall be resolved in accordance with the procedures set forth in Section 2.8(b) through Section 2.8(e) of the Merger Agreement, *mutatis mutandis,* and shall become final, conclusive and binding for all purposes hereunder in accordance with such procedures.

1.2 Rules of Construction. Except as otherwise explicitly specified to the contrary, (a) references to a Section means a Section of this Agreement unless another agreement is specified, (b) the word "including" (in its various forms) means "including without limitation," (c) references to a particular statute or regulation include all rules and regulations thereunder and any predecessor or successor statute, rules or regulation, in each case as amended or otherwise modified from time to time, (d) words in the singular or plural form include the plural and singular form, respectively, (e) references to a particular Person include such Person's successors and assigns to the extent not prohibited by this Agreement, (f) all references to dollars or "$" refer to United States dollars and (g) the word "or" shall not be exclusive (i.e., "or" shall be deemed to mean "and/or") unless the subjects of the conjunction are mutually exclusive. For clarity, the Parties agree that the phrase "adverse" when used in this Agreement with respect to the Holders includes any amendment or other action, as applicable, that does or would be reasonably expected to reduce, eliminate, or delay (y) any payment to the Holders under this Agreement by more than de minimis amounts, or (z) any payment to Werewolf or its successors or their Subsidiaries under any Legacy Asset Agreement that would constitute a CVR Payment Amount by more than de minimis amounts.

2. CONTINGENT VALUE RIGHTS

2.1 CVRs; Appointment of Rights Agent.

(a) As provided in the Merger Agreement, at the Effective Time, Werewolf shall issue and distribute, by way of a dividend or distribution consistent with the Merger Agreement , one CVR for each share of Werewolf Common Stock held of record as of the close of business on the last Business Day prior to the Effective Time (less applicable withholding Taxes). Each CVR represents the contingent right of a Holder to receive the CVR Payment Amount with respect to any Legacy Asset Agreement, divided by the number of then-outstanding CVRs pursuant to this Agreement, to be paid in accordance with this Agreement. The initial Holders will be determined in accordance with the Merger Agreement.

(b) Werewolf hereby appoints the Rights Agent to act as rights agent for Werewolf as contemplated hereby in accordance with the express terms and conditions set forth in this Agreement (and no implied terms or conditions), and the Rights Agent hereby accepts such appointment.

2.2 Nontransferable. The CVRs will not be sold, assigned, transferred, pledged, encumbered or in any other manner transferred or disposed of, in whole or in part, other than through a Permitted Transfer. Any attempted transfer that is not a Permitted Transfer, in whole or in part, will be void *ab initio* and of no effect. The CVRs will not be listed on any quotation system or traded on any securities exchange.

2.3 No Certificate; Registration; Registration of Transfer; Change of Address.

(a) The CVRs will be issued in book entry format and will not be evidenced by a certificate or other instrument.

(b) The Rights Agent will keep a register (the "**CVR Register**") for the purpose of registering CVRs and transfers of CVRs as permitted herein. The CVR Register will initially show one position for Cede & Co. representing all the shares of Werewolf Common Stock held by DTC on behalf of the street name holders or

beneficial owners of the shares of Werewolf Common Stock held by or beneficially owned by such holders as of immediately prior to the Effective Time. The Rights Agent will have no responsibility whatsoever directly to the street name holders or beneficial owners with respect to transfers of CVRs unless and until such CVRs are transferred into the name of such street name holders or beneficial owners in accordance with Section 2.3.

(c) Subject to the restrictions on transferability set forth in Section 2.2, every request made to transfer a CVR must be in writing and accompanied by a written instrument of transfer in form reasonably satisfactory to the Rights Agent, duly executed by the Holder thereof or the Holder's attorney duly authorized in writing, personal representative or survivor and setting forth in reasonable detail the circumstances relating to the transfer. Upon receipt of such written notice, the Rights Agent will, subject to its reasonable determination that the transfer instrument is in proper form and the transfer otherwise complies with the other terms and conditions of this Agreement (including the provisions of Section 2.2), register the transfer of the CVRs in the CVR Register. No service charge shall be made for any registration of transfer of a CVR, but Werewolf or the Rights Agent, as applicable, may require payment of a sum sufficient to cover any stamp or other tax or governmental charge that is imposed in connection with any such registration of transfer. The Rights Agent shall have no duty or obligation to take any action under any section of this Agreement that requires the payment by a Holder of applicable taxes or charges unless and until the Rights Agent is satisfied that all such taxes or charges have been paid or will be paid. All duly transferred CVRs registered in the CVR Register will be the valid obligations of Werewolf and will entitle the transferee to the same benefits and rights under this Agreement as those held immediately prior to the transfer by the transferor. No transfer of a CVR will be valid until registered in the CVR Register, and any transfer not duly registered in the CVR Register will be void *ab initio*.

(d) A Holder may make a written request to the Rights Agent to change such Holder's address of record in the CVR Register. The written request must be duly executed by the Holder. Upon receipt of such written notice, the Rights Agent will promptly record the change of address in the CVR Register.

2.4 Payment Procedures.

(a) If a Legacy Asset Agreement is entered into during the Disposition Period, then Werewolf shall promptly deliver to the Rights Agent written notice indicating that a Legacy Asset Agreement has been entered into and a copy of the Legacy Asset Agreement and any ancillary agreements thereto.

(b) On or before each CVR Payment Date, with respect to any Legacy Asset Agreement, Werewolf will deliver to the Rights Agent (i) a notice (in each case, a "**CVR Payment Notice**") indicating (A) that the Holders are entitled to receive one or more payments with respect to Net Proceeds from the applicable Legacy Asset Agreement, (B) the source and trigger event for such payment of such Net Proceeds under the applicable Legacy Asset Agreement, and (C) the Gross Proceeds, Net Proceeds and any Permitted Deductions, with reasonable supporting detail for such Permitted Deductions, as applicable, (ii) an Officer's Certificate certifying such calculation and (iii) any letter of instruction reasonably required by the Rights Agent. On or before any CVR Payment Date, Werewolf shall, in accordance with Section 4.2, transfer to the Rights Agent by wire transfer of immediately available funds to an account designated by the Rights Agent an amount of cash equal to the applicable CVR Payment Amount for such CVR Payment Date payable to the Holders on account of all CVRs in respect of such Net Proceeds under the applicable Legacy Asset Agreement. All payments made by Werewolf hereunder shall be made in U.S. dollars. For the avoidance of doubt, Werewolf shall have no further liability in respect of the relevant CVR Payment Amount upon delivery of such CVR Payment Amount in accordance with this Section 2.4(b) and the satisfaction of each of Werewolf's obligations set forth in this Section 2.4(b).

(c) The Rights Agent will promptly, and in any event within ten (10) Business Days of receipt of any CVR Payment Notice (each such date, a "**CVR Notice Date**"), send each Holder at its registered address a copy of the applicable CVR Payment Notice. At the time the Rights Agent sends a copy of such CVR Payment Notice to the Holders, the Rights Agent will also pay the applicable CVR Payment Amount to the Holders, with each Holder receiving an amount equal to the product of A * B where "A" equals the quotient of (i) the applicable CVR Payment Amount in respect of the applicable Net Proceeds under the applicable Legacy Asset Agreement, *divided by* (ii) the then-outstanding number of CVRs held by all Holders, and "B" equals the number of CVRs held by such Holder as reflected on the CVR Register, by check mailed to the address of each Holder as reflected in the CVR Register, in each case, as of the close of business on the last Business Day prior to such CVR Notice Date.

(d) In addition to any Permitted Deductions, Werewolf and its Affiliates and the Rights Agent shall be entitled to deduct or withhold, or cause to be deducted and withheld, from any amounts required to be paid or distributed

under this Agreement (including any CVR Payment Amount otherwise payable or otherwise deliverable pursuant to this Agreement), such amounts as are reasonably determined to be required to be deducted or withheld with respect to the making of such payment or distribution (including in respect of the distribution of CVRs) under the Code or any other provision of any applicable federal, state, local or non-U.S. Tax Law. To the extent such amounts are so deducted or withheld and paid over or deposited with the relevant Tax authority, such amounts shall be treated for all purposes under this Agreement as having been paid to the Holder(s) to whom such amounts would otherwise have been paid or delivered. Werewolf shall instruct the Rights Agent to use commercially reasonable efforts to solicit from such Holder any necessary Tax forms (including an IRS Form W-9 or an applicable IRS Form W-8) a reasonable amount of time prior to making any such Tax withholdings or causing any such Tax withholdings to be made with respect to any Holder in order to provide the opportunity for the Holder to provide such Tax forms in order to avoid or reduce such withholding amounts.

(e) Any portion of any CVR Payment Amount that remains undistributed to the Holders six (6) months after an applicable CVR Notice Date will be delivered by the Rights Agent to Werewolf, upon demand, and any Holder will thereafter look only to Werewolf for payment of such CVR Payment Amount, without interest.

(f) Neither Werewolf nor the Rights Agent will be liable to any person in respect of any CVR Payment Amount delivered to a public official pursuant to any applicable abandoned property, escheat or similar Law. If, despite Werewolf's and the Rights Agent's reasonable best efforts to deliver a CVR Payment Amount to the applicable Holder, any CVR Payment Amount has not been paid prior to one (1) year after an applicable CVR Notice Date, as applicable (or immediately prior to such earlier date on which the CVR Payment Amount would otherwise escheat to or become the property of any Governmental Authority), any such CVR Payment Amount will, to the extent permitted by applicable Law, become the property of Werewolf, free and clear of all claims or interest of any person previously entitled thereto.

(g) For all U.S. federal and applicable state and local income Tax purposes the Parties agree to treat (i) the CVRs issued pursuant to the Pre-Closing Distribution as a distribution of property by Werewolf with respect to the Werewolf Common Stock to which Section 301 of the Code applies, and not as consideration paid or received in connection with the Merger and (ii) any CVR Payment Amount as a contractual payment pursuant to the rights afforded by this Agreement to the Holder and not as a distribution by Werewolf in respect of Werewolf Common Stock. Each of the Parties shall, and shall cause their respective Affiliates to, report such treatment consistently on all U.S. federal and applicable state and local income Tax Returns and shall not take any position inconsistent therewith for such Tax purposes, except as otherwise required by a final determination within the meaning of Section 1313(a) of the Code or applicable Law. Consistent with the tax treatment described in this Section 2.4(g), Werewolf will send, or cause to be sent, IRS Forms 1099-DIV to all Holders notifying them of the portion of the CVR value that is a nondividend distribution (or a dividend to the extent of Werewolf's current or accumulated earnings and profits) for U.S. federal income Tax purposes. Werewolf (but not Ambros) will independently retain and pay for the services of a third-party valuation firm to determine the fair market value of the CVRs and Werewolf will utilize such fair market value for purposes of all Tax reporting (including on IRS Forms 1099-DIV) with respect to the CVRs.

2.5 No Voting, Dividends or Interest; No Equity or Ownership Interest in Werewolf.

(a) The CVRs will not have any voting or dividend rights, and interest will not accrue on any amounts payable on the CVRs to any Holder.

(b) The CVRs will not represent any equity or ownership interest in Werewolf or in any constituent company to the Merger. The sole right of the Holders to receive property hereunder is the right to receive CVR Payment Amount, if any, in accordance with the terms hereof.

(c) Neither Werewolf or its directors and officers nor Ambros or its directors and officers will be deemed to have any fiduciary or similar duties to any Holder by virtue of this Agreement or the CVRs.

(d) It is further acknowledged and agreed that neither Ambros nor its Affiliates owe, by virtue of their obligations under this Agreement, a fiduciary duty or any implied duties to the Holders and the parties hereto intend solely the express provisions of this Agreement to govern their contractual relationship with respect to the CVRs. It is acknowledged and agreed that this Section 2.5(d) is an essential and material term of this Agreement.

2.6 Ability to Abandon CVR. A Holder may at any time, at such Holder's option, abandon all of such Holder's remaining rights in a CVR by transferring such CVR to Werewolf without consideration therefor. Nothing in this

Agreement is intended to prohibit Werewolf or any of its Affiliates from offering to acquire or acquiring CVRs for consideration from the Holders, in private transactions or otherwise, in its sole discretion. Any CVRs acquired by Werewolf or any of its Affiliates (including Ambros) shall be automatically deemed extinguished and no longer outstanding or entitled to the CVR Payment Amount for purposes of this Agreement, or to count for the purpose of any vote or determination of the Holders for purposes of this Agreement.

3. THE RIGHTS AGENT

3.1 Certain Duties and Responsibilities.

(a) Prior to the occurrence of an Event of Default, and after the curing or waiving of all such Events of Default which may have occurred, the Rights Agent will not have any liability for any actions taken or not taken in connection with this Agreement, except to the extent of its willful or intentional misconduct, bad faith or gross negligence. If an Event of Default has occurred (which has not been cured or waived), the Rights Agent shall exercise such of the rights and powers vested in it by this Agreement, and use the same degree of care and skill in their exercise, as a reasonably prudent person would exercise or use under the circumstances in the conduct of his or her own affairs. No provision of this Agreement will require the Rights Agent to expend or risk its own funds or otherwise incur any financial liability in the performance of any of its duties hereunder or in the exercise of any of its rights or powers if there shall be reasonable grounds for believing that repayment of such funds or adequate indemnification against such risk or liability is not reasonably assured to it.

(b) The Holders, acting by the written consent of the Requisite Holders, may direct the Rights Agent to act on behalf of the Holders in enforcing any of their rights hereunder. The Rights Agent shall be under no obligation to institute any action, suit or proceeding, or to take any other action likely to result in the incurrence of material expenses by the Rights Agent, unless such acting Holders (on behalf of all Holders) shall furnish the Rights Agent with reasonable security and indemnity for all reasonable, necessary and documented out-of-pocket costs and expenses that may be incurred. All rights of action under this Agreement may be enforced by the Rights Agent, any action, suit or proceeding instituted by the Rights Agent shall be brought in its name as the Rights Agent and any recovery in connection therewith shall be for the proportionate benefit of all the Holders, as their respective rights or interests may appear.

3.2 Certain Rights of Rights Agent. The Rights Agent undertakes to perform such duties and only such duties as are specifically set forth in this Agreement, and no implied covenants or obligations will be read into this Agreement against the Rights Agent. In addition:

(a) the Rights Agent may rely and will be protected in acting or refraining from acting upon any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order or other paper or document believed by it in good faith to be genuine and to have been signed or presented by the proper party or parties;

(b) whenever the Rights Agent will deem it desirable that a matter be proved or established prior to taking, suffering or omitting any action hereunder, the Rights Agent may, in the absence of bad faith, gross negligence or willful or intentional misconduct on its part, request and rely upon an Officer's Certificate with respect to such matter;

(c) the Rights Agent may engage and consult with counsel of its selection and the written advice of such counsel or any opinion of counsel will be full and complete authorization and protection in respect of any action taken, suffered or omitted by it hereunder in good faith and in reliance thereon;

(d) the permissive rights of the Rights Agent to do things enumerated in this Agreement will not be construed as a duty;

(e) the Rights Agent will not be required to give any note or surety in respect of the execution of such powers or otherwise in respect of the premises;

(f) Werewolf agrees to indemnify Rights Agent for, and hold Rights Agent harmless against, any loss, liability, claim, demands, suits or expense arising out of or in connection with Rights Agent's duties under this Agreement, including the reasonable, necessary and out-of-pocket costs and expenses of defending Rights Agent against any claims, charges, demands, suits or loss, unless such loss has been determined by a court of competent jurisdiction to be a result of Rights Agent's gross negligence, bad faith or willful or intentional misconduct; and

(g) Werewolf agrees (i) to pay the fees and expenses of the Rights Agent in connection with this Agreement as agreed upon in writing by Rights Agent and Werewolf on or prior to the date hereof, and (ii) to reimburse the Rights Agent for all taxes and governmental charges, reasonable expenses and other charges of any kind and nature incurred by the Rights Agent in the execution of this Agreement (other than (a) taxes imposed on or measured by the Rights Agent's net income and franchise or similar taxes imposed on it (in lieu of net income taxes), (b) taxes imposed due to the Rights Agent's connection with the jurisdiction imposing such taxes (other than any connection caused solely by this Agreement or the Rights Agent performing, enforcing or receiving payments under this Agreement), or (c) any withholding taxes imposed due to the failure of the Rights Agent to provide any form, document or certificate that would have reduced or eliminated the amount of such withholding taxes). The Rights Agent will also be entitled to reimbursement from Werewolf for all reasonable, necessary and documented out-of-pocket expenses paid or incurred by it in connection with the administration by the Rights Agent of its duties hereunder.

3.3 Resignation and Removal; Appointment of Successor.

(a) The Rights Agent may resign at any time by giving written notice thereof to Werewolf and the Holders specifying a date when such resignation will take effect, which notice will be sent at least sixty (60) days prior to the date so specified, but in no event shall such resignation become effective until a successor Rights Agent has been appointed and accepted such appointment in accordance with Section 3.4. Werewolf has the right to remove Rights Agent at any time by a Board Resolution specifying a date when such removal will take effect. Notice of such removal will be given by Werewolf to Rights Agent, which notice will be sent at least sixty (60) days prior to the date so specified, but no such removal shall become effective until a successor Rights Agent has been appointed and accepted such appointment in accordance with Section 3.4.

(b) If the Rights Agent provides notice of its intent to resign, is removed or becomes incapable of acting, Werewolf, by a Board Resolution, will promptly appoint a qualified successor Rights Agent in accordance with Section 3.3(d) and who may not be an Affiliate (including a director or officer) of Werewolf. Notwithstanding the foregoing, if Werewolf shall fail to make such appointment within a period of sixty (60) days after giving notice of such removal or after it has been notified in writing of such resignation or incapacity by the resigning or incapacitated Rights Agent, then the incumbent Rights Agent may apply to any court of competent jurisdiction for the appointment of a new Rights Agent. The successor Rights Agent so appointed in accordance with this Section 3.3(b) will, upon its acceptance of such appointment in accordance with Section 3.4, become the successor Rights Agent.

(c) Werewolf will give notice to each Holder of each resignation and each removal of a Rights Agent and each appointment of a successor Rights Agent by mailing written notice of such event by first-class mail to the Holders as their names and addresses appear in the CVR Register. Each notice will include the name and address of the successor Rights Agent. If Werewolf fails to send such notice within ten (10) days after acceptance of appointment by a successor Rights Agent, the successor Rights Agent will cause the notice to be mailed at the expense of Werewolf. Failure to give any notice provided for in this Section 3.3(c), however, shall not affect the legality or validity of the resignation or removal of the Rights Agent or the appointment of the successor Rights Agent, as the case may be.

(d) Notwithstanding anything to the contrary in this Section 3.3, unless consented to in writing by the Requisite Holders, Werewolf shall not appoint as a successor Rights Agent any Person that is not a stock transfer agent of national reputation or the corporate trust department of a commercial bank.

3.4 Acceptance of Appointment by Successor. Every successor Rights Agent appointed hereunder will execute, acknowledge and deliver to Werewolf and to the retiring Rights Agent an instrument accepting such appointment and a counterpart of this Agreement, and thereupon such successor Rights Agent, without any further act, deed or conveyance, will become vested with all the rights, powers, trusts and duties of the retiring Rights Agent. On request of Werewolf or the successor Rights Agent, the retiring Rights Agent will execute and deliver an instrument transferring to the successor Rights Agent all the rights, powers and trusts and duties of the retiring Rights Agent.

4. COVENANTS

4.1 List of Holders. Werewolf will furnish or cause to be furnished to the Rights Agent in such form as Werewolf receives from Werewolf's transfer agent (or other agent performing similar services for Werewolf) and in a form reasonably satisfactory to the Rights Agent, the names and addresses of the Holders within fifteen (15) Business Days after the Effective Time.

4.2 Payment of CVR Payment Amounts. Werewolf will promptly deposit with the Rights Agent, for payment to each Holder, the applicable CVR Payment Amount, if any, prior to or on the applicable CVR Notice Date.

4.3 Legacy Asset Consultant.

(a) *Appointment.* Upon the Closing, Werewolf shall appoint the Legacy Asset Consultant which shall be mutually agreed upon by, and pursuant to an agreement on terms and conditions, acceptable to, Werewolf and Ambros prior to the Closing with the sole purpose of assisting with the marketing, monetization and disposition of the Legacy Assets during the Disposition Period. The Legacy Asset Consultant's efforts under Section 4.4 are the sole efforts required during the Disposition Period or CVR Period; Werewolf has no independent obligation to use efforts to market, monetize or dispose of the Legacy Assets. Werewolf shall, and shall cause its Subsidiaries to, reasonably cooperate with the Legacy Asset Consultant in connection with the foregoing, including by providing the Legacy Asset Consultant with periodic reporting on information reasonably requested by of the Legacy Asset Consultant for purposes of its Legacy Asset monetization efforts during the Disposition Period; provided that such cooperation shall not require Werewolf or any of its Subsidiaries to (i) disclose information subject to attorney-client privilege or other applicable privilege or protection, (ii) breach any confidentiality obligation owed to a third party, or (iii) take any action that would unreasonably disrupt its normal business operations. Werewolf shall not, and Werewolf shall cause its Subsidiaries not to, take any action or forego taking any action for the primary purpose of delaying, preventing or minimizing the CVR Payment Amounts contemplated hereunder.

(b) *Scope of Authority*. The Legacy Asset Consultant shall be responsible for assisting Werewolf in (i) marketing and negotiating the sale, license, sublicense, transfer, assignment, disposition, divestiture, out-license, or other monetization of the Legacy Assets, (ii) the performance of any obligations or enforcement of any rights under any Legacy Asset Agreement, (iii) the conversion of any equity securities that are listed and freely tradeable on a national securities exchange and which have been received pursuant to a Legacy Asset Agreement into Cash and Cash Equivalents, and (iv) reviewing and, where required under this Agreement, approving costs and expenses proposed to be deducted from Gross Proceeds as Permitted Deductions. For the avoidance of doubt, the Consultant shall serve solely as a consultant to Werewolf and shall have no authority to bind the Company or act as an officer, employee or agent of the Company. Werewolf shall not enter into any Legacy Asset Agreement without the prior written consent of the Legacy Asset Consultant.

(c) *Approval of Certain Permitted Deductions*. With respect to any cost or expense for which paragraph (c) of the definition of "Permitted Deductions" requires that such cost or expense be incurred by or on behalf of, or approved in advance by, the Legacy Asset Consultant, Werewolf shall submit to the Legacy Asset Consultant a written request describing the nature, amount and purpose of such cost or expense, together with reasonable supporting documentation. The Legacy Asset Consultant shall respond to any such request within fifteen (15) Business Days of receipt, and any such cost or expense not affirmatively objected to by the Legacy Asset Consultant in writing within such period shall be deemed approved. If the Legacy Asset Consultant objects to a proposed cost or expense, Werewolf and the Legacy Asset Consultant shall negotiate in good faith to resolve such objection; if they are unable to do so within fifteen (15) Business Days, either Werewolf or the Legacy Asset Consultant may refer the disputed item for resolution by an independent third-party expert mutually agreed by Werewolf and the Legacy Asset Consultant, whose determination shall be final and binding on the Parties absent manifest error, with the costs of such expert shared equally by Werewolf and the Holders (borne, in the case of the Holders, as a Permitted Deduction).

(a) During the CVR Period, upon the reasonable written request from Werewolf, the Legacy Assets Consultant shall prepare and deliver to the Werewolf a written update in reasonable detail describing the progress, status and anticipated trajectory of efforts related to, the Legacy Assets (including status updates on negotiations related to potential Legacy Asset Agreements not yet executed and the conduct of any material development and commercialization activities pertaining to the Legacy Assets and (ii) any CVR Payment Amounts paid or payable (including expectations around upcoming payments and the timing thereof), in each case up to one time per each fiscal quarter of each calendar year.

(d) *Removal and Replacement*. The Legacy Asset Consultant may be removed and replaced only upon the mutual written agreement of Werewolf and the Requisite Holders. If the Legacy Asset Consultant resigns, is removed, or becomes unable to serve, Werewolf and the Requisite Holders shall promptly and in good faith agree upon a qualified successor Legacy Asset Consultant.

4.4 Records. During the CVR Period, Werewolf shall maintain (and shall cause the other Payment Obligors to maintain) true, complete and accurate books and records in sufficient detail to enable the Holders and their consultants, Independent Accountants (as defined below) or professional advisors to determine the amounts payable hereunder (including books and records relating to any Legacy Asset Agreement in sufficient detail to permit the Holders to confirm all CVR Payment Amounts in the CVR Period).

4.5 Audit and Information Rights.

(a) At any time during the term of this Agreement or the one (1)-year period following the date of the termination of this Agreement, upon reasonable advance written notice from the Requisite Holders, Werewolf shall permit an independent certified public accounting firm of nationally recognized standing selected by such Holders and reasonably acceptable to Werewolf (the "**Independent Accountant**") to have access at reasonable times during normal business hours to the books and records of Werewolf and its Affiliates as may be reasonably necessary to evaluate and verify any of the Payment Obligor's receipt, categorization and accuracy of payments received under any Legacy Asset Agreement and the CVR Payment Amounts hereunder with respect to the two (2) most recently completed CVR Payment Periods as of the date of such audit request; *provided* that (x) such Holders (and, if applicable, the Independent Accountant) enter into customary confidentiality agreements reasonably satisfactory to Werewolf with respect to the confidential information of Werewolf or its Affiliates to be furnished pursuant to this Section 4.5(b) and (y) such access does not unreasonably interfere with the conduct of the business of Werewolf or any of its Affiliates. The Independent Accountant shall act only as an expert and not as an arbitrator. The fees charged by the Independent Accountant shall be borne by such Holders, unless such audit identifies an aggregate underpayment by Werewolf of the CVR Payment Amounts owed to Holders by more than ten percent (10%), in which case such fees shall be paid by Werewolf. The Independent Accountant shall provide Werewolf with a copy of all disclosures made to such Holders. The decision of the Independent Accountant shall be final, conclusive and binding on Werewolf and the Holders, shall be nonappealable and shall not be subject to further review, absent manifest error. Werewolf shall promptly pay, or cause the Rights Agent to promptly pay, the Holders the amount of any underpayment identified in such audit, with each Holder receiving their proportionate share of such underpayment based on the number of CVRs held by such Holder as of the date such CVR Payment Amount was initially due. If the audit reveals an overpayment, Werewolf shall be entitled to withhold such amount from future CVR Payment Amounts. An audit shall not be requested more frequently than once each calendar year and no CVR Payment Period shall be subject to more than one audit; *provided* that, no audit may be requested more than one (1) year following expiration of the CVR Period.

5. AMENDMENTS

5.1 Amendments without Consent of Holders.

(a) Without the consent of any Holders or the Rights Agent, Werewolf, when authorized by a Board Resolution, at any time and from time to time, may enter into one or more amendments hereto, to evidence any successor to or permitted assignee of Werewolf and the assumption by any such successor or permitted assignee of the covenants of Werewolf herein as provided in Section 7.3.

(v) any other amendments hereto for the purpose of adding, eliminating or changing any provisions of this Agreement, unless such addition, elimination or change is adverse to the interests of the Holders.

(c) Promptly after the execution by Werewolf and the Rights Agent of any amendment pursuant to the provisions of this Section 5.1, Werewolf will mail (or cause the Rights Agent to mail) a notice thereof by first class mail to the Holders at their addresses as they appear on the CVR Register, setting forth in general terms the substance of such amendment.

5.2 Amendments with Consent of Holders.

(a) Subject to Section 5.1 (which amendments pursuant to Section 5.1 may be made without the consent of the Holders), with the consent of the Requisite Holders, whether evidenced in writing or taken at a meeting of the Holders, Werewolf, when authorized by a Board Resolution, and the Rights Agent may enter into one or more amendments hereto for the purpose of adding, eliminating or changing any provisions of this Agreement, even if such addition, elimination or change is adverse to the interest of the Holders.

(b) Promptly after the execution by Werewolf and the Rights Agent of any amendment pursuant to the provisions of this Section 5.2, Werewolf will mail (or cause the Rights Agent to mail) a notice thereof by first class mail to the Holders at their addresses as they appear on the CVR Register, setting forth in general terms the substance of such amendment.

5.3 Execution of Amendments. Upon the execution of any amendment under this Section 5, this Agreement will be modified in accordance therewith, such amendment will form a part of this Agreement for all purposes and every Holder will be bound thereby. As a condition precedent to the execution of any supplement or amendment to this Agreement, Werewolf shall deliver the Rights Agent a certificate from an appropriate officer of Werewolf which states that the proposed supplement or amendment is in compliance with the terms of this Section 5 and the Rights Agent shall execute such supplement or amendment. No supplement or amendment to this Agreement shall be effective unless duly executed by the Rights Agent.

5.4 Effect of Amendments. Upon the execution of any amendment under this Section 5, this Agreement will be modified in accordance therewith, such amendment will form a part of this Agreement for all purposes and every Holder will be bound thereby.

6. REMEDIES OF THE HOLDERS; OTHER CONSENT REQUIREMENTS

6.1 Event of Default. An "**Event of Default**" with respect to a CVR means one of the following events which shall have occurred and be continuing (whatever the reason for such Event of Default and whether it shall be voluntary or involuntary or be effected by operation of applicable Law or pursuant to any judgment, decree or order of any court or any order, rule or regulation of any Governmental Authority):

(a) default in the performance by Werewolf of its obligation to transfer cash equal to the applicable CVR Payment Amount to the Rights Agent in accordance with Section 2.4(b); or

(b) material default in the performance, or breach in any material respect, of any covenant or warranty of Werewolf hereunder (other than a default in whose performance or whose breach is elsewhere in this Section 6.1 specifically dealt with), and continuance of such default or breach for a period of ninety (90) days after a written notice specifying such default or breach and requiring it to be remedied is given by the Requisite Holders.

6.2 Enforcement.

(a) If an Event of Default has occurred and is continuing (i.e., has not been cured or waived), then, and in each and every such case, the Rights Agent, upon the written request of the Requisite Holders, shall commence a legal proceeding to protect the rights of the Holders, including to seek damages or obtain payment for any amounts then due and payable; *provided* that, the Rights Agent shall provide to Werewolf and the Holders reasonably concurrent notice of such commencement. For the avoidance of doubt, any legal proceeding commenced in accordance with this Section 6.2(a) shall be subject to the provisions of Section 7.6.

(b) If an Event of Default has occurred and is continuing (i.e., has not been cured or waived), the Rights Agent may in its discretion proceed to protect and enforce the rights vested in it by this Agreement by commencing a legal proceeding; *provided* that, the Rights Agent shall provide to Werewolf and the Holders reasonably concurrent notice of such commencement. For the avoidance of doubt, any legal proceeding commenced in accordance with this Section 6.2(b) shall be subject to the provisions of Section 7.6.

7.2 Notice to Holders. Where this Agreement provides for notice to Holders, such notice will be sufficiently given (unless otherwise herein expressly provided) if in writing and mailed, first-class postage prepaid, to each Holder affected by such event, at the Holder's address as it appears in the CVR Register, not later than the latest date, and not earlier than the earliest date, if any, prescribed for the giving of such notice. In any case where notice to Holders is given by mail, neither the failure to mail such notice, nor any defect in any notice so mailed, to any particular Holder will affect the sufficiency of such notice with respect to other Holders.

7.3 Successors and Assigns. Werewolf may assign, in its sole discretion and without the consent of any other party, any or all of its rights, interests and obligations hereunder to one or more direct or indirect wholly-owned subsidiaries of Werewolf for so long as they remain wholly owned subsidiaries of Werewolf or to an assignee of all of Werewolf's (on a consolidated basis) rights under any Legacy Asset Agreement (each, an "**Assignee**"); *provided* that, Werewolf shall remain liable for the performance by any such Assignee of, and shall not be relieved of, its obligations, duties and covenants hereunder. Any such Assignee may thereafter assign, in its sole discretion and without the consent of any other party, any or all of its rights, interests and obligations hereunder to one or more additional Assignees satisfying the conditions of the preceding sentence; *provided* that, Werewolf shall remain liable for the performance by any such Assignee of, and shall not be relieved of, its obligations, duties and covenants hereunder. This Agreement will be binding upon, inure to the benefit of and be enforceable by the parties and their respective successors and permitted assignees. Werewolf (or any of its successors) shall not consolidate or merge with or into any other Person unless the acquirer agrees to assume Werewolf's obligations, duties and covenants under this Agreement. Except as otherwise

permitted herein, Werewolf may not assign this Agreement without the prior written consent of the Requisite Holders. Any attempted assignment of this Agreement or any of such rights in violation of this Section 7.3 shall be void and of no effect. The Rights Agent may not assign this Agreement without Werewolf's written consent.

7.4 Benefits of Agreement. Werewolf and the Rights Agent hereby agree that the respective covenants and agreements set forth herein are intended to be for the benefit of, and shall be enforceable by, the Holders, acting by the written consent of the Requisite Holders, all of whom are intended third party beneficiaries hereof. Nothing in this Agreement, express or implied, will give to any Person (other than the Rights Agent, Werewolf, Werewolf's successors and permitted assignees, and the Holders and their respective successors and permitted assignees) any benefit or any legal or equitable right, remedy or claim under this Agreement or under any covenant or provision herein contained, all such covenants and provisions being for the sole benefit of the Rights Agent, Werewolf, Werewolf's successors and permitted assignees, and the Holders and their respective successors and permitted assignees. The rights of Holders are limited to those expressly provided in this Agreement.

7.5 No Third Party Beneficiaries. Nothing in this Agreement, express or implied, shall give to any Person (other than the Rights Agent, Werewolf, Werewolf's successors and Assignees, each of whom is intended to be, and is, a third party beneficiary hereunder; *provided* that, the Holders shall be considered third party beneficiaries solely to the extent set forth in Section 6) any benefit or any legal or equitable right, remedy or claim under this Agreement or under any covenant or provision herein contained, all such covenants and provisions being for the sole benefit of the Rights Agent, Werewolf, Werewolf's successors and Assignees, and the Holders (solely to the extent set forth in Section 6). The Holders of CVRs shall have no rights except the contractual rights as are expressly set forth in this Agreement acting through the Rights Agent and subject to the provisions of Section 7.4 above unless (i) such Holder previously shall have given to the Rights Agent written notice of default, (ii) the Requisite Holders shall have made written request upon the Rights Agent to commence such proceeding in its own name as Rights Agent hereunder and shall have offered to the Rights Agent such reasonable indemnity as it may require against the costs, expenses and liabilities to be incurred therein or thereby and (iii) the Rights Agent for fifteen (15) days after its receipt of such notice, request and offer of indemnity shall have failed to commence any such proceeding and no direction inconsistent with such written request shall have been given to the Rights Agent pursuant to Section 6.2(a). Notwithstanding any other provision in this Agreement, the right of any Holder of any CVR to receive payment of any amounts payable in respect of such CVR under this Agreement on or after the applicable due date, or to commence proceedings for the enforcement of any such payment on or after such due date, shall not be impaired or affected without the consent of such Holder. Notwithstanding any other provision in this Agreement, in the event of an insolvency proceeding of Werewolf, individual Holders shall be entitled to assert claims in such insolvency proceeding and take related actions in pursuit of such claims with respect to any payment that may be claimed by or on behalf of Werewolf or by any creditor of Werewolf. Notwithstanding anything to the contrary contained herein, any Holder may at any time agree to renounce, in whole or in part, whether or not for consideration, such Holder's rights under this Agreement by written notice to the Rights Agent and Werewolf, which notice, if given, shall be irrevocable, and Werewolf may, in its sole discretion, at any time offer consideration to Holders in exchange for their agreement to irrevocably renounce their rights, in whole or in part, hereunder.

7.6 Governing Law. THIS AGREEMENT, AND ALL CLAIMS OR CAUSES OF ACTION (WHETHER IN CONTRACT OR TORT) THAT MAY BE BASED UPON, ARISE OUT OF OR RELATE TO THIS AGREEMENT, OR THE NEGOTIATION, EXECUTION OR PERFORMANCE OF THIS AGREEMENT (INCLUDING ANY CLAIM OR CAUSE OF ACTION BASED UPON, ARISING OUT OF OR RELATED TO ANY REPRESENTATION OR WARRANTY MADE IN OR IN CONNECTION WITH THIS AGREEMENT OR AS AN INDUCEMENT TO ENTER INTO THIS AGREEMENT), SHALL BE GOVERNED BY THE INTERNAL LAWS OF THE STATE OF DELAWARE APPLICABLE TO AGREEMENTS MADE AND TO BE PERFORMED ENTIRELY WITHIN SUCH STATE, WITHOUT REGARD TO THE CONFLICTS OF LAW PRINCIPLES OF SUCH STATE.

In addition, each of the Parties hereto (a) consents to submit itself to the personal and exclusive jurisdiction of any Delaware state court or any federal court located in State of Delaware in the event any dispute arises out of this Agreement, (b) agrees that it will not attempt to deny or defeat such personal jurisdiction by motion or other request for leave from any such court, (c) agrees that it will not bring any action relating to this Agreement in any court other than any Delaware state court or any federal court located in State of Delaware and (d) waives any right to trial by jury with respect to any action related to or arising out of this Agreement.

7.7 Severability. If any term or other provision of this Agreement is invalid, illegal or incapable of being enforced by any rule or Law, or public policy, all other conditions and provisions of this Agreement shall nevertheless remain in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected

in any manner materially adverse to any party. Upon such determination that any term or other provision is invalid, illegal or incapable of being enforced, the parties hereto shall negotiate in good faith to modify this Agreement so as to effect the original intent of the parties as closely as possible in an acceptable manner to the end that transactions contemplated hereby are fulfilled to the extent possible.

7.8 Termination. Except as otherwise provided in Sections 2.4(f) and 4.5, this Agreement will be terminated and of no force or effect, the parties hereto will have no liability hereunder, and no payments will be required to be made, upon the earliest to occur of (a) the termination of the Merger Agreement in accordance with its terms prior to the Closing occurring thereunder, (b) forty-five (45) days after the Expiration Date, (c) the mutual written agreement of Werewolf and the Requisite Holders to terminate this Agreement, and (d) the date on which Werewolf's payment obligations with respect to all Legacy Asset Agreements then in effect have been fully satisfied and no further amounts are or could become payable thereunder (*provided* that, the foregoing shall not affect or limit the obligations of Werewolf or the Rights Agent to pay or otherwise with respect to any CVR Payment Amount payable during the CVR Period, and the provisions of this Agreement applicable thereto shall survive any expiration or termination of this Agreement). In no event will any CVR Payment Amount become payable for any consideration received by Werewolf, Ambros, or any of their respective Affiliates, under a Legacy Asset Agreement after the Expiration Date and any such consideration shall not be Gross Proceeds under this Agreement. Notwithstanding the foregoing, no such termination shall affect any rights or obligations accrued prior to the effective date of such termination or this Section 7, which shall survive the termination of this Agreement, or the resignation, replacement or removal of the Rights Agent.

7.9 Entire Agreement; Counterparts; Exchanges by Electronic Transmission. This Agreement, the Merger Agreement, and the other schedules, exhibits, certificates, instruments and agreements referred to in this Agreement and the Merger Agreement constitute the entire agreement and supersede all prior agreements and understandings, both written and oral, among or between any of the parties hereto and thereto with respect to the subject matter hereof and thereof; provided, however, that the Confidentiality Agreement shall not be superseded and shall remain in full force and effect in accordance with its terms. This Agreement may be executed in several counterparts, each of which shall be deemed an original and all of which shall constitute one and the same instrument. The exchange of a fully executed Agreement (in counterparts or otherwise) by all parties by electronic transmission in .PDF format shall be sufficient to bind the parties to the terms and conditions of this Agreement.

[*Remainder of page intentionally left blank*]

IN WITNESS WHEREOF, each of the parties has caused this Agreement to be executed on its behalf by its duly authorized officers as of the day and year first above written.

Board of Directors
Werewolf Therapeutics, Inc.
200 Talcott Avenue
Watertown, MA 02472

Members of the Board:

You have requested our opinion as to the fairness, from a financial point of view, to Werewolf Therapeutics, Inc. (the "Company") of the Atlantis Exchange Ratio (as defined below) pursuant to the terms of the Agreement and Plan of Merger (the "Agreement") to be entered into by and among the Company, Wave Atlantis Merger Sub, Inc. ("Merger Sub"), a newly formed, wholly owned subsidiary of the Company, and Ambros Therapeutics, Inc. ("Ambros"). The Agreement provides for, among other things, the merger (the "Merger") of Merger Sub with and into Ambros, with Ambros surviving the Merger as a wholly owned subsidiary of the Company. At the effective time of the Merger (the "Effective Time"), by virtue of the Merger and without any further action by the Company, Merger Sub, Ambros, any stockholder of any of them or any other party, each share of common stock, par value $0.00001 per share, of Ambros (the "Ambros Common Stock") outstanding immediately prior to the Effective Time (other than Dissenting Shares (as defined in the Agreement)) shall be, subject to certain exceptions, automatically converted into the right to receive, at the election of the holder thereof, either (i) a number of shares of common stock, par value $0.0001 per share, of the Company (the "Company Common Stock") based on the Atlantis Exchange Ratio (as defined in the Agreement), or (ii) a warrant entitling the holder thereof to purchase shares of Company Common Stock (each, a "Pre-Funded Warrant") that will be exercisable for a number of shares of Company Common Stock equal to the Atlantis Exchange Ratio, subject to certain adjustments set forth in the Agreement. We express no opinion as to the amounts or the effects of any such adjustments on the Atlantis Exchange Ratio. The terms and conditions of the Merger are more fully set forth in the Agreement.

We also understand that in connection with the Merger, (i) immediately prior to the Effective Time, the Company will declare a distribution to holders of Company Common Stock (as defined in the Agreement, the "Pre-Closing Distribution") of the right to receive one non-transferable contingent value right (each, a "CVR") for each outstanding share of Company Common Stock representing the right to receive contingent payments upon the occurrence of certain events set forth in the Contingent Value Rights Agreement (the "CVR Agreement") to be entered into between the Company and the Rights Agent (as defined therein) related to the sale, license, transfer or other disposition of certain Legacy Assets (as defined in the Agreement) of the Company (as defined in the Agreement, a "Permitted Wave Asset Disposition"), (ii) concurrently with the execution of the Agreement, certain investors will execute a securities purchase agreement by and among the Company and the persons named therein pursuant to which such persons will agree to purchase the number of shares of Company Common Stock and the number of Pre-Funded Warrants set forth therein in a private placement for aggregate gross proceeds of not less than $150,000,000 (as defined in the Agreement, the "Concurrent PIPE Financing"), and (iii) the Company will amend its organizational documents to authorize a reverse stock split of all outstanding shares of Company Common Stock at a reverse stock split ratio mutually agreed to by the Company and Ambros (as defined in the Agreement, the "Wave Reverse Stock Split" and, together with the Pre-Closing Distribution and the Concurrent PIPE Financing, the "Related Transactions").

In connection with our review of the Merger, and in arriving at our opinion, we have: (i) reviewed and analyzed the financial terms of a draft of the Agreement dated August 18, 2026 and a draft of the CVR Agreement dated August 11, 2026; (ii) reviewed and analyzed certain financial and other data with respect to the Company which was publicly available; (iii) reviewed and analyzed certain information regarding the Company furnished to us by management of the Company, including capitalization data as of August 17, 2026, financial forecasts relating to the estimated cash expenditures and receipts of the Company through January 31, 2027, and a liquidation analysis of the Company prepared by management of the Company, dated as of August 19, 2026 (the "Management Liquidation Analysis"); (iv) reviewed and analyzed certain information regarding Ambros furnished to us by management of the Company, including capitalization data as of August 18, 2026, budget information for the first and second quarters of 2026,

Ambros's cash balance as of June 30, 2026, and quarterly financial forecasts relating to the business, earnings, cash flows, and prospects of Ambros from July 1, 2026 through December 31, 2028 (the "Ambros Forecasts"); (v) conducted discussions with members of senior management and representatives of each of the Company and Ambros concerning the matters described in clauses (ii), (iii), and (iv) above, as well as the Company's and Ambros's business and prospects before and after giving effect to the Merger; (vi) reviewed the current and historical reported prices and trading activity of the Company Common Stock; (vii) compared the business profile of Ambros to the business profile of certain other companies, the securities of which are publicly traded, that were deemed by us to be comparable to Ambros for purposes of this opinion; and (viii) reviewed the valuations of certain companies implied by the pricing of such companies' initial public offerings which companies were deemed by us to be comparable to Ambros for purposes of this opinion.

In addition, we have conducted such other analyses, examinations and inquiries and considered such other financial, economic and market criteria as we have deemed necessary in arriving at our opinion.

We have relied upon and assumed, without assuming liability or responsibility for independent verification, the accuracy and completeness of all information that was publicly available or was furnished, or otherwise made available, to us or discussed with or reviewed by us. We have further relied upon the assurances of the management of the Company that the financial information provided has been prepared on a reasonable basis in accordance with industry practice, and that they are not aware of any information or facts that would make any information provided to us incomplete or misleading. We have been advised, given that the Company's assets and liabilities are comprised principally of cash (net of liabilities) and the Legacy Assets, that the management of the Company has not prepared long-term financial forecasts relating to the Company. Accordingly, we have not performed a financial analysis of the Company or the CVR. Without limiting the generality of the foregoing, for the purpose of this opinion, we have assumed that, with respect to financial forecasts, estimates (including with respect to the estimated cash expenditures and receipts) and other forward-looking information reviewed by us, that such financial forecasts, estimates and forward-looking information have been reasonably prepared based on assumptions reflecting the best currently available estimates and judgments of the managements of the Company and Ambros, as applicable, as to the expected future results of operations and financial condition of the Company and Ambros, respectively, to which such financial forecasts, estimates and other forward-looking information relate. Further, we express no opinion as to any such financial forecasts, estimates or forward-looking information or the assumptions on which they were based. We have further assumed that the Merger will qualify as a tax-free reorganization for United States federal income tax purposes. We have relied, with your consent, on advice of the outside counsel and the independent accountants to the Company and Ambros, and on the assumptions of the management of the Company and Ambros as to all accounting, legal, tax and financial reporting matters with respect to the Company, Ambros and the Agreement. We have also relied on the assessments of the managements of the Company and Ambros as to, among other things (i) the product pipeline, future products, technology and intellectual property of Ambros, including the viability of and risks associated with such product pipeline, future products, technology and intellectual property, and (ii) the terms of the Concurrent PIPE Financing, including with respect to the timing, amount, valuation and other terms involved and potential impact thereof.

In addition, our opinion and the underlying analyses relating thereto are, with your knowledge and approval, based upon the following additional key assumptions: (i) the Company will have received proceeds from the sales of certain of the Company's assets to EMD Serono Research & Development Institute, Inc. and Jazz Pharmaceuticals Ireland Limited (the "Asset Sales") prior to the Effective Time of the Merger on terms consistent with the definitive agreements related to such Asset Sales, and the proceeds from such Asset Sales will be received in the amounts and at the times projected in the estimated cash expenditures and receipts of the Company provided to us by management of the Company; (ii) the amount of Final Wave Net Cash (as defined in the Agreement) at the Effective Time will not be materially different from the estimated amount of Final Wave Net Cash provided to us by management of the Company, and will not result in a material adjustment to the Atlantis Exchange Ratio; (iii) the Wave Reverse Stock Split will not have been completed as of the Effective Time; (iv) the Management Liquidation Analysis has been reasonably prepared in good faith based on assumptions reflecting the best currently available estimates and judgments of management of the Company as to (a) the expected realizable value for the Company's ass ets, assuming an orderly liquidation of such

assets, and (b) the remaining amounts estimated to be available upon completion of such liquidation for distribution to the Company's equity holders; (v) immediately prior to the Effective Time, the fully diluted outstanding shares of Company Common Stock (calculated using the treasury stock method and taking into account outstanding in the money options and restricted stock units) will be approximately 48.601 million, and the fully diluted outstanding shares of Ambros Common Stock will be approximately 50.837 million, as provided to us by management of the Company; (vi) the Concurrent PIPE Financing of $150,000,000 will be consummated immediately prior to or substantially concurrently with the Effective Time; and (vii) the pro forma ownership of the Company, immediately following the Effective Time, assuming completion of the Merger and the Concurrent PIPE Financing, and the exercise of all issued and outstanding Pre-Funded Warrants, but without giving effect to the Wave Reverse Stock Split, will be approximately 6.4% held by the holders of Company Common Stock immediately prior to the Effective Time, approximately 72.0% held by the holders of Ambros Common Stock immediately prior to the Effective Time, and approximately 21.6% held by the investors in the Concurrent PIPE Financing, as provided to us by management of the Company.

We express no view or opinion with respect to the Management Liquidation Analysis, the Ambros Forecasts, or the assumptions on which they are based. We also express no view or opinion with respect to the Asset Sales or any of the Related Transactions (including the value of the Pre-Closing Distribution or the value of the CVR) or any other aspect or implication of the Merger, including, without limitation, any support or lock-up agreements, subscription agreements or any other agreement, arrangement or understanding entered into in connection with the Merger, the Asset Sales, any Related Transaction or otherwise. With your knowledge and approval, we have not analyzed, or otherwise considered the effect of the Wave Reverse Stock Split on the Atlantis Exchange Ratio as of the Effective Time.

In arriving at our opinion, we have assumed that the executed Agreement and the CVR Agreement will be in all material respects identical to the last drafts reviewed by us. We have relied upon and assumed, without independent verification, that (i) the representations and warranties of all parties to the Agreement and all other related documents and instruments that are referred to therein are true and correct; (ii) each party to such agreements will fully and timely perform all of the covenants and agreements required to be performed by such party; (iii) the Merger will be consummated pursuant to the terms of the Agreement without amendments thereto, and the Asset Sales and the Related Transactions will be consummated on the terms and conditions provided to us by management of the Company; and (iv) all conditions to the consummation of the Merger will be satisfied without waiver by any party of any conditions or obligations thereunder. Additionally, we have assumed that all the necessary regulatory approvals and consents required for the Merger, the Asset Sales and the Related Transactions will be obtained in a manner that will not adversely affect the Company, Ambros or the contemplated benefits of the Merger, the Asset Sales or the Related Transactions.

In addition, in arriving at our opinion, we have not performed any appraisals or valuations of any specific assets or liabilities (fixed, contingent or other) of the Company or Ambros, and have not been furnished or provided with any such appraisals or valuations, nor have we evaluated the solvency of the Company or Ambros under any state or federal law relating to bankruptcy, insolvency or similar matters. The analyses performed by us with respect to Ambros in connection with this opinion were going concern analyses. We express no view or opinion regarding the liquidation value of the Company, Ambros or any other entity. Without limiting the generality of the foregoing, we have undertaken no independent analysis of any pending or threatened litigation, regulatory action, possible unasserted claims or other contingent liabilities, to which the Company, Ambros or any of their respective affiliates is a party or may be subject, and at the direction of the Company and with its consent our opinion makes no assumption concerning, and therefore does not consider, the possible assertion of claims, outcomes or damages arising out of any such matters. We have also assumed, based on information furnished to us by management of the Company and management of Ambros, that neither the Company nor Ambros is party to any material pending transaction, including without limitation any financing, recapitalization, acquisition or merger, or divestiture or spin-off, other than the Merger, the Pre-Closing Distribution, the Concurrent PIPE Financing, any Permitted Wave Asset Disposition, and the Wave Reverse Stock Split.

No company or transaction used in any analysis for purposes of comparison is identical to the Company, Ambros or the Merger. Accordingly, an analysis of the results of the comparisons is not mathematical; rather, it involves complex considerations and judgments about differences in the companies and transactions to which the Company, Ambros and the Merger were compared and other factors that could affect the public trading value or transaction value of the companies.

This opinion is necessarily based upon the information available to us and facts and circumstances as they exist and are subject to evaluation on the date hereof; events occurring after the date hereof could materially affect the assumptions used in preparing this opinion. We are not expressing any opinion herein as to the price at which shares of Company Common Stock or the Pre-Funded Warrants may trade following announcement of the Merger or at any future time. We have not undertaken to reaffirm or revise this opinion or otherwise comment upon any events occurring after the date hereof and do not have any obligation to update, revise or reaffirm this opinion.

We have been engaged by the Company to act as its financial advisor in connection with the Merger and we will receive a fee from the Company for providing our services, a significant portion of which is contingent upon the consummation of the Merger. We will also receive a fee for rendering this opinion. Our opinion fee is not contingent upon the consummation of the Merger or the conclusions reached in our opinion. The Company has also agreed to indemnify us against certain liabilities and reimburse us for certain expenses in connection with our services.

As you are aware, during the past two years we have not provided financial advisory or financing services to the Company or Ambros for which we have received compensation (other than in connection with our current engagement with the Company). As you are also aware, we have entered into an engagement letter with the Company and Ambros pursuant to which we are acting as placement agent and providing financial advisory services to the Company and Ambros in connection with the Concurrent PIPE Financing for which, if consummated, we would receive fees for the rendering of such services. In the ordinary course of our business, we and our affiliates may actively trade securities of the Company for our own account or the account of our customers and, accordingly, may at any time hold a long or short position in such securities. We may also, in the future, provide investment banking and financial advisory services to the Company, Ambros or entities that are affiliated with the Company or Ambros, for which we would expect to receive compensation.

Consistent with applicable legal and regulatory requirements, Piper Sandler has adopted policies and procedures to establish and maintain the independence of Piper Sandler's Research Department and personnel. As a result, Piper Sandler's research analysts may hold opinions, make statements or recommendations, and/or publish research reports with respect to the Company and the Merger and other participants in the Merger that differ from the views of Piper Sandle r's investment banking personnel.

This opinion is provided to the Board of Directors of the Company in connection with its consideration of the Merger and is not intended to be, and does not, constitute a recommendation to the Board of Directors of the Company, the Company, any security holder of the Company, or any other party as to how to vote, act or make any election with respect to the Merger, the Asset Sales, any Related Transaction or any other matter relating thereto. Except with respect to the use of this opinion in connection with the proxy statement/prospectus relating to the Merger, in accordance with our engagement letter with the Company, this opinion shall not be disclosed, referred to, published or otherwise used (in whole or in part), nor shall any public references to us be made, without our prior written approval. This opinion has been approved for issuance by the Piper Sandler Opinion Committee.

This opinion addresses solely the fairness, from a financial point of view, to the Company of the Atlantis Exchange Ratio in the Merger (without giving effect to the Wave Reverse Stock Split) and does not address any other terms or agreement relating to the Merger, the Asset Sales, any Related Transaction or any other terms of the Agreement. We were not requested to opine as to, and this opinion does not address: (i) the basic business decision to proceed with or effect the Merger, the Asset Sales or any Related Transaction; (ii) the merits of the Merger, the Asset Sales or any Related Transaction relative to any alternative transaction or business strategy that may be available to the Company; (iii) the fairness of any portion or aspect of the Merger, the Asset Sales or any Related Transaction to any one class or group of the Company's or Ambros's or any other party's security holders or other constituents vis-à-vis any other class or group of the Company's, Ambros's or such other party's security holders or other constituents (including, without limitation, the allocation of any consideration amongst or within such classes or groups of security holders or other constituents); (iv) the value of the Pre-Funded Warrants or the relative value of the Pre-Funded Warrants as compared to the value of the Company Common Stock; (v) any other terms contemplated by the Agreement, the CVR Agreement or the agreements entered into in connection with the Pre-Closing Distribution, the Concurrent PIPE Financing or the

Wave Reverse Stock Split, or the fairness of the Merger, the Asset Sales or any Related Transaction to any creditor or other constituency of the Company; (vi) whether or not the Company, Ambros, their respective security holders or any other party is receiving or paying reasonably equivalent value in the Merger, the Asset Sales or any Related Transaction; or (vii) the solvency or financial viability of the Company or Ambros at the date hereof, upon consummation of the Merger, the Asset Sales or any Related Transaction, or at any future time. Furthermore, we express no opinion with respect to the amount or nature of compensation to any officer, director or employee of any party to the Merger, the Asset Sales or any Related Transaction, or any class of such persons, relative to the Atlantis Exchange Ratio in the Merger or with respect to the fairness of any such compensation, including whether such payments are reasonable in the context of the Merger.

Based upon and subject to the foregoing, and based upon such other factors as we consider relevant, it is our opinion that the Atlantis Exchange Ratio in the Merger (without giving effect to the Wave Reverse Stock Split) is fair, from a financial point of view, to the Company as of the date hereof.

Sincerely,

PIPER SANDLER & CO.

STOCKHOLDER SUPPORT AGREEMENT

This Support Agreement (this "**Support Agreement**") is being delivered on August 21, 2026 by the person or persons named on the signature pages hereto (collectively, the "**Holder**"), as the holder of Werewolf Shares (as defined below) of Werewolf Therapeutics, Inc., a Delaware corporation ("**Werewolf**"), to Ambros Therapeutics, Inc., a Delaware corporation ("**Ambros**") and to Werewolf.

Reference is made to that certain Agreement and Plan of Merger (the "**Merger Agreement**"), as amended from time to time, dated as of August 21, 2026, by and among Ambros, Werewolf and Merger Sub. All capitalized terms that are used but not defined herein shall have the respective meanings ascribed to them in the Merger Agreement.

As of the date hereof, the Holder is the record (as defined in Rule 12g5-1 promulgated under the Exchange Act) or beneficial owner (as defined in Rule 13d-3 promulgated under the Exchange Act) of the number of shares of Werewolf Common Stock, Werewolf Options and other securities convertible into, or exercisable or exchangeable for, shares of Werewolf Common Stock, in each case as set forth on Exhibit A hereto (collectively, the "**Werewolf Shares**").

As a condition and inducement to Ambros's and Werewolf's willingness to enter into the Merger Agreement, the Holder has agreed to enter into this Support Agreement.

1. Agreement to Vote. From the date hereof until the Termination Date (as defined below), the Holder agrees to appear (in person or by proxy) at every meeting of the stockholders of Werewolf (or any class or series of stockholders, as applicable) convened in connection with the matters related to the Merger Agreement, and at every adjournment or postponement thereof, or otherwise cause all Werewolf Shares it beneficially owns and is entitled to vote to be counted as present thereat for purposes of calculating a quorum, and to vote (or cause to be voted), or deliver (or cause to be delivered) a written consent with respect to, and shall not enter into any agreement or otherwise give instructions to any person to vote in any manner inconsistent with this Support Agreement, at every such meeting and in connection with any action proposed to be taken by written consent of the stockholders of Werewolf, all Werewolf Shares it beneficially owns and is entitled to vote at such meeting:

(a) in favor of (i) the adoption and approval of the Merger Agreement and the terms thereof, including the Contemplated Transactions and the other actions contemplated by the Merger Agreement, (ii) the Merger, and (iii) the Werewolf Stockholder Matters and each of the items recommended by the Werewolf Board set forth in the Werewolf Proxy Statement filed in connection with the Werewolf Stockholder Meeting, and (iv) any proposal to adjourn or postpone any meeting of the stockholders of Werewolf to a later date if there are not sufficient votes to approve the Werewolf Stockholder Matters or if there are not sufficient shares present in person or represented by proxy at such meeting to constitute a quorum; and

(b) against (i) any Acquisition Proposal, Acquisition Transaction, or any other action that would reasonably be expected to interfere with, delay, impede, postpone, discourage or adversely affect the consummation of the Contemplated Transactions, and (ii) against any action or agreement that would reasonably be expected to result in a breach of any representation, warranty, covenant or obligation of Werewolf in the Merger Agreement (clauses (a) and (b) collectively, the "**Supported Matters**").

From the date hereof until the Termination Date, in the event of (i) a stock split, stock dividend or distribution, or any change in the capital stock of Werewolf by reason of any split-up, reverse stock split, recapitalization, combination, reclassification, reincorporation, exchange of shares or the like or (ii) the acquisition of sole or shared voting power by the Holder of additional shares of capital stock or other equity securities of Werewolf, whether by the exercise of Werewolf Options or otherwise, including, without limitation, by gift or succession, then the term "Werewolf Shares" shall be deemed to refer to and include such shares as well as all such stock dividends and distributions and any securities into which or for which any or all of such shares may be changed or exchanged or which are received in such transaction, and such Werewolf Shares shall be subject to the terms and conditions of this Support Agreement to the same extent as if they constituted Werewolf Shares as of the date of the execution of this Support Agreement, without the need for any further action by the parties (including, for the avoidance of doubt, with respect to Exhibit A).

2. No Transfer. From the date hereof until the Termination Date, the Holder agrees not to, directly or indirectly, sell, transfer, pledge, encumber (other than liens arising under or imposed by applicable law or pursuant to this Support Agreement, the Merger Agreement or the transactions contemplated hereby or thereby), assign, gift or otherwise dispose of (collectively, a "**Transfer**") or enter into any contract, option or other arrangement or understanding with respect to any Transfer of, any of the Werewolf Shares. The Holder further agrees not to (i) deposit (or permit the deposit

of) any Werewolf Shares in a voting trust or grant any proxy or power of attorney with respect to any Werewolf Shares (other than the proxy contemplated by Section 11) or (ii) enter into any voting agreement or similar arrangement, commitment or understanding with respect to any Werewolf Shares inconsistent with the Holder's obligations under this Support Agreement. Any Transfer or purported Transfer of Werewolf Shares in breach or violation of this Support Agreement shall be void and of no force or effect. Notwithstanding the foregoing, the restrictions set forth in this Section 2 shall not apply to: (a) Transfers by gift to members of the Holder's immediate family or to a trust, the beneficiary of which is a member of the Holder's immediate family, an affiliate of such Person or to a charitable organization; (b) Transfers by virtue of laws of descent and distribution upon death of the individual; (c) Transfers by operation of law or pursuant to a court order, such as a qualified domestic relations order, divorce decree or separation agreement; (d) Transfers to a partnership, limited liability company or other entity of which the Holder and/or the immediate family of the Holder are the legal and beneficial owner of all of the outstanding equity securities or similar interests; (e) Transfers to a trustor or beneficiary of the trust, to the designated nominee of a beneficiary of such trust or to the estate of a beneficiary of such trust; (f) Transfers by virtue of the laws of the state of the entity's organization and the entity's organizational documents upon dissolution of the entity; (g) the settlement, exercise, termination or vesting of any Werewolf Options, including in order to (i) pay the exercise price thereof or (ii) satisfy taxes applicable thereto; and (h) Transfers to any Affiliate, equityholder, partner or member of such Holder; *provided, however*, that (i) no filing under the Exchange Act or other public announcement shall be required or shall be made voluntarily in connection with such Transfer (other than filings made in respect of involuntary Transfers; *provided*, that reasonable notice shall be provided to Ambros prior to any such filing) and that (ii), to the fullest extent permitted by applicable Law, for any permitted Transfers pursuant clauses (a) to (h) (other than clause (g)), the Werewolf Shares so Transferred shall continue to be subject to the provisions of this Support Agreement and, as a condition precedent to any such Transfer, these permitted transferees must enter into a written agreement, in substantially the form of this Support Agreement, agreeing to be bound by all of the terms and conditions of this Support Agreement and shall have the same rights and benefits under this Support Agreement.

3. Documentation and Information. The Holder shall permit and hereby authorizes Werewolf and Ambros to publish and disclose in all documents and schedules filed with the SEC, and any press release or other disclosure document that Werewolf or Ambros reasonably determines to be necessary in connection with the Merger and any of the Contemplated Transactions, the Holder's identity and ownership of the Werewolf Shares and the nature of the Holder's commitments and obligations under this Agreement. Werewolf is an intended third-party beneficiary of this Section 3.

4. Representations and Warranties of the Holder. The Holder hereby represents and warrants to Ambros and Werewolf as follows:

(a) the Holder has full power and authority (or legal capacity, if the Holder is a natural person) to execute and deliver this Support Agreement and to perform the Holder's obligations hereunder;

(b) this Support Agreement has been duly executed and delivered by the Holder, and, assuming this Support Agreement constitutes a valid and binding obligation of Ambros and Werewolf, constitutes a valid and binding obligation of the Holder enforceable against the Holder in accordance with its terms, subject to (i) laws of general application relating to bankruptcy, insolvency and the relief of debtors, and (ii) rules of law governing specific performance, injunctive relief and other equitable remedies, and the Holder understands that each of Ambros and Werewolf is entering into the Merger Agreement in reliance upon the Holder's execution and delivery of this Support Agreement;

(c) the Holder is the record or beneficial owner of the Werewolf Shares, free and clear of any and all Encumbrances (other than Encumbrances arising under applicable securities Laws or created by this Support Agreement), and does not beneficially own any securities of Werewolf other than the shares of Werewolf Common Stock and rights to purchase or otherwise acquire shares of Werewolf Common Stock set forth in Exhibit A;

(d) the execution and delivery of this Support Agreement by the Holder will not (i) result in a violation or breach of any agreement to which the Holder is a party, (ii) violate any Law or order applicable to the Holder or (iii) if Holder is an entity, violate any constituent or organizational document, except in each case as would not prevent or materially delay the Holder from performing its obligations hereunder;

(e) as of the date of this Support Agreement, there is no proceeding pending or, to the knowledge of the Holder, threatened against the Holder or any of the Holder's properties or assets (whether tangible or intangible) that would reasonably be expected to prevent or materially impair the ability of the Holder to perform the Holder's obligations hereunder;

(f) (i) the Holder does not have any agreement, arrangement, or understanding, whether written or oral, formal or informal, with any other holder of Werewolf Common Stock to act together for the purpose of acquiring, holding, voting, or disposing of shares of Werewolf Common Stock, nor does the Holder otherwise act in concert with any other holder of Werewolf Common Stock in connection with the exercise of any rights or powers arising from the ownership of Werewolf Common Stock, (ii) without limiting the generality of the foregoing, the Holder is not a member of a "group" (as such term is used in Section 13(d)(3) of the Exchange Act) with any other holder of any equity securities of Werewolf for the purpose of acquiring, holding, voting, or disposing of equity securities of Werewolf and (iii) the Holder has not granted any proxy or power of attorney with respect to any Werewolf Shares that remains in effect, deposited any Werewolf Shares into a voting trust or entered into any voting agreement or similar arrangement, commitment or understanding with respect to the voting of any Werewolf Shares, in each case except as contemplated by this Support Agreement;

(g) the Holder has had the opportunity to review the Merger Agreement, including the provisions relating to the payment and allocation of the consideration to be paid to the stockholders of Werewolf, and this Support Agreement with counsel of the Holder's own choosing. The Holder has had an opportunity to review with its own tax advisors the tax consequences of the Merger and the Contemplated Transactions. The Holder understands that it must rely solely on its advisors and not on any statements or representations made by Ambros or Werewolf, or any of their respective agents or representatives. The Holder understands that the Holder (and not Ambros or Werewolf) shall be responsible for the Holder's tax liability that may arise as a result of the Merger or the transactions contemplated by the Merger Agreement. The Holder understands and acknowledges that Ambros, Werewolf, and Merger Sub are entering into the Merger Agreement in reliance upon the Holder's execution, delivery and performance of this Support Agreement; and

(h) the Holder has full voting power with respect to the Werewolf Shares, and full power of disposition, full power to issue instructions with respect to the matters set forth herein and full power to agree to all of the matters set forth in this Support Agreement, in each case with respect to all of the Werewolf Shares. None of the Werewolf Shares are subject to any proxy, voting trust or other agreement or arrangement with respect to the voting of the Werewolf Shares, in each case except as contemplated by this Support Agreement.

5. No Impact on Directors' or Officers' Duties. Notwithstanding any provision of this Support Agreement to the contrary, the parties acknowledge that (a) the Holder is entering into this Support Agreement solely in the Holder's capacity as a record or beneficial owner of Werewolf Common Stock and not in such Holder's capacity as a director, officer or employee of Werewolf or in the Holder's capacity as a trustee or fiduciary of any Werewolf Equity Plans and (b) nothing in this Support Agreement is intended to limit or restrict the Holder, or a designee of the Holder, who is a director or officer of Werewolf from taking any action or inaction or voting in favor in the Holder's sole discretion on any matter in his or her capacity as a director of Werewolf or in the Holder's capacity as a trustee or fiduciary of any Werewolf Equity Plans (if applicable), or fulfilling the obligations of such office, and none of such actions in such capacity shall be deemed to constitute a breach of this Support Agreement.

6. No Ownership Interest. Nothing contained in this Support Agreement will be deemed to vest in Ambros any direct or indirect ownership or incidents of ownership of or with respect to the Werewolf Shares. All rights, ownership and economic benefits of and relating to the Werewolf Shares will remain and belong to the Holder, and Ambros will have no authority to manage, direct, superintend, restrict, regulate, govern or administer any of the policies or operations of Werewolf or exercise any power or authority to direct the Holder in the voting of any of the Werewolf Shares, except as otherwise expressly provided herein with respect to the Werewolf Shares and except as otherwise expressly provided in the Merger Agreement.

7. No Solicitation. From the date hereof until the Termination Date, the Holder (solely in his, her or its capacity as a stockholder of Werewolf) shall not, directly or indirectly: (a) solicit, initiate or knowingly encourage, induce or facilitate the communication, making, submission or announcement of any Acquisition Proposal or Acquisition Inquiry or take any action that could reasonably be expected to lead to an Acquisition Proposal or Acquisition Inquiry; (b) furnish any non-public information regarding Werewolf to any Person in connection with or in response to an Acquisition Proposal or Acquisition Inquiry; (c) engage in discussions (other than to inform any Person of the existence of the provisions in this Section 7) or negotiations with any Person with respect to any Acquisition Proposal or Acquisition Inquiry; (d) approve, endorse or recommend any Acquisition Proposal; (e) execute or enter into any letter of intent or any Contract contemplating or otherwise relating to any Acquisition Transaction; or (f) publicly propose to do any of the foregoing; *provided, however*, that the foregoing restrictions in this Section 7 shall only apply to the Holder in the Holder's capacity as a holder of Werewolf Common Stock and not, for the avoidance of doubt, in the

Holder's capacity as a director or officer (if applicable) of Werewolf, whose activities with respect to any Acquisition Proposal or Acquisition Inquiry shall be governed by the Merger Agreement. Notwithstanding anything to the contrary herein, this Section 7 is subject in all respects to Section 5 of this Support Agreement.

8. Notices. All notices and other communications hereunder shall be in writing and shall be deemed to have been duly delivered and received hereunder (a) one (1) Business Day after being sent for next Business Day delivery, fees prepaid, via a reputable international overnight courier service, (b) upon delivery in the case of delivery by hand or (c) on the date delivered in the place of delivery if sent by email or facsimile (with a written or electronic confirmation of delivery) prior to 6:00 p.m. New York City time, otherwise on the next succeeding Business Day, in each case to the intended recipient as set forth below:

c. if to the Holder, at the e-mail address on the signature page hereto.

9. Termination. This Support Agreement shall automatically terminate upon the earliest to occur of (a) such date and time as the Merger Agreement shall have been validly terminated, (b) such date and time as there is any amendment of the Merger Agreement, without the prior written consent of the Holder, that reduces the amount or changes the form of the consideration payable to the holders of Werewolf Common Stock in the Contemplated Transactions in a manner that is adverse to the Holder, (c) such date and time as the Werewolf Board shall have effected a Werewolf Board Adverse Recommendation Change, (d) the Effective Time and (e) such date and time as a written agreement executed by the parties hereto to terminate this Support Agreement is effective (such date, the "**Termination Date**").

Notwithstanding the foregoing, Section 8 (Notices), this Section 9 and Sections 15 through 25 shall survive any termination of this Support Agreement in accordance with their respective terms, and no termination of this Support Agreement shall relieve any party hereto from any liability for such party's willful and material breach of this Support Agreement prior to such termination.

10. Stop Transfer Instructions. At all times commencing with the execution and delivery of this Support Agreement and continuing until the Termination Date, in furtherance of this Support Agreement, the Holder hereby authorizes Werewolf or its counsel to notify Werewolf's transfer agent that there is a stop transfer order with respect to all of the Werewolf Shares (and that this Support Agreement places limits on the voting and transfer of such Werewolf Shares).

11. Irrevocable Proxy. By execution of this Support Agreement, the Holder does hereby appoint Ambros and any of its designees with full power of substitution and resubstitution, as the Holder's true and lawful attorney and irrevocable proxy, to the fullest extent of the Holder's rights with respect to the Werewolf Shares, to vote and exercise all voting and related rights, including the right to sign the Holder's name (solely in its capacity as a stockholder) to any stockholder consent. The Holder intends this proxy to be irrevocable and coupled with an interest hereunder until the Termination Date, hereby revokes (or agrees to cause to be revoked) any proxy previously granted by the Holder with respect to the Werewolf Shares and represents that none of such previously-granted proxies are irrevocable. The Holder hereby affirms that the proxy set forth in this Section 11 is given in connection with, and granted in consideration of, and as an inducement to Ambros, Werewolf, and Merger Sub to enter into the Merger Agreement and that such proxy is given to secure the obligations of the Holder under Section 1. The irrevocable proxy and power of attorney granted herein shall survive the death or incapacity of the Holder and the obligations of the Holder shall be binding on the Holder's heirs, personal representatives, successors, transferees and assigns. The Holder hereby agrees not to grant any subsequent powers of attorney or proxies with respect to any Werewolf Shares with respect to the matters set forth in Section 1 until after the Termination Date. With respect to any Werewolf Shares that are owned beneficially by the Holder but are not held of record by the Holder (other than shares beneficially owned by the Holder that are held in the name of a bank, broker or nominee), the Holder shall take all action necessary to cause the record holder of such Werewolf Shares to grant the irrevocable proxy and take all other actions provided for in this Section 11 with respect to such Werewolf Shares. Notwithstanding anything contained herein to the contrary, this irrevocable proxy shall automatically terminate upon the Termination Date.

12. No Legal Actions. The Holder will not in its capacity as a stockholder of Werewolf bring, commence, institute, maintain, prosecute or voluntarily aid any Legal Proceeding which (i) challenges the validity or seeks to enjoin the operation of any provision of this Agreement or (ii) alleges that the execution and delivery of this Agreement by the Holder, either alone or together with the other voting agreements and proxies to be delivered in connection with the execution of the Merger Agreement, or the approval of the Merger Agreement and the Contemplated Transactions by the Werewolf Board, constitutes a breach of any fiduciary duty of the Werewolf Board or any member thereof.

13. Entire Agreement. This Support Agreement constitutes the entire agreement, and supersedes all prior agreements and understanding, both written and oral, among the parties hereto with respect to the subject matter hereof and is fully binding on the parties hereto.

14. Counterparts. This Support Agreement may be executed in one or more counterparts, all of which shall be considered one and the same agreement and shall become effective when one or more counterparts have been signed by each of the parties and delivered to the other parties. Any such counterpart, to the extent delivered by DocuSign or AdobeSign, fax or .pdf, .tif, .gif, .jpg or similar attachment to electronic mail (any such delivery, an "**Electronic Delivery**"), will be treated in all manner and respects as an original executed counterpart and will be considered to have the same binding legal effect as if it were the original signed version thereof delivered in person. No party hereto may raise the use of an Electronic Delivery to deliver a signature, or the fact that any signature or agreement or instrument was transmitted or communicated through the use of an Electronic Delivery, as a defense to the formation of a contract, and each party hereto forever waives any such defense, except to the extent such defense relates to lack of authenticity.

15. Assignment. Neither this Support Agreement nor any of the rights, interests or obligations under this Support Agreement shall be assigned, in whole or in part, by operation of law or otherwise by any of the parties without the prior written consent of the other parties, except that Ambros may transfer or assign its rights and obligations under this Agreement, in whole or from time to time in part, to one or more of its Affiliates at any time; *provided* that such transfer or assignment shall not relieve Ambros of any of its obligations hereunder. Any purported assignment without such consent shall be void. Subject to the preceding sentences, the terms of this Support Agreement shall be binding upon and shall inure to the benefit of each of the parties hereto and their respective successors and assigns.

16. Amendment; Waiver. This Support Agreement may not be amended or modified except in writing signed by each of the parties hereto. Any provision of this Support Agreement may be waived if such waiver is in writing and is signed by the party against whom the waiver is to be effective. No failure or delay by either party in exercising any right, power or privilege hereunder shall operate as a waiver thereof, nor shall any single or partial exercise thereof preclude any other or further exercise thereof or the exercise of any other right, power or privilege.

17. Severability. Any term or provision of this Support Agreement that is invalid or unenforceable in any situation in any jurisdiction shall not affect the validity or enforceability of the remaining terms and provisions of this Support Agreement or the validity or enforceability of the offending term or provision in any other situation or in any other jurisdiction. If a final judgment of a court of competent jurisdiction declares that any term or provision of this Support Agreement is invalid or unenforceable, the parties hereto agree that the court making such determination will have the power to limit such term or provision, to delete specific words or phrases or to replace such term or provision with a term or provision that is valid and enforceable and that comes closest to expressing the intention of the invalid or unenforceable term or provision, and this Support Agreement shall be valid and enforceable as so modified. In the event such court does not exercise the power granted to it in the prior sentence, the parties hereto agree to replace such invalid or unenforceable term or provision with a valid and enforceable term or provision that will achieve, to the extent possible, the economic, business and other purposes of such invalid or unenforceable term or provision.

18. Confidentiality. Except to the extent required by applicable Law, the Holder shall hold any non-public information regarding this Support Agreement, the Merger Agreement and the Merger in strict confidence and shall not divulge any such information to any third person until Ambros has publicly disclosed its entry into the Merger Agreement and this Support Agreement; *provided, however*, that the Holder may disclose such information (a) to its attorneys, accountants, consultants, trustees, beneficiaries and other representatives (provided such representatives are subject to confidentiality obligations at least as restrictive as those contained herein), and (b) to any Affiliate, partner, member, stockholder, parent or subsidiary of the Holder, provided in each case that the Stockholder informs the Person receiving the information that such information is confidential and such Person agrees in writing to abide by the terms of this Section 18. Neither Holder nor any of its Affiliates (other than Werewolf, whose actions shall be governed by the Merger Agreement), shall issue or cause the publication of any press release or other public announcement with respect to this Agreement, the Merger, the Merger Agreement or the other transactions contemplated hereby or thereby without the prior written consent of Werewolf and Ambros, except as may be required by applicable Law in which circumstance such announcing party shall make reasonable efforts to consult with Werewolf and Ambros to the extent practicable. Werewolf is an intended third-party beneficiary of this Section 18.

19. Governing Law; Jurisdiction; Waiver of Jury Trial. This Support Agreement shall be governed by, and construed in accordance with, the laws of the State of Delaware, regardless of the laws that might otherwise govern under applicable principles of conflicts of laws. In any action or proceeding between any of the parties arising out of or relating to this Support Agreement or any of the Contemplated Transactions, each of the parties: irrevocably and unconditionally (a) consents and submits to the exclusive jurisdiction and venue of the Court of Chancery of the State of Delaware or, to the extent such court does not have subject matter jurisdiction, the Superior Court of the State of Delaware or the United States District Court for the District of Delaware, (b) agrees that all claims in respect of such action or proceeding shall be heard and determined exclusively in accordance with clause (a) of this paragraph, (c) waives any objection to laying venue in any such action or proceeding in such courts, (d) waives any objection that such courts are an inconvenient forum or do not have jurisdiction over any party, (e) agrees that service of process upon such party in any such action or proceeding shall be effective if notice is given in accordance with Section 8 of this Agreement and (f) irrevocably and unconditionally waives the right to trial by jury.

20. Specific Performance. Each party hereto acknowledges that, in view of the uniqueness of the transactions contemplated by this Support Agreement, the other party or parties hereto will not have an adequate remedy at law for money damages in the event that this Support Agreement has not been performed in accordance with its terms, and therefore agrees that such other party or parties shall be entitled to seek specific enforcement of the terms hereof in addition to any other remedy it may seek, at law or in equity.

21. Expenses. All fees, costs and expenses incurred in connection with this Support Agreement and the transactions contemplated hereby shall be paid by the party hereto incurring such fees, costs and expenses.

22. Further Assurances. Each of the parties hereto will execute and deliver, or cause to be executed and delivered, all further documents and instruments and use their respective reasonable best efforts to take, or cause to be taken, all actions and to do, or cause to be done, all things necessary under applicable Law to perform their respective obligations as expressly set forth under this Support Agreement.

23. Construction.

For purposes of this Support Agreement, whenever the context requires: the singular number shall include the plural, and vice versa; the masculine gender shall include the feminine and neuter genders; the feminine gender shall include the masculine and neuter genders; and the neuter gender shall include masculine and feminine genders.

The parties hereto agree that any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not be applied in the construction or interpretation of this Support Agreement.

As used in this Support Agreement, the words "include" and "including," and variations thereof, shall not be deemed to be terms of limitation, but rather shall be deemed to be followed by the words "without limitation."

Except as otherwise indicated, all references in this Support Agreement to "Sections" and "Exhibits" are intended to refer to Sections of this Support Agreement and Exhibits to this Support Agreement, respectively.

The headings contained in this Support Agreement are for convenience of reference only, shall not be deemed to be a part of this Support Agreement and shall not be referred to in connection with the construction or interpretation of this Support Agreement.

24. No Agreement Until Executed. Irrespective of negotiations among the parties or the exchanging of drafts of this Support Agreement, this Support Agreement shall not constitute or be deemed to evidence a contract, agreement, arrangement or understanding between the parties hereto unless and until (a) the Merger Agreement is executed by all parties thereto and (b) this Support Agreement is executed by all parties hereto.

25. Non-Recourse. This Support Agreement may only be enforced against, and any Legal Proceeding based upon, arising out of, or related to this Support Agreement, or the negotiation, execution or performance of this Support Agreement, may only be brought against the entities that are expressly named as parties hereto and then only with respect to the specific obligations set forth herein with respect to such party. No past, present or future director, officer, employee, incorporator, manager, member, general or limited partner, stockholder, equityholder, controlling person, Affiliate, agent, attorney or other Representative of any party hereto or any of their successors or permitted assigns or any director, officer, employee, incorporator, manager, member, direct or indirect general or limited partner, direct or indirect stockholder, direct or indirect equityholder, direct or indirect controlling person, Affiliate, agent, attorney, Representative, successor or permitted assign of any of the foregoing, shall have any liability to the Holder, Ambros or Werewolf for any obligations or liabilities of any party under this Support Agreement or for any Legal Proceeding (whether in tort, contract or otherwise) based on, in respect of or by reason of the transactions contemplated hereby or in respect of any written or oral representations made or alleged to be made in connection herewith.

ANNEX H

STOCKHOLDER SUPPORT AGREEMENT

This Support Agreement (this "**Support Agreement**") is being delivered on August 21, 2026 by the person or persons named on the signature pages hereto (collectively, the "**Holder**"), as the holder of Ambros Shares (as defined below) of Ambros Therapeutics, Inc., a Delaware corporation ("**Ambros**"), to Werewolf Therapeutics, Inc., a Delaware corporation ("**Werewolf**").

Reference is made to that certain Agreement and Plan of Merger (the "**Merger Agreement**"), as amended from time to time, dated as of August 21, 2026, by and among Ambros, Werewolf and Wave Atlantis Merger Sub, Inc. ("**Merger Sub**"). All capitalized terms that are used but not defined herein shall have the respective meanings ascribed to them in the Merger Agreement.

As of the date hereof, the Holder is the record (as defined in Rule 12g5-1 promulgated under the Exchange Act) or beneficial owner (as defined in Rule 13d-3 promulgated under the Exchange Act) of the number of shares of Ambros Capital Stock, Ambros Options and other securities convertible into, or exercisable or exchangeable for, shares of Ambros Capital Stock, in each case as set forth on Exhibit A hereto (collectively, the "**Ambros Shares**").

As a condition and inducement to Ambros's and Werewolf's willingness to enter into the Merger Agreement, the Holder has agreed to enter into this Support Agreement. Reference is made to (i) that certain Investors' Rights Agreement, as amended from time to time, dated as of September 30, 2025, by and among Ambros and the Investors party thereto (the "**Investors' Rights Agreement**"), (ii) that certain Voting Agreement, as amended from time to time, dated as of September 30, 2025, by and among Ambros, the Investors, the Key Holders and the other Stockholders party thereto (the "**Voting Agreement**"), and (iii) that certain Right of First Refusal and Co-Sale Agreement, as amended from time to time, dated as of September 30, 2025, by and among Ambros, the Investors and the Key Holders party thereto (the "**ROFR Agreement**", and together with the Investors' Rights Agreement and the Voting Agreement, the "**Existing Investor Agreements**"), in each case to which the Holder is a party.

1. Agreement to Vote; Written Consent. From the date hereof until the Termination Date (as defined below), the Holder agrees that, promptly following delivery to the Holder of the Ambros Stockholder Written Consent (and in any event within the time period specified in Section 6.2(a) of the Merger Agreement), the Holder shall execute and deliver to Ambros the Ambros Stockholder Written Consent with respect to all Ambros Shares it beneficially owns and is entitled to vote, and shall not enter into any agreement or otherwise give instructions to any Person to vote or consent in any manner inconsistent with this Support Agreement. In furtherance of the foregoing, and without limiting the generality thereof, the Holder shall vote (or cause to be voted), or deliver (or cause to be delivered) a written consent with respect to, all Ambros Shares it beneficially owns and is entitled to vote, if for any reason a meeting of the stockholders of Ambros (or any class or series of stockholders, as applicable) is convened in connection with the matters related to the Merger Agreement in lieu of, or in addition to, the solicitation of the Ambros Stockholder Written Consent, in which case the Holder agrees to appear (in person or by proxy) at every such meeting, and at every adjournment or postponement thereof, or otherwise cause all Ambros Shares it beneficially owns and is entitled to vote to be counted as present thereat for purposes of calculating a quorum:

(a) in favor of (i) the adoption and approval of the Merger Agreement and the terms thereof, including the Contemplated Transactions and the other actions contemplated by the Merger Agreement, and (ii) the Merger; and

(b) against (i) any Acquisition Proposal, Acquisition Transaction, or any other action that would reasonably be expected to interfere with, delay, impede, postpone, discourage or adversely affect the consummation of the Contemplated Transactions, and (ii) against any action or agreement that would reasonably be expected to result in a breach of any representation, warranty, covenant or obligation of Ambros in the Merger Agreement (clauses (a) and (b) collectively, the "**Supported Matters**").

From the date hereof until the Termination Date, in the event of (i) a stock split, stock dividend or distribution, or any change in the capital stock of Ambros by reason of any split-up, reverse stock split, recapitalization, combination, reclassification, reincorporation, exchange of shares or the like or (ii) the acquisition of sole or shared voting power by the Holder of additional shares of capital stock or other equity securities of Ambros, whether by the exercise of Ambros Options or otherwise, including, without limitation, by gift or succession, then the term "Ambros Shares" shall be deemed to refer to and include such shares as well as all such stock dividends and distributions and any securities into which or for which any or all of such shares may be changed or exchanged or which are received in such transaction, and such Ambros Shares shall be subject to the terms and conditions of this Support Agreement to the same extent as if

they constituted Ambros Shares as of the date of the execution of this Support Agreement, without the need for any further action by the parties (including, for the avoidance of doubt, with respect to Exhibit A).

2. No Transfer. From the date hereof until the Termination Date, the Holder agrees not to, directly or indirectly, sell, transfer, pledge, encumber (other than liens arising under or imposed by applicable law or pursuant to this Support Agreement, the Merger Agreement or the transactions contemplated hereby or thereby), assign, gift or otherwise dispose of (collectively, a "**Transfer**") or enter into any contract, option or other arrangement or understanding with respect to any Transfer of, any of the Ambros Shares. The Holder further agrees not to (i) deposit (or permit the deposit of) any Ambros Shares in a voting trust or grant any proxy or power of attorney with respect to any Ambros Shares (other than the proxy contemplated by Section 11) or (ii) enter into any voting agreement or similar arrangement, commitment or understanding with respect to any Ambros Shares inconsistent with the Holder's obligations under this Support Agreement. Any Transfer or purported Transfer of Ambros Shares in breach or violation of this Support Agreement shall be void and of no force or effect. Notwithstanding the foregoing, the restrictions set forth in this Section 2 shall not apply to: (a) Transfers by gift to members of the Holder's immediate family or to a trust, the beneficiary of which is a member of the Holder's immediate family, an affiliate of such Person or to a charitable organization; (b) Transfers by virtue of laws of descent and distribution upon death of the individual; (c) Transfers by operation of law or pursuant to a court order, such as a qualified domestic relations order, divorce decree or separation agreement; (d) Transfers to a partnership, limited liability company or other entity of which the Holder and/or the immediate family of the Holder are the legal and beneficial owner of all of the outstanding equity securities or similar interests; (e) Transfers to a trustor or beneficiary of the trust, to the designated nominee of a beneficiary of such trust or to the estate of a beneficiary of such trust; (f) Transfers by virtue of the laws of the state of the entity's organization and the entity's organizational documents upon dissolution of the entity; (g) the settlement, exercise, termination or vesting of any Ambros Options, including in order to (i) pay the exercise price thereof or (ii) satisfy taxes applicable thereto; and (h) Transfers to any Affiliate, equityholder, partner or member of such Holder; *provided, however*, that (i) no filing under the Exchange Act or other public announcement shall be required or shall be made voluntarily in connection with such Transfer (other than filings made in respect of involuntary Transfers; *provided*, that reasonable notice shall be provided to Werewolf prior to any such filing) and that (ii), to the fullest extent permitted by applicable Law, for any permitted Transfers pursuant clauses (a) to (h) (other than clause (g)), the Ambros Shares so Transferred shall continue to be subject to the provisions of this Support Agreement and, as a condition precedent to any such Transfer, these permitted transferees must enter into a written agreement, in substantially the form of this Support Agreement, agreeing to be bound by all of the terms and conditions of this Support Agreement and shall have the same rights and benefits under this Support Agreement.

3. Documentation and Information. The Holder shall permit and hereby authorizes Ambros and Werewolf to publish and disclose in all documents and schedules filed with the SEC, and any press release or other disclosure document that Ambros or Werewolf reasonably determines to be necessary in connection with the Merger and any of the Contemplated Transactions, the Holder's identity and ownership of the Ambros Shares and the nature of the Holder's commitments and obligations under this Agreement. Werewolf is an intended third-party beneficiary of this Section 3.

4. Representations and Warranties of the Holder. The Holder hereby represents and warrants to Werewolf and Ambros as follows:

(a) the Holder has full power and authority (or legal capacity, if the Holder is a natural person) to execute and deliver this Support Agreement and to perform the Holder's obligations hereunder;

(b) this Support Agreement has been duly executed and delivered by the Holder, and, assuming this Support Agreement constitutes a valid and binding obligation of Werewolf and Ambros, constitutes a valid and binding obligation of the Holder enforceable against the Holder in accordance with its terms, subject to (i) laws of general application relating to bankruptcy, insolvency and the relief of debtors, and (ii) rules of law governing specific performance, injunctive relief and other equitable remedies, and the Holder understands that each of Werewolf and Ambros is entering into the Merger Agreement in reliance upon the Holder's execution and delivery of this Support Agreement;

(c) the Holder is the record or beneficial owner of the Ambros Shares, free and clear of any and all Encumbrances (other than Encumbrances arising under applicable securities Laws or created by this Support Agreement), and does not beneficially own any securities of Ambros other than the shares of Ambros Capital Stock and rights to purchase or otherwise acquire shares of Ambros Capital Stock set forth in Exhibit A;

(d) the execution and delivery of this Support Agreement by the Holder will not (i) result in a violation or breach of any agreement to which the Holder is a party, (ii) violate any Law or order applicable to the Holder or (iii) if Holder is an entity, violate any constituent or organizational document, except in each case as would not prevent or materially delay the Holder from performing its obligations hereunder;

(e) as of the date of this Support Agreement, there is no proceeding pending or, to the knowledge of the Holder, threatened against the Holder or any of the Holder's properties or assets (whether tangible or intangible) that would reasonably be expected to prevent or materially impair the ability of the Holder to perform the Holder's obligations hereunder;

(f) (i) other than the Existing Investor Agreements, the Holder does not have any agreement, arrangement, or understanding, whether written or oral, formal or informal, with any other holder of Ambros Capital Stock to act together for the purpose of acquiring, holding, voting, or disposing of shares of Ambros Capital Stock, nor does the Holder otherwise act in concert with any other holder of Ambros Capital Stock in connection with the exercise of any rights or powers arising from the ownership of Ambros Capital Stock, other than pursuant to the Existing Investor Agreements, (ii) without limiting the generality of the foregoing, other than as a result of the Existing Investor Agreements, the Holder is not a member of a "group" (as such term is used in Section 13(d)(3) of the Exchange Act) with any other holder of any equity securities of Ambros for the purpose of acquiring, holding, voting, or disposing of equity securities of Ambros and (iii) other than pursuant to the Voting Agreement, the Holder has not granted any proxy or power of attorney with respect to any Ambros Shares that remains in effect, deposited any Ambros Shares into a voting trust or entered into any voting agreement or similar arrangement, commitment or understanding with respect to the voting of any Ambros Shares, in each case except as contemplated by this Support Agreement;

(g) the Holder has had the opportunity to review the Merger Agreement, including the provisions relating to the payment, allocation, and type of the consideration to be paid to the stockholders of Ambros as well as holders of Ambros Options, and this Support Agreement with counsel of the Holder's own choosing. The Holder has had an opportunity to review with its own tax advisors the tax consequences of the Merger and the Contemplated Transactions. The Holder understands that it must rely solely on its advisors and not on any statements or representations made by Werewolf or Ambros, or any of their respective agents or representatives. The Holder understands that the Holder (and not Werewolf or Ambros) shall be responsible for the Holder's tax liability that may arise as a result of the Merger or the transactions contemplated by the Merger Agreement. The Holder understands and acknowledges that Ambros, Werewolf, and Merger Sub are entering into the Merger Agreement in reliance upon the Holder's execution, delivery and performance of this Support Agreement; and

(h) the Holder has full voting power with respect to the Ambros Shares, and full power of disposition, full power to issue instructions with respect to the matters set forth herein and full power to agree to all of the matters set forth in this Support Agreement, in each case with respect to all of the Ambros Shares, in each case, subject to the Existing Investor Agreements. Other than the Existing Investor Agreements, none of the Ambros Shares are subject to any proxy, voting trust or other agreement or arrangement with respect to the voting of the Ambros Shares, in each case except as contemplated by this Support Agreement.

5. No Impact on Directors' or Officers' Duties. Notwithstanding any provision of this Support Agreement to the contrary, the parties acknowledge that (a) the Holder is entering into this Support Agreement solely in the Holder's capacity as a record or beneficial owner of Ambros Capital Stock and not in such Holder's capacity as a director, officer or employee of Ambros or in the Holder's capacity as a trustee or fiduciary of any Ambros Equity Plan and (b) nothing in this Support Agreement is intended to limit or restrict the Holder, or a designee of the Holder, who is a director or officer of Ambros from taking any action or inaction or voting in favor in the Holder's sole discretion on any matter in his or her capacity as a director of Ambros or in the Holder's capacity as a trustee or fiduciary of any Ambros Equity Plan (if applicable), or fulfilling the obligations of such office, and none of such actions in such capacity shall be deemed to constitute a breach of this Support Agreement.

6. No Ownership Interest. Nothing contained in this Support Agreement will be deemed to vest in Werewolf any direct or indirect ownership or incidents of ownership of or with respect to the Ambros Shares. All rights, ownership and economic benefits of and relating to the Ambros Shares will remain and belong to the Holder, and Werewolf will have no authority to manage, direct, superintend, restrict, regulate, govern or administer any of the policies or operations of Ambros or exercise any power or authority to direct the Holder in the voting of any of the Ambros Shares, except as otherwise expressly provided herein with respect to the Ambros Shares and except as otherwise expressly provided in the Merger Agreement.

7. No Solicitation. From the date hereof until the Termination Date, the Holder (solely in his, her or its capacity as a stockholder of Ambros) shall not, directly or indirectly: (a) solicit, initiate or knowingly encourage, induce or facilitate the communication, making, submission or announcement of any Acquisition Proposal or Acquisition Inquiry or take any action that could reasonably be expected to lead to an Acquisition Proposal or Acquisition Inquiry; (b) furnish any non-public information regarding Ambros to any Person in connection with or in response to an Acquisition Proposal or Acquisition Inquiry; (c) engage in discussions (other than to inform any Person of the existence of the provisions in this Section 7) or negotiations with any Person with respect to any Acquisition Proposal or Acquisition Inquiry; (d) approve, endorse or recommend any Acquisition Proposal; (e) execute or enter into any letter of intent or any Contract contemplating or otherwise relating to any Acquisition Transaction; or (f) publicly propose to do any of the foregoing; *provided, however*, that the foregoing restrictions in this Section 7 shall only apply to the Holder in the Holder's capacity as a holder of Ambros Capital Stock and not, for the avoidance of doubt, in the Holder's capacity as a director or officer (if applicable) of Ambros, whose activities with respect to any Acquisition Proposal or Acquisition Inquiry shall be governed by the Merger Agreement. Notwithstanding anything to the contrary herein, this Section 7 is subject in all respects to Section 5 of this Support Agreement.

8. Notices. All notices and other communications hereunder shall be in writing and shall be deemed to have been duly delivered and received hereunder (a) one (1) Business Day after being sent for next Business Day delivery, fees prepaid, via a reputable international overnight courier service, (b) upon delivery in the case of delivery by hand or (c) on the date delivered in the place of delivery if sent by email or facsimile (with a written or electronic confirmation of delivery) prior to 6:00 p.m. New York City time, otherwise on the next succeeding Business Day, in each case to the intended recipient as set forth below:

9. Termination. This Support Agreement shall automatically terminate upon the earliest to occur of (a) such date and time as the Merger Agreement shall have been validly terminated, (b) such date and time as there is any amendment of the Merger Agreement, without the prior written consent of the Holder, that reduces the amount or changes the form of the consideration payable to the holders of Ambros Capital Stock in the Contemplated Transactions in a manner that is adverse to the Holder, (c) such date and time as the Ambros Board shall have effected an Ambros Board Adverse Recommendation Change, (d) the Effective Time and (e) such date and time as a written agreement executed by the parties hereto to terminate this Support Agreement is effective (such date, the "**Termination Date**"). Notwithstanding the foregoing, Section 8 (*Notices*), this Section 9 and Sections 16 through 26 shall survive any termination of this Support Agreement in accordance with their respective terms, and no termination of this Support Agreement shall relieve any party hereto from any liability for such party's willful and material breach of this Support Agreement prior to such termination.

10. Stop Transfer Instructions. At all times commencing with the execution and delivery of this Support Agreement and continuing until the Termination Date, in furtherance of this Support Agreement, the Holder hereby authorizes Ambros or its counsel to notify Ambros's transfer agent that there is a stop transfer order with respect to all of the Ambros Shares (and that this Support Agreement places limits on the voting and transfer of such Ambros Shares).

11. Irrevocable Proxy. The Holder's execution and delivery of the Ambros Stockholder Written Consent pursuant to Section 1 shall constitute the Holder's binding vote and consent, in its capacity as a stockholder of Ambros, in favor of the Supported Matters. In addition, and solely as a backstop in the event that a meeting of the stockholders of Ambros is convened, or a vote of the stockholders of Ambros is otherwise sought, with respect to the Supported Matters in lieu of, or in addition to, the Ambros Stockholder Written Consent, by execution of this Support Agreement, the Holder does hereby appoint Werewolf and any of its designees with full power of substitution and resubstitution, as the Holder's true and lawful attorney and irrevocable proxy, to the fullest extent of the Holder's rights with respect to the Ambros Shares, to vote and exercise all voting and related rights, including the right to sign the Holder's name (solely in its capacity as a stockholder) to any stockholder consent. The Holder intends this proxy to be irrevocable and coupled with an interest hereunder until the Termination Date, hereby revokes (or agrees to cause to be revoked) any proxy previously granted by the Holder with respect to the Ambros Shares and represents that none of such previously-granted proxies are irrevocable. The Holder hereby affirms that the proxy set forth in this Section 11 is given in connection with, and granted in consideration of, and as an inducement to Werewolf, Ambros, and Merger Sub to enter into the Merger Agreement and that such proxy is given to secure the obligations of the Holder under Section 1. The irrevocable proxy and power of attorney granted herein shall survive the death or incapacity of the Holder and the obligations of the Holder shall be binding on the Holder's heirs, personal representatives, successors, transferees and assigns. The Holder hereby agrees not to grant any subsequent powers of attorney or proxies with respect to any Ambros Shares with respect to the matters set forth in Section 1 until after the Termination Date. With respect to any Ambros Shares that are owned beneficially by the Holder but are not held of record by the Holder (other than shares beneficially owned by the Holder that are held in the name of a bank, broker or nominee), the Holder shall take all action necessary to cause the record holder of such Ambros Shares to grant the irrevocable proxy and take all other actions provided for in this Section 11 with respect to such Ambros Shares. Notwithstanding anything contained herein to the contrary, this irrevocable proxy shall automatically terminate upon the Termination Date.

12. Waiver of Appraisal Rights. In connection with the Contemplated Transactions, the Holder hereby expressly (a) waives, to the extent permitted under applicable Law, any and all rights under Section 262 of Delaware Law, a copy of which is attached hereto as Exhibit B, with respect to any Ambros Shares and any and all rights under any other applicable Law granting the Holder the right to have any Ambros Shares appraised in connection with the Contemplated Transactions or to otherwise dissent from the Contemplated Transactions and (b) agrees that the Holder will not, under any circumstances in connection with the Contemplated Transactions, exercise any dissenters' or appraisal rights in respect of any Ambros Shares.

13. No Legal Actions. The Holder will not in its capacity as a stockholder of Ambros bring, commence, institute, maintain, prosecute or voluntarily aid any Legal Proceeding which (i) challenges the validity or seeks to enjoin the operation of any provision of this Agreement or (ii) alleges that the execution and delivery of this Agreement by the Holder, either alone or together with the other voting agreements and proxies to be delivered in connection with the execution of the Merger Agreement, or the approval of the Merger Agreement and the Contemplated Transactions by the Ambros Board, constitutes a breach of any fiduciary duty of the Ambros Board or any member thereof.

14. Entire Agreement. This Support Agreement constitutes the entire agreement, and supersedes all prior agreements and understanding, both written and oral, among the parties hereto with respect to the subject matter hereof and is fully binding on the parties hereto.

15. Counterparts. This Support Agreement may be executed in one or more counterparts, all of which shall be considered one and the same agreement and shall become effective when one or more counterparts have been signed by each of the parties and delivered to the other parties. Any such counterpart, to the extent delivered by DocuSign or AdobeSign, fax or .pdf, .tif, .gif, .jpg or similar attachment to electronic mail (any such delivery, an "**Electronic Delivery**"), will be treated in all manner and respects as an original executed counterpart and will be considered to have the same binding legal effect as if it were the original signed version thereof delivered in person. No party hereto may raise the use of an Electronic Delivery to deliver a signature, or the fact that any signature or agreement or instrument was transmitted or communicated through the use of an Electronic Delivery, as a defense to the formation of a contract, and each party hereto forever waives any such defense, except to the extent such defense relates to lack of authenticity.

16. Assignment. Neither this Support Agreement nor any of the rights, interests or obligations under this Support Agreement shall be assigned, in whole or in part, by operation of law or otherwise by any of the parties without the prior written consent of the other parties, except that Werewolf may transfer or assign its rights and obligations under this Agreement, in whole or from time to time in part, to one or more of its Affiliates at any time; *provided* that such transfer or assignment shall not relieve Werewolf of any of its obligations hereunder. Any purported assignment without such consent shall be void. Subject to the preceding sentences, the terms of this Support Agreement shall be binding upon and shall inure to the benefit of each of the parties hereto and their respective successors and assigns.

17. Amendment; Waiver. This Support Agreement may not be amended or modified except in writing signed by each of the parties hereto. Any provision of this Support Agreement may be waived if such waiver is in writing and is signed by the party against whom the waiver is to be effective. No failure or delay by either party in exercising any right, power or privilege hereunder shall operate as a waiver thereof, nor shall any single or partial exercise thereof preclude any other or further exercise thereof or the exercise of any other right, power or privilege.

18. Severability. Any term or provision of this Support Agreement that is invalid or unenforceable in any situation in any jurisdiction shall not affect the validity or enforceability of the remaining terms and provisions of this Support Agreement or the validity or enforceability of the offending term or provision in any other situation or in any other jurisdiction. If a final judgment of a court of competent jurisdiction declares that any term or provision of this Support Agreement is invalid or unenforceable, the parties hereto agree that the court making such determination will have the power to limit such term or provision, to delete specific words or phrases or to replace such term or provision with a term or provision that is valid and enforceable and that comes closest to expressing the intention of the invalid or unenforceable term or provision, and this Support Agreement shall be valid and enforceable as so modified. In the event such court does not exercise the power granted to it in the prior sentence, the parties hereto agree to replace such invalid or unenforceable term or provision with a valid and enforceable term or provision that will achieve, to the extent possible, the economic, business and other purposes of such invalid or unenforceable term or provision.

19. Confidentiality. Except to the extent required by applicable Law, the Holder shall hold any non-public information regarding this Support Agreement, the Merger Agreement and the Merger in strict confidence and shall not divulge any such information to any third person until Werewolf has publicly disclosed its entry into the Merger Agreement and this Support Agreement; *provided*, *however*, that the Holder may disclose such information (a) to its attorneys, accountants, consultants, trustees, beneficiaries and other representatives (provided such representatives are subject to confidentiality obligations at least as restrictive as those contained herein), and (b) to any Affiliate, partner, member, stockholder, parent or subsidiary of the Holder, provided in each case that the Stockholder informs the Person receiving the information that such information is confidential and such Person agrees in writing to abide by the terms of this Section 19. Neither Holder nor any of its Affiliates (other than Ambros, whose actions shall be governed by the Merger Agreement), shall issue or cause the publication of any press release or other public announcement with respect to this Agreement, the Merger, the Merger Agreement or the other transactions contemplated hereby or thereby without the prior written consent of Ambros and Werewolf, except as may be required by applicable Law in which circumstance such announcing party shall make reasonable efforts to consult with Ambros and Werewolf to the extent practicable. Werewolf is an intended third-party beneficiary of this Section 19.

20. Governing Law; Jurisdiction; Waiver of Jury Trial. This Support Agreement shall be governed by, and construed in accordance with, the laws of the State of Delaware, regardless of the laws that might otherwise govern under applicable principles of conflicts of laws. In any action or proceeding between any of the parties arising out of or

relating to this Support Agreement or any of the Contemplated Transactions, each of the parties: irrevocably and unconditionally (a) consents and submits to the exclusive jurisdiction and venue of the Court of Chancery of the State of Delaware or, to the extent such court does not have subject matter jurisdiction, the Superior Court of the State of Delaware or the United States District Court for the District of Delaware, (b) agrees that all claims in respect of such action or proceeding shall be heard and determined exclusively in accordance with clause (a) of this paragraph, (c) waives any objection to laying venue in any such action or proceeding in such courts, (d) waives any objection that such courts are an inconvenient forum or do not have jurisdiction over any party, (e) agrees that service of process upon such party in any such action or proceeding shall be effective if notice is given in accordance with Section 8 of this Agreement and (f) irrevocably and unconditionally waives the right to trial by jury.

21. Specific Performance. Each party hereto acknowledges that, in view of the uniqueness of the transactions contemplated by this Support Agreement, the other party or parties hereto will not have an adequate remedy at law for money damages in the event that this Support Agreement has not been performed in accordance with its terms, and therefore agrees that such other party or parties shall be entitled to seek specific enforcement of the terms hereof in addition to any other remedy it may seek, at law or in equity.

22. Expenses. All fees, costs and expenses incurred in connection with this Support Agreement and the transactions contemplated hereby shall be paid by the party hereto incurring such fees, costs and expenses.

23. Further Assurances. Each of the parties hereto will execute and deliver, or cause to be executed and delivered, all further documents and instruments and use their respective reasonable best efforts to take, or cause to be taken, all actions and to do, or cause to be done, all things necessary under applicable Law to perform their respective obligations as expressly set forth under this Support Agreement.

24. Construction.

For purposes of this Support Agreement, whenever the context requires: the singular number shall include the plural, and vice versa; the masculine gender shall include the feminine and neuter genders; the feminine gender shall include the masculine and neuter genders; and the neuter gender shall include masculine and feminine genders.

The parties hereto agree that any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not be applied in the construction or interpretation of this Support Agreement.

As used in this Support Agreement, the words “include” and “including,” and variations thereof, shall not be deemed to be terms of limitation, but rather shall be deemed to be followed by the words “without limitation.”

Except as otherwise indicated, all references in this Support Agreement to “Sections” and “Exhibits” are intended to refer to Sections of this Support Agreement and Exhibits to this Support Agreement, respectively.

The headings contained in this Support Agreement are for convenience of reference only, shall not be deemed to be a part of this Support Agreement and shall not be referred to in connection with the construction or interpretation of this Support Agreement.

25. No Agreement Until Executed. Irrespective of negotiations among the parties or the exchanging of drafts of this Support Agreement, this Support Agreement shall not constitute or be deemed to evidence a contract, agreement, arrangement or understanding between the parties hereto unless and until (a) the Merger Agreement is executed by all parties thereto and (b) this Support Agreement is executed by all parties hereto.

26. Non-Recourse. This Support Agreement may only be enforced against, and any Legal Proceeding based upon, arising out of, or related to this Support Agreement, or the negotiation, execution or performance of this Support Agreement, may only be brought against the entities that are expressly named as parties hereto and then only with respect to the specific obligations set forth herein with respect to such party. No past, present or future director, officer, employee, incorporator, manager, member, general or limited partner, stockholder, equityholder, controlling person, Affiliate, agent, attorney or other Representative of any party hereto or any of their successors or permitted assigns or any director, officer, employee, incorporator, manager, member, direct or indirect general or limited partner, direct or indirect stockholder, direct or indirect equityholder, direct or indirect controlling person, Affiliate, agent, attorney, Representative, successor or permitted assign of any of the foregoing, shall have any liability to the Holder, Ambros or Werewolf for any obligations or liabilities of any party under this Support Agreement or for any Legal Proceeding (whether in tort, contract or otherwise) based on, in respect of or by reason of the transactions contemplated hereby or in respect of any written or oral representations made or alleged to be made in connection herewith.

27. Certain Agreements. Each Holder, by this Support Agreement, and with respect to such Holder's Ambros Shares, severally and not jointly, hereby agrees to terminate, subject to the occurrence of, and effective immediately prior to, the Effective Time, each of (a) the Existing Investor Agreements and (b) any stockholder agreements, voting agreements, registration rights agreements, co-sale agreements and any other similar Contracts between Ambros and any holders of Ambros Shares, including any such Contract granting any Person investor rights, rights of first refusal, registration rights or director designation rights. Each Holder hereby terminates and waives all rights of first refusal, redemption rights and rights of notice of the Merger and the other transactions contemplated by the Merger Agreement, effective as of immediately prior to, and contingent upon, the Effective Time.

Exhibit B

§ 262. Appraisal rights [For application of this section, see § 17; 82 Del. Laws, c. 45, § 23; 82 Del. Laws, c. 256, § 24; and 83 Del. Laws, c. 377, § 22].

(a) Any stockholder of a corporation of this State who holds shares of stock on the date of the making of a demand pursuant to subsection (d) of this section with respect to such shares, who continuously holds such shares through the effective date of the merger, consolidation, or conversion, who has otherwise complied with subsection (d) of this section and who has neither voted in favor of the merger, consolidation or conversion nor consented thereto in writing pursuant to § 228 of this title shall be entitled to an appraisal by the Court of Chancery of the fair value of the stockholder's shares of stock under the circumstances described in subsections (b) and (c) of this section. As used in this section, the word "stockholder" means a holder of record of stock in a corporation; the words "stock" and "share" mean and include what is ordinarily meant by those words; the words "depository receipt" mean a receipt or other instrument issued by a depository representing an interest in 1 or more shares, or fractions thereof, solely of stock of a corporation, which stock is deposited with the depository; the words "beneficial owner" mean a person who is the beneficial owner of shares of stock held either in voting trust or by a nominee on behalf of such person; and the word "person" means any individual, corporation, partnership, unincorporated association or other entity.

(b) Appraisal rights shall be available for the shares of any class or series of stock of a constituent or converting corporation in a merger, consolidation or conversion to be effected pursuant to § 251 (other than a merger effected pursuant to § 251(g) of this title), § 252, § 254, § 255, § 256, § 257, § 258, § 263, § 264 or § 266 of this title (other than, in each case and solely with respect to a domesticated corporation, a merger, consolidation or conversion authorized pursuant to and in accordance with the provisions of § 388 of this title):

(1) Provided, however, that no appraisal rights under this section shall be available for the shares of any class or series of stock, which stock, or depository receipts in respect thereof, at the record date fixed to determine the stockholders entitled to receive notice of the meeting of stockholders, or at the record date fixed to determine the stockholders entitled to consent pursuant to § 228 of this title, to act upon the agreement of merger or consolidation or the resolution providing for conversion (or, in the case of a merger pursuant to § 251(h) of this title, as of immediately prior to the execution of the agreement of merger), were either: (i) listed on a national securities exchange or (ii) held of record by more than 2,000 holders; and further provided that no appraisal rights shall be available for any shares of stock of the constituent corporation surviving a merger if the merger did not require for its approval the vote of the stockholders of the surviving corporation as provided in § 251(f) of this title.

(2) Notwithstanding paragraph (b)(1) of this section, appraisal rights under this section shall be available for the shares of any class or series of stock of a constituent or converting corporation if the holders thereof are required by the terms of an agreement of merger or consolidation, or by the terms of a resolution providing for conversion, pursuant to § 251, § 252, § 254, § 255, § 256, § 257, § 258, § 263, § 264 or § 266 of this title to accept for such stock anything except:

a. Shares of stock of the corporation surviving or resulting from such merger or consolidation, or of the converted entity if such entity is a corporation as a result of the conversion, or depository receipts in respect thereof;

b. Shares of stock of any other corporation, or depository receipts in respect thereof, which shares of stock (or depository receipts in respect thereof) or depository receipts at the effective date of the merger, consolidation or conversion will be either listed on a national securities exchange or held of record by more than 2,000 holders;

c. Cash in lieu of fractional shares or fractional depository receipts described in the foregoing paragraphs (b)(2)a. and b. of this section; or

d. Any combination of the shares of stock, depository receipts and cash in lieu of fractional shares or fractional depository receipts described in the foregoing paragraphs (b)(2)a., b. and c. of this section.

(3) In the event all of the stock of a subsidiary Delaware corporation party to a merger effected under § 253 or § 267 of this title is not owned by the parent immediately prior to the merger, appraisal rights shall be available for the shares of the subsidiary Delaware corporation.

(4) [Repealed.]

(c) Any corporation may provide in its certificate of incorporation that appraisal rights under this section shall be available for the shares of any class or series of its stock as a result of an amendment to its certificate of incorporation, any merger or consolidation in which the corporation is a constituent corporation, the sale of all or substantially all of the assets of the corporation or a conversion effected pursuant to § 266 of this title. If the certificate of incorporation contains such a provision, the provisions of this section, including those set forth in subsections (d), (e), and (g) of this section, shall apply as nearly as is practicable.

(d) Appraisal rights shall be perfected as follows:

(1) If a proposed merger, consolidation or conversion for which appraisal rights are provided under this section is to be submitted for approval at a meeting of stockholders, the corporation, not less than 20 days prior to the meeting, shall notify each of its stockholders who was such on the record date for notice of such meeting (or such members who received notice in accordance with § 255(c) of this title) with respect to shares for which appraisal rights are available pursuant to subsection (b) or (c) of this section that appraisal rights are available for any or all of the shares of the constituent corporations or the converting corporation, and shall include in such notice either a copy of this section (and, if 1 of the constituent corporations or the converting corporation is a nonstock corporation, a copy of § 114 of this title) or information directing the stockholders to a publicly available electronic resource at which this section (and, § 114 of this title, if applicable) may be accessed without subscription or cost. Each stockholder electing to demand the appraisal of such stockholder's shares shall deliver to the corporation, before the taking of the vote on the merger, consolidation or conversion, a written demand for appraisal of such stockholder's shares; provided that a demand may be delivered to the corporation by electronic transmission if directed to an information processing system (if any) expressly designated for that purpose in such notice. Such demand will be sufficient if it reasonably informs the corporation of the identity of the stockholder and that the stockholder intends thereby to demand the appraisal of such stockholder's shares. A proxy or vote against the merger, consolidation or conversion shall not constitute such a demand. A stockholder electing to take such action must do so by a separate written demand as herein provided. Within 10 days after the effective date of such merger, consolidation or conversion, the surviving, resulting or converted entity shall notify each stockholder of each constituent or converting corporation who has complied with this subsection and has not voted in favor of or consented to the merger, consolidation or conversion, and any beneficial owner who has demanded appraisal under paragraph (d)(3) of this section, of the date that the merger, consolidation or conversion has become effective; or

(2) If the merger, consolidation or conversion was approved pursuant to § 228, § 251(h), § 253, or § 267 of this title, then either a constituent or converting corporation before the effective date of the merger, consolidation or conversion, or the surviving, resulting or converted entity within 10 days after such effective date, shall notify each stockholder of any class or series of stock of such constituent or converting corporation who is entitled to appraisal rights of the approval of the merger, consolidation or conversion and that appraisal rights are available for any or all shares of such class or series of stock of such constituent or converting corporation, and shall include in such notice either a copy of this section (and, if 1 of the constituent corporations or the converting corporation is a nonstock corporation, a copy of § 114 of this title) or information directing the stockholders to a publicly available electronic resource at which this section (and § 114 of this title, if applicable) may be accessed without subscription or cost. Such notice may, and, if given on or after the effective date of the merger, consolidation or conversion, shall, also notify such stockholders of the effective date of the merger, consolidation or conversion. Any stockholder entitled to appraisal rights may, within 20 days after the date of giving such notice or, in the case of a merger approved pursuant to § 251(h) of this title, within the later of the consummation of the offer contemplated by § 251(h) of this title and 20 days after the date of giving such notice, demand in writing from the surviving or resulting entity the appraisal of such holder's shares; provided that a demand may be delivered to such entity by electronic transmission if directed to an information processing system (if any) expressly designated for that purpose in such notice. Such demand will be sufficient if it reasonably informs such entity of the identity of the stockholder and that the stockholder intends thereby to demand the appraisal of such holder's shares. If such notice did not notify stockholders of the effective date of the merger, consolidation or conversion, either (i) each such constituent corporation or the converting corporation shall send a second notice before the effective date of the merger, consolidation or conversion notifying each of the holders of any class or series

of stock of such constituent or converting corporation that are entitled to appraisal rights of the effective date of the merger, consolidation or conversion or (ii) the surviving, resulting or converted entity shall send such a second notice to all such holders on or within 10 days after such effective date; provided, however, that if such second notice is sent more than 20 days following the sending of the first notice or, in the case of a merger approved pursuant to § 251(h) of this title, later than the later of the consummation of the offer contemplated by § 251(h) of this title and 20 days following the sending of the first notice, such second notice need only be sent to each stockholder who is entitled to appraisal rights and who has demanded appraisal of such holder's shares in accordance with this subsection and any beneficial owner who has demanded appraisal under paragraph (d)(3) of this section. An affidavit of the secretary or assistant secretary or of the transfer agent of the corporation or entity that is required to give either notice that such notice has been given shall, in the absence of fraud, be prima facie evidence of the facts stated therein. For purposes of determining the stockholders entitled to receive either notice, each constituent corporation or the converting corporation may fix, in advance, a record date that shall be not more than 10 days prior to the date the notice is given, provided, that if the notice is given on or after the effective date of the merger, consolidation or conversion, the record date shall be such effective date. If no record date is fixed and the notice is given prior to the effective date, the record date shall be the close of business on the day next preceding the day on which the notice is given.

(3) Notwithstanding subsection (a) of this section (but subject to this paragraph (d)(3)), a beneficial owner may, in such person's name, demand in writing an appraisal of such beneficial owner's shares in accordance with either paragraph (d)(1) or (2) of this section, as applicable; provided that (i) such beneficial owner continuously owns such shares through the effective date of the merger, consolidation or conversion and otherwise satisfies the requirements applicable to a stockholder under the first sentence of subsection (a) of this section and (ii) the demand made by such beneficial owner reasonably identifies the holder of record of the shares for which the demand is made, is accompanied by documentary evidence of such beneficial owner's beneficial ownership of stock and a statement that such documentary evidence is a true and correct copy of what it purports to be, and provides an address at which such beneficial owner consents to receive notices given by the surviving, resulting or converted entity hereunder and to be set forth on the verified list required by subsection (f) of this section.

(e) Within 120 days after the effective date of the merger, consolidation or conversion, the surviving, resulting or converted entity, or any person who has complied with subsections (a) and (d) of this section hereof and who is otherwise entitled to appraisal rights, may commence an appraisal proceeding by filing a petition in the Court of Chancery demanding a determination of the value of the stock of all such stockholders. Notwithstanding the foregoing, at any time within 60 days after the effective date of the merger, consolidation or conversion, any person entitled to appraisal rights who has not commenced an appraisal proceeding or joined that proceeding as a named party shall have the right to withdraw such person's demand for appraisal and to accept the terms offered upon the merger, consolidation or conversion. Within 120 days after the effective date of the merger, consolidation or conversion, any person who has complied with the requirements of subsections (a) and (d) of this section hereof, upon request given in writing (or by electronic transmission directed to an information processing system (if any) expressly designated for that purpose in the notice of appraisal), shall be entitled to receive from the surviving, resulting or converted entity a statement setting forth the aggregate number of shares not voted in favor of the merger, consolidation or conversion (or, in the case of a merger approved pursuant to § 251(h) of this title, the aggregate number of shares (other than any excluded stock (as defined in § 251(h)(6)d. of this title)) that were the subject of, and were not tendered into, and accepted for purchase or exchange in, the offer referred to in § 251(h)(2) of this title)), and, in either case, with respect to which demands for appraisal have been received and the aggregate number of stockholders or beneficial owners holding or owning such shares (provided that, where a beneficial owner makes a demand pursuant to paragraph (d)(3) of this section, the record holder of such shares shall not be considered a separate stockholder holding such shares for purposes of such aggregate number). Such statement shall be given to the person within 10 days after such person's request for such a statement is received by the surviving, resulting or converted entity or within 10 days after expiration of the period for delivery of demands for appraisal under subsection (d) of this section hereof, whichever is later.

(f) Upon the filing of any such petition by any person other than the surviving, resulting or converted entity, service of a copy thereof shall be made upon such entity, which shall within 20 days after such service file in the office of the Register in Chancery in which the petition was filed a duly verified list containing the names and addresses of all persons who have demanded appraisal for their shares and with whom agreements as to the value of their shares have not been reached by such entity. If the petition shall be filed by the surviving, resulting or

converted entity, the petition shall be accompanied by such a duly verified list. The Register in Chancery, if so ordered by the Court, shall give notice of the time and place fixed for the hearing of such petition by registered or certified mail to the surviving, resulting or converted entity and to the persons shown on the list at the addresses therein stated. The forms of the notices by mail and by publication shall be approved by the Court, and the costs thereof shall be borne by the surviving, resulting or converted entity.

(g) At the hearing on such petition, the Court shall determine the persons who have complied with this section and who have become entitled to appraisal rights. The Court may require the persons who have demanded an appraisal for their shares and who hold stock represented by certificates to submit their certificates of stock to the Register in Chancery for notation thereon of the pendency of the appraisal proceedings; and if any person fails to comply with such direction, the Court may dismiss the proceedings as to such person. If immediately before the merger, consolidation or conversion the shares of the class or series of stock of the constituent or converting corporation as to which appraisal rights are available were listed on a national securities exchange, the Court shall dismiss the proceedings as to all holders of such shares who are otherwise entitled to appraisal rights unless (1) the total number of shares entitled to appraisal exceeds 1% of the outstanding shares of the class or series eligible for appraisal, (2) the value of the consideration provided in the merger, consolidation or conversion for such total number of shares exceeds $1 million, or (3) the merger was approved pursuant to § 253 or § 267 of this title.

(h) After the Court determines the persons entitled to an appraisal, the appraisal proceeding shall be conducted in accordance with the rules of the Court of Chancery, including any rules specifically governing appraisal proceedings. Through such proceeding the Court shall determine the fair value of the shares exclusive of any element of value arising from the accomplishment or expectation of the merger, consolidation or conversion, together with interest, if any, to be paid upon the amount determined to be the fair value. In determining such fair value, the Court shall take into account all relevant factors. Unless the Court in its discretion determines otherwise for good cause shown, and except as provided in this subsection, interest from the effective date of the merger, consolidation or conversion through the date of payment of the judgment shall be compounded quarterly and shall accrue at 5% over the Federal Reserve discount rate (including any surcharge) as established from time to time during the period between the effective date of the merger, consolidation or conversion and the date of payment of the judgment. At any time before the entry of judgment in the proceedings, the surviving, resulting or converted entity may pay to each person entitled to appraisal an amount in cash, in which case interest shall accrue thereafter as provided herein only upon the sum of (1) the difference, if any, between the amount so paid and the fair value of the shares as determined by the Court, and (2) interest theretofore accrued, unless paid at that time. Upon application by the surviving, resulting or converted entity or by any person entitled to participate in the appraisal proceeding, the Court may, in its discretion, proceed to trial upon the appraisal prior to the final determination of the persons entitled to an appraisal. Any person whose name appears on the list filed by the surviving, resulting or converted entity pursuant to subsection (f) of this section may participate fully in all proceedings until it is finally determined that such person is not entitled to appraisal rights under this section.

(i) The Court shall direct the payment of the fair value of the shares, together with interest, if any, by the surviving, resulting or converted entity to the persons entitled thereto. Payment shall be so made to each such person upon such terms and conditions as the Court may order. The Court's decree may be enforced as other decrees in the Court of Chancery may be enforced, whether such surviving, resulting or converted entity be an entity of this State or of any state.

(j) The costs of the proceeding may be determined by the Court and taxed upon the parties as the Court deems equitable in the circumstances. Upon application of a person whose name appears on the list filed by the surviving, resulting or converted entity pursuant to subsection (f) of this section who participated in the proceeding and incurred expenses in connection therewith, the Court may order all or a portion of such expenses, including, without limitation, reasonable attorney's fees and the fees and expenses of experts, to be charged pro rata against the value of all the shares entitled to an appraisal not dismissed pursuant to subsection (k) of this section or subject to such an award pursuant to a reservation of jurisdiction under subsection (k) of this section.

(k) From and after the effective date of the merger, consolidation or conversion, no person who has demanded appraisal rights with respect to some or all of such person's shares as provided in subsection (d) of this section shall be entitled to vote such shares for any purpose or to receive payment of dividends or other distributions on such shares (except dividends or other distributions payable to stockholders of record at a date which is prior to the effective date of the merger, consolidation or conversion); provided, however, that if no petition for an appraisal is filed within the time provided in subsection (e) of this section, or if a person who has made a demand for an

appraisal in accordance with this section shall deliver to the surviving, resulting or converted entity a written withdrawal of such person's demand for an appraisal in respect of some or all of such person's shares in accordance with subsection (e) of this section, then the right of such person to an appraisal of the shares subject to the withdrawal shall cease. Notwithstanding the foregoing, no appraisal proceeding in the Court of Chancery shall be dismissed as to any person without the approval of the Court, and such approval may be conditioned upon such terms as the Court deems just, including without limitation, a reservation of jurisdiction for any application to the Court made under subsection (j) of this section; provided, however that this provision shall not affect the right of any person who has not commenced an appraisal proceeding or joined that proceeding as a named party to withdraw such person's demand for appraisal and to accept the terms offered upon the merger, consolidation or conversion within 60 days after the effective date of the merger, consolidation or conversion, as set forth in subsection (e) of this section.

(l) The shares or other equity interests of the surviving, resulting or converted entity to which the shares of stock subject to appraisal under this section would have otherwise converted but for an appraisal demand made in accordance with this section shall have the status of authorized but not outstanding shares of stock or other equity interests of the surviving, resulting or converted entity, unless and until the person that has demanded appraisal is no longer entitled to appraisal pursuant to this section.

Ladies and Gentlemen:

The undersigned signatory of this lock-up agreement (this "***Lock-Up Agreement***") understands that Werewolf Therapeutics, Inc., a Delaware corporation ("***Werewolf***"), has entered into an Agreement and Plan of Merger, dated as of August 21, 2026 (as the same may be amended from time to time, the "***Merger Agreement***") with Ambros Therapeutics, Inc., a Delaware corporation ("***Ambros***"), and Wave Atlantis Merger Sub, Inc., a Delaware corporation and a direct, wholly owned subsidiary of Werewolf. (c) the disposition (including a forfeiture or repurchase) to Werewolf of any shares of restricted stock granted pursuant to the terms of any employee benefit plan or restricted stock purchase agreement;

(e) the establishment of a trading plan pursuant to Rule 10b5-1 under the Exchange Act (a "***10b5-1 Plan***") for the transfer of Werewolf Common Stock; *provided* that such plan does not provide for any transfers of Werewolf Common Stock during the Restricted Period, or the sale of Werewolf Common Stock pursuant to a 10b5-1 Plan existing as of the date of the Merger Agreement (which, for clarity, shall not be amended during the Restricted Period, but may be terminated during the Restricted Period);

(g) pursuant to a bona fide third party tender offer, merger, consolidation or other similar transaction made to all holders of Werewolf's capital stock involving a change of control of Werewolf that is approved by Werewolf's Board of Directors, *provided* that in the event that such tender offer, merger, consolidation or other such transaction is not completed, the Undersigned's Shares shall remain subject to the restrictions contained in this Lock-Up Agreement; or

(h) pursuant to an order of a court or regulatory agency;

(i) transfers, sales, dispositions or the entering into of transactions (including, without limitation, any swap, hedge or similar agreement), by the undersigned of shares of Werewolf, if any, purchased from Werewolf pursuant to the Concurrent PIPE Financing (as defined in the Merger Agreement) (the "***Werewolf Concurrent PIPE Financing Released Shares***") or issued in exchange for, or on conversion or exercise of, any securities issued as part of the Concurrent PIPE Financing. The number of Werewolf Concurrent PIPE Financing Released Shares held by each stockholder of Werewolf is set forth opposite his, her or its name on Schedule I to this Lock-Up Agreement under the heading "Werewolf Concurrent PIPE Financing Released Shares";

and *provided*, *further*, that, with respect to each of (a), (b), (c), (d), (e) and (f) above, no filing by any party (including any donor, donee, transferor, transferee, distributor or distributee) under Section 16 of the Exchange Act or other public announcement shall be required or shall be made voluntarily in connection with such transfer or disposition during the Restricted Period (other than (i) any exit filings or other public disclosures that may be required under applicable federal and state securities Laws or (ii) in respect of a required filing under the Exchange Act in connection with the exercise of an option to purchase shares of Werewolf Common Stock or in connection with the net settlement of any other equity award that represents the right to receive in the future shares of Werewolf Common Stock settled in Werewolf Common Stock that would otherwise expire during the Restricted Period, *provided* that (1) reasonable notice shall be provided to Werewolf prior to any such filing and (2) such filing, report or announcement shall clearly indicate in the footnotes therein, in reasonable detail, a description of the circumstances of the transfer and that the shares remain subject to this Lock-Up Agreement).

Any attempted transfer in violation of this Lock-Up Agreement will be of no effect and null and void, regardless of whether the purported transferee has any actual or constructive knowledge of the transfer restrictions set forth in this Lock-Up Agreement, and will not be recorded on the share register of Werewolf. In furtherance of the foregoing, the undersigned agrees that Werewolf and any duly appointed transfer agent for the registration or transfer of the securities described herein are hereby authorized to decline to make any transfer of securities if such transfer would constitute a violation or breach of this Lock-Up Agreement. Werewolf may cause the legend set forth below, or a legend substantially equivalent thereto, to be placed upon any certificate(s) or other documents, ledgers or instruments evidencing the undersigned's ownership of Werewolf Common Stock or any other securities convertible into or exercisable or exchangeable for Werewolf Common Stock:

THE SHARES REPRESENTED BY THIS CERTIFICATE ARE SUBJECT TO AND MAY ONLY BE TRANSFERRED IN COMPLIANCE WITH A LOCK-UP AGREEMENT, A COPY OF WHICH IS ON FILE AT THE PRINCIPAL OFFICE OF THE COMPANY.

The undersigned hereby represents and warrants that the undersigned has full power and authority to enter into this Lock-Up Agreement. All authority herein conferred or agreed to be conferred and any obligations of the undersigned shall be binding upon the successors, assigns, heirs or personal representatives of the undersigned.

The undersigned understands that if the Merger Agreement is terminated for any reason, the undersigned shall be released from all obligations under this Lock-Up Agreement. The undersigned understands that Werewolf and Ambros are proceeding with the Contemplated Transactions in reliance upon this Lock-Up Agreement. Notwithstanding anything to the contrary contained herein, this Lock-Up Agreement will automatically terminate and the undersigned shall be released from all obligations under this Lock-Up Agreement upon the earliest to occur, if any, of (i) Ambros advising the undersigned in writing that it has determined not to proceed with the Contemplated Transactions or (ii) the Merger Agreement being validly terminated pursuant to its terms.

Any and all remedies herein expressly conferred upon Werewolf or Ambros will be deemed cumulative with and not exclusive of any other remedy conferred hereby, or by Law or equity, and the exercise by Werewolf or Ambros of any one remedy will not preclude the exercise of any other remedy. The undersigned agrees that irreparable damage for which monetary damages, even if available, would not be an adequate remedy, would occur to Werewolf and/or Ambros in the event that any provision of this Lock-Up Agreement were not performed in accordance with its specific terms or

were otherwise breached. It is accordingly agreed that Werewolf and Ambros shall be entitled to seek an injunction or injunctions to prevent breaches of this Lock-Up Agreement and to enforce specifically the terms and provisions hereof in any court of the United States or any state having jurisdiction, this being in addition to any other remedy to which Werewolf or Ambros is entitled at Law or in equity, and the undersigned waives any bond, surety or other security that might be required of Werewolf or Ambros with respect thereto.

In the event that any holder of Werewolf's securities that are subject to a substantially similar agreement entered into by such holder, other than the undersigned, is permitted by Werewolf (and prior to the Closing, Ambros) to sell or otherwise transfer or dispose of shares of Werewolf Common Stock for value other than as permitted by this or a substantially similar agreement entered into by such holder or is granted an early release from the restrictions described herein during the Restricted Period, the same percentage of shares of the Undersigned's Shares shall be immediately and fully released on the same terms from any remaining restrictions set forth herein (the "***Pro-Rata Release***"); *provided*, *however*, that such Pro-Rata Release shall not be applied unless and until permission or early release has been granted by Werewolf, and solely prior to the Closing, Ambros, to an equity holder or equity holders to sell or otherwise transfer or dispose of all or a portion of such equity holder's shares of Werewolf Common Stock that, when combined with all such other such permissions and early releases, represent an aggregate amount in excess of 1% of the number of shares of Werewolf Common Stock outstanding immediately following the Closing; *provided*, *further*, that if the undersigned is an executive officer or director of Werewolf and such permission or early release was granted solely for the purpose of satisfying the initial listing requirements of the Nasdaq Stock Market (or such other exchange on which Werewolf Common Stock is then listed), then the undersigned shall not be entitled to such Pro-Rata Release. Werewolf shall notify the undersigned of any Pro-Rata Release of its shares on the same day that any permission that triggers the Pro-Rata Release is granted.

Upon the release of any of the Undersigned's Shares from this Lock-Up Agreement, Werewolf will cooperate with the undersigned to facilitate the timely preparation and delivery of certificates or the establishment of book-entry positions at Werewolf's transfer agent representing the Undersigned's Shares without the restrictive legend above and the withdrawal of any stop transfer instructions.

This Lock-Up Agreement shall be governed by, and construed in accordance with, the laws of the State of Delaware, regardless of the laws that might otherwise govern under applicable principles of conflicts of laws. In any action or proceeding between any of the parties arising out of or relating to this Lock-Up Agreement or any of the Contemplated Transactions, each of the parties irrevocably and unconditionally: (a) consents and submits to the exclusive jurisdiction and venue of the Court of Chancery of the State of Delaware or, to the extent such court does not have subject matter jurisdiction, the Superior Court of the State of Delaware or the United States District Court for the District of Delaware, (b) agrees that all claims in respect of such action or proceeding shall be heard and determined exclusively in accordance with clause (a) of this paragraph, (c) waives any objection to laying venue in any such action or proceeding in such courts, (d) waives any objection that such courts are an inconvenient forum or do not have jurisdiction over any party, (e) agrees that service of process upon such party in any such action or proceeding shall be effective if notice is given in accordance with the subsequent paragraph of this Lock-Up Agreement and (f) irrevocably and unconditionally waives the right to trial by jury.

If any provision or part-provision of this letter agreement is or becomes invalid, illegal or unenforceable, it shall be deemed deleted, but that shall not affect the validity and enforceability of the rest of this Lock-Up Agreement. If any provision or part-provision of this Lock-Up Agreement is deemed deleted, the parties shall negotiate in good faith to agree a replacement provision, that, to the greatest extent possible, achieves the intended commercial result of the original provision.

Any failure or delay by Werewolf or Ambros to exercise any right or remedy provided under this Lock-Up Agreement or by law shall not constitute a waiver of that or any other right or remedy, nor shall it prevent or restrict any further exercise of that or any other right or remedy. No single or partial exercise of such right or remedy provided under this Lock-Up Agreement or by law shall prevent or restrict any further exercise of that or any other right or remedy.

All notices and other communications hereunder shall be in writing and shall be deemed given if delivered personally or sent by overnight courier (providing proof of delivery), by electronic transmission (providing confirmation of transmission) to Werewolf or Ambros, as the case may be, in accordance with the Merger Agreement and to the undersigned at his, her or its address or email address (providing confirmation of transmission) set forth on the signature page hereto (or at such other address for a party as shall be specified by like notice).

This Lock-Up Agreement may be executed in several counterparts, each of which shall be deemed an original and all of which shall constitute one and the same instrument. The exchange of a fully executed Lock-Up Agreement (in counterparts or otherwise) by Werewolf, Ambros and the undersigned by facsimile, electronic mail (including any electronic signature covered by the U.S. federal ESIGN Act of 2000, Uniform Electronic Transactions Act, the Electronic Signatures and Records Act or other applicable law, e.g., www.docusign.com) or electronic transmission in .pdf format shall be sufficient to bind such parties to the terms and conditions of this Lock-Up Agreement.

Other than as set forth in the Transaction Agreements or as disclosed in the SEC Reports, there are no outstanding rights (including, without limitation, pre-emptive rights), warrants or options to acquire, or instruments convertible into or exchangeable for, any shares of capital stock or other equity interest in the Company or any of its subsidiaries, or any contract, commitment, agreement, understanding or arrangement of any kind relating to the issuance of any capital stock of the Company or any such subsidiary, any such convertible or exchangeable securities or any such rights, warrants or options; the capital stock of the Company conforms in all material respects to the description thereof contained in the SEC Reports; and all the outstanding shares of capital stock or other equity interests of each subsidiary owned, directly or indirectly, by the Company have been duly and validly authorized and issued, are fully paid and non-assessable (except, in the case of any foreign subsidiary, for directors' qualifying shares) and are owned directly or indirectly by the Company, free and clear of any lien, charge, encumbrance, security interest, restriction on voting or transfer or any other claim of any third party.

3.3 Registration Rights. Except as set forth in the Transaction Agreements or as disclosed in the SEC Reports, the Company is presently not under any obligation, and has not granted any rights, to register under the Securities Act any of the Company's presently outstanding securities or any of its securities that may hereafter be issued, other than such rights and obligations that have expired or been satisfied or waived.

Except for (i) the Required Werewolf Stockholder Approval, (ii) the Nasdaq Initial Listing Approval and (iii) the effectiveness of the Werewolf Authorized Common Stock Increase, the Company has all requisite corporate power and authority to enter into the Transaction Agreements and to carry out and perform its obligations under the terms of the Transaction Agreements, including (i) the issuance and sale of the Securities and (ii) the issuance of the shares of Common Stock issuable upon exercise of the Pre-Funded Warrants (the "**Pre-Funded Warrant Shares**"). Except for (i) the Required Werewolf Stockholder Approval and (ii) the effectiveness of the Werewolf Authorized Common Stock Increase, all corporate action on the part of the Company, its officers, directors and stockholders necessary for the authorization of the Shares and the Pre-Funded Warrant Shares, the authorization, execution, delivery and performance of the Transaction Agreements and the consummation of the transactions contemplated herein, including (i) the issuance and sale of the Securities and (ii) the issuance of the Pre-Funded Warrant Shares, has been taken, including, without limitation, the approval of the Board of Directors (or a committee thereof) to the extent applicable, in accordance with Section 144(a)(1) or 144(b)(1) of the Delaware General Corporation Law. This Agreement has been duly executed and delivered by the Company and, assuming the due authorization, execution and delivery by each Investor of this Agreement and that this Agreement constitutes the legal, valid and binding agreement of each Investor, this Agreement and each of the Pre-Funded Warrants constitute legal, valid and binding obligations of the Company, enforceable against the Company in accordance with their terms, except as such enforceability may be limited by bankruptcy, insolvency, reorganization, moratorium and similar laws relating to or affecting creditors generally or by general equity principles (regardless of whether such enforceability is considered in a proceeding in equity or at law). Upon its execution by the Company and the other parties thereto and assuming that it constitutes legal, valid and binding agreements of the other parties thereto, the Registration Rights Agreement will constitute a legal, valid and binding obligation of the Company, enforceable against the Company in accordance with its terms, except as such enforceability may be limited by bankruptcy, insolvency, reorganization, moratorium and similar laws relating to or affecting creditors generally or by general equity principles (regardless of whether such enforceability is considered in a proceeding in equity or at law).

against full payment therefor in accordance with the terms of this Agreement, will be duly and validly issued, fully paid and non-assessable and will be issued free and clear of any liens or other restrictions (other than restrictions on transfer under applicable state and federal securities laws), and the holder of the Shares shall be entitled to all rights accorded to a holder of Common Stock. Subject to (i) receipt of the Required Werewolf Stockholder Approval and (ii) the effectiveness of the Werewolf Authorized Common Stock Increase, the Pre-Funded Warrant Shares have been duly and validly authorized and reserved for issuance and, upon issuance pursuant to the terms of the Pre-Funded Warrants against full payment therefor in accordance with the terms of the Pre-Funded Warrants, will be duly and validly issued, fully paid and non-assessable and will be issued free and clear of any liens or other restrictions (other than those as provided in the Transaction Agreements or restrictions on transfer under applicable state and federal securities laws), and the holder of the Pre-Funded Warrant Shares shall be entitled to all rights accorded to a holder of Common Stock. Except as set forth in the Transaction Agreements, the issuance and delivery of the Shares and the Pre-Funded Warrants does not, and the exercise in full of the Pre-Funded Warrants and the issuance and delivery of the Pre-Funded Warrant Shares thereupon will not (a) obligate the Company to offer to issue, or issue, shares of Common Stock or other securities to any Person (other than the Investors) pursuant to any preemptive rights, rights of first refusal, rights of participation or similar rights, or (b) result in any adjustment (automatic, at the election of any Person or otherwise) of the exercise, conversion, exchange or reset price under, or any other anti-dilution adjustment pursuant to, any outstanding securities of the Company. Subject to the accuracy of the representations and warranties made by the Investors in Section 4, the offer and sale of the Securities to the Investors is, and will be, (i) exempt from the registration and prospectus delivery requirements of the Securities Act and (ii) exempt from (or otherwise not subject to) the registration and qualification requirements of applicable securities laws of the states of the United States.

3.7 Consents. The Investor hereby represents and warrants that, it (i) as of the date of this Agreement is, if an entity, a "qualified institutional buyer" (as defined in Rule 144A under the Securities Act) or an institutional "accredited investor" as that term is defined in Rule 501(a) under Regulation D promulgated pursuant to the Securities Act; or (ii) if an individual, is an "accredited investor" as that term is defined in Rule 501(a) of Regulation D of the Securities Act and has such knowledge and experience in financial and business matters as to be able to protect its own interests in connection with an investment in the Securities. The Investor further represents and warrants that (x) it is capable of evaluating the merits and risk of such investment, and (y) that it has not been organized for the purpose of acquiring the Securities and is an "institutional account" as defined by FINRA Rule 4512(c). The Investor understands and agrees that the offering and sale of the Securities has not been registered under the Securities Act or any applicable state securities laws and is being made in reliance upon federal and state exemptions for transactions not involving a public offering which depend upon, among other things, the bona fide nature of the investment intent and the accuracy of the Investor's representations as expressed herein. Accordingly, the Investor understands and agrees that the offering and sale of the Securities meets (i) the exemptions from filing under FINRA Rule 5123(b)(1)(A) and (ii) the institutional customer exception under FINRA Rule 2111(b).

4.7 Intent. The Investor is purchasing the Securities solely for the Investor's own account and not for the account of others, and not with a view to the resale or distribution of any part thereof in violation of the Securities Act, and the Investor has no present intention of selling, granting any participation in, or otherwise distributing the same in violation of the Securities Act without prejudice, however, to the Investor's right at all times to sell or otherwise dispose of all or any part of such Securities in compliance with applicable federal and state securities laws. Notwithstanding the foregoing, if the Investor is purchasing the Securities as a fiduciary or agent for one or more investor accounts, the Investor has full investment discretion with respect to each such account, and the full power and authority to make the acknowledgements, representations and agreements herein on behalf of each owner of each such account. The Investor has no present arrangement to sell the Securities to or through any person or entity. The Investor understands that the Securities must be held indefinitely unless such Securities are resold pursuant to a registration statement under the Securities Act or an exemption from registration is available. Nothing contained herein shall be deemed a representation or warranty by the Investor to hold the Securities for any period of time.

4.8 Investment Experience; Ability to Protect Its Own Interests and Bear Economic Risks. The Investor acknowledges that it can bear the economic risk and complete loss of its investment in the Securities and has knowledge and experience in finance, securities, taxation, investments and other business matters as to be capable of evaluating the merits and risks of investments of the kind described in this Agreement and contemplated hereby, and the Investor has had an opportunity to seek, and has sought, such accounting, legal, business and tax advice as the Investor has considered necessary to make an informed investment decision. The Investor acknowledges that the Investor (i) is a sophisticated investor, experienced in investing in private placements of equity securities and capable of evaluating investment risks independently, both in general and with regard to all transactions and investment strategies involving a security or securities and (ii) has exercised independent judgment in evaluating its participation in the purchase of the Securities. The Investor acknowledges that the Investor is aware that there

are substantial risks incident to the purchase and ownership of the Securities, including those set forth in the Company's filings with the SEC. Alone, or together with any professional advisor(s), the Investor has adequately analyzed and fully considered the risks of an investment in the Securities and determined that the Securities are a suitable investment for the Investor. The Investor is, at this time and in the foreseeable future, able to afford the loss of the Investor's entire investment in the Securities and the Investor acknowledges specifically that a possibility of total loss exists.

4.9 Independent Investment Decision. The Investor understands that nothing in the Transaction Agreements or any other materials presented by or on behalf of the Company to the Investor in connection with the purchase of the Securities constitutes legal, tax or investment advice. The Investor has consulted such legal, tax and investment advisors as it, in such Investor's sole discretion, has deemed necessary or appropriate in connection with its purchase of the Securities.

4.10 Securities Not Registered; Legends. The Investor acknowledges and agrees that the Securities are being offered in a transaction not involving any public offering within the meaning of the Securities Act, and the Investor understands that the offering and sale the Securities have not been registered under the Securities Act, by reason of their issuance by the Company in a transaction exempt from the registration requirements of the Securities Act, and that the Securities must continue to be held and may not be offered, resold, transferred, pledged or otherwise disposed of by the Investor unless a subsequent disposition thereof is registered under the Securities Act or is exempt from such registration and in each case in accordance with any applicable securities laws of any state of the United States. The Investor understands that the exemptions from registration afforded by Rule 144 (the provisions of which are known to it) promulgated under the Securities Act depend on the satisfaction of various conditions including, but not limited to, the time and manner of sale, the holding period and on requirements relating to the Company which are outside of the Investor's control and which the Company may not be able to satisfy, and that, if applicable, Rule 144 may afford the basis for sales only in limited amounts. The Investor acknowledges and agrees that it has been advised to consult legal counsel prior to making any offer, resale, transfer, pledge or disposition of any of the Securities. The Investor acknowledges that no federal or state agency has passed upon or endorsed the merits of the offering of the Securities or made any findings or determination as to the fairness of this investment.

The Investor understands that any certificates or book entry notations evidencing the Securities may bear one or more legends in substantially the following form and substance:

"THE SECURITIES REPRESENTED HEREBY HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), OR THE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES. THE SECURITIES HAVE BEEN ACQUIRED FOR INVESTMENT AND MAY NOT BE SOLD, TRANSFERRED OR ASSIGNED UNLESS (I) SUCH SECURITIES HAVE BEEN REGISTERED FOR SALE PURSUANT TO THE SECURITIES ACT, (II) SUCH SECURITIES MAY BE SOLD PURSUANT TO RULE 144, (III) THE COMPANY HAS RECEIVED AN OPINION OF COUNSEL REASONABLY SATISFACTORY TO IT THAT SUCH TRANSFER MAY LAWFULLY BE MADE WITHOUT REGISTRATION UNDER THE SECURITIES ACT, OR (IV) THE SECURITIES ARE TRANSFERRED WITHOUT CONSIDERATION TO AN AFFILIATE OF SUCH HOLDER OR A CUSTODIAL NOMINEE (WHICH FOR THE AVOIDANCE OF DOUBT SHALL REQUIRE NEITHER CONSENT NOR THE DELIVERY OF AN OPINION). NOTWITHSTANDING THE FOREGOING, THE SECURITIES MAY BE PLEDGED IN CONNECTION WITH A BONA FIDE MARGIN ACCOUNT OR OTHER LOAN OR FINANCING ARRANGEMENT SECURED BY THE SECURITIES."

In addition, the Securities may contain a legend regarding affiliate status of the Investor, if applicable, provided that the Company will notify the Investor in advance of Closing if such a legend is to be placed on its Securities.

4.11 No General Solicitation. The Investor acknowledges and agrees that the Investor is purchasing the Securities directly from the Company. Investor became aware of this offering of the Securities solely by means of direct contact from the Placement Agents or directly from the Company as a result of a pre-existing, substantive relationship with the Company or the Placement Agents and/or their respective advisors (including, without limitation, attorneys, accountants, bankers, consultants and financial advisors), agents, control persons, representatives, Affiliates, directors, officers, managers, members, and/or employees, and/or the representatives of such persons. The Securities were offered to the Investor solely by direct contact between the Investor and the Company, the Placement Agents and/or their respective representatives. Investor did not become aware of this

offering of the Securities, nor were the Securities offered to Investor, by any other means, and none of the Company, the Placement Agents and/or their respective representatives acted as investment advisor, broker or dealer to Investor. The Investor is not purchasing the Securities as a result of any general or public solicitation or general advertising, or publicly disseminated advertisement, article, notice or other communication regarding the Securities published in any newspaper, magazine or similar media or broadcast over television, radio or the internet or presented at any seminar or any other general solicitation or general advertisement, including any of the methods described in Section 502(c) of Regulation D under the Securities Act.

4.12 Access to Information. In making its decision to purchase the Securities such Investor has relied solely upon independent investigation made by such Investor, upon the SEC Reports and upon the representations, warranties and covenants set forth herein. Such Investor acknowledges and agrees that such Investor and the Investor's professional advisor(s), if any, have had the opportunity to ask such questions, receive such answers and obtain such information from the Company regarding the Company, its business and the terms and conditions of the offering of the Securities as the Investor and the Investor's professional advisor(s), if any, have deemed necessary to make an investment decision with respect to the Securities and that the Investor has independently made its own analysis and decision to invest in the Company. Neither such inquiries nor any other due diligence investigation conducted by the Investor shall modify, limit or otherwise affect the Investor's right to rely on the Company's representations and warranties contained in this Agreement.

4.13 Certain Trading Activities. Other than consummating the transaction contemplated hereby, the Investor has not, nor has any Person acting on behalf of or pursuant to any understanding with the Investor, directly or indirectly executed any purchases or sales, including Short Sales, of the securities of the Company during the period commencing as of the time that the Investor was first contacted by the Company or any other Person representing the Company, including the Placement Agents, regarding the transaction contemplated hereby and ending immediately prior to the date of this Agreement. Notwithstanding the foregoing, (i) in the case of an Investor that is a multi-managed investment vehicle whereby separate portfolio managers manage separate portions of such Investor's assets and the portfolio managers have no direct knowledge of the investment decisions made by the portfolio managers managing other portions of such Investor's assets, the representation set forth above shall only apply with respect to the portion of the assets managed by the portfolio manager that made the investment decision to purchase the Securities covered by this Agreement and (ii) in the case of an Investor that has implemented internal information barriers pursuant to an information controls policy to "wall-off" certain trading personnel, the representation set forth above shall only apply to such walled-off trading personnel. Furthermore, in the case of an Investor whose investment advisor utilized an information barrier with respect to the information regarding the transactions contemplated hereunder after first being contacted by the Company or its representatives, the representation set forth above shall only apply after the point in time when the portfolio manager who manages such Investor's assets was informed of the information regarding the transactions contemplated hereunder and, with respect to the Investor's investment advisor, the representation set forth above shall only apply with respect to any purchases or sales, including Short Sales, of the securities of the Company on behalf of other funds or investment vehicles for which the Investor's investment advisor is also an investment advisor or sub-advisor after the point in time when the portfolio manager who manages the assets of such other funds or investment vehicles for which the Investor's investment advisor is also an investment advisor or sub-advisor was informed of the information regarding the transactions contemplated hereunder. Other than to other Persons party to this Agreement, its affiliates or other Persons advised, sub-advised or managed by the same investment advisor or manager, and to its advisors and agents who had a need to know such information, the Investor has maintained the confidentiality of all disclosures made to it in connection with this transaction (including the existence and terms of this transaction). Notwithstanding the foregoing, for avoidance of doubt, nothing contained herein shall constitute a representation or warranty, or preclude any actions, with respect to the identification of the availability of, or securing of, available shares to borrow in order to effect Short Sales or similar transactions in the future.

4.14 Pre-Closing Distribution. Each Investor acknowledges and agrees that neither the Securities purchased by such Investor pursuant to this Agreement nor any Pre-Funded Warrant Shares issuable upon exercise of the Pre-Funded Warrants shall entitle such Investor, solely by virtue of the purchase or ownership thereof or the exercise of the Pre-Funded Warrants, to receive or participate in the Pre-Closing Distribution (as defined in the Merger Agreement), including any contingent value rights distributed pursuant thereto or any payment or other consideration in respect of any such contingent value rights pursuant to the CVR Agreement. For the avoidance of

doubt, the foregoing shall not affect any entitlement of an Investor to participate in the Pre-Closing Distribution in respect of shares of Common Stock held by such Investor other than Securities purchased pursuant to this Agreement or Pre-Funded Warrant Shares issued pursuant to the Pre-Funded Warrants.

5. Covenants.

5.1 Further Assurances. Prior to the Closing Date, each party agrees to cooperate with each other and their respective officers, employees, attorneys, accountants and other agents, and, generally, do such other reasonable acts and things in good faith as may be necessary to effectuate the intents and purposes of this Agreement, subject to the terms and conditions of this Agreement and compliance with applicable law, including taking reasonable action to facilitate the filing of any document or the taking of reasonable action to assist the other parties hereto in complying with the terms of this Agreement. The Investor acknowledges that the Company and the Placement Agents will rely on the acknowledgments, understandings, agreements, representations and warranties contained in this Agreement. Prior to the Closing, the Investor agrees to promptly notify the Company if any of the acknowledgments, understandings, agreements, representations and warranties set forth in Section 4 of this Agreement are no longer accurate, and the Company agrees to promptly notify each Investor if any of the acknowledgments, understandings, agreements, representations and warranties set forth in Section 3 of this Agreement are no longer accurate.

5.2 Listing. The Company shall use commercially reasonable efforts to maintain the listing and trading of its Common Stock on the Nasdaq Capital Market and, in accordance therewith, will use reasonable best efforts to comply in all material respects with the Company's reporting, filing and other obligations under the rules and regulations of Nasdaq. The Company agrees to use commercially reasonable efforts to maintain the eligibility of the Common Stock for electronic transfer through an established clearing corporation, including, without limitation, by timely payment of fees to such clearing corporation in connection with such electronic transfer.

5.3 Disclosure of Transactions. The Company shall, by 9:00 a.m., New York City time, on the first (1st) Business Day immediately following the date of this Agreement (provided that, if this Agreement is executed between midnight and 9:00 a.m., New York City time on any Business Day, no later than 9:01 a.m. on the date hereof), issue a press release and/or file with the SEC a Current Report on Form 8-K (including, if applicable, all exhibits thereto, the "**Disclosure Document**" and the actual filing of such press release and/or Current Report on Form 8-K, the "***Disclosure Time***") disclosing (i) all material terms of the transactions contemplated hereby and by the other Transaction Agreements and, if the Disclosure Document is a Current Report on Form 8-K, attaching this Agreement and the other Transaction Agreements and the Company Presentation as exhibits to such Disclosure Document and (ii) all material non-public information concerning the Company and the transactions contemplated hereby or the transactions contemplated by the Merger Agreement disclosed to the Investors prior to the Disclosure Time. Following the issuance or filing of the Disclosure Document, no Investor shall be in possession of any material non-public information concerning the Company disclosed to the Investors by the Company or its representatives. In addition, effective upon the issuance or filing of the Disclosure Document, the Company acknowledges and agrees that any and all confidentiality or similar obligations under any agreement relating to the subject matter hereof, whether written or oral, between the Company, any of its subsidiaries or any of their respective officers, directors, affiliates, employees or agents, including, without limitation, the Placement Agents, on the one hand, and any Investor or any of its respective Affiliates, on the other hand, shall terminate and be of no further force or effect. Notwithstanding anything in this Agreement to the contrary, the Company shall not provide any of the Investors or their respective affiliates, attorneys, agents or representatives with any material non-public information regarding the Company or its securities from and after the issuance or filing of the Disclosure Document, except as otherwise agreed by such Investor. The Company understands and confirms that the Investors will rely on the foregoing representation in effecting securities transactions. Notwithstanding anything in this Agreement to the contrary, the Company shall not publicly disclose the name of any Investor or any of its Affiliates or advisors, or include the name of any Investor or any of its Affiliates or advisors in any marketing materials (whether or not made publicly available), press release, public announcement or filing with the SEC (other than any registration statement contemplated by the Registration Rights Agreement, which shall be subject to review of the Investors in accordance with the terms of the Registration Rights Agreement) or any regulatory agency, without the prior written consent of the Investor, except (i) as required by the federal securities law in connection with (A) any registration statement contemplated by the Registration Rights Agreement, which shall be subject to review of the Investors in accordance with the terms of the Registration Rights Agreement and (B) the filing of final Transaction Agreements with the SEC or pursuant to other routine proceedings of regulatory

authorities, or (ii) to the extent such disclosure is required by law, at the request of the staff of the SEC or regulatory agency or under the regulations of Nasdaq; provided, that the Company shall use commercially reasonable efforts to provide Investors with prior written notice of and a reasonable opportunity to review such disclosure permitted under foregoing clauses (i) and (ii).

5.4 Integration. The Company shall not, and shall use its commercially reasonable efforts to ensure that no Affiliate of the Company shall, sell, offer for sale or solicit offers to buy or otherwise negotiate in respect of any security (as defined in Section 2 of the Securities Act) that will be integrated with the offer or sale of the Securities in a manner that would require the registration under the Securities Act of the sale of the Securities to the Investors, or that will be integrated with the offer or sale of the Securities for purposes of the rules and regulations of any National Exchange such that it would require stockholder approval prior to the closing of such other transaction unless stockholder approval is obtained before the closing of such subsequent transaction (other than, for the avoidance of doubt, the Required Werewolf Stockholder Approval).

5.5 Removal of Legends.

(a) In connection with any sale, assignment, transfer or other disposition of the Shares or Pre-Funded Warrant Shares by an Investor pursuant to Rule 144 or pursuant to any other exemption under the Securities Act such that the purchaser acquires freely tradable shares and upon compliance by the Investor with the requirements of this Agreement, if requested by the Investor by notice to the Company, the Company shall instruct the Transfer Agent to remove any restrictive legends related to the book entry account holding such Shares or Pre-Funded Warrant Shares and make a new, unlegended entry for such book entry Shares or Pre-Funded Warrant Shares sold or disposed of without restrictive legends as soon as reasonably practicable following any such request therefor from the Investor, *provided* that the Company has timely received a completed investor representation letter in customary form and substance to be reasonably agreed upon with each Investor. The Company shall be responsible for the fees of the Transfer Agent, DTC and its legal counsel associated with such legend removal. Notwithstanding the foregoing, promptly following the one-year anniversary of the Closing, the Company shall remove any legend from the book entry position evidencing the Shares or Pre-Funded Warrant Shares then held by non-Affiliates of the Company, provided that the Company has timely received a completed investor representation letter in customary form and substance to be reasonably agreed upon with each Investor.

(b) Once a registration statement covering the resale of the Shares or Pre-Funded Warrant Shares becomes effective, the Company shall remove or cause the removal of all restrictive legends from the Shares or Pre-Funded Warrant Shares at its sole expense. Further, the Company shall, at its sole expense, cause its legal counsel: (i) while the registration statement covering the resale of the Shares or Pre-Funded Warrant Shares is effective, to issue to the Transfer Agent a "blanket" legal opinion to allow sales without restriction pursuant to the effective registration statement, and (ii) provide all other opinions as may reasonably be required by the Transfer Agent in connection with the removal of legends. The Investor may request that the Company remove, and the Company agrees to promptly, and no later than two (2) Business Days after such request, authorize the removal of, any legend from the Shares or Pre-Funded Warrant Shares (1) following any sale of such Shares or Pre-Funded Warrant Shares pursuant to Rule 144 or (2) if such Shares or Pre-Funded Warrant Shares are eligible for sale under Rule 144(b)(1) without current public information requirements and the Shares or Pre-Funded Warrant Shares have been held for at least one year within the meaning of Rule 144, provided that the Company has timely received a completed investor representation letter from the Investor in customary form and substance to be reasonably agreed upon with each Investor. In connection therewith, the Company shall (A) deliver to the Transfer Agent irrevocable instructions that the Transfer Agent shall make a new, unlegended entry for such book entry shares, and (B) cause its counsel to deliver to the Transfer Agent one or more opinions to the effect that the removal of such legends in such circumstances may be effected under the Securities Act if required by the Transfer Agent to effect the removal of the legend in accordance with the provisions of this Agreement. Any shares subject to legend removal under this Section 5.5 may be transmitted by the Transfer Agent to the Investor by crediting the account of the Investor's prime broker with the Depository Trust Company System as directed by such Investor. The Company shall be responsible for the fees of the Transfer Agent, Depository Trust Company and its legal counsel associated with such legend removal.

5.6 Withholding Taxes. Each Investor agrees to furnish the Company with any information, representations and forms as shall reasonably be requested by the Company from time to time to assist the Company in complying with any applicable tax law (including any withholding obligations).

5.7 Fees and Commissions. The Company shall be solely responsible for the payment of any placement agent's fees, financial advisory fees, or broker's commissions (other than for Persons engaged by an Investor) relating to or arising out of the transactions contemplated hereby, including, without limitation, any fees or commissions payable to the Placement Agents.

5.8 No Conflicting Agreements. The Company will not take any action, enter into any agreement or make any commitment that would conflict or interfere in any material respect with the Company's obligations to the Investors under the Transaction Agreements.

5.9 Indemnification.

(a) The Company agrees to indemnify and hold harmless each Investor and its Affiliates, and their respective directors, officers, trustees, partners, members, stockholders, managers, employees, investment advisors and agents (and any other Persons with a functionally equivalent role of a Person holding such titles notwithstanding a lack of such title or any other title), each Person who controls such Investor (within the meaning of Section 15 of the Securities Act and Section 20 of the Exchange Act), and the directors, officers, trustees, partners, members, stockholders, managers, employees, investment advisors and agents (and any other Persons with a functionally equivalent role of a Person holding such titles notwithstanding a lack of such title or any other title) of such controlling persons (collectively, the "Indemnified Persons"), from and against any and all losses, claims, damages, liabilities and expenses (including without limitation reasonable and documented attorney fees and disbursements and other documented out-of-pocket expenses reasonably incurred in connection with investigating, preparing or defending any action, claim or proceeding, pending or threatened and the costs of enforcement thereof) to which such Indemnified Person may become subject (i) as a result of any breach of representation, warranty, covenant or agreement made by or to be performed on the part of the Company under the Transaction Agreements or (ii) as a result of or arising out of any action, claim or proceeding, pending or threatened, against an Indemnified Person in any capacity by any stockholder of the Company (which, for the avoidance of doubt, shall include all Persons who were stockholders of Ambros prior to the Merger), whether directly or in a derivative capacity, who is not an Affiliate of the Indemnified Person with respect to the transactions contemplated by the Transaction Agreements, and, in each case, will reimburse any such Indemnified Person for all such amounts as they are incurred by such Person except to the extent such amounts have been finally judicially determined to have resulted from such Indemnified Person's fraud or willful misconduct.

(b) Any Person entitled to indemnification hereunder shall (i) give prompt written notice to the indemnifying party of any claim with respect to which it seeks indemnification and (ii) permit such indemnifying party to assume the defense of such claim with counsel reasonably satisfactory to the indemnified party; *provided* that any Person entitled to indemnification hereunder shall have the right to employ separate counsel and to participate in the defense of such claim, but the fees and expenses of such counsel shall be at the expense of such Person unless (a) the indemnifying party has agreed in writing to pay such fees or expenses, (b) the indemnifying party shall have failed to assume the defense of such claim and employ counsel reasonably satisfactory to such Person or (c) in the reasonable judgment of any such Person, based upon written advice of its counsel, a conflict of interest exists between such Person and the indemnifying party with respect to such claims (in which case, if the Person notifies the indemnifying party in writing that such Person elects to employ separate counsel at the expense of the indemnifying party, the indemnifying party shall not have the right to assume the defense of such claim on behalf of such Person); and *provided further*, that the failure of any indemnified party to give written notice as provided herein shall not relieve the indemnifying party of its obligations hereunder, except to the extent that such failure to give notice shall materially adversely affect the indemnifying party in the defense of any such claim or litigation. It is understood that the indemnifying party shall not, in connection with any proceeding in the same jurisdiction, be liable for fees or expenses of more than one separate firm of attorneys at any time for all such indemnified parties. No indemnifying party will, except with the consent of the indemnified party, which consent shall not be unreasonably withheld, conditioned or delayed, consent to entry of any judgment or enter into any settlement unless such judgment or settlement (i) imposes no liability or obligation on, (ii) includes as an unconditional term thereof the giving of a complete, explicit and unconditional release from the party

bringing such indemnified claims of all liability of the indemnified party in respect of such claim or litigation in favor of, and (iii) does not include any admission of fault, culpability, wrongdoing or malfeasance by or on behalf of, the indemnified party. No indemnified party will, except with the consent of the indemnifying party, which consent shall not be unreasonably withheld, conditioned or delayed, consent to entry of any judgment or enter into any settlement.

5.10 Lock-Up Agreements. The Company shall not consent or agree to amend, alter, waive or otherwise modify the terms of any of the Ambros Lock-Up Agreements (as defined in the Merger Agreement) without the consent of the Placement Agents.

5.11 Reservation of Common Stock. Promptly after obtaining the Required Werewolf Stockholder Approval and the effectiveness of the Werewolf Authorized Common Stock Increase, the Company will have reserved and the Company shall continue to reserve and keep available at all times, free of preemptive rights, a sufficient number of shares of Common Stock for the purpose of enabling the Company to issue the Shares and the Pre-Funded Warrant Shares that are issuable upon the exercise of the Pre-Funded Warrants.

5.12 Stockholder Approval. The Company shall use its commercially reasonable efforts to solicit the approval of the Werewolf Stockholder Matters, the Werewolf Authorized Share Increase Proposal and the Equity Plan Proposals. Subject to Section 6.3(d) of the Merger Agreement, the Company shall cause the Board of Directors to recommend to the stockholders that they approve the Werewolf Stockholder Matters, the Werewolf Authorized Share Increase Proposal and the Equity Plan Proposals in the proxy statement of the Company relating to the Werewolf Stockholder Meeting, in accordance with the terms and conditions of the Merger Agreement. If on the date of the Werewolf Stockholder Meeting, or a date preceding the date on which the Werewolf Stockholder Meeting is scheduled, the Company reasonably believes that (i) it will not receive proxies sufficient to obtain the Required Werewolf Stockholder Approval or the approval of the Werewolf Authorized Share Increase Proposal, whether or not a quorum would be present, or (ii) it will not have sufficient shares of Common Stock represented (whether in person or by proxy) to constitute a quorum necessary to conduct the business of the Werewolf Stockholder Meeting, the Company may postpone or adjourn, or make one or more successive postponements or adjournments of, the Werewolf Stockholder Meeting as long as the date of the Werewolf Stockholder Meeting is not postponed or adjourned more than an aggregate of thirty (30) days in connection with any postponements or adjournments. If the approval of the Werewolf Stockholder Matters is not obtained by the Required Werewolf Stockholder Approval at the Werewolf Stockholder Meeting, the parties to the Merger Agreement may terminate the Merger Agreement in accordance with the terms and conditions of the Merger Agreement.

5.13 Reporting Status. From and after Closing, the Company shall timely file all reports required to be filed with the SEC pursuant to the Exchange Act, and the Company shall not terminate its status as an issuer required to file reports under the Exchange Act even if the Exchange Act or the rules and regulations thereunder would otherwise permit such termination.

5.14 No Amendment or Waiver of Merger Agreement Terms. The Company shall not, between the date hereof and the Closing Date, and shall not permit any of its subsidiaries to, amend, modify, supplement, terminate or waive (or fail to contest an action regarding a breach of or agree to amend, modify, supplement, terminate or waive) any provision of the Merger Agreement or any other Transaction Agreement in a manner that would reasonably be expected to materially and adversely affect the benefits that an Investor would reasonably expect to receive pursuant to this Agreement without the prior written consent of the Investor Majority, it being agreed that any amendment or modification to Section 4.25, Section 5.8 and Section 7.1(d) of the Merger Agreement and the definitions of Concurrent PIPE Financing, Concurrent PIPE Financing Allocation Percentage, Concurrent PIPE Financing Amount, Concurrent PIPE Financing Merger Shares and Concurrent PIPE Financing Proceeds, or any other definition or provision that, if modified, would amend any of the foregoing defined terms in a manner that is materially adverse to the Investors, shall be deemed to materially and adversely affect the benefits that the Investors would reasonably expect to receive under this Agreement. In seeking any such consent, the Company shall not disclose any material nonpublic information pertaining to the Company or Ambros or their respective operations.

5.15 Subsequent Equity Sales. From the date of this Agreement until the earlier of (a) sixty (60) days after the Closing Date and (b) the Business Day immediately following the effective date of the registration statement filed pursuant to the Registration Rights Agreement, the Company shall not, without the prior written consent of the Investor Majority, (A) issue shares of Common Stock or Common Stock Equivalents, (B) effect a reverse stock

split, recapitalization, share consolidation, reclassification or similar transaction affecting the outstanding Common Stock or (C) file with the SEC a registration statement under the Securities Act relating to any shares of Common Stock or Common Stock Equivalents, except pursuant to the terms of the Registration Rights Agreement. Notwithstanding the foregoing, the provisions of this Section 5.15 shall not apply to (i) the issuance of the Securities hereunder, (ii) the issuance of Common Stock or Common Stock Equivalents upon the conversion, exercise or vesting of any securities of the Company outstanding on the date of this Agreement or outstanding pursuant to clause (iii) below, including the issuance of Common Stock upon exercise of any pre-funded warrants, including any pre-funded warrants issued pursuant to the Merger Agreement, (iii) the issuance of any Common Stock or Common Stock Equivalents pursuant to any Company stock-based compensation plans (including any plan assumed in connection with the Merger) or in accordance with Nasdaq Stock Market Rule 5635(c)(4), (iv) the filing of a registration statement on Form S-8 under the Securities Act to register the offer and sale of securities on an equity incentive plan or employee stock purchase plan, (v) the issuance of any securities pursuant to, and the filing of any registration statement (including on Form S-4) contemplated or required by the Transaction Agreements, including any securities issuable upon exercise or settlement of awards assumed thereunder; (vi) any issuance pursuant to a stock split, charter amendment and any recapitalization, reclassification or similar transaction as contemplated by the Transaction Agreements; or (vii) securities issued pursuant to acquisitions, licenses, collaborations, partnerships, joint ventures or other strategic transactions approved by a majority of the independent directors of the Board of Directors, provided that such securities are issued as "restricted securities" (as defined in Rule 144) and carry no registration rights that require the filing of any registration statement in connection therewith during the prohibition period in this Section 5.15 and provided that any such issuance shall only be to a Person (or to the equityholders of a Person) which is, itself or through its subsidiaries, an operating company or an owner of an asset in a business synergistic with the business of the Company and shall provide to the Company additional benefits in addition to the investment of funds, but shall not include a transaction in which the Company is issuing securities primarily for the purpose of raising capital or to an entity whose primary business is investing in securities. This section 5.15 shall terminate automatically upon any termination of this Agreement or the Merger Agreement.

6. Conditions of Closing.

6.1 Conditions to the Obligation of the Investors. The several obligations of each Investor to consummate the transactions to be consummated at the Closing, and to purchase and pay for the Securities being purchased by it at the Closing pursuant to this Agreement, are subject to the satisfaction or waiver in writing of the following conditions precedent:

(a) Representations and Warranties. The representations and warranties of the Company contained herein shall be true and correct in all respects as of the date hereof except to the extent any such representation or warranty expressly speaks as of an earlier date, in which case such representation and warranty shall be true and correct in all respects as of such earlier date, and the representations and warranties of the Company contained herein shall be true and correct in all material respects as of the Closing Date, as though made on and as of such date, except for the Fundamental Representations and those representations and warranties qualified by materiality or Material Adverse Effect, which shall be true and correct in all respects as of the Closing Date, as though made on and as of such date, except to the extent any such representation or warranty expressly speaks as of an earlier date, in which case such representation or warranty shall be true and correct in all respects as of such earlier date.

(b) Performance. The Company shall have performed in all material respects the obligations and conditions herein required to be performed or observed by the Company pursuant to the Transaction Agreements on or prior to the Closing Date.

(g) Opinion of Company Counsel. The Company shall have delivered to the Investors and the Placement Agents the opinion of Sidley Austin LLP, dated as of the Closing Date, in customary form and substance to be reasonably agreed upon with the Investors, the Placement Agents and addressing such legal matters as the Investors, the Placement Agents and the Company reasonably agree.

(a) Representations and Warranties. The representations and warranties of each Investor in Section 4 hereto shall be true and correct on and as of the Closing Date, with the same force and effect as though made on and as of the Closing Date, except to the extent that any such representation or warranty expressly speaks as of an earlier date, which shall be made as of such earlier date, and consummation of the Closing shall constitute a reaffirmation by the Investor of each of the representations, warranties, covenants and agreements of the Investor contained in this Agreement as of the Closing Date.

(b) Performance. Each Investor shall have performed or complied with in all material respects all obligations and conditions herein required to be performed or observed by such Investor on or prior to the Closing Date.

(c) No Injunction. No judgment, writ, order, injunction, award or decree of or by any court, or judge, justice or magistrate, including any bankruptcy court or judge, or any order of or by any governmental authority, shall have been issued, and no action or proceeding shall have been instituted by any governmental authority, enjoining or preventing the consummation of the transactions contemplated hereby or in the other Transaction Agreements.

7. Termination.

7.1 Termination. The obligations of the Company, on the one hand, and the Investors, on the other hand, to effect the Closing shall terminate as follows:

(a) Upon the mutual written consent of the Company and the Investors that agreed to purchase a majority of the Securities prior to the Closing;

(e) By either the Company or an Investor (with respect to itself only) if the Closing has not occurred on or before January 29, 2027;

provided, *however*, that, in the case of clauses (ii) and (iii) above, the party seeking to terminate its obligation to effect the Closing shall not then be in breach of any of its representations, warranties, covenants or agreements contained in this Agreement if such breach has resulted in the circumstances giving rise to such party's seeking to terminate its obligation to effect the Closing.

7.2 Notice. In the event of termination by the Company or the Investor of its obligations to effect the Closing pursuant to Section 7.1, written notice thereof shall be given to the other Investors by the Company. Nothing in this

Section 7 shall be deemed to release any party from any liability for any breach by such party of the other terms and provisions of the Transaction Agreements or to impair the right of any party to compel specific performance by any other party of its other obligations under the Transaction Agreements.

8. Miscellaneous Provisions.

8.1 Public Statements or Releases. Except as set forth in Section 5.3, (i) no Investor shall make any public announcement with respect to the existence or terms of this Agreement or the transactions provided for herein without the prior consent of the Company (which consent shall not be unreasonably withheld) and (ii) the Company shall not make any public announcement with respect to the existence or terms of this Agreement or the transactions provided for herein that names any Investor without the prior consent of such Investor (which consent shall not be unreasonably withheld).

Any Person may change the address to which notices and communications to it are to be addressed by notification as provided for herein.

8.3 [Reserved]

8.4 Severability. If any part or provision of this Agreement is held unenforceable or in conflict with the applicable laws or regulations of any jurisdiction, the invalid or unenforceable part or provisions shall be replaced with a provision which accomplishes, to the extent possible, the original business purpose of such part or provision in a valid and enforceable manner, and the remainder of this Agreement shall remain binding upon the parties hereto.

8.5 Governing Law; Submission to Jurisdiction; Venue; Waiver of Trial by Jury.

(a) This Agreement shall be governed by, and construed in accordance with, the laws of the State of New York without regard to choice of laws or conflicts of laws provisions thereof that would require the application of the laws of any other jurisdiction, except to the extent that mandatory principles of Delaware law may apply.

(b) The Company and each of the Investors, severally and not jointly, hereby irrevocably and unconditionally:

(i) submits for itself and its property in any legal action or proceeding relating solely to this Agreement or the transactions contemplated hereby, to the general jurisdiction of any state court or United States Federal court sitting in the Borough of Manhattan, City of New York in the State of New York;

(ii) consents that any such action or proceeding may be brought in such courts, and waives any objection that it may now or hereafter have to the venue of any such action or proceeding in any such court or that such action or proceeding was brought in an inconvenient court and agrees not to plead or claim the same to the extent permitted by applicable law;

(iii) agrees that service of process in any such action or proceeding may be effected by mailing a copy thereof by registered or certified mail (or any substantially similar form of mail), postage prepaid, to the party, as the case may be, at its address set forth in Section 8.2 or at such other address of which the other party shall have been notified pursuant thereto;

(iv) agrees that nothing herein shall affect the right to effect service of process in any other manner permitted by law or shall limit the right to sue in any other jurisdiction for recognition and enforcement of any judgment or if jurisdiction in the courts referenced in the foregoing clause (i) are not available despite the intentions of the parties hereto;

(v) agrees that final judgment in any such suit, action or proceeding brought in such a court may be enforced in the courts of any jurisdiction to which such party is subject by a suit upon such judgment, *provided* that service of process is effected upon such party in the manner specified herein or as otherwise permitted by law;

(vi) agrees that to the extent that such party has or hereafter may acquire any immunity from jurisdiction of any court or from any legal process with respect to itself or its property, such party hereby irrevocably waives such immunity in respect of its obligations under this Agreement, to the extent permitted by law; and

(vii) irrevocably and unconditionally waives trial by jury in any legal action or proceeding in relation to this Agreement.

8.6 Waiver. No waiver of any term, provision or condition of this Agreement, whether by conduct or otherwise, in any one or more instances, shall be deemed to be, or be construed as, a further or continuing waiver of any such term, provision or condition or as a waiver of any other term, provision or condition of this Agreement.

8.7 Expenses. Except as expressly set forth in the Transaction Agreements to the contrary, each party shall pay its own out-of-pocket fees and expenses, including the fees and expenses of attorneys, accountants and consultants employed by such party, incurred in connection with the proposed investment in the Securities and the consummation of the transactions contemplated thereby; *provided*, *however*, that the Company shall pay all Transfer Agent fees (including, without limitation, any fees required for same-day processing of any instruction letter delivered by the Company), stamp taxes, transfer taxes and other similar taxes (other than income taxes) and duties levied in connection with the delivery of any Securities to the Investors. The Company shall pay all Placement Agents' fees relating to or arising out of the transactions contemplated by this Agreement.

8.8 Assignment. None of the parties may assign its rights or obligations under this Agreement or designate another person (i) to perform all or part of its obligations under this Agreement or (ii) to have all or part of its rights and benefits under this Agreement, in each case without the prior written consent of (x) the Company, in the case of an Investor, and (y) the Investors, in the case of the Company, *provided* that an Investor may, without the prior consent of the Company, assign its rights to purchase the Securities hereunder to any of its Affiliates or to any other investment funds or accounts managed or advised by the investment manager who acts on behalf of such Investor (provided each such assignee agrees to be bound by the terms of this Agreement and makes the same representations and warranties set forth in Section 4). In the event of any assignment in accordance with the terms of this Agreement, the assignee shall specifically assume and be bound by the provisions of this Agreement by executing a writing agreeing to be bound by and subject to the provisions of this Agreement and shall deliver an executed counterpart signature page to this Agreement and, notwithstanding such assumption or agreement to be bound hereby by an assignee, no such assignment shall relieve any party assigning any interest hereunder from its obligations or liability pursuant to this Agreement.

8.9 Confidential Information.

(a) Each Investor covenants that until the earlier of (i) such time as the transactions contemplated by this Agreement and any material non-public information provided to such Investor are publicly disclosed by the Company and (ii) the termination of this Agreement, such Investor will maintain the confidentiality of all disclosures made to it in connection with this transaction (including the existence and terms of this transaction), other than to such Investor's outside attorney, accountant, auditor or investment advisor only to the extent necessary to permit evaluation of the investment, and the performance of the necessary or required tax, accounting, financial, legal, or administrative tasks and services and other than as may be required by law.

(b) The Company may request from the Investors such reasonable and customary additional information as the Company may deem necessary to evaluate the eligibility of the Investor to acquire the Securities and the Investor shall promptly provide such information as may reasonably be requested to the extent readily available; provided, that the Company agrees to keep any such information provided by the Investor confidential, except (i) as required by the federal securities laws, rules or regulations and (ii) to the extent such disclosure is required by other laws, rules or regulations, at the request of the staff of the SEC or regulatory agency or under the regulations of Nasdaq, in which case, the Company will use commercially reasonable efforts to notify the applicable Investor and provide such Investor the opportunity to review such disclosure. The Investor acknowledges that the Company may file a copy of this Agreement and the Registration Rights Agreement with the SEC as exhibit to a periodic report or a registration statement of the Company.

8.10 Reliance by and Exculpation of Placement Agents.

(a) Each Investor agrees for the express benefit of the Placement Agents and their respective Affiliates and representatives that (i) it is not relying upon, and has not relied upon, any statement, representation or warranty made by the Placement Agents or any of their respective Affiliates or representatives, in making its investment or decision to invest in the Company, (ii) each Placement Agent is acting solely as placement agent in connection with the transactions contemplated hereby and is not acting as an underwriter, initial purchaser, dealer or in any other such capacity and is not and shall not be construed as a fiduciary for such Investor, (iii) the Placement Agents and their respective Affiliates and representatives have not made, and will not make any representations or warranties with respect to the Company or the offer and sale of the Securities or any other matter concerning the Company or the transactions contemplated hereby, and the Investor will not rely on any statements made by the Placement Agents, orally or in writing, to the contrary, (iv) the Investor will be responsible for conducting its own due diligence investigation with respect to the Company and the offer and sale of the Securities, (v) the Investor will be purchasing the Securities based on the results of its own due diligence investigation of the Company and the Placement Agents and each of its directors, officers, employees, representatives, and controlling persons have made no independent investigation with respect to the Company, the Securities or the accuracy, completeness, or adequacy of any information supplied to the Investor by the Company, (vi) the Investor has negotiated the offer and sale of the Securities directly with the Company, and the Placement Agents will not be responsible for the ultimate success of any such investment and (vii) the decision to invest in the Company will involve a significant degree of risk, including a risk of total loss of such investment. Each Investor further represents and warrants to the Placement Agents that it, including any fund or funds that it manages or advises that participates in the offer and sale of the Securities

is permitted under its constitutive documents (including, without limitation, all limited partnership agreements, charters, bylaws, limited liability company agreements, all applicable side letters with investors, and similar documents) to make investments of the type contemplated by this Agreement. This Section 8.10 shall survive any termination of this Agreement.

(b) The Company agrees and acknowledges that the Placement Agents may rely on its representations, warranties, agreements and covenants contained in this Agreement, and each Investor agrees that the Placement Agents may rely on such Investor's representations and warranties contained in this Agreement as if such representations and warranties, as applicable, were made directly to the Placement Agents.

(c) Neither of the Placement Agents nor any of their respective Affiliates or representatives (1) shall be liable for any improper payment made in accordance with the information provided by the Company; (2) makes any representation or warranty, or has any responsibilities as to the validity, enforceability, accuracy, value or genuineness of any information, certificates or documentation delivered by or on behalf of the Company pursuant to the Transaction Agreements or in connection with any of the transactions contemplated therein; or (3) shall be liable (x) for any action taken, suffered or omitted by any of them in good faith and reasonably believed to be authorized or within the discretion or rights or powers conferred upon them by the Transaction Agreements or (y) for anything which any of them may do or refrain from doing in connection with the Transaction Agreements, except in each case for such party's own gross negligence or willful misconduct.

(d) The Company agrees that the Placement Agents and their respective Affiliates and representatives shall be entitled to (1) rely on, and shall be protected in acting upon, any certificate, instrument, notice, letter or any other document or security delivered to any of them by or on behalf of the Company, and (2) be indemnified by the Company for acting as the Placement Agents hereunder pursuant to the indemnification provisions set forth in the applicable letter agreement between the Company and the Placement Agents.

8.11 Third Parties. Nothing in this Agreement, express or implied, is intended to confer on any Person other than the parties to this Agreement any rights, remedies, claims, benefits, obligations or liabilities under or by reason of this Agreement, and no Person that is not a party to this Agreement (including, without limitation, any partner, member, shareholder, director, officer, employee or other beneficial owner of any party to this Agreement, in its own capacity as such or in bringing a derivative action on behalf of a party to this Agreement) shall have any standing as a third party beneficiary with respect to this Agreement or the transactions contemplated hereby, except as expressly set forth in this Agreement. Notwithstanding the foregoing, (i) each Placement Agent is an intended third-party beneficiary of the representations and warranties of the Company and of each Investor set forth in Section 3, Section 4, Section 6.1(h) and Section 8.10, respectively, of this Agreement and (ii) the Indemnified Persons are intended third-party beneficiaries of Section 5.9.

8.12 Independent Nature of Investors' Obligations and Rights. The obligations of each Investor under this Agreement are several and not joint with the obligations of any other Investor, and no Investor shall be responsible in any way for the performance obligations of any other Investor under this Agreement. Nothing contained herein, and no action taken by any Investor pursuant hereto, shall be deemed to constitute the Investors as, and the Company acknowledges that the Investors do not so constitute, a partnership, an association, a joint venture or any other kind of entity, or create a presumption that the Investors are in any way acting in concert or as a group, and the Company will not assert any such claim with respect to such obligations or the transactions contemplated by this Agreement. The Company acknowledges and each Investor confirms that it has independently participated in the negotiation of the transaction contemplated hereby with the advice of its own counsel and advisors. Each Investor also acknowledges that none of Sidley Austin LLP or Cooley LLP have rendered legal advice to such Investor. Each Investor shall be entitled to independently protect and enforce its rights, including, without limitation, the rights arising out of this Agreement, and it shall not be necessary for any other Investor to be joined as an additional party in any proceeding for such purpose. The Company has elected to provide all Investors with the same terms and Transaction Agreements for the convenience of the Company and not because it was required or requested to do so by any Investor.

8.13 Headings. The titles, subtitles and headings in this Agreement are for convenience of reference and shall not form part of, or affect the interpretation of, this Agreement.

8.14 Counterparts. This Agreement may be executed in two or more identical counterparts, all of which shall be considered one and the same agreement and shall become effective when counterparts have been signed by each

party and delivered to the other party; *provided* that a facsimile or pdf signature including any electronic signatures complying with the U.S. federal ESIGN Act of 2000, e.g., www.docusign.com shall be considered due execution and shall be binding upon the signatory thereto with the same force and effect as if the signature were an original, not a facsimile or pdf (or other electronic reproduction of a) signature.

8.15 Entire Agreement; Amendments. This Agreement and the Registration Rights Agreement, together with any side letter agreements with any of the Investors, constitute the entire agreement between the parties hereto respecting the subject matter of this Agreement and supersedes all prior agreements, negotiations, understandings, representations and statements respecting the subject matter of this Agreement, whether written or oral. No amendment, modification, alteration, or change in any of the terms of this Agreement shall be valid or binding upon the parties hereto unless made in writing and duly executed by the Company and the Investor Majority; *provided* that any amendment, modification, alteration, or change that disproportionately and adversely affects the rights and obligations of any Investor relative to the comparable rights and obligations of the other Investors shall require the prior written consent of such adversely affected Investor; provided, further, that any amendment to the definition of "Share Price" (or of any of the other terms included in such definition), any change in the type of security to be issued to the Investors, and any amendment to or waiver of Section 5.5 (Removal of Legends), Section 5.9 (Indemnification), Section 6.1 (Conditions to the Obligation of the Investors), Section 7.1 (Termination) or this Section 8.15 (Entire Agreement; Amendments) shall require the consent of each Investor; *provided*, further, that prior to the Closing the consent of all Investors shall be required. Notwithstanding the foregoing, this Agreement may not be amended and the observance of any term of this Agreement may not be waived with respect to any Investor without the written consent of such Investor unless such amendment or waiver applies to all Investors in the same fashion. The Company, on the one hand, and each Investor, on the other hand, may by an instrument signed in writing by such parties waive the performance, compliance or satisfaction by such Investor or the Company, respectively, with any term or provision of this Agreement or any condition hereto to be performed, complied with or satisfied by such Investor or the Company, respectively. Notwithstanding the foregoing or anything else herein to the contrary, no amendment, modification, alteration, change or waiver of this Section 8.15 that is material and adverse to the Placement Agents shall be valid without the prior written consent of the Placement Agents, which consent may be granted or withheld in the sole discretion of the Placement Agents.

8.16 Survival. The covenants, representations and warranties made by each party hereto contained in this Agreement shall survive the Closing and the delivery of the Securities in accordance with their respective terms. Each Investor shall be responsible only for its own representations, warranties, agreements and covenants hereunder.

8.17 Contract Interpretation. This Agreement is the joint product of each Investor and the Company and each provision of this Agreement has been subject to the mutual consultation, negotiation and agreement of such parties and shall not be construed for or against any party hereto.

8.18 Arm's Length Negotiations. For the avoidance of doubt, the parties acknowledge and confirm that the terms and conditions of the Securities were determined as a result of arm's-length negotiations.

8.19 Equal Treatment of Investors. No Transaction Agreement (other agreements or understandings (including side letters) entered into in connection therewith or in connection with the sale of the Securities) shall have been amended, modified or waived in any manner that benefits any Investor unless each other Investor shall have been offered in writing the same benefits (other than terms particular to the legal or regulatory requirements of such Investor or their Affiliates or related Person). No consideration (including any modification of any Transaction Agreement) shall be offered or paid to any Person to amend or consent to a waiver or modification of any provision of any Transaction Agreement unless the same consideration is also offered to all of the parties to the Transaction Agreements. For clarification purposes, this provision constitutes a separate right granted to each Investor by the Company and negotiated separately by each Investor, and is intended for the Company to treat the Investors as a class and shall not in any way be construed as the Investors acting in concert or as a group with respect to the purchase, disposition or voting of Securities or otherwise.

Annex L

AMBROS THERAPEUTICS, INC.
2026 EQUITY INCENTIVE PLAN

ADOPTED BY THE BOARD OF DIRECTORS: [_____], 2026
APPROVED BY THE STOCKHOLDERS: [_____], 2026

1. GENERAL.

(a) Plan Purpose. The Company, by means of the Plan, seeks to secure and retain the services of Employees, Directors and Consultants, to provide incentives for such persons to exert maximum efforts for the success of the Company and any Affiliate and to provide a means by which such persons may be given an opportunity to benefit from increases in value of the Common Stock through the granting of Awards.

(b) Available Awards. The Plan provides for the grant of the following Awards: (i) Incentive Stock Options; (ii) Nonstatutory Stock Options; (iii) SARs; (iv) Restricted Stock Awards; (v) RSU Awards; (vi) Performance Awards; and (vii) Other Awards.

(c) Adoption Date; Effective Date. The Plan will come into existence on the Adoption Date, but no Award may be granted prior to the Effective Date.

2. SHARES SUBJECT TO THE PLAN.

(a) Share Reserve. Subject to adjustment in accordance with Section 2(c) and any adjustments as necessary to implement any Capitalization Adjustments, the aggregate number of shares of Common Stock that may be issued pursuant to Awards will not exceed [•][1] shares. In addition, subject to any adjustments as necessary to implement any Capitalization Adjustments, such aggregate number of shares of Common Stock will automatically increase on January 1 of each year for a period of ten years commencing on January 1, 2027 (or, if later, the first January 1 following the Effective Date) and ending on (and including) the tenth anniversary of such January 1, in an amount equal to [•][2]% of the total number of shares of Share Reserve Increase Stock outstanding on December 31 of the preceding year; provided, however, that the Board may act prior to January 1 of a given year to provide that the increase for such year will be a lesser number of shares of Common Stock.

(b) Aggregate Incentive Stock Option Limit. Notwithstanding anything to the contrary in Section 2(a) and subject to any adjustments as necessary to implement any Capitalization Adjustments, the aggregate maximum number of shares of Common Stock that may be issued pursuant to the exercise of Incentive Stock Options is [•] shares.

(c) Share Reserve Operation.

(i) Limit Applies to Common Stock Issued Pursuant to Awards. For clarity, the Share Reserve is a limit on the number of shares of Common Stock that may be issued pursuant to Awards and does not limit the granting of Awards, except that the Company will keep available at all times the number of shares of Common Stock reasonably required to satisfy its obligations to issue shares pursuant to such Awards. Shares may be issued in connection with a merger or acquisition as permitted by, as applicable, Nasdaq Listing Rule 5635(c)(3), NYSE Listed Company Manual Section 303A.08, NYSE American Company Guide Section 711 or other applicable rule, and such issuance will not reduce the number of shares available for issuance under the Plan.

(ii) Actions that Do Not Constitute Issuance of Common Stock and Do Not Reduce Share Reserve. The following actions do not result in an issuance of shares under the Plan and accordingly do not reduce the number of shares subject to the Share Reserve and available for issuance under the Plan: (1) the expiration or termination of any portion of an Award without the shares covered by such portion of the Award having been issued; (2) the settlement of any portion of an Award in cash (*i.e.*, the Participant receives cash rather than Common Stock); (3) the withholding of shares that would otherwise be issued by the Company to satisfy the exercise, strike or purchase price of an Award; or (4) the withholding of shares that would otherwise be issued by the Company to satisfy a tax withholding obligation in connection with an Award.

[1] **NTD**: This number will equal [•]% of the common stock of the combined company issued and outstanding immediately after the effective time of the Merger, but not in excess of [•] such shares. This amount will be determined by Ambros prior to the date on which this registration statement is declared effective in consultation with its independent compensation consultant.

[2] **NTD**: This amount will be determined by Ambros prior to the date on which this registration statement is declared effective in consultation with its independent compensation consultant.

3. Eligibility and Limitations.

(a) Eligible Award Recipients. Subject to the terms of the Plan, Employees, Directors and Consultants are eligible to receive Awards.

(b) Specific Award Limitations.

(i) Limitations on Incentive Stock Option Recipients. Incentive Stock Options may be granted only to Employees of the Company or a "parent corporation" or "subsidiary corporation" thereof (as such terms are defined in Sections 424(e) and (f) of the Code).

(ii) Incentive Stock Option $100,000 Limitation. To the extent that the aggregate Fair Market Value (determined at the time of grant) of the shares of Common Stock with respect to which Incentive Stock Options are exercisable for the first time by any Optionholder during any calendar year (under all plans of the Company and any Affiliates) exceeds $100,000 (or such other limit established in the Code) or any Incentive Stock Options otherwise do not comply with the rules governing Incentive Stock Options, the Options or portions thereof that exceed such limit (according to the order in which they were granted) or otherwise do not comply with such rules will be treated as Nonstatutory Stock Options, notwithstanding any contrary provision of the applicable Award Agreement(s).

(iii) Limitations on Incentive Stock Options Granted to Ten Percent Stockholders. A Ten Percent Stockholder may not be granted an Incentive Stock Option unless (1) the exercise price of such Option is at least 110% of the Fair Market Value on the date of grant of such Option and (2) the Option is not exercisable after the expiration of five years from the date of grant of such Option.

(iv) Limitations on Nonstatutory Stock Options and SARs. Nonstatutory Stock Options and SARs may not be granted to Employees, Directors and Consultants who are providing Continuous Service only to any "parent" of the Company (as such term is defined in Rule 405) unless the stock underlying such Awards is treated as "service recipient stock" under Section 409A because the Awards are granted pursuant to a corporate transaction (such as a spin off transaction) or unless such Awards otherwise comply with the distribution requirements of Section 409A.

(c) Aggregate Incentive Stock Option Limit. The aggregate maximum number of shares of Common Stock that may be issued pursuant to the exercise of Incentive Stock Options is the number of shares specified in Section 2(b).

(d) Non-Employee Director Compensation Limit. The aggregate value of all compensation granted or paid, as applicable, to any individual for service as a Non-Employee Director with respect to any fiscal year following the year in which the Effective Date occurs, including Awards granted and cash fees paid by the Company to such Non-Employee Director, will not exceed (1) $[•] in total value or (2) in the event such Non-Employee Director is first appointed or elected to the Board during such fiscal year, $[•] in total value, in each case, calculating the value of any equity awards based on the grant date fair value of such equity awards for financial reporting purposes. For the avoidance of doubt, compensation will count towards this limit for the fiscal year in which it was granted or earned, and not later when distributed, in the event it is deferred.

4. Options and Stock Appreciation Rights.

Each Option and SAR will have such terms and conditions as determined by the Board. Each Option will be designated in writing as an Incentive Stock Option or Nonstatutory Stock Option at the time of grant; provided, however, that if an Option is not so designated or if an Option designated as an Incentive Stock Option fails to qualify as an Incentive Stock Option, then such Option will be a Nonstatutory Stock Option, and the shares purchased upon exercise of each type of Option will be separately accounted for. Each SAR will be denominated in shares of Common Stock equivalents. The terms and conditions of separate Options and SARs need not be identical; provided, however, that each applicable Award Agreement will conform (through incorporation of provisions hereof by reference in the Award Agreement or otherwise) to the substance of each of the following provisions:

(a) Term. Subject to Section 3(b) regarding Ten Percent Stockholders, no Option or SAR will be exercisable after the expiration of ten years from the date of grant of such Award or such shorter period specified in the Award Agreement.

(b) Exercise or Strike Price. Subject to Section 3(b) regarding Ten Percent Stockholders, the exercise or strike price of each Option or SAR granted to a U.S. Participant will not be less than 100% of the Fair Market Value on the date of grant of such Award. Notwithstanding the foregoing, an Option or SAR may be granted to a U.S. Participant with an

exercise or strike price lower than 100% of the Fair Market Value on the date of grant of such Award if such Award is granted pursuant to an assumption of or substitution for another option or stock appreciation right pursuant to a Corporate Transaction and in a manner consistent with the provisions of Sections 409A and, if applicable, 424(a) of the Code. The exercise or strike price of each Option or SAR granted to a Participant who is not a U.S. Participant shall be determined by the Board and shall comply with Applicable Law. In addition, no Option or SAR may be granted with an exercise or strike price lower than the par value of the Common Stock, if any.

(c) Exercise Procedure and Payment of Exercise Price for Options. In order to exercise an Option, the Participant must provide notice of exercise to the Plan Administrator in accordance with the procedures specified in the applicable Award Agreement or otherwise provided by the Company. The Board has the authority to grant Options that do not permit all of the following methods of payment (or otherwise restrict the ability to use certain methods) and to grant Options that require the consent of the Company to utilize a particular method of payment. The exercise price of an Option may be paid, to the extent permitted by Applicable Law and as determined by the Board, by one or more of the following methods of payment to the extent set forth in the applicable Award Agreement:

(i) by cash or check, bank draft or money order payable to the Company;

(ii) pursuant to a "cashless exercise" program developed under Regulation T as promulgated by the Federal Reserve Board that, prior to the issuance of the Common Stock subject to the Option, results in either the receipt of cash (or check) by the Company or the receipt of irrevocable instructions to pay the exercise price to the Company from the sales proceeds;

(iii) by delivery to the Company (either by actual delivery or attestation) of shares of Common Stock that are already owned by the Participant free and clear of any liens, claims, encumbrances or security interests, with a Fair Market Value on the date of exercise that does not exceed the exercise price, provided that (1) at the time of exercise the Common Stock is publicly traded, (2) any remaining balance of the exercise price not satisfied by such delivery is paid by the Participant in cash or other permitted form of payment, (3) such delivery would not violate any Applicable Law or agreement restricting the redemption of the Common Stock, (4) any certificated shares are endorsed or accompanied by an executed assignment separate from certificate, and (5) such shares have been held by the Participant for any minimum period necessary to avoid adverse accounting treatment as a result of such delivery;

(iv) if the Option is a Nonstatutory Stock Option, by a "net exercise" arrangement pursuant to which the Company will reduce the number of shares of Common Stock issuable upon exercise by the largest whole number of shares with a Fair Market Value on the date of exercise that does not exceed the exercise price, provided that (1) such shares used to pay the exercise price will not be exercisable thereafter and (2) any remaining balance of the exercise price not satisfied by such net exercise is paid by the Participant in cash or other permitted form of payment; or

(v) in any other form of consideration that may be acceptable to the Board and permissible under Applicable Law.

(d) Exercise Procedure and Payment of Appreciation Distribution for SARs. In order to exercise any SAR, the Participant must provide notice of exercise to the Plan Administrator in accordance with the applicable Award Agreement. The appreciation distribution payable to a Participant upon the exercise of a SAR will not be greater than an amount equal to the excess of (i) the aggregate Fair Market Value on the date of exercise of a number of shares of Common Stock equal to the number of Common Stock equivalents that are vested and being exercised under such SAR, over (ii) the strike price of such SAR. Such appreciation distribution may be paid to the Participant in the form of Common Stock or cash (or any combination of Common Stock and cash) or in any other form of payment, as determined by the Board and specified in the applicable Award Agreement.

(e) Transferability. Options and SARs may not be transferred to third party financial institutions for value. The Board may impose such additional limitations on the transferability of an Option or SAR as it determines. In the absence of any such determination by the Board, the following restrictions on the transferability of Options and SARs will apply, provided that except as explicitly provided herein, neither an Option nor a SAR may be transferred for consideration and *provided, further*, that if an Option is an Incentive Stock Option, such Option may be deemed to be a Nonstatutory Stock Option as a result of such transfer:

(i) Restrictions on Transfer. An Option or SAR will not be transferable, except by will or by the laws of descent and distribution, and will be exercisable during the lifetime of the Participant only by the Participant; provided, however, that the Board may permit transfer of an Option or SAR in a manner that is not prohibited by

applicable tax and securities laws upon the Participant's request, including to a trust if the Participant is considered to be the sole beneficial owner of such trust (as determined under Section 671 of the Code and applicable state law) while such Option or SAR is held in such trust, provided that the Participant and the trustee enter into a transfer and other agreements required by the Company.

(ii) Domestic Relations Orders. Notwithstanding the foregoing, subject to the execution of transfer documentation in a format acceptable to the Company and subject to the approval of the Board or a duly authorized Officer, an Option or SAR may be transferred pursuant to a domestic relations order.

(f) Vesting. The Board may impose such restrictions on or conditions to the vesting and/or exercisability of an Option or SAR as determined by the Board. Except as otherwise provided in the Award Agreement or other written agreement between a Participant and the Company or an Affiliate, vesting of Options and SARs will cease upon termination of the Participant's Continuous Service.

(g) Termination of Continuous Service for Cause. Except as explicitly otherwise provided in the Award Agreement or other written agreement between a Participant and the Company or an Affiliate, if a Participant's Continuous Service is terminated for Cause, the Participant's Options and SARs will terminate and be forfeited immediately upon such termination of Continuous Service, and the Participant will be prohibited from exercising any portion (including any vested portion) of such Awards on and after the date of such termination of Continuous Service and the Participant will have no further right, title or interest in such forfeited Award, the shares of Common Stock subject to the forfeited Award, or any consideration in respect of the forfeited Award.

(h) Post-Termination Exercise Period Following Termination of Continuous Service for Reasons Other than Cause. Subject to Section 4(i), if a Participant's Continuous Service terminates for any reason other than for Cause, the Participant may exercise his or her Option or SAR to the extent vested, but only within the following period of time or, if applicable, such other period of time provided in the Award Agreement or other written agreement between a Participant and the Company or an Affiliate; provided, however, that in no event may such Award be exercised after the expiration of its maximum term (as set forth in Section 4(a)):

(i) three months following the date of such termination if such termination is a termination without Cause (other than any termination due to the Participant's Disability or death);

(ii) 12 months following the date of such termination if such termination is due to the Participant's Disability;

(iii) 18 months following the date of such termination if such termination is due to the Participant's death; or

(iv) 18 months following the date of the Participant's death if such death occurs following the date of such termination but during the period such Award is otherwise exercisable (as provided in (i) or (ii) above).

Following the date of such termination, to the extent the Participant does not exercise such Award within the applicable Post-Termination Exercise Period (or, if earlier, prior to the expiration of the maximum term of such Award), such unexercised portion of the Award will terminate, and the Participant will have no further right, title or interest in the terminated Award, the shares of Common Stock subject to the terminated Award, or any consideration in respect of the terminated Award.

(i) Restrictions on Exercise; Extension of Exercisability. A Participant may not exercise an Option or SAR at any time that the issuance of shares of Common Stock upon such exercise would violate Applicable Law. Except as otherwise provided in the Award Agreement or other written agreement between a Participant and the Company or an Affiliate, if a Participant's Continuous Service terminates for any reason other than for Cause and, at any time during the last thirty days of the applicable Post-Termination Exercise Period: (i) the exercise of the Participant's Option or SAR would be prohibited solely because the issuance of shares of Common Stock upon such exercise would violate Applicable Law; or (ii) the immediate sale of any shares of Common Stock issued upon such exercise would violate the Company's Trading Policy, then the applicable Post-Termination Exercise Period will be extended to the last day of the calendar month that commences following the date the Award would otherwise expire, with an additional extension of the exercise period to the last day of the next calendar month to apply if any of the foregoing restrictions apply at any time during such extended exercise period, generally without limitation as to the maximum permitted number of extensions; provided, however, that in no event may such Award be exercised after the expiration of its maximum term (as set forth in Section 4(a)).

(j) Non-Exempt Employees. No Option or SAR, whether or not vested, granted to an Employee who is a non-exempt employee for purposes of the Fair Labor Standards Act of 1938, as amended, will be first exercisable for

any shares of Common Stock until at least six months following the date of grant of such Award. Notwithstanding the foregoing, in accordance with the provisions of the Worker Economic Opportunity Act, any vested portion of such Award may be exercised earlier than six months following the date of grant of such Award in the event of (i) such Participant's death or Disability, (ii) a Corporate Transaction in which such Award is not assumed, continued or substituted, (iii) a Change in Control, or (iv) such Participant's retirement (as such term may be defined in the Award Agreement or another applicable agreement or, in the absence of any such definition, in accordance with the Company's then current employment policies and guidelines). This Section 4(j) is intended to operate so that any income derived by a non-exempt employee in connection with the exercise or vesting of an Option or SAR will be exempt from his or her regular rate of pay.

(k) Whole Shares. Options and SARs may be exercised only with respect to whole shares of Common Stock or their equivalents.

5. Awards Other Than Options and Stock Appreciation Rights.

(a) Restricted Stock Awards and RSU Awards. Each Restricted Stock Award and RSU Award will have such terms and conditions as determined by the Board; provided, however, that each applicable Award Agreement will conform (through incorporation of the provisions hereof by reference in the Award Agreement or otherwise) to the substance of each of the following provisions:

(i) Form of Award.

(1) Restricted Stock Awards: To the extent consistent with the Company's Bylaws, at the Board's election, shares of Common Stock subject to a Restricted Stock Award may be (A) held in book entry form subject to the Company's instructions until such shares become vested or any other restrictions lapse, or (B) evidenced by a certificate, which certificate will be held in such form and manner as determined by the Board. Unless otherwise determined by the Board, a Participant will have voting and other rights as a stockholder of the Company with respect to any shares subject to a Restricted Stock Award.

(2) RSU Awards: An RSU Award represents a Participant's right to be issued on a future date the number of shares of Common Stock that is equal to the number of restricted stock units subject to the RSU Award. As a holder of an RSU Award, a Participant is an unsecured creditor of the Company with respect to the Company's unfunded obligation, if any, to issue shares of Common Stock in settlement of such Award and nothing contained in the Plan or any applicable Award Agreement, and no action taken pursuant to its provisions, will create or be construed to create a trust of any kind or a fiduciary relationship between a Participant and the Company or an Affiliate or any other person. A Participant will not have voting or any other rights as a stockholder of the Company with respect to any RSU Award (unless and until shares are actually issued in settlement of a vested RSU Award).

(ii) Consideration.

(1) Restricted Stock Awards: A Restricted Stock Award may be granted in consideration for (A) cash or check, bank draft or money order payable to the Company, (B) past services to the Company or an Affiliate, or (C) any other form of consideration (including future services) as the Board may determine and permissible under Applicable Law.

(2) RSU Awards: Unless otherwise determined by the Board at the time of grant, an RSU Award will be granted in consideration for the Participant's services to the Company or an Affiliate, such that the Participant will not be required to make any payment to the Company (other than such services) with respect to the grant or vesting of the RSU Award, or the issuance of any shares of Common Stock pursuant to the RSU Award. If, at the time of grant, the Board determines that any consideration must be paid by the Participant (in a form other than the Participant's services to the Company or an Affiliate) upon the issuance of any shares of Common Stock in settlement of the RSU Award, such consideration may be paid in any form of consideration as the Board may determine and permissible under Applicable Law.

(iii) Vesting. The Board may impose such restrictions on or conditions to the vesting of a Restricted Stock Award or RSU Award as determined by the Board. Except as otherwise provided in the Award Agreement or other written agreement between a Participant and the Company or an Affiliate, vesting of Restricted Stock Awards and RSU Awards will cease upon termination of the Participant's Continuous Service.

(iv) Termination of Continuous Service. Except as otherwise provided in the Award Agreement or other written agreement between a Participant and the Company or an Affiliate, if a Participant's Continuous Service terminates for any reason, (1) the Company may receive through a forfeiture condition or a repurchase right any or all of the shares of Common Stock held by the Participant under his or her Restricted Stock Award that have not vested as of the date of such termination as set forth in the applicable Award Agreement, (2) any portion of his or her RSU Award that has not vested will be forfeited upon such termination, and (3) the Participant will have no further right, title or interest in the Restricted Stock Award or RSU Award, the shares of Common Stock subject to or issuable pursuant to the Restricted Stock Award or RSU Award, or any consideration in respect of the Restricted Stock Award or RSU Award.

(v) Dividends and Dividend Equivalents. Dividends or dividend equivalents may be paid or credited, as applicable, with respect to any shares of Common Stock subject to a Restricted Stock Award or RSU Award, as determined by the Board and specified in the Award Agreement.

(vi) Settlement of RSU Awards. An RSU Award may be settled by the issuance of shares of Common Stock or cash (or any combination thereof) or in any other form of payment, as determined by the Board and specified in the applicable Award Agreement. At the time of grant, the Board may determine to impose such restrictions or conditions that delay such delivery to a date following the vesting of the RSU Award.

(b) Performance Awards. With respect to any Performance Award, the length of any Performance Period, the Performance Goals to be achieved during the Performance Period, the other terms and conditions of such Award, and the measure of whether and to what degree such Performance Goals have been attained will be approved or ratified by the Board.

(c) Other Awards. Other forms of Awards valued in whole or in part by reference to, or otherwise based on, Common Stock, including the appreciation in value thereof (e.g., options or stock rights with an exercise price or strike price less than 100% of the Fair Market Value at the time of grant) may be granted either alone or in addition to Awards provided for under Section 4 and the preceding provisions of this Section 5. Subject to the provisions of the Plan, the Board will have sole and complete discretion to determine the persons to whom and the time or times at which such Other Awards will be granted, the number of shares of Common Stock (or the cash equivalent thereof) to be granted pursuant to such Other Awards and all other terms and conditions of such Other Awards.

6. Adjustments upon Changes in Common Stock; Other Corporate Events.

(a) Capitalization Adjustments. In the event of a Capitalization Adjustment, the Board shall appropriately and proportionately adjust: (i) the class(es) and maximum number of shares of Common Stock subject to the Plan and the maximum number of shares by which the Share Reserve may annually increase pursuant to Section 2(a); (ii) the class(es) and maximum number of shares that may be issued pursuant to the exercise of Incentive Stock Options pursuant to Section 2(b); and (iii) the class(es) and number of securities and exercise price, strike price or purchase price of Common Stock subject to outstanding Awards. The Board shall make such adjustments, and its determination shall be final, binding and conclusive. Notwithstanding the foregoing, no fractional shares or rights for fractional shares of Common Stock shall be created in order to implement any Capitalization Adjustment. The Board shall determine an appropriate equivalent benefit, if any, for any fractional shares or rights to fractional shares that might be created by the adjustments referred to in the preceding provisions of this Section.

(b) Dissolution or Liquidation. Except as otherwise provided in the Award Agreement, in the event of a dissolution or liquidation of the Company, all outstanding Awards (other than Awards consisting of vested and outstanding shares of Common Stock not subject to a forfeiture condition or the Company's right of repurchase) will terminate immediately prior to the completion of such dissolution or liquidation, and the shares of Common Stock subject to the Company's repurchase rights or subject to a forfeiture condition may be repurchased or reacquired by the Company notwithstanding the fact that the holder of such Award is providing Continuous Service, provided, however, that the Board may determine to cause some or all Awards to become fully vested, exercisable and/or no longer subject to repurchase or forfeiture (to the extent such Awards have not previously expired or terminated) before the dissolution or liquidation is completed but contingent on its completion.

(c) Corporate Transaction. The following provisions will apply to Awards in the event of a Corporate Transaction, unless otherwise provided in the instrument evidencing the Award or any other written agreement between the Company or any Affiliate and the Participant or unless otherwise expressly provided by the Board at the time of grant of an Award.

(i) Awards May Be Assumed. In the event of a Corporate Transaction, any surviving corporation or acquiring corporation (or the surviving or acquiring corporation's parent company) may assume or continue any or all Awards outstanding under the Plan or may substitute similar awards for Awards outstanding under the Plan (including but not limited to, awards to acquire the same consideration paid to the stockholders of the Company pursuant to the Corporate Transaction), and any reacquisition or repurchase rights held by the Company in respect of Common Stock issued pursuant to Awards may be assigned by the Company to the successor of the Company (or the successor's parent company, if any), in connection with such Corporate Transaction. A surviving corporation or acquiring corporation (or its parent) may choose to assume or continue only a portion of an Award or substitute a similar award for only a portion of an Award, or may choose to assume, continue or substitute the Awards held by some, but not all Participants. The terms of any assumption, continuation or substitution will be set by the Board.

(ii) Awards Held by Current Participants. In the event of a Corporate Transaction in which the surviving corporation or acquiring corporation (or its parent company) does not assume or continue such outstanding Awards or substitute similar awards for such outstanding Awards, then with respect to Awards that have not been assumed, continued or substituted and that are held by Participants whose Continuous Service has not terminated prior to the effective time of the Corporate Transaction (referred to as the "***Current Participants***"), the vesting of such Awards (and, with respect to Options and Stock Appreciation Rights, the time when such Awards may be exercised) will be accelerated in full to a date prior to the effective time of such Corporate Transaction (contingent upon the effectiveness of the Corporate Transaction) as the Board determines (or, if the Board does not determine such a date, to the date that is five days prior to the effective time of the Corporate Transaction), and such Awards will terminate if not exercised (if applicable) at or prior to the effective time of the Corporate Transaction, and any reacquisition or repurchase rights held by the Company with respect to such Awards will lapse (contingent upon the effectiveness of the Corporate Transaction). With respect to the vesting of Performance Awards that will accelerate upon the occurrence of a Corporate Transaction pursuant to this subsection (ii) and that have multiple vesting levels depending on the level of performance, unless otherwise provided in the Award Agreement, the vesting of such Performance Awards will accelerate at 100% of the target level upon the occurrence of the Corporate Transaction. With respect to the vesting of Awards that will accelerate upon the occurrence of a Corporate Transaction pursuant to this subsection (ii) and are settled in the form of a cash payment, such cash payment will be made no later than 30 days following the occurrence of the Corporate Transaction or such later date as required to comply with Section 409A of the Code.

(iii) Awards Held by Persons other than Current Participants. In the event of a Corporate Transaction in which the surviving corporation or acquiring corporation (or its parent company) does not assume or continue such outstanding Awards or substitute similar awards for such outstanding Awards, then with respect to Awards that have not been assumed, continued or substituted and that are held by persons other than Current Participants, such Awards will terminate if not exercised (if applicable) prior to the occurrence of the Corporate Transaction; provided, however, that any reacquisition or repurchase rights held by the Company with respect to such Awards will not terminate and may continue to be exercised notwithstanding the Corporate Transaction.

(iv) Payment for Awards in Lieu of Exercise. Notwithstanding the foregoing, in the event an Award will terminate if not exercised prior to the effective time of a Corporate Transaction, the Board may provide, in its sole discretion, that the holder of such Award may not exercise such Award but will receive a payment, in such form as may be determined by the Board, equal in value, at the effective time, to the excess, if any, of (1) the value of the property the Participant would have received upon the exercise of the Award (including, at the discretion of the Board, any unvested portion of such Award), over (2) any exercise price payable by such holder in connection with such exercise.

(d) Change in Control. An Award may be subject to additional acceleration of vesting and exercisability upon or after a Change in Control as may be provided in the Award Agreement for such Award or as may be provided in any other written agreement between the Company or any Affiliate and the Participant, but in the absence of such provision, no such acceleration will occur.

(e) Appointment of Stockholder Representative. As a condition to the receipt of an Award under this Plan, a Participant will be deemed to have agreed that the Award will be subject to the terms of any agreement governing a Corporate Transaction involving the Company, including, without limitation, a provision for the appointment of a stockholder representative that is authorized to act on the Participant's behalf with respect to any escrow, indemnities and any contingent consideration.

(f) No Restriction on Right to Undertake Transactions. The grant of any Award under the Plan and the issuance of shares pursuant to any Award does not affect or restrict in any way the right or power of the Company, the Board or the stockholders of the Company to make or authorize any adjustment, recapitalization, reorganization or other change in the Company's capital structure or its business, any Change in Control, any Corporate Transaction, any merger or consolidation of the Company, any issue of stock or of options, rights or options to purchase stock or of bonds, debentures, preferred or prior preference stocks whose rights are superior to or affect the Common Stock or the rights thereof or which are convertible into or exchangeable for Common Stock, or the dissolution or liquidation of the Company, or any sale or transfer of all or any part of its assets or business, or any other corporate act or proceeding, whether of a similar character or otherwise.

7. ADMINISTRATION.

(a) Administration by Board. The Board will administer the Plan unless and until the Board delegates administration of the Plan to a Committee or Committees, as provided in subsection (c) below.

(b) Powers of Board. The Board will have the power, subject to, and within the limitations of, the express provisions of the Plan:

(i) To determine from time to time (1) which of the persons eligible under the Plan will be granted Awards; (2) when and how each Award will be granted; (3) what type or combination of types of Award will be granted; (4) the provisions of each Award granted (which need not be identical), including the time or times when a person will be permitted to receive an issuance of Common Stock or other payment pursuant to an Award; (5) the number of shares of Common Stock or cash equivalent with respect to which an Award will be granted to each such person; (6) the Fair Market Value applicable to an Award; and (7) the terms of any Performance Award that is not valued in whole or in part by reference to, or otherwise based on, the Common Stock, including the amount of cash payment or other property that may be earned and the timing of payment.

(ii) To construe and interpret the Plan and Awards granted under it, and to establish, amend and revoke rules and regulations for its administration. The Board, in the exercise of this power, may correct any defect, omission or inconsistency in the Plan or in any Award Agreement, in a manner and to the extent it deems necessary or expedient to make the Plan or Award fully effective.

(iii) To settle all controversies regarding the Plan and Awards granted under it.

(iv) To accelerate the time at which an Award may first be exercised or the time during which an Award or any part thereof will vest, notwithstanding the provisions in the Award Agreement stating the time at which it may first be exercised or the time during which it will vest.

(v) To prohibit the exercise of any Option, SAR or other exercisable Award during a period of up to 30 days prior to the consummation of any pending stock dividend, stock split, combination or exchange of shares, merger, consolidation or other distribution (other than normal cash dividends) of Company assets to stockholders, or any other change affecting the shares of Common Stock or the share price of the Common Stock, including any Corporate Transaction, for reasons of administrative convenience.

(vi) To suspend or terminate the Plan at any time. Suspension or termination of the Plan will not Materially Impair rights and obligations under any Award granted while the Plan is in effect except with the written consent of the affected Participant.

(vii) To amend the Plan in any respect the Board deems necessary or advisable; provided, however, that stockholder approval will be required for any amendment to the extent required by Applicable Law. Except as provided above, rights under any Award granted before amendment of the Plan will not be Materially Impaired by any amendment of the Plan unless (1) the Company requests the consent of the affected Participant, and (2) such Participant consents in writing.

(viii) To submit any amendment to the Plan for stockholder approval.

(ix) To approve forms of Award Agreements for use under the Plan and to amend the terms of any one or more Awards, including, but not limited to, amendments to provide terms more favorable to the Participant than previously provided in the Award Agreement, subject to any specified limits in the Plan that are not subject to Board discretion; *provided however*, that, a Participant's rights under any Award will not be Materially Impaired by any such amendment unless (1) the Company requests the consent of the affected Participant, and (2) such Participant consents in writing.

(x) Generally, to exercise such powers and to perform such acts as the Board deems necessary or expedient to promote the best interests of the Company and that are not in conflict with the provisions of the Plan or Awards.

(xi) To adopt such procedures and sub-plans as are necessary or appropriate to permit and facilitate participation in the Plan by, or take advantage of specific tax treatment for Awards granted to, Employees, Directors or Consultants who are non-U.S. nationals or employed outside the United States (provided that Board approval will not be necessary for immaterial modifications to the Plan or any Award Agreement to ensure or facilitate compliance with the laws of the relevant non-U.S. jurisdiction).

(xii) To effect, at any time and from time to time, subject to the consent of any Participant whose Award is Materially Impaired by such action, (1) the reduction of the exercise price (or strike price) of any outstanding Option or SAR; (2) the cancellation of any outstanding Option or SAR and the grant in substitution therefor of (A) a new Option, SAR, Restricted Stock Award, RSU Award or Other Award, under the Plan or another equity plan of the Company, covering the same or a different number of shares of Common Stock, (B) cash and/or (C) other valuable consideration (as determined by the Board); or (3) any other action that is treated as a repricing under generally accepted accounting principles.

(c) Delegation to Committee.

(i) General. The Board may delegate some or all of the administration of the Plan to a Committee or Committees. If administration of the Plan is delegated to a Committee, the Committee will have, in connection with the administration of the Plan, the powers theretofore possessed by the Board that have been delegated to the Committee, including the power to delegate to another Committee or a subcommittee of the Committee any of the administrative powers the Committee is authorized to exercise (and references in this Plan to the Board will thereafter be to the Committee or subcommittee), subject, however, to such resolutions, not inconsistent with the provisions of the Plan, as may be adopted from time to time by the Board. Each Committee may retain the authority to concurrently administer the Plan with the Committee or subcommittee to which it has delegated its authority hereunder and may, at any time, revest in such Committee some or all of the powers previously delegated. The Board may retain the authority to concurrently administer the Plan with any Committee and may, at any time, revest in the Board some or all of the powers previously delegated.

(ii) Rule 16b-3 Compliance. To the extent an Award is intended to qualify for the exemption from Section 16(b) of the Exchange Act that is available under Rule 16b-3 of the Exchange Act, the Award will be granted by the Board or a Committee that consists solely of two or more Non-Employee Directors, as determined under Rule 16b-3(b)(3) of the Exchange Act and thereafter any action establishing or modifying the terms of the Award will be approved by the Board or a Committee meeting such requirements to the extent necessary for such exemption to remain available.

(d) Effect of Board's Decision. All determinations, interpretations and constructions made by the Board or any Committee in good faith will not be subject to review by any person and will be final, binding and conclusive on all persons.

(e) Delegation to Other Person or Body. The Board or any Committee may delegate to one or more persons or bodies the authority to do one or more of the following to the extent permitted by Applicable Law: (i) designate recipients, other than Officers, of Options and SARs (and, to the extent permitted by Applicable Law, other Awards), provided that no person or body may be delegated authority to grant an Award to themself; (ii) determine the number of shares subject to such Awards; and (iii) determine the terms of such Awards; provided, however, that the Board or Committee action regarding such delegation will fix the terms of such delegation in accordance with Applicable Law, including without limitation Sections 152 and 157 of the Delaware General Corporation Law. Unless provided otherwise in the Board or Committee action regarding such delegation, each Award granted pursuant to this section will be granted on the applicable form of Award Agreement most recently approved for use by the Board or the Committee, with any modifications necessary to incorporate or reflect the terms of such Award. Notwithstanding anything to the contrary herein, neither the Board nor any Committee may delegate to any person or body (who is not a Director or that is not comprised solely of Directors, respectively) the authority to determine the Fair Market Value.

8. Tax Withholding.

(a) Withholding Authorization. As a condition to acceptance of any Award under the Plan, a Participant authorizes withholding from payroll and any other amounts payable to such Participant, and otherwise agrees to make adequate arrangements to satisfy, any Tax-Related Item withholding obligations, if any, of the Company and/or an

Affiliate that arise in connection with the grant, vesting, exercise or settlement of such Award, as applicable. Accordingly, a Participant may not be able to exercise an Award even though the Award is vested, and the Company shall have no obligation to issue shares of Common Stock subject to an Award, unless and until such obligations are satisfied.

(b) Satisfaction of Withholding Obligation. To the extent permitted by the terms of an Award Agreement, the Company may, in its sole discretion, satisfy any Tax-Related Item withholding obligation relating to an Award by any of the following means or by a combination of such means: (i) causing the Participant to tender a cash payment; (ii) withholding shares of Common Stock from the shares of Common Stock issued or otherwise issuable to the Participant in connection with the Award; (iii) withholding cash from an Award settled in cash; (iv) withholding payment from any amounts otherwise payable to the Participant; (v) by allowing a Participant to effectuate a "cashless exercise" pursuant to a program developed under Regulation T as promulgated by the Federal Reserve Board; (vi) allowing the Participant to enter into a "same day sale" commitment with a broker-dealer (including, without limitation, a commitment under a previously established written trading plan that meets the requirements of Rule 10b5-1 under the Exchange Act); or (vii) by such other method as may be set forth in the Award Agreement.

(c) No Obligation to Notify or Minimize Taxes; No Liability to Claims. Except as required by Applicable Law, the Company has no duty or obligation to any Participant to advise such holder as to the time or manner of exercising such Award. Furthermore, the Company has no duty or obligation to warn or otherwise advise such holder of a pending termination or expiration of an Award or a possible period in which the Award may not be exercised. The Company has no duty or obligation to minimize the tax consequences of an Award to the holder of such Award and will not be liable to any holder of an Award for any adverse tax consequences to such holder in connection with an Award. As a condition to accepting an Award under the Plan, each Participant (i) agrees to not make any claim against the Company, or any of its Officers, Directors, Employees or Affiliates related to tax liabilities arising from such Award or other Company compensation and (ii) acknowledges that such Participant was advised to consult with his or her own personal tax, financial and other legal advisors regarding the tax consequences of the Award and has either done so or knowingly and voluntarily declined to do so. Additionally, each Participant acknowledges any Option or SAR granted under the Plan is exempt from Section 409A only if the exercise or strike price is at least equal to the "fair market value" of the Common Stock on the date of grant as determined by the Internal Revenue Service and there is no other impermissible deferral of compensation associated with the Award. Additionally, as a condition to accepting an Option or SAR granted under the Plan, each Participant agrees not make any claim against the Company, or any of its Officers, Directors, Employees or Affiliates in the event that the Internal Revenue Service asserts that such exercise price or strike price is less than the "fair market value" of the Common Stock on the date of grant as subsequently determined by the Internal Revenue Service.

(d) Withholding Indemnification. The Company and/or its Affiliate may withhold or account for Tax-Related Items by considering statutory or other withholding rates, including minimum or maximum rates applicable in a Participant's jurisdiction. In the event of overwithholding, the Participant may receive a refund of any over-withheld amount in cash (with no entitlement to the equivalent in Common Stock) or, if not refunded, the Participant may seek a refund from the local tax authorities. In the event of underwithholding, the Participant may be required to pay any additional Tax-Related Items directly to the applicable tax authority or to the Company and/or its Affiliate. As a condition to accepting an Award under the Plan, in the event that the amount of the Company's and/or its Affiliate's withholding obligation in connection with such Award was greater than the amount actually withheld by the Company and/or its Affiliates, each Participant agrees to indemnify and hold the Company and/or its Affiliates harmless from any failure by the Company and/or its Affiliates to withhold the proper amount. Further, if the obligation for Tax-Related Items is satisfied by withholding in shares of Common Stock, for tax purposes, the Participant will be deemed to have been issued the full number of shares subject to the Award, notwithstanding that a number of the shares is held back solely for the purpose of paying the Tax-Related Items.

9. Miscellaneous.

(a) Source of Shares. The stock issuable under the Plan will be shares of authorized but unissued or reacquired Common Stock, including shares repurchased by the Company on the open market or otherwise.

(b) Use of Proceeds from Sales of Common Stock. Proceeds from the sale of shares of Common Stock pursuant to Awards will constitute general funds of the Company.

(c) Corporate Action Constituting Grant of Awards. Corporate action constituting a grant by the Company of an Award to any Participant will be deemed completed as of the date of such corporate action, unless otherwise

determined by the Board, regardless of when the instrument, certificate, or letter evidencing the Award is communicated to, or actually received or accepted by, the Participant. In the event that the corporate records (e.g., Board consents, resolutions or minutes) documenting the corporate action approving the grant contain terms (e.g., exercise price, vesting schedule or number of shares) that are inconsistent with those in the Award Agreement or related grant documents as a result of a clerical error in the Award Agreement or related grant documents, the corporate records will control and the Participant will have no legally binding right to the incorrect term in the Award Agreement or related grant documents.

(d) Stockholder Rights. No Participant will be deemed to be the holder of, or to have any of the rights of a holder with respect to, any shares of Common Stock subject to such Award unless and until (i) such Participant has satisfied all requirements for exercise of the Award pursuant to its terms, if applicable, and (ii) the issuance of the Common Stock subject to such Award is reflected in the records of the Company.

(e) No Employment or Other Service Rights. Nothing in the Plan, any Award Agreement or any other instrument executed thereunder or in connection with any Award granted pursuant thereto will confer upon any Participant any right to continue to serve the Company or an Affiliate in the capacity in effect at the time the Award was granted or affect the right of the Company or an Affiliate to terminate at will (unless otherwise required under Applicable Law) and without regard to any future vesting opportunity that a Participant may have with respect to any Award (i) the employment of an Employee with or without notice and with or without Cause, (ii) the service of a Consultant pursuant to the terms of such Consultant's agreement with the Company or an Affiliate, or (iii) the service of a Director pursuant to the Bylaws of the Company or an Affiliate, and any applicable provisions of the corporate law of the U.S. state or non-U.S. jurisdiction in which the Company or the Affiliate is incorporated, as the case may be. Further, nothing in the Plan, any Award Agreement or any other instrument executed thereunder or in connection with any Award will constitute any promise or commitment by the Company or an Affiliate regarding the fact or nature of future positions, future work assignments, future compensation or any other term or condition of employment or service or confer any right or benefit under the Award or the Plan unless such right or benefit has specifically accrued under the terms of the Award Agreement and/or Plan.

(f) Change in Time Commitment. In the event a Participant's regular level of time commitment in the performance of his or her services for the Company and any Affiliates is reduced (for example, and without limitation, if the Participant is an Employee of the Company and the Employee has a change in status from a full-time Employee to a part-time Employee or takes an extended leave of absence) after the date of grant of any Award to the Participant, the Board may determine, to the extent permitted by Applicable Law, to (i) make a corresponding reduction in the number of shares or cash amount subject to any portion of such Award that is scheduled to vest or become payable after the date of such change in time commitment, and (ii) in lieu of or in combination with such a reduction, extend the vesting or payment schedule applicable to such Award. In the event of any such reduction, the Participant will have no right with respect to any portion of the Award that is so reduced or extended.

(g) Execution of Additional Documents. As a condition to accepting an Award under the Plan, the Participant agrees to execute any additional documents or instruments necessary or desirable, as determined in the Plan Administrator's sole discretion, to carry out the purposes or intent of the Award, or facilitate compliance with securities and/or other regulatory requirements, in each case at the Plan Administrator's request.

(h) Electronic Delivery and Participation. Any reference herein or in an Award Agreement to a "written" agreement or document will include any agreement or document delivered electronically, filed publicly at www.sec.gov (or any successor website thereto) or posted on the Company's intranet (or other shared electronic medium controlled by the Company to which the Participant has access). By accepting any Award, the Participant consents to receive documents by electronic delivery and to participate in the Plan through any on-line electronic system established and maintained by the Plan Administrator or another third party selected by the Plan Administrator. The form of delivery of any Common Stock (e.g., a stock certificate or electronic entry evidencing such shares) shall be determined by the Company.

(i) Clawback/Recovery. All Awards granted under the Plan will be subject to recoupment in accordance with any clawback policy that the Company is required to adopt pursuant to the listing standards of any national securities exchange or association on which the Company's securities are listed or as is otherwise required by the Dodd-Frank Wall Street Reform and Consumer Protection Act or other Applicable Law and any clawback policy that the Company otherwise adopts, to the extent applicable and permissible under Applicable Law. In addition, the Board may impose such other clawback, recovery or recoupment provisions in an Award Agreement as the Board determines necessary or appropriate, including but not limited to a reacquisition right in respect of previously acquired shares of Common Stock

or other cash or property upon the occurrence of Cause. No recovery of compensation under such a clawback policy will be an event giving rise to a Participant's right to voluntarily terminate employment upon a "resignation for good reason," or for a "constructive termination" or any similar term under any plan of or agreement with the Company.

(j) Securities Law Compliance. A Participant will not be issued any shares in respect of an Award unless either (i) the shares are registered under the Securities Act or (ii) the Company has determined that such issuance would be exempt from the registration requirements of the Securities Act. Each Award also must comply with other Applicable Law governing the Award, and a Participant will not receive such shares if the Company determines that such receipt would not be in material compliance with Applicable Law.

(k) Transfer or Assignment of Awards; Issued Shares. Except as expressly provided in the Plan or the form of Award Agreement, Awards granted under the Plan may not be transferred or assigned by the Participant. After the vested shares subject to an Award have been issued, or in the case of a Restricted Stock Award and similar awards, after the issued shares have vested, the holder of such shares is free to assign, hypothecate, donate, encumber or otherwise dispose of any interest in such shares provided that any such actions are in compliance with the provisions herein, the terms of the Trading Policy and Applicable Law.

(l) Effect on Other Employee Benefit Plans. The value of any Award granted under the Plan, as determined upon grant, vesting or settlement, shall not be included as compensation, earnings, salaries, or other similar terms used when calculating any Participant's benefits under any employee benefit plan sponsored by the Company or any Affiliate, except as such plan otherwise expressly provides. The Company expressly reserves its rights to amend, modify, or terminate any of the Company's or any Affiliate's employee benefit plans.

(m) Deferrals. To the extent permitted by Applicable Law, the Board, in its sole discretion, may determine that the delivery of Common Stock or the payment of cash, upon the exercise, vesting or settlement of all or a portion of any Award may be deferred and may also establish programs and procedures for deferral elections to be made by Participants. Deferrals will be made in accordance with the requirements of Section 409A.

(n) Section 409A. Unless otherwise expressly provided for in an Award Agreement, the Plan and Award Agreements will be interpreted to the greatest extent possible in a manner that makes the Plan and the Awards granted hereunder exempt from Section 409A, and, to the extent not so exempt, in compliance with the requirements of Section 409A. If the Board determines that any Award granted hereunder is not exempt from and is therefore subject to Section 409A, the Award Agreement evidencing such Award will incorporate the terms and conditions necessary to avoid the consequences specified in Section 409A(a)(1) of the Code, and to the extent an Award Agreement is silent on terms necessary for compliance, such terms are hereby incorporated by reference into the Award Agreement. Each installment that vests or is delivered under an Award in a series of payments or installments will be treated as a separate payment for purposes of Section 409A, unless expressly set forth in the Award Agreement that each installment is not a separate payment. Notwithstanding anything to the contrary in this Plan (and unless the Award Agreement specifically provides otherwise), if the shares of Common Stock are publicly traded, and if a Participant holding an Award that constitutes "deferred compensation" under Section 409A is a "specified employee" for purposes of Section 409A, no distribution or payment of any amount that is due because of a "separation from service" (as defined in Section 409A without regard to alternative definitions thereunder) will be issued or paid before the date that is six months and one day following the date of such Participant's "separation from service" or, if earlier, the date of the Participant's death, unless such distribution or payment can be made in a manner that complies with Section 409A, and any amounts so deferred will be paid in a lump sum on the day after such six month period elapses, with the balance paid thereafter on the original schedule.

(o) Choice of Law. This Plan and any controversy arising out of or relating to this Plan shall be governed by, and construed in accordance with, the internal laws of the State of Delaware, without regard to conflict of law principles that would result in any application of any law other than the law of the State of Delaware.

10. Covenants of the Company.

The Company will seek to obtain from each regulatory commission or agency, as may be deemed to be necessary, having jurisdiction over the Plan such authority as may be required to grant Awards and to issue and sell shares of Common Stock upon exercise or vesting of the Awards; provided, however, that this undertaking will not require the Company to register under the Securities Act the Plan, any Award or any Common Stock issued or issuable pursuant to any such Award. If, after reasonable efforts and at a reasonable cost, the Company is unable to obtain from any such regulatory commission or agency the authority that counsel for the Company deems necessary or advisable for the

lawful issuance and sale of Common Stock under the Plan, the Company will be relieved from any liability for failure to issue and sell Common Stock upon exercise or vesting of such Awards unless and until such authority is obtained. A Participant is not eligible for the grant of an Award or the subsequent issuance of Common Stock pursuant to the Award if such grant or issuance would be in violation of any Applicable Law.

11. Severability.

If all or any part of the Plan or any Award Agreement is declared by any court or governmental authority to be unlawful or invalid, such unlawfulness or invalidity shall not invalidate any portion of the Plan or such Award Agreement not declared to be unlawful or invalid. Any Section of the Plan or any Award Agreement (or part of such a Section) so declared to be unlawful or invalid shall, if possible, be construed in a manner which will give effect to the terms of such Section or part of a Section to the fullest extent possible while remaining lawful and valid.

12. Termination of the Plan.

The Board may suspend or terminate the Plan at any time. No Incentive Stock Options may be granted after the tenth anniversary of the earlier of: (i) the Adoption Date and (ii) the date the Plan is approved by the Company's stockholders. No Awards may be granted under the Plan while the Plan is suspended or after it is terminated.

13. Definitions.

As used in the Plan, the following definitions apply to the capitalized terms indicated below:

(a) "***Adoption Date***" means the date the Plan is first approved by the Board or Compensation Committee, as applicable.

(b) "***Affiliate***" means, at the time of determination, any "parent" or "subsidiary" of the Company as such terms are defined in Rule 405 promulgated under the Securities Act. The Board may determine the time or times at which "parent" or "subsidiary" status is determined within the foregoing definition.

(c) "***Applicable Law***" means the Code and any applicable U.S. and non-U.S. securities, exchange control, tax, federal, state, material local or municipal or other law, statute, constitution, principle of common law, resolution, ordinance, code, edict, decree, rule, listing rule, regulation, judicial decision, ruling or requirement issued, enacted, adopted, promulgated, implemented or otherwise put into effect by or under the authority of any Governmental Body (including under the authority of any applicable self-regulating organization such as the Nasdaq Stock Market, New York Stock Exchange, or the Financial Industry Regulatory Authority).

(d) "***Award***" means any right to receive Common Stock, cash or other property granted under the Plan (including an Incentive Stock Option, a Nonstatutory Stock Option, a Restricted Stock Award, an RSU Award, a SAR, a Performance Award or any Other Award).

(e) "***Award Agreement***" means a written or electronic agreement between the Company and a Participant evidencing the terms and conditions of an Award. The Award Agreement generally consists of the Grant Notice and the agreement containing the written summary of the general terms and conditions applicable to the Award and which is provided, including through electronic means, to a Participant along with the Grant Notice. Each Award Agreement will be subject to the terms and conditions of the Plan.

(f) "***Board***" means the Board of Directors of the Company (or its designee). Any decision or determination made by the Board shall be a decision or determination that is made in the sole discretion of the Board (or its designee), and such decision or determination shall be final and binding on all Participants.

(g) "***Capitalization Adjustment***" means any change that is made in, or other events that occur with respect to, the Common Stock subject to the Plan or subject to any Award after the Effective Date without the receipt of consideration by the Company through merger, consolidation, reorganization, recapitalization, reincorporation, stock dividend, dividend in property other than cash, large nonrecurring cash dividend, stock split, reverse stock split, liquidating dividend, combination of shares, exchange of shares, change in corporate structure or any similar equity restructuring transaction, as that term is used in Statement of Financial Accounting Standards Board Accounting Standards Codification Topic 718 (or any successor thereto). Notwithstanding the foregoing, the conversion of any convertible securities of the Company will not be treated as a Capitalization Adjustment.

(h) "***Cause***" has the meaning ascribed to such term in any written agreement between the Participant and the Company or any Affiliate defining such term and, in the absence of such agreement, such term means, with respect to

a Participant, the occurrence of any of the following events: (i) such Participant's commission of any felony or any crime involving fraud, dishonesty or moral turpitude under the laws of the United States or any state thereof; (ii) such Participant's attempted commission of, or participation in, a fraud or act of dishonesty against the Company or any Affiliate; (iii) such Participant's material violation of any contract or agreement between the Participant and the Company or any Affiliate, any employment policies of the Company or any Affiliate, or of any statutory or other duty owed to the Company or any Affiliate; (iv) such Participant's unauthorized use or disclosure of the confidential information or trade secrets of the Company or any Affiliate; (v) such Participant's gross misconduct; (vi) such Participant's failure or refusal to comply with a material directive from the Board, the Participant's supervisor or, if applicable, the board of directors of any Affiliate; or (vii) such Participant's breach of a fiduciary duty to the Company or any Affiliate. The determination that a termination of the Participant's Continuous Service is either for Cause or without Cause will be made by the Board with respect to Participants who are executive officers of the Company and by the Company's Chief Executive Officer with respect to Participants who are not executive officers of the Company. Any determination by the Company that the Continuous Service of a Participant was terminated with or without Cause for the purposes of outstanding Awards held by such Participant will have no effect upon any determination of the rights or obligations of the Company, any Affiliate, or such Participant for any other purpose.

(i) "***Change in Control***" or "***Change of Control***" means the occurrence, in a single transaction or in a series of related transactions, of any one or more of the following events:

(i) any Exchange Act Person becomes the Owner, directly or indirectly, of securities of the Company representing more than 50% of the combined voting power of the Company's then outstanding securities other than by virtue of a merger, consolidation or similar transaction. Notwithstanding the foregoing, a Change in Control shall not be deemed to occur (A) on account of the acquisition of securities of the Company directly from the Company, (B) on account of the acquisition of securities of the Company by an investor, any affiliate thereof or any other Exchange Act Person that acquires the Company's securities in a transaction or series of related transactions the primary purpose of which is to obtain financing for the Company through the issuance of equity securities, or (C) solely because the level of Ownership held by any Exchange Act Person (the "*Subject Person*") exceeds the designated percentage threshold of the outstanding voting securities as a result of a repurchase or other acquisition of voting securities by the Company reducing the number of shares outstanding, provided that if a Change in Control would occur (but for the operation of this sentence) as a result of the acquisition of voting securities by the Company, and after such share acquisition, the Subject Person becomes the Owner of any additional voting securities that, assuming the repurchase or other acquisition had not occurred, increases the percentage of the then outstanding voting securities Owned by the Subject Person over the designated percentage threshold, then a Change in Control shall be deemed to occur;

(ii) there is consummated a merger, consolidation or similar transaction involving (directly or indirectly) the Company and, immediately after the consummation of such merger, consolidation or similar transaction, the stockholders of the Company immediately prior thereto do not Own, directly or indirectly, either (A) outstanding voting securities representing more than 50% of the combined outstanding voting power of the surviving Entity in such merger, consolidation or similar transaction or (B) more than 50% of the combined outstanding voting power of the parent of the surviving Entity in such merger, consolidation or similar transaction, in each case in substantially the same proportions as their Ownership of the outstanding voting securities of the Company immediately prior to such transaction;

(iii) there is consummated a sale, lease, exclusive license or other disposition of all or substantially all of the consolidated assets of the Company and its Subsidiaries, other than a sale, lease, license or other disposition of all or substantially all of the consolidated assets of the Company and its Subsidiaries to an Entity, more than 50% of the combined voting power of the voting securities of which are Owned by stockholders of the Company in substantially the same proportions as their Ownership of the outstanding voting securities of the Company immediately prior to such sale, lease, license or other disposition; or

(iv) individuals who, on the Effective Date, are members of the Board (the "***Incumbent Board***") cease for any reason to constitute at least a majority of the members of the Board; provided, however, that if the appointment or election (or nomination for election) of any new Board member was approved or recommended by a majority vote of the members of the Incumbent Board then still in office, such new member shall, for purposes of this Plan, be considered as a member of the Incumbent Board.

Notwithstanding the foregoing or any other provision of this Plan, (A) the term Change in Control shall not include a sale of assets, merger or other transaction effected exclusively for the purpose of changing the domicile of the Company and (B) the definition of Change in Control (or any analogous term) in an individual written agreement between the Company or any Affiliate and the Participant shall supersede the foregoing definition with respect to Awards subject to such agreement; provided, however, that if no definition of Change in Control or any analogous term is set forth in such an individual written agreement, the foregoing definition shall apply, and (C) with respect to any nonqualified deferred compensation that becomes payable on account of the Change in Control, the transaction or event described in clause (i), (ii), (iii), or (iv) also constitutes a Section 409A Change in Control if required in order for the payment not to violate Section 409A of the Code.

(j) "***Code***" means the Internal Revenue Code of 1986, as amended, including any applicable regulations and guidance thereunder.

(k) "***Committee***" means the Compensation Committee and any other committee of one or more Directors to whom authority has been delegated by the Board or Compensation Committee in accordance with the Plan.

(l) "***Common Stock***" means the common stock of the Company.

(m) "***Company***" means Ambros Therapeutics, Inc., a Delaware corporation.

(n) "***Compensation Committee***" means the Compensation Committee of the Board.

(o) "***Consultant***" means any person, including an advisor, who is (i) engaged by the Company or an Affiliate to render consulting or advisory services and is compensated for such services, or (ii) serving as a member of the board of directors of an Affiliate and is compensated for such services. However, service solely as a Director, or payment of a fee for such service, will not cause a Director to be considered a "Consultant" for purposes of the Plan. Notwithstanding the foregoing, a person is treated as a Consultant under this Plan only if a Form S-8 Registration Statement under the Securities Act is available to register either the offer or the sale of the Company's securities to such person.

(p) "***Continuous Service***" means that the Participant's service with the Company or an Affiliate, whether as an Employee, Director or Consultant, is not interrupted or terminated. A change in the capacity in which the Participant renders service to the Company or an Affiliate as an Employee, Director or Consultant or a change in the Entity for which the Participant renders such service, provided that there is no interruption or termination of the Participant's service with the Company or an Affiliate, will not terminate a Participant's Continuous Service; provided, however, that if the Entity for which a Participant is rendering services ceases to qualify as an Affiliate, as determined by the Board, such Participant's Continuous Service will be considered to have terminated on the date such Entity ceases to qualify as an Affiliate. For example, a change in status from an Employee of the Company to a Consultant of an Affiliate or to a Director will not constitute an interruption of Continuous Service. To the extent permitted by Applicable Law, the Board or the chief executive officer of the Company, in that party's sole discretion, may determine whether Continuous Service will be considered interrupted in the case of (i) any leave of absence approved by the Company or an Affiliate, including sick leave, military leave or any other personal leave, or (ii) transfers between the Company, an Affiliate, or their successors. Notwithstanding the foregoing, a leave of absence will be treated as Continuous Service for purposes of vesting in an Award only to such extent as may be provided in the Company's leave of absence policy, in the written terms of any leave of absence agreement or policy applicable to the Participant, or as otherwise required by Applicable Law. In addition, to the extent required for exemption from or compliance with Section 409A, the determination of whether there has been a termination of Continuous Service will be made, and such term will be construed, in a manner that is consistent with the definition of "separation from service" as defined under Treasury Regulations Section 1.409A-1(h) (without regard to any alternative definition thereunder).

(q) "***Corporate Transaction***" means the consummation, in a single transaction or in a series of related transactions, of any one or more of the following events:

(i) a sale or other disposition of all or substantially all, as determined by the Board, of the consolidated assets of the Company and its Subsidiaries;

(ii) a sale or other disposition of at least 50% of the outstanding securities of the Company;

(iii) a merger, consolidation or similar transaction following which the Company is not the surviving corporation; or

(iv) a merger, consolidation or similar transaction following which the Company is the surviving corporation but the shares of Common Stock outstanding immediately preceding the merger, consolidation or similar transaction are converted or exchanged by virtue of the merger, consolidation or similar transaction into other property, whether in the form of securities, cash or otherwise.

Notwithstanding the foregoing or any other provision of this Plan, (A) the term Corporate Transaction shall not include a sale of assets, merger or other transaction effected exclusively for the purpose of changing the domicile of the Company, (B) the definition of Corporate Transaction (or any analogous term) in an individual written agreement between the Company or any Affiliate and the Participant shall supersede the foregoing definition with respect to Awards subject to such agreement; provided, however, that if no definition of Corporate Transaction or any analogous term is set forth in such an individual written agreement, the foregoing definition shall apply, and (C) with respect to any nonqualified deferred compensation that becomes payable on account of the Corporate Transaction, the transaction or event described in clause (i), (ii), (iii), or (iv) also constitutes a Section 409A Change in Control if required in order for the payment not to violate Section 409A of the Code.

(r) "***determine***" or "***determined***" means as determined by the Board or the Committee (or its designee) in its sole discretion.

(s) "***Director***" means a member of the Board.

(t) "***Disability***" means, with respect to a Participant, such Participant is unable to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months, as provided in Section 22(e)(3) of the Code, and will be determined by the Board on the basis of such medical evidence as the Board deems warranted under the circumstances.

(u) "***Effective Date***" means the effective date of this Plan, which is the date of the closing of the transactions contemplated by the Agreement and Plan of Merger, dated as of August 21, 2026, by and among the Company, Ambros Therapeutics, Inc. (as constituted on August 21, 2026), a Delaware corporation, and Wave Atlantis Merger Sub, Inc., a Delaware corporation.

(v) "***Employee***" means any person employed by the Company or an Affiliate. However, service solely as a Director, or payment of a fee for such services, will not cause a Director to be considered an "Employee" for purposes of the Plan.

(w) "***Entity***" means a corporation, partnership, limited liability company or other entity.

(x) "***Exchange Act***" means the Securities Exchange Act of 1934, as amended, and the rules and regulations promulgated thereunder.

(y) "***Exchange Act Person***" means any natural person, Entity or "group" (within the meaning of Section 13(d) or 14(d) of the Exchange Act), except that "Exchange Act Person" will not include (i) the Company or any Subsidiary of the Company, (ii) any employee benefit plan of the Company or any Subsidiary of the Company or any trustee or other fiduciary holding securities under an employee benefit plan of the Company or any Subsidiary of the Company, (iii) an underwriter temporarily holding securities pursuant to a registered public offering of such securities, (iv) an Entity Owned, directly or indirectly, by the stockholders of the Company in substantially the same proportions as their Ownership of stock of the Company, or (v) any natural person, Entity or "group" (within the meaning of Section 13(d) or 14(d) of the Exchange Act) that, as of the Effective Date, is the Owner, directly or indirectly, of securities of the Company representing more than 50% of the combined voting power of the Company's then outstanding securities.

(z) "***Fair Market Value***" means, as of any date, unless otherwise determined by the Board, the value of the Common Stock (as determined on a per share or aggregate basis, as applicable) determined as follows:

(i) If the Common Stock is listed on any established stock exchange or traded on any established market, the Fair Market Value will be the closing sales price for such stock as quoted on such exchange or market (or the exchange or market with the greatest volume of trading in the Common Stock) on the date of determination, as reported in a source the Board deems reliable.

(ii) If there is no closing sales price for the Common Stock on the date of determination, then the Fair Market Value will be the closing selling price on the last preceding date for which such quotation exists.

(iii) In the absence of such markets for the Common Stock, or if otherwise determined by the Board, the Fair Market Value will be determined by the Board in good faith and in a manner that complies with Sections 409A and 422 of the Code.

(aa) "***Good Reason***" will have the meaning ascribed to such term in any written agreement between the Participant and the Company defining such term and, in the absence of a definition of such term in the applicable written agreement, such term means, with respect to a Participant, a material and unreasonable diminution of such Participant's duties (as determined by the Board in its sole discretion) without such Participant's consent; provided, however, that the following shall not constitute Good Reason: (i) a change of title; (ii) a reduction in such Participant's duties by virtue of the Company undergoing a Change in Control and/or being made part of a larger entity or group of entities; and/or (iii) cessation of such Participant's service, if any, on the Board or a committee thereof. For such Participant to receive the benefits under the applicable written agreement between such Participant and the Company as a result of a voluntary resignation for Good Reason, unless otherwise provided in such agreement, all of the following requirements must be satisfied: (A) such Participant must provide notice to the Company of such Participant's intent to assert Good Reason within 30 days of the initial existence of the condition set forth in the previous sentence; (B) the Company will have 30 days (the "***Company Cure Period***") from the date of such notice to remedy the condition and, if it does so, such Participant may withdraw such Participant's resignation or such Participant may resign with no benefits under the applicable written agreement; and (C) any termination of such Participant's Continuous Service under this provision must occur within 10 days of the earlier of expiration of the Company Cure Period or written notice from the Company that it will not undertake to cure the applicable condition. Unless otherwise set forth in the applicable written agreement, should the Company remedy the condition as set forth above and then such condition arises again, such Participant may assert Good Reason again subject to all of the conditions set forth herein. Unless otherwise set forth in the applicable written agreement, the term "Company" for purposes of "Good Reason" will be interpreted to include any Affiliate of the Company to which such Participant provides services, if appropriate, as determined by the Board in its sole discretion.

(bb) "***Governmental Body***" means any: (i) nation, state, commonwealth, province, territory, county, municipality, district or other jurisdiction of any nature; (ii) federal, state, local, municipal, foreign or other government; (iii) governmental or regulatory body, or quasi-governmental body of any nature (including any governmental division, department, administrative agency or bureau, commission, authority, instrumentality, official, ministry, fund, foundation, center, organization, unit, body or Entity and any court or other tribunal, and for the avoidance of doubt, any tax authority) or other body exercising similar powers or authority; or (iv) self-regulatory organization (including the Nasdaq Stock Market, New York Stock Exchange, and the Financial Industry Regulatory Authority).

(cc) "***Grant Notice***" means the notice provided to a Participant that he or she has been granted an Award under the Plan and which includes the name of the Participant, the type of Award, the date of grant of the Award, number of shares of Common Stock subject to the Award or potential cash payment right, (if any), the vesting schedule for the Award (if any) and other key terms applicable to the Award.

(dd) "***Incentive Stock Option***" means an option granted pursuant to Section 4 of the Plan that is intended to be, and qualifies as, an "incentive stock option" within the meaning of Section 422 of the Code.

(ee) "***Materially Impair***"means any amendment to the terms of the Award that materially adversely affects the Participant's rights under the Award. A Participant's rights under an Award will not be deemed to have been Materially Impaired by any such amendment if the Board, in its sole discretion, determines that the amendment, taken as a whole, does not materially impair the Participant's rights. For example, the following types of amendments to the terms of an Award do not Materially Impair the Participant's rights under the Award: (i) imposition of reasonable restrictions on the minimum number of shares subject to an Option or SAR that may be exercised; (ii) to maintain the qualified status of the Award as an Incentive Stock Option under Section 422 of the Code; (iii) to change the terms of an Incentive Stock Option in a manner that disqualifies, impairs or otherwise affects the qualified status of the Award as an Incentive Stock Option under Section 422 of the Code; (iv) to clarify the manner of exemption from, or to bring the Award into compliance with or qualify it for an exemption from, Section 409A; or (v) to comply with other Applicable Law.

2026 EMPLOYEE STOCK PURCHASE PLAN

ADOPTED BY THE BOARD OF DIRECTORS: [_____], 2026
APPROVED BY THE STOCKHOLDERS: [_____], 2026

1. GENERAL; PURPOSE.

(a) The Plan provides a means by which Eligible Employees of the Company and certain Designated Companies may be given an opportunity to purchase shares of Common Stock. The Plan permits the Company to grant a series of Purchase Rights to Eligible Employees under an Employee Stock Purchase Plan. In addition, the Plan permits the Company to grant a series of Purchase Rights to Eligible Employees that do not meet the requirements of an Employee Stock Purchase Plan.

(b) The Plan includes two components: a 423 Component and a Non-423 Component. The Company intends (but makes no undertaking or representation to maintain) the 423 Component to qualify as an Employee Stock Purchase Plan. The provisions of the 423 Component, accordingly, will be construed in a manner that is consistent with the requirements of Section 423 of the Code. In addition, this Plan authorizes grants of Purchase Rights under the Non-423 Component that do not meet the requirements of an Employee Stock Purchase Plan. Except as otherwise provided in the Plan or determined by the Board, the Non-423 Component will operate and be administered in the same manner as the 423 Component. In addition, the Company may make separate Offerings which vary in terms (provided that such terms are not inconsistent with the provisions of the Plan or the requirements of an Employee Stock Purchase Plan to the extent the Offering is made under the 423 Component), and the Company will designate which Designated Company is participating in each separate Offering.

(c) The Company, by means of the Plan, seeks to retain the services of Eligible Employees, to secure and retain the services of new Employees and to provide incentives for such persons to exert maximum efforts for the success of the Company and its Related Corporations.

2. ADMINISTRATION.

(a) The Board will administer the Plan unless and until the Board delegates administration of the Plan to a Committee or Committees, as provided in Section 2(c). References herein to the Board shall be deemed to refer to the Committee except where context dictates otherwise.

(b) The Board will have the power, subject to, and within the limitations of, the express provisions of the Plan:

(i) To determine how and when Purchase Rights will be granted and the provisions of each Offering (which need not be identical).

(ii) To designate from time to time (A) which Related Corporations will be eligible to participate in the Plan as Designated 423 Companies, (B) which Related Corporations or Affiliates will be eligible to participate in the Plan as Designated Non-423 Companies, (C) which Affiliates or Related Corporations may be excluded from participation in the Plan, and (D) which Designated Companies will participate in each separate Offering (to the extent that the Company makes separate Offerings).

(iii) To construe and interpret the Plan and Purchase Rights, and to establish, amend and revoke rules and regulations for its administration. The Board, in the exercise of this power, may correct any defect, omission or inconsistency in the Plan, in a manner and to the extent it deems necessary or expedient to make the Plan fully effective.

(iv) To settle all controversies regarding the Plan and Purchase Rights granted under the Plan.

(v) To suspend or terminate the Plan at any time as provided in Section 12.

(vi) To amend the Plan at any time as provided in Section 12.

(vii) Generally, to exercise such powers and to perform such acts as it deems necessary or expedient to promote the best interests of the Company and its Related Corporations and to carry out the intent that the Plan be treated as an Employee Stock Purchase Plan with respect to the 423 Component.

(viii) To adopt such rules, procedures and sub-plans as are necessary or appropriate to permit or facilitate participation in the Plan by Employees who are foreign nationals or employed or located outside the United States. Without limiting the generality of, and consistent with, the foregoing, the Board specifically is authorized to adopt rules, procedures, and sub-plans regarding, without limitation, eligibility to participate in the Plan, the definition of eligible "earnings," handling and making of Contributions, establishment of bank or trust accounts to hold Contributions, payment of interest, conversion of local currency, obligations to pay payroll tax, determination of beneficiary designation requirements, withholding procedures and handling of share issuances, any of which may vary according to applicable requirements, and which, if applicable to a Designated Non-423 Company, do not have to comply with the requirements of Section 423 of the Code.

(c) The Board may delegate some or all of the administration of the Plan to a Committee or Committees. If administration is delegated to a Committee, the Committee will have, in connection with the administration of the Plan, the powers theretofore possessed by the Board that have been delegated to the Committee, including the power to delegate to a subcommittee any of the administrative powers the Committee is authorized to exercise (and references in this Plan and any applicable Offering Document to the Board will thereafter be to the Committee or subcommittee), subject, however, to such resolutions, not inconsistent with the provisions of the Plan, as may be adopted from time to time by the Board. Further, to the extent not prohibited by Applicable Law, the Board or Committee may, from time to time, delegate some or all of its authority under the Plan to one or more officers of the Company or other persons or groups of persons as it deems necessary, appropriate or advisable under conditions or limitations that it may set at or after the time of the delegation. The Board may retain the authority to concurrently administer the Plan with the Committee (or its delegate) and may, at any time, revest in the Board some or all of the powers previously delegated. Whether or not the Board has delegated administration of the Plan to a Committee (or a delegate of the Committee), the Board will have the final power to determine all questions of policy and expediency that may arise in the administration of the Plan.

(d) All determinations, interpretations and constructions made by the Board in good faith will not be subject to review by any person and will be final, binding and conclusive on all persons.

3. Shares of Common Stock Subject to the Plan.

(a) Subject to the provisions of Section 11(a) relating to Capitalization Adjustments, the maximum number of shares of Common Stock that may be issued under the Plan will not exceed [•][1] shares of Common Stock, plus the number of shares of Common Stock that are automatically added on January 1 of each year for a period of up to ten years, commencing on January 1, 2027 (or, if later, the first January 1 following the Effective Date) and ending on (and including) the tenth anniversary of such January 1 in an amount equal to the lesser of (x) [•]% of the total number of shares of Share Reserve Increase Stock outstanding on December 31 of the preceding calendar year, and (y) [•] shares of Common Stock.[2] Notwithstanding the foregoing, the Board may act prior to the first day of any calendar year to provide that there will be no January 1 increase in the share reserve for such calendar year or that the increase in the share reserve for such calendar year will be a lesser number of shares of Common Stock than would otherwise occur pursuant to the preceding sentence. For the avoidance of doubt, up to the maximum number of shares of Common Stock reserved under this Section 3(a) may be used to satisfy purchases of Common Stock under the 423 Component and any remaining portion of such maximum number of shares may be used to satisfy purchases of Common Stock under the Non-423 Component.

(b) If any Purchase Right granted under the Plan terminates without having been exercised in full, the shares of Common Stock not purchased under such Purchase Right will again become available for issuance under the Plan.

(c) The stock purchasable under the Plan will be shares of authorized but unissued or reacquired Common Stock, including shares repurchased by the Company on the open market.

4. Grant of Purchase Rights; Offering.

(a) The Board may from time to time grant or provide for the grant of Purchase Rights to Eligible Employees under an Offering (consisting of one or more Purchase Periods) on an Offering Date or Offering Dates selected by the Board. Each Offering will be in such form and will contain such terms and conditions as the Board will deem

[1] **NTD**: This number will equal [•]% of the common stock of the combined company issued and outstanding immediately after the effective time of the Merger, but not in excess of [•] such shares. This amount will be determined by Ambros prior to the date on which this registration statement is declared effective in consultation with its independent compensation consultant.

[2] **NTD**: These amounts will be determined by Ambros prior to the date on which this registration statement is declared effective in consultation with its independent compensation consultant.

appropriate, and with respect to the 423 Component, will comply with the requirement of Section 423(b)(5) of the Code that all Employees granted Purchase Rights will have the same rights and privileges. The terms and conditions of an Offering shall be incorporated by reference into the Plan and treated as part of the Plan. The provisions of separate Offerings need not be identical, but each Offering will include (through incorporation of the provisions of this Plan by reference in the document comprising the Offering or otherwise) the period during which the Offering will be effective, which period will not exceed 27 months beginning with the Offering Date, and the substance of the provisions contained in Sections 5 through 8, inclusive.

(b) If a Participant has more than one Purchase Right outstanding under the Plan, unless such Participant otherwise indicates in forms delivered to the Company or a third party designated by the Company (each, a "***Company Designee***"): (i) each form will apply to all of such Participant's Purchase Rights under the Plan, and (ii) a Purchase Right with a lower exercise price (or an earlier-granted Purchase Right, if different Purchase Rights have identical exercise prices) will be exercised to the fullest possible extent before a Purchase Right with a higher exercise price (or a later-granted Purchase Right if different Purchase Rights have identical exercise prices) will be exercised.

(c) The Board will have the discretion to structure an Offering so that if the Fair Market Value of a share of Common Stock on the first Trading Day of a new Purchase Period within that Offering is less than or equal to the Fair Market Value of a share of Common Stock on the Offering Date for that Offering, then (i) that Offering will terminate immediately as of that first Trading Day, and (ii) the Participants in such terminated Offering will be automatically enrolled in a new Offering beginning on the first Trading Day of such new Purchase Period.

5. ELIGIBILITY.

(a) Purchase Rights may be granted only to Employees of the Company or, as the Board may designate in accordance with Section 2(b), to Employees of a Related Corporation or an Affiliate. Except as provided in Section 5(b) or as required by Applicable Law, an Employee will not be eligible to be granted Purchase Rights unless, on the Offering Date, the Employee has been in the employ of the Company, the Related Corporation or the Affiliate, as the case may be, for such continuous period preceding such Offering Date as the Board may (unless prohibited by Applicable Law) require, but in no event will the required period of continuous employment be equal to or greater than two years. In addition, the Board may provide (unless prohibited by Applicable Law) that no Employee will be eligible to be granted Purchase Rights under the Plan unless, on the Offering Date, such Employee's customary employment with the Company, the Related Corporation or the Affiliate is more than 20 hours per week and more than five months per calendar year or such other criteria as the Board may determine consistent with Section 423 of the Code with respect to the 423 Component. The Board may also exclude (unless prohibited by Applicable Law) from participation in the Plan or any Offering Employees who are "highly compensated employees" (within the meaning of Section 423(b)(4)(D) of the Code) of the Company, a Related Corporation or an Affiliate, or a subset of such highly compensated employees.

(b) The Board may provide that each person who, during the course of an Offering, first becomes an Eligible Employee will, on a date or dates specified in the Offering which coincides with the day on which such person becomes an Eligible Employee or which occurs thereafter, receive a Purchase Right under that Offering, which Purchase Right will thereafter be deemed to be a part of that Offering. Such Purchase Right will have the same characteristics as any Purchase Rights originally granted under that Offering, as described herein, except that:

(i) the date on which such Purchase Right is granted will be the "Offering Date" of such Purchase Right for all purposes, including determination of the exercise price of such Purchase Right;

(ii) the period of the Offering with respect to such Purchase Right will begin on its Offering Date and end coincident with the end of such Offering; and

(iii) the Board may provide that if such person first becomes an Eligible Employee within a specified period of time before the end of the Offering, such individual will not receive any Purchase Right under that Offering.

(c) No Employee will be eligible for the grant of any Purchase Rights under the 423 Component if, immediately after any such Purchase Rights are granted, such Employee owns stock possessing five percent or more of the total combined voting power or value of all classes of stock of the Company or of any Related Corporation. For purposes of this Section 5(c), the rules of Section 424(d) of the Code will apply in determining the stock ownership of any Employee, and stock which such Employee may purchase under all outstanding Purchase Rights and options will be treated as stock owned by such Employee.

(d) As specified by Section 423(b)(8) of the Code, an Eligible Employee may be granted Purchase Rights under the 423 Component only if such Purchase Rights, together with any other rights granted under all Employee Stock

Purchase Plans of the Company and any Related Corporations, do not permit such Eligible Employee's rights to purchase stock of the Company or any Related Corporation to accrue at a rate which, when aggregated, exceeds $25,000 of Fair Market Value of such stock (determined at the time such rights are granted, and which, with respect to the Plan, will be determined as of their respective Offering Dates) for each calendar year in which such rights are outstanding at any time.

(e) Officers of the Company and any Designated Company, if they are otherwise Eligible Employees, will be eligible to participate in Offerings under the Plan. Notwithstanding the foregoing, the Board may (unless prohibited by Applicable Law) provide in an Offering that Employees who are highly compensated Employees within the meaning of Section 423(b)(4)(D) of the Code will not be eligible to participate.

(f) Notwithstanding anything in this Section 5 to the contrary, in the case of an Offering under the Non-423 Component, an Eligible Employee (or group of Eligible Employees) may be excluded from participation in the Plan or an Offering if the Board has determined, in its sole discretion, that participation of such Eligible Employee(s) is not advisable or practical for any reason.

6. Purchase Rights; Purchase Price.

(a) On each Offering Date, each Eligible Employee, pursuant to an Offering made under the Plan, will be granted a Purchase Right to purchase up to that number of shares of Common Stock purchasable either with a percentage of earnings (as defined by the Board in each Offering) or with a maximum dollar amount, as designated by the Board, but in either case not exceeding 15% of such Employee's earnings (as defined by the Board in each Offering) during the period that begins on the Offering Date (or such later date as the Board determines for a particular Offering) and ends on the date stated in the Offering, which date will be no later than the end of the Offering.

(b) The Board will establish one or more Purchase Dates during an Offering on which Purchase Rights granted for that Offering will be exercised and shares of Common Stock will be purchased in accordance with such Offering.

(c) In connection with each Offering made under the Plan, the Board may specify (i) a maximum number of shares of Common Stock that may be purchased by any Participant on any Purchase Date during such Offering, (ii) a maximum aggregate number of shares of Common Stock that may be purchased by all Participants pursuant to such Offering and/or (iii) a maximum aggregate number of shares of Common Stock that may be purchased by all Participants on any Purchase Date under the Offering. If the aggregate purchase of shares of Common Stock issuable upon exercise of Purchase Rights granted under the Offering would exceed any such maximum aggregate number, then, in the absence of any Board action otherwise, a pro rata (based on each Participant's accumulated Contributions) allocation of the shares of Common Stock (rounded down to the nearest whole share) available will be made in as nearly a uniform manner as will be practicable and equitable.

(d) The purchase price of shares of Common Stock acquired pursuant to Purchase Rights will be no less than the lesser of:

(i) an amount equal to 85% of the Fair Market Value of the shares of Common Stock on the Offering Date; or

(ii) an amount equal to 85% of the Fair Market Value of the shares of Common Stock on the applicable Purchase Date.

7. Participation; Withdrawal; Termination.

(a) An Eligible Employee may elect to participate in an Offering and authorize payroll deductions as the means of making Contributions by completing and delivering to the Company or a Company Designee, within the time specified in the Offering, an enrollment form provided by the Company or Company Designee. The enrollment form will specify the amount of Contributions not to exceed the maximum amount specified by the Board. Each Participant's Contributions will be credited to a bookkeeping account for such Participant under the Plan and will be deposited with the general funds of the Company except where Applicable Law requires that Contributions be deposited with a third party. If permitted in the Offering, a Participant may begin such Contributions with the first payroll occurring on or after the Offering Date (or, in the case of a payroll date that occurs after the end of the prior Offering but before the Offering Date of the next new Offering, Contributions from such payroll will be included in the new Offering). If permitted in the Offering, a Participant may thereafter reduce (including to zero) or increase his or her Contributions. If required under Applicable Law or if specifically provided in the Offering and to the extent permitted by Section 423 of the Code with respect to the 423 Component, in addition to or instead of making Contributions by payroll deductions, a Participant may make Contributions through the payment by cash, check or wire transfer prior to a Purchase Date.

(b) During an Offering, a Participant may cease making Contributions and withdraw from the Offering by delivering to the Company or a Company Designee a withdrawal form provided by the Company. The Company may impose a deadline before a Purchase Date for withdrawing. Upon such withdrawal, such Participant's Purchase Right in that Offering will immediately terminate and the Company will distribute as soon as practicable to such Participant all of his or her accumulated but unused Contributions and such Participant's Purchase Right in that Offering shall thereupon terminate. A Participant's withdrawal from that Offering will have no effect upon his or her eligibility to participate in any other Offerings under the Plan, but such Participant will be required to deliver a new enrollment form to participate in subsequent Offerings.

(c) Unless otherwise required by Applicable Law, Purchase Rights granted pursuant to any Offering under the Plan will terminate immediately if the Participant either (i) is no longer an Employee for any reason or for no reason (subject to any post-employment participation period required by Applicable Law) or (ii) is otherwise no longer eligible to participate. The Company will distribute as soon as practicable to such individual all of his or her accumulated but unused Contributions.

(d) Unless otherwise determined by the Board, a Participant whose employment transfers or whose employment terminates with an immediate rehire (with no break in service) by or between the Company and a Designated Company or between Designated Companies will not be treated as having terminated employment for purposes of participating in the Plan or an Offering; however, if a Participant transfers from an Offering under the 423 Component to an Offering under the Non-423 Component, the exercise of the Participant's Purchase Right will be qualified under the 423 Component only to the extent such exercise complies with Section 423 of the Code. If a Participant transfers from an Offering under the Non-423 Component to an Offering under the 423 Component, the exercise of the Purchase Right will remain non-qualified under the Non-423 Component. The Board may establish different and additional rules governing transfers between separate Offerings within the 423 Component and between Offerings under the 423 Component and Offerings under the Non-423 Component.

(e) During a Participant's lifetime, Purchase Rights will be exercisable only by such Participant. Purchase Rights are not transferable by a Participant, except by will, by the laws of descent and distribution, or, if permitted by the Company, by a beneficiary designation as described in Section 10.

(f) Unless otherwise specified in the Offering or required by Applicable Law, the Company will have no obligation to pay interest on Contributions.

8. Exercise of Purchase Rights.

(a) On each Purchase Date, each Participant's accumulated Contributions will be applied to the purchase of shares of Common Stock, up to the maximum number of shares of Common Stock permitted by the Plan and the applicable Offering, at the purchase price specified in the Offering. No fractional shares will be issued unless specifically provided for in the Offering.

(b) Unless otherwise provided in the Offering, if any amount of accumulated Contributions remains in a Participant's account after the purchase of shares of Common Stock and such remaining amount is less than the amount required to purchase one share of Common Stock on the final Purchase Date of an Offering, then such remaining amount will be held in such Participant's account for the purchase of shares of Common Stock under the next Offering under the Plan, unless such Participant withdraws from or is not eligible to participate in such next Offering, in which case such amount will be distributed to such Participant after the final Purchase Date without interest (unless the payment of interest is otherwise required by Applicable Law). If the amount of Contributions remaining in a Participant's account after the purchase of shares of Common Stock is at least equal to the amount required to purchase one whole share of Common Stock on the final Purchase Date of an Offering, then such remaining amount will be distributed in full to such Participant after the final Purchase Date of such Offering without interest (unless the payment of interest is otherwise required by Applicable Law).

(c) No Purchase Rights may be exercised to any extent unless the shares of Common Stock to be issued upon such exercise under the Plan are covered by an effective registration statement pursuant to the Securities Act and the Plan is in material compliance with all applicable U.S. federal and state, foreign and other securities, exchange control and other laws applicable to the Plan. If on a Purchase Date the shares of Common Stock are not so registered or the Plan is not in such compliance, no Purchase Rights will be exercised on such Purchase Date, and, subject to Section 423 of the Code with respect to the 423 Component, the Purchase Date will be delayed until the shares of Common Stock are subject to such an effective registration statement and the Plan is in material compliance, except that the Purchase Date

will in no event be more than 27 months from the Offering Date. If, on the Purchase Date, as delayed to the maximum extent permissible, the shares of Common Stock are not registered and the Plan is not in material compliance with all Applicable Laws, as determined by the Company in its sole discretion, no Purchase Rights will be exercised and all accumulated but unused Contributions will be distributed to the Participants without interest (unless the payment of interest is otherwise required by Applicable Law).

9. Covenants of the Company.

The Company will seek to obtain from each U.S. federal or state, foreign or other regulatory commission, agency or other Governmental Body having jurisdiction over the Plan such authority as may be required to grant Purchase Rights and issue and sell shares of Common Stock thereunder unless the Company determines, in its sole discretion, that doing so is not practical or would cause the Company to incur costs that are unreasonable. If, after commercially reasonable efforts, the Company is unable to obtain the authority that counsel for the Company deems necessary for the grant of Purchase Rights or the lawful issuance and sale of Common Stock under the Plan, and at a commercially reasonable cost, the Company will be relieved from any liability for failure to grant Purchase Rights and/or to issue and sell Common Stock upon exercise of such Purchase Rights.

10. Designation of Beneficiary.

(a) The Company may, but is not obligated to, permit a Participant to submit a form designating a beneficiary who will receive any shares of Common Stock and/or Contributions from the Participant's account under the Plan if the Participant dies before such shares and/or Contributions are delivered to the Participant. The Company may, but is not obligated to, permit the Participant to change such designation of beneficiary. Any such designation and/or change must be on a form approved by the Company.

(b) If a Participant dies, and in the absence of a valid beneficiary designation, the Company will deliver any shares of Common Stock and/or Contributions to the executor or administrator of the estate of the Participant. If no executor or administrator has been appointed (to the knowledge of the Company), the Company, in its sole discretion, may deliver such shares of Common Stock and/or Contributions, without interest (unless the payment of interest is otherwise required by Applicable Law), to the Participant's spouse, dependents or relatives, or if no spouse, dependent or relative is known to the Company, then to such other person as the Company may designate.

11. Adjustments upon Changes in Common Stock; Corporate Transactions.

(a) In the event of a Capitalization Adjustment, the Board will appropriately and proportionately adjust: (i) the class(es) and maximum number of securities subject to the Plan pursuant to Section 3(a), (ii) the class(es) and maximum number of securities by which the share reserve is to increase automatically each year pursuant to Section 3(a), (iii) the class(es) and number of securities subject to, and the purchase price applicable to outstanding Offerings and Purchase Rights, and (iv) the class(es) and number of securities that are the subject of the purchase limits under each ongoing Offering. The Board will make these adjustments, and its determination will be final, binding and conclusive.

(b) In the event of a Corporate Transaction, then: (i) any surviving corporation or acquiring corporation (or the surviving or acquiring corporation's parent company) may assume or continue outstanding Purchase Rights or may substitute similar rights (including a right to acquire the same consideration paid to the stockholders in the Corporate Transaction) for outstanding Purchase Rights, or (ii) if any surviving or acquiring corporation (or its parent company) does not assume or continue such Purchase Rights or does not substitute similar rights for such Purchase Rights, then the Participants' accumulated Contributions will be used to purchase shares of Common Stock (rounded down to the nearest whole share) within ten business days (or such other period specified by the Board) prior to the Corporate Transaction under the outstanding Purchase Rights, and the Purchase Rights will terminate immediately after such purchase.

12. Amendment, Termination or Suspension of the Plan.

(a) The Board may amend the Plan at any time in any respect the Board deems necessary or advisable. However, except as provided in Section 11(a) relating to Capitalization Adjustments, stockholder approval will be required for any amendment of the Plan for which stockholder approval is required by Applicable Law.

(b) The Board may suspend or terminate the Plan at any time. No Purchase Rights may be granted under the Plan while the Plan is suspended or after it is terminated. If the Plan is terminated, the Board, in its discretion, may elect to

terminate all outstanding Offerings either immediately or upon completion of the purchase of shares of Common Stock on the next Purchase Date (which may be sooner than originally scheduled, if determined by the Board in its discretion), or may elect to permit Offerings to expire in accordance with their terms.

(c) Any benefits, privileges, entitlements and obligations under any outstanding Purchase Rights granted before an amendment, suspension or termination of the Plan will not be materially impaired by any such amendment, suspension or termination except (i) with the consent of the person to whom such Purchase Rights were granted, (ii) as necessary to facilitate compliance with any laws, listing requirements, or governmental regulations (including, without limitation, the provisions of Section 423 of the Code and the regulations and other interpretive guidance issued thereunder relating to Employee Stock Purchase Plans) including without limitation any such regulations or other guidance that may be issued or amended after the date the Plan is adopted by the Board, or (iii) as necessary to obtain or maintain favorable tax, listing, or regulatory treatment. To be clear, the Board may amend outstanding Purchase Rights without a Participant's consent if such amendment is necessary to ensure that the Purchase Right and/or the Plan complies with the requirements of Section 423 of the Code with respect to the 423 Component or with respect to other Applicable Laws. Notwithstanding anything in the Plan or any Offering Document to the contrary, the Board will be entitled to: (i) establish the exchange rate applicable to amounts withheld in a currency other than U.S. dollars; (ii) permit Contributions in excess of the amount designated by a Participant in order to adjust for mistakes in the Company's processing of properly completed Contribution elections; (iii) establish reasonable waiting and adjustment periods and/or accounting and crediting procedures to ensure that amounts applied toward the purchase of Common Stock for each Participant properly correspond with amounts withheld from the Participant's Contributions; (iv) amend any outstanding Purchase Rights or clarify any ambiguities regarding the terms of any Offering to enable the Purchase Rights to qualify under and/or comply with Section 423 of the Code with respect to the 423 Component; and (v) establish other limitations or procedures as the Board determines in its sole discretion advisable that are consistent with the Plan. The actions of the Board pursuant to this paragraph will not be considered to alter or impair any Purchase Rights granted under an Offering as they are part of the initial terms of each Offering and the Purchase Rights granted under each Offering.

13. TAX QUALIFICATION; TAX WITHHOLDING.

(a) Although the Company may endeavor to (i) qualify a Purchase Right for special tax treatment under the laws of the United States or jurisdictions outside of the United States or (ii) avoid adverse tax treatment, the Company makes no representation to that effect and expressly disavows any covenant to maintain special or to avoid unfavorable tax treatment, notwithstanding anything to the contrary in this Plan. The Company will be unconstrained in its corporate activities without regard to the potential negative tax impact on Participants.

(b) Each Participant will make arrangements, satisfactory to the Company and any applicable Related Corporation, to enable the Company or the Related Corporation to fulfill any withholding obligation for Tax-Related Items. Without limitation to the foregoing, in the Company's sole discretion and subject to Applicable Law, such withholding obligation may be satisfied in whole or in part by (i) withholding from the Participant's salary or any other cash payment due to the Participant from the Company or a Related Corporation; (ii) withholding from the proceeds of the sale of shares of Common Stock acquired under the Plan, either through a voluntary sale or a mandatory sale arranged by the Company; or (iii) any other method deemed acceptable by the Board. The Company shall not be required to issue any shares of Common Stock under the Plan until such obligations are satisfied.

(c) The 423 Component is exempt from the application of Section 409A of the Code, and any ambiguities herein shall be interpreted to so be exempt from Section 409A of the Code. The Non-423 Component is intended to be exempt from the application of Section 409A of the Code under the short-term deferral exception and any ambiguities shall be construed and interpreted in accordance with such intent. In furtherance of the foregoing and notwithstanding any provision in the Plan to the contrary, if the Committee determines that an option granted under the Plan may be subject to Section 409A of the Code or that any provision in the Plan would cause an option under the Plan to be subject to Section 409A, the Committee may amend the terms of the Plan and/or of an outstanding option granted under the Plan, or take such other action the Committee determines is necessary or appropriate, in each case, without the Participant's consent, to exempt any outstanding option or future option that may be granted under the Plan from or to allow any such options to comply with Section 409A of the Code, but only to the extent any such amendments or action by the Committee would not violate Section 409A of the Code. Notwithstanding the foregoing, the Company shall have no liability to a Participant or any other party if the option under the Plan that is intended to be exempt from or compliant with Section 409A of the Code is not so exempt or compliant or for any action taken by the Committee with respect thereto.

14. Effective Date of Plan.

The Plan will become effective immediately prior to and contingent upon the Effective Date. No Purchase Rights will be exercised unless and until the Plan has been approved by the stockholders of the Company, which approval must be within 12 months before or after the date the Plan is adopted (or if required under Section 12(a) above, materially amended) by the Board.

15. Miscellaneous Provisions.

(a) Proceeds from the sale of shares of Common Stock pursuant to Purchase Rights will constitute general funds of the Company.

(b) A Participant will not be deemed to be the holder of, or to have any of the rights of a holder with respect to, shares of Common Stock subject to Purchase Rights unless and until the Participant's shares of Common Stock acquired upon exercise of Purchase Rights are recorded in the books of the Company (or its transfer agent).

(c) The Plan and Offering do not constitute an employment contract. Nothing in the Plan or in the Offering will in any way alter the at will nature of a Participant's employment or amend a Participant's employment contract, if applicable, or be deemed to create in any way whatsoever any obligation on the part of any Participant to continue in the employ of the Company or a Related Corporation or an Affiliate, or on the part of the Company, a Related Corporation or an Affiliate to continue the employment of a Participant.

(d) This Plan and any controversy arising out of or relating to this Plan shall be governed by, and construed in accordance with, the internal laws of the State of Delaware, without regard to conflict of law principles that would result in any application of any law other than the law of the State of Delaware.

(e) If any particular provision of the Plan is found to be invalid or otherwise unenforceable, such provision will not affect the other provisions of the Plan, but the Plan will be construed in all respects as if such invalid provision were omitted.

(f) If any provision of the Plan does not comply with Applicable Law, such provision shall be construed in such a manner as to comply with Applicable Law.

16. Definitions.

As used in the Plan, the following definitions will apply to the capitalized terms indicated below:

(e) "***Capitalization Adjustment***" means any change that is made in, or other events that occur with respect to, the Common Stock subject to the Plan or subject to any Purchase Right after the date the Plan is adopted by the Board without the receipt of consideration by the Company through merger, consolidation, reorganization, recapitalization, reincorporation, stock dividend, dividend in property other than cash, large nonrecurring cash dividend, stock split, liquidating dividend, combination of shares, exchange of shares, change in corporate structure or other similar equity restructuring transaction, as that term is used in Financial Accounting Standards Board Accounting Standards Codification Topic 718 (or any successor thereto). Notwithstanding the foregoing, the conversion of any convertible securities of the Company will not be treated as a Capitalization Adjustment.

(f) "***Code***" means the U.S. Internal Revenue Code of 1986, as amended, including any applicable regulations and guidance thereunder.

(g) "***Committee***" means a committee of one or more members of the Board to whom authority has been delegated by the Board in accordance with Section 2(c).

(k) "***Corporate Transaction***" means the consummation, in a single transaction or in a series of related transactions, of any one or more of the following events:

(i) a sale or other disposition of all or substantially all, as determined by the Board in its sole discretion, of the consolidated assets of the Company and its subsidiaries;

(iii) a merger, consolidation or similar transaction following which the Company is not the surviving corporation; or

(l) "***Designated 423 Company***" means any Related Corporation selected by the Board as participating in the 423 Component.

Unless otherwise provided by the Board, if there is no closing sales price for the Common Stock on the date of determination, then the Fair Market Value will be the closing sales price on the last preceding date for which such quotation exists.

(ii) In the absence of such markets for the Common Stock, the Fair Market Value will be determined by the Board in good faith in compliance with Applicable Laws and regulations and, to the extent applicable as determined in the sole discretion of the Board, in a manner that complies with Sections 409A of the Code

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

Item 20. Indemnification of Directors and Officers

Section 102(b)(7) of the General Corporation Law of the State of Delaware (the "***DGCL***") provides that a corporation may relieve its directors or officers from personal liability to the corporation or its stockholders for monetary damages for any breach of their fiduciary duty as directors or officers except for (i) a breach of the duty of loyalty; (ii) acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law; (iii) with respect to directors, willful or negligent violations of certain provisions in the DGCL imposing certain requirements with respect to stock repurchases, redemptions and dividends; (iv) for any transactions from which the director derived an improper personal benefit; or (v) with respect to officers, in any action by or in the right of the corporation. The Restated Certificate of Incorporation of Werewolf Therapeutics, Inc. (Werewolf's "***Charter***") provides that no director shall be personally liable to Werewolf Therapeutics, Inc. ("***Werewolf***") or its stockholders for monetary damages for any breach of fiduciary duty as a director, notwithstanding any provision of law imposing such liability, except to the extent that the DGCL prohibits the elimination or limitation of liability of directors for breaches of fiduciary duty.

Section 145 of the DGCL sets forth the circumstances under which a Delaware corporation is permitted and/or required to indemnify its directors and officers. The DGCL permits a corporation to indemnify its directors and officers in certain proceedings if the director or officer has complied with the standard of conduct set forth in the DGCL. This standard of conduct requires that the director or officer must have acted in good faith, in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to matters in a criminal proceeding, the director or officer must have had no reasonable cause to believe that his or her conduct was unlawful. With respect to suits by or in the right of the corporation, the DGCL permits indemnification of directors and officers if the person meets the standard of conduct, except that it precludes indemnification of directors and officers who are adjudged liable to the corporation, unless and only to the extent that the Court of Chancery of the State of Delaware (the "***Court of Chancery***") or the court in which such action or suit was brought determines that the director or officer is fairly and reasonably entitled to indemnity for expenses. To the extent that a present or former director or officer of the corporation is successful on the merits or otherwise in his or her defense of a proceeding, the corporation is required to indemnify the director or officer against reasonable expenses incurred in defending himself or herself. The rights provided in Section 145 of the DGCL are not exclusive, and the corporation may also provide for indemnification under bylaw, agreement, vote of stockholders or disinterested directors or otherwise.

Werewolf's Charter provides that Werewolf will indemnify each person who was or is a party or threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of Werewolf), by reason of the fact that he or she is or was, or has agreed to become, a Werewolf director or officer, or is or was serving, or has agreed to serve, at Werewolf's request as a director, officer, partner, employee or trustee of, or in a similar capacity with, another corporation, partnership, joint venture, trust or other enterprise (including any employee benefit plan) (all such persons, an "***Indemnitee***"), or by reason of any action alleged to have been taken or omitted in such capacity, against all expenses (including attorneys' fees), liabilities, losses, judgments, fines (including excise taxes and penalties arising under the Employee Retirement Income Security Act of 1974) and amounts paid in settlement actually and reasonably incurred by or on behalf of Indemnitee in connection with such action, suit or proceeding and any appeal therefrom if such Indemnitee acted in good faith and in a manner he or she reasonably believed to be in, or not opposed to, Werewolf's best interests, and, with respect to any criminal action or proceeding, he or she had no reasonable cause to believe his or her conduct was unlawful.

Werewolf's Charter also provides that Werewolf will indemnify any Indemnitee who was or is a party or threatened to be made a party to any threatened, pending or completed action or suit by or in the right of Werewolf to procure a judgment in Werewolf's favor by reason of the fact that the Indemnitee is or was, or has agreed to become, our director or officer, or is or was serving, or has agreed to serve, at Werewolf's request as a director, officer, partner, employee or trustee of, or in a similar capacity with, another corporation, partnership, joint venture, trust or other enterprise (including any employee benefit plan), or by reason of any action alleged to have been taken or omitted in such capacity, against all expenses (including attorneys' fees) and, to the extent permitted by law, amounts paid in settlement actually and reasonably incurred by or on behalf of Indemnitee in connection with such action, suit or proceeding, and any appeal therefrom, if the Indemnitee acted in good faith and in a manner he or she reasonably believed to be in, or not opposed to, Werewolf's best interests, except that no indemnification shall be made with respect to any claim, issue or matter as to which such person shall have been adjudged to be liable to Werewolf, unless and only to the extent that the

Court of Chancery or the court in which such action or suit was brought determines that, despite such adjudication but in view of all of the circumstances, he or she is fairly and reasonably entitled to indemnification of such expenses (including attorney's fees). Notwithstanding the foregoing, to the extent that any Indemnitee has been successful, on the merits or otherwise, in defense of any such action, suit or proceeding, or in defense of any claim, issue or matter therein, he or she will be indemnified by Werewolf against all expenses (including attorneys' fees) actually and reasonably incurred by him or her or on his or her behalf in connection therewith. Subject to certain conditions, Werewolf is also required to advance expenses incurred by an Indemnitee in defending any such action, suit, proceeding or investigation prior to its final disposition.

In addition, Werewolf has entered into indemnification agreements with all of its directors and executive officers. In general, these agreements provide that Werewolf will indemnify the directors or executive officers to the fullest extent permitted by law for claims arising in his or her capacity as a director or executive officer of Werewolf or in connection with his or her service at the request of Werewolf for another corporation or entity. The indemnification agreements also provide for procedures that will apply in the event that a director or executive officer makes a claim for indemnification and establish certain presumptions that are favorable to the executive officer or director.

Werewolf maintains a general liability insurance policy that covers certain liabilities of its directors and officers arising out of claims based on acts or omissions in their capacities as directors or officers.

Insofar as the foregoing provisions permit indemnification of directors, executive officers or persons controlling Werewolf for liability arising under the Securities Act of 1933, as amended (the "***Securities Act***"), Werewolf has been informed that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Merger Agreement

The Merger Agreement (as defined in the proxy statement/prospectus which forms a part of this registration statement) provides that from the effective time of the Merger (as defined in the proxy statement/prospectus which forms a part of this registration statement) (the "***Effective Time***") through the sixth anniversary of the Effective Time, Werewolf and the surviving corporation will indemnify and hold harmless the current and former directors and officers of Werewolf and Ambros Therapeutics, Inc. ("***Ambros***"), respectively, against claims, losses, liabilities, damages, judgments, fines and reasonable fees, costs and expenses arising out of or relating to their service as directors or officers of Werewolf or Ambros, as applicable, to the fullest extent permitted by Delaware law. Such persons will also be entitled to advancement of expenses, subject to specified repayment obligations required by Delaware law.

The certificate of incorporation and bylaws of the surviving corporation will contain provisions no less favorable with respect to indemnification, advancement of fees, costs and expenses and exculpation than those in effect on the date of the Merger Agreement. Werewolf has agreed to purchase, prior to the Effective Time, a six-year prepaid tail insurance policy covering each person currently covered by the directors' and officers' liability insurance policies of Werewolf. Werewolf has also agreed to maintain directors' and officers' liability insurance policies from and after the Effective Time, on commercially available terms and conditions and with coverage limits customary for similarly situated U.S. public companies.

All rights to exculpation, indemnification, and advancement of expenses for acts or omissions occurring at or prior to the Effective Time, whether asserted or claimed prior to, at or after the closing of the Merger, currently existing in favor of the current or former directors, officers, or employees, as the case may be of Werewolf, Ambros or any of their respective subsidiaries as provided in their respective organizational documents or in any agreements will survive the Merger and continue in full force and effect.

The Registrant agrees to furnish supplementally a copy of any omitted schedule or attachment to the Securities and Exchange Commission or its staff upon request.

Item 22. Undertakings

The undersigned registrant hereby undertakes:

1. To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

   i. to include any prospectus required by Section 10(a)(3) of the Securities Act;

   ii. to reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the SEC pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Filing Fee Table" in the effective registration statement; and

   iii. to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

2. That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

3. To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

4. That, for purposes of determining liability under the Securities Act to any purchaser, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness; provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

5. That, for the purpose of determining liability of the registrant under the Securities Act to any purchaser in the initial distribution of the securities, the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

   i. any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;

   ii. any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;

   iii. the portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

   iv. any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

6. That prior to any public reoffering of the securities registered hereunder through use of a prospectus which is a part of this registration statement, by any person or party who is deemed to be an underwriter within the meaning of Rule 145(c), the issuer undertakes that such reoffering prospectus will contain the information

called for by the applicable registration form with respect to reofferings by persons who may be deemed underwriters, in addition to the information called for by the other Items of the applicable form.

7. That every prospectus (i) that is filed pursuant to the paragraph immediately preceding, or (ii) that purports to meet the requirements of Section 10(a)(3) of the Securities Act and is used in connection with an offering of securities subject to Rule 415, will be filed as a part of an amendment to the registration statement and will not be used until such amendment is effective, and that, for purposes of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

8. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

9. To respond to requests for information that is incorporated by reference into the proxy statement/prospectus pursuant to Items 4, 10(b), 11, or 13 of this Form, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in documents filed subsequent to the effective date of this registration statement through the date of responding to the request.

10. To supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in this registration statement when it became effective.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the registrant has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Waltham, State of Massachusetts, on September 22, 2026.

RE: Amendment of Retention Agreement

Dear Dan:

Werewolf Therapeutics, Inc. (the "**Company**") would like to amend the Retention Agreement, dated February 15, 2026, entered into by and between you and the Company (the "**Agreement**") in accordance with the terms herein (the "**Amendment**"). If not otherwise defined herein, capitalized terms shall have the definitions ascribed to them in the Agreement.

I. Retention Period.

Upon your signature below, acknowledging your acceptance of and agreement with the terms of this Amendment, the Retention Date, as defined in the Agreement, shall be amended to be December 31, 2026, and the Retention Period, as defined in the Agreement, shall be amended to be the period from the Effective Date through December 31, 2026.

II. Additional Bonus Payments.

If you sign, date, and return to the Company (without alteration) the General Release of Claims attached hereto as Exhibit A (the "**General Release**") on or before September 9, 2026, you will be eligible for the following additional benefits:

A. An additional bonus payment in the total amount of $118,606.31 (the "**Extended Uplift Bonus**"). Contingent on your continued employment in good standing with the Company through each applicable payment date, the Extended Uplift Bonus will be paid in equal installments, less standard payroll deductions and tax withholdings, on the Company's regular payroll schedule during the period from the date that the General Release is signed through the end of the Retention Period. If, prior to the end of the Retention Period, the Company terminates your employment without Cause, you will be entitled to a lump sum payment equal to an amount equal to the Extended Uplift Bonus ***minus*** any portion of the Extended Uplift Bonus paid prior to such termination of employment. For the avoidance of doubt, if you provide notice of your employment resignation, or actually resign your employment for any reason, or the Company terminates your employment for Cause, before the Retention Date, you will no longer be eligible for any unpaid portion of the Extended Uplift Bonus.

B. A one-time additional retention bonus in the amount of $174,000.00 (the "**Additional Retention Bonus**"), less standard payroll deductions and tax withholdings, to be paid to you in the first regular payroll after your execution and delivery of this Amendment and the General Release. The Additional Retention Bonus is an advance and is being paid to you prior to being earned. You will earn the Additional Retention Bonus on the Retention Date, contingent on your continued employment in good standing with the Company through and including the Retention Date. If, at any time prior to the Retention Date, you provide notice of your employment resignation, or actually resign your employment for any reason, or the Company terminates your employment for Cause, you must repay one-hundred percent (100%) of the Additional Retention Bonus to the Company within thirty (30) days following your employment termination date. For the avoidance of doubt, if at any time prior to the Retention Date, your employment is terminated by the Company without Cause, or your employment is terminated due to your death or disability, then you will not be required to repay the Additional Retention Bonus any portion thereof.

III. Acknowledgments and Miscellaneous.

By signing below, you acknowledge that as of August 15, 2026, you have received the Additional Bonus Payment as defined in, and in accordance with the terms of, the Agreement. You will not be required to repay the Retention Bonus or any Additional Bonus Payment.

Except as set forth above, this Amendment does not modify the terms of the Agreement and the Agreement, as amended by this Amendment, remains in full force and effect. This Amendment may be executed in two or more counterparts, each of which will be deemed an original, but all of which together will constitute one and the same instrument. Counterparts may be delivered via facsimile, electronic mail (including pdf or any electronic signature complying with the U.S. federal ESIGN Act of 2000, Uniform Electronic Transactions Act or other applicable law) or other transmission method and any counterpart so delivered will be deemed to have been duly and validly delivered and be valid and effective for all purposes.

To accept and agree to the terms of this Amendment and become eligible to receive the benefits described herein, please execute and return this Amendment on or before September 9, 2026.

Sincerely,

/s/ Jonathan Owen

In exchange for the consideration provided to me under the Amendment to which I would not otherwise be entitled, including but not limited to the benefits set forth in **Section II** of the Amendment, I (for me and for any person who may make a claim by or through me (including without limitation, any current or former spouse(s), dependents, heirs, assignees, executors, attorneys, or agents)) hereby generally and completely release the Company and its current and former predecessors, successors, parents, direct and indirect subsidiaries, affiliates, investors, and related entities (collectively, the "**Entities**") and each of the Entities' respective current and former directors, officers, employees, shareholders, partners, members, agents, attorneys, insurers, assigns, and employee benefit plans of and from any and all claims, liabilities, and obligations, both known and unknown, that arise out of or are in any way related to events, acts, conduct, or omissions occurring prior to or on the date I sign this General Release (collectively, the "**Released Claims**").

Scope of Release. The Released Claims include, but are not limited to: (i) all claims arising out of or in any way related to my employment with or services for any member of the Company, or the termination of that employment or those services; (ii) all claims or rights related to my compensation or benefits from the Company, including salary, bonuses, incentive compensation, commissions, paid time off, severance benefits pursuant to the Employment Agreement or otherwise, notice rights, transaction bonuses, fringe benefits, stock, stock options, restricted stock, units, or any other ownership interests in the Company; (iii) all claims for breach of contract (oral or written), wrongful termination, and breach of the implied covenant of good faith and fair dealing; (iv) all tort claims, including claims for fraud, inducement, misrepresentation, defamation, emotional distress, and discharge in violation of public policy; and (v) all constitutional, federal, state, and local statutory and common law claims, in each case, as amended, including, but not limited to, claims for discrimination, harassment, retaliation, interference, attorneys' fees, and/or other claims arising under the federal Civil Rights Act of 1964, the federal Americans with Disabilities Act of 1990 and all similar state and local laws, the federal Family and Medical Leave Act and all similar state and local laws (the "**FMLA**"), the federal Equal Pay Act and all similar state and local laws, the federal Employee Retirement Income Security Act of 1974, the Federal Fair Credit Reporting Act and all similar state and local laws, the federal Worker Adjustment and Retraining Notification Act and all similar state and local laws, the Massachusetts Fair Employment Practices Act, the Massachusetts Equal Rights Act, the Massachusetts Wage Act, the Massachusetts Civil Rights Act, and any and all claims arising from or related to any other federal, state or local fair employment practices act, statute, code, regulation, and/or ordinance.

Excluded Claims. The Released Claims do not include (i) any rights to indemnification I may have pursuant to the terms and conditions of the Company's governing corporate documents, pursuant to any written indemnification agreement with the Company to which I am a party (if any), under applicable law, or pursuant to the terms and conditions of any directors and officers' liability insurance policy of the Company; and (ii) any rights that are not waivable as a matter of law, including without limitation, any rights I may have to seek unemployment or workers' compensation benefits.

Protected Rights. I understand that nothing in this General Release prevents me from filing a charge or complaint with the Equal Employment Opportunity Commission, the National Labor Relations Board, the Occupational Safety and Health Administration, the Securities and Exchange Commission or any other federal, state or local governmental agency or commission (collectively, the "**Government Agencies**"). This General Release does not limit my ability to communicate with any Government Agencies or otherwise participate in any investigation or proceeding that may be conducted by any Government Agencies, including providing documents or other information, without notice to the Company. While this General Release does not limit my right to receive an award for information provided to the Securities and Exchange Commission or to receive a monetary award from a government-administered whistleblower award program, I understand and agree that, to maximum extent permitted by law, I am otherwise waiving any and all rights I may have to individual relief based on any claims that I have released and any rights I have waived by signing this General Release. Nothing in this General Release prevents me from discussing or disclosing employee wages, benefits or terms and conditions of employment, or information about unfair or unlawful acts or employment practices in the workplace, such as harassment or discrimination or any other conduct that I have reason to believe is unlawful. Additionally, I further acknowledge that the Company has advised me that I will not be held civilly or criminally liable under any federal or state trade secret law for the disclosure of a trade secret that: (a) is made (i) in confidence to a federal, state, or local government official, either directly or indirectly, or to an attorney, and (ii) solely for the purpose of reporting or investigating a suspected violation of law; or (b) is made in a complaint or other document that is filed under seal in a lawsuit or other proceeding; or (c) is made to an attorney or is used in a court proceeding in connection with a lawsuit alleging retaliation for reporting a suspected violation of law, provided that the trade secret is filed under seal and not disclosed except pursuant to court order.

Representations. I hereby represent that, as of the date I execute this General Release: I have been paid all compensation owed and for all time worked; I have received all the leave and leave benefits and protections for which I am eligible pursuant to FMLA or any applicable federal or state law or Company policy; and I have not suffered any on-the-job injury or illness for which I have not already filed a workers' compensation claim. I further acknowledge and represent that: (i) I am not relying upon any statements, understandings, representations, expectations, or agreements other than those expressly set forth in the Amendment, and General Release; (ii) I have made my own investigation of the facts and I am relying solely upon my own knowledge; (iii) I am knowingly waiving any claim that the Amendment, or General Release were induced by any misrepresentation or nondisclosure; (iv) I have read and understand the terms and effect of the Amendment and General Release; and (v) I am knowingly and voluntarily agreeing to all of the terms set forth in Amendment and General Release and to be bound by the Amendment and General Release.

I UNDERSTAND THAT THIS GENERAL RELEASE INCLUDES A RELEASE OF ALL KNOWN AND UNKNOWN CLAIMS, EVEN THOSE UNKNOWN CLAIMS THAT, IF KNOWN BY ME, WOULD AFFECT MY DECISION TO ACCEPT THIS GENERAL RELEASE.

Agreed and Acknowledged:

APPROVED BY THE STOCKHOLDERS: September 30, 2025
AMENDED BY THE BOARD OF DIRECTORS: April 20, 2026
APPROVED BY THE STOCKHOLDERS: April 23, 2026
AMENDED BY THE BOARD OF DIRECTORS: July 30, 2026
APPROVED BY THE STOCKHOLDERS: August 5, 2026
TERMINATION DATE: September 9, 2034

1. General.

(a) Eligible Stock Award Recipients. Employees, Directors and Consultants are eligible to receive Stock Awards.

(b) Available Stock Awards. The Plan provides for the grant of the following types of Stock Awards: (i) Incentive Stock Options, (ii) Nonstatutory Stock Options, (iii) Stock Appreciation Rights, (iv) Restricted Stock Awards, (v) Restricted Stock Unit Awards and (vi) Other Stock Awards.

(c) Purpose. The Plan, through the grant of Stock Awards, is intended to help the Company secure and retain the services of eligible award recipients, provide incentives for such persons to exert maximum efforts for the success of the Company and any Affiliate and provide a means by which the eligible recipients may benefit from increases in value of the Common Stock.

2. Administration.

(a) Administration by the Board. The Board will administer the Plan. The Board may delegate administration of the Plan to a Committee or Committees, as provided in Section 2(c).

(b) Powers of the Board. The Board will have the power, subject to, and within the limitations of, the express provisions of the Plan:

(i) To determine (A) who will be granted Stock Awards; (B) when and how each Stock Award will be granted; (C) what type of Stock Award will be granted; (D) the provisions of each Stock Award (which need not be identical), including when a person will be permitted to exercise or otherwise receive cash or Common Stock under the Stock Award; (E) the number of shares of Common Stock subject to, or the cash value of, a Stock Award; and (F) the Fair Market Value applicable to a Stock Award.

(ii) To construe and interpret the Plan and Stock Awards granted under it, and to establish, amend and revoke rules and regulations for administration of the Plan and Stock Awards. The Board, in the exercise of these powers, may correct any defect, omission or inconsistency in the Plan or in any Stock Award Agreement, in a manner and to the extent it will deem necessary or expedient to make the Plan or Stock Award fully effective.

(iii) To settle all controversies regarding the Plan and Stock Awards granted under it.

(iv) To accelerate, in whole or in part, the time at which a Stock Award may be exercised or vest (or the time at which cash or shares of Common Stock may be issued in settlement thereof).

(v) To suspend or terminate the Plan at any time. Except as otherwise provided in the Plan or a Stock Award Agreement, suspension or termination of the Plan will not impair a Participant's rights under the Participant's then-outstanding Stock Award without the Participant's written consent except as provided in subsection (viii) below.

(vi) To amend the Plan in any respect the Board deems necessary or advisable, including, without limitation, by adopting amendments relating to Incentive Stock Options and certain nonqualified deferred compensation under Section 409A of the Code and/or bringing the Plan or Stock Awards granted under the Plan into compliance with the requirements for Incentive Stock Options or ensuring that they are exempt from, or compliant with, the requirements for nonqualified deferred compensation under Section 409A of the Code, subject to the limitations, if any, of applicable law. If required by applicable law or listing requirements, and except as provided in Section 9(a) relating to Capitalization Adjustments, the Company will seek stockholder approval of any amendment of the Plan that (A) materially increases the number of shares of Common Stock available for issuance under the Plan, (B) materially expands the class of individuals eligible to receive Stock Awards under the Plan, (C) materially increases the benefits accruing to Participants under the Plan, (D) materially reduces the price at which shares of Common Stock may be issued or purchased under the Plan, (E) materially extends the term of the Plan, or (F) materially expands the types of Stock Awards available for issuance under the Plan. Except as otherwise provided in the Plan or a Stock Award Agreement, no amendment of the Plan will materially impair a Participant's rights under an outstanding Stock Award without the Participant's written consent.

(vii) To submit any amendment to the Plan for stockholder approval, including, but not limited to, amendments to the Plan intended to satisfy the requirements of Section 422 of the Code regarding Incentive Stock Options.

(viii) To approve forms of Stock Award Agreements for use under the Plan and to amend the terms of any one or more Stock Awards, including, but not limited to, amendments to provide terms more favorable to the Participant than previously provided in the Stock Award Agreement, subject to any specified limits in the Plan that are not subject to Board discretion; *provided however,* that a Participant's rights under any Stock Award will not be impaired by any such amendment unless (A) the Company requests the consent of the affected Participant, and (B) such Participant consents in writing. Notwithstanding the foregoing, (1) a Participant's rights will not be deemed to have been impaired by any such amendment if the Board, in its sole discretion, determines that the amendment, taken as a whole, does not materially impair the Participant's rights, and (2) subject to the limitations of applicable law, if any, the Board may amend the terms of any one or more Stock Awards without the affected Participant's consent (A) to maintain the qualified status of the Stock Award as an Incentive Stock Option under Section 422 of the Code; (B) to change the terms of an Incentive Stock Option, if such change results in impairment of the Stock Award solely because it impairs the qualified status of the Stock Award as an Incentive Stock Option under Section 422 of the Code; (C) to clarify the manner of exemption from, or to bring the Stock Award into compliance with, Section 409A of the Code; or (D) to comply with other applicable laws.

(ix) Generally, to exercise such powers and to perform such acts as the Board deems necessary or expedient to promote the best interests of the Company and that are not in conflict with the provisions of the Plan or Stock Awards.

(x) To adopt such procedures and sub-plans as are necessary or appropriate to permit participation in the Plan by Employees, Directors or Consultants who are foreign nationals or employed outside the United States (provided that Board approval will not be necessary for immaterial modifications to the Plan or any Stock Award Agreement that are required for compliance with the laws of the relevant foreign jurisdiction).

(xi) To effect, with the consent of any adversely affected Participant, (A) the reduction of the exercise, purchase or strike price of any outstanding Stock Award; (B) the cancellation of any outstanding Stock Award and the grant in substitution therefor of a new (1) Option or SAR, (2) Restricted Stock Award, (3) Restricted Stock Unit Award, (4) Other Stock Award, (5) cash and/or (6) other valuable consideration determined by the Board, in its sole discretion, with any such substituted award (x) covering the same or a different number of shares of Common Stock as the cancelled Stock Award and (y) granted under the Plan or another equity or compensatory plan of the Company; or (C) any other action that is treated as a repricing under generally accepted accounting principles.

(c) Delegation to Committee. The Board may delegate some or all of the administration of the Plan to a Committee or Committees. If administration of the Plan is delegated to a Committee, the Committee will have, in connection with the administration of the Plan, the powers theretofore possessed by the Board that have been delegated to the Committee, including the power to delegate to a subcommittee of the Committee any of the administrative powers the Committee is authorized to exercise (and references in this Plan to the Board will thereafter be to the Committee or subcommittee, as applicable). Any delegation of administrative powers will be reflected in resolutions, not inconsistent with the provisions of the Plan, adopted from time to time by the Board or Committee (as applicable). The Board may retain the authority to concurrently administer the Plan with the Committee and may, at any time, revest in the Board some or all of the powers previously delegated.

(d) Delegation to Other Person or Body. The Board may delegate to one or more persons or bodies, in addition to the Board, the authority to do one or both of the following: (i) designate recipients of Options and SARs (and, to the extent permitted by applicable law, other Stock Awards) and, to the extent permitted by applicable law, the terms of such Stock Awards, and (ii) determine the number of shares of Common Stock to be subject to such Stock Awards granted to such recipients; *provided, however*, that the Board resolutions regarding such delegation will fix the terms of such delegation in accordance with applicable law, including without limitation Sections 152 and/or 157 of the Delaware General Corporation Law, and *provided* that no Board resolution may permit a person or body to grant a Stock Award to such person or body. Any such Stock Awards will be granted on the form of Stock Award Agreement most recently approved for use by the Committee or the Board, unless otherwise provided in the resolutions approving the delegation authority. The Board may not delegate authority to determine the Fair Market Value pursuant to Section 13(t) below to any person or body, except that the Board may delegate such authority to a Committee or Committees of the Board in accordance with Section 2(c) above.

(e) Effect of Board's Decision. All determinations, interpretations and constructions made by the Board in good faith will not be subject to review by any person and will be final, binding and conclusive on all persons.

3. Shares Subject to the Plan.

(a) Share Reserve.

(i) Subject to Section 9(a) relating to Capitalization Adjustments, the aggregate number of shares of Common Stock that may be issued pursuant to Stock Awards from and after the Effective Date will not exceed 7,660,768 shares (the ***"Share Reserve"***).

(ii) For clarity, the Share Reserve in this Section 3(a) is a limitation on the number of shares of Common Stock that may be issued pursuant to the Plan. Accordingly, this Section 3(a) does not limit the granting of Stock Awards except as provided in Section 7(a).

(b) Reversion of Shares to the Share Reserve. If a Stock Award or any portion thereof (i) expires or otherwise terminates without all of the shares covered by such Stock Award having been issued or (ii) is settled in cash (i.e., the Participant receives cash rather than stock), such expiration, termination or settlement will not reduce (or otherwise offset) the number of shares of Common Stock that may be available for issuance under the Plan. If any shares of Common Stock issued pursuant to a Stock Award are forfeited back to or repurchased by the Company because of the failure to meet a contingency or condition required to vest such shares in the Participant, then the shares that are forfeited or repurchased will be immediately retired and resume the status of authorized and unissued shares of the capital stock of the Company, and will revert to and again become available for issuance under the Plan. Any shares reacquired by the Company in satisfaction of tax withholding obligations on a Stock Award or as consideration for the exercise or purchase price of a Stock Award will again become available for issuance under the Plan.

(c) Incentive Stock Option Limit. Subject to the Share Reserve and Section 9(a) relating to Capitalization Adjustments, the aggregate maximum number of shares of Common Stock that may be issued pursuant to the exercise of Incentive Stock Options will be a number of shares of Common Stock equal to three multiplied by the Share Reserve.

(d) Source of Shares. The stock issuable under the Plan will be shares of authorized but unissued or reacquired Common Stock, including shares repurchased by the Company on the open market or otherwise.

4. Eligibility.

(a) Eligibility for Specific Stock Awards. Incentive Stock Options may be granted only to employees of the Company or a "parent corporation" or "subsidiary corporation" thereof (as such terms are defined in Sections 424(e) and 424(f) of the Code). Stock Awards other than Incentive Stock Options may be granted to Employees, Directors and Consultants; *provided, however*, that Stock Awards may not be granted to Employees, Directors and Consultants who are providing Continuous Service only to any "parent" of the Company, as such term is defined in Rule 405, unless (i) the stock underlying such Stock Awards is treated as "service recipient stock" under Section 409A of the Code (for example, because the Stock Awards are granted pursuant to a corporate transaction such as a spin off transaction), (ii) the Company, in consultation with its legal counsel, has determined that such Stock Awards are otherwise exempt from Section 409A of the Code, or (iii) the Company, in consultation with its legal counsel, has determined that such Stock Awards comply with the distribution requirements of Section 409A of the Code.

(b) Ten Percent Stockholders. A Ten Percent Stockholder will not be granted an Incentive Stock Option unless the exercise price of such Option is at least 110% of the Fair Market Value on the date of grant and the Option is not exercisable after the expiration of five years from the date of grant.

(c) Consultants. A Consultant will not be eligible for the grant of a Stock Award if, at the time of grant, either the offer or sale of the Company's securities to such Consultant is not exempt under Rule 701 because of the nature of the services that the Consultant is providing to the Company, because the Consultant is not a natural person, or because of any other provision of Rule 701, unless the Company determines that such grant need not comply with the requirements of Rule 701 and will satisfy another exemption under the Securities Act as well as comply with the securities laws of all other relevant jurisdictions.

5. Provisions Relating to Options and Stock Appreciation Rights.

Each Option or SAR will be in such form and will contain such terms and conditions as the Board deems appropriate. All Options will be separately designated Incentive Stock Options or Nonstatutory Stock Options at the time of grant, and, if certificates are issued, a separate certificate or certificates will be issued for shares of Common Stock purchased on exercise of each type of Option. If an Option is not specifically designated as an Incentive Stock Option, or if an Option is designated as an Incentive Stock Option but some portion or all of the Option fails to qualify as an Incentive Stock Option under the applicable rules, then the Option (or portion thereof) will be a Nonstatutory Stock Option. The provisions of separate Options or SARs need not be identical; *provided, however*, that each Stock Award Agreement will conform to (through incorporation of provisions hereof by reference in the applicable Stock Award Agreement or otherwise) the substance of each of the following provisions:

(a) Term. Subject to the provisions of Section 4(b) regarding Ten Percent Stockholders, no Option or SAR will be exercisable after the expiration of 10 years from the date of its grant or such shorter period specified in the Stock Award Agreement.

(b) Exercise Price. Subject to the provisions of Section 4(b) regarding Ten Percent Stockholders, the exercise or strike price of each Option or SAR will be not less than 100% of the Fair Market Value of the Common Stock subject to the Option or SAR on the date the Stock Award is granted. Notwithstanding the foregoing, an Option or SAR may be granted with an exercise or strike price lower than 100% of the Fair Market Value of the Common Stock subject to the Stock Award if such Stock Award is granted pursuant to an assumption of or substitution for another option or stock appreciation right pursuant to a Corporate Transaction and in a manner consistent with the provisions of Section 409A of the Code and, if applicable, Section 424(a) of the Code. Each SAR will be denominated in shares of Common Stock equivalents.

(c) Purchase Price for Options. The purchase price of Common Stock acquired pursuant to the exercise of an Option may be paid, to the extent permitted by applicable law and as determined by the Board in its sole discretion, by any combination of the methods of payment set forth below. The Board will have the authority to grant Options that do not permit all of the following methods of payment (or otherwise restrict the ability to use certain methods) and to grant Options that require the consent of the Company to use a particular method of payment. The permitted methods of payment are as follows:

(i) by cash, check, bank draft, electronic funds transfer or money order payable to the Company;

(ii) subject to Company and/or Board consent at the time of exercise and provided that at the time of exercise the Common Stock is publicly traded, pursuant to a program developed under Regulation T as promulgated by the Federal Reserve Board that, prior to the issuance of Common Stock, results in either the receipt of cash (or check) by the Company or the receipt of irrevocable instructions to pay the aggregate exercise price to the Company from the sales proceeds. This manner of payment is also known as a "broker-assisted exercise", "same day sale", or "sell to cover";

(iii) subject to Company and/or Board consent at the time of exercise and provided that at the time of exercise the Common Stock is publicly traded, by delivery to the Company (either by actual delivery or attestation) of already-owned shares of Common Stock that are owned free and clear of any liens, claims, encumbrances or security interests, and that are valued at Fair Market Value on the date of exercise. "Delivery" for these purposes, in the sole discretion of the Company and/or the Board, at the time Participant exercises their Option, will include delivery to the Company of Participant's attestation of ownership of such shares of Common Stock in a form approved by the Company. Participant may not exercise their option by delivery to the Company of Common Stock if doing so would violate the provisions of any law, regulation or agreement restricting the redemption of the Company's stock;

(iv) subject to Company and/or Board consent at the time of exercise, and provided that the Option is a Nonstatutory Stock Option, by a "net exercise" arrangement pursuant to which the Company will reduce the number of shares of Common Stock issued upon exercise of the Option by the largest whole number of shares with a Fair Market Value that does not exceed the aggregate exercise price plus, to the extent permitted by the Company and/or Board at the time of exercise, the aggregate withholding obligations in respect of the Option exercise; provided, further that Participant must pay any remaining balance of the aggregate exercise price not satisfied by the "net exercise" in cash or other permitted form of payment. Shares of Common Stock will no longer be subject to the Option and will not be exercisable thereafter to the extent that (A) shares issuable upon exercise are used to pay the exercise price pursuant to the "net exercise," (B) shares are delivered to the Participant as a result of such exercise, and (C) shares are withheld to satisfy tax withholding obligations;

(v) according to a deferred payment or similar arrangement with the Optionholder; *provided, however*, that interest will compound at least annually and will be charged at the minimum rate of interest necessary to avoid (A) the imputation of interest income to the Company and compensation income to the Optionholder under any applicable provisions of the Code, and (B) the classification of the Option as a liability for financial accounting purposes; or

(vi) in any other form of legal consideration that may be acceptable to the Board.

(d) Exercise and Payment of a SAR. To exercise any outstanding SAR, the Participant must provide written notice of exercise to the Company in compliance with the provisions of the Stock Appreciation Right Agreement evidencing such SAR. The appreciation distribution payable on the exercise of a SAR will be not greater than an amount equal to the excess of (A) the aggregate Fair Market Value (on the date of the exercise of the SAR) of a number of shares of Common Stock equal to the number of Common Stock equivalents in which the Participant is vested under such SAR, and with respect to which the Participant is exercising the SAR on such date, over (B) the aggregate strike price of the number of Common Stock equivalents with respect to which the Participant is exercising the SAR on such date. The appreciation distribution may be paid in Common Stock, in cash, in any combination of the two or in any other form of consideration, as determined by the Board and contained in the Stock Award Agreement evidencing such SAR.

(e) Transferability of Options and SARs. The Board may, in its sole discretion, impose such limitations on the transferability of Options and SARs as the Board will determine. In the absence of such a determination by the Board to the contrary, the following restrictions on the transferability of Options and SARs will apply:

(i) Restrictions on Transfer. An Option or SAR will not be transferable except by will or by the laws of descent and distribution (or pursuant to subsections (ii) and (iii) below), and will be exercisable during the lifetime of the Participant only by the Participant. The Board may permit transfer of the Option or SAR in a manner that is not prohibited by applicable tax and securities laws. Except as explicitly provided in the Plan, neither an Option nor a SAR may be transferred for consideration.

(ii) Domestic Relations Orders. Subject to the approval of the Board or a duly authorized Officer, an Option or SAR may be transferred pursuant to the terms of a domestic relations order, official marital settlement agreement or other divorce or separation instrument as permitted by Treasury Regulation 1.421-1(b)(2). If an Option is an Incentive Stock Option, such Option may be deemed to be a Nonstatutory Stock Option as a result of such transfer.

(iii) Beneficiary Designation. Subject to the approval of the Board or a duly authorized Officer, a Participant may, by delivering written notice to the Company, in a form approved by the Company (or the designated broker), designate a third party who, upon the death of the Participant, will thereafter be entitled to exercise the Option or SAR and receive the Common Stock or other consideration resulting from such exercise. In the absence of such a designation, upon the death of the Participant, the executor or administrator of the Participant's estate will be entitled to exercise the Option or SAR and receive the Common Stock or other consideration resulting from such exercise. However, the Company may prohibit designation of a beneficiary at any time, including due to any conclusion by the Company that such designation would be inconsistent with the provisions of applicable laws.

(f) Vesting Generally. The total number of shares of Common Stock subject to an Option or SAR may vest and therefore become exercisable in periodic installments that may or may not be equal. The Option or SAR may be subject to such other terms and conditions on the time or times when it may or may not be exercised (which may be based on the satisfaction of performance goals or other criteria) as the Board may deem appropriate. The vesting provisions of individual Options or SARs may vary. The provisions of this Section 5(f) are subject to any Option or SAR provisions governing the minimum number of shares of Common Stock as to which an Option or SAR may be exercised.

(g) Termination of Continuous Service. Except as otherwise provided in the applicable Stock Award Agreement or other agreement between the Participant and the Company, if a Participant's Continuous Service terminates (other than for Cause and other than upon the Participant's death or Disability), the Participant may exercise his or her Option or SAR (to the extent that the Participant was entitled to exercise such Stock Award as of the date of termination of Continuous Service) within the period of time ending on the earlier of (i) the date three months following the termination of the Participant's Continuous Service (or such longer or shorter period specified in the applicable Stock Award Agreement, which period will not be less than 30 days if necessary to comply with applicable laws unless such termination is for Cause) and (ii) the expiration of the term of the Option or SAR as set forth in the Stock Award Agreement. If, after termination of Continuous Service, the Participant does not exercise his or her Option or SAR (as applicable) within the applicable time frame, the Option or SAR will terminate.

(h) Extension of Termination Date. If the exercise of an Option or SAR following the termination of the Participant's Continuous Service (other than for Cause and other than upon the Participant's death or Disability) would be prohibited at any time solely because the issuance of shares of Common Stock would violate the registration requirements under the Securities Act, then the Option or SAR will terminate on the earlier of (i) the expiration of a total period of time (that need not be consecutive) equal to the applicable post-termination exercise period after the termination of the Participant's Continuous Service during which the exercise of the Option or SAR would not be in violation of such registration requirements, and (ii) the expiration of the term of the Option or SAR as set forth in the applicable Stock Award Agreement. In addition, unless otherwise provided in a Participant's Stock Award Agreement, if the sale of any Common Stock received upon exercise of an Option or SAR following the termination of the Participant's Continuous Service (other than for Cause) would violate the Company's insider trading policy, then the Option or SAR will terminate on the earlier of (i) the expiration of the period of time (that need not be consecutive) equal to the applicable post-termination exercise period after the termination of the Participant's Continuous Service during which the sale of the Common Stock received upon exercise of the Option or SAR would not be in violation of the Company's insider trading policy, and (ii) the expiration of the term of the Option or SAR as set forth in the applicable Stock Award Agreement.

(i) Disability of Participant. Except as otherwise provided in the applicable Stock Award Agreement or other agreement between the Participant and the Company, if a Participant's Continuous Service terminates as a result of the Participant's Disability, the Participant may exercise his or her Option or SAR (to the extent that the Participant was entitled to exercise such Option or SAR as of the date of termination of Continuous Service), but only within such period of time ending on the earlier of (i) the date 12 months following such termination of Continuous Service (or such longer or shorter period specified in the Stock Award Agreement, which period will not be less than six months if necessary to comply with applicable laws unless such termination is for Cause), and (ii) the expiration of the term of the Option or SAR as set forth in the Stock Award Agreement. If, after termination of Continuous Service, the Participant does not exercise his or her Option or SAR within the applicable time frame, the Option or SAR (as applicable) will terminate.

(j) Death of Participant. Except as otherwise provided in the applicable Stock Award Agreement or other agreement between the Participant and the Company, if (i) a Participant's Continuous Service terminates as a result of the Participant's death, or (ii) the Participant dies within the period (if any) specified in the Stock Award Agreement for exercisability after the termination of the Participant's Continuous Service (for a reason other than death), then the Option or SAR may be exercised (to the extent the Participant was entitled to exercise such Option or SAR as of the date of death) by the Participant's estate, by a person who acquired the right to exercise the Option or SAR by bequest or inheritance or by a person designated to exercise the Option or SAR upon the Participant's death, but only within the period ending on the earlier of (i) the date 18 months following the date of death (or such longer or shorter period specified in the Stock Award Agreement, which period will not be less than six months if necessary to comply with applicable laws unless such termination is for Cause), and (ii) the expiration of the term of such Option or SAR as set forth in the Stock Award Agreement. If, after the Participant's death, the Option or SAR is not exercised within the applicable time frame, the Option or SAR (as applicable) will terminate.

(k) Termination for Cause. Except as explicitly provided otherwise in a Participant's Stock Award Agreement or other individual written agreement between the Company or any Affiliate and the Participant, if a Participant's Continuous Service is terminated for Cause, the Option or SAR will terminate immediately upon such Participant's termination of Continuous Service, and the Participant will be prohibited from exercising his or her Option or SAR (whether vested or unvested) from and after the date of such termination of Continuous Service.

(l) Non-Exempt Employees. If an Option or SAR is granted to an Employee who is a non-exempt employee for purposes of the Fair Labor Standards Act of 1938, as amended, the Option or SAR will not be first exercisable for any shares of Common Stock until at least six months following the date of grant of the Option or SAR (although the Stock Award may vest prior to such date). Consistent with the provisions of the Worker Economic Opportunity Act, (i) if such non-exempt Employee dies or suffers a Disability, (ii) upon a Corporate Transaction in which such Option or SAR is not assumed, continued, or substituted, (iii) upon a Change in Control, or (iv) upon the Participant's retirement (as such term may be defined in the Participant's Stock Award Agreement, in another agreement between the Participant and the Company, or, if no such definition, in accordance with the Company's then current employment policies and guidelines), the vested portion of any Options and SARs may be exercised earlier than six months following the date of grant. The foregoing provision is intended to operate so that any income derived by a non-exempt employee in connection with the exercise or vesting of an Option or SAR will be exempt from his or her regular rate of pay. To the extent permitted and/or required for compliance with the Worker Economic Opportunity Act to ensure that any income derived by a non-exempt employee in connection with the exercise, vesting or issuance of any shares under any other Stock Award will be exempt from the employee's regular rate of pay, the provisions of this Section 5(l) will apply to all Stock Awards and are hereby incorporated by reference into such Stock Award Agreements.

(m) Early Exercise of Options. An Option may, but need not, include a provision whereby the Optionholder may elect at any time before the Optionholder's Continuous Service terminates to exercise the Option as to any part or all of the shares of Common Stock subject to the Option prior to the full vesting of the Option. Subject to the "Repurchase Limitation" in Section 8(l), any unvested shares of Common Stock so purchased may be subject to a repurchase right in favor of the Company or to any other restriction the Board determines to be appropriate. Provided that the "Repurchase Limitation" in Section 8(l) is not violated, the Company will not be required to exercise its repurchase right until at least six months (or such longer or shorter period of time required to avoid classification of the Option as a liability for financial accounting purposes) have elapsed following exercise of the Option unless the Board otherwise specifically provides in the Option Agreement.

(n) Right of Repurchase. Subject to the "Repurchase Limitation" in Section 8(l), the Option or SAR may include a provision whereby the Company may elect to repurchase all or any part of the vested shares of Common Stock acquired by the Participant pursuant to the exercise of the Option or SAR.

(o) Right of First Refusal. The Option or SAR may include a provision whereby the Company may elect to exercise a right of first refusal following receipt of notice from the Participant of the intent to transfer all or any part of the shares of Common Stock received upon the exercise of the Option or SAR. Such right of first refusal will be subject to the "Repurchase Limitation" in Section 8(l). Except as expressly provided in this Section 5(o) or in the Stock Award Agreement, such right of first refusal will otherwise comply with any applicable provisions of the bylaws of the Company.

6. Provisions of Stock Awards Other than Options and SARs.

(a) Restricted Stock Awards. Each Restricted Stock Award Agreement will be in such form and will contain such terms and conditions as the Board will deem appropriate. To the extent consistent with the Company's bylaws, at the Board's election, shares of Common Stock underlying a Restricted Stock Award may be (i) held in book entry form subject to the Company's instructions until any restrictions relating to the Restricted Stock Award lapse; or (ii) evidenced by a certificate, which certificate will be held in such form and manner as determined by the Board. The terms and conditions of Restricted Stock Award Agreements may change from time to time, and the terms and conditions of separate Restricted Stock Award Agreements need not be identical. Each Restricted Stock Award Agreement will conform to (through incorporation of the provisions hereof by reference in the agreement or otherwise) the substance of each of the following provisions:

(i) Consideration. A Restricted Stock Award may be awarded in consideration for (A) cash, check, bank draft or money order payable to the Company, (B) past services to the Company or an Affiliate, or (C) any other form of legal consideration (including future services) that may be acceptable to the Board, in its sole discretion, and permissible under applicable law.

(ii) Vesting. Subject to the "Repurchase Limitation" in Section 8(l), shares of Common Stock awarded under the Restricted Stock Award Agreement may be subject to forfeiture to the Company in accordance with a vesting schedule to be determined by the Board.

(iii) Termination of Participant's Continuous Service. If a Participant's Continuous Service terminates, the Company may receive through a forfeiture condition or a repurchase right, any or all of the shares of Common Stock held by the Participant that have not vested as of the date of termination of Continuous Service under the terms of the Restricted Stock Award Agreement.

(iv) Transferability. Rights to acquire shares of Common Stock under the Restricted Stock Award Agreement will be transferable by the Participant only upon such terms and conditions as are set forth in the Restricted Stock Award Agreement, as the Board will determine in its sole discretion, so long as Common Stock awarded under the Restricted Stock Award Agreement remains subject to the terms of the Restricted Stock Award Agreement.

(v) Dividends. A Restricted Stock Award Agreement may provide that any dividends paid on Restricted Stock will be subject to the same vesting and forfeiture restrictions as apply to the shares subject to the Restricted Stock Award to which they relate.

(b) Restricted Stock Unit Awards. Each Restricted Stock Unit Award Agreement will be in such form and will contain such terms and conditions as the Board will deem appropriate. The terms and conditions of Restricted Stock Unit Award Agreements may change from time to time, and the terms and conditions of separate Restricted Stock Unit Award Agreements need not be identical. Each Restricted Stock Unit Award Agreement will conform to (through incorporation of the provisions hereof by reference in the Agreement or otherwise) the substance of each of the following provisions:

(i) Consideration. At the time of grant of a Restricted Stock Unit Award, the Board will determine the consideration, if any, to be paid by the Participant upon delivery of each share of Common Stock subject to the Restricted Stock Unit Award. The consideration to be paid (if any) by the Participant for each share of Common Stock subject to a Restricted Stock Unit Award may be paid in any form of legal consideration that may be acceptable to the Board, in its sole discretion, and permissible under applicable law.

(ii) Vesting. At the time of the grant of a Restricted Stock Unit Award, the Board may impose such restrictions on or conditions to the vesting of the Restricted Stock Unit Award as it, in its sole discretion, deems appropriate.

(iii) Payment. A Restricted Stock Unit Award may be settled by the delivery of shares of Common Stock, their cash equivalent, any combination thereof or in any other form of consideration, as determined by the Board and contained in the Restricted Stock Unit Award Agreement.

(iv) Additional Restrictions. At the time of the grant of a Restricted Stock Unit Award, the Board, as it deems appropriate, may impose such restrictions or conditions that delay the delivery of the shares of Common Stock (or their cash equivalent) subject to a Restricted Stock Unit Award to a time after the vesting of such Restricted Stock Unit Award.

(v) Dividend Equivalents. Dividend equivalents may be credited in respect of shares of Common Stock covered by a Restricted Stock Unit Award, as determined by the Board and contained in the Restricted Stock Unit Award Agreement. At the sole discretion of the Board, such dividend equivalents may be converted into additional shares of Common Stock covered by the Restricted Stock Unit Award in such manner as determined by the Board. Any additional shares covered by the Restricted Stock Unit Award credited by reason of such dividend equivalents will be subject to all of the same terms and conditions of the underlying Restricted Stock Unit Award Agreement to which they relate.

(vi) Termination of Participant's Continuous Service. Except as otherwise provided in the applicable Restricted Stock Unit Award Agreement, such portion of the Restricted Stock Unit Award that has not vested will be forfeited upon the Participant's termination of Continuous Service.

(vii) Compliance with Section 409A of the Code. Notwithstanding anything to the contrary set forth herein, any Restricted Stock Unit Award granted under the Plan that is not exempt from the requirements of Section 409A of the Code will contain such provisions so that such Restricted Stock Unit Award will comply with the requirements of Section 409A of the Code. Such restrictions, if any, will be determined by the Board and contained in the Restricted Stock Unit Award Agreement evidencing such Restricted Stock Unit Award. For example, such restrictions may include, without limitation, a requirement that any Common Stock that is to be issued in a year following the year in which the Restricted Stock Unit Award vests must be issued in accordance with a fixed pre-determined schedule.

(c) Other Stock Awards. Other forms of Stock Awards valued in whole or in part by reference to, or otherwise based on, Common Stock, including the appreciation in value thereof (e.g., options or stock rights with an exercise price or strike price less than 100% of the Fair Market Value of the Common Stock at the time of grant) may be granted either alone or in addition to Stock Awards provided for under Section 5 and the preceding provisions of this Section 6. Subject to the provisions of the Plan, the Board will have sole and complete authority to determine the persons to whom and the time or times at which such Other Stock Awards will be granted, the number of shares of Common Stock (or the cash equivalent thereof) to be granted pursuant to such Other Stock Awards and all other terms and conditions of such Other Stock Awards.

7. Covenants of the Company.

(a) Availability of Shares. The Company will keep available at all times the number of shares of Common Stock reasonably required to satisfy then-outstanding Stock Awards.

(b) Securities Law Compliance. The Company will seek to obtain from each regulatory commission or agency having jurisdiction over the Plan such authority as may be required to grant Stock Awards and to issue and sell shares of Common Stock upon exercise of the Stock Awards; *provided, however,* that this undertaking will not require the Company to register under the Securities Act the Plan, any Stock Award or any Common Stock issued or issuable pursuant to any such Stock Award. If, after reasonable efforts and at a reasonable cost, the Company is unable to obtain from any such regulatory commission or agency the authority that counsel for the Company deems necessary for the lawful issuance and sale of Common Stock under the Plan, the Company will be relieved from any liability for failure to issue and sell Common Stock upon exercise of such Stock Awards unless and until such authority is obtained. A Participant will not be eligible for the grant of a Stock Award or the subsequent issuance of cash or Common Stock pursuant to the Stock Award if such grant or issuance would be in violation of any applicable securities law.

(c) No Obligation to Notify or Minimize Taxes. The Company will have no duty or obligation to any Participant to advise such holder as to the time or manner of exercising such Stock Award. Furthermore, the Company will have no duty or obligation to warn or otherwise advise such holder of a pending termination or expiration of a Stock Award or a possible period in which the Stock Award may not be exercised. The Company has no duty or obligation to minimize the tax consequences of a Stock Award to the holder of such Stock Award.

8. Miscellaneous.

(a) Use of Proceeds from Sales of Common Stock. Proceeds from the sale of shares of Common Stock pursuant to Stock Awards will constitute general funds of the Company.

(b) Corporate Action Constituting Grant of Stock Awards. Corporate action constituting a grant by the Company of a Stock Award to any Participant will be deemed completed as of the date of such corporate action, unless otherwise determined by the Board, regardless of when the instrument, certificate, or letter evidencing the Stock Award is communicated to, or actually received or accepted by, the Participant. In the event that the corporate records (e.g., Board consents, resolutions or minutes) documenting the corporate action constituting the grant contain terms (e.g., exercise price, vesting schedule or number of shares) that are inconsistent with those in the Stock Award Agreement or related grant documents as a result of a clerical error in the papering of the Stock Award Agreement or related grant documents, the corporate records will control and the Participant will have no legally binding right to the incorrect term in the Stock Award Agreement or related grant documents.

(c) Stockholder Rights. No Participant will be deemed to be the holder of, or to have any of the rights of a holder with respect to, any shares of Common Stock subject to a Stock Award unless and until (i) such Participant has satisfied all requirements for exercise of, or the issuance of shares of Common Stock under, the Stock Award pursuant to its terms, and (ii) the issuance of the Common Stock subject to the Stock Award has been entered into the books and records of the Company.

(d) No Employment or Other Service Rights. Nothing in the Plan, any Stock Award Agreement or any other instrument executed thereunder or in connection with any Stock Award granted pursuant thereto will confer upon any Participant any right to continue to serve the Company or an Affiliate in the capacity in effect at the time the Stock Award was granted or will affect the right of the Company or an Affiliate to terminate (i) the employment of an Employee with or without notice and with or without cause, (ii) the service of a Consultant pursuant to the terms of such Consultant's agreement with the Company or an Affiliate, or (iii) the service of a Director pursuant to the bylaws of the Company or an Affiliate, and any applicable provisions of the corporate law of the state in which the Company or the Affiliate is incorporated, as the case may be.

(e) Change in Time Commitment. In the event a Participant's regular level of time commitment in the performance of his or her services for the Company and any Affiliates is reduced (for example, and without limitation, if the Participant is an Employee of the Company and the Employee has a change in status from a full-time Employee to a part-time Employee or takes an extended leave of absence) after the date of grant of any Stock Award to the Participant, the Board has the right in its sole discretion to (x) make a corresponding reduction in the number of shares subject to any portion of such Stock Award that is scheduled to vest or become payable after the date of such change in time commitment, and (y) in lieu of or in combination with such a reduction, extend the vesting or payment schedule applicable to such Stock Award. In the event of any such reduction, the Participant will have no right with respect to any portion of the Stock Award that is so reduced or extended.

(f) Incentive Stock Option Limitations. To the extent that the aggregate Fair Market Value (determined at the time of grant) of Common Stock with respect to which Incentive Stock Options are exercisable for the first time by any Optionholder during any calendar year (under all plans of the Company and any Affiliates) exceeds $100,000 (or such other limit established in the Code) or otherwise does not comply with the rules governing Incentive Stock Options, the Options or portions thereof that exceed such limit (according to the order in which they were granted) or otherwise do not comply with such rules will be treated as Nonstatutory Stock Options, notwithstanding any contrary provision of the applicable Option Agreement(s).

(g) Investment Assurances. The Company may require a Participant, as a condition of exercising or acquiring Common Stock under any Stock Award, (i) to give written assurances satisfactory to the Company as to the Participant's knowledge and experience in financial and business matters and/or to employ a purchaser representative reasonably satisfactory to the Company who is knowledgeable and experienced in financial and business matters and that the Participant is capable of evaluating, alone or together with the purchaser representative, the merits and risks of exercising the Stock Award; and (ii) to give written assurances satisfactory to the Company stating that the Participant is acquiring Common Stock subject to the Stock Award for the Participant's own account and not with any present intention of selling or otherwise distributing the Common Stock. The foregoing requirements, and any assurances given pursuant to such requirements, will be inoperative if (A) the issuance of the shares upon the exercise or acquisition of Common Stock under the Stock Award has been registered under a then currently effective registration statement under the Securities Act, or (B) as to any particular requirement, a determination is made by counsel for the Company that such requirement need not be met in the circumstances under the then applicable securities laws. The Company may, upon advice of counsel to the Company, place legends on stock certificates issued under the Plan as such counsel deems necessary or appropriate in order to comply with applicable securities laws, including, but not limited to, legends restricting the transfer of the Common Stock.

(h) Withholding Obligations. Unless prohibited by the terms of a Stock Award Agreement, the Company may, in its sole discretion, satisfy any federal, state or local tax withholding obligation relating to a Stock Award by any of the following means or by a combination of such means: (i) causing the Participant to tender a cash payment; (ii) withholding shares of Common Stock from the shares of Common Stock issued or otherwise issuable to the Participant in connection with the Stock Award; *provided, however*, that no shares of Common Stock are withheld with a value exceeding the maximum amount of tax required to be withheld by law (or such lesser amount as may be necessary to avoid classification of the Stock Award as a liability for financial accounting purposes); (iii) withholding cash from a Stock Award settled in cash; (iv) withholding payment from any amounts otherwise payable to the Participant; or (v) by such other method as may be set forth in the Stock Award Agreement.

(i) Electronic Delivery. Any reference herein to a "written" agreement or document will include any agreement or document delivered electronically or posted on the Company's intranet (or other shared electronic medium controlled by the Company to which the Participant has access).

(j) Deferrals. To the extent permitted by applicable law, the Board, in its sole discretion, may determine that the delivery of Common Stock or the payment of cash, upon the exercise, vesting or settlement of all or a portion of any Stock Award may be deferred and may establish programs and procedures for deferral elections to be made by Participants. Deferrals by Participants will be made in accordance with Section 409A of the Code. Consistent with Section 409A of the Code, the Board may provide for distributions while a Participant is still an employee or otherwise providing services to the Company. The Board is authorized to make deferrals of Stock Awards and determine when, and in what annual percentages, Participants may receive payments, including lump sum payments, following the Participant's termination of Continuous Service, and implement such other terms and conditions consistent with the provisions of the Plan and in accordance with applicable law.

(k) Compliance with Section 409A of the Code. To the extent that the Board determines that any Stock Award granted hereunder is subject to Section 409A of the Code, the Stock Award Agreement evidencing such Stock Award will incorporate the terms and conditions necessary to avoid the consequences specified in Section 409A(a)(1) of the Code. To the extent applicable, the Plan and Stock Award Agreements will be interpreted in accordance with Section 409A of the Code. Notwithstanding anything to the contrary in the Plan (and unless the Stock Award Agreement specifically provides otherwise), if the shares of Common Stock are publicly traded, and if a Participant holding a Stock Award that constitutes "deferred compensation" under Section 409A of the Code is a "specified employee" for purposes of Section 409A of the Code, no distribution or payment of any amount that is due because of a "separation from service" (as defined in Section 409A of the Code without regard to alternative definitions thereunder) will be issued or paid before the date that is six months following the date of such Participant's "separation from service" (as defined in Section 409A of the Code without regard to alternative definitions thereunder) or, if earlier, the date of the Participant's death, unless such distribution or payment can be made in a manner that complies with Section 409A of the Code, and any amounts so deferred will be paid in a lump sum on the day after such six month period elapses, with the balance paid thereafter on the original schedule.

(l) Repurchase Limitation. The terms of any repurchase right will be specified in the Stock Award Agreement. The repurchase price for vested shares of Common Stock will be the Fair Market Value of the shares of Common Stock on the date of repurchase. The repurchase price for unvested shares of Common Stock will be the lower of (i) the Fair Market Value of the shares of Common Stock on the date of repurchase or (ii) their original purchase price. However, the Company will not exercise its repurchase right until at least six months (or such longer or shorter period of time necessary to avoid classification of the Stock Award as a liability for financial accounting purposes) have elapsed following delivery of shares of Common Stock subject to the Stock Award, unless otherwise specifically provided by the Board.

(m) Further Information and Action. Upon request from the Company at any time, any Participant (and any individuals affiliated with a Participant that are beneficial owners of the Company, if applicable) will promptly provide the Company with such information and take such other actions as the Company may request in connection with any obligations the Company may have under applicable law, rule, or regulation, or to comply with requests by applicable regulatory authorities. All information provided by a Participant (or an individual affiliated with a Participant) pursuant to this paragraph shall be accurate and complete. Any Participant (and any individuals affiliated with a Participant that are beneficial owners of the Company, if applicable) will submit to the Company (or other recipient as directed by the Company) any updates to such information within 15 days after any change in, or correction to, any such information. For purposes of this paragraph, the term "beneficial owner" shall have the meaning ascribed to it in the Bank Secrecy Act as amended by the Corporate Transparency Act and any regulations promulgated thereunder (as amended from time to time).

9. Adjustments upon Changes in Common Stock; Other Corporate Events.

(a) Capitalization Adjustments. In the event of a Capitalization Adjustment, then: (i) the class(es) and maximum number of securities subject to the Plan pursuant to Section 3(a), (ii) the class(es) and maximum number of securities that may be issued pursuant to the exercise of Incentive Stock Options pursuant to Section 3(c), and (iii) the class(es) and number of securities and price per share of stock subject to outstanding Stock Awards will be proportionately adjusted and such adjustment shall occur automatically. To the extent such adjustments cannot occur automatically, the Board shall have the power to make determinations as it deems necessary and its determinations and any adjustments under this section will be final, binding and conclusive.

(b) Dissolution or Liquidation. Except as otherwise provided in the Stock Award Agreement, in the event of a dissolution or liquidation of the Company, all outstanding Stock Awards (other than Stock Awards consisting of vested and outstanding shares of Common Stock not subject to a forfeiture condition or the Company's right of repurchase) will terminate immediately prior to the completion of such dissolution or liquidation, and the shares of Common Stock subject to the Company's repurchase rights or subject to a forfeiture condition may be repurchased or reacquired by the Company notwithstanding the fact that the holder of such Stock Award is providing Continuous Service, *provided, however,* that the Board may, in its sole discretion, cause some or all Stock Awards to become fully vested, exercisable and/or no longer subject to repurchase or forfeiture (to the extent such Stock Awards have not previously expired or terminated) before the dissolution or liquidation is completed but contingent on its completion.

(c) Corporate Transaction. The following provisions will apply to Stock Awards in the event of a Corporate Transaction unless otherwise provided in the instrument evidencing the Stock Award or any other written agreement between the Company or any Affiliate and the Participant or unless otherwise expressly provided by the Board at the time of grant of a Stock Award. In the event of a Corporate Transaction, then, notwithstanding any other provision of the Plan, the Board may take one or more of the following actions with respect to Stock Awards, contingent upon the closing or completion of the Corporate Transaction:

(i) arrange for the surviving corporation or acquiring corporation (or the surviving or acquiring corporation's parent company) to assume or continue the Stock Award or to substitute a similar stock award for the Stock Award (including, but not limited to, an award to acquire the same consideration paid to the stockholders of the Company pursuant to the Corporate Transaction);

(ii) arrange for the assignment of any reacquisition or repurchase rights held by the Company in respect of Common Stock issued pursuant to the Stock Award to the surviving corporation or acquiring corporation (or the surviving or acquiring corporation's parent company);

(iii) accelerate the vesting, in whole or in part, of the Stock Award (and, if applicable, the time at which the Stock Award may be exercised) to a date prior to the effective time of such Corporate Transaction as the Board determines (or, if the Board does not determine such a date, to the date that is five days prior to the effective date of the Corporate Transaction), with such Stock Award terminating if not exercised (if applicable) at or prior to the effective time of the Corporate Transaction; *provided, however*, that the Board may require Participants to complete and deliver to the Company a notice of exercise before the effective date of a Corporate Transaction, which exercise is contingent upon the effectiveness of such Corporate Transaction;

(iv) arrange for the lapse, in whole or in part, of any reacquisition or repurchase rights held by the Company with respect to the Stock Award;

(v) cancel or arrange for the cancellation of the Stock Award, to the extent not vested or not exercised prior to the effective time of the Corporate Transaction, in exchange for such cash consideration (including no consideration) as the Board, in its sole discretion, may consider appropriate; and

(vi) make a payment, in such form as may be determined by the Board equal to the excess, if any, of (A) the value of the property the Participant would have received upon the exercise of the Stock Award immediately prior to the effective time of the Corporate Transaction, over (B) any exercise price payable by such holder in connection with such exercise. For clarity, this payment may be zero ($0) if the value of the property is equal to or less than the exercise price. Payments under this provision may be delayed to the same extent that payment of consideration to the holders of the Company's Common Stock in connection with the Corporate Transaction is delayed as a result of escrows, earn outs, holdbacks or any other contingencies.

The Board need not take the same action or actions with respect to all Stock Awards or portions thereof or with respect to all Participants. The Board may take different actions with respect to the vested and unvested portions of a Stock Award.

(d) Change in Control. A Stock Award may be subject to additional acceleration of vesting and exercisability upon or after a Change in Control as may be provided in the Stock Award Agreement for such Stock Award or as may be provided in any other written agreement between the Company or any Affiliate and the Participant, but in the absence of such provision, no such acceleration will occur.

10. Plan Term; Earlier Termination or Suspension of the Plan.

(a) Plan Term. The Board may suspend or terminate the Plan at any time. Unless terminated sooner by the Board, the Plan will automatically terminate on the day before the 10th anniversary of the earlier of (i) the date the Plan is adopted by the Board, or (ii) the date the Plan is approved by the stockholders of the Company. No Stock Awards may be granted under the Plan while the Plan is suspended or after it is terminated.

(b) No Impairment of Rights. Suspension or termination of the Plan will not impair rights and obligations under any Stock Award granted while the Plan is in effect except with the written consent of the affected Participant or as otherwise permitted in the Plan.

11. Effective Date of Plan.

This Plan will become effective on the Effective Date.

12. Choice of Law.

The laws of the State of Delaware will govern all questions concerning the construction, validity and interpretation of this Plan, without regard to that state's conflict of laws rules.

13. Definitions. As used in the Plan or any Stock Award Agreement, the following definitions will apply to the capitalized terms indicated below, unless otherwise defined in the applicable Stock Award Agreement:

(a) "***Affiliate***" means, at the time of determination, any "parent" or "majority-owned subsidiary" of the Company, as such terms are defined in Rule 405. The Board will have the authority to determine the time or times at which "parent" or "majority-owned subsidiary" status is determined within the foregoing definition.

(b) "***Board***" means the Board of Directors of the Company.

(c) "***Capitalization Adjustment***" means any change that is made in, or other events that occur with respect to, the Common Stock subject to the Plan or subject to any Stock Award after the Effective Date without the receipt of consideration by the Company through merger, consolidation, reorganization, recapitalization, reincorporation, stock dividend, dividend in property other than cash, large nonrecurring cash dividend, stock split, reverse stock split, liquidating dividend, combination of shares, exchange of shares, change in corporate structure, or any similar equity restructuring transaction, as that term is used in Statement of Financial Accounting Standards Board Accounting Standards Codification Topic 718 (or any successor thereto). Notwithstanding the foregoing, the conversion of any convertible securities of the Company will not be treated as a Capitalization Adjustment.

(d) "***Cause***" will have the meaning ascribed to such term in any written agreement between the Participant and the Company defining such term and, in the absence of such agreement, such term means, with respect to a Participant, the occurrence of any of the following events: (i) such Participant's commission of any felony or any crime involving fraud, dishonesty or moral turpitude under the laws of the United States or any state thereof; (ii) such Participant's attempted commission of, or participation in, a fraud or act of dishonesty against the Company, or any of its employees or directors; (iii) such Participant's intentional, material violation of any contract or agreement between the Participant and the Company, the Company's employment policies, or of any statutory or other duty owed to the Company; (iv) such Participant's unauthorized use or disclosure of the Company's confidential information or trade secrets; or (v) such Participant's gross misconduct. The determination that a termination of the Participant's Continuous Service is either for Cause or without Cause will be made by the Company, in its sole discretion. Any determination by the Company that the Continuous Service of a Participant was terminated with or without Cause for the purposes of outstanding Stock Awards held by such Participant will have no effect upon any determination of the rights or obligations of the Company or such Participant for any other purpose.

(e) "***Change in Control***" means the occurrence, in a single transaction or in a series of related transactions, of any one or more of the following events:

(i) any Exchange Act Person becomes the Owner, directly or indirectly, of securities of the Company representing more than 50% of the combined voting power of the Company's then outstanding securities other than by virtue of a merger, consolidation or similar transaction. Notwithstanding the foregoing, a Change in Control will not be deemed to occur (A) on account of the acquisition of securities of the Company directly from the Company, (B) on account of the acquisition of securities of the Company by an investor, any affiliate thereof or any other Exchange Act Person that acquires the Company's securities in a transaction or series of related transactions the primary purpose of which is to obtain financing for the Company through the issuance of equity securities or (C) solely because the level of Ownership held by any Exchange Act Person (the "***Subject Person***") exceeds the designated percentage threshold of the outstanding voting securities as a result of a repurchase or other acquisition of voting securities by the Company reducing the number of shares outstanding, provided that if a Change in Control would occur (but for the operation of this sentence) as a result of the acquisition of voting securities by the Company, and after such share acquisition, the Subject Person becomes the Owner of any additional voting securities that, assuming the repurchase or other acquisition had not occurred, increases the percentage of the then outstanding voting securities Owned by the Subject Person over the designated percentage threshold, then a Change in Control will be deemed to occur;

(ii) there is consummated a merger, consolidation or similar transaction involving (directly or indirectly) the Company and, immediately after the consummation of such merger, consolidation or similar transaction, the stockholders of the Company immediately prior thereto do not Own, directly or indirectly, either (A) outstanding voting securities representing more than 50% of the combined outstanding voting power of the surviving Entity in such merger, consolidation or similar transaction or (B) more than 50% of the combined outstanding voting power of the parent of the surviving Entity in such merger, consolidation or similar transaction, in each case in substantially the same proportions as their Ownership of the outstanding voting securities of the Company immediately prior to such transaction; or

(iii) there is consummated a sale, lease, exclusive license or other disposition of all or substantially all of the consolidated assets of the Company and its Subsidiaries, other than a sale, lease, license or other disposition of all or substantially all of the consolidated assets of the Company and its Subsidiaries to an Entity, more than 50% of the combined voting power of the voting securities of which are Owned by stockholders of the Company in substantially the same proportions as their Ownership of the outstanding voting securities of the Company immediately prior to such sale, lease, license or other disposition.

Notwithstanding the foregoing definition or any other provision of this Plan, (A) the term Change in Control will not include a sale of assets, merger or other transaction effected exclusively for the purpose of changing the domicile of the Company, (B) the definition of Change in Control (or any analogous term) in an individual written agreement between the Company or any Affiliate and the Participant will supersede the foregoing definition with respect to Stock Awards subject to such agreement; *provided, however*, that if no definition of Change in Control or any analogous term is set forth in such an individual written agreement, the definition set forth herein will apply, and (C) if at any time the Company's Certificate of Incorporation provides definitions of various analogous transactions that would be deemed a liquidation event for the Company, then such definition will apply as if it were the definition set forth herein except as is otherwise expressly provided in an individual written agreement between the Company or any Affiliate and the Participant.

(f) "***Code***" means the Internal Revenue Code of 1986, as amended, including any applicable regulations and guidance thereunder.

(g) "***Committee***" means a committee of one or more Directors to whom authority has been delegated by the Board in accordance with Section 2(c).

(h) "***Common Stock***" means the common stock of the Company.

(i) "***Company***" means Ambros Therapeutics, Inc., a Delaware corporation.

(j) "***Consultant***" means any person, including an advisor, who is (i) engaged by the Company or an Affiliate to render consulting or advisory services (whether directly or indirectly, including without limitation through an engagement with a professional employer organization, employer of record or similar arrangement, and is deemed pursuant to such arrangement to be a consultant or advisor of the Company or an Affiliate under applicable laws) and is compensated for such services, or (ii) serving as a member of the board of directors of an Affiliate and is compensated for such services. However, service solely as a Director, or payment of a fee for such service, will not cause a Director to be considered a "Consultant" for purposes of the Plan.

(k) "***Continuous Service***" means that the Participant's service with the Company or an Affiliate, whether as an Employee, Director or Consultant, is not interrupted or terminated. A change in the capacity in which the Participant renders service to the Company or an Affiliate as an Employee, Director or Consultant or a change in the Entity for which the Participant renders such service, provided that there is no interruption or termination of the Participant's service with the Company or an Affiliate, will not terminate a Participant's Continuous Service; *provided, however*, that if the Entity for which a Participant is rendering services ceases to qualify as an Affiliate, as determined by the Board in its sole discretion, such Participant's Continuous Service will be considered to have terminated on the date such Entity ceases to qualify as an Affiliate. For example, a change in status from an Employee of the Company to a Consultant of an Affiliate or to a Director will not constitute an interruption of Continuous Service. To the extent permitted by law, the Board or the chief executive officer of the Company, in that party's sole discretion, may determine whether Continuous Service will be considered interrupted in the case of (i) any leave of absence approved by the Board or chief executive officer, including sick leave, military leave or any other personal leave, or (ii) transfers between the Company, an Affiliate, or their successors. Notwithstanding the foregoing, a leave of absence will be treated as Continuous Service for purposes of vesting in a Stock Award only to such extent as may be provided in the Company's leave of absence policy, in the written terms of any leave of absence agreement or policy applicable to the Participant, or as otherwise required by law.

(l) "***Corporate Transaction***" means the consummation, in a single transaction or in a series of related transactions, of any one or more of the following events:

(m) "***Director***" means a member of the Board.

(n) "***Disability***" means, with respect to a Participant, the inability of such Participant to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment that can be expected to result in death or that has lasted or can be expected to last for a continuous period of not less than twelve (12) months as provided in Sections 22(e)(3) and 409A(a)(2)(c)(i) of the Code, and will be determined by the Board on the basis of such medical evidence as the Board deems warranted under the circumstances.

Unless otherwise set forth in the applicable written agreement, should the Company remedy the condition as set forth above and then such condition arises again, such Participant may assert Good Reason again subject to all of the conditions set forth herein. Unless otherwise set forth in the applicable written agreement, the term "Company" for purposes of "Good Reason" will be interpreted to include any Affiliate of the Company to which such Participant provides services, if appropriate, as determined by the Board in its sole discretion.

OPTION AGREEMENT

AMBROS THERAPEUTICS, INC.

2024 Equity Incentive Plan

OPTION AGREEMENT
(INCENTIVE STOCK OPTION OR NONSTATUTORY STOCK OPTION)

Pursuant to your Stock Option Grant Notice ("***Grant Notice***") and this Option Agreement, **Ambros Therapeutics, Inc.** (the "***Company***") has granted you an option under its 2024 Equity Incentive Plan (the "***Plan***") to purchase the number of shares of the Company's Common Stock indicated in your Grant Notice at the exercise price indicated in your Grant Notice. The option is granted to you effective as of the date of grant set forth in the Grant Notice (the "***Date of Grant***"). If there is any conflict between the terms in this Option Agreement and the Plan, the terms of the Plan will control. Capitalized terms not explicitly defined in this Option Agreement or in the Grant Notice but defined in the Plan will have the same definitions as in the Plan.

The details of your option, in addition to those set forth in the Grant Notice and the Plan, are as follows:

1. **Vesting**. Your option will vest as provided in your Grant Notice. Vesting will cease upon the termination of your Continuous Service.

2. **Number of Shares and Exercise Price**. The number of shares of Common Stock subject to your option and your exercise price per share in your Grant Notice will be adjusted for Capitalization Adjustments.

3. **Exercise Restriction for Non-Exempt Employees**. If you are an Employee eligible for overtime compensation under the Fair Labor Standards Act of 1938, as amended (that is, a "***Non-Exempt Employee***"), and except as otherwise provided in the Plan, you may not exercise your option until you have completed at least six months of Continuous Service measured from the Date of Grant, even if you have already been an employee for more than six months. Consistent with the provisions of the Worker Economic Opportunity Act, you may exercise your option as to any vested portion prior to such six month anniversary in the case of (i) your death or disability, (ii) a Corporate Transaction in which your option is not assumed, continued or substituted, (iii) a Change in Control or (iv) your termination of Continuous Service on your "retirement" (as defined in the Company's benefit plans).

4. **Exercise prior to Vesting ("Early Exercise")**. If permitted in your Grant Notice (*i.e.*, the "Exercise Schedule" indicates "Early Exercise Permitted") and subject to the provisions of your option, you may elect at any time that is both (i) during the period of your Continuous Service and (ii) during the term of your option, to exercise all or part of your option, including the unvested portion of your option; *provided, however,* that:

(a) a partial exercise of your option will be deemed to cover first vested shares of Common Stock and then the earliest vesting installment of unvested shares of Common Stock;

(b) any shares of Common Stock so purchased from installments that have not vested as of the date of exercise will be subject to the purchase option in favor of the Company as described in the Company's form of Early Exercise Stock Purchase Agreement;

(c) you will enter into the Company's form of Early Exercise Stock Purchase Agreement with a vesting schedule that will result in the same vesting as if no early exercise had occurred; and

(d) if your option is an Incentive Stock Option, then, to the extent that the aggregate Fair Market Value (determined at the Date of Grant) of the shares of Common Stock with respect to which your option plus all other Incentive Stock Options you hold are exercisable for the first time by you during any calendar year (under all plans of the Company and its Affiliates) exceeds $100,000, your option(s) or portions thereof that exceed such limit (according to the order in which they were granted) will be treated as Nonstatutory Stock Options.

5. Method of Payment. You must pay the full amount of the exercise price for the shares you wish to exercise. The permitted methods of payment are as follows:

(a) by cash, check, bank draft, electronic funds transfer or money order payable to the Company;

(b) subject to Company and/or Board consent at the time of exercise and provided that at the time of exercise the Common Stock is publicly traded, pursuant to a program developed under Regulation T as promulgated by the Federal Reserve Board that, prior to the issuance of Common Stock, results in either the receipt of cash (or check) by the Company or the receipt of irrevocable instructions to pay the aggregate exercise price to the Company from the sales proceeds. This manner of payment is also known as a "broker-assisted exercise", "same day sale", or "sell to cover";

(c) subject to Company and/or Board consent at the time of exercise and provided that at the time of exercise the Common Stock is publicly traded, by delivery to the Company (either by actual delivery or attestation) of already-owned shares of Common Stock that are owned free and clear of any liens, claims, encumbrances or security interests, and that are valued at Fair Market Value on the date of exercise. "Delivery" for these purposes, in the sole discretion of the Company at the time you exercise your option, will include delivery to the Company of your attestation of ownership of such shares of Common Stock in a form approved by the Company. You may not exercise your option by delivery to the Company of Common Stock if doing so would violate the provisions of any law, regulation or agreement restricting the redemption of the Company's stock;

(d) subject to Company and/or Board consent at the time of exercise, and provided that the Option is a Nonstatutory Stock Option, by a "net exercise" arrangement pursuant to which the Company will reduce the number of shares of Common Stock issued upon exercise of the Option by the largest whole number of shares with a Fair Market Value that does not exceed the aggregate exercise price plus, to the extent permitted by the Company and/or Board at the time of exercise, the aggregate withholding obligations in respect of the Option exercise; provided, further that you must pay any remaining balance of the aggregate exercise price not satisfied by the "net exercise" in cash or other permitted form of payment. Shares of Common Stock will no longer be subject to the Option and will not be exercisable thereafter to the extent that (A) shares issuable upon exercise are used to pay the exercise price pursuant to the "net exercise," (B) shares are delivered to you as a result of such exercise, and (C) shares are withheld to satisfy tax withholding obligations;

(e) subject to the consent of the Company and/or Board at the time of exercise, according to a deferred payment or similar arrangement with you; *provided, however*, that interest will compound at least annually and will be charged at the minimum rate of interest necessary to avoid (A) the imputation of interest income to the Company and compensation income to the Optionholder under any applicable provisions of the Code, and (B) the classification of the Option as a liability for financial accounting purposes; or

(f) in any other form of legal consideration that may be acceptable to the Board.

6. Whole Shares. You may exercise your option only for whole shares of Common Stock.

7. Securities Law Compliance. In no event may you exercise your option unless the sale of shares of Common Stock upon exercise is then registered under the Securities Act or, if not registered, the Company has determined that your exercise and the issuance of the shares would be exempt from the registration requirements of the Securities Act. The exercise of your option also must comply with all other applicable laws and regulations governing your option, and you may not exercise your option if the Company determines that such exercise would not be in material compliance with such laws and regulations (including any restrictions on exercise required for compliance with Treas. Reg. 1.401(k)-1(d)(3), if applicable).

8. Term. You may not exercise your option before the Date of Grant or after the expiration of the option's term. Except as set forth in your Grant Notice, the term of your option expires, subject to the provisions of Section 5(h) of the Plan, upon the earliest of the following:

(a) immediately upon the termination of your Continuous Service for Cause;

(b) three months after the termination of your Continuous Service for any reason other than Cause, your Disability or your death (except as otherwise provided in Section 8(d) below); *provided, however,* that if during any part of such three month period your option is not exercisable solely because of the condition set forth in the section above relating to "Securities Law Compliance," your option will not expire until the earlier of the Expiration Date or until it has been exercisable for an aggregate period of three months after the termination of your Continuous Service; *provided further,* that if (i) you are a Non-Exempt Employee, (ii) your Continuous Service terminates within six months after the Date of Grant, and (iii) you have vested in a portion of your option at the time of your termination of Continuous Service, your option will not expire until the earlier of (x) the later of (A) the date that is seven months after the Date of Grant, and (B) the date that is three months after the termination of your Continuous Service, and (y) the Expiration Date;

(c) 12 months after the termination of your Continuous Service due to your Disability (except as otherwise provided in Section 8(d) below);

(d) 18 months after your death if you die either during your Continuous Service or within three (3) months after your Continuous Service terminates for any reason other than Cause;

(e) the Expiration Date indicated in your Grant Notice; or

(f) the day before the 10th anniversary of the Date of Grant.

If your option is an Incentive Stock Option, note that to obtain the federal income tax advantages associated with an Incentive Stock Option, the Code requires that at all times beginning on the Date of Grant and ending on the day three months before the date of your option's exercise, you must be an employee of the Company or an Affiliate, except in the event of your death or Disability. The Company has provided for extended exercisability of your option under certain circumstances for your benefit but cannot guarantee that your option will necessarily be treated as an Incentive Stock Option if you continue to provide services to the Company or an Affiliate as a Consultant or Director after your employment terminates or if you otherwise exercise your option more than three months after the date your employment with the Company or an Affiliate terminates.

9. Exercise.

(a) You may exercise the vested portion of your option (and the unvested portion of your option if your Grant Notice so permits) during its term by delivering a Notice of Exercise (in a form designated by the Company) together with the exercise price to the Secretary of the Company, or to such other person as the Company may designate, during regular business hours. If required by the Company, your exercise may be made contingent on your execution of any additional documents specified by the Company as more fully set forth in Section 15 below.

(b) By exercising your option you agree that, as a condition to any exercise of your option, the Company may require you to enter into an arrangement providing for the payment by you to the Company of any tax withholding obligation of the Company arising by reason of (i) the exercise of your option, (ii) the lapse of any substantial risk of forfeiture to which the shares of Common Stock are subject at the time of exercise, or (iii) the disposition of shares of Common Stock acquired upon such exercise.

(c) If your option is an Incentive Stock Option, by exercising your option you agree that you will notify the Company in writing within 15 days after the date of any disposition of any of the shares of the Common Stock issued upon exercise of your option that occurs within two years after the Date of Grant or within one year after such shares of Common Stock are transferred upon exercise of your option.

(d) By exercising your option you agree that you will not sell, dispose of, transfer, make any short sale of, grant any option for the purchase of, or enter into any hedging or similar transaction with the same economic effect as a sale with respect to any shares of Common Stock or other securities of the Company held by you, for a period of 180 days following the effective date of a registration statement of the Company filed under the Securities Act or such longer period as the underwriters or the Company will request to facilitate compliance with applicable FINRA rules (the "***Lock-Up Period***"); *provided, however*, that nothing contained in this section will prevent the exercise of a repurchase option, if any, in favor of the Company during the Lock-Up Period. You further agree to execute and deliver such other agreements as may be reasonably requested by the Company or the underwriters that are consistent with the foregoing or that are necessary to give further effect thereto. In order to enforce the foregoing covenant, the Company may impose stop-transfer instructions with respect to your shares of Common Stock until the end of such period. You also agree that any transferee of any shares of Common Stock (or other securities) of the Company held by you will be bound by this Section 9(d). The underwriters of the Company's stock are intended third party beneficiaries of this Section 9(d) and will have the right, power and authority to enforce the provisions hereof as though they were a party hereto. You further agree that the obligations contained in this Section 9(d) shall also, if so determined by the Company's Board of Directors, apply in (1) the Company's initial listing of its Common Stock on a national securities exchange by means of a registration statement on Form S-1 under the Securities Act (or any successor registration form under the Securities Act subsequently adopted by the Securities and Exchange Commission) filed by the Company with the Securities and Exchange Commission that registers shares of existing capital stock of the Company for resale (a "***Direct Listing***"), and (2) the Company's completion of a merger or consolidation with a special purpose acquisition company or its subsidiary in which the Common Stock (or similar securities) of the surviving or parent entity are publicly traded in a public offering pursuant to an effective registration statement under the Securities Act, *provided*, in each case, that all holders of at least 5% of the Company's outstanding Common Stock (after giving effect to the conversion into Common Stock of any outstanding Preferred Stock of the Company) are subject to substantially similar obligations with respect to such Direct Listing, merger or consolidation, as applicable.

10. Transferability. Except as otherwise provided in this Section 10, your option is not transferable, except by will or by the laws of descent and distribution, and is exercisable during your life only by you. In furtherance and not in limitation of the foregoing, your option and any shares of Common Stock that you acquire upon exercise of your option will be subject to any transfer restrictions that may be described in the Company's bylaws.

(a) Certain Trusts. Upon receiving written permission from the Board or its duly authorized designee, you may transfer your option to a trust if you are considered to be the sole beneficial owner (determined under Section 671 of the Code and applicable state law) while the option is held in the trust. You and the trustee must enter into transfer and other agreements required by the Company.

(b) Domestic Relations Orders. Upon receiving written permission from the Board or its duly authorized designee, and provided that you and the designated transferee enter into transfer and other agreements required by the Company, you may transfer your option pursuant to the terms of a domestic relations order, official marital settlement agreement or other divorce or separation instrument as permitted by Treasury Regulation 1.421-1(b)(2) that contains the information required by the Company to effectuate the transfer. You are encouraged to discuss the proposed terms of any division of this option with the Company prior to finalizing the domestic relations order or marital settlement agreement to help ensure the required information is contained within the domestic relations order or marital settlement agreement. If this option is an Incentive Stock Option, this option may be deemed to be a Nonstatutory Stock Option as a result of such transfer.

(c) Beneficiary Designation. Upon receiving written permission from the Board or its duly authorized designee, you may, by delivering written notice to the Company, in a form approved by the Company and any broker designated by the Company to handle option exercises, designate a third party who, on your death, will thereafter be entitled to exercise this option and receive the Common Stock or other consideration resulting from such exercise. In the absence of such a designation, your executor or administrator of your estate will be entitled to exercise this option and receive, on behalf of your estate, the Common Stock or other consideration resulting from such exercise.

11. Right of First Refusal. Shares of Common Stock that you acquire upon exercise of your option are subject to any right of first refusal that may be described in the Company's bylaws in effect at such time the Company elects to exercise its right; *provided, however,* that if there is no right of first refusal described in the Company's bylaws at such time, the right of first refusal described below will apply. The Company's right of first refusal will expire on the first date upon which any security of the Company is listed (or approved for listing) upon notice of issuance on a national securities exchange or quotation system (the "***Listing Date***").

(a) Prior to the Listing Date, you may not validly Transfer (as defined below) any shares of Common Stock acquired upon exercise of your option, or any interest in such shares, unless such Transfer is made in compliance with the following provisions:

(i) Before there can be a valid Transfer of any shares of Common Stock or any interest therein, the record holder of the shares of Common Stock to be transferred (the "***Offered Shares***") will give written notice (by registered or certified mail) to the Company. Such notice will specify the identity of the proposed transferee, the cash price offered for the Offered Shares by the proposed transferee (or, if the proposed Transfer is one in which the holder will not receive cash, such as an involuntary transfer, gift, donation or pledge, the holder will state that no purchase price is being proposed), and the other terms and conditions of the proposed Transfer. The date such notice is mailed will be hereinafter referred to as the "***Notice Date***" and the record holder of the Offered Shares will be hereinafter referred to as the "***Offeror***." If, from time to time, there is any stock dividend, stock split or other change in the character or amount of any of the outstanding Common Stock which is subject to the provisions of your option, then in such event any and all new, substituted or additional securities to which you are entitled by reason of your ownership of the shares of Common Stock acquired upon exercise of your option will be immediately subject to the Company's Right of First Refusal (as defined below) with the same force and effect as the shares subject to the Right of First Refusal immediately before such event.

(ii) For a period of 30 calendar days after the Notice Date, or such longer period as may be required to avoid the classification of your option as a liability for financial accounting purposes, the Company will have the option to purchase all (but not less than all) of the Offered Shares at the purchase price and on the terms set forth in Section 11(a)(iii) (the Company's "***Right of First Refusal***"). In the event that the proposed Transfer is one involving no payment of a purchase price, the purchase price will be deemed to be the Fair Market Value of the Offered Shares as determined in good faith by the Board in its discretion. The Company may exercise its Right of First Refusal by mailing (by registered or certified mail) written notice of exercise of its Right of First Refusal to the Offeror prior to the end of said 30 days (including any extension required to avoid classification of the option as a liability for financial accounting purposes).

(iii) The price at which the Company may purchase the Offered Shares pursuant to the exercise of its Right of First Refusal will be the cash price offered for the Offered Shares by the proposed transferee (as set forth in the notice required under Section 11(a)(i)), or the Fair Market Value as determined by the Board in the event no purchase price is involved. To the extent consideration other than cash is offered by the proposed transferee, the Company will not be required to pay any additional amounts to the Offeror other than the cash price offered (or the Fair Market Value, if applicable). The Company's notice of exercise of its Right of First Refusal will be accompanied by full payment for the Offered Shares and, upon such payment by the Company, the Company will acquire full right, title and interest to all of the Offered Shares.

(iv) If, and only if, the option given pursuant to Section 11(a)(ii) is not exercised, the Transfer proposed in the notice given pursuant to Section 11(a)(i) may take place; *provided, however*, that such Transfer must, in all respects, be exactly as proposed in said notice except that such Transfer may not take place either before the 10th calendar day after the expiration of the 30 day option exercise period or after the ninetieth 90th calendar day after the expiration of the 30 day option exercise period, and if such Transfer has not taken place prior to said 90th day, such Transfer may not take place without once again complying with this Section 11(a). The option exercise periods in this Section 11(a)(iv) will be adjusted to include any extension required to avoid the classification of your option as a liability for financial accounting purposes.

(b) As used in this Section 11, the term "***Transfer***" means any sale, encumbrance, pledge, gift or other form of disposition or transfer of shares of Common Stock or any legal or equitable interest therein; *provided, however*, that the term Transfer does not include a transfer of such shares or interests by will or intestacy to your Immediate Family (as defined below). In such case, the transferee or other recipient will receive and hold the shares of Common Stock so transferred subject to the provisions of this Section, and there will be no further transfer of such shares except in accordance with the terms of this Section 11. As used herein, the term "***Immediate Family***" will mean your spouse, the lineal descendant or antecedent, father, mother, brother or sister, child, adopted child, grandchild or adopted grandchild of you or your spouse, or the spouse of any child, adopted child, grandchild or adopted grandchild of you or your spouse.

(c) None of the shares of Common Stock purchased on exercise of your option will be transferred on the Company's books nor will the Company recognize any such Transfer of any such shares or any interest therein unless and until all applicable provisions of this Section 11 have been complied with in all respects. The certificates of stock evidencing shares of Common Stock purchased on exercise of your option will bear an appropriate legend referring to the transfer restrictions imposed by this Section 11.

(d) To ensure that the shares subject to the Company's Right of First Refusal will be available for repurchase by the Company, the Company may require you to deposit the certificates evidencing the shares that you purchase upon exercise of your option with an escrow agent designated by the Company under the terms and conditions of an escrow agreement approved by the Company. If the Company does not require such deposit as a condition of exercise of your option, the Company reserves the right at any time to require you to so deposit the certificates in escrow. As soon as practicable after the expiration of the Company's Right of First Refusal, the agent will deliver to you the shares and any other property no longer subject to such restriction. In the event the shares and any other property held in escrow are subject to the Company's exercise of its Right of First Refusal, the notices required to be given to you will be given to the escrow agent, and any payment required to be given to you will be given to the escrow agent. Within 30 days after payment by the Company for the Offered Shares, the escrow agent will deliver the Offered Shares that the Company has repurchased to the Company and will deliver the payment received from the Company to you.

12. Option not a Service Contract. Your option is not an employment or service contract, and nothing in your option will be deemed to create in any way whatsoever any obligation on your part to continue in the employ of the Company or an Affiliate, or of the Company or an Affiliate to continue your employment. In addition, nothing in your option will obligate the Company or an Affiliate, their respective stockholders, boards of directors, officers or employees to continue any relationship that you might have as a Director or Consultant for the Company or an Affiliate.

13. Withholding Obligations.

(a) At the time you exercise your option, in whole or in part, and at any time thereafter as requested by the Company, you hereby authorize withholding from payroll and any other amounts payable to you, and otherwise agree to make adequate provision for (including by means of a "same day sale" pursuant to a program developed under Regulation T as promulgated by the Federal Reserve Board to the extent permitted by the Company), any sums required to satisfy the federal, state, local and foreign tax withholding obligations of the Company or an Affiliate, if any, which arise in connection with the exercise of your option.

(b) If this option is a Nonstatutory Stock Option, then upon your request and subject to approval by the Company, and compliance with any applicable legal conditions or restrictions, the Company may withhold from fully vested shares of Common Stock otherwise issuable to you upon the exercise of your option a number of whole shares of Common Stock having a Fair Market Value, determined by the Company as of the date of exercise, not in excess of the maximum amount of tax required to be withheld by law (or such lower amount as may be necessary to avoid classification of your option as a liability for financial accounting purposes). If the date of determination of any tax withholding obligation is deferred to a date later than the date of exercise of your option, share withholding pursuant to the preceding sentence will not be permitted unless you make a proper and timely election under Section 83(b) of the Code, covering the aggregate number of shares of Common Stock acquired upon such exercise with respect to which such determination is otherwise deferred, to accelerate the determination of such tax withholding obligation to the date of exercise of your option. Notwithstanding the filing of such election, shares of Common Stock will be withheld solely from fully vested shares of Common Stock determined as of the date of exercise of your option that are otherwise issuable to you upon such exercise. Any adverse consequences to you arising in connection with such share withholding procedure will be your sole responsibility.

(c) You may not exercise your option unless the tax withholding obligations of the Company and/or any Affiliate are satisfied. Accordingly, you may not be able to exercise your option when desired even though your option is vested, and the Company will have no obligation to issue a certificate for such shares of Common Stock or release such shares of Common Stock from any escrow provided for herein, if applicable, unless such obligations are satisfied.

14. Tax Consequences. You hereby agree that the Company does not have a duty to design or administer the Plan or its other compensation programs in a manner that minimizes your tax liabilities. You will not make any claim against the Company, or any of its Officers, Directors, Employees or Affiliates related to tax liabilities arising from your option or your other compensation. In particular, you acknowledge that this option is exempt from Section 409A of the Code only if the exercise price per share specified in the Grant Notice is at least equal to the "fair market value" per share of the Common Stock on the Date of Grant and there is no other impermissible deferral of compensation associated with the option. Because the Common Stock is not traded on an established securities market, the Fair Market Value is determined by the Board, perhaps in consultation with an independent valuation firm retained by the Company. You acknowledge that there is no guarantee that the Internal Revenue Service will agree with the valuation as determined by the Board, and you will not make any claim against the Company, or any of its Officers, Directors, Employees or Affiliates in the event that the Internal Revenue Service asserts that the valuation determined by the Board is less than the "fair market value" as subsequently determined by the Internal Revenue Service.

15. Imposition of Other Requirements. You agree to execute further documents or instruments necessary or desirable in the sole determination of the Company to carry out the purposes or intent of this option. You further agree to execute, to the extent requested by the Company, at any time and from time to time, any agreements entered into with holders of capital stock of the Company, including without limitation a right of first refusal and co-sale agreement, stockholders agreement and/or a voting agreement.

16. Notices. Any notices provided for in your option or the Plan will be given in writing (including electronically) and will be deemed effectively given upon receipt or, in the case of notices delivered by mail by the Company to you, five days after deposit in the United States mail, postage prepaid, addressed to you at the last address you provided to the Company. The Company may, in its sole discretion, decide to deliver any documents related to participation in the Plan and this option by electronic means or to request your consent to participate in the Plan by electronic means. By accepting this option, you consent to receive such documents by electronic delivery and to participate in the Plan through an online or electronic system established and maintained by the Company or another third party designated by the Company.

17. Governing Plan Document. Your option is subject to all the provisions of the Plan, the provisions of which are hereby made a part of your option, and is further subject to all interpretations, amendments, rules and regulations, which may from time to time be promulgated and adopted pursuant to the Plan. If there is any conflict between the provisions of your option and those of the Plan, the provisions of the Plan will control.

RESTRICTED STOCK AWARD TERMS AND CONDITIONS

AMBROS THERAPEUTICS, INC.

(2024 EQUITY INCENTIVE PLAN)

RESTRICTED STOCK AWARD TERMS AND CONDITIONS

Ambros Therapeutics, Inc. (the "***Company***") has awarded you the right to purchase the number of Shares indicated in the Grant Notice (the "***Award***") pursuant to its 2024 Equity Incentive Plan (the "***Plan***"). The Grant Notice and these Restricted Stock Award Terms and Conditions are collectively referred to as the "***Award Agreement***". Capitalized terms not explicitly defined in this Agreement but defined in the Plan will have the same meanings given to them in the Plan.

The details of your Award, in addition to those set forth in the Grant Notice and the Plan, are as follows:

1. Agreement to Purchase; Closing. You agree to purchase from the Company, and the Company agrees to sell to you, the aggregate number of shares of Common Stock specified in your Grant Notice at the specified Purchase Price per Share. You may not purchase less than the aggregate number of shares specified in the Grant Notice. You may purchase the shares by delivering the Total Purchase Price referenced in your Grant Notice to the Secretary of the Company, or to such other person as the Company may designate, during regular business hours, within 30 days following the Date of Grant specified in the Grant Notice (or at such other time and place as you and the Company may mutually agree upon in writing) along with the documents referenced in Section 2 below and such additional documents as the Company may then require.

2. Escrow of Shares. As security for your faithful performance of the terms of this Award Agreement and to ensure the availability for delivery of the Unvested Shares upon exercise of the Repurchase Right, you agree that the Shares will be held in escrow pursuant to the terms of the Joint Escrow Instructions attached to this Agreement as **Exhibit B**. You agree to execute and deliver to the individual designated as the escrow agent in the Joint Escrow Instructions or person's designee (the "***Escrow Agent***"), (i) the Joint Escrow Instructions and (ii) two Assignment Separate From Certificate forms duly endorsed (with date and number of shares blank) substantially in the form attached to this Agreement as **Exhibit A** and deliver the same, along with the certificate or certificates evidencing the Unvested Shares, which will be held and used by the Escrow Agent pursuant to the terms of the Joint Escrow Instructions.

3. Vesting. Subject to the limitations contained herein, the Shares will vest pursuant to the Vesting Schedule in the Grant Notice, provided that vesting will cease upon the termination of your Continuous Service. "***Vested Shares***" will mean Shares that have vested in accordance with the Vesting Schedule, and "***Unvested Shares***" will mean Shares that have not vested in accordance with the Vesting Schedule.

4. Capitalization Adjustments. The number of Shares subject to your Award may be adjusted from time to time for Capitalization Adjustments. In the event of any such Capitalization Adjustments, new, substituted or additional securities or other property to which you are entitled by reason of your ownership of the Unvested Shares will be immediately subject to the same vesting requirements and vesting schedule that is applicable to the Shares with respect to which such additional Shares relate, as well as all transfer restrictions contained in this Award Agreement, including the Repurchase Right, the Right of First Refusal and the Lock-Up Period (each as defined below). No fractional shares or rights for fractional shares will be created pursuant to this Section. Any fraction of a share will be rounded down to the nearest whole share.

5. Securities Law Compliance. The Shares are not registered under the Securities Act. At this time, the Company has determined that the issuance of the Shares under this Award is exempt from the registration requirements of the Securities Act. If the Company determines at any time that an exemption from the registration requirements of the Securities Act was not available or that the issuance of the Shares otherwise would not comply with any other applicable laws and regulations, then the Company will not be obligated to issue the Shares or may rescind the award to you.

6. Transfer Restrictions. In addition to any other limitation on transfer created by the Company's bylaws and applicable securities laws, you may not Transfer all or any part of the Unvested Shares or any interest in the Unvested Shares while such shares are subject to the Repurchase Right (as defined below) or continue to be held by the Escrow Agent (as defined below) or by the Company's transfer agent in restricted book entry form. In the case of Vested Shares, you may not Transfer the Vested Shares or any interest in the Vested Shares except in compliance with this Award Agreement, including without limitation the Right of First Refusal (as defined below), the Company's bylaws and applicable securities laws. As used in this Award Agreement, the term "***Transfer***" means any sale, encumbrance, pledge, gift or other form of disposition or transfer of shares of Common Stock or any legal or equitable interest therein; *provided, however*, that the term Transfer does not include a transfer of such shares or interests by will or intestacy to your Immediate Family. In such case, the transferee or other recipient will receive and hold the Shares so transferred subject to the provisions of this Award Agreement, and there will be no further transfer of such shares except in accordance with the terms of this Award Agreement. The term "***Immediate Family***" will mean your spouse, the lineal descendant or antecedent, father, mother, brother or sister, child, adopted child, grandchild or adopted grandchild of you or your spouse, or the spouse of any child, adopted child, grandchild or adopted grandchild of you or your spouse.

7. Unvested Share Repurchase Right.

(a) Repurchase Right. In the event your Continuous Service terminates, the Company will have an irrevocable option (the "***Repurchase Right***") for a period of ninety (90) days after the termination of your Continuous Service, or such longer period as may be agreed to by you and the Company, to repurchase from you or your personal representative, as the case may be, any and all Unvested Shares as of such termination date.

(b) Shares Repurchasable at the Lower of your Original Purchase Price or Fair Market Value. The Company may repurchase all or any of the Unvested Shares at a price equal to the lower of your Purchase Price for such shares as indicated on your Grant Notice or the Fair Market Value of the Unvested Shares on the date of repurchase.

(c) Exercise of Repurchase Right. Unless the Company notifies you within 90 days from the date of termination of your Continuous Service that it does not intend to exercise the Repurchase Right with respect to some or all of the Unvested Shares, the Repurchase Right shall be deemed automatically exercised by the Company as of the 90th day following such termination, provided that the Company may notify you that it is exercising the Repurchase Right as of a date prior to such 90th day. Unless you are otherwise notified by the Company pursuant to the preceding sentence that the Company does not intend to exercise the Repurchase Right as to some or all of the Unvested Shares to which it applies at the time of termination, execution of this Agreement by you constitutes written notice to you of the Company's intention to exercise the Repurchase Right with respect to all Unvested Shares to which the Repurchase Right applies. The Company, at its election, may satisfy its payment obligation to you with respect to exercise of the Repurchase Right by either (A) delivering a check to you in the amount of the purchase price for the Unvested Shares being repurchased, or (B) in the event you are indebted to the Company, canceling an amount of such indebtedness equal to the purchase price for the Unvested Shares being repurchased, or (C) by a combination of (A) and (B) so that the combined payment and cancellation of indebtedness equals such purchase price. In the event of any deemed automatic exercise of the Repurchase Right pursuant to this Section in which you are indebted to the Company, such indebtedness equal to the purchase price of the Unvested Shares being repurchased shall be deemed automatically canceled as of the 90th day following termination of your Continuous Service unless the Company otherwise satisfies its payment obligations. As a result of any repurchase of Unvested Shares pursuant to this Section, the Unvested Shares being repurchased will be immediately retired and resume the status of authorized and unissued shares of the capital stock of the Company, without further action by you. Notwithstanding anything to the contrary in this Section or in this Award Agreement, the Company may elect to waive, in its sole discretion, its Repurchase Right in whole or in part by providing written notice to you (with a copy to the Escrow Agent), at any time prior to the expiration of the Repurchase Right, and the Escrow Agent may then release to you the number of Shares not being repurchased by the Company.

(d) Corporate Transactions. To the extent the Repurchase Right remains in effect following a Corporate Transaction or Change in Control, unless otherwise provided by the Board pursuant to the terms of the Plan, it will apply to the new capital stock, cash or other property received in exchange for the Unvested Shares in consummation of the Corporate Transaction or Change in Control, as applicable, but only to the extent the Unvested Shares were at the time covered by such right.

(e) Termination of Repurchase Right. The Company's Repurchase Right will terminate upon the earlier of (i) the Company's reacquisition in full of the Unvested Shares (or waiver of the Repurchase Right) and (ii) the expiration of the Repurchase Right.

8. Right of First Refusal. Shares that are received under your Award are subject to any right of first refusal that may be described in the Company's bylaws in effect at such time the Company elects to exercise its right; *provided, however,* that if there is no right of first refusal described in the Company's bylaws at such time, the right of first refusal described below (the "***Right of First Refusal***") will apply. The Right of First Refusal will expire on the first date upon which any security of the Company is listed (or approved for listing) upon notice of issuance on a national securities exchange or quotation system (the "***Listing Date***").

(a) Prior to the Listing Date, you may not validly Transfer any Shares received under the Award, or any interest in such shares, unless such Transfer is made in compliance with the following provisions:

(i) Before there can be a valid Transfer of any Shares or any interest therein, the record holder of the Shares to be transferred (the "***Offered Shares***") will give written notice (by registered or certified mail) to the Company (the "***ROFR Notice***"). Such notice will specify the identity of the proposed transferee, the cash price offered for the Offered Shares by the proposed transferee (or, if the proposed Transfer is one in which the holder will not receive cash, such as an involuntary transfer, gift, donation or pledge, the holder will state that no purchase price is being proposed), and the other terms and conditions of the proposed Transfer. The date such notice is mailed will be hereinafter referred to as the "***Notice Date***" and the record holder of the Offered Shares will be hereinafter referred to as the "***Offeror***."

(ii) For a period of 30 calendar days after the Notice Date, the Company will have the option to exercise its Right of First Refusal and purchase all or any portion of the Offered Shares at the purchase price and on the terms set forth in this Section. In the event that the proposed Transfer is one involving no payment of a purchase price, the purchase price will be deemed to be the Fair Market Value of the Offered Shares as determined in good faith by the Board in its discretion. The Company may exercise its Right of First Refusal by mailing (by registered or certified mail) written notice of exercise of its Right of First Refusal to the Offeror prior to the end of said 30 days.

(iii) The price at which the Company may purchase the Offered Shares pursuant to the exercise of its Right of First Refusal will be the cash price offered for the Offered Shares by the proposed transferee (as set forth in the ROFR Notice), or the Fair Market Value as determined by the Board in the event no purchase price is involved. To the extent consideration other than cash is offered by the proposed transferee, the Company will not be required to pay any additional amounts to the Offeror other than the cash price offered (or the Fair Market Value, if applicable). The Company's notice of exercise of its Right of First Refusal will be accompanied by full payment for the Offered Shares and, upon such payment by the Company, the Company will acquire full right, title and interest to all of the Offered Shares.

(iv) If, and only if, the Company elects not to exercise its Right of First Refusal as to the Offered Shares, the Transfer proposed in the ROFR Notice may take place; *provided, however*, that such Transfer must, in all respects, be exactly as proposed in said notice except that such Transfer may not take place either before the 10th calendar day after the expiration of the 30 day option exercise period or after the 90th calendar day after the expiration of the 30 day option exercise period, and if such Transfer has not taken place prior to said 90th day, such Transfer may not take place without once again complying with this Section.

(b) None of the shares of Common Stock received under the Award will be transferred on the Company's books nor will the Company recognize any such Transfer of any such shares or any interest therein unless and until all applicable provisions of this Section have been complied with in all respects. The certificates of stock evidencing Shares received under the Award will bear an appropriate legend referring to the transfer restrictions imposed by this Section.

9. Lock-Up Period. By accepting your Award, you agree that you will not sell, dispose of, transfer, make any short sale of, grant any option for the purchase of, or enter into any hedging or similar transaction with the same economic effect as a sale with respect to any shares of Common Stock or other securities of the Company held by you, for a period of 180 days following the effective date of a registration statement of the Company filed under the Securities Act or such longer period as the underwriters or the Company will request to facilitate compliance with applicable FINRA rules (the "***Lock-Up Period***"); *provided, however*, that nothing contained in this Section will prevent the exercise of a reacquisition or repurchase option, if any, in favor of the Company during the Lock-Up Period. You further agree to execute and deliver such other agreements as may be reasonably requested by the Company or the underwriters that are consistent with the foregoing or that are necessary to give further effect to the foregoing covenant. You also agree that any transferee of any other shares of Common Stock (or other securities) of the Company held by you will be bound by this Section. To enforce the foregoing covenant, the Company may impose stop-transfer instructions with respect to your shares of Common Stock until the end of such period. The underwriters of the Company's stock are intended third party beneficiaries of this Section and will have the right, power and authority to enforce the provisions of this Section as though they were a party to this Award Agreement. You further agree that the obligations contained in this Section 9 shall also, if so determined by the Company's Board of Directors, apply in (1) the Company's initial listing of its Common Stock on a national securities exchange by means of a registration statement on Form S-1 under the Securities Act (or any successor registration form under the Securities Act subsequently adopted by the Securities and Exchange Commission) filed by the Company with the Securities and Exchange Commission that registers shares of existing capital stock of the Company for resale (a "***Direct Listing***") (and, for avoidance of doubt, the Lock-Up Period shall be deemed to include the period following the Direct Listing during which the restrictions under this Section 9 apply), and (2) the Company's completion of a merger or consolidation with a special purpose acquisition company or its subsidiary in which the Common Stock (or similar securities) of the surviving or parent entity are publicly traded in a public offering pursuant to an effective registration statement under the Securities Act, *provided*, in each case, that all holders of at least 5% of the Company's outstanding Common Stock (after giving effect to the conversion into Common Stock of any outstanding Preferred Stock of the Company) are subject to substantially similar obligations with respect to such Direct Listing, merger or consolidation, as applicable.

10. Rights as Stockholder.

(a) General. Subject to the provisions of this Award Agreement, you will exercise all rights and privileges of a stockholder of the Company with respect to the Shares, including for purposes of exercising any voting rights relating to any Unvested Shares.

(b) Dividends. You will be deemed to be the holder of the Unvested Shares for purposes of receiving any dividends that may be paid with respect to such Shares; *provided, however*, that any dividends or other distributions paid with respect to the Unvested Shares shall be subject to all of the terms and conditions applicable under this Award Agreement to the same extent as the Unvested Shares. For clarity, cash dividends made prior to the vesting of any Unvested Shares will be withheld and paid to you (without interest) only if, when and to the extent, such Shares become Vested Shares.

11. Waiver of Information Rights. You hereby acknowledge and agree that, except for such information as required to be delivered to you by the Company pursuant to any other agreement by and between you and the Company, you shall have no right to receive any information from the Company by virtue of your purchase of the Shares, ownership of the Shares, or as a result of you being a holder of record of stock of the Company. Without limiting the foregoing, to the fullest extent permitted by law, you hereby waive your inspection rights under Section 220 of the Delaware General Corporation Law and all such similar information and/or inspection rights that may be provided under the law of any jurisdiction, or any federal, state or foreign regulation, that are, or may become, applicable to the Company, the Company's capital stock or the Shares (the "***Inspection Rights***"). You hereby covenant and agree never to directly or indirectly commence, voluntarily aid in any way, prosecute, assign, transfer, or cause to be commenced any claim, action, cause of action, or other proceeding to pursue or exercise the Inspection Rights.

12. Restrictive Legends. All certificates representing the Common Stock issued under your Award will be endorsed with appropriate legends determined by the Company in substantially the following forms (in addition to any other legend that may be required by other agreements between you and the Company):

(a) "THE SHARES REPRESENTED BY THIS CERTIFICATE ARE SUBJECT TO A REPURCHASE RIGHT AND OTHER RESTRICTIONS AND CONDITIONS SET FORTH IN A RESTRICTED STOCK AWARD AGREEMENT BETWEEN THE COMPANY AND THE REGISTERED HOLDER, OR SUCH HOLDER'S PREDECESSOR IN INTEREST, A COPY OF WHICH IS ON FILE AT THE COMPANY'S PRINCIPAL CORPORATE OFFICES. ANY TRANSFER OR ATTEMPTED TRANSFER OF ANY SHARES SUBJECT TO SUCH RIGHT IS VOID WITHOUT THE PRIOR EXPRESS WRITTEN CONSENT OF THE COMPANY."

(b) "THE SHARES REPRESENTED BY THIS CERTIFICATE HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED. THEY MAY NOT BE SOLD, OFFERED FOR SALE, PLEDGED OR HYPOTHECATED IN THE ABSENCE OF AN EFFECTIVE REGISTRATION STATEMENT AS TO THE SECURITIES UNDER SAID ACT OR AN OPINION OF COUNSEL SATISFACTORY TO THE COMPANY THAT SUCH REGISTRATION IS NOT REQUIRED."

(c) "THE SHARES REPRESENTED BY THIS CERTIFICATE ARE SUBJECT TO CERTAIN RIGHTS OF REFUSAL GRANTED TO THE COMPANY AND/OR ITS ASSIGNEE(S) AND ACCORDINGLY MAY NOT BE SOLD, ASSIGNED, TRANSFERRED, ENCUMBERED OR IN ANY MANNER DISPOSED OF EXCEPT IN CONFORMITY WITH THE TERMS OF THE BYLAWS OF THE COMPANY AND/OR A RESTRICTED STOCK AWARD AGREEMENT BETWEEN THE COMPANY AND THE REGISTERED HOLDER, OR SUCH HOLDER'S PREDECESSOR IN INTEREST, A COPY OF WHICH IS ON FILE AT THE COMPANY'S PRINCIPAL CORPORATE OFFICES."

(d) "THE SHARES REPRESENTED BY THIS CERTIFICATE ARE SUBJECT TO A TRANSFER RESTRICTION, AS PROVIDED IN THE BYLAWS OF THE COMPANY."

(e) Any legend required by appropriate blue sky officials.

13. Investment Representations. In connection with your acquisition of the Common Stock under your Award, you represent to the Company the following:

(a) You are aware of the Company's business affairs and financial condition and have acquired sufficient information about the Company to reach an informed and knowledgeable decision to acquire the Shares. You are acquiring the Shares for investment for your own account only and not with a view to, or for resale in connection with, any "distribution" thereof within the meaning of the Securities Act.

(b) You understand that the Shares have not been registered under the Securities Act by reason of a specific exemption therefrom, which exemption depends upon, among other things, the bona fide nature of your investment intent as expressed in this Award Agreement.

(c) You further acknowledge and understand that the Shares must be held indefinitely unless the Shares are subsequently registered under the Securities Act or an exemption from such registration is available. You further acknowledge and understand that the Company is under no obligation to register the Common Stock. You understand that the certificate evidencing the Common Stock will be imprinted with a legend that prohibits the transfer of the Common Stock unless the Common Stock is registered or such registration is not required in the opinion of counsel for the Company.

(d) You are familiar with the provisions of Rule 701 and Rule 144 promulgated under the Securities Act ("***Rule 144***"), as in effect from time to time, which, in substance, permit limited public resale of "restricted securities" acquired, directly or indirectly, from the issuer thereof (or from an affiliate of such issuer), in a non-public offering subject to the satisfaction of certain conditions. Rule 701 provides that if the issuer qualifies under Rule 701 at the time of issuance of the securities, such issuance will be exempt from registration under the Securities Act. In the event the Company becomes subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, the securities exempt under Rule 701 may be sold by you 90 days thereafter, subject to the satisfaction of certain of the conditions specified by Rule 144 and by the agreement(s) relating to the Lock-Up Period.

(e) In the event that the sale of the Shares does not qualify under Rule 701 at the time of issuance, then the Shares may be resold by you in certain limited circumstances subject to the provisions of Rule 144, which requires, among other things: (i) the availability of certain public information about the Company; and (ii) the resale occurring following the required holding period under Rule 144 after you have purchased, and made full payment of (within the meaning of Rule 144), the securities to be sold.

(f) You further understand that at the time you wish to sell the Shares, there may be no public market upon which to make such a sale, and that, even if such a public market then exists, the Company may not be satisfying the current public current information requirements of Rule 144 or 701, and that, in such event, you would be precluded from selling the Shares under Rule 144 or 701 even if the minimum holding period requirement had been satisfied.

14. Withholding Obligations.

(a) At the time your Award is made, or at any time thereafter as requested by the Company, you hereby authorize withholding from payroll and any other amounts payable to you, and otherwise agree to make adequate provision for any sums required to satisfy the federal, state, local and foreign tax withholding obligations of the Company or an Affiliate, if any, which arise in connection with your Award (the "***Withholding Taxes***"). The Company may, in its sole discretion, satisfy all or any portion of the Withholding Taxes obligation relating to your Award by any of the following means or by a combination of such means: (i) withholding from any amounts otherwise payable to you by the Company; (ii) causing you to tender a cash payment; or (iii) withholding Shares issued or otherwise issuable to you in connection with the Award with a Fair Market Value equal to the amount of such Withholding Taxes; *provided, however*, that the number of such Shares withheld may not exceed the amount necessary to satisfy the Company's required tax withholding obligations using the minimum statutory withholding rates for federal, state, local and foreign tax purposes, including payroll taxes, that are applicable to supplemental taxable income.

(b) Unless the tax withholding obligations of the Company and any Affiliate are satisfied, the Company will have no obligation to issue a certificate for such Shares or release such Shares from any escrow provided for in this Award Agreement.

15. Tax Consequences. You agree to review with your own tax advisors the federal, state, local and foreign tax consequences of this investment and the transactions contemplated by this Award. You will rely solely on such advisors and not on any statements or representations of the Company or any of its agents. You understand that you (and not the Company) will be responsible for your own tax liability that may arise as a result of this investment or the transactions contemplated by this Award. You understand that Section 83 of the Code taxes as ordinary income to you the fair market value of the Shares issued to you pursuant to the Award as of the date any restrictions on such shares lapse (that is, as of the date on which part or all of such shares vest). In this context, "restriction" includes the right of the Company to reacquire the Shares pursuant to the Repurchase Right set forth above. You understand that you may elect to be taxed at the time the Shares are issued to you pursuant to your Award, rather than when and as the Repurchase Right expires, by filing an election under Section 83(b) of the Code (an "***83(b) Election***") with the Internal Revenue Service within 30 days after the date your acquire Shares pursuant to your Award. Even if the fair market value of the Common Stock at the time of grant of your Award equals the amount paid for the Shares (if anything), the 83(b) Election must be made to avoid income under Section 83(a) in the future. You understand that failure to file such an 83(b) Election in a timely manner may result in adverse tax consequences for you. You acknowledge that the foregoing is only a summary of the effect of U.S. federal income taxation with respect to issuance of the Shares pursuant to your Award, and does not purport to be complete. You further acknowledge that the Company has directed you to seek independent advice regarding the applicable provisions of the Code, the income tax laws of any municipality, state or foreign country in which you may reside, and the tax consequences of your death. You assume all responsibility for filing an 83(b) Election and paying all taxes resulting from such election or the lapse of the restrictions on the Shares. **YOU ACKNOWLEDGE THAT IT IS YOUR OWN RESPONSIBILITY, AND NOT THE COMPANY'S, TO FILE A TIMELY 83(b) ELECTION. THE COMPANY AND ITS LEGAL COUNSEL CANNOT ASSUME RESPONSIBILITY FOR FAILURE TO FILE THE 83(b) ELECTION IN A TIMELY MANNER UNDER ANY CIRCUMSTANCES.**

16. Severability. If all or any part of this Award Agreement or the Plan is declared by any court or governmental authority to be unlawful or invalid, such unlawfulness or invalidity will not invalidate any portion of this Award Agreement or the Plan not declared to be unlawful or invalid. Any Section of this Award Agreement (or part of such a Section) so declared to be unlawful or invalid shall, if possible, be construed in a manner which will give effect to the terms of such Section or part of a Section to the fullest extent possible while remaining lawful and valid.

17. Governing Law. The interpretation, performance and enforcement of this Award Agreement shall be governed by the law of the State of Delaware without regard to that state's conflicts of laws rules.

18. Notices. Any notice or request required or permitted hereunder will be given in writing to each of the other parties hereto and will be deemed effectively given on the earlier of (i) the date of personal delivery, including delivery by express courier, or delivery via electronic means, or (ii) the date that is five days after deposit in the United States Post Office (whether or not actually received by the addressee), by registered or certified mail with postage and fees prepaid, addressed to the Company at its primary executive offices, attention: Stock Plan Administrator, and addressed to you at your address as on file with the Company at the time notice is given.

19. Imposition of Other Requirements. As a condition to the grant of your Award or to the Company's issuance of any Shares under this Award, the Company may require you to execute further documents or instruments necessary or desirable in the sole determination of the Company to carry out the purposes or intent of your Award. In addition, by accepting this Award, you agree to execute, to the extent requested by the Company, at any time and from time to time, certain agreements entered into with holders of capital stock of the Company, including without limitation a right of first refusal and co-sale agreement, stockholders agreement and/or a voting agreement.

SECTION 83(B) ELECTION

[This Form is designed for Individual purchasers. Corporate or Trust purchasers should contact their Tax Professional to review before submitting.]

Instructions for Filing Section 83(b) Election

Attached is a form of election under Section 83(b) of the Internal Revenue Code and an accompanying IRS cover letter. Please complete and sign the election and cover letter, then proceed as follows:

a) Make **three** copies of the completed election form and one copy of the IRS cover letter.

b) Send the signed election form and cover letter, the copy of the cover letter, and a self-addressed stamped return envelope to the Internal Revenue Service Center where you would otherwise file your tax return.[1] Even if an address for an Internal Revenue Service Center is already included in the forms below, it is your obligation to verify such address. This can be done by searching for the term "where to file" on www.irs.gov or by calling 1 (800) 829-1040. If you are signing the election form by hand, be sure to send the **original** signed form to the IRS.

Sending the election via certified mail, requesting a return receipt, with the certified mail number written on the cover letter is also recommended.

c) Deliver one copy of the completed election form to the Company.

d) Applicable state law may require that you attach a copy of the completed election form to your state personal income tax return(s) when you file it for the year (assuming you file a state personal income tax return).[2]

Please consult your personal tax advisor(s) to determine whether or not a copy of this Section 83(b) election should be filed with your state personal income tax return(s).

e) Retain one copy of the completed election form for your personal permanent records.

Note: An additional copy of the completed election form must be delivered to the transferee (recipient) of the property if the service provider and the transferee are not the same person.

Please note that the election must be filed with the IRS within 30 days of the date of purchase/grant of the shares. Failure to file within that time will render the election void and you may recognize ordinary taxable income as your vesting restrictions lapse. The Company and its counsel cannot assume responsibility for failure to file the election in a timely manner under any circumstances.

---

[1] ***Note***: Per Treasury Regulation § 1.83-2(c), the Section 83(b) election must be filed with the IRS office where the person otherwise files such person's tax return. As of September 2022 if you live in a foreign country or are a dual status alien (foreigners that will have lived both in their home country and the United States during the year in which they make the election) you should send the 83(b) election to Austin, TX 73301-0215. You can verify this is still the correct address at: http://www.irs.gov/uac/Where-to-File-Addresses-for--Taxpayers-and--Tax-Professionals-Filing-Form-1040.

[2] ***Note***: Pursuant to Treasury Regulations finalized in July 2016 (Treas. Reg. § 1.83-2(c); T.D. 9779), taxpayers are no longer required to submit a copy of a Code Sec. 83(b) election with their ***federal*** personal income tax returns for the year in which the property subject to the election was transferred. However, you are strongly encouraged to retain a copy of the completed election form and the IRS filed-stamped copy of your cover letter along with a copy of the federal personal income tax return for the year in which the property subject to the election was transferred for your personal permanent records in case you ever need to demonstrate proper and timely filing (a common requirement imposed by acquirers in M&A transactions).

(a) License Grant. Subject to the terms and conditions of this Agreement, Abiogen hereby grants Ambros an exclusive (even as to Abiogen except as provided in Section 2.1(b) below), non-transferable (except as otherwise set forth in Section 15.6 below) license, with the right to sublicense through multiple tiers (solely as provided in Section 2.1(c)), under the Abiogen Technology, to Exploit the Licensed Products in the Field in the Ambros Territory. Additionally, Abiogen hereby grants Ambros (i) a worldwide, non-exclusive license, with the right to sublicense (solely as provided in Section 2.1(c)), under the Abiogen Technology to Develop Licensed Products outside the Ambros Territory, solely to support Development of Licensed Products in the Ambros Territory, and (ii) solely in the event of a Supply Failure, a worldwide, non-exclusive license, with the right to sublicense (solely as provided in Section 2.1(c) and subject to the terms of Section 7.5), under the Abiogen Technology, to have Manufactured Licensed Products in the Field for sale or use in the Ambros Territory, *provided, however*, that the foregoing license does not include the right to Manufacture, except as expressly set forth in this Agreement, including under Article 7.

Notwithstanding anything to the contrary, Abiogen's manufacturing process, including but not limited to all related techniques, methods, formulations, and procedures, shall be and remain the Confidential Information of Abiogen and are exclusive and proprietary to Abiogen. All rights to the manufacturing process and know-how are expressly reserved by Abiogen (except as expressly included within the foregoing license grant to Ambros), and no part of this Agreement shall be construed to imply otherwise. Ambros shall not, and shall ensure that its Affiliates and Sublicensees do not, practice such manufacturing process or know-how outside the scope of the license granted under Section 2.1(a)(ii).

(b) Abiogen Retained Rights. Notwithstanding the exclusive rights granted to Ambros in Section 2.1(a), Abiogen and its Affiliates shall retain the following:

(i) the exclusive (except as provided otherwise in this Agreement) right to practice the Abiogen Technology within the scope of the license granted to Ambros under Section 2.1(a) in order to perform, or have performed by a Third Party contractor, Abiogen's obligations under this Agreement (including the obligation to Manufacture or have Manufactured Licensed Products for Ambros' use in the Ambros Territory);

(ii) the exclusive (except as provided otherwise in this Agreement) right to Manufacture or have Manufactured Licensed Products anywhere in the world; and

After completion of the first Phase 3 Clinical Trial for a Licensed Product, Ambros may grant sublicenses under the licenses granted in Section 2.1(a) to its Affiliates or any Third Party without Abiogen's consent. Ambros shall ensure that each such sublicense shall be materially consistent with the terms and conditions of this Agreement applicable to such sublicense, including terms of intellectual property, confidentiality, and non-use consistent with, and at least as protective as, those set forth in this Agreement. Ambros shall be solely responsible for all of its Sublicensees' activities and any and all failures by its Sublicensees to comply with the applicable terms of this Agreement, and no such sublicense agreement shall relieve Ambros of its obligations under this Agreement, except to the extent they are fully and satisfactorily performed by any such Sublicensee. Ambros shall promptly (in all cases within [***] Business Days) notify Abiogen of the granting of such sublicense and provide a reasonably redacted copy of the executed sublicense to Abiogen, *provided* that Ambros shall not be required to provide a copy of any agreements with Third Party service providers unless such agreement with a service provider includes a sublicense beyond what is customary or reasonably required for such service provider to perform the services it is engaged for.

2.2 No Implied Licenses. Except as explicitly set forth in this Agreement, neither Party shall be deemed by estoppel or implication to have granted the other Party any license or other right to any intellectual property of such Party. Ambros shall not, and shall ensure that its Affiliates and Sublicensees do not, practice any of the Abiogen Technology outside the scope of the licenses granted under Section 2.1(a).

The Alliance Managers shall also be primarily responsible for facilitating the flow of information and otherwise promoting communication, coordination and collaboration between the Parties with respect to Licensed Products. Each Party may replace its Alliance Manager at any time upon written notice to the other Party.

3.2 **Joint Advisory Committee**.

(ii) to review and approve (subject to the last sentence of Section 4.4) any material change or deviation from any of the Plan Core Elements;

(iii) following a notification by Ambros that it intends to pursue any additional Indication in addition to CRPS-1, discuss and agree upon milestones for any such Indication, *provided* that if the Parties are unable to agree upon appropriate milestones through the JAC and upon referral to the JEC, the amounts shall be determined by an independent Third Party appointed by the Parties in accordance with **Schedule 3.2**;

(iv) to coordinate the Commercialization of Licensed Products in the Ambros Territory and Abiogen Territory (as well as the Abiogen [***] Territory) to ensure consistent global marketing of Licensed Products in the Field;

(vi) to coordinate the overall Patent strategy for Licensed Products;

(vii) to perform such other functions as appropriate to further the purposes of this Agreement, as expressly set forth in this Agreement or as determined by the Parties in writing.

Each Party shall initially appoint [***] to the JAC. The JAC may change its size from time to time by unanimous consent of its representatives, and each Party may replace its representatives at any time upon written notice to the other Party. Each Party shall appoint [***] of its representatives on the JAC to act as the co-chairperson. The role of the co-chairpersons shall be to convene and preside at the JAC meetings and to ensure the circulation of meeting agendas at least [***] Business Days in advance of JAC meetings and the preparation of meeting minutes and any pre-read materials in accordance with Section 3.2(c), but the co-chairpersons shall have no additional powers or rights beyond those held by other JAC representatives. Employees or consultants of either Party that are not representatives of the Parties on the JAC may attend meetings of the JAC, provided that such attendees shall not vote or otherwise participate in the decision-making process of the JAC and are subject to obligations of confidentiality substantially similar to the provisions set forth in Section 12.1.

(c) Meetings. The JAC shall meet at least [***] per Calendar Quarter during 2025, and thereafter [***] during the Term until Regulatory Approval by the FDA for the first Licensed Product, unless the Parties mutually agree in writing to a different frequency for such meetings. Such minutes shall be deemed approved unless one or more JAC representatives object to the accuracy of such minutes within [***] Business Days of receipt.

3.3 Joint Technical Committee. Within [***] days after the Effective Date, the Parties shall also establish a Joint Technical Committee ("**JTC**") which shall be a forum for the exchange of information and data relating to the clinical supply activities for Licensed Compounds and Licensed Products for each Party. The JTC shall have decision-making power in relation to the implementation of clinical supply activities. The JTC shall have an equal number of representatives of the Parties as agreed by the Parties and shall meet at a frequency to be agreed by the Parties. For clarity, despite the existence of the JTC, Abiogen shall always be involved in any and all relationships or relevant communication with Ambros' CDMO as may be designated clinical supply activities under Article 7.

3.4 Decision Making at the JAC and JTC. The JAC and JTC shall strive to seek consensus in its actions and decision making process and all decisions by the JAC and the JTC shall be made by consensus, with each Party having collectively [***] vote in all decisions. If after reasonable discussion and good faith consideration of each Party's view on a particular matter the representatives of the Parties cannot reach an agreement as to such matter (to the extent that such matter requires the agreement of the Parties hereunder) within [***] Business Days after such matter was brought to the relevant committee for resolution or after such matter has been referred to the JAC, then, (i) if such matter was before the JAC, the Parties shall refer such matter to the JEC for resolution, or (ii) if such matter was before the JTC, [***] shall have the final decision-making authority: *provided* [***].

3.5 Limitation of JAC and JTC Authority. The JAC and JTC shall only have the respective powers expressly assigned to each in this Article 3 and elsewhere in this Agreement and shall not have the authority to: (a) modify or amend the terms and conditions of this Agreement; (b) waive or determine either Party's compliance with the terms and conditions of this Agreement; or (c) decide any issue in a manner that would conflict with the express terms and conditions of this Agreement.

3.6 Discontinuation of the JAC and JTC. The activities to be performed by the JAC and JTC shall solely relate to governance under this Agreement, and are not intended to be or involve the delivery of services. The JAC and the JTC shall continue to exist unless the Parties mutually agree to disband the JAC or the JTC, as the case may be; provided, that [***]. Thereafter, the JAC shall have no further obligations under this Agreement and each Party shall designate a contact person for the exchange of information relevant to activities that would have been performed by the JAC under this Agreement and decisions of the JAC shall be decisions as between the Parties, subject to the other terms and conditions of this Agreement.

The JAC shall be established again on the terms herein in case of new Development of a Licensed Product and/or a Licensed Compound in the Field (such as a new indication or Combination Product).

3.7 Joint Executive Committee. Within [***] days after the Effective Date, the Parties shall also establish a joint executive committee (the "**Joint Executive Committee**" or "**JEC**") for exchange of high-level and strategic information and coordination among the executives of the Parties and the resolution of any matters referred to the JEC by the JAC under Section 3.4. Each Party shall designate [***] senior executive to the JEC (who shall not be one of the members of the JAC or the JTC), and the JEC shall meet once each Fiscal Year during the Term unless it is convened to resolve any matter referred to it by the JAC, in which case it shall convene upon such referral promptly to attempt in good faith to resolve such matter within [***] Business Days. For any matter that remains unresolved by the JEC (including any matter relating to decisions related to the Development of the Licensed Compound or Licensed Products), Ambros' board of directors shall have the final decision-making authority with respect to such matter. The JEC may meet in person, by videoconference or by teleconference. All JEC meetings shall be conducted in English, and all communications, reports and records by and between the Parties under this Agreement shall be in English.

3.8 Working Groups. From time to time, the JAC may establish and delegate duties of the JAC to sub-committees or directed teams (each, a "**Working Group**") on an "as-needed" basis to oversee particular projects or activities; provided that in any case neither Party shall be required by the Working Group to assume any responsibility, financial or otherwise, beyond those agreed to in writing by such Party, in particular pursuant to each Party's respective obligations under this Agreement. Each such Working Group shall be constituted and shall operate as the JAC determines; provided that each Working Group shall have equal representation from each Party, unless otherwise mutually agreed. Working Groups may be established on an ad hoc basis for purposes of a specific project or on such other basis as the JAC may determine. Each Working Group and its activities shall be subject to the oversight, review and approval of, and shall report to, the JAC. In no event shall the authority of the Working Group exceed that of the JAC. All decisions of a Working Group shall be by consensus. Any disagreement between the members of a Working Group shall be referred to the JAC for resolution. Without limiting the foregoing, any Working Group regarding the Development or Commercialization of the Licensed Compound or Licensed Products shall include at least one member designated by each of Abiogen and Ambros.

Ambros shall use Commercially Reasonable Efforts to Develop and obtain Regulatory Approval for at least one (1) Licensed Product for use in CRPS-1 in the United States, provided that [***]. Activities by Ambros' Affiliates and Sublicensees will be considered as Ambros' activities under this Agreement for purposes of determining whether Ambros has complied with any obligation to use Commercially Reasonable Efforts. Following expansion of the Ambros Territory to include the Major [***] Markets pursuant to Section 2.7, Ambros shall use Commercially Reasonable Efforts to Develop and obtain Regulatory Approval for at least one (1) Licensed Product for use in CRPS-1 in each such Major [***] Market.

4.2 Required Funding Commitment. In addition to the diligence requirements under Section 4.1, Ambros shall raise, within [***] months following the Effective Date, actual or committed funding from accredited Third Party investors equal to the lesser of (a) [***] U.S. Dollars (US$[***]), or (b) an amount that is sufficient to [***] (the "**Required Funding Commitment**"). Ambros represents that the Required Funding Commitment is expected to be sufficient to fund [***]. If the Required Funding Commitment is not sufficient to fund [***], Ambros hereby agrees that it will use Commercially Reasonable Efforts to obtain sufficient additional funding to [***]. For clarity, the Required Funding Commitment is exclusive of [***].

4.3 Cooperation. Abiogen shall provide such technical assistance and cooperation to Ambros as Ambros may reasonably request, at Ambros' sole cost and expense, as necessary or reasonably useful for Ambros to Develop or Commercialize Licensed Products in the Field in the Ambros Territory; provided, that Ambros shall reimburse Abiogen for any such assistance that exceeds [***] hours of employee support per [***] (such cap excluding any time spent by Abiogen's personnel under Article 3) at a rate of $[***] per hour.

4.4 Development Plan. An initial development plan is attached to this Agreement as **Schedule 4.4** (the "**Initial Development Plan**") and sets forth Ambros' plan for the ongoing Development of the Licensed Compound and Licensed Products, which may be amended by the JAC. The Initial Development Plan sets out a list of critical parameters, requirements or specifications mutually agreed between the Parties (the "**Plan Core Elements**"). On an annual basis, Ambros shall provide to Abiogen through the JAC an updated development plan reflecting any remaining or ongoing development activities until the date on which [***], unless a new development activity is commenced by Ambros for a Licensed Product (such as a new indication or Combination Product), in which case Ambros shall continue to provide an updated development plan on an annual basis. Without limiting the foregoing, Ambros shall prepare and submit to the JAC for review the protocol design of a Phase 3 Clinical Trial in CRPS-1, which upon mutual agreement of the Parties that it corresponds to the Plan Core Elements, shall be appended to this Agreement. [***].

4.5 Development Records. Each Party shall maintain complete, current and accurate records of all activities (and all Data and other Information resulting from such activities) conducted with respect to Licensed Products by such Party, its Affiliates and their respective Sublicensees (in the case of Ambros) and licensees (in the case of Abiogen). Such records shall fully and properly reflect all work done and results achieved in the performance of the Development activities in good scientific manner appropriate for regulatory and patent purposes. Each Party shall document all non-clinical studies and Clinical Trials for Licensed Products in formal written study records according to applicable Laws, including applicable national and international guidelines such as ICH, GCP and GLP, and shall provide the other Party English translations thereof (to the extent prepared and originated in a language other than English). Each Party shall have the right to review and copy such records at reasonable times and to obtain access to the original to the extent necessary or useful for regulatory or patent purposes in accordance with this Agreement. For clarity, nothing in this Section 4.5 requires Abiogen to provide access to, or copies of, Data or Information regarding the manufacturing process of Licensed Compounds or Licensed Products to Ambros.

4.6 Development Reports. Each Party shall keep the other Party reasonably informed as to the progress and results of such Party's, its Affiliates' and their respective (Sub)licensees' Development activities (including prompt reporting of available clinical Data (in English)). Without limiting the foregoing, at each regularly scheduled JAC meeting, each Party shall provide the other Party with a reasonably detailed written report summarizing its Development activities performed since the last JAC meeting and the results thereof. In addition, within [***] days after the end of each Fiscal Year, each Party shall provide the other Party with a detailed written annual report regarding the progress of its Development activities and any results therefrom, *provided* that neither Party shall be required to submit such reports so long as the information that would be contained therein is provided to the JAC or JTC during the time period in which the JAC or the JTC meet regularly. In addition, Ambros shall provide Abiogen, without undue delay, with any updates to the estimated timing for major events in the Development of Licensed Products. The Development records shall be fully uploaded into the Data Room.

4.7 Data Exchange. [***].

4.8 Subcontractors. Ambros shall have the right to engage subcontractors to conduct any activities necessary for Development or, to the extent permitted by this Agreement, Manufacturing of Licensed Products, including but not limited to non-clinical studies, Clinical Trials, CMC activities, and regulatory services for Licensed Products, under this Agreement. Ambros shall ensure that each such subcontractor is subject to terms of a binding agreement consistent with the terms and conditions of this Agreement relevant to the activities performed by such subcontractors, including terms of intellectual property, confidentiality, and non-use consistent with, and at least as protective as, those set forth in this Agreement. Ambros shall be responsible for all acts and omissions of such subcontractors as if such acts or omissions had been taken by Ambros itself.

(b) Ambros shall prepare and submit all Regulatory Materials for the Licensed Product in the Ambros Territory. Abiogen shall prepare and submit all Regulatory Materials for the Licensed Product in the Abiogen Territory. Abiogen shall timely notify Ambros of all material regulatory communications that are related to the Licensed Product in the Abiogen Territory and give Ambros a minimum of [***] days (or such shorter period of time as may be appropriate if a Regulatory Authority requires Abiogen's response sooner than within [***] days) to review and comment. Abiogen shall provide Ambros copies of all regulatory communications regarding the Licensed Product that are in Abiogen's Control and have not been previously provided to Ambros. Abiogen shall also provide to Ambros copies of the final submitted version of each material Regulatory Material and each granted Regulatory Approval in the Abiogen Territory. Ambros shall keep Abiogen informed of regulatory developments related to the Licensed Product(s) in the Ambros Territory via the JAC.

(c) Abiogen shall provide all reasonable assistance and cooperation to Ambros as Ambros may reasonably request, at Ambros' sole cost and expense, during the Term of this Agreement, with respect to the satisfaction of its obligations under Section 5.1(b), including (i) in connection with the preparation of Regulatory Materials, (ii) (A) making available competent personnel to attend regulatory meetings or join such meetings by teleconference and (B) providing documentation within Abiogen's possession and control, in each case as requested by Regulatory Authorities at Ambros' cost, and (iii) providing Ambros with additional Regulatory Materials in the Abiogen Territory as requested by Regulatory Authorities in the Ambros Territory within a reasonable timeframe commensurate with the volume of Ambros' reasonable request. Abiogen shall keep Ambros informed of regulatory developments related to the Licensed Product(s) in the Abiogen Territory via the JAC.

5.2 Right of Reference to Regulatory Materials. Each Party (including its Sublicensee(s), if any) hereby grants to the other Party (i) the right to utilize all data generated during the Development and Commercialization of the Licensed Product in its respective territory and (ii) the right to use any dossiers prepared, and reference any applications for Regulatory Approvals filed, in its respective territory, in each case of (i) and (ii), to the extent necessary or reasonably useful for the other Party's filings for Regulatory Approvals in relation to the Licensed Product in its respective territory and for the Manufacture, to the extent permitted by this Agreement, Development and Commercialization thereof and to the extent allowed legally or contractually under any Third Party agreements entered prior to the Effective Date. Each Party shall support the other Party, as reasonably requested by such other Party and at such other Party's expense, in obtaining Regulatory Approvals in such other Party's territory, including providing necessary documents or other materials required by applicable Laws to obtain Regulatory Approval in such territory, all in accordance with the terms and conditions of this Agreement.

5.3 No Harmful Actions. If either Party believes that the other Party is taking or intends to take any action with respect to any Licensed Product that could reasonably be expected to have an Adverse Risk, whether in the Abiogen Territory or in the Ambros Territory, such Party may bring the matter to the attention of the JAC and the Parties shall [***].

5.4 Notification of Threatened Action. Each Party shall immediately (but in any event no later than [***] Business Days) notify the other Party (including by providing notice to the other Party's Alliance Manager) of any information it receives regarding any threatened or pending action, inspection or communication by or from any Third Party, including without limitation a Regulatory Authority, which may affect the Development, Manufacture, Commercialization or regulatory status of any Licensed Product. Upon receipt of such information, the Parties shall consult with each other [***].

5.5 Adverse Event Reporting and Safety Data Exchange. During the Term, the Parties agree to comply with any and all applicable Laws then applicable to the Licensed Product safety data collection and reporting. No later than [***] days [***] with respect to the Development of any Licensed Product in the Ambros Territory, the Parties shall define and finalize the actions that the Parties shall employ with respect to such Licensed Product to protect patients and promote their well-being in a written pharmacovigilance agreement (the "**Pharmacovigilance Agreement**") for the Development of the Licensed Product globally. Further, no later than one hundred and [***] days [***] of any Licensed Product in the Ambros Territory, the Parties shall enter into a separate Pharmacovigilance Agreement regarding the Commercialization of the Licensed Product. Each of the Pharmacovigilance Agreements shall include mutually acceptable guidelines and procedures for the receipt, investigation, recording, communication, and exchange (as between the Parties) of adverse event reports, pregnancy reports, and any other information concerning the safety of the Licensed Product, and other routine pharmacovigilance reporting requirements (including the Parties' respective obligations relating to periodic safety updates). Such guidelines and procedures shall be in accordance with, and enable the Parties to fulfill, local and national regulatory reporting obligations under applicable Laws. Furthermore, such agreed procedure shall be consistent with relevant ICH guidelines, except where said guidelines may conflict with existing local regulatory reporting requirements, in which case the local reporting requirements shall prevail. The Pharmacovigilance Agreements shall provide for an adverse event database for the Licensed Products in the Field in the Abiogen Territory to be maintained by Abiogen at Abiogen's expense, and a global safety database for the Licensed Products to be maintained by Ambros at Ambros' expense, the contents of which, for clarity, shall also be available to Abiogen. As between the Parties, Abiogen shall be responsible for preparing all adverse event reports and responses to safety issues and requests of Regulatory Authorities relating to Licensed Products in the Field in the Abiogen Territory, and Ambros shall be responsible for preparing all adverse event reports and responses to safety issues and requests of Regulatory Authorities relating to Licensed Products in the Field in the Ambros Territory. As between the Parties, Abiogen shall also be responsible for reporting any quality complaints, adverse events and safety data related to Licensed Products in the Field in the Abiogen Territory to Ambros for inclusion in the global safety database. Each Party hereby agrees to comply with its respective obligations under such Pharmacovigilance Agreement and to cause its Affiliates and Sublicensees and licensees to comply with such obligations.

5.6 Remedial Actions. Each Party will notify the other Party immediately (but in any event no later than [***] Business Days), and promptly confirm such notice in writing, if it obtains information indicating that any Licensed Product may be subject to any recall, corrective action or other regulatory action taken by virtue of applicable Laws (a "**Remedial Action**"). The Parties will assist each other in gathering and evaluating such information as is necessary to determine the necessity of conducting a Remedial Action. Each Party shall, and shall ensure that its Affiliates and Sublicensees and licensees will, maintain adequate records to permit the Parties to trace the packaging, labeling, distribution, sale and use (to the extent possible, but in no event less than what is required under applicable Laws) of the Licensed Product in the Ambros Territory and the Abiogen Territory. Ambros shall have sole discretion with respect to any matters relating to any Remedial Action in the Ambros Territory, including the decision to commence such Remedial Action and the control over such Remedial Action in its territory, at its cost and expense. Abiogen shall have sole discretion with respect to any matters relating to any Remedial Action in the Abiogen Territory, including the decision to commence such Remedial Action and the control over such Remedial Action in its territory, at its cost and expense; *provided, however,* if Ambros determines in good faith that any Remedial Action with respect to any Licensed Product in the Abiogen Territory should be commenced or is required by applicable Laws or Regulatory Authority, Abiogen shall discuss such Remedial Action with Ambros.

Abiogen shall manufacture and supply Drug Substance in accordance with (i) applicable Law, (ii) any requirements by the applicable Regulatory Authority for the Licensed Product in the Ambros Territory, and (iii) the written Drug Substance supply agreement or the Material Transfer Agreement to be entered into simultaneously with this Agreement (in either case, the "**Drug Substance Supply Agreement**"). Following receipt by Abiogen of authorization from the FDA (if any) to manufacture and supply drug product for clinical use in the United States for Clinical Trials of the Licensed Product, when practicable, the Parties shall negotiate in good faith and agree to terms pursuant to which Ambros, for future Development, will obtain supply of drug product for clinical use from Abiogen and shall enter into a clinical supply agreement accordingly.

(b) Abiogen shall manufacture and supply, or have manufactured and have supplied, Licensed Product to Ambros for commercial distribution in the Field in the Ambros Territory, in accordance with (i) applicable Law, (ii) any requirements by the applicable Regulatory Authority for the Licensed Product in the Ambros Territory, and (iii) a written commercial supply agreement to be entered into simultaneously with this Agreement (the "**Commercial Supply Agreement**").

(c) Within [***] days from the execution of this Agreement, the Parties shall enter into a written quality agreement to be negotiated in good faith with reference to the Drug Substance Supply Agreement. Within [***] days from the filing of the Licensed Product to the FDA, the Parties shall enter into a written quality agreement to be negotiated in good faith with reference to the Commercial Supply Agreement (the Drug Substance Supply Agreement and the Commercial Supply Agreement together, the "**Supply Agreements**").

7.3 Supply Price. In case of exercise of one or both of the [***] Option or the [***] Option by Ambros, the transfer price for the commercial supply of Licensed Product for the [***] Territory and the [***] Territory will be negotiated in good faith by the Parties and established within [***] days from the exercise of the applicable option exercise; *provided* that if the Parties *are una*ble to agree upon such commercial supply price, the amounts shall be determined by an independent Third Party appointed by the Parties in accordance with **Schedule 3.2**.

7.4 Second Source Supplier.

(a) Abiogen shall engage a back-up CMO reasonably acceptable to Ambros to ensure that Abiogen is able to meet Ambros' requirements for the commercial supply of Licensed Products. Abiogen shall establish such back-up CMO (i.e., completion of necessary validation, facility approvals and comparability assessments, etc. required under applicable Law to permit the supply of Licensed Product) no later than the filing of the first NDA in the United States for CRPS-1 for the Licensed Product as per the Initial Development Plan in **Schedule 4.4**. Abiogen shall include in any agreement with such CMO a requirement that Ambros will be an express third-party beneficiary under such agreement solely for enforcing certain provisions thereof (including any failure to supply or meet specifications) but not for receiving any intellectual property or confidential information regarding the manufacturing process. Where needed and upon Abiogen's consent, Ambros may procure validation batches of Licensed Products from such back-up CMO, *provided* that Ambros shall not use any such batches for any purpose other than supporting an NDA filing. Ambros shall provide a reasonably detailed description explaining why such procurement is necessary.

(b) Abiogen shall maintain for the entire Term of the Commercial Supply Agreement at least two Drug Substance suppliers. No later than [***] days after the receipt of the first NDA in the United States for CRPS-1 for the Licensed Product, Abiogen shall procure and retain in its premises for the entire term of the Supply Agreements, no less than [***] months of Ambros' requirements of Drug Substance.

7.5 Supply Failure.

(a) If a Party reasonably believes that there is a reasonable risk of a Supply Failure, then such Party shall provide written notice thereof to the other Party, and the Parties shall discuss in good faith potential remedies or failure mitigation strategies.

(b) In the event of a Supply Failure, Abiogen shall promptly investigate the cause of the Supply Failure, and the Parties shall discuss in good faith potential remedies or failure mitigation strategies, including potentially qualifying a second source of supply. Abiogen shall use Commercially Reasonable Efforts to remedy such Supply Failure. Promptly upon Ambros' request following the occurrence of such Supply Failure, Abiogen shall use Commercially Reasonable Efforts to introduce to Ambros one or more other Third Party CMOs that are, in the reasonable opinion of Abiogen, suitable to manufacture the Licensed Product or component that was the subject of the applicable Supply Failure.

(c) In the event of a Supply Failure, Ambros may select and engage one or more other Third Party CMOs (which CMOs must be acceptable to Abiogen (such consent not to be unreasonably withheld, conditioned or delayed)) to Manufacture such Licensed Product or component that was the subject of such Supply Failure for commercial use in the Field in the Ambros Territory. The Parties shall coordinate the logistics of initiation and completion of a technology transfer of the process and technology that is then-used to Manufacture the Licensed Product or component thereof to such Third Party CMO. Additionally in the case of such Supply Failure, Ambros may enter into its own agreement directly with Abiogen's then-current CMOs for supply of the Licensed Product or component thereof for use in the Field in the Ambros Territory, and Abiogen shall use Commercially Reasonable Efforts to assist Ambros to enter into its own agreement directly with the CMO. Upon conclusion of the applicable Supply Failure, Ambros shall use its Commercially Reasonable Efforts to resume the purchase of Licensed Product from Abiogen, *provided* that Ambros may thereafter continue to procure [***] percent ([***]%) of its requirements of Licensed Product from such Third Party CMO.

ARTICLE 8
COMPENSATION

8.1 Equity Consideration. Within [***] Business Days after the Effective Date, Ambros shall issue to Abiogen one or more convertible promissory notes in aggregate principal amount of $15,000,000 in substantially the form attached hereto as Exhibit 8.1 (the "**Note**") as partial consideration for the rights granted by Abiogen to Ambros under this Agreement.

8.2 Royalties on Net Sales.

(a) Royalty Rates. Subject to the terms and conditions of this Section 8.2, Ambros shall pay to Abiogen royalties of [***] percent ([***]%) of aggregate annual Net Sales of all Licensed Products in the Ambros Territory in each Fiscal Year during the applicable Royalty Term. For clarity, royalties payable under this Section 8.2(a) are in addition to the supply price as set out under Section 7.3.

(b) Royalty Term. Royalties payable under Section 8.2(a) shall be paid by Ambros (on a Licensed Product-by-Licensed Product and country-by-country basis) from the period beginning on the date of the First Commercial Sale of each Licensed Product in a country in the Ambros Territory and continuing until the latest of: (i) ten (10) years from the date of First Commercial Sale of such Licensed Product in such country, (ii) expiration of all regulatory exclusivity rights for such Licensed Product in such country, and (iii) expiration of the last Valid Claim of an Abiogen Licensed Patent Covering such Licensed Product in such country (the "**Royalty Term**"). Upon expiration of the appliable Royalty Term for a Licensed Product in a country, sales of such Licensed Product in such country shall no longer be included in the calculation of Net Sales for the purposes of determining the royalty payable under Section 8.2(a) but shall be included in the calculation of Net Sales for the purposes of determining the supply price under Section 7.3.

(c) Know-How Reduction. During the Royalty Term for a given Licensed Product in a given country, upon the expiration of the last Valid Claim of an Abiogen Licensed Patent Covering such Licensed Product in such country, the applicable royalty rates set forth in Section 8.2(a) shall be reduced by [***] percent ([***]%), for such Licensed Product in such country for the remainder of such Royalty Term. Notwithstanding this Section 8.2(c), on a country-by-country basis, prior to the earlier of (i) the [***] anniversary [***] in such country or (ii) [***], no reduction shall apply per this Section 8.2(c).

(d) Third Party Intellectual Property. If it is necessary to obtain a license from any Third Party ("**Third Party License**") under any [***] in order to Develop, Manufacture or Commercialize any Licensed Product(s) in any country, Ambros may deduct from any royalties payable to Abiogen under this Section 8.2 [***] percent ([***]%) of all consideration paid by Ambros or its Affiliates or Sublicensees for such Third Party Licenses.

(e) Royalty Floor; Carry Over. The payment reductions set forth in Sections 8.2(c) and (d) shall be applied on a cumulative basis; provided, that in no event shall any royalties payable to Abiogen under this Agreement for any Licensed Product in a given Calendar Quarter be reduced pursuant to Section 8.2 hereunder to less than [***] percent ([***]%) of the royalty amount that would otherwise have been payable to Abiogen for such Licensed Product in such Calendar Quarter. To the extent a reduction set forth in Sections 8.2(c) is not used to reduce such amounts payable by Ambros during a Calendar Quarter, such reduction (or the applicable portion) may be carried forward to the following Calendar Quarters (as if applied during such following Calendar Quarters for purposes of Sections 8.2(c) and 8.2(d)).

8.3 Development Milestone Payments. If Ambros intends to pursue the Development of a Licensed Product for additional Indications for any indication other than CRPS-1, Ambros shall notify Abiogen of its intention, and the Parties shall discuss and agree upon the amounts for the Development Milestone Payments set forth below in accordance with Section 3.2(a)(iii). Once such amounts are determined, on or before [***] days after Ambros or any of its Affiliates or Sublicensees first achieves each milestone event specified below for additional Indications for the Licensed Product other than CRPS-1 (each, a "**Development Milestone Event**"), Ambros shall notify Abiogen in writing of that fact. Abiogen shall submit an invoice to Ambros for each payment after receiving notice from Ambros that the corresponding Development Milestone Event is achieved by the first Licensed Product by Ambros or any of its Affiliates or Sublicensees (each, a "**Development Milestone Payment**"). Ambros will pay any Development Milestone Payments that are payable within [***] days after receipt of such invoice.

	Development Milestone Event	**Development Milestone Payment**
1	[***]	[***]
2	[***]	[***]
3	[***]	[***]
4	[***]	[***]
5	[***]	[***]
6	[***]	[***]
	Total:	[***]

Each Development Milestone Payment set forth above shall be payable only once with respect to a Licensed Product, regardless of the number of times the applicable Development Milestone Event is achieved by one or more Licensed Products. If a particular Development Milestone Event in this Section 8.3 is not achieved because Development activities occurred such that achievement of such Development Milestone Event was unnecessary or did not otherwise occur, then upon achievement of the subsequent Development Milestone Event, the Development Milestone Payment applicable to the earlier Development Milestone Event will also become due.

8.4 **Sublicensing Revenue Sharing**. Ambros shall pay to Abiogen a portion of all Sublicensing Revenue as follows:

(i) [***]% of Sublicensing Revenue received as the result of any Sublicense entered into prior to [***]; and

(ii) [***]% of Sublicensing Revenue received as the result of any Sublicense entered into following [***].

Ambros may in good faith apportion [***] of Sublicensing Revenue between the Abiogen Technology and such Ambros Technology that are included in such Sublicense, provided that Ambros provides Abiogen with reasonably detailed information on the apportionment and justification no later than [***] days prior to the due date for amounts due. Additionally, if Ambros receives Sublicensing Revenue with respect to a Sublicensee's achievement of any milestone that is substantially similar to a Development Milestone Event, the applicable Sublicensing Revenue payment payable hereunder shall be set off by the amount of such Development Milestone Event, such that Ambros shall only pay Sublicensing Revenue to Abiogen on the portion of such milestone payment by a Sublicensee for amounts in excess of the amount payable to Abiogen for the relevant Development Milestone Event.

8.5 **Royalty Payments; Reports**. Royalties under Section 8.2 shall be calculated and reported for each Calendar Quarter during the Royalty Term and shall be paid within [***] days after the end of the applicable Calendar Quarter, commencing with the Calendar Quarter in which the First Commercial Sale of a Licensed Product occurs. Each payment of royalties shall be accompanied by a report of Net Sales of Licensed Products by Ambros, its Affiliates and their respective Sublicensees in sufficient detail to permit confirmation of the accuracy of the royalty payment made, including: (a) the amount of gross sales and Net Sales of Licensed Products in the Ambros Territory on a Licensed Product-by-Licensed Product and country-by-country basis, (b) an itemized calculation showing the deductions from gross sales (by major category as set forth in the definition of Net Sales) to determine Net Sales, and (c) a calculation of the amount of royalties due to Abiogen in U.S. Dollars, including the application of any exchange rate used. Additionally, within [***] days after the end of each Calendar Quarter during the Term, Ambros shall deliver to Abiogen a statement of Sublicensing Revenue received during the applicable Calendar Quarter and a calculation of the amount of Sublicensing Revenue sharing due for such Calendar Quarter. Along with such reports, Ambros shall pay Abiogen the Sublicensing Revenue sharing payment due for such Calendar Quarter.

8.6 Payment Method; Foreign Exchange. All payments owed by Ambros under this Agreement shall be made by wire transfer in immediately available funds to an Abiogen bank and account designated in writing by Abiogen. For clarity, all payments by Ambros to Abiogen pursuant to Sections 8.2, 8.3 and 8.4 shall be in U.S. Dollars. The rate of exchange to be used in computing the amount of currency equivalent in U.S. Dollars of any amounts payable in U.S. Dollars by Ambros to Abiogen under this Agreement shall be determined and calculated using the average rate of exchange based on OANDA Corporation rates (or the rates listed by any similar entity in the event that OANDA Corporation no longer provides such rates) for the Calendar Quarter in which the applicable payment is due.

8.7 Interest on Late Payments. If Abiogen does not receive payment of any sum due to it on or before the due date, interest shall thereafter accrue on the sum due to Abiogen until the date of payment at the per annum rate of [***] percent ([***]%) over the then-current prime rate reported in The Wall Street Journal or the maximum rate allowable by applicable Laws, whichever is lower.

8.8 Upstream Agreement Payments. Abiogen shall be solely responsible for any payments payable to a Third Party under an Upstream Agreement resulting from the Exploitation or Manufacturing of a Licensed Compound or Licensed Product pursuant to this Agreement.

8.9 Records; Audits and Financial Statement.

(a) Records: Ambros shall, and shall cause its Affiliates and their respective Sublicensees to, maintain in accordance with Accounting Standards, reasonably complete and accurate records in sufficient detail to permit Abiogen to confirm the accuracy of the calculation of royalty payments, Sublicensing Revenue sharing payments and the achievement of the milestone events. All payments and other relevant amounts under this Agreement shall be accounted for in accordance with Accounting Standards. The records for a given Fiscal Year shall be subject to audit no more than one time.

(b) Audit: Upon reasonable prior written notice, in any event no less than [***] days prior written notice, such records shall be available for examination during regular business [***] and in a manner that does not interfere with Ambros' business activities for a period of [***] years from the end of the Fiscal Year to which they pertain, and not more often than once each Fiscal Year, by an internationally-recognized independent certified public accountant selected by Abiogen and reasonably acceptable to Ambros, for the sole purpose of verifying the accuracy of the financial reports furnished by Ambros pursuant to this Agreement and any payments with respect thereto. Any such auditor shall not disclose Ambros' Confidential Information, except to the extent such disclosure is necessary to verify the accuracy of the financial reports furnished by Ambros or the amount of payments due under this Agreement. Any amounts shown to be owed but unpaid shall be paid within [***] days from the accountant's report, plus interest (as set forth in Section 8.7) from the original due date. Abiogen shall bear the full cost of such audit unless such audit discloses an underpayment by Ambros of more than [***] percent ([***]%) of the amount due for the audited period, in which case Ambros shall bear the full cost of such audit. The records for a given Fiscal Year shall be subject to audit no more than one time

(c) Financial Statement. During the period commencing on the Effective Date and continuing until the earliest of (i) an initial public offering of Ambros' common shares; (ii) a Change of Control of Ambros; or (iii) Abiogen no longer retaining Notes or shares in Ambros, Ambros will provide Abiogen with a copy of its quarterly financial reports and audited annual financial statements no later than [***] days after final versions of such reports or statements become available. Ambros will cause its annual financial statements provided to Abiogen to be prepared under applicable Accounting Standards and reviewed and audited by qualified independent auditors.

8.10 Taxes.

(a) Taxes on Income. Except as set forth in this Section 8.10, each Party shall be solely responsible for the payment of all taxes imposed on its share of income arising directly or indirectly from the efforts of the Parties under this Agreement. Neither Party shall have any obligation towards the other Party in case that the other Party fails to fully comply with its Tax obligations.

(b) Withholding Income Taxes. To the extent any payments made by Ambros pursuant to this Agreement become subject to withholding income Taxes under applicable Laws (i.e. those payments related to (i) royalty pursuant Section 8.2(a) of this Agreement; (ii) the Sublicensing Revenues sharing pursuant to Section 8.4 of this Agreement; or (ii) any potential milestone payments payable under Section 8.3), Ambros shall deduct and withhold the amount of such Taxes for the account of Abiogen to the extent required by applicable Laws; such amounts payable to Abiogen shall be reduced by the amount of withholding income Taxes deducted and withheld; and Ambros shall pay the amounts of such Taxes to the proper Governmental Authority in a timely manner and transmit to Abiogen an official tax certificate or other evidence of such Tax obligations together with proof of payment from the relevant Governmental Authority of all amounts deducted and withheld sufficient to enable Abiogen to claim such payment of Taxes. Any such withholding income Taxes required under applicable Laws to be paid or withheld shall be an expense of, and borne solely by, Abiogen. If Abiogen is entitled (whether under any applicable tax treaty or otherwise under applicable Laws) to a reduction in the rate of, or the elimination of, withholding income Tax, it may deliver to Ambros or the appropriate Governmental Authority (with the assistance of Ambros to the extent that this is reasonably required and is expressly requested in writing) the prescribed forms necessary to reduce the applicable rate of withholding or to relieve Ambros of its obligation to withhold Tax, and Ambros shall apply the reduced rate of withholding, or dispense with withholding, as the case may be. Ambros agrees to take reasonable and lawful efforts to minimize such withholding income Taxes that would otherwise be borne by Abiogen. Ambros shall cooperate with Abiogen as reasonably requested in any claim for refund or application to any Governmental Authority.

(c) VAT. All payments due to Abiogen from Ambros pursuant to this Agreement shall be paid exclusive of, and without reduction for, any value-added tax (including, for greater certainty, any goods and services tax, harmonized sales tax and any similar taxes) ("**VAT**") (which, if applicable, shall be payable by Ambros). Ambros shall be responsible for the payment of all VAT applicable to the payments made by Ambros to Abiogen under this Agreement and shall file all applicable VAT tax returns. Abiogen shall cooperate, to the extent reasonably required, with the filing of any such VAT tax returns. Ambros shall indemnify Abiogen for any VAT imposed on Abiogen with respect to the payments made to it by Ambros under this Agreement and if Abiogen directly pays any VAT, Ambros shall promptly reimburse Abiogen for such VAT including all reasonable related costs. If Abiogen determines that it is required to report any such tax, Ambros shall promptly provide Abiogen with applicable receipts and other documentation necessary or appropriate for such report. For clarity, this Section 8.10(c) is not intended to limit Ambros' right to deduct VAT in determining Net Sales.

Ambros shall provide Abiogen with regular updates on the prosecution of the Abiogen Licensed Patents. Ambros shall not abandon or take any other action that would pose a material detriment to the Abiogen Licensed Patents without the prior written consent of Abiogen. As between the Parties, Abiogen shall have the sole right, at its sole expense, to prepare, file, prosecute and maintain or abandon all Abiogen Licensed Patents in the Abiogen Territory; provided, however, that Abiogen does not represent or warrant that any patent will issue or be granted based on patent applications contained in the Abiogen Licensed Patents in the Abiogen Territory. Abiogen shall provide Ambros with a copy of the draft prepared for the filing of an Abiogen Licensed Patent before the filing of such Abiogen Licensed Patent and will consider in good faith comments thereto provided by Ambros in connection with the filing thereof. Abiogen shall provide Ambros with regular updates on the prosecution of the Abiogen Licensed Patents.

(c) **Ambros Patents**. Ambros shall have the sole right, but not the obligation, to prepare, file, prosecute and maintain or abandon the Ambros Patents on a worldwide basis. For clarity, Abiogen shall not have any rights pursuant to this Agreement with respect to any Ambros Patents (including any Step-In Rights relating thereto).

(d) **Joint Patents**.

(i) Except as set forth in Section 9.2(e), as between the Parties, Ambros shall have the sole right to prepare, file, prosecute and maintain or abandon the Product Specific Joint Patents in the Ambros Territory; *provided, however*, that Ambros does not represent or warrant that any patent will issue or be granted based on patent applications contained in the Product Specific Joint Patents in the Ambros Territory. Ambros shall provide Abiogen with a copy of the draft prepared for the filing of a Product Specific Joint Patent before the filing of such Product Specific Joint Patent and will consider in good faith comments thereto provided by Abiogen in connection with the filing thereof. Ambros shall provide Abiogen with regular updates on the prosecution of the Product Specific Joint Patents.

(ii) Except as set forth in Section 9.2(e), as between the Parties, Abiogen shall have the sole right to prepare, file, prosecute and maintain or abandon the Product Specific Joint Patents in the Abiogen Territory; *provided, however*, that Abiogen does not represent or warrant that any patent will issue or be granted based on patent applications contained in the Product Specific Joint Patents in the Abiogen Territory. Abiogen shall provide Ambros with a copy of the draft prepared for the filing of a Product Specific Joint Patent before the filing of such Product Specific Joint Patent and will consider in good faith comments thereto provided by Ambros in connection with the filing thereof. Abiogen shall provide Ambros with regular updates on the prosecution of the Product Specific Joint Patents.

(e) Step-In Rights. Either Party may cease prosecution and/or maintenance of any Patent that such Party is responsible for prosecuting and maintaining pursuant to this Section 9.2 on a country-by-country basis by providing the other Party written notice reasonably in advance of the due date for any filing or fee relating to such Patent and in all cases at least [***] days prior to the date that action is required to avoid abandonment or lapse of such Patent. If the responsible Party elects to cease prosecution or maintenance of the relevant Patent in a country, the other Party shall have the right, but not the obligation, at its sole discretion and cost, to continue prosecution or maintenance of such Patent and in such country ("**Step-In Rights**"), provided that Abiogen may only exercise its Step-In Rights with respect to Product Specific Joint Patents and Abiogen Licensed Patents. If the other Party elects to continue prosecution or maintenance or elects to file additional applications following the responsible Party's election to cease prosecution or maintenance pursuant to this Section 9.2(e), the responsible Party shall transfer the applicable patent files to such other Party or its designee and execute such documents and perform such acts at the responsible Party's expense as may be reasonably necessary to allow the other Party to initiate or continue such filing, prosecution or maintenance at the other Party's sole expense.

(f) Cooperation. Each Party shall provide the other Party with all reasonable assistance and cooperation in the patent prosecution efforts set forth in this Section 9.2, including providing any necessary powers of attorney and executing any other required documents or instruments for such prosecution.

9.3 Patent Term Extensions in the Ambros Territory. The JAC will discuss and recommend for which, if any, of the Patents within the Abiogen Licensed Patents, Ambros Patents and Product Specific Joint Patents in the Ambros Territory the Parties should seek patent term extensions. If after reasonable discussion and good faith consideration of each Party's view on a particular matter before the JAC, the representatives of the Parties cannot reach an agreement as to which Patents such extensions should be sought for, Ambros shall have the final decision-making authority with respect to applying for any such patent term extension in the Ambros Territory. Each Party will cooperate fully with the other Party in making such filings or actions, for example and without limitation, making available all required regulatory Data and Information and executing any required authorizations to apply for such patent term extension. All expenses incurred in connection with activities of each Party with respect to the Patent(s) for which such Ambros seeks patent term extensions pursuant to this Section 9.3 shall be borne by Ambros.

9.4 Patent Enforcement.

(a) Notification; Information Sharing. If either Party becomes aware of any existing or threatened infringement of any Abiogen Licensed Patent, Ambros Patent or Product Specific Joint Patent ("**Infringement**"), it shall promptly notify the other Party in writing to that effect and the Parties will consult with each other regarding any actions to be taken with respect to such Infringement. Each Party shall share with the other Party all information available to it regarding such alleged Infringement, pursuant to a mutually agreeable "common interest agreement" executed by the Parties under which the Parties agree to their shared, mutual interest in the outcome of any suit or other action to enforce the Abiogen Licensed Patents, Ambros Patent and Product Specific Joint Patent against such Infringement.

(b) Enforcement Rights.

(i) Abiogen Licensed Patents.

(A) Ambros shall have the first right, but not the obligation, to bring an appropriate suit or other action against any Person engaged in the Infringement of any Abiogen Licensed Patent in the Ambros Territory, at Ambros' cost and expense. If Ambros elects to commence a suit or other action to enforce the applicable Abiogen Licensed Patent against such Infringement, then Abiogen shall have the right to join such enforcement action upon written notice to Ambros, and the Parties shall share the cost and expense of such enforcement action equally. If Ambros notifies Abiogen in writing that it does not intend to commence a suit or other action to enforce the applicable Abiogen Licensed Patent against such Infringement or to take other action to secure the abatement of such Infringement, or fails to take any such action after a period of [***] Business Days following either Party's receipt of the notice of Infringement pursuant to Section 9.4(a), then, Abiogen shall have the right, but not the obligation, to commence such a suit or take such action, at Abiogen's cost and expense. In such case, Ambros shall take appropriate actions in order to enable Abiogen to commence a suit or take the actions set forth in the preceding sentence. Notwithstanding the foregoing, if Ambros decides, after prior consultation with Abiogen, not to take action or defend against such Infringement because Ambros believes in good faith that such action or defense would be reasonably likely to have an adverse impact on the Exploitation or Manufacturing of Licensed Products or the prosecution and maintenance of Abiogen Licensed Patent or Product Specific Joint Patents, then Abiogen shall not have the right to exercise such step-in enforcement rights.

(B) Neither Party shall settle any such suit or action under Section 9.4(b)(i)(A)in any manner that would negatively impact the Abiogen Licensed Patents or that would limit or that would limit or restrict the ability of Abiogen or Ambros to sell the Licensed Products in the Abiogen Territory or Ambros Territory, respectively, without the prior written consent of the other Party.

(ii) Ambros Patents. Ambros shall have the sole right, but not the obligation, to bring an appropriate suit or other action against any Person engaged in the Infringement of any Ambros Patent, at Ambros' cost and expense.

(iii) Product Specific Joint Patents.

(A) Ambros shall have the first right, but not the obligation, to bring an appropriate suit or other action against any Person engaged in the Infringement of any Product Specific Joint Patent in Ambros Territory, at Ambros' cost and expense. If Ambros elects to commence a suit or other action to enforce the applicable Product Specific Joint Patent against such Infringement, then Abiogen shall have the right to join such enforcement action upon written notice to Ambros, and the Parties shall share the cost and expense of such enforcement action equally. If Ambros notifies Abiogen in writing that it does not intend to commence a suit or other action to enforce the applicable Product Specific Joint Patent against such Infringement or to take other action to secure the abatement of such Infringement, or fails to take any such action after a period of [***] Business Days following either Party's receipt of the notice of Infringement pursuant to Section 9.4(a), then, Abiogen shall have the right, but not the obligation, to commence such a suit or take such action, at Abiogen's cost and expense. In such case, Ambros shall take appropriate actions in order to enable Abiogen to commence a suit or take the actions set forth in the preceding sentence. Notwithstanding the foregoing, if Ambros decides, after prior consultation with Abiogen, not to take action or defend against such Infringement because Ambros believes in good faith that such action or defense would be reasonably likely to have an adverse impact on the Exploitation of Licensed Products or the prosecution and maintenance of Abiogen Licensed Patents or Product Specific Joint Patents, then Abiogen shall not have the right to exercise such step-in enforcement rights.

(B) Abiogen shall have the first right, but not the obligation, to bring an appropriate suit or other action against any Person engaged in the Infringement of any Product Specific Joint Patent in Abiogen Territory, at Abiogen's cost and expense. If Abiogen elects to commence a suit or other action to enforce the applicable Product Specific Joint Patent against such Infringement, then Ambros shall have the right to join such enforcement action upon written notice to Abiogen, and the Parties shall share the cost and expense of such enforcement action equally. If Abiogen notifies Ambros in writing that it does not intend to commence a suit or other action to enforce the applicable Product Specific Joint Patent against such Infringement or to take other action to secure the abatement of such Infringement, or fails to take any such action after a period of [***] Business Days following either Party's receipt of the notice of Infringement pursuant to Section 9.4(a), then, Ambros shall have the right, but not the obligation, to commence such a suit or take such action, at Ambros' cost and expense. In such case, Abiogen shall take appropriate actions in order to enable Ambros to commence a suit or take the actions set forth in the preceding sentence.

(C) Neither Party shall settle any such suit or action under Sections 9.4(b)(iii)(A) or 9.4(b)(iii)(B) in any manner that would negatively impact the Product Specific Joint Patents or that would limit or restrict the ability of Abiogen or Ambros to sell the Licensed Products in the Abiogen Territory or Ambros Territory, respectively, without the prior written consent of the other Party.

(iv) **Other Joint Inventions**. Ambros and Abiogen shall share responsibilities and decision-making with regard to patent matters relating to all other Joint Invention and shall share costs with respect thereto, unless otherwise agreed between the Parties.

(c) **Collaboration**. Each Party shall provide to the Party bringing a claim, suit or action under Section 9.4 (the "**Enforcing Party**") with reasonable assistance in such enforcement, including joining such action as a party plaintiff if required by applicable Laws to pursue such action. The Enforcing Party shall keep the other Party regularly informed of the status and progress of such enforcement efforts, and shall reasonably consider the other Party's comments on any such efforts. The non-enforcing Party shall be entitled to separate representation in such matter by counsel of its own choice and at its own expense, but such Party shall at all times cooperate fully with the Enforcing Party.

(d) **Expenses and Recoveries**. The Enforcing Party shall be solely responsible for any expenses it incurs as a result of such enforcement action, except that the Parties shall share equally the cost and expense of the enforcement action when one Party is the Enforcing Party and the other Party elects to join the enforcement action. If the Enforcing Party recovers monetary damages in such claim, suit or action brought under Section 9.4, such recovery shall be allocated [***].

(e) **Survival**. Sections 9.4(c) and 9.4(d) shall survive the termination of this Agreement solely with respect to any pending enforcement action initiated during the Term under this Section 9.4.

9.5 Third Party Infringement Claims. If the Manufacture, use or sale of the Licensed Products in the Field in the Ambros Territory pursuant to this Agreement results in a claim, suit or proceeding alleging patent infringement against Abiogen or Ambros (or their respective Affiliates, licensees or Sublicensees) (collectively, "**Infringement Actions**"), such Party shall promptly notify the other Party hereto in writing. Subject to Article 11, the Party for which the Infringement Action is brought against (the "**Accused Party**") shall have the right to direct and control the defense of such Infringement Action, at its own expense with counsel of its choice; *provided, however,* that the other Party may participate in the defense and/or settlement thereof, at its own expense with counsel of its choice. In any event, the Accused Party agrees to keep the other Party reasonably informed of all material developments in connection with any such Infringement Action for which the Accused Party exercises its right to direct and control the defense. The Accused Party agrees not to settle such Infringement Action, or make any admissions or assert any position in such Infringement Action, in a manner that would adversely affect the rights or interests of the other Party, without the prior written consent of the other Party, which shall not be unreasonably withheld or delayed. Subject to Article 11, if the Accused Party does not exercise its right to direct and control the defense of an Infringement Action that is brought against the other Party, then the other Party shall have such right and it shall agree to keep the Accused Party reasonably informed of all material developments in connection with such Infringement Action and it shall not settle such Infringement Action, or make any admissions or assert any position in such Infringement Action, in a manner that would materially adversely affect the rights or interests of the Accused Party, without the prior written consent of the Accused Party, which shall not be unreasonably withheld or delayed.

(i) It solely owns the Abiogen Licensed Patents or otherwise has sufficient legal and/or beneficial title or ownership or license with respect to the Abiogen Technology as necessary to grant the licenses to Ambros as purported to be granted pursuant to this Agreement, free and clear from any mortgages, pledges, liens, security interests, conditional and installment sale agreement, encumbrances, charges or claim of any kind, and (ii) to Abiogen's Knowledge, no Third Party has taken any action before the United States Patent and Trademark Office, or any counterpart thereof outside the U.S., claiming legal and/or beneficial title or ownership or license of any Abiogen Technology;

(b) **Third Party Technology**. (c) **Notice of Infringement or Misappropriation**. It has not received any written notice from any Third Party asserting or alleging that (i) any Exploitation or Manufacturing of a Licensed Product by Abiogen prior to the Effective Date infringed or misappropriated the intellectual property rights of such Third Party, or (ii) the Exploitation or Manufacturing of the Licensed Products in the Ambros Territory would infringe or misappropriate the intellectual property rights of such Third Party;

(g) **Prosecution of Abiogen Licensed Patents**. All maintenance fees, annuity payments, and similar payments relating to the Abiogen Licensed Patents in the Ambros Territory have been made. To Abiogen's Knowledge, prior to the Effective Date, Abiogen has not taken action or failed to undertake an action, in connection with filing, prosecuting and maintaining the Abiogen Licensed Patents set forth in **Schedule 1.2** in the Ambros Territory in violation of any applicable Law;

(h) **Compliance with Laws**. To Abiogen's Knowledge, Abiogen has complied with all applicable Laws in connection with the prosecution of the Abiogen Licensed Patents, including the duty of candor owed to any patent office pursuant to such Laws;

(j) **No Conflicts**. Abiogen has not entered, and shall not enter, into any agreement with any Third Party that is in conflict with the rights granted to Ambros under this Agreement, and has not taken and shall not take any action that would in any way prevent it from granting the rights granted to Ambros under this Agreement, or that would otherwise materially conflict with or adversely affect Ambros' rights under this Agreement;

(k) **Existing Agreements**. **Schedule 10.2(k)** sets forth a true, complete and correct list of all agreements in effect as of the Effective Date, whether written or oral, by and between Abiogen and any of its Affiliates, on the one hand, and one (1) or more Third Parties, on the other hand, that relate to the Exploitation or Manufacturing of any Licensed Compound or Licensed Product in Ambros Territory, including the conduct of pre-clinical Development activities or Clinical Trials (such agreements the "**Existing Agreements**"), excluding service agreements and confidentiality and non-disclosure agreements entered into in the normal course or the Upstream Agreement. Each Existing Agreement is enforceable against each party to such Existing Agreement, and all such Existing Agreements are in full force and effect. Except for the Upstream Agreement, there are no in-license or other agreements under which Abiogen or any of its Affiliates obtains any rights to any intellectual property rights licensed to Ambros hereunder. The rights and obligations of the Parties hereunder are fully consistent with, and are not limited in any material respect by, the Existing Agreements. Abiogen shall promptly provide Ambros with notice of any alleged, threatened or actual breach of any Existing Agreement. None of Abiogen, its Affiliates and, to the Knowledge of Abiogen, any Third Party is in breach of any Existing Agreement; and

(l) Upstream Agreement. Abiogen, on behalf of itself and its Affiliates, is in compliance in all respects with the Upstream Agreement, and to Abiogen's Knowledge, the respective counterparty to the Upstream Agreement is in compliance with the Upstream Agreement and the Upstream Agreement is in full force and effect, and the execution and delivery of this Agreement does not conflict with, violate, or breach Abiogen's or its Affiliates' obligations under the Upstream Agreement.

10.3 Compliance with Laws. Each Party shall, and shall ensure that its Affiliates and their respective Sublicensees and licensees will comply with all applicable Laws (including Anti-Corruption Laws) in the Exploitation and Manufacturing of Licensed Products and performance of its obligations under this Agreement, including the ICH, GCP, GLP, GMP and any Regulatory Authority and Governmental Authority health care programs having jurisdiction in such Party's respective territory, each as may be amended from time to time.

10.4 Full Disclosure. As of the Effective Date, (a) the representations and warranties of Abiogen in this Agreement, and (b) to Abiogen's Knowledge, the information, documents and materials furnished to Ambros in the digital data room established for purposes of this transaction hosted at SharePoint in connection with its period of diligence prior to the Effective Date, do not, taken as a whole, (i) contain any untrue statement of a material fact or (ii) omit to state any material fact necessary to make the statements or facts contained therein, in light of the circumstances under which they were made, not misleading.

10.5 Mutual Covenant. Prior to receipt of first Regulatory Approval for a Licensed Product in the NA Territory, neither Party will Develop or Commercialize any product for the treatment of CRPS-1, other than the Licensed Product in or for their respective territories (as applicable), without the prior consent of the other Party.

10.6 Additional Abiogen Covenants.

(a) Upstream Agreements. In addition to any covenants made by the Parties elsewhere in this Agreement, Abiogen hereby covenants to Ambros that it shall not, during the Term, without the prior written approval of Ambros, (a) amend any provision of the Upstream Agreement that would adversely impact Ambros' rights under this Agreement, or (b) assign (except an assignment to a party to which this Agreement has been assigned as permitted under Section 15.6 or to any Affiliate), in whole or in part, the Upstream Agreement in any manner that would adversely impact Ambros' rights under this Agreement, in each case, without the prior written consent of Ambros.

(b) Existing Agreements. Abiogen shall not, and shall cause its Affiliates not to, enter into any subsequent agreement or understanding with any Third Party to an Existing Agreement that modifies, amends or terminates any such Existing Agreement, or waives any right or obligation thereunder, in each case, in any manner that would materially and adversely affect in any respect Ambros' rights or interests under this Agreement or would impose any obligation on Ambros, in each case, without Ambros' prior written consent. Abiogen shall not, and shall cause its Affiliates not to, commit any acts or permit the occurrence of any omissions that would cause breach or termination of any of its Existing Agreements where such breach or termination would materially and adversely affect in any respect Ambros' rights or interests under this Agreement or impose any obligation on Ambros.

10.7 Additional Ambros Covenant. Ambros shall not, and shall cause its Affiliates not to, sell or distribute any Licensed Product manufactured by any Person other than Abiogen (itself or through a CDMO or CMO), other than as permitted under Article 7 (including in the event of a Supply Failure).

10.8 Additional Representation and Warranty of Ambros. Ambros represents and warrants to Abiogen that, as of the Effective Date, to the best of its knowledge, the Required Funding Commitment is expected to be sufficient to fund [***].

10.9 No Other Representations or Warranties. EXCEPT AS EXPRESSLY STATED IN THIS AGREEMENT, NO REPRESENTATIONS OR WARRANTIES WHATSOEVER, WHETHER EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT OR NON-MISAPPROPRIATION OF THIRD PARTY INTELLECTUAL PROPERTY RIGHTS, ARE MADE OR GIVEN BY OR ON BEHALF OF A PARTY OR ITS AFFILIATES, AND ALL REPRESENTATIONS AND WARRANTIES, WHETHER ARISING BY OPERATION OF LAW OR OTHERWISE, ARE HEREBY EXPRESSLY EXCLUDED. FOR CLARITY AND WITHOUT LIMITING THE FOREGOING, ABIOGEN MAKES NO REPRESENTATION OR WARRANTY CONCERNING THE LICENSED COMPOUND, LICENSED PRODUCTS OR ABIOGEN TECHNOLOGY EXCEPT AS EXPRESSLY SET FORTH IN THIS ARTICLE 10.

ARTICLE 11
INDEMNIFICATION

11.1 Indemnification by Abiogen. Abiogen shall defend, indemnify, and hold Ambros and its Affiliates and their respective officers, directors, employees, agents, successors and assigns (the "**Ambros Indemnitees**") harmless from and against any and all losses, damages, liabilities, actually incurred expenses and costs, including reasonable legal expense and attorneys' fees ("**Losses**") to which any Ambros Indemnitee may become subject as a result of [***]. The foregoing indemnity obligation shall not apply to the extent that [***].

11.2 Indemnification by Ambros. Ambros shall defend, indemnify, and hold Abiogen and its Affiliates and their respective officers, directors, employees, agents, successors and assigns (the "**Abiogen Indemnitees**") harmless from and against any and all Losses to which any Abiogen Indemnitee may become subject as a result of any [***]. The foregoing indemnity obligation shall not apply to the extent that [***].

11.3 Indemnification Procedures. The Party claiming indemnity under this Article 11 (the "**Indemnified Party**") shall give written notice to the Party from whom indemnity is being sought (the "**Indemnifying Party**") promptly after learning of such Claim and shall offer control of the defense of such Claim to the Indemnifying Party. The Indemnified Party shall provide the Indemnifying Party with reasonable assistance, at the Indemnifying Party's expense, in connection with the defense of the Claim for which indemnity is being sought. The Indemnified Party may participate in and monitor such defense with counsel of its own choosing at its sole expense; *provided, however,* the Indemnifying Party shall have the right to assume and conduct the defense of the Claim with counsel of its choice. The Indemnifying Party shall not settle any Claim without the prior written consent of the Indemnified Party, not to be unreasonably withheld, unless the settlement involves only the payment of money. So long as the Indemnifying Party is actively defending the Claim in good faith, the Indemnified Party shall not settle or compromise any such Claim without the prior written consent of the Indemnifying Party. If the Indemnifying Party does not assume and conduct the defense of the Claim as provided above, (a) the Indemnified Party may defend against, consent to the entry of any judgment, or enter into any settlement with respect to such Claim in any manner the Indemnified Party may deem reasonably appropriate (and the Indemnified Party need not consult with, or obtain any consent from, the Indemnifying Party in connection therewith), and (b) the Indemnifying Party shall remain responsible to indemnify the Indemnified Party as provided in this Article 11. Notwithstanding anything contained in this Section 11.3, the provisions of Section 9.5 shall govern the defense of any Infringement Actions.

11.4 Limitation of Liability. NEITHER PARTY SHALL BE LIABLE TO THE OTHER PARTY FOR ANY SPECIAL, CONSEQUENTIAL, INCIDENTAL, PUNITIVE, OR INDIRECT DAMAGES (INCLUDING LOSS OF PROFITS) ARISING FROM OR RELATING TO ANY BREACH OF THIS AGREEMENT, REGARDLESS OF ANY NOTICE OF THE POSSIBILITY OF SUCH DAMAGES. NOTWITHSTANDING THE FOREGOING, NOTHING IN THIS SECTION 11.4 IS INTENDED TO OR SHALL LIMIT OR RESTRICT THE INDEMNIFICATION RIGHTS OR OBLIGATIONS OF ANY PARTY UNDER SECTION 11.1 OR 11.2, OR DAMAGES AVAILABLE FOR A PARTY'S GROSS NEGLIGENCE, WILLFUL MISCONDUCT, FRAUD, BREACH OF ITS CONFIDENTIALITY AND NON-USE OBLIGATIONS IN ARTICLE 12, BREACH OF ITS OBLIGATIONS UNDER SECTION 6.4 OR, IN THE CASE OF AMBROS, ANY ACTUAL LOSS OR DAMAGE ARISING DIRECTLY FROM MANUFACTURING MISAPPROPRIATION (AS DEFINED IN THE NEXT SENTENCE). For purposes of the preceding sentence, "Manufacturing Misappropriation" means the use by Ambros (itself, or with or through any Affiliates, Sublicensees or Third Parties) of Abiogen's Confidential Information directly relating to its manufacturing processes of Licensed Compounds or Licensed Products (including, for the avoidance of doubt, any such Information of which Ambros becomes aware through its management of CDMOs as permitted under this Agreement and all such Information described in the second paragraph of Section 2.1(a)) for any purpose other than to extent permitted under this Agreement.

11.5 Insurance. Each Party shall procure and maintain insurance adequate to cover its obligations hereunder and consistent with normal business practices of prudent companies similarly situated. It is understood that such insurance shall not be construed to create a limit of either Party's liability with respect to its indemnification obligations under this Article 11. Each Party shall provide the other Party with written evidence of such insurance upon request. Each Party shall provide the other Party with written notice at least [***] days prior to the cancellation, non-renewal or material change in such insurance.

ARTICLE 12
CONFIDENTIALITY

12.1 Confidentiality. Each Party agrees that, during the Term and for a period of [***] years thereafter (or, if longer, until the end of the last Royalty Term), it shall keep confidential and shall not publish or otherwise disclose and shall not use for any purpose other than as provided for in this Agreement (which includes the exercise of any rights or the performance of any obligations hereunder or thereunder) any Confidential Information of the other Party, except to the extent expressly agreed in writing by the Parties. The foregoing confidentiality and non-use obligations shall not apply to any portion of the other Party's Confidential Information that the receiving Party can demonstrate by competent written proof:

(a) was already known to the receiving Party or its Affiliate, other than under an obligation of confidentiality, at the time of disclosure by the other Party;

(b) was generally available to the public or otherwise part of the public domain at the time of its disclosure to the receiving Party;

(c) became generally available to the public or otherwise part of the public domain after its disclosure and other than through any act or omission of the receiving Party or its Affiliate in breach of this Agreement;

(d) was disclosed to the receiving Party or its Affiliate without any confidentiality obligations by a Third Party who, to the Party's knowledge, had a legal right to make such disclosure and who did not obtain such information directly or indirectly from the other Party; or

(e) was independently discovered or developed by the receiving Party or its Affiliate without use of or reference to the other Party's Confidential Information, as evidenced by a contemporaneous writing.

For clarity, clauses (a), (d) and (e) above shall not limit Abiogen's confidentiality obligations with respect to Abiogen Licensed Know-How that is specifically related to the Licensed Compound.

12.2 Authorized Disclosure. Notwithstanding the obligations set forth in Section 12.1, a Party may disclose the other Party's Confidential Information and the terms of this Agreement to the extent:

(a) such disclosure is reasonably necessary (i) for the filing or prosecuting of Patent rights as contemplated herein; (ii) to comply with the requirements of Regulatory Authorities with respect to obtaining and maintaining Regulatory Approval of Licensed Product; (iii) for the prosecuting or defending litigation as contemplated herein; or (iv) for the Development of a Licensed Compound or Licensed Product in a Party's respective territory;

(b) such disclosure is reasonably necessary to its or its Affiliate's employees, agents, consultants, contractors, licensees or Sublicensees, on a need-to-know basis for the sole purpose of performing its obligations or exercising its rights hereunder; provided that in each case, the disclosees are bound by written obligations of confidentiality consistent with those contained in this Agreement; or

(c) such disclosure is reasonably necessary to comply with applicable Laws, including regulations or rules promulgated by applicable securities commissions (or other securities regulatory authorities), security exchanges, court order, administrative subpoena or order; and

(d) solely with respect to the terms of this Agreement and excluding disclosure of any other Confidential Information, such disclosure is reasonably necessary to any bona fide potential or actual investor, acquiror, merger partner, or other financial or commercial partner for the sole purpose of evaluating or carrying out an actual or potential investment, financing, acquisition or other business relationship; provided that in connection with such disclosure, such Party shall inform each disclosee of the confidential nature of such Confidential Information and require (by written agreement executed prior to disclosure of Confidential Information) each disclosee to treat such Confidential Information as confidential.

Notwithstanding the foregoing, in the event a Party is required to make a disclosure of the other Party's Confidential Information pursuant to Section 12.2(a) or 12.2(c), such Party shall promptly notify the other Party of such required disclosure, to the extent that it is legally authorized or permitted to so, and shall use reasonable efforts to obtain, or to assist the other Party in obtaining, where necessary, a protective order preventing or limiting the required disclosure.

12.3 Publicity; Terms of Agreement.

(a) The Parties agree that the terms of this Agreement are the Confidential Information of both Parties, subject to the special authorized disclosure provisions set forth in this Section 12.3.

(b) Neither Party shall issue any press release, trade announcement or make any other public announcement or statement with regard to the transactions contemplated by this Agreement without the other Party's prior written consent. If either Party desires to make any additional public disclosure concerning the terms of this Agreement, such Party shall give the proposed text of such disclosure to the other Party reasonably in advance (but in any case no less than [***] Business Days prior to the disclosure) for its prior review and approval (except as otherwise provided herein), which approval shall not be unreasonably withheld or delayed. A Party commenting on such a proposed disclosure shall provide its comments, if any, within [***] Business Days after receiving the proposed disclosure for review (or such shorter period of time as necessitated by regulatory requirements). In relation to the other Party's review of such an announcement, such other Party may make specific, reasonable comments on such proposed press release within the prescribed time for commentary. Neither Party shall be required to seek the permission of the other Party to repeat any information regarding the terms of this Agreement that has already been publicly disclosed by such Party, or by the other Party, in accordance with this Section 12.3.

(c) The Parties acknowledge that either or both Parties or their Affiliates may be obligated to file under applicable Laws a copy of this Agreement with Governmental Authorities, including, without limitation, the U.S. Securities and Exchange Commission (the "**SEC**"). Each Party and its Affiliates shall be entitled to make such a required filing, provided that it requests confidential treatment of the commercial terms and sensitive technical terms hereof to the extent such confidential treatment is reasonably available. In the event of any such filing, each Party will provide the other Party with a copy of this Agreement marked to show provisions for which such Party or its Affiliate intends to seek confidential treatment and shall reasonably consider and incorporate the other Party's timely comments thereon to the extent consistent with the legal requirements, with respect to the filing Party or Affiliate, governing disclosure of material agreements and material information that must be publicly filed.

12.4 Technical Publication.

(a) Ambros Publication. Ambros may publish peer reviewed manuscripts, or give other forms of public disclosure such as abstracts and presentations (each such presentation or publication a "**Publication**"), of results of studies carried out under this Agreement or otherwise pertaining to Licensed Compound or Licensed Products in the Field, provided that Ambros shall provide Abiogen with an opportunity for prior review and comment by Abiogen in accordance with this Section 12.4. Subject to the foregoing, Ambros shall provide Abiogen the opportunity to review and comment on any such proposed Publication at least [***] calendar days for abstracts or [***] calendar days for manuscripts prior to its intended submission for Publication (or, in each case, such shorter time as may be agreed between the Parties). Ambros shall consider in good faith any comments thereto provided by Abiogen and shall comply with Abiogen's request to remove any and all of Abiogen's Confidential Information from the proposed Publication. Ambros shall provide Abiogen with a copy of the manuscript at the time of the submission. Ambros agrees to acknowledge the contributions of Abiogen and its employees in all Publications in accordance with scientific practices.

(b) Abiogen Publication. Unless required by Law, Abiogen may not make a Publication of results of studies carried out under this Agreement or otherwise pertaining to the Licensed Compound or Licensed Products in the Field, without the prior written consent of Ambros, except to the extent required by applicable Laws. In the event that Ambros consents to a Publication, Abiogen shall provide Ambros the opportunity to review and comment on any such proposed Publication at least [***] calendar days for abstracts or [***] calendar days for manuscripts prior to its intended submission for Publication. Abiogen incorporate any comments thereto provided by Ambros and shall comply with Ambros' request to remove any and all of Ambros' Confidential Information from the proposed Publication. In addition, Abiogen shall delay the submission for a period up to [***] calendar days in the event that Ambros can demonstrate reasonable need for such delay for the preparation and filing of a patent application. Abiogen shall provide Ambros with a copy of the manuscript at the time of the submission. Abiogen agrees to acknowledge the contributions of Ambros and its employees in all Publications in accordance with scientific practices. For the avoidance of any doubt Abiogen does not have the power to prevent any publication independently made by Third Parties with which Abiogen has no relationship.

12.5 Equitable Relief. Each Party acknowledges that its breach of this Article 12 will cause irreparable harm to the other Party, which cannot be reasonably or adequately compensated in damages in an action at law. By reasons thereof, each Party agrees that the other Party shall be entitled, in addition to any other remedies it may have under this Agreement or otherwise, to preliminary and permanent injunctive and other equitable relief to prevent or curtail any actual or threatened breach of the obligations relating to Confidential Information set forth in this Article 12 by the other Party.

ARTICLE 13
TERM AND TERMINATION

13.1 Term. The term of this Agreement shall commence upon the Effective Date and will continue in full force and effect until expiration as described in this Section 13.1. (the "**Term**"), unless earlier terminated pursuant to this Article 13.

This Agreement will expire as follows:

(a) on a country-by-country and Licensed Product-by-Licensed Product basis, upon the expiration of the Royalty Term with respect to each Licensed Product in each country in the Ambros Territory;

(b) in its entirety, upon the expiration of the Royalty Term with respect to the last Licensed Product Commercialized in the last country in the Ambros Territory.

Upon the expiration (but not early termination) of this Agreement, on a Licensed Product-by-Licensed Product and country-by-country basis, the licenses granted hereunder by Abiogen to Ambros shall become fully paid-up, royalty free, irrevocable and perpetual.

13.2 Termination by Ambros.

(a) Ambros may terminate this Agreement (on a Licensed Product-by-Licensed Product basis, country-by-country basis or in its entirety, provided that the [***] Territory shall be considered a single country for the purposes of termination) for convenience upon [***] months' prior written notice to Abiogen if such notice is provided before the First Commercial Sale of the first Licensed Product in such country in the Ambros Territory. If Ambros terminates this Agreement under this Section 13.2(a), for a period of [***] years from the effective date of such termination, Ambros shall not exploit any other bisphosphonate directed to CRPS-1; *provided, however*, that such restriction shall not apply to an acquirer of all or substantially all of Ambros' assets relating to this Agreement in the event that such acquiror is a publicly traded pharmaceutical company with a market capitalization in excess of US$[***]; and

(b) Ambros may terminate this Agreement (on a Licensed Product-by-Licensed Product basis, country-by-country basis or in its entirety, provided that the [***] Territory shall be considered a single country for the purposes of termination) for convenience upon [***] months prior written notice to Abiogen (if such notice is provided following the First Commercial Sale of the first Licensed Product in such country in the Ambros Territory); *provided, however,* that in no case may Ambros terminate this Agreement pursuant to this Section 13.2(b) before the date that is [***].

In each case under (a) and (b) Abiogen may, in its discretion, upon prior written notice to Ambros accelerate the effectiveness of such termination to the extent permitted by Law in the Ambros Territory, *provided* that such acceleration of the effectiveness of such termination shall not require Ambros to commit materially greater resources (including funds or staff resources) than Ambros would have otherwise committed for transition assistance under Section 13.7(d).

(c) At any time after the Effective Date, Ambros may terminate this Agreement on not less than [***] months' prior written notice to Abiogen if Ambros reasonably determines based upon its review of the clinical data or upon a determination by an applicable drug safety monitoring board or Governmental Authority that the Licensed Compound or the Licensed Products, based upon then-available data, to preclude continued Development or Commercialization of a Licensed Product (such termination, a "**Safety Termination**"). Upon delivery of any such notice of a Safety Termination, Ambros may wind-down its then on-going activities related to the Licensed Products, including any on-going Clinical Trials (to the extent consistent with applicable Laws).

13.3 Termination by Abiogen.

(a) For Patent Challenge. Abiogen may terminate this Agreement in its entirety upon [***] days' prior written notice to Ambros, if Ambros or its Affiliates or their respective Sublicensees (directly or indirectly, individually or in association with any other Person) challenges the validity, enforceability or scope of any Abiogen Licensed Patent, unless during such [***]-day period the subject challenge is permanently dismissed or withdrawn and is not thereafter reinstituted or continued; provided that in the event a Sublicensee of Ambros initiates such challenge, Abiogen may not terminate this Agreement if (i) Ambros successfully causes such Sublicensee to abort such challenge within such [***]-day period, or (ii) Ambros (A) provides Abiogen a written notice of its intent to terminate its sublicense with such Sublicensee within such [***]-day period, and (B) successfully terminates such sublicense within such [***]-day period.

(b) For Failure to Fund. Abiogen may terminate this Agreement in its entirety upon [***] days' prior written notice to Ambros, if Ambros fails to raise (in actual or committed funding) the Required Funding Commitment by the date that is [***] months following the Effective Date.

(c) For Cessation of Activities. Without prejudice to any other remedies available to it at law or in equity (including for any breach of the terms hereof), if Ambros does not initiate or conduct, or cause to be initiated or conducted, Development or Commercialization activities during any consecutive [***] month period, and such suspension of activity is not: (a) by written agreement of the Parties or (b) a result of Ambros' reasonable response to guidance from or action by a Regulatory Authority or other Governmental Authority (such as a clinical hold, a recall or withdrawal), then Abiogen may terminate this Agreement with [***] days' written notice to Ambros.

(d) For Failure to Issue Equity Consideration. Abiogen may terminate this Agreement in its entirety with prior written notice if Ambros fails to timely issue to Abiogen the Note as per Section 8.1 of this Agreement.

13.4 Termination for Breach. Each Party (the "**Non-Breaching Party**") shall have the right to terminate this Agreement in its entirety (or at the Non-Breaching Party's option, on a country-by-country-basis provided that the [***] Territory shall be considered a single country for the purposes of termination) immediately upon written notice to the other Party if the other Party materially breaches this Agreement and, after receiving written notice identifying the alleged material breach in sufficient detail, fails to cure such material breach within [***] days from the date of such notice, provided that, if either Party disputes (a) whether such material breach has occurred, or (b) whether the defaulting Party has cured such material breach, the Parties agree to resolve the dispute as expeditiously as possible under Article 14. It is understood and acknowledged that during the pendency of such a dispute, all of the terms and conditions of this Agreement shall remain in effect and the Parties shall continue to perform all of their respective obligations hereunder.

13.5 Termination Due to Bankruptcy. Either Party may terminate this Agreement if, at any time, the other Party files in any court or agency pursuant to any statute or regulation of any state, country or jurisdiction, a petition in bankruptcy or insolvency or for reorganization or for an arrangement or for the appointment of a receiver or trustee of that Party or of its assets, or if the other Party proposes a written agreement of composition or extension of its debts, or if the other Party is served with an involuntary petition against it, filed in any insolvency proceeding, and such petition is not dismissed within [***] days after the filing thereof, or if the other Party proposes or becomes a Party to any dissolution or liquidation, or if the other Party makes an assignment for the benefit of its creditors.

13.6 Termination by Mutual Consent. The Parties may terminate this Agreement upon written agreement if the Parties reach consensus that Ambros is unable to continue Developing or Commercializing a Licensed Product in the Field in the Ambros Territory.

13.7 Effect of Termination. Upon any termination of this Agreement, the following shall apply (in addition to any other rights and obligations under this Agreement with respect to such termination):

(a) Licenses. All licenses and other rights granted by Abiogen to Ambros under this Agreement shall terminate unless otherwise stated in this Section 13.7(a). Abiogen shall have a reversion of all rights previously licensed to Ambros hereunder for which the relevant licenses have terminated on a fully paid-up and royalty-free basis. In the event this Agreement is terminated by Ambros pursuant to Section 13.4 (including as a result of a breach of Section 6.4, Section 6.5, or Abiogen's failure to use Commercially Reasonable Efforts to Commercialize Licensed Products in accordance with Section 2.7(c)), or by Ambros pursuant to Section 13.5, all licenses and other rights granted by Ambros to Abiogen under Section 7 shall be revoked and shall terminate; *provided* that any such license or other right granted by Ambros to Abiogen in respect of Italy shall not terminate in any event. In the event this Agreement is terminated for any reason other than by Ambros pursuant to Section 13.4 or 13.5, all licenses and other rights granted by Ambros to Abiogen under Sections [***] and 9.1 shall convert to perpetual, irrevocable, royalty-free, fully-paid, worldwide licenses, with the right to grant sublicenses (through multiple tiers) solely to Manufacture and Exploit Licensed Compounds and Licensed Products anywhere in the world for any use.

(b) Wind-Down. Ambros will responsibly wind-down, in accordance with accepted pharmaceutical industry norms and ethical practices, any on-going Clinical Trials for which it has responsibility hereunder in which patient dosing has commenced. For clarity, Ambros may wind-down any ongoing Clinical Trials prior to the date of termination in accordance with accepted pharmaceutical industry norms and ethical practices and Ambros will be responsible for any costs associated with such wind-down. Notwithstanding the foregoing, if this Agreement is terminated by Ambros pursuant to Section 13.2 or by Abiogen pursuant to Sections 13.3, 13.4 or 13.5, then upon the request of Abiogen and solely to the extent permissible by applicable Law, Ambros will transfer any such on-going Clinical Trials to Abiogen (at Abiogen's cost).

(c) Regulatory Materials; Data. Except if this Agreement is terminated by Ambros pursuant to Section 13.4 due to breach by Abiogen, Ambros shall (i) provide and assign to Abiogen or its designee all Regulatory Materials, including Regulatory Approvals, for the Licensed Products to the extent possible under applicable Law in the Ambros Territory (or, if such assignment is not possible under applicable Law, but a right of reference or license is possible, Ambros shall grant such right of reference or license), (ii) promptly provide to Abiogen all Data (to the extent not already provided to Abiogen), including pharmacovigilance data, generated by or on behalf of Ambros (including by its Affiliates or Sublicensees), and (iii) promptly return or destroy, at Abiogen's election, all Confidential Information of Abiogen.

(d) Transition Assistance. Upon Abiogen's reasonable request, (i) Ambros shall provide such assistance as may be reasonably necessary for Abiogen to continue the Development and Commercialization of Licensed Products in the Ambros Territory, to the extent Ambros or its Affiliate is then performing or having performed such activities, including upon the reasonable request of Abiogen, assigning (to the extent Ambros has rights to assign) any agreements or arrangements Ambros or its Affiliate have with any Third Party that are solely for the Development, distribution, sale or other Commercialization of Licensed Products; and (ii) Ambros shall provide Abiogen with copies of any promotional and marketing materials generated by or on behalf of Ambros with respect to Licensed Products prior to the effective date of termination. If this Agreement is terminated by Ambros pursuant to Sections 13.4 due to breach by Abiogen, Abiogen shall bear all costs arising out of any of the transition assistance activities set forth in clause (i) or (ii) performed by Ambros. If this Agreement is terminated by Ambros pursuant to Section 13.2 or by Abiogen pursuant to Sections 13.3 or 13.4, Ambros shall bear all costs arising out of any of the transition assistance activities set forth in clause (i) or (ii) performed by Ambros.

(e) Inventory. In the event that this Agreement is terminated in its entirety, Abiogen shall have the right, but not the obligation, to purchase any and all of the inventory of Licensed Products held by Ambros or its Affiliates as of the date of termination, at (i) no price (i.e., such inventory shall be transferred at no cost to Abiogen) if terminated pursuant to Section 13.4 due to breach by Ambros, or (ii) a price equal to the transfer price paid by Ambros to Abiogen for such inventory for other terminations. Notwithstanding the foregoing, if this Agreement is terminated by Ambros pursuant to Section 13.4 due to breach by Abiogen, upon Ambros' request, at its sole discretion, Abiogen shall re-purchase any and/or all of its inventory of the Licensed Products, at a price equal to Ambros' manufacturing cost therefor. Ambros shall also have the right to continue to be permitted to sell such inventory for up to at least [***] months after the effective date of termination of this Agreement, subject to continued obligations to make payments under Article 8 for such sales of inventory.

(f) Terminated Product. In the event this Agreement is not terminated in its entirety, but rather is terminated on a Licensed Product-by-Licensed Product basis pursuant to Section 13.2, then, notwithstanding anything to the contrary in this Section 13.7, the consequences of termination described herein shall only apply to such terminated Licensed Product, and this Agreement shall remain in full force and effect with respect to all Licensed Products other than such terminated Licensed Product.

(g) Sublicense Agreements. Upon the request of Abiogen, Abiogen shall enter into direct sublicense agreements with each of Ambros' Sublicensees which request such a sublicense agreement.

(h) No Additional Financial Terms. For the avoidance of doubt, in the event this Agreement is terminated, no amounts under Article 8 shall become payable by Abiogen to Ambros.

13.8 Survival. Any expiration or termination of this Agreement shall not affect rights or obligations of the Parties under this Agreement that have accrued prior to the date of expiration or termination. Notwithstanding anything to the contrary, the following provisions shall survive any expiration or termination of this Agreement: Section 9.4(e), Section 10.9, Section 13.6, Section 13.7, this Section 13.8, Section 13.9, Article 8 (to the extent, and with respect to, any payment obligations that have accrued prior to the date of expiration or termination), Article 11, Article 12, Article 14, Article 15 and Article 1 (to the extent defined terms therein are referenced in any of the foregoing Sections or Article).

13.9 Termination Not Sole Remedy. Termination is not the sole remedy under this Agreement and, whether or not termination is effected and notwithstanding anything contained in this Agreement to the contrary, all other remedies shall remain available except as agreed to otherwise herein.

ARTICLE 14
DISPUTE RESOLUTION

14.1 Disputes; Internal Resolution. The Parties recognize that disputes as to certain matters may from time to time arise that relate to either Party's rights and/or obligations hereunder. It is the objective of the Parties to establish procedures to facilitate the resolution of disputes arising under this Agreement in an expedient manner by mutual cooperation. To accomplish this objective, the Parties agree that, except as otherwise provided in Section 3.4, if a dispute arises under or relates to this Agreement, including, without limitation, any alleged breach under this Agreement or any issue relating to the interpretation or application of this Agreement, and the Parties are unable to resolve such dispute within [***] days after such dispute is first identified by either Party in writing to the other, the Parties shall refer such dispute to a senior executive of each of Abiogen (or one of its Affiliates) and Ambros (the "**Executive Officers**") for attempted resolution by good faith negotiations within [***] days after notice referring to the dispute is received. If the dispute is not resolved within such [***] days, then the dispute shall be resolved by arbitration in accordance with Section 14.2 and thereafter neither Party shall have any further obligation under this Section 14.1. Notwithstanding the foregoing, and without waiting for the expiration of any such [***]-day periods, each Party shall each have the right to apply to any court of competent jurisdiction for appropriate interim or provisional relief, as necessary to protect the rights or property of such Party.

14.2 **Arbitration**. All disputes arising out of or in connection with this Agreement, including any questions regarding its formation, existence, validity or termination, or the scope or applicability of this agreement to arbitrate, shall be finally settled by arbitration under the Rules of the Arbitration of the International Chamber of Commerce ("**ICC**" and "**ICC Rules**") then in effect, by a tribunal comprised of three arbitrators. Each Party shall nominate one arbitrator and the two Party-nominated arbitrators shall nominate the third arbitrator, who shall serve as the presiding arbitrator, within [***] days after the second arbitrator's appointment. If the two nominated arbitrators fail to nominate the third arbitrator, then the third arbitrator, who shall serve as the presiding arbitrator, will be appointed according to the ICC Rules. The arbitral proceeding will be conducted in accordance with the ICC Rules.

(a) The seat, or legal place, of arbitration shall [***]. The language of the arbitration shall be English. The arbitral award shall be final and binding on the Parties, and the Parties undertake to carry out any award without delay. Judgment on the award may be entered in any court of competent jurisdiction.

(b) Each Party retains the right to apply to any court of competent jurisdiction for interim and/or conservatory measures, including pre-arbitral attachments or preliminary injunctions, and any such request shall not be deemed incompatible with, or a waiver of, this agreement to arbitrate.

(c) The existence and content of the arbitral proceedings and any rulings or awards shall be kept confidential by the Parties and members of the arbitral tribunal except (i) to the extent that disclosure may be required of a Party to fulfill a legal duty, protect or pursue a legal right, or enforce or challenge an award in bona fide legal proceedings before a state court or other judicial authority, (ii) with the consent of both Parties, (iii) where needed for the preparation or presentation of a claim or defense in this arbitration, (iv) where such information is already in the public domain other than as a result of a breach of this clause, or (v) by order of the arbitral tribunal upon application of a Party.

14.3 **Governing Law**. This Agreement shall be governed by and construed under, and all disputes arising under or in connection with this Agreement shall be resolved in accordance with, the laws of [***], without giving effect to any choice of law rules or principles. The United Nations Convention on International Contracts on the Sale of Goods does not apply to this Agreement and is expressly and entirely excluded.

ARTICLE 15
MISCELLANEOUS

15.1 **Entire Agreement; Amendment**. This Agreement, including the Schedules hereto, sets forth the complete, final and exclusive agreement and all the covenants, promises, agreements, warranties, representations, conditions and understandings between the Parties hereto with respect to the subject matter hereof and supersedes, as of the Effective Date, all prior and contemporaneous agreements and understandings between the Parties with respect to the subject matter hereof, including the Confidentiality Agreement, but without prejudice to the Note and that certain letter between the Parties regarding "Board Observer and Pro Rata Rights" dated as of even date with such Note. The foregoing shall not be interpreted as a waiver of any remedies available to either Party as a result of any breach, prior to the Effective Date, by the other Party of its obligations under the Confidentiality Agreement. There are no covenants, promises, agreements, warranties, representations, conditions or understandings, either oral or written, between the Parties other than as are set forth in this Agreement. No subsequent alteration, amendment, change or addition to this Agreement shall be binding upon the Parties unless reduced to writing and signed by an authorized officer of each Party.

15.2 Force Majeure. Both Parties shall be excused from the performance of their obligations under this Agreement to the extent that such performance is prevented by force majeure and the nonperforming Party promptly provides notice of the prevention to the other Party. Such excuse shall be continued only for so long as (a) the condition constituting force majeure continues and (b) the nonperforming Party takes all reasonable efforts to remove the condition. For purposes of this Agreement, force majeure shall include conditions beyond the reasonable control of the applicable Party, which may include an act of God, war, civil commotion, terrorist act, epidemic, failure or default of public utilities or common carriers, destruction of production facilities or materials by fire, earthquake, storm or like catastrophe, and action or inaction of any Governmental Authority (including export controls). Notwithstanding the foregoing, a Party shall not be excused from making payments owed hereunder because of a force majeure affecting such Party. If a force majeure persists for more than [***] days, then the Parties will discuss in good faith the modification of the Parties' obligations under this Agreement in order to mitigate the delays caused by such force majeure.

15.3 Export Control. Each Party agrees not to export, directly or indirectly, any technical data it acquires from or provides to the other Party in violation of United States export laws or regulations before, upon or after the Effective Date. Each Party agrees that its performance hereunder shall at all times comply with all applicable Laws, rules, regulations and ordinances of the United States and all other applicable jurisdictions. Ambros shall have the right to terminate this Agreement without any financial obligation to Abiogen if the license Abiogen grants hereunder is prohibited or delayed for more than [***] days due to a violation of United States export laws and regulations.

15.4 Notices. Any notice required or permitted to be given under this Agreement shall be in writing, shall specifically refer to this Agreement, and shall be addressed to the appropriate Party at the address specified below or such other address as may be specified by such Party in writing in accordance with this Section 15.4, and shall be deemed to have been given for all purposes (a) when received, if hand-delivered or sent by a reputable courier service, or (b) [***] Business Days after mailing, if mailed by first class certified or registered airmail, postage prepaid, return receipt requested.

15.5 No Strict Construction; Headings. This Agreement has been prepared jointly by the Parties and shall not be strictly construed against either Party. Ambiguities, if any, in this Agreement shall not be construed against any Party, irrespective of which Party may be deemed to have authored the ambiguous provision. The headings of each Article and Section in this Agreement have been inserted for convenience of reference only and are not intended to limit or expand on the meaning of the language contained in the particular Article or Section. Except where the context otherwise requires, the use of any gender shall be applicable to all genders, and the word "or" is used in the inclusive sense (and/or). The term "including" as used herein means including, without limiting the generality of any description preceding such term.

15.6 Assignment; Change of Control.

(a) Neither Party may assign or transfer this Agreement or any rights or obligations hereunder without the prior written consent of the other Party which shall not be unreasonably withheld, except that either Party may make such an assignment or a transfer without the other Party's consent to an Affiliate of such Party.

(b) Notwithstanding Section 15.6(a), either Party may without such consent but with prior written notice to the other Party, assign this Agreement and its rights and obligations hereunder in connection with a Change of Control (other than pursuant to an assignment for the benefit of creditors), *provided* that any such assignment in connection with a Change of Control of Ambros that occurs prior to completion of the earlier of (a) an initial public offering of Ambros and (b) Phase 3 Completion, shall require the prior written consent of Abiogen (such consent not to be unreasonably conditioned, withheld, or delayed). Such consent shall not be required in the event that [***].

(c) Any permitted assignee shall assume all obligations of its assignor under this Agreement. Any assignment or attempted assignment by either Party in violation of the terms of Sections 15.6(a) and 15.6(b) shall be null, void and of no legal effect.

15.7 Performance by Affiliates. Each Party may discharge any obligations and exercise any right hereunder through any of its Affiliates. Each Party hereby guarantees the performance by its Affiliates of such Party's obligations under this Agreement, and shall cause its Affiliates to comply with the provisions of this Agreement in connection with such performance. Any breach by a Party's Affiliate of any of such Party's obligations under this Agreement shall be deemed a breach by such Party, and the other Party may proceed directly against such Party without any obligation to first proceed against such Party's Affiliate.

15.8 Further Actions. Each Party agrees to execute, acknowledge and deliver such further instruments, and to do all such other acts, as may be necessary or appropriate in order to carry out the purposes and intent of this Agreement.

15.9 Severability. If any one or more of the provisions of this Agreement is held to be invalid or unenforceable in any forum, such provision shall be considered severed from this Agreement and shall not serve to invalidate any remaining provisions hereof. The Parties shall make a good faith effort to replace any invalid or unenforceable provision with a valid and enforceable one such that the objectives contemplated by the Parties when entering this Agreement may be realized.

15.10 No Waiver. Any delay in enforcing a Party's rights under this Agreement or any waiver as to a particular default or other matter shall not constitute a waiver of such Party's rights to the future enforcement of its rights under this Agreement, except with respect to an express written and signed waiver relating to a particular matter for a particular period of time.

15.11 Independent Contractors. Each Party shall act solely as an independent contractor, and nothing in this Agreement shall be construed to give either Party the power or authority to act for, bind, or commit the other Party in any way. Nothing herein shall be construed to create the relationship of partners, principal and agent, or joint-venture partners between the Parties.

15.12 English Language. This Agreement was prepared in the English language, which language shall govern the interpretation of, and any dispute regarding, the terms of this Agreement.

15.13 Counterparts. This Agreement may be executed in one (1) or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

15.14 Rights in Bankruptcy. All rights and licenses granted under or pursuant to this Agreement by one Party to the other Party are, and otherwise will be deemed to be, for purposes of Section 365(n) of the U.S. Bankruptcy Code or comparable provision of applicable bankruptcy or insolvency laws, licenses of right to "intellectual property" as defined under Section 101 of the U.S. Bankruptcy Code or comparable provision of applicable bankruptcy or insolvency laws. The Parties agree that a Party that is a licensee of such rights under this Agreement will retain and may fully exercise all of its rights and elections under the U.S. Bankruptcy Code or comparable provision of applicable bankruptcy or insolvency laws. The Parties further agree that, in the event of the commencement of a bankruptcy proceeding by or against a Party to this Agreement under the U.S. Bankruptcy Code or comparable provision of applicable bankruptcy or insolvency laws, the other Party will be entitled to a complete duplicate of (or complete access to, as appropriate) any such intellectual property and all embodiments of such intellectual property, and same, if not already in its possession, will be promptly delivered to it (i) upon any such commencement of a bankruptcy or insolvency proceeding upon its written request therefor, unless the bankrupt Party elects to continue to perform all of its obligations under this Agreement, or (ii) if not delivered under (i) above, following the rejection of this Agreement by or on behalf of the bankrupt Party upon written request therefor by the other Party.

15.15 Each Party to this Agreement shall, in exercising their respective rights and complying with their respective obligations under this Agreement at all times act in good faith.

The United Nations Convention on International Contracts on the Sale of Goods does not apply to this Agreement and is expressly and entirely excluded.

24. DISPUTE RESOLUTION

24.1. The Parties recognize that disputes as to certain matters may from time to time arise that relate to either Party's rights and/or obligations hereunder. It is the objective of the Parties to establish procedures to facilitate the resolution of disputes arising under this Agreement in an expedient manner by mutual cooperation. To accomplish this objective, the Parties agree that, if a dispute arises under or relates to this Agreement, including, without limitation, any alleged breach under this Agreement or any issue relating to the interpretation or application of this Agreement, and the Parties are unable to resolve such dispute within [***] days after such dispute is first identified by either Party in writing to the other, the Parties shall refer such dispute to their Executive Officers for attempted resolution by good faith negotiations within [***] days after notice referring to the dispute is received. If the dispute is not resolved within such [***] days, then the dispute shall be resolved by arbitration in accordance with section 24.2 and thereafter neither Party shall have any further obligation under this section 24.1. Notwithstanding the foregoing, and without waiting for the expiration of any such [***]-day periods, each Party shall each have the right to apply to any court of competent jurisdiction for appropriate interim or provisional relief, as necessary to protect the rights or property of such Party.

24.2. All disputes arising out of or in connection with this Agreement, including any questions regarding its formation, existence, validity or termination, or the scope or applicability of this agreement to arbitrate, shall be finally settled by arbitration under the Rules of the Arbitration of the International Chamber of Commerce ("**ICC**" and "**ICC Rules**") then in effect, by a tribunal comprised of three arbitrators. Each Party shall nominate one arbitrator and the two Party-nominated arbitrators shall nominate the third arbitrator, who shall serve as the presiding arbitrator, within [***] days after the second arbitrator's appointment. If the two nominated arbitrators fail to nominate the third arbitrator, then the third arbitrator, who shall serve as the presiding arbitrator, will be appointed according to the ICC Rules. The arbitral proceeding will be conducted in accordance with the ICC Rules.

24.2.1 The seat, or legal place, of arbitration shall [***]. The language of the arbitration shall be English. The arbitral award shall be final and binding on the Parties, and the Parties undertake to carry out any award without delay. Judgment on the award may be entered in any court of competent jurisdiction.

24.2.2 Each Party retains the right to apply to any court of competent jurisdiction for interim and/or conservatory measures, including pre-arbitral attachments or preliminary injunctions, and any such request shall not be deemed incompatible with, or a waiver of, this agreement to arbitrate.

24.2.3 The existence and content of the arbitral proceedings and any rulings or awards shall be kept confidential by the Parties and members of the arbitral tribunal except (i) to the extent that disclosure may be required of a Party to fulfill a legal duty, protect or pursue a legal right, or enforce or challenge an award in bona fide legal proceedings before a state court or other judicial authority, (ii) with the consent of both Parties, (iii) where needed for the preparation or presentation of a claim or defense in this arbitration, (iv) where such information is already in the public domain other than as a result of a breach of this clause, or (v) by order of the arbitral tribunal upon application of a Party.

EXHIBIT 10.42

EMPLOYMENT AGREEMENT

This **Employment Agreement** (the "***Agreement***") is entered into effective as of the Start Date (as defined below) by and between **Joseph P. Hagan** (the "***Executive***") and **Ambros Therapeutics, Inc.** (the "***Company***").

The Company desires to employ Executive and, in connection therewith, to compensate Executive for Executive's services, performed personally by Executive, to the Company; and

Executive wishes to be employed by the Company and provide services to be performed personally by Executive and certain covenants to the Company in return for certain compensation and benefits.

Accordingly, in consideration of the mutual promises and covenants contained herein, the parties agree to the following:

1. Employment by the Company.

1.1 Position. Subject to the terms set forth herein, the Company agrees to employ Executive initially in the position of Chief Executive Officer, and Executive hereby accepts such employment.

1.2 Effectiveness of Agreement and Start Date. Executive's employment with the Company shall commence on December 3, 2025 or such other date mutually agreed to in writing by Executive and the Company (the "***Start Date***"). In the event that Executive does not commence employment with the Company under this Agreement, the Company shall have no obligation to provide Executive with compensation and benefits (including, but not limited to, the "Severance Benefits" and "Change in Control Severance Benefits" stated in Section 6.1, 6.2 or 6.3).

1.3 Duties. Executive will initially report to the Company's Board of Directors (the **"*Board***"), performing such duties as are normally associated with Executive's position and such duties as are assigned to Executive from time to time, subject to the oversight and direction of the Board or their designee. During the term of Executive's employment with the Company, and except as set forth in Section 4 below, Executive will devote Executive's best efforts and substantially all of Executive's business time and attention to the business of the Company. Executive shall perform Executive's duties under this Agreement principally from Executive's home office (the "***Principal Location***") or, once the Company has established a permanent office location in San Diego, California, at the Company's office in San Diego, California, or, from time to time, the Company's office in Orange County, California. In addition, Executive shall make such business trips to such places as may be necessary or advisable for the efficient operations of the Company. During Executive's employment with the Company, Executive will not change the state where Executive is primarily working for the Company or resides, without prior written approval from the Company of such change, other than in the case of any such change requested or required of Executive by the Company.

1.4 Company Policies and Benefits. The employment relationship between the parties shall be subject to the Company's personnel policies and procedures as they may be established, interpreted, adopted, revised or deleted from time to time in the Company's sole discretion. Executive will be eligible to participate on the same basis as similarly-situated Executives in the Company's benefit plans in effect from time to time during Executive's employment. The Company reserves the right to change, alter, or terminate any benefit plan in its sole discretion. Notwithstanding the foregoing, in the event that the terms of this Agreement differ from or are in conflict with the Company's general employment policies or practices, this Agreement shall control.

2. COMPENSATION.

2.1 Salary. Executive shall receive for Executive's services to be rendered under this Agreement an initial base salary of **$575,000** on an annualized basis, subject to review and adjustment by the Company in its sole discretion, and payable subject to standard federal and state payroll deductions and withholding requirements in accordance with the Company's standard payroll practices ("***Base Salary***").

2.2 Annual Discretionary Bonus. Beginning as of January 1, 2026, Executive will be eligible to be awarded a discretionary annual cash bonus with a target of **50%** of Executive's then-current Base Salary, subject to review and adjustment from time to time by the Company in its sole discretion, payable subject to standard federal and state payroll deductions and withholding requirements in accordance with the Company's standard payroll practices ("***Target Bonus***"). Whether or not Executive is awarded any bonus will be dependent upon (a) the actual achievement by Executive and the Company of the applicable individual and corporate performance goals, as determined by the Company's Board, or a committee thereof, in its sole discretion, and (b) Executive's continuous performance of services to the Company through the date any such bonus is paid. The bonus may be greater or lesser than the Target Bonus and may be zero. In the event Executive's Base Salary is increased during an applicable bonus year, any bonus Executive is eligible to receive for that year (as a percentage of Executive's Base Salary) will be calculated such that the modified Base Salary rate only applies to the period of time from the effective date of the Base Salary adjustment through the end of the applicable bonus year (and the prior Base Salary rate applies to the period before the Base Salary adjustment). The Board will determine in its sole discretion the extent to which Executive has achieved the performance goals upon which the bonus is based and the amount of the bonus, if any. Any bonus earned under this Section 2.2 shall be paid to Executive no later than March 15 of the calendar year following the year for which the bonus is awarded.

2.3 Equity Awards.

(a) **Initial Equity Grant.** Subject to approval of the Board, as soon as practicable following the Start Date, the Executive shall be granted an option to purchase **2,250,000 shares** of the Company's common stock (the "***Initial Option Grant***") under and subject to the terms of the Company's 2024 Equity Incentive Plan, as amended (the "***Plan***"). The Initial Option Grant shall have an exercise price per share equal to the fair market value of the Company's common stock as of the date of grant, as determined in good faith by the Board. One-fourth of the shares subject to the Initial Option Grant shall vest on the first anniversary of the Start Date and the balance of the shares shall vest in a series of 36 successive equal monthly installments thereafter, subject to Executive's Continuous Service (as defined in the Plan) as of each such vesting date. Executive hereby acknowledges that, except as otherwise set forth in Section 6 below, the Initial Option Grant, as well as any other future equity grants issued by the Company to Executive will continue to be governed by the terms of the Plan and other applicable award agreement documents. The parties acknowledge that service as a consultant, employee, or member of the Board is and will be deemed to be "***Continuous Service***" (as defined in the Plan) for purposes of vesting under the Plan.

(b) **Additional Equity Grants.** Executive will be eligible to receive future grants of equity awards as determined from time to time by the Board as part of the annual executive compensation review by the Board. The Board shall determine in its sole discretion the grant timing, amount, form(s) and mix, and such other terms and conditions (including vesting, exercise and settlement) applicable to any such equity-based compensation award. Any future awards shall be evidenced by a separate award agreement in a form prescribed by the Company.

2.4 Performance Bonus.

(a) In the event that Executive remains in Continuous Service as of the occurrence of a Bonus Event (as defined below), subject to Section 6.1, 6.2 or 6.3 below, then Executive will be entitled to receive the applicable Performance Bonus, payable as follows:

(i) The Performance Bonus will be paid in cash or securities or a combination of both, as determined by the Board in its sole discretion, and will be subject to standard federal and state payroll deductions and withholding requirements in accordance with the Company's standard payroll practices. Any securities that are issued to Executive in full or partial satisfaction of the Performance Bonus will have an aggregate fair market value (as reasonably determined in good faith by the Board) that is equal to the cash amount Executive would have received had such portion of the Performance Bonus been paid in cash, with the number of such securities calculated as of the date of the occurrence of the applicable Bonus Event.

(ii) Any cash that is paid to Executive in full or partial satisfaction of the Performance Bonus will be paid in its entirety upon or as soon as practicable following the occurrence of the applicable Bonus Event (but in no event longer than 15 days following the occurrence of the applicable Bonus Event). Any securities that are issued to Executive in full or partial satisfaction of the Performance Bonus will be issued in two equal installments, the first of which will be issued upon or as soon as practicable following the occurrence of the applicable Bonus Event (but in no event longer than 15 days following the occurrence of the applicable Bonus Event), and the second of which will be issued on the first anniversary of the occurrence of the applicable Bonus Event, subject to Executive remaining in Continuous Service as of such first anniversary.

(b) For purposes of this Section 2.4:

(i) "***Bonus Event***" means the earliest to occur of the following: (a) the closing of a Change in Control, at which the Net Proceeds equal or exceed $1,000,000,000 (a ***"Qualifying Change in Control"***) (b) the consummation of a bona fide third-party equity financing prior to an initial public offering or a direct listing of the Company that results in a post-money valuation of the Company that equals or exceeds $1,000,000,000 on a fully-diluted basis (a "***Qualifying Equity Financing***"), or (c) the date the market value of the Company following an initial public offering or a direct listing of the Company equals or exceeds $1,000,000,000 (a "***Qualifying Market Cap***") utilizing the volume-weighted average of the closing sale price of the Company's common stock ("***VWAP***") for each of the sixty (60) trading days immediately prior to the measurement date (the "***VWAP Period***"), as reported on the principal stock exchange on which it is then traded.

(ii) "***Net Proceeds***" means the sum of any cash and the fair market value of any securities or other property (determined on the same basis on which such securities or other property were valued in the Change in Control), reduced by the Expenses, legally available for payment or distribution to the Company's securityholders in respect of their holdings of the Company's securities or the sale of the Company's assets, as applicable, in the Change in Control. In the event there are any escrowed, contingent or potential future payments following the closing of such Change in Control, then for purposes of determining Net Proceeds, the value of such escrowed, contingent or potential future payments will be estimated as reasonably determined in good faith by the Board. However, if within three years following the closing of such Change in Control, the amount of such escrowed, contingent or potential future payments actually paid or distributed to the Company's securityholders exceeds the Board's estimate at closing, then the Net Proceeds will be recalculated at such time, including for purposes of whether a Performance Bonus (or incremental Performance Bonus) is due and payable. Any Performance Bonus (or incremental Performance Bonus) payable pursuant to the preceding sentence will be paid solely in cash. For the avoidance of confusion, in no event will Executive be required to return any portion of a previously paid Performance Bonus.

(iii) "***Expenses***" means the sum of (a) all transaction fees and expenses (including, without limitation, payments to investment bankers and attorneys) in connection with the closing of a Change in Control, (b) all debts and liabilities of the Company not assumed by the acquirer at the closing of a Change in Control, and (c) any reserves that the Board deems reasonably necessary at the closing of a Change in Control, including a reasonable estimate of post-closing expenses. For the avoidance of doubt, the Performance Bonus itself shall not be deemed an "Expense."

(iv) "***Performance Bonus***" means an amount equal to (a) 0.75% of the Net Proceeds in the event of a Qualifying Change in Control, (b) 0.75% of the fully-diluted pre-money valuation in the event of a Qualifying Equity Financing, or (c) 0.75% of the market value of the Company (calculated utilizing the VWAP for the VWAP Period) on the date of the occurrence of a Qualifying Market Cap.

(c) The Board may also determine in its sole discretion (but shall not be obligated) to award an appropriate bonus to Executive upon the occurrence of a Change in Control that does not constitute a Qualifying Change in Control.

2.5 **Expense Reimbursement.** The Company will reimburse Executive for reasonable business expenses in accordance with the Company's standard expense reimbursement policy, as the same may be modified by the Board from time to time. The Company shall reimburse Executive for all customary and appropriate business-related expenses actually incurred and documented in accordance with Company policy, as in effect from time to time, including any out-of-pocket costs relating to Executive's travel to and from Orange County, California (including food, lodging and ground transportation). For the avoidance of doubt, to the extent that any reimbursements payable to Executive are subject to the provisions of Section 409A of the Internal Revenue Code of 1986, as amended (the "***Code***"): (a) any such reimbursements will be paid no later than December 31 of the year following the year in which the expense was incurred, (b) the amount of expenses reimbursed in one year will not affect the amount eligible for reimbursement in any subsequent year, and (c) the right to reimbursement under this Agreement will not be subject to liquidation or exchange for another benefit.

2.6 **Indemnification.** Executive shall be entitled to indemnification and directors' and officers' insurance coverage, to the extent made available to other senior executives, in accordance with the charter, bylaws and all other applicable policies and procedures of the Company for expenses incurred or damages paid or payable by the Executive (including any advancement of reasonable costs and expenses in connection therewith) with respect to a claim against the Executive based on actions or inactions by the Executive in his capacity as a senior executive or director of the Company.

2.7 **Legal Fees.** Not later than ten (10) business days following the Start Date, the Company shall reimburse the Executive for any and all reasonable attorneys' fees and related costs paid in connection with his negotiation and execution of this Agreement, up to a maximum of $5,000.

3. **Confidential Information, Inventions, Non-Competition and Non-Solicitation Obligations.** As a condition of employment, Executive agrees to execute and abide by the Employee Confidential Information and Inventions Assignment Agreement attached as Exhibit A ("***Confidential Information Agreement***"), which may be amended by the parties from time to time without regard to this Agreement. The Confidential Information Agreement contains provisions that are intended by the parties to survive and do survive termination of this Agreement.

4. **Outside Activities During Employment.** Except with the prior written consent of the Board, Executive will not, while employed by the Company, undertake or engage in any other employment, consulting, occupation or business enterprise that would interfere with Executive's responsibilities and the performance of Executive's duties hereunder, except for (i) service on the board of directors of ClicBio and [***], (ii) reasonable time devoted to volunteer services for or on behalf of such religious, educational, non-profit and/or other charitable organization as Executive may wish to serve, (iii) reasonable time devoted to activities in the non-profit and business communities consistent with Executive's duties, (iv) service on a board of directors of not more than one (1) external public company, subject to the prior written consent of the Board, and (v) such other activities as may be specifically approved in writing by the Board. This restriction shall not, however, preclude Executive (i) from owning less than one percent (1%) of the total outstanding shares of a publicly-traded company or (ii) from employment or service in any capacity with Affiliates of the Company. As used in this Agreement, "***Affiliates***" means an entity under common management or control with the Company. Executive agrees to promptly disclose to the Board his/her involvement in any activities contemplated by this Section 4.

5. **No Conflict with Existing Obligations.** Executive represents that Executive's performance of all the terms of this Agreement and service as an executive of the Company do not and will not breach any agreement or obligation of any kind made prior to Executive's employment by the Company, including agreements or obligations Executive may have with prior employers or entities for which Executive has provided services. Subject to Section 4 above, Executive has not entered into, and Executive agrees that Executive will not enter into, any agreement or obligation, either written or oral, in conflict herewith.

6. **Termination of Employment.** The parties acknowledge that Executive's employment relationship with the Company will at all times be at-will. Either Executive or the Company may terminate the employment relationship for any reason whatsoever at any time, with or without cause or advance notice. The provisions in this Section govern the amount of compensation, if any, to be provided to Executive upon termination of employment and do not alter this at-will status.

6.1 **Termination by the Company without Cause (not in connection with a Change in Control).**

(a) The Company shall have the right to terminate Executive's employment with the Company pursuant to this Section 6.1 at any time without "Cause" (as defined below) by giving notice as described in Section 7.1 of this Agreement. A termination pursuant to Sections 6.5 or 6.6 below is not a termination without Cause for purposes of receiving the benefits described in this Section 6.1.

(b) If the Company terminates Executive's employment at any time without Cause, then Executive shall be entitled to receive the Accrued Obligations (as defined below), and provided that such termination constitutes a "separation from service" (as defined under Treasury Regulation Section 1.409A-1(h), without regard to any alternative definition thereunder, a "***Separation from Service***") and subject to Executive's compliance with the obligations in Section 6.1(c) below, Executive shall also be eligible to receive the following severance benefits (the "***Severance Benefits***"):

(i) The Company will pay Executive an amount equal to the sum of (A) Executive's then current Base Salary for **twelve (12) months**, plus (B) **100%** of Executive's Target Bonus for the year in which Executive's termination hereunder occurs, less all applicable withholdings and deductions, in a lump sum on the Company's second regularly-scheduled payroll date following the Release Effective Date (as defined below); and any remaining installment of securities issuable in full or partial satisfaction of the Performance Bonus that have not been issued as of such termination, will be issued on the Release Effective Date. In addition, in the event a Qualifying Change in Control occurs on or prior to the three-month anniversary of the date of such termination, the Company will pay and/or issue to Executive the applicable Performance Bonus, less all applicable withholdings and deductions, in a lump sum upon or as soon as practicable following the occurrence of the Qualifying Change in Control (but in no event longer than 15 days following the occurrence of the Qualifying Change in Control).

(ii) If Executive timely elects continued coverage under COBRA for Executive and Executive's dependents under the Company's group health plans following such termination, then the Company shall reimburse Executive for the cost of the COBRA premiums necessary to continue Executive's and his/her covered dependents' health insurance coverage in effect on the termination date until the earliest of: (i) **eighteen (18) months** following the Separation from Service; (ii) the date when Executive becomes eligible for substantially equivalent health insurance coverage in connection with new employment or self-employment; or (iii) the date Executive ceases to be eligible for COBRA continuation coverage for any reason, including plan termination (such period from the termination date through the earlier of (i)-(iii), (the "***COBRA Payment Period***"). To receive this reimbursement, Executive will be required to remit timely payment of each COBRA premium during the COBRA Payment Period to the Company or its designee and present proof of payment within ten (10) days. The Company will then process the reimbursement to Executive in accordance with its ordinary expense reimbursement policies. Notwithstanding the foregoing, the Company may in its discretion pay COBRA premiums directly to the applicable carrier or pay Executive on the last day of each remaining month of the COBRA Payment Period, a fully taxable cash payment equal to the COBRA premium for such month, subject to applicable tax withholding, for the remainder of the COBRA Payment Period (the "***Special COBRA Payments***"). The Company may also in its discretion pay the Special COBRA Payments for the remainder of the COBRA Payment Period in one fully taxable lump sum as opposed to monthly installments. Nothing in this Agreement shall deprive Executive of his/her rights under COBRA or ERISA for benefits under plans and policies arising under his/her employment by the Company.

(iii) Effective as of the date of termination hereunder, the vesting and exercisability of all outstanding unvested Company equity awards that are held by Executive as of immediately prior to the termination date and which are scheduled to vest and become exercisable under a time-based schedule shall be modified so that any unvested shares scheduled to vest during the **twelve (12) month** period following Executive's termination date shall be deemed immediately vested and exercisable as of Executive's termination date (and, for clarity, if any unvested equity award is in the form of restricted stock where the unvested shares are subject to a share reacquisition or repurchase right on behalf of the Company upon Executive's termination from employment or service (e.g., at the lower of the stock's fair market value or the original purchase price), such unvested share reacquisition or repurchase right will lapse as to the shares of stock that otherwise are scheduled or are eligible to vest following Executive's termination date). For the avoidance of confusion, the Performance Bonus is not considered a Company equity award subject to the terms of this Section 6.1(b)(iii).

(c) Executive will be paid all of the Accrued Obligations on the Company's first payroll date after Executive's date of termination from employment or earlier if required by law. Executive shall receive the Severance Benefits pursuant to Section 6.1(b) of this Agreement if: (i) by the sixtieth (60th) day following the date of Executive's Separation from Service, Executive has signed and delivered to the Company a separation agreement containing (among other terms) an effective, general release of claims in favor of the Company and its affiliates and representatives, in a form presented by the Company (the "***Release***") and which cannot be revoked in whole or part by such date (the date that the Release can no longer be revoked is referred to as the "***Release Effective Date***"); (ii) if Executive holds any other positions with the Company or any Affiliate, including a position on the Board, Executive resigns such position(s) to be effective no later than the date of Executive's termination date (or such other date as requested by the Board); (iii) Executive returns all Company property; (iv) Executive is in compliance with his/her post-termination obligations under this Agreement and the Proprietary Information Agreement when any such Severance Benefits are due and payable; and (v) Executive complies with the terms of the Release, including without limitation any mutual non-disparagement and confidentiality provisions contained in the Release. To the extent that any of the Severance Benefits are deferred compensation under Section 409A of the Code, and are not otherwise exempt from the application of Section 409A, then, if the period during which Executive may consider and sign the Release spans two calendar years, the payment of the Severance Benefits will not be made or begin until the later calendar year.

(d) For purposes of this Agreement, "***Accrued Obligations***" are (i) Executive's accrued but unpaid salary through the date of termination, (ii) Executive's accrued but unused vacation time through the date of termination, (iii) any unreimbursed business expenses incurred by Executive payable in accordance with the Company's standard expense reimbursement policies, and (iv) benefits owed to Executive under any qualified retirement plan or health and welfare benefit plan in which Executive was a participant in accordance with applicable law and the provisions of such plan.

(e) The Severance Benefits provided to Executive pursuant to this Section 6.1 are in lieu of, and not in addition to, any benefits to which Executive may otherwise be entitled under any Company severance plan, policy or program.

(f) Any damages caused by the termination of Executive's employment without Cause would be difficult to ascertain; therefore, the Severance Benefits for which Executive is eligible pursuant to Section 6.1(b) above in exchange for the Release is agreed to by the parties as liquidated damages, to serve as full compensation, and not a penalty.

(g) For purposes of this Agreement, the term "***Change in Control***" shall have the meaning set forth in the Plan.

6.2 Resignation by Executive for Good Reason (not in connection with a Change in Control).

(a) Provided Executive has not previously been notified of the Company's intention to terminate Executive's employment, Executive may resign from employment with the Company for Good Reason (as defined in Section 6.2(b) below).

(b) "***Good Reason***" for purposes of this Agreement shall mean the occurrence of any of the following conditions without Executive's consent, after Executive's provision of written notice to the Company of the existence of such condition (which notice must be provided as described in Section 7.1 within thirty (30) days of the initial existence of the condition and must specify the particular condition in reasonable detail), provided that the Company has not first provided notice to Executive of its intent to terminate Executive's employment: (i) a material reduction in Executive's duties, responsibilities or authorities; (ii) a material (greater than 10%) reduction by the Company of Executive's Base Salary or Target Bonus (except in the case of either an across-the-board reduction in salaries or target bonuses, or a temporary reduction due to financial exigency, in either case, not to exceed six (6) months); (iii) the relocation by the Company of the Principal Location by fifty (50) or more miles from its existing location; (iv) the Company requiring Executive to violate applicable law or established professional ethics rules in the performance of Executive's duties hereunder. Notwithstanding the foregoing, Good Reason shall only exist if the Company is provided a thirty (30) day period to cure the event or condition giving rise to Good Reason, and it fails to do so within that cure period (and, additionally, Executive must resign for such Good Reason condition by giving notice as described in Section 7.1 within thirty (30) days after the period for curing the violation or condition has ended).

(c) In the event Executive resigns for Good Reason from Executive's employment, then Executive shall be entitled to the Accrued Obligations and, provided such resignation constitutes a Separation from Service, and Executive complies with the obligations in Section 6.1(c) of this Agreement (including the requirement to provide an effective Release), Executive shall also be eligible to receive the same Severance Benefits as described in Section 6.1 and on the same conditions as if Executive had been terminated by the Company without Cause.

6.3 Termination by the Company without Cause or Resignation by Executive for Good Reason in Connection with a Change in Control.

(a) In the event that the Company terminates Executive's employment without Cause (as defined below) or Executive resigns for Good Reason within three (3) months before or twelve (12) months following the effective date of a Change in Control ("***Change in Control Termination Date***"), then Executive shall be entitled to the Accrued Obligations and, subject to Executive's compliance with Section 6.1(c), including but not limited to the Release requirement and Executive's continued compliance with Executive's obligations to the Company under Executive's Confidential Information Agreement, then Executive will be eligible for the following "***Change in Control Severance Benefits***:"

(i) The Company will pay Executive an amount equal to the sum of (A) Executive's then current Base Salary for **twenty-four (24) months**, plus (B) **200%** of Executive's Target Bonus for the year in which Executive's termination hereunder occurs less all applicable withholdings and deductions, in a lump sum payment upon the Company's second regularly-scheduled payroll date following the Release Effective Date (as defined below); and any remaining installment of securities issuable in full or partial satisfaction of the Performance Bonus that have not been issued as of such termination, will be issued on the Release Effective Date. In addition, in the event a Qualifying Change in Control occurs on or prior to the three-month anniversary of the date of such termination or resignation, the Company will pay and/or issue to Executive the applicable Performance Bonus, less all applicable withholdings and deductions, in a lump sum upon or as soon as practicable following the occurrence of the Qualifying Change in Control (but in no event longer than 15 days following the occurrence of the Qualifying Change in Control).

(ii) If Executive timely elects continued coverage under COBRA for Executive and Executive's dependents under the Company's group health plans following such termination, then the Company shall reimburse Executive for the cost of the COBRA premiums necessary to continue Executive's and his/her covered dependents' health insurance coverage in effect on the termination date until the earliest of: (i) **eighteen (18) months** following the Change in Control Termination Date; (ii) the date when Executive becomes eligible for substantially equivalent health insurance coverage in connection with new employment or self-employment; or (iii) the date Executive ceases to be eligible for COBRA continuation coverage for any reason, including plan termination (such period from the termination date through the earlier of (i)-(iii), (the "***CIC COBRA Payment Period***"). To receive this reimbursement, Executive will be required to remit timely payment of each COBRA premium during the CIC COBRA Payment Period to the Company or its designee and present proof of payment within ten (10) days. The Company will then process the reimbursement to Executive in accordance with its ordinary expense reimbursement policies. Notwithstanding the foregoing, the Company may in its discretion pay COBRA premiums directly to the applicable carrier or pay Executive on the last day of each remaining month of the CIC COBRA Payment Period, a fully taxable cash payment equal to the COBRA premium for such month, subject to applicable tax withholding, for the remainder of the CIC COBRA Payment Period (the "***Special CIC COBRA Payments***"). The Company may also in its discretion pay the Special CIC COBRA Payments for the remainder of the CIC COBRA Payment Period in one fully taxable lump sum as opposed to monthly installments. Nothing in this Agreement shall deprive Executive of his/her rights under COBRA or ERISA for benefits under plans and policies arising under his/her employment by the Company.

(iii) Effective as of Executive's Change in Control Termination Date, and provided that Company equity awards have been continued, assumed or substituted for by the Company and/or the acquiror (or any affiliate of the acquiror) in connection with such Change in Control transaction, the vesting and exercisability of all outstanding unvested Company equity awards that are held by Executive as of immediately prior to the Change in Control Termination Date and which are scheduled to vest and become exercisable under a time-based or performance based schedule shall be deemed immediately vested and exercisable as of Executive's termination date (and, for clarity, if any unvested equity award is in the form of restricted stock where the unvested shares are subject to a share reacquisition or repurchase right on behalf of the Company upon Executive's termination from employment or service (e.g., at the lower of the stock's fair market value or the original purchase price), such unvested share reacquisition or repurchase right will lapse as to the shares of stock that otherwise are scheduled or are eligible to vest following the Change in Control Termination Date). For the avoidance of confusion, the Performance Bonus is not considered a Company equity award subject to the terms of this Section 6.3(a)(iii).

6.4 Termination by the Company for Cause.

(a) The Company shall have the right to terminate Executive's employment with the Company at any time for Cause by giving notice as described in Section 7.1 of this Agreement.

(b) "***Cause***" for purposes of this Agreement shall mean that the Company has determined in its sole discretion that Executive has engaged in any of the following: (i) a material breach of any covenant or condition under this Agreement or any other agreement between the Company and Executive; (ii) any act constituting dishonesty, fraud, immoral or disreputable conduct which causes or is reasonably likely to cause material harm to the Company, its business or its reputation; (iii) any conduct which constitutes a felony under applicable law; (iv) material violation of any Company policy or any act of misconduct; (v) repeated refusal to follow or implement a clear reasonable and lawful directive of Company; (vi) negligence or incompetence in the performance of Executive's duties or failure to perform such duties in a manner satisfactory to the Company after the expiration of thirty (30) days without cure, to the extent curable, after written notice of such failure; (vii) failure to pass to the satisfaction of the Company, a preliminary background check or failure to submit proof of legal eligibility to work in the United States; or (viii) breach of fiduciary duty.

(c) In the event Executive's employment is terminated at any time for Cause, Executive will not receive Severance Benefits, Change in Control Severance Benefits, or any other compensation or benefits, except that, pursuant to the Company's standard payroll policies, the Company shall provide to Executive the Accrued Obligations.

6.5 Resignation by Executive (other than for Good Reason).

(a) Executive may resign from Executive's employment with the Company at any time by giving notice as described in Section 7.1.

(b) In the event Executive resigns from Executive's employment with the Company (other than for Good Reason), Executive will not receive Severance Benefits, Change in Control Severance Benefits, or any other compensation or benefits, except that, pursuant to the Company's standard payroll policies, the Company shall provide to Executive the Accrued Obligations.

6.6 Termination by Virtue of Death or Disability of Executive.

(a) In the event of Executive's death while employed pursuant to this Agreement, all obligations of the parties hereunder shall terminate immediately, and the Company shall, pursuant to the Company's standard payroll policies, provide to Executive's legal representatives all Accrued Obligations.

(b) Subject to applicable state and federal law, the Company shall at all times have the right, upon written notice to Executive, to terminate this Agreement based on Executive's Disability. Termination by the Company of Executive's employment based on "***Disability***" shall mean termination because Executive is unable due to a physical or mental condition to perform the essential functions of Executive's position with or without reasonable accommodation for six (6) months in the aggregate during any twelve (12) month period or based on the written certification by two licensed physicians of the likely continuation of such condition for such period. This definition shall be interpreted and applied consistent with the Americans with Disabilities Act, the Family and Medical Leave Act, and other applicable law. In the event Executive's employment is terminated based on Executive's Disability, Executive will not receive the Severance Benefits, Change in Control Severance Benefits, or any other severance compensation or benefit, except that, pursuant to the Company's standard payroll policies, the Company shall provide to Executive the Accrued Obligations.

6.7 Application of Section 409A. It is intended that all of the severance payments payable under this Agreement satisfy, to the greatest extent possible, the exemptions from the application of Section 409A of the Code and the regulations and other guidance thereunder and any state law of similar effect (collectively, "***Section 409A***") provided under Treasury Regulations Sections 1.409A-1(b)(4) and 1.409A-1(b)(9), and this Agreement will be construed in a manner that complies with Section 409A. If not so exempt, this Agreement (and any definitions hereunder) will be construed in a manner that complies with Section 409A, and incorporates by reference all required definitions and payment terms. No severance payments will be made under this Agreement unless Executive's termination of employment constitutes a "separation from service" (as defined under Treasury Regulation Section 1.409A-1(h)). For purposes of Section 409A (including, without limitation, for purposes of Treasury Regulations Section 1.409A-2(b)(2)(iii)), Executive's right to receive any installment payments under this Agreement (whether severance payments or otherwise) shall be treated as a right to receive a series of separate payments and, accordingly, each installment payment hereunder shall at all times be considered a separate and distinct payment. To the extent that any severance payments are deferred compensation under Section 409A, and are not otherwise exempt from the application of Section 409A, then, if the period during which Executive may consider and sign the Release spans two calendar years, the severance payments will not begin until the second calendar year. If the Company determines that the Severance Benefits or Change in Control Severance Benefits provided under this Agreement constitutes "deferred compensation" under Section 409A and if Executive is a "specified Executive" of the Company, as such term is defined in Section 409A(a)(2)(B)(i) of the Code at the time of Executive's Separation from Service, then, solely to the extent necessary to avoid the incurrence of the adverse personal tax consequences under Section 409A, the timing of the Severance will be delayed as follows: on the earlier to occur of (a) the date that is six months and one day after Executive's Separation from Service, and (b) the date of Executive's death (such earlier date, the "***Delayed Initial Payment Date***"), the Company will (i) pay to Executive a lump sum amount equal to the sum of the Severance Benefits or Change in Control Severance Benefits that Executive would otherwise have received through the Delayed Initial Payment Date if the commencement of the payment of the Severance Benefits or Change in Control Severance Benefits had not been delayed pursuant to this Section 6.7 and (ii) commence paying the balance of the Severance Benefits or Change in Control Severance Benefits in accordance with the applicable payment schedule set forth in Section 6.1. No interest shall be due on any amounts deferred pursuant to this Section 6.7.

6.8 Notice; Effective Date of Termination.

(a) Termination of Executive's employment pursuant to this Agreement shall be effective on the earliest of:

(i) immediately after the Company gives notice to Executive of Executive's termination, with or without Cause, unless pursuant to Section 6.4(b)(vi) in which case thirty (30) days after notice if not cured or unless the Company specifies a later date, in which case, termination shall be effective as of such later date;

(ii) immediately upon Executive's death;

(iii) ten (10) days after the Company gives notice to Executive of Executive's termination on account of Executive's Disability, unless the Company specifies a later date, in which case, termination shall be effective as of such later date, *provided* that Executive has not returned to the full-time performance of Executive's duties prior to such date;

(iv) ten (10) days after Executive gives written notice to the Company of Executive's resignation not for Good Reason, *provided* that the Company may set a termination date at any time between the date of notice and the date of resignation, in which case Executive's resignation shall be effective as of such other date. Executive will receive compensation through any required notice period; or

(v) for a termination for Good Reason under Section 6.2(b), immediately upon Executive's full satisfaction of the requirements of Section 6.2(b).

(b) In the event notice of a termination under subsections (a)(i) and (iii) is given orally, at the other party's request, the party giving notice must provide written confirmation of such notice within five (5) business days of the request in compliance with the requirement of Section 7.1 below. In the event of a termination for Cause, written confirmation shall specify the subsection(s) of the definition of Cause relied on to support the decision to terminate.

6.9 Cooperation With Company After Termination of Employment. Following termination of Executive's employment for any reason, Executive shall fully cooperate with the Company in all matters relating to the winding up of Executive's pending work including, but not limited to, any litigation in which the Company is involved, and the orderly transfer of any such pending work to such other executives as may be designated by the Company. The Company will reimburse Executive for reasonable out-of-pocket expenses Executive incurs in connection with any such cooperation (excluding forgone wages, salary, or other compensation) and will make reasonable efforts to accommodate Executive's scheduling needs. The Parties further agree that no cooperation under this Section 6.9 shall be required after the six (6)-month anniversary of Executive's termination date and any cooperation hereunder in excess of ten (10) hours per month after the one (1)-month anniversary of Executive's termination date shall be compensated at an hourly cash rate to be agreed upon by Executive and the Company after the termination date.

6.10 Excise Tax Adjustment.

(a) If any payment or benefit Executive will or may receive from the Company or otherwise (a "***280G Payment***") would (i) constitute a "parachute payment" within the meaning of Section 280G of the Code, and (ii) but for this Section, be subject to the excise tax imposed by Section 4999 of the Code (the "***Excise Tax***"), then any such 280G Payment provided pursuant to this Agreement (a "***Payment***") shall be equal to the Reduced Amount. The "*Reduced Amount*" shall be either (x) the largest portion of the Payment that would result in no portion of the Payment (after reduction) being subject to the Excise Tax, or (y) the largest portion, up to and including the total, of the Payment, whichever amount (i.e., the amount determined by clause (x) or by clause (y)), after taking into account all applicable federal, state, and local employment taxes, income taxes, and the Excise Tax (all computed at the highest applicable marginal rate), results in Executive's receipt, on an after-tax basis, of the greater economic benefit notwithstanding that all or some portion of the Payment may be subject to the Excise Tax. If a reduction in a Payment is required pursuant to the preceding sentence and the Reduced Amount is determined pursuant to clause (x) of the preceding sentence, the reduction shall occur in the manner (the "***Reduction Method***") that results in the greatest economic benefit for Executive. If more than one method of reduction will result in the same economic benefit, the items so reduced will be reduced pro rata (the "***Pro Rata Reduction Method***").

(b) Notwithstanding any provision of this Section 6.10 to the contrary, if the Reduction Method or the Pro Rata Reduction Method would result in any portion of the Payment being subject to taxes pursuant to Section 409A that would not otherwise be subject to taxes pursuant to Section 409A, then the Reduction Method and/or the Pro Rata Reduction Method, as the case may be, shall be modified so as to avoid the imposition of taxes pursuant to Section 409A as follows: (A) as a first priority, the modification shall preserve to the greatest extent possible, the greatest economic benefit for Executive as determined on an after-tax basis; (B) as a second priority, Payments that are contingent on future events (*e.g.*, being terminated without Cause) shall be reduced (or eliminated) before Payments that are not contingent on future events; and (C) as a third priority, Payments that are "deferred compensation" within the meaning of Section 409A shall be reduced (or eliminated) before Payments that are not deferred compensation within the meaning of Section 409A.

(c) Unless Executive and the Company agree on an alternative accounting firm or law firm, the accounting firm engaged by the Company for general tax compliance purposes as of the day prior to the effective date of the Change in Control transaction shall perform the foregoing calculations. If the accounting firm so engaged by the Company is serving as accountant or auditor for the individual, entity, or group effecting the Change in Control transaction, the Company shall appoint a nationally recognized accounting or law firm to make the determinations required by this Section 6.10. The Company shall bear all expenses with respect to the determinations by such accounting or law firm required to be made hereunder. The Company shall use commercially reasonable efforts to cause the accounting or law firm engaged to make the determinations hereunder to provide its calculations, together with detailed supporting documentation, to Executive and the Company within fifteen (15) calendar days after the date on which Executive's right to a 280G Payment becomes reasonably likely to occur (if requested at that time by Executive or the Company) or such other time as requested by Executive or the Company.

(d) If Executive receives a Payment for which the Reduced Amount was determined pursuant to clause (x) of Section 6.10(a) and the Internal Revenue Service determines thereafter that some portion of the Payment is subject to the Excise Tax, Executive agrees to promptly return to the Company a sufficient amount of the Payment (after reduction pursuant to clause (x) of Section 6.10(a)) so that no portion of the remaining Payment is subject to the Excise Tax. For the avoidance of doubt, if the Reduced Amount was determined pursuant to clause (y) of Section 6.10(a), Executive shall have no obligation to return any portion of the Payment pursuant to the preceding sentence.

7. General Provisions.

7.1 Notices. Any notices required hereunder to be in writing shall be deemed effectively given: (a) upon personal delivery to the party to be notified, (b) when sent by electronic mail or confirmed facsimile if sent during normal business hours of the recipient, and if not, then on the next business day, (c) five (5) days after having been sent by registered or certified mail, return receipt requested, postage prepaid, or (d) one (1) day after deposit with a nationally recognized overnight courier, specifying next-day delivery, with written verification of receipt. All communications shall be sent to the Company at its primary office location and to Executive at Executive's address as listed on the Company payroll or to Executive's Company-issued email address or Executive's email address as listed in Company records, or at such other address as the Company or Executive may designate by ten (10) days' advance written notice to the other.

7.2 Severability. Whenever possible, each provision of this Agreement will be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Agreement is held to be invalid, illegal or unenforceable in any respect under any applicable law or rule in any jurisdiction, such invalidity, illegality or unenforceability will not affect any other provision or any other jurisdiction, but this Agreement will be reformed, construed and enforced in such jurisdiction as if such invalid, illegal or unenforceable provisions had never been contained herein.

7.3 Survival. Provisions of this Agreement which by their terms must survive the termination of this Agreement in order to effectuate the intent of the parties will survive any such termination, whether by expiration of the term, termination of Executive's employment, or otherwise, for such period as may be appropriate under the circumstances.

7.4 Waiver. If either party should waive any breach of any provisions of this Agreement, it shall not thereby be deemed to have waived any preceding or succeeding breach of the same or any other provision of this Agreement.

7.5 Complete Agreement. This Agreement constitutes the entire agreement between Executive and the Company with regard to the subject matter hereof. This Agreement is the complete, final, and exclusive embodiment of their agreement with regard to this subject matter and supersedes any prior oral discussions or written communications and agreements. This Agreement is entered into without reliance on any promise or representation other than those expressly contained herein, and it cannot be modified or amended except in writing signed by Executive and an authorized officer of the Company. The parties will enter into a separate Confidential Information Agreement and may enter into separate agreements related to equity. These separate agreements govern other aspects of the relationship between the parties, have or may have provisions that survive termination of Executive's employment under this Agreement, may be amended or superseded by the parties without regard to this Agreement and are enforceable according to their terms without regard to the enforcement provision of this Agreement.

7.6 Counterparts. This Agreement may be executed in separate counterparts, any one of which need not contain signatures of more than one party, but all of which taken together will constitute one and the same Agreement.

7.7 Headings. The headings of the sections hereof are inserted for convenience only and shall not be deemed to constitute a part hereof nor to affect the meaning thereof.

7.8 Successors and Assigns. The Company shall assign this Agreement and its rights and obligations hereunder in whole, but not in part, to any Company or other entity with or into which the Company may hereafter merge or consolidate or to which the Company may transfer all or substantially all of its assets, if in any such case said Company or other entity shall by operation of law or expressly in writing assume all obligations of the Company hereunder as fully as if it had been originally made a party hereto, but may not otherwise assign this Agreement or its rights and obligations hereunder. The Executive may not assign or transfer this Agreement or any rights or obligations hereunder, other than to the Executive's estate upon Executive's death.

7.9 **Choice of Law.** All questions concerning the construction, validity and interpretation of this Agreement will be governed by the laws of the State of California.

7.10 **Resolution of Disputes.** To ensure the rapid and economical resolution of disputes that may arise in connection with Executive's continued employment with the Company, Executive and the Company agree that any and all disputes, claims, or causes of action, in law or equity, including but not limited to statutory claims, arising from or relating to the enforcement, breach, performance, or interpretation of this Agreement, Executive's employment with the Company, or the termination of Executive's employment, shall be resolved pursuant to the Federal Arbitration Act, 9 U.S.C. § 1-16, to the fullest extent permitted by law, by final, binding and confidential arbitration conducted by JAMS or its successor, under JAMS' then applicable rules and procedures appropriate to the relief being sought (available upon request and also currently available at the following web addresses: (i) https://www.jamsadr.com/rules-employment-arbitration/ and (ii) https://www.jamsadr.com/rules-comprehensive-arbitration/). **Executive acknowledges that by agreeing to this arbitration procedure, both Executive and the Company waive the right to resolve any such dispute through a trial by jury or judge or administrative proceeding.** In addition, all claims, disputes, or causes of action under this Section, whether by Executive or the Company, must be brought in an individual capacity, and shall not be brought as a plaintiff (or claimant) or class member in any purported class or representative proceeding, nor joined or consolidated with the claims of any other person or entity. The arbitrator may not consolidate the claims of more than one person or entity, and may not preside over any form of representative or class proceeding. To the extent that the preceding sentences regarding class claims or proceedings are found to violate applicable law or are otherwise found unenforceable, any claim(s) alleged or brought on behalf of a class shall proceed in a court of law rather than by arbitration. This Section shall not apply to any action or claim that cannot be subject to mandatory arbitration as a matter of law, including, without limitation, **claims brought pursuant to the California Private Attorneys General Act of 2004, as amended, the California Fair Employment and Housing Act, as amended, and the California Labor Code, as amended, or** claims alleging sexual harassment or a nonconsensual sexual action or sexual contact, to the extent such claims are not permitted by applicable law(s) to be submitted to mandatory arbitration and the applicable law(s) are not preempted by the Federal Arbitration Act or otherwise invalid (collectively, the "***Excluded Claims***"). In the event Executive intends to bring multiple claims, including one of the Excluded Claims listed above, the Excluded Claims may be filed with a court, while any other claims will remain subject to mandatory arbitration. Executive will have the right to be represented by legal counsel at any arbitration proceeding. Questions of whether a claim is subject to arbitration under this Agreement shall be decided by the arbitrator. Likewise, procedural questions which grow out of the dispute and bear on the final disposition are also matters for the arbitrator. The arbitrator shall: (a) have the authority to compel adequate discovery for the resolution of the dispute and to award such relief as would otherwise be permitted by law; and (b) issue a written statement signed by the arbitrator regarding the disposition of each claim and the relief, if any, awarded as to each claim, the reasons for the award, and the arbitrator's essential findings and conclusions on which the award is based. The arbitrator shall be authorized to award all relief that Executive or the Company would be entitled to seek in a court of law. Executive and the Company shall equally share all JAMS' arbitration fees, or such fees shall be paid in such other manner to the extent required by, and in accordance with, applicable law to effectuate Executive's and the Company's agreement to arbitrate. To the extent JAMS does not collect or Executive otherwise does not pay to JAMS an equal share of all JAMS' arbitration fees for any reason, and the Company pays JAMS Executive's share, Executive acknowledges and agrees that the Company shall be entitled to recover from Executive half of the JAMS arbitration fees invoiced to the parties (less any amounts Executive paid to JAMS) in a federal or state court of competent jurisdiction. Each party is responsible for its own attorneys' fees, except as expressly set forth in the Confidential Information Agreement. Nothing in this Agreement is intended to prevent either Executive or the Company from obtaining injunctive relief in court to prevent irreparable harm pending the conclusion of any such arbitration. Any awards or orders in such arbitrations may be entered and enforced as judgments in the federal and state courts of any competent jurisdiction.

EXHIBIT 10.43

EMPLOYMENT AGREEMENT

This **Employment Agreement** (the "***Agreement***") is entered into effective as of September 30, 2025 (the "***Effective Date***") by and between **Gail Cawkwell** (the "***Executive***") and **Ambros Therapeutics, Inc.** (the "***Company***").

The Company desires to continue to employ Executive and, in connection therewith, to compensate Executive for Executive's services, performed personally by Executive, to the Company;

Executive wishes to continue to be employed by the Company and provide services to be performed personally by Executive and certain covenants to the Company in return for certain compensation and benefits;

The Company and Executive desire to enter into this Agreement to establish the terms and conditions of Executive's continued employment by the Company.

Accordingly, in consideration of the mutual promises and covenants contained herein, the parties agree to the following:

1. Employment By The Company.

1.1 Position. Subject to the terms set forth herein, the Company agrees to continue to employ Executive in the position of **Chief Medical Officer**, and Executive hereby accepts such continued employment.

1.2 Duties. Executive will continue to report to the Company's Chief Executive Officer (the "***CEO***"), performing such duties as are normally associated with Executive's position and such duties as are assigned to Executive from time to time, subject to the oversight and direction of the CEO or their designee. During the term of Executive's employment with the Company, Executive will continue to devote Executive's best efforts and substantially all of Executive's business time and attention to the business of the Company. Executive shall continue to perform Executive's duties under this Agreement principally from **a remote work location in [***]**, or such other location as assigned. In addition, Executive shall continue to make such business trips to such places as may be necessary or advisable for the efficient operations of the Company**, including at least one trip per month to the Company's office in Orange County, California for in-person meetings**. During Executive's employment with the Company, Executive will not change the state where Executive is primarily working for the Company or resides, without prior written approval from the Company of such change, other than in the case of any such change requested or required of Executive by the Company.

1.3 Company Policies and Benefits. The employment relationship between the parties shall continue to be subject to the Company's personnel policies and procedures as they may be established, interpreted, adopted, revised or deleted from time to time in the Company's sole discretion. Executive will continue to be eligible to participate on the same basis as similarly-situated Executives in the Company's benefit plans in effect from time to time during Executive's employment. The Company reserves the right to change, alter, or terminate any benefit plan in its sole discretion. Notwithstanding the foregoing, in the event that the terms of this Agreement differ from or are in conflict with the Company's general employment policies or practices, this Agreement shall control.

2. COMPENSATION.

2.1 Salary. Executive shall receive for Executive's services to be rendered under this Agreement an initial base salary of **$485,000** on an annualized basis, subject to review and adjustment by the Company in its sole discretion, and payable subject to standard federal and state payroll deductions and withholding requirements in accordance with the Company's standard payroll practices ("***Base Salary***").

2.2 Retention Bonus. Upon Executive's execution of this Agreement, Executive will be eligible to receive a one-time bonus in the amount of $90,000, subject to standard federal and state payroll deductions and withholding requirements in accordance with the Company's standard payroll practices (the "***Retention Bonus***"). The Retention Bonus will be paid to Executive in a single lump sum within thirty (30) days after the Effective Date, provided Executive remains employed with the Company on such date.

2.3 Annual Discretionary Bonus. Beginning as of January 1, 2025, Executive will be eligible to be awarded a discretionary annual cash bonus with a target of **40%** of Executive's then-current Base Salary, subject to review and adjustment from time to time by the Company in its sole discretion, payable subject to standard federal and state payroll deductions and withholding requirements in accordance with the Company's standard payroll practices ("***Target Bonus***"). Whether or not Executive is awarded any bonus will be dependent upon (a) the actual achievement by Executive and the Company of the applicable individual and corporate performance goals, as determined by the Company's Board of Directors (the **"*Board***"), or a committee thereof, in its sole discretion, and (b) Executive's continuous performance of services to the Company through the date any such bonus is paid. The bonus may be greater or lesser than the Target Bonus and may be zero. In the event Executive's Base Salary is increased during an applicable bonus year, any bonus Executive is eligible to receive for that year (as a percentage of Executive's Base Salary) will be calculated such that the modified Base Salary rate only applies to the period of time from the effective date of the Base Salary adjustment through the end of the applicable bonus year (and the prior Base Salary rate applies to the period before the Base Salary adjustment). The Board will determine in its sole discretion the extent to which Executive has achieved the performance goals upon which the bonus is based and the amount of the bonus, if any. Any bonus earned under this Section 2.3 shall be paid to Executive no later than March 15 of the calendar year following the year for which the bonus is awarded.

2.4 Equity Awards. Executive was previously granted **200,000 shares** of the Company's common stock pursuant to that certain Restricted Stock Award Grant Notice, dated as of October 07, 2024 (the "***Prior Award***") pursuant to the Company's 2024 Equity Incentive Plan, as amended (the "***Plan***"). Executive hereby acknowledges that, except as otherwise set forth in Section 6 below, the Prior Award, as well as any other existing or future equity grants issued by the Company to Executive will continue to be governed by the terms of the Plan and other applicable award 3 agreement documents. The parties acknowledge that service as a consultant, employee, or member of the Board is and will be deemed to be "Continuous Service" (as defined in the Plan) for purposes of vesting under the Plan.

2.5 Expense Reimbursement. The Company will continue to reimburse Executive for reasonable business expenses in accordance with the Company's standard expense reimbursement policy, as the same may be modified by the Board from time to time. The Company shall continue to reimburse Executive for all customary and appropriate business-related expenses actually incurred and documented in accordance with Company policy, as in effect from time to time. For the avoidance of doubt, to the extent that any reimbursements payable to Executive are subject to the provisions of Section 409A of the Internal Revenue Code of 1986, as amended (the "***Code***"): (a) any such reimbursements will be paid no later than December 31 of the year following the year in which the expense was incurred, (b) the amount of expenses reimbursed in one year will not affect the amount eligible for reimbursement in any subsequent year, and (c) the right to reimbursement under this Agreement will not be subject to liquidation or exchange for another benefit.

3. Confidential Information, Inventions, Non-Competition and Non-Solicitation Obligations. As a condition of continued employment, Executive agrees to execute and abide by the Employee Confidential Information and Inventions Assignment Agreement attached as Exhibit A ("***Confidential Information Agreement***"), which may be amended by the parties from time to time without regard to this Agreement. The Confidential Information Agreement contains provisions that are intended by the parties to survive and do survive termination of this Agreement.

4. Outside Activities During Employment. Except with the prior written consent of the Company's CEO, Executive will not, while employed by the Company, undertake or engage in any other employment, consulting, occupation or business enterprise that would interfere with Executive's responsibilities and the performance of Executive's duties hereunder, except for (i) reasonable time devoted to volunteer services for or on behalf of such religious, educational, non-profit and/or other charitable organization as Executive may wish to serve, (ii) reasonable time devoted to activities in the non-profit and business communities consistent with Executive's duties, and (iii) such other activities as may be specifically approved in writing by the Company's CEO. This restriction shall not, however, preclude Executive (i) from owning less than one percent (1%) of the total outstanding shares of a publicly-traded company or (ii) from employment or service in any capacity with Affiliates of the Company. As used in this Agreement, "***Affiliates***" means an entity under common management or control with the Company. Executive agrees to promptly disclose to the CEO his/her involvement in any activities contemplated by this Section 4.

5. No Conflict with Existing Obligations. Executive represents that Executive's performance of all the terms of this Agreement and service as an executive of the Company do not and will not breach any agreement or obligation of any kind made prior to Executive's employment by the Company, including agreements or obligations Executive may have with prior employers or entities for which Executive has provided services. Executive has not entered into, and Executive agrees that Executive will not enter into, any agreement or obligation, either written or oral, in conflict herewith.

6. Termination Of Employment. The parties acknowledge that Executive's employment relationship with the Company will at all times be at-will. Either Executive or the Company may terminate the employment relationship for any reason whatsoever at any time, with or without cause or advance notice. The provisions in this Section govern the amount of compensation, if any, to be provided to Executive upon termination of employment and do not alter this at-will status.

6.1 Termination by the Company without Cause (not in connection with a Change in Control).

(a) The Company shall have the right to terminate Executive's employment with the Company pursuant to this Section 6.1 at any time without "Cause" (as defined below) by giving notice as described in Section 7.1 of this Agreement. A termination pursuant to Sections 6.5 or 6.6 below is not a termination without Cause for purposes of receiving the benefits described in this Section 6.1.

(b) If the Company terminates Executive's employment at any time without Cause, then Executive shall be entitled to receive the Accrued Obligations (as defined below), and provided that such termination constitutes a "separation from service" (as defined under Treasury Regulation Section 1.409A-1(h), without regard to any alternative definition thereunder, a "***Separation from Service***") and subject to Executive's compliance with the obligations in Section 6.1(c) below, Executive shall also be eligible to receive the following severance benefits (the "***Severance Benefits***"):

(i) The Company will pay Executive an amount equal to the sum of Executive's then current Base Salary for **nine (9) months** plus **75%** of Executive's Target Bonus for the year in which Executive's termination hereunder occurs, less all applicable withholdings and deductions, in a lump sum on the Company's second regularly-scheduled payroll date following the Release Effective Date (as defined below).

(ii) If Executive timely elects continued coverage under COBRA for Executive and Executive's dependents under the Company's group health plans following such termination, then the Company shall reimburse Executive for the cost of the COBRA premiums necessary to continue Executive's and his/her covered dependents' health insurance coverage in effect on the termination date until the earliest of: (i) **twelve (12) months** following the Separation from Service; (ii) the date when Executive becomes eligible for substantially equivalent health insurance coverage in connection with new employment or self-employment; or (iii) the date Executive ceases to be eligible for COBRA continuation coverage for any reason, including plan termination (such period from the termination date through the earlier of (i)-(iii), (the "***COBRA Payment Period***"). To receive this reimbursement, Executive will be required to remit timely payment of each COBRA premium during the COBRA Payment Period to the Company or its designee and present proof of payment within ten (10) days. The Company will then process the reimbursement to Executive in accordance with its ordinary expense reimbursement policies. Notwithstanding the foregoing, the Company may in its discretion pay COBRA premiums directly to the applicable carrier or pay Executive on the last day of each remaining month of the COBRA Payment Period, a fully taxable cash payment equal to the COBRA premium for such month, subject to applicable tax withholding, for the remainder of the COBRA Payment Period (the "***Special COBRA Payments***"). The Company may also in its discretion pay the Special COBRA Payments for the remainder of the COBRA Payment Period in one fully taxable lump sum as opposed to monthly installments. Nothing in this Agreement shall deprive Executive of his/her rights under COBRA or ERISA for benefits under plans and policies arising under his/her employment by the Company.

(iii) Effective as of the date of termination hereunder, the vesting and exercisability of all outstanding unvested Company equity awards that are held by Executive as of immediately prior to the termination date and which are scheduled to vest and become exercisable under a time-based schedule shall be modified so that any unvested shares scheduled to vest during the **nine (9) month** period following Executive's termination date shall be deemed immediately vested and exercisable as of Executive's termination date (and, for clarity, if any unvested equity award is in the form of restricted stock where the unvested shares are subject to a share reacquisition or repurchase right on behalf of the Company upon Executive's termination from employment or service (*e.g.*, at the lower of the stock's fair market value or the original purchase price), such unvested share reacquisition or repurchase right will lapse as to the shares of stock that otherwise are scheduled or are eligible to vest following Executive's termination date).

(c) Executive will be paid all of the Accrued Obligations on the Company's first payroll date after Executive's date of termination from employment or earlier if required by law. Executive shall receive the Severance Benefits pursuant to Section 6.1(b) of this Agreement if: (i) by the sixtieth (60th) day following the date of Executive's Separation from Service, Executive has signed and delivered to the Company a separation agreement containing (among other terms) an effective, general release of claims in favor of the Company and its affiliates and representatives, in a form presented by the Company (the "***Release***") and which cannot be revoked in whole or part by such date (the date that the Release can no longer be revoked is referred to as the "***Release Effective Date***"); (ii) if Executive holds any other positions with the Company or any Affiliate, including a position on the Board, Executive resigns such position(s) to be effective no later than the date of Executive's termination date (or such other date as requested by the Board); (iii) Executive returns all Company property; (iv) Executive is in compliance with his/her post-termination obligations under this Agreement and the Proprietary Information Agreement when any such Severance Benefits are due and payable; and (v) Executive complies with the terms of the Release, including without limitation any mutual non-disparagement and confidentiality provisions contained in the Release. To the extent that any of the Severance Benefits are deferred compensation under Section 409A of the Code, and are not otherwise exempt from the application of Section 409A, then, if the period during which Executive may consider and sign the Release spans two calendar years, the payment of the Severance Benefits will not be made or begin until the later calendar year.

(d) For purposes of this Agreement, "***Accrued Obligations***" are (i) Executive's accrued but unpaid salary through the date of termination, (ii) Executive's accrued but unused vacation time through the date of termination, (iii) any unreimbursed business expenses incurred by Executive payable in accordance with the Company's standard expense reimbursement policies, and (iv) benefits owed to Executive under any qualified retirement plan or health and welfare benefit plan in which Executive was a participant in accordance with applicable law and the provisions of such plan.

(e) The Severance Benefits provided to Executive pursuant to this Section 6.1 are in lieu of, and not in addition to, any benefits to which Executive may otherwise be entitled under any Company severance plan, policy or program.

(f) Any damages caused by the termination of Executive's employment without Cause would be difficult to ascertain; therefore, the Severance Benefits for which Executive is eligible pursuant to Section 6.1(b) above in exchange for the Release is agreed to by the parties as liquidated damages, to serve as full compensation, and not a penalty.

(g) For purposes of this Agreement, the term "***Change in Control***" shall have the meaning set forth in the Plan.

6.2 Resignation by Executive for Good Reason (not in connection with a Change in Control).

(a) Provided Executive has not previously been notified of the Company's intention to terminate Executive's employment, Executive may resign from employment with the Company for Good Reason (as defined in Section 6.2(b) below).

(b) "***Good Reason***" for purposes of this Agreement shall mean the occurrence of any of the following conditions without Executive's consent, after Executive's provision of written notice to the Company of the existence of such condition (which notice must be provided as described in Section 7.1 within thirty (30) days of the initial existence of the condition and must specify the particular condition in reasonable detail), provided that the Company has not first provided notice to Executive of its intent to terminate Executive's employment: (i) a material reduction in Executive's duties, responsibilities or authorities; (ii) a material (greater than 10%) reduction by the Company of Executive's Base Salary (except in the case of either an across-the-board reduction in salaries or a temporary reduction due to financial exigency, in either case, not to exceed six (6) months); (iii) the relocation by the Company of Executive's principal place of employment by fifty (50) or more miles from Executive's then-current principal place of employment; or (iv) the Company requiring Executive to violate applicable law or established professional ethics rules in the performance of Executive's duties hereunder. Notwithstanding the foregoing, Good Reason shall only exist if the Company is provided a thirty (30) day period to cure the event or condition giving rise to Good Reason, and it fails to do so within that cure period (and, additionally, Executive must resign for such Good Reason condition by giving notice as described in Section 7.1 within thirty (30) days after the period for curing the violation or condition has ended).

(c) In the event Executive resigns for Good Reason from Executive's employment, then Executive shall be entitled to the Accrued Obligations and, provided such resignation constitutes a Separation from Service, and Executive complies with the obligations in Section 6.1(c) of this Agreement (including the requirement to provide an effective Release), Executive shall also be eligible to receive the same Severance Benefits as described in Section 6.1 and on the same conditions as if Executive had been terminated by the Company without Cause.

6.3 Termination by the Company without Cause or Resignation by Executive for Good Reason in Connection with a Change in Control.

(a) In the event that the Company terminates Executive's employment without Cause (as defined below) or Executive resigns for Good Reason within three (3) months before or twelve (12) months following the effective date of a Change in Control ("***Change in Control Termination Date***"), then Executive shall be entitled to the Accrued Obligations and, subject to Executive's compliance with Section 6.1(c), including but not limited to the Release requirement and Executive's continued compliance with Executive's obligations to the Company under Executive's Confidential Information Agreement, then Executive will be eligible for the following "***Change in Control Severance Benefits***:"

(i) The Company will pay Executive an amount equal to the sum of Executive's then current Base Salary for **twelve (12) months** plus **100%** of Executive's Target Bonus for the year in which Executive's termination hereunder occurs, less all applicable withholdings and deductions, in a lump sum payment upon the Company's second regularly-scheduled payroll date following the Release Effective Date (as defined below).

(ii) If Executive timely elects continued coverage under COBRA for Executive and Executive's dependents under the Company's group health plans following such termination, then the Company shall reimburse Executive for the cost of the COBRA premiums necessary to continue Executive's and his/her covered dependents' health insurance coverage in effect on the termination date until the earliest of: (i) **eighteen (18) months** following the Change in Control Termination Date; (ii) the date when Executive becomes eligible for substantially equivalent health insurance coverage in connection with new employment or self-employment; or (iii) the date Executive ceases to be eligible for COBRA continuation coverage for any reason, including plan termination (such period from the termination date through the earlier of (i)-(iii), (the "***CIC COBRA Payment Period***"). To receive this reimbursement, Executive will be required to remit timely payment of each COBRA premium during the CIC COBRA Payment Period to the Company or its designee and present proof of payment within ten (10) days. The Company will then process the reimbursement to Executive in accordance with its ordinary expense reimbursement policies. Notwithstanding the foregoing, the Company may in its discretion pay COBRA premiums directly to the applicable carrier or pay Executive on the last day of each remaining month of the CIC COBRA Payment Period, a fully taxable cash payment equal to the COBRA premium for such month, subject to applicable tax withholding, for the remainder of the CIC COBRA Payment Period (the "***Special CIC COBRA Payments***"). The Company may also in its discretion pay the Special CIC COBRA Payments for the remainder of the CIC COBRA Payment Period in one fully taxable lump sum as opposed to monthly installments. Nothing in this Agreement shall deprive Executive of his/her rights under COBRA or ERISA for benefits under plans and policies arising under his/her employment by the Company.

(iii) Effective as of Executive's Change in Control Termination Date, and provided that Company equity awards have been continued, assumed or substituted for by the Company and/or the acquiror (or any affiliate of the acquiror) in connection with such Change in Control transaction, the vesting and exercisability of all outstanding unvested Company equity awards that are held by Executive as of immediately prior to the Change in Control Termination Date and which are scheduled to vest and become exercisable under a time-based or performance based schedule shall be deemed immediately vested and exercisable as of Executive's termination date (and, for clarity, if any unvested equity award is in the form of restricted stock where the unvested shares are subject to a share reacquisition or repurchase right on behalf of the Company upon Executive's termination from employment or service (*e.g.*, at the lower of the stock's fair market value or the original purchase price), such unvested share reacquisition or repurchase right will lapse as to the shares of stock that otherwise are scheduled or are eligible to vest following the Change in Control Termination Date).

6.4 Termination by the Company for Cause.

(a) The Company shall have the right to terminate Executive's employment with the Company at any time for Cause by giving notice as described in Section 7.1 of this Agreement.

(b) "***Cause***" for purposes of this Agreement shall mean that the Company has determined in its sole discretion that Executive has engaged in any of the following: (i) a material breach of any covenant or condition under this Agreement or any other agreement between the Company and Executive; (ii) any act constituting dishonesty, fraud, immoral or disreputable conduct which causes or is reasonably likely to cause material harm to the Company, its business or its reputation; (iii) any conduct which constitutes a felony under applicable law; (iv) material violation of any Company policy or any act of misconduct; (v) repeated refusal to follow or implement a clear reasonable and lawful directive of Company; (vi) negligence or incompetence in the performance of Executive's duties or failure to perform such duties in a manner satisfactory to the Company after the expiration of thirty (30) days without cure, to the extent curable, after written notice of such failure; (vii) failure to pass to the satisfaction of the Company, a preliminary background check or failure to submit proof of legal eligibility to work in the United States; or (viii) breach of fiduciary duty.

(c) In the event Executive's employment is terminated at any time for Cause, Executive will not receive Severance Benefits, Change in Control Severance Benefits, or any other compensation or benefits, except that, pursuant to the Company's standard payroll policies, the Company shall provide to Executive the Accrued Obligations.

6.5 Resignation by Executive (other than for Good Reason).

(a) Executive may resign from Executive's employment with the Company at any time by giving notice as described in Section 7.1.

(b) In the event Executive resigns from Executive's employment with the Company (other than for Good Reason), Executive will not receive Severance Benefits, Change in Control Severance Benefits, or any other compensation or benefits, except that, pursuant to the Company's standard payroll policies, the Company shall provide to Executive the Accrued Obligations.

6.6 Termination by Virtue of Death or Disability of Executive.

(a) In the event of Executive's death while employed pursuant to this Agreement, all obligations of the parties hereunder shall terminate immediately, and the Company shall, pursuant to the Company's standard payroll policies, provide to Executive's legal representatives all Accrued Obligations.

(b) Subject to applicable state and federal law, the Company shall at all times have the right, upon written notice to Executive, to terminate this Agreement based on Executive's Disability. Termination by the Company of Executive's employment based on "***Disability***" shall mean termination because Executive is unable due to a physical or mental condition to perform the essential functions of Executive's position with or without reasonable accommodation for six (6) months in the aggregate during any twelve (12) month period or based on the written certification by two licensed physicians of the likely continuation of such condition for such period. This definition shall be interpreted and applied consistent with the Americans with Disabilities Act, the Family and Medical Leave Act, and other applicable law. In the event Executive's employment is terminated based on Executive's Disability, Executive will not receive the Severance Benefits, Change in Control Severance Benefits, or any other severance compensation or benefit, except that, pursuant to the Company's standard payroll policies, the Company shall provide to Executive the Accrued Obligations.

6.7 **Application of Section 409A.** It is intended that all of the severance payments payable under this Agreement satisfy, to the greatest extent possible, the exemptions from the application of Section 409A of the Code and the regulations and other guidance thereunder and any state law of similar effect (collectively, "***Section 409A***") provided under Treasury Regulations Sections 1.409A-1(b)(4) and 1.409A-1(b)(9), and this Agreement will be construed in a manner that complies with Section 409A. If not so exempt, this Agreement (and any definitions hereunder) will be construed in a manner that complies with Section 409A, and incorporates by reference all required definitions and payment terms. No severance payments will be made under this Agreement unless Executive's termination of employment constitutes a "separation from service" (as defined under Treasury Regulation Section 1.409A-1(h)). For purposes of Section 409A (including, without limitation, for purposes of Treasury Regulations Section 1.409A-2(b)(2)(iii)), Executive's right to receive any installment payments under this Agreement (whether severance payments or otherwise) shall be treated as a right to receive a series of separate payments and, accordingly, each installment payment hereunder shall at all times be considered a separate and distinct payment. To the extent that any severance payments are deferred compensation under Section 409A, and are not otherwise exempt from the application of Section 409A, then, if the period during which Executive may consider and sign the Release spans two calendar years, the severance payments will not begin until the second calendar year. If the Company determines that the Severance Benefits or Change in Control Severance Benefits provided under this Agreement constitutes "deferred compensation" under Section 409A and if Executive is a "specified Executive" of the Company, as such term is defined in Section 409A(a)(2)(B)(i) of the Code at the time of Executive's Separation from Service, then, solely to the extent necessary to avoid the incurrence of the adverse personal tax consequences under Section 409A, the timing of the Severance will be delayed as follows: on the earlier to occur of (a) the date that is six months and one day after Executive's Separation from Service, and (b) the date of Executive's death (such earlier date, the "***Delayed Initial Payment Date***"), the Company will (i) pay to Executive a lump sum amount equal to the sum of the Severance Benefits or Change in Control Severance Benefits that Executive would otherwise have received through the Delayed Initial Payment Date if the commencement of the payment of the Severance Benefits or Change in Control Severance Benefits had not been delayed pursuant to this Section 6.7 and (ii) commence paying the balance of the Severance Benefits or Change in Control Severance Benefits in accordance with the applicable payment schedule set forth in Section 6.1. No interest shall be due on any amounts deferred pursuant to this Section 6.7.

6.8 Notice; Effective Date of Termination.

(a) Termination of Executive's employment pursuant to this Agreement shall be effective on the earliest of:

(i) immediately after the Company gives notice to Executive of Executive's termination, with or without Cause, unless pursuant to Section 6.4(b)(vi) in which case thirty (30) days after notice if not cured or unless the Company specifies a later date, in which case, termination shall be effective as of such later date;

(ii) immediately upon Executive's death;

(iii) ten (10) days after the Company gives notice to Executive of Executive's termination on account of Executive's Disability, unless the Company specifies a later date, in which case, termination shall be effective as of such later date, *provided* that Executive has not returned to the full-time performance of Executive's duties prior to such date;

(iv) ten (10) days after Executive gives written notice to the Company of Executive's resignation not for Good Reason, *provided* that the Company may set a termination date at any time between the date of notice and the date of resignation, in which case Executive's resignation shall be effective as of such other date. Executive will receive compensation through any required notice period; or

(v) for a termination for Good Reason under Section 6.2(b), immediately upon Executive's full satisfaction of the requirements of Section 6.2(b).

(b) In the event notice of a termination under subsections (a)(i) and (iii) is given orally, at the other party's request, the party giving notice must provide written confirmation of such notice within five (5) business days of the request in compliance with the requirement of Section 7.1 below. In the event of a termination for Cause, written confirmation shall specify the subsection(s) of the definition of Cause relied on to support the decision to terminate.

6.9 Cooperation With Company After Termination of Employment. Following termination of Executive's employment for any reason, Executive shall fully cooperate with the Company in all matters relating to the winding up of Executive's pending work including, but not limited to, any litigation in which the Company is involved, and the orderly transfer of any such pending work to such other executives as may be designated by the Company. The Company will reimburse Executive for reasonable out-of-pocket expenses Executive incurs in connection with any such cooperation (excluding forgone wages, salary, or other compensation) and will make reasonable efforts to accommodate Executive's scheduling needs. The Parties further agree that no cooperation under this Section 6.9 shall be required after the six (6)-month anniversary of Executive's termination date and any cooperation hereunder in excess of ten (10) hours per month after the one (1)-month anniversary of Executive's termination date shall be compensated at an hourly cash rate to be agreed upon by Executive and the Company after the termination date.

6.10 Excise Tax Adjustment.

(a) If any payment or benefit Executive will or may receive from the Company or otherwise (a "***280G Payment***") would (i) constitute a "parachute payment" within the meaning of Section 280G of the Code, and (ii) but for this Section, be subject to the excise tax imposed by Section 4999 of the Code (the "***Excise Tax***"), then any such 280G Payment provided pursuant to this Agreement (a "***Payment***") shall be equal to the Reduced Amount. The "*Reduced Amount*" shall be either (x) the largest portion of the Payment that would result in no portion of the Payment (after reduction) being subject to the Excise Tax, or (y) the largest portion, up to and including the total, of the Payment, whichever amount (i.e., the amount determined by clause (x) or by clause (y)), after taking into account all applicable federal, state, and local employment taxes, income taxes, and the Excise Tax (all computed at the highest applicable marginal rate), results in Executive's receipt, on an after-tax basis, of the greater economic benefit notwithstanding that all or some portion of the Payment may be subject to the Excise Tax. If a reduction in a Payment is required pursuant to the preceding sentence and the Reduced Amount is determined pursuant to clause (x) of the preceding sentence, the reduction shall occur in the manner (the "***Reduction Method***") that results in the greatest economic benefit for Executive. If more than one method of reduction will result in the same economic benefit, the items so reduced will be reduced pro rata (the "***Pro Rata Reduction Method***").

(b) Notwithstanding any provision of this Section 6.10 to the contrary, if the Reduction Method or the Pro Rata Reduction Method would result in any portion of the Payment being subject to taxes pursuant to Section 409A that would not otherwise be subject to taxes pursuant to Section 409A, then the Reduction Method and/or the Pro Rata Reduction Method, as the case may be, shall be modified so as to avoid the imposition of taxes pursuant to Section 409A as follows: (A) as a first priority, the modification shall preserve to the greatest extent possible, the greatest economic benefit for Executive as determined on an after-tax basis; (B) as a second priority, Payments that are contingent on future events (*e.g.*, being terminated without Cause) shall be reduced (or eliminated) before Payments that are not contingent on future events; and (C) as a third priority, Payments that are "deferred compensation" within the meaning of Section 409A shall be reduced (or eliminated) before Payments that are not deferred compensation within the meaning of Section 409A.

(c) Unless Executive and the Company agree on an alternative accounting firm or law firm, the accounting firm engaged by the Company for general tax compliance purposes as of the day prior to the effective date of the Change in Control transaction shall perform the foregoing calculations. If the accounting firm so engaged by the Company is serving as accountant or auditor for the individual, entity, or group effecting the Change in Control transaction, the Company shall appoint a nationally recognized accounting or law firm to make the determinations required by this Section 6.10. The Company shall bear all expenses with respect to the determinations by such accounting or law firm required to be made hereunder. The Company shall use commercially reasonable efforts to cause the accounting or law firm engaged to make the determinations hereunder to provide its calculations, together with detailed supporting documentation, to Executive and the Company within fifteen (15) calendar days after the date on which Executive's right to a 280G Payment becomes reasonably likely to occur (if requested at that time by Executive or the Company) or such other time as requested by Executive or the Company.

(d) If Executive receives a Payment for which the Reduced Amount was determined pursuant to clause (x) of Section 6.10(a) and the Internal Revenue Service determines thereafter that some portion of the Payment is subject to the Excise Tax, Executive agrees to promptly return to the Company a sufficient amount of the Payment (after reduction pursuant to clause (x) of Section 6.10(a)) so that no portion of the remaining Payment is subject to the Excise Tax. For the avoidance of doubt, if the Reduced Amount was determined pursuant to clause (y) of Section 6.10(a), Executive shall have no obligation to return any portion of the Payment pursuant to the preceding sentence.

7. General Provisions.

7.1 Notices. Any notices required hereunder to be in writing shall be deemed effectively given: (a) upon personal delivery to the party to be notified, (b) when sent by electronic mail or confirmed facsimile if sent during normal business hours of the recipient, and if not, then on the next business day, (c) five (5) days after having been sent by registered or certified mail, return receipt requested, postage prepaid, or (d) one (1) day after deposit with a nationally recognized overnight courier, specifying next-day delivery, with written verification of receipt. All communications shall be sent to the Company at its primary office location and to Executive at Executive's address as listed on the Company payroll or to Executive's Company-issued email address or Executive's email address as listed in Company records, or at such other address as the Company or Executive may designate by ten (10) days' advance written notice to the other.

7.2 Severability. Whenever possible, each provision of this Agreement will be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Agreement is held to be invalid, illegal or unenforceable in any respect under any applicable law or rule in any jurisdiction, such invalidity, illegality or unenforceability will not affect any other provision or any other jurisdiction, but this Agreement will be reformed, construed and enforced in such jurisdiction as if such invalid, illegal or unenforceable provisions had never been contained herein.

7.3 Survival. Provisions of this Agreement which by their terms must survive the termination of this Agreement in order to effectuate the intent of the parties will survive any such termination, whether by expiration of the term, termination of Executive's employment, or otherwise, for such period as may be appropriate under the circumstances.

7.4 Waiver. If either party should waive any breach of any provisions of this Agreement, it shall not thereby be deemed to have waived any preceding or succeeding breach of the same or any other provision of this Agreement.

7.5 Complete Agreement. This Agreement constitutes the entire agreement between Executive and the Company with regard to the subject matter hereof. This Agreement is the complete, final, and exclusive embodiment of their agreement with regard to this subject matter and supersedes any prior oral discussions or written communications and agreements. This Agreement is entered into without reliance on any promise or representation other than those expressly contained herein, and it cannot be modified or amended except in writing signed by Executive and an authorized officer of the Company. The parties will enter into a separate Confidential Information Agreement and may enter into separate agreements related to equity. These separate agreements govern other aspects of the relationship between the parties, have or may have provisions that survive termination of Executive's employment under this Agreement, may be amended or superseded by the parties without regard to this Agreement and are enforceable according to their terms without regard to the enforcement provision of this Agreement.

7.6 **Counterparts.** This Agreement may be executed in separate counterparts, any one of which need not contain signatures of more than one party, but all of which taken together will constitute one and the same Agreement.

7.7 **Headings.** The headings of the sections hereof are inserted for convenience only and shall not be deemed to constitute a part hereof nor to affect the meaning thereof.

7.8 **Successors and Assigns.** The Company shall assign this Agreement and its rights and obligations hereunder in whole, but not in part, to any Company or other entity with or into which the Company may hereafter merge or consolidate or to which the Company may transfer all or substantially all of its assets, if in any such case said Company or other entity shall by operation of law or expressly in writing assume all obligations of the Company hereunder as fully as if it had been originally made a party hereto, but may not otherwise assign this Agreement or its rights and obligations hereunder. The Executive may not assign or transfer this Agreement or any rights or obligations hereunder, other than to the Executive's estate upon Executive's death.

7.9 **Choice of Law.** All questions concerning the construction, validity and interpretation of this Agreement will be governed by the laws of the **State of New York**.

7.10 Resolution of Disputes. To ensure the rapid and economical resolution of disputes that may arise in connection with Executive's continued employment with the Company, Executive and the Company agree that any and all disputes, claims, or causes of action, in law or equity, including but not limited to statutory claims, arising from or relating to the enforcement, breach, performance, or interpretation of this Agreement, Executive's employment with the Company, or the termination of Executive's employment, shall be resolved pursuant to the Federal Arbitration Act, 9 U.S.C. § 1-16, to the fullest extent permitted by law, by final, binding and confidential arbitration conducted by JAMS or its successor, under JAMS' then applicable rules and procedures appropriate to the relief being sought (available upon request and also currently available at the following web addresses: (i) https://www.jamsadr.com/rules-employment-arbitration/ and (ii) https://www.jamsadr.com/rules-comprehensive-arbitration/). **Executive acknowledges that by agreeing to this arbitration procedure, both Executive and the Company waive the right to resolve any such dispute through a trial by jury or judge or administrative proceeding.** In addition, all claims, disputes, or causes of action under this Section, whether by Executive or the Company, must be brought in an individual capacity, and shall not be brought as a plaintiff (or claimant) or class member in any purported class or representative proceeding, nor joined or consolidated with the claims of any other person or entity. The arbitrator may not consolidate the claims of more than one person or entity, and may not preside over any form of representative or class proceeding. To the extent that the preceding sentences regarding class claims or proceedings are found to violate applicable law or are otherwise found unenforceable, any claim(s) alleged or brought on behalf of a class shall proceed in a court of law rather than by arbitration. This Section shall not apply to any action or claim that cannot be subject to mandatory arbitration as a matter of law, including, without limitation, claims alleging sexual harassment or a nonconsensual sexual action or sexual contact, to the extent such claims are not permitted by applicable law(s) to be submitted to mandatory arbitration and the applicable law(s) are not preempted by the Federal Arbitration Act or otherwise invalid (collectively, the "***Excluded Claims***"). In the event Executive intends to bring multiple claims, including one of the Excluded Claims listed above, the Excluded Claims may be filed with a court, while any other claims will remain subject to mandatory arbitration. Executive will have the right to be represented by legal counsel at any arbitration proceeding. Questions of whether a claim is subject to arbitration under this Agreement shall be decided by the arbitrator. Likewise, procedural questions which grow out of the dispute and bear on the final disposition are also matters for the arbitrator. The arbitrator shall: (a) have the authority to compel adequate discovery for the resolution of the dispute and to award such relief as would otherwise be permitted by law; and (b) issue a written statement signed by the arbitrator regarding the disposition of each claim and the relief, if any, awarded as to each claim, the reasons for the award, and the arbitrator's essential findings and conclusions on which the award is based. The arbitrator shall be authorized to award all relief that Executive or the Company would be entitled to seek in a court of law. Executive and the Company shall equally share all JAMS' arbitration fees, or such fees shall be paid in such other manner to the extent required by, and in accordance with, applicable law to effectuate Executive's and the Company's agreement to arbitrate. To the extent JAMS does not collect or Executive otherwise does not pay to JAMS an equal share of all JAMS' arbitration fees for any reason, and the Company pays JAMS Executive's share, Executive acknowledges and agrees that the Company shall be entitled to recover from Executive half of the JAMS arbitration fees invoiced to the parties (less any amounts Executive paid to JAMS) in a federal or state court of competent jurisdiction. Each party is responsible for its own attorneys' fees, except as expressly set forth in the Confidential Information Agreement. Nothing in this Agreement is intended to prevent either Executive or the Company from obtaining injunctive relief in court to prevent irreparable harm pending the conclusion of any such arbitration. Any awards or orders in such arbitrations may be entered and enforced as judgments in the federal and state courts of any competent jurisdiction.

EMPLOYMENT AGREEMENT

This **Employment Agreement** (the "***Agreement***") is entered into effective as of the Start Date (as defined below) by and between **Christopher Aker** (the "***Executive***") and **Ambros Therapeutics, Inc.** (the "***Company***").

The Company desires to employ Executive and, in connection therewith, to compensate Executive for Executive's services, performed personally by Executive, to the Company; and

Executive wishes to be employed by the Company and provide services to be performed personally by Executive and certain covenants to the Company in return for certain compensation and benefits.

Accordingly, in consideration of the mutual promises and covenants contained herein, the parties agree to the following:

1. Employment by the Company.

1.1 Position. Subject to the terms set forth herein, the Company agrees to employ Executive initially in the position of General Counsel, and Executive hereby accepts such employment.

1.2 Effectiveness of Agreement and Start Date. Executive's employment with the Company shall commence on August 3, 2026 or such other date mutually agreed to in writing by Executive and the Company (the "***Start Date***"). In the event that Executive does not commence employment with the Company under this Agreement, the Company shall have no obligation to provide Executive with compensation and benefits (including, but not limited to, the "Severance Benefits" and "Change in Control Severance Benefits" stated in Section 6.1, 6.2 or 6.3).

1.3 Duties. Executive will initially report to the Company's Chief Executive Officer (the "***CEO***"), performing such duties as are normally associated with Executive's position and such duties as are assigned to Executive from time to time, subject to the oversight and direction of the CEO or his designee. During the term of Executive's employment with the Company, Executive will devote Executive's best efforts and substantially all of Executive's business time and attention to the business of the Company. Executive shall perform Executive's duties under this Agreement principally from Executive's home office or, once the Company has established a permanent office location in San Diego, California, at the Company's office in San Diego, California, or, from time to time, the Company's office in Orange County, California. In addition, Executive shall make such business trips to such places as may be necessary or advisable for the efficient operations of the Company. During Executive's employment with the Company, Executive will not change the state where Executive is primarily working for the Company or resides, without prior written approval from the Company of such change, other than in the case of any such change requested or required of Executive by the Company.

1.4 Company Policies and Benefits. The employment relationship between the parties shall be subject to the Company's personnel policies and procedures as they may be established, interpreted, adopted, revised or deleted from time to time in the Company's sole discretion. Executive will be eligible to participate on the same basis as similarly-situated Executives in the Company's benefit plans in effect from time to time during Executive's employment. The Company reserves the right to change, alter, or terminate any benefit plan in its sole discretion. Notwithstanding the foregoing, in the event that the terms of this Agreement differ from or are in conflict with the Company's general employment policies or practices, this Agreement shall control.

2. Compensation.

2.1 Salary. Executive shall receive for Executive's services to be rendered under this Agreement an initial base salary of $435,000 on an annualized basis, subject to review and adjustment by the Company in its sole discretion, and payable subject to standard federal and state payroll deductions and withholding requirements in accordance with the Company's standard payroll practices ("Base Salary").

2.2 Annual Discretionary Bonus. Beginning as of the Start Date, Executive will be eligible to be awarded a discretionary annual cash bonus with a target of 40% of Executive's then-current Base Salary, subject to review and adjustment from time to time by the Company in its sole discretion, payable subject to standard federal and state payroll deductions and withholding requirements in accordance with the Company's standard payroll practices ("***Target Bonus***"). Whether or not Executive is awarded any bonus will be dependent upon (a) the actual achievement by Executive and the Company of the applicable individual and corporate performance goals, as determined by the Company's Board of Directors (the "***Board***"), or a committee thereof, in its sole discretion, and (b) Executive's continuous performance of services to the Company through the date any such bonus is paid. The bonus may be greater or lesser than the Target Bonus and may be zero. In the event Executive's Base Salary is increased during an applicable bonus year, any bonus Executive is eligible to receive for that year (as a percentage of Executive's Base Salary) will be calculated such that the modified Base Salary rate only applies to the period of time from the effective date of the Base Salary adjustment through the end of the applicable bonus year (and the prior Base Salary rate applies to the period before the Base Salary adjustment). The Board will determine in its sole discretion the extent to which Executive has achieved the performance goals upon which the bonus is based and the amount of the bonus, if any. Any bonus earned under this Section 2.2 shall be paid to Executive no later than March 15 of the calendar year following the year for which the bonus is awarded.

2.3 Equity Awards. Subject to approval of the Board, as soon as practicable following the Start Date, the Executive shall be granted an option to purchase 400,000 shares of the Company's common stock (the "***Initial Option Grant***") under and subject to the terms of the Company's 2024 Equity Incentive Plan, as amended (the "***Plan***"). The Initial Option Grant shall have an exercise price per share equal to the fair market value of the Company's common stock as of the date of grant, as determined in good faith by the Board. One-fourth of the shares subject to the Initial Option Grant shall vest on the first anniversary of the Start Date and the balance of the shares shall vest in a series of 36 successive equal monthly installments thereafter, subject to Executive's Continuous Service (as defined in the Plan) as of each such vesting date. Executive hereby acknowledges that, except as otherwise set forth in Section 6 below, the Initial Option Grant, as well as any other future equity grants issued by the Company to Executive will continue to be governed by the terms of the Plan and other applicable award agreement documents. The parties acknowledge that service as a consultant, employee, or member of the Board is and will be deemed to be "Continuous Service" (as defined in the Plan) for purposes of vesting under the Plan.

2.4 **Expense Reimbursement.** The Company shall reimburse Executive for all customary and appropriate business-related expenses actually incurred and documented in accordance with Company policy, as in effect from time to time, including any out-of-pocket costs relating to Executive's travel to and from Orange County, California (including food, lodging and ground transportation). For the avoidance of doubt, to the extent that any reimbursements payable to Executive are subject to the provisions of Section 409A of the Internal Revenue Code of 1986, as amended (the "***Code***"): (a) any such reimbursements will be paid no later than December 31 of the year following the year in which the expense was incurred, (b) the amount of expenses reimbursed in one year will not affect the amount eligible for reimbursement in any subsequent year, and (c) the right to reimbursement under this Agreement will not be subject to liquidation or exchange for another benefit.

3. **Confidential Information, Inventions, Non-Competition and Non-Solicitation Obligations.** As a condition of employment, Executive agrees to execute and abide by the Employee Confidential Information and Inventions Assignment Agreement attached as Exhibit A ("***Confidential Information Agreement***"), which may be amended by the parties from time to time without regard to this Agreement. The Confidential Information Agreement contains provisions that are intended by the parties to survive and do survive termination of this Agreement.

4. **Outside Activities During Employment.** Except with the prior written consent of the Company's CEO, Executive will not, while employed by the Company, undertake or engage in any other employment, consulting, occupation or business enterprise that would interfere with Executive's responsibilities and the performance of Executive's duties hereunder, except for (i) reasonable time devoted to volunteer services for or on behalf of such religious, educational, non-profit and/or other charitable organization as Executive may wish to serve, (ii) reasonable time devoted to activities in the non-profit and business communities consistent with Executive's duties, and (iii) such other activities as may be specifically approved in writing by the Company's CEO. This restriction shall not, however, preclude Executive (i) from owning less than one percent (1%) of the total outstanding shares of a publicly-traded company or (ii) from employment or service in any capacity with Affiliates of the Company. As used in this Agreement, "***Affiliates***" means an entity under common management or control with the Company. Executive agrees to promptly disclose to the CEO his/her involvement in any activities contemplated by this Section 4.

5. **No Conflict with Existing Obligations.** Executive represents that Executive's performance of all the terms of this Agreement and service as an executive of the Company do not and will not breach any agreement or obligation of any kind made prior to Executive's employment by the Company, including agreements or obligations Executive may have with prior employers or entities for which Executive has provided services. Executive has not entered into, and Executive agrees that Executive will not enter into, any agreement or obligation, either written or oral, in conflict herewith.

6. **TERMINATION OF EMPLOYMENT.** The parties acknowledge that Executive's employment relationship with the Company will at all times be at-will. Either Executive or the Company may terminate the employment relationship for any reason whatsoever at any time, with or without cause or advance notice. The provisions in this Section govern the amount of compensation, if any, to be provided to Executive upon termination of employment and do not alter this at-will status.

6.1 Termination by the Company without Cause (not in connection with a Change in Control).

(a) The Company shall have the right to terminate Executive's employment with the Company pursuant to this Section 6.1 at any time without "Cause" (as defined below) by giving notice as described in Section 7.1 of this Agreement. A termination pursuant to Sections 6.5 or 6.6 below is not a termination without Cause for purposes of receiving the benefits described in this Section 6.1.

(b) If the Company terminates Executive's employment without Cause at any time except during the Change in Control Measurement Period (as defined in Section 6.3 below), then Executive shall be entitled to receive the Accrued Obligations (as defined below), and provided that such termination constitutes a "separation from service" (as defined under Treasury Regulation Section 1.409A-1(h), without regard to any alternative definition thereunder, a "***Separation from Service***") and subject to Executive's compliance with the obligations in Section 6.1(c) below, Executive shall also be eligible to receive the following severance benefits (the "***Severance Benefits***"):

(i) The Company will pay Executive an amount equal to the sum of (A) Executive's then current Base Salary for nine (9) months, plus (B) 75% of Executive's Target Bonus for the year in which Executive's termination hereunder occurs, less all applicable withholdings and deductions, in a lump sum on the Company's second regularly-scheduled payroll date following the Release Effective Date (as defined below).

(ii) If Executive timely elects continued coverage under COBRA for Executive and Executive's dependents under the Company's group health plans following such termination, then the Company shall reimburse Executive for the cost of the COBRA premiums necessary to continue Executive's and his/her covered dependents' health insurance coverage in effect on the termination date until the earliest of: (i) twelve (12) months following the Separation from Service; (ii) the date when Executive becomes eligible for substantially equivalent health insurance coverage in connection with new employment or self-employment; or (iii) the date Executive ceases to be eligible for COBRA continuation coverage for any reason, including plan termination (such period from the termination date through the earlier of (i)-(iii), (the "***COBRA Payment Period***"). To receive this reimbursement, Executive will be required to remit timely payment of each COBRA premium during the COBRA Payment Period to the Company or its designee and present proof of payment within ten (10) days. The Company will then process the reimbursement to Executive in accordance with its ordinary expense reimbursement policies. Notwithstanding the foregoing, the Company may in its discretion pay COBRA premiums directly to the applicable carrier or pay Executive on the last day of each remaining month of the COBRA Payment Period, a fully taxable cash payment equal to the COBRA premium for such month, subject to applicable tax withholding, for the remainder of the COBRA Payment Period (the "***Special COBRA Payments***"). The Company may also in its discretion pay the Special COBRA Payments for the remainder of the COBRA Payment Period in one fully taxable lump sum as opposed to monthly installments. Nothing in this Agreement shall deprive Executive of his/her rights under COBRA or ERISA for benefits under plans and policies arising under his/her employment by the Company.

(iii) Effective as of the date of termination hereunder, the vesting and exercisability of all outstanding unvested Company equity awards that are held by Executive as of immediately prior to the termination date and which are scheduled to vest and become exercisable under a time-based schedule shall be modified so that any unvested shares scheduled to vest during the nine (9) month period following Executive's termination date shall be deemed immediately vested and exercisable as of Executive's termination date (and, for clarity, if any unvested equity award is in the form of restricted stock where the unvested shares are subject to a share reacquisition or repurchase right on behalf of the Company upon Executive's termination from employment or service (e.g., at the lower of the stock's fair market value or the original purchase price), such unvested share reacquisition or repurchase right will lapse as to the shares of stock that otherwise are scheduled or are eligible to vest following Executive's termination date).

(c) Executive will be paid all of the Accrued Obligations on the Company's first payroll date after Executive's date of termination from employment or earlier if required by law. Executive shall receive the Severance Benefits pursuant to Section 6.1(b) of this Agreement if: (i) by the sixtieth (60th) day following the date of Executive's Separation from Service, Executive has signed and delivered to the Company a separation agreement containing (among other terms) an effective, general release of claims in favor of the Company and its affiliates and representatives, in a form presented by the Company (the "***Release***") and which cannot be revoked in whole or part by such date (the date that the Release can no longer be revoked is referred to as the "***Release Effective Date***"); (ii) if Executive holds any other positions with the Company or any Affiliate, including a position on the Board, Executive resigns such position(s) to be effective no later than the date of Executive's termination date (or such other date as requested by the Board); (iii) Executive returns all Company property; (iv) Executive is in compliance with his/her post-termination obligations under this Agreement and the Confidential Information Agreement when any such Severance Benefits are due and payable; and (v) Executive complies with the terms of the Release, including without limitation any mutual non-disparagement and confidentiality provisions contained in the Release. To the extent that any of the Severance Benefits are deferred compensation under Section 409A of the Code, and are not otherwise exempt from the application of Section 409A, then, if the period during which Executive may consider and sign the Release spans two calendar years, the payment of the Severance Benefits will not be made or begin until the later calendar year.

(d) For purposes of this Agreement, "***Accrued Obligations***" are (i) Executive's accrued but unpaid salary through the date of termination, (ii) Executive's accrued but unused vacation time through the date of termination, (iii) any unreimbursed business expenses incurred by Executive payable in accordance with the Company's standard expense reimbursement policies, and (iv) benefits owed to Executive under any qualified retirement plan or health and welfare benefit plan in which Executive was a participant in accordance with applicable law and the provisions of such plan.

(e) The Severance Benefits provided to Executive pursuant to this Section 6.1 are in lieu of, and not in addition to, any benefits to which Executive may otherwise be entitled under any Company severance plan, policy or program.

(f) Any damages caused by the termination of Executive's employment without Cause would be difficult to ascertain; therefore, the Severance Benefits for which Executive is eligible pursuant to Section 6.1(b) above in exchange for the Release is agreed to by the parties as liquidated damages, to serve as full compensation, and not a penalty.

(g) For purposes of this Agreement, the term "***Change in Control***" shall have the meaning set forth in the Plan.

6.2 Resignation by Executive for Good Reason (not in connection with a Change in Control).

(a) Provided Executive has not previously been notified of the Company's intention to terminate Executive's employment, Executive may resign from employment with the Company for Good Reason (as defined in Section 6.2(b) below).

(b) "***Good Reason***" for purposes of this Agreement shall mean the occurrence of any of the following conditions without Executive's consent, after Executive's provision of written notice to the Company of the existence of such condition (which notice must be provided as described in Section 7.1 within thirty (30) days of the initial existence of the condition and must specify the particular condition in reasonable detail), provided that the Company has not first provided notice to Executive of its intent to terminate Executive's employment: (i) a material reduction in Executive's duties, responsibilities or authorities; (ii) a material (greater than 10%) reduction by the Company of Executive's Base Salary (except in the case of either an across-the-board reduction in salaries or a temporary reduction due to financial exigency, in either case, not to exceed six (6) months); (iii) the relocation by the Company of Executive's principal place of employment by fifty (50) or more miles from Executive's then-current principal place of employment; or (iv) the Company requiring Executive to violate applicable law or established professional ethics rules in the performance of Executive's duties hereunder. Notwithstanding the foregoing, Good Reason shall only exist if the Company is provided a thirty (30) day period to cure the event or condition giving rise to Good Reason, and it fails to do so within that cure period (and, additionally, Executive must resign for such Good Reason condition by giving notice as described in Section 7.1 within thirty (30) days after the period for curing the violation or condition has ended).

(c) In the event Executive resigns for Good Reason from Executive's employment at any time except during the Change in Control Measurement Period, then Executive shall be entitled to the Accrued Obligations and, provided such resignation constitutes a Separation from Service, and Executive complies with the obligations in Section 6.1(c) of this Agreement (including the requirement to provide an effective Release), Executive shall also be eligible to receive the same Severance Benefits as described in Section 6.1 and on the same conditions as if Executive had been terminated by the Company without Cause.

6.3 Termination by the Company without Cause or Resignation by Executive for Good Reason in Connection with a Change in Control.

(a) In the event that the Company terminates Executive's employment without Cause (as defined below) or Executive resigns for Good Reason within three (3) months before or twelve (12) months following the effective date of a Change in Control (such date of termination, the "***Change in Control Termination Date,***" and such time period, the "***Change in Control Measurement Period***"), then Executive shall be entitled to the Accrued Obligations and, subject to Executive's compliance with Section 6.1(c), including but not limited to the Release requirement and Executive's continued compliance with Executive's obligations to the Company under Executive's Confidential Information Agreement, then Executive will be eligible for the following "***Change in Control Severance Benefits:***"

(i) The Company will pay Executive an amount equal to the sum of (A) Executive's then current Base Salary for twelve (12) months, plus (B) 100% of Executive's Target Bonus for the year in which Executive's termination hereunder occurs, less all applicable withholdings and deductions, in a lump sum payment upon the Company's second regularly-scheduled payroll date following the Release Effective Date (as defined below).

(ii) If Executive timely elects continued coverage under COBRA for Executive and Executive's dependents under the Company's group health plans following such termination, then the Company shall reimburse Executive for the cost of the COBRA premiums necessary to continue Executive's and his/her covered dependents' health insurance coverage in effect on the termination date until the earliest of: (i) eighteen (18) months following the Change in Control Termination Date; (ii) the date when Executive becomes eligible for substantially equivalent health insurance coverage in connection with new employment or self-employment; or (iii) the date Executive ceases to be eligible for COBRA continuation coverage for any reason, including plan termination (such period from the termination date through the earlier of (i)-(iii), (the "***CIC COBRA Payment Period***"). To receive this reimbursement, Executive will be required to remit timely payment of each COBRA premium during the CIC COBRA Payment Period to the Company or its designee and present proof of payment within ten (10) days. The Company will then process the reimbursement to Executive in accordance with its ordinary expense reimbursement policies. Notwithstanding the foregoing, the Company may in its discretion pay COBRA premiums directly to the applicable carrier or pay Executive on the last day of each remaining month of the CIC COBRA Payment Period, a fully taxable cash payment equal to the COBRA premium for such month, subject to applicable tax withholding, for the remainder of the CIC COBRA Payment Period (the "***Special CIC COBRA Payments***"). The Company may also in its discretion pay the Special CIC COBRA Payments for the remainder of the CIC COBRA Payment Period in one fully taxable lump sum as opposed to monthly installments. Nothing in this Agreement shall deprive Executive of his/her rights under COBRA or ERISA for benefits under plans and policies arising under his/her employment by the Company.

(iii) Effective as of Executive's Change in Control Termination Date, and provided that Company equity awards have been continued, assumed or substituted for by the Company and/or the acquiror (or any affiliate of the acquiror) in connection with such Change in Control transaction, the vesting and exercisability of all outstanding unvested Company equity awards that are held by Executive as of immediately prior to the Change in Control Termination Date and which are scheduled to vest and become exercisable under a time-based or performance based schedule shall be deemed immediately vested and exercisable as of Executive's termination date (and, for clarity, if any unvested equity award is in the form of restricted stock where the unvested shares are subject to a share reacquisition or repurchase right on behalf of the Company upon Executive's termination from employment or service (e.g., at the lower of the stock's fair market value or the original purchase price), such unvested share reacquisition or repurchase right will lapse as to the shares of stock that otherwise are scheduled or are eligible to vest following the Change in Control Termination Date).

6.4 Termination by the Company for Cause.

(a) The Company shall have the right to terminate Executive's employment with the Company at any time for Cause by giving notice as described in Section 7.1 of this Agreement.

(b) "***Cause***" for purposes of this Agreement shall mean that the Company has determined in its sole discretion that Executive has engaged in any of the following: (i) a material breach of any covenant or condition under this Agreement or any other agreement between the Company and Executive; (ii) any act constituting dishonesty, fraud, immoral or disreputable conduct which causes or is reasonably likely to cause material harm to the Company, its business or its reputation; (iii) any conduct which constitutes a felony under applicable law; (iv) material violation of any Company policy or any act of misconduct; (v) repeated refusal to follow or implement a clear reasonable and lawful directive of Company; (vi) negligence or incompetence in the performance of Executive's duties or failure to perform such duties in a manner satisfactory to the Company after the expiration of thirty (30) days without cure, to the extent curable, after written notice of such failure; (vii) failure to pass to the satisfaction of the Company, a preliminary background check or failure to submit proof of legal eligibility to work in the United States; or (viii) breach of fiduciary duty.

(c) In the event Executive's employment is terminated at any time for Cause, Executive will not receive Severance Benefits, Change in Control Severance Benefits, or any other compensation or benefits, except that, pursuant to the Company's standard payroll policies, the Company shall provide to Executive the Accrued Obligations.

6.5 Resignation by Executive (other than for Good Reason).

(a) Executive may resign from Executive's employment with the Company at any time by giving notice as described in Section 7.1.

(b) In the event Executive resigns from Executive's employment with the Company (other than for Good Reason), Executive will not receive Severance Benefits, Change in Control Severance Benefits, or any other compensation or benefits, except that, pursuant to the Company's standard payroll policies, the Company shall provide to Executive the Accrued Obligations.

6.6 Termination by Virtue of Death or Disability of Executive.

(a) In the event of Executive's death while employed pursuant to this Agreement, all obligations of the parties hereunder shall terminate immediately, and the Company shall, pursuant to the Company's standard payroll policies, provide to Executive's legal representatives all Accrued Obligations.

(b) Subject to applicable state and federal law, the Company shall at all times have the right, upon written notice to Executive, to terminate this Agreement based on Executive's Disability. Termination by the Company of Executive's employment based on "***Disability***" shall mean termination because Executive is unable due to a physical or mental condition to perform the essential functions of Executive's position with or without reasonable accommodation for six (6) months in the aggregate during any twelve (12) month period or based on the written certification by two licensed physicians of the likely continuation of such condition for such period. This definition shall be interpreted and applied consistent with the Americans with Disabilities Act, the Family and Medical Leave Act, and other applicable law. In the event Executive's employment is terminated based on Executive's Disability, Executive will not receive the Severance Benefits, Change in Control Severance Benefits, or any other severance compensation or benefit, except that, pursuant to the Company's standard payroll policies, the Company shall provide to Executive the Accrued Obligations.

6.7 Application of Section 409A. It is intended that all of the severance payments payable under this Agreement satisfy, to the greatest extent possible, the exemptions from the application of Section 409A of the Code and the regulations and other guidance thereunder and any state law of similar effect (collectively, "***Section 409A***") provided under Treasury Regulations Sections 1.409A-1(b)(4) and 1.409A-1(b)(9), and this Agreement will be construed in a manner that complies with Section 409A. If not so exempt, this Agreement (and any definitions hereunder) will be construed in a manner that complies with Section 409A, and incorporates by reference all required definitions and payment terms. No severance payments will be made under this Agreement unless Executive's termination of employment constitutes a "separation from service" (as defined under Treasury Regulation Section 1.409A-1(h)). For purposes of Section 409A (including, without limitation, for purposes of Treasury Regulations Section 1.409A-2(b)(2)(iii)), Executive's right to receive any installment payments under this Agreement (whether severance payments or otherwise) shall be treated as a right to receive a series of separate payments and, accordingly, each installment payment hereunder shall at all times be considered a separate and distinct payment. To the extent that any severance payments are deferred compensation under Section 409A, and are not otherwise exempt from the application of Section 409A, then, if the period during which Executive may consider and sign the Release spans two calendar years, the severance payments will not begin until the second calendar year. If the Company determines that the Severance Benefits or Change in Control Severance Benefits provided under this Agreement constitutes "deferred compensation" under Section 409A and if Executive is a "specified employee" of the Company, as such term is defined in Section 409A(a)(2)(B)(i) of the Code at the time of Executive's Separation from Service, then, solely to the extent necessary to avoid the incurrence of the adverse personal tax consequences under Section 409A, the timing of the Severance will be delayed as follows: on the earlier to occur of (a) the date that is six months and one day after Executive's Separation from Service, and (b) the date of Executive's death (such earlier date, the "***Delayed Initial Payment Date***"), the Company will (i) pay to Executive a lump sum amount equal to the sum of the Severance Benefits or Change in Control Severance Benefits that Executive would otherwise have received through the Delayed Initial Payment Date if the commencement of the payment of the Severance Benefits or Change in Control Severance Benefits had not been delayed pursuant to this Section 6.7 and (ii) commence paying the balance of the Severance Benefits or Change in Control Severance Benefits in accordance with the applicable payment schedule set forth in Section 6.1. No interest shall be due on any amounts deferred pursuant to this Section 6.7.

6.8 Notice; Effective Date of Termination.

(a) Termination of Executive's employment pursuant to this Agreement shall be effective on the earliest of:

(i) immediately after the Company gives notice to Executive of Executive's termination, with or without Cause, unless pursuant to Section 6.4(b)(vi) in which case thirty (30) days after notice if not cured or unless the Company specifies a later date, in which case, termination shall be effective as of such later date;

(ii) immediately upon Executive's death;

(iii) ten (10) days after the Company gives notice to Executive of Executive's termination on account of Executive's Disability, unless the Company specifies a later date, in which case, termination shall be effective as of such later date, *provided* that Executive has not returned to the full-time performance of Executive's duties prior to such date;

(iv) ten (10) days after Executive gives written notice to the Company of Executive's resignation not for Good Reason, *provided* that the Company may set a termination date at any time between the date of notice and the date of resignation, in which case Executive's resignation shall be effective as of such other date. Executive will receive compensation through any required notice period; or

(v) for a termination for Good Reason under Section 6.2(b), immediately upon Executive's full satisfaction of the requirements of Section 6.2(b).

(b) In the event notice of a termination under subsections (a)(i) and (iii) is given orally, at the other party's request, the party giving notice must provide written confirmation of such notice within five (5) business days of the request in compliance with the requirement of Section 7.1 below. In the event of a termination for Cause, written confirmation shall specify the subsection(s) of the definition of Cause relied on to support the decision to terminate.

6.9 Cooperation With Company After Termination of Employment. Following termination of Executive's employment for any reason, Executive shall fully cooperate with the Company in all matters relating to the winding up of Executive's pending work including, but not limited to, any litigation in which the Company is involved, and the orderly transfer of any such pending work to such other executives as may be designated by the Company. The Company will reimburse Executive for reasonable out-of-pocket expenses Executive incurs in connection with any such cooperation (excluding forgone wages, salary, or other compensation) and will make reasonable efforts to accommodate Executive's scheduling needs. The Parties further agree that no cooperation under this Section 6.9 shall be required after the six (6)-month anniversary of Executive's termination date and any cooperation hereunder in excess of ten (10) hours per month after the one (1)-month anniversary of Executive's termination date shall be compensated at an hourly cash rate to be agreed upon by Executive and the Company after the termination date.

6.10 Excise Tax Adjustment.

(a) If any payment or benefit Executive will or may receive from the Company or otherwise (a "***280G Payment***") would (i) constitute a "parachute payment" within the meaning of Section 280G of the Code, and (ii) but for this Section, be subject to the excise tax imposed by Section 4999 of the Code (the "***Excise Tax***"), then any such 280G Payment provided pursuant to this Agreement (a "***Payment***") shall be equal to the Reduced Amount. The "*Reduced Amount*" shall be either (x) the largest portion of the Payment that would result in no portion of the Payment (after reduction) being subject to the Excise Tax, or (y) the largest portion, up to and including the total, of the Payment, whichever amount (i.e., the amount determined by clause (x) or by clause (y)), after taking into account all applicable federal, state, and local employment taxes, income taxes, and the Excise Tax (all computed at the highest applicable marginal rate), results in Executive's receipt, on an after-tax basis, of the greater economic benefit notwithstanding that all or some portion of the Payment may be subject to the Excise Tax. If a reduction in a Payment is required pursuant to the preceding sentence and the Reduced Amount is determined pursuant to clause (x) of the preceding sentence, the reduction shall occur in the manner (the "***Reduction Method***") that results in the greatest economic benefit for Executive. If more than one method of reduction will result in the same economic benefit, the items so reduced will be reduced pro rata (the "***Pro Rata Reduction Method***").

(b) Notwithstanding any provision of this Section 6.10 to the contrary, if the Reduction Method or the Pro Rata Reduction Method would result in any portion of the Payment being subject to taxes pursuant to Section 409A that would not otherwise be subject to taxes pursuant to Section 409A, then the Reduction Method and/or the Pro Rata Reduction Method, as the case may be, shall be modified so as to avoid the imposition of taxes pursuant to Section 409A as follows: (A) as a first priority, the modification shall preserve to the greatest extent possible, the greatest economic benefit for Executive as determined on an after-tax basis; (B) as a second priority, Payments that are contingent on future events (*e.g.*, being terminated without Cause) shall be reduced (or eliminated) before Payments that are not contingent on future events; and (C) as a third priority, Payments that are "deferred compensation" within the meaning of Section 409A shall be reduced (or eliminated) before Payments that are not deferred compensation within the meaning of Section 409A.

(c) Unless Executive and the Company agree on an alternative accounting firm or law firm, the accounting firm engaged by the Company for general tax compliance purposes as of the day prior to the effective date of the Change in Control transaction shall perform the foregoing calculations. If the accounting firm so engaged by the Company is serving as accountant or auditor for the individual, entity, or group effecting the Change in Control transaction, the Company shall appoint a nationally recognized accounting or law firm to make the determinations required by this Section 6.10. The Company shall bear all expenses with respect to the determinations by such accounting or law firm required to be made hereunder. The Company shall use commercially reasonable efforts to cause the accounting or law firm engaged to make the determinations hereunder to provide its calculations, together with detailed supporting documentation, to Executive and the Company within fifteen (15) calendar days after the date on which Executive's right to a 280G Payment becomes reasonably likely to occur (if requested at that time by Executive or the Company) or such other time as requested by Executive or the Company.

(d) If Executive receives a Payment for which the Reduced Amount was determined pursuant to clause (x) of Section 6.10(a) and the Internal Revenue Service determines thereafter that some portion of the Payment is subject to the Excise Tax, Executive agrees to promptly return to the Company a sufficient amount of the Payment (after reduction pursuant to clause (x) of Section 6.10(a)) so that no portion of the remaining Payment is subject to the Excise Tax. For the avoidance of doubt, if the Reduced Amount was determined pursuant to clause (y) of Section 6.10(a), Executive shall have no obligation to return any portion of the Payment pursuant to the preceding sentence.

7. General Provisions.

7.1 Notices. Any notices required hereunder to be in writing shall be deemed effectively given: (a) upon personal delivery to the party to be notified, (b) when sent by electronic mail or confirmed facsimile if sent during normal business hours of the recipient, and if not, then on the next business day, (c) five (5) days after having been sent by registered or certified mail, return receipt requested, postage prepaid, or (d) one (1) day after deposit with a nationally recognized overnight courier, specifying next-day delivery, with written verification of receipt. All communications shall be sent to the Company at its primary office location and to Executive at Executive's address as listed on the Company payroll or to Executive's Company-issued email address or Executive's email address as listed in Company records, or at such other address as the Company or Executive may designate by ten (10) days' advance written notice to the other.

7.2 Severability. Whenever possible, each provision of this Agreement will be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Agreement is held to be invalid, illegal or unenforceable in any respect under any applicable law or rule in any jurisdiction, such invalidity, illegality or unenforceability will not affect any other provision or any other jurisdiction, but this Agreement will be reformed, construed and enforced in such jurisdiction as if such invalid, illegal or unenforceable provisions had never been contained herein.

7.3 Survival. Provisions of this Agreement which by their terms must survive the termination of this Agreement in order to effectuate the intent of the parties will survive any such termination, whether by expiration of the term, termination of Executive's employment, or otherwise, for such period as may be appropriate under the circumstances.

7.4 Waiver. If either party should waive any breach of any provisions of this Agreement, it shall not thereby be deemed to have waived any preceding or succeeding breach of the same or any other provision of this Agreement.

7.5 Complete Agreement. This Agreement constitutes the entire agreement between Executive and the Company with regard to the subject matter hereof. This Agreement is the complete, final, and exclusive embodiment of their agreement with regard to this subject matter and supersedes any prior oral discussions or written communications and agreements. This Agreement is entered into without reliance on any promise or representation other than those expressly contained herein, and it cannot be modified or amended except in writing signed by Executive and an authorized officer of the Company. The parties will enter into a separate Confidential Information Agreement and may enter into separate agreements related to equity. These separate agreements govern other aspects of the relationship between the parties, have or may have provisions that survive termination of Executive's employment under this Agreement, may be amended or superseded by the parties without regard to this Agreement and are enforceable according to their terms without regard to the enforcement provision of this Agreement.

7.6 Counterparts. This Agreement may be executed in separate counterparts, any one of which need not contain signatures of more than one party, but all of which taken together will constitute one and the same Agreement.

7.7 Headings. The headings of the sections hereof are inserted for convenience only and shall not be deemed to constitute a part hereof nor to affect the meaning thereof.

7.8 Successors and Assigns. The Company shall assign this Agreement and its rights and obligations hereunder in whole, but not in part, to any Company or other entity with or into which the Company may hereafter merge or consolidate or to which the Company may transfer all or substantially all of its assets, if in any such case said Company or other entity shall by operation of law or expressly in writing assume all obligations of the Company hereunder as fully as if it had been originally made a party hereto, but may not otherwise assign this Agreement or its rights and obligations hereunder. The Executive may not assign or transfer this Agreement or any rights or obligations hereunder, other than to the Executive's estate upon Executive's death.

7.9 Choice of Law. All questions concerning the construction, validity and interpretation of this Agreement will be governed by the laws of the State of California.

7.10 **Resolution of Disputes.** To ensure the rapid and economical resolution of disputes that may arise in connection with Executive's continued employment with the Company, Executive and the Company agree that any and all disputes, claims, or causes of action, in law or equity, including but not limited to statutory claims, arising from or relating to the enforcement, breach, performance, or interpretation of this Agreement, Executive's employment with the Company, or the termination of Executive's employment, shall be resolved pursuant to the Federal Arbitration Act, 9 U.S.C. § 1-16, to the fullest extent permitted by law, by final, binding and confidential arbitration conducted by JAMS or its successor, under JAMS' then applicable rules and procedures appropriate to the relief being sought (available upon request and also currently available at the following web addresses: (i) https://www.jamsadr.com/rules-employment-arbitration/ and (ii) https://www.jamsadr.com/rules-comprehensive-arbitration/). **Executive acknowledges that by agreeing to this arbitration procedure, both Executive and the Company waive the right to resolve any such dispute through a trial by jury or judge or administrative proceeding.** In addition, all claims, disputes, or causes of action under this Section, whether by Executive or the Company, must be brought in an individual capacity, and shall not be brought as a plaintiff (or claimant) or class member in any purported class or representative proceeding, nor joined or consolidated with the claims of any other person or entity. The arbitrator may not consolidate the claims of more than one person or entity, and may not preside over any form of representative or class proceeding. To the extent that the preceding sentences regarding class claims or proceedings are found to violate applicable law or are otherwise found unenforceable, any claim(s) alleged or brought on behalf of a class shall proceed in a court of law rather than by arbitration. This Section shall not apply to any action or claim that cannot be subject to mandatory arbitration as a matter of law, including, without limitation, **claims brought pursuant to the California Private Attorneys General Act of 2004, as amended, the California Fair Employment and Housing Act, as amended, and the California Labor Code, as amended, or** claims alleging sexual harassment or a nonconsensual sexual action or sexual contact, to the extent such claims are not permitted by applicable law(s) to be submitted to mandatory arbitration and the applicable law(s) are not preempted by the Federal Arbitration Act or otherwise invalid (collectively, the "***Excluded Claims***"). In the event Executive intends to bring multiple claims, including one of the Excluded Claims listed above, the Excluded Claims may be filed with a court, while any other claims will remain subject to mandatory arbitration. Executive will have the right to be represented by legal counsel at any arbitration proceeding. Questions of whether a claim is subject to arbitration under this Agreement shall be decided by the arbitrator. Likewise, procedural questions which grow out of the dispute and bear on the final disposition are also matters for the arbitrator. The arbitrator shall: (a) have the authority to compel adequate discovery for the resolution of the dispute and to award such relief as would otherwise be permitted by law; and (b) issue a written statement signed by the arbitrator regarding the disposition of each claim and the relief, if any, awarded as to each claim, the reasons for the award, and the arbitrator's essential findings and conclusions on which the award is based. The arbitrator shall be authorized to award all relief that Executive or the Company would be entitled to seek in a court of law. The Company shall pay all arbitration administrative fees in excess of the administrative fees that Executive would be required to pay if the dispute were decided in a court of law. Each party is responsible for its own attorneys' fees, except as expressly set forth in the Confidential Information Agreement. Nothing in this Agreement is intended to prevent either Executive or the Company from obtaining injunctive relief in court to prevent irreparable harm pending the conclusion of any such arbitration. Any awards or orders in such arbitrations may be entered and enforced as judgments in the federal and state courts of any competent jurisdiction.

EXHIBIT 10.45

March 27, 2026

Re: Amended and Restated Chairperson of the Board Offer Letter

Dear Keith,

This Amended and Restated Chairperson of the Board Offer Letter (the "***Agreement***") is effective as of March 27, 2026 and amends and restates that certain Executive Chair Offer Letter between you and Ambros Therapeutics, Inc. (the "***Company***") dated September 30, 2025 (the "***Prior Agreement***"). This terms of this Agreement set forth the terms on which you will continue to serve as Chairperson of the Board and supersede the terms of the Prior Agreement in their entirety.

Position

You will serve as an employee of the Company in an executive capacity and will perform the duties of Chairperson of the Board as commonly associated with this position. You will primarily work remotely from your residence in [***], provided, however, that you will engage in reasonable business travel as necessary for the performance of your role or as requested by the Company's Board of Directors (the "***Board***").

During your employment with the Company, you will devote your best efforts to the business of the Company. Your employment relationship with the Company will also be governed by the general employment policies and practices of the Company as in effect from time to time (except that if the terms of this Agreement differ from or are in conflict with the Company's general employment policies or practices, this Agreement will control).

Compensation

You will receive a base salary at the rate of $250,000 on an annualized basis, subject to applicable payroll withholdings and deductions and payable in accordance with the Company's standard payroll practices. As an exempt salaried employee, you will not be eligible for overtime compensation.

Equity Awards

You were previously granted under the Company's 2024 Equity Incentive Plan, as amended (the "***Plan***"),
(i) 400,000 shares of the Company's common stock pursuant to a Restricted Stock Award Grant Notice dated as of October 7, 2024, as amended, and (ii) an option to purchase 450,000 shares of the Company's common stock pursuant to a Stock Option Grant Notice dated as of December 10, 2025.

Expense Reimbursements

The Company will reimburse you for all customary and appropriate business-related expenses, including reasonable travel expenses, actually incurred consistent with Company policy, as in effect from time to time.

Benefits

You will be eligible to participate on the same basis as similarly-situated employees in the Company's benefit plans in effect from time to time during your employment. All matters of eligibility for coverage or benefits under any benefit plan shall be determined in accordance with the provisions of such plan. The Company reserves the right to change, alter, or terminate any benefit plan in its sole discretion.

Employee Confidential Information and Inventions Agreement

Prior to this Agreement, you have executed and agreed to abide by the Company's Employee Confidential Information and Inventions Assignment Agreement (the "***Confidential Information Agreement***") attached as **Exhibit A**. The Confidential Information Agreement contains provisions that are intended by the parties to survive and do survive termination of this Agreement.

Protection of Third -Party Information

By signing this Agreement you are representing that you have full authority to accept this position and perform the duties of the position without conflict with any other obligations and that you are not involved in any situation that might create, or appear to create, a conflict of interest with respect to your loyalty to or duties for the Company. You specifically warrant that you are not subject to an employment agreement or restrictive covenant preventing full performance of your duties to the Company. You agree not to bring to the Company or use in the performance of your responsibilities at the Company any materials or documents of a former employer that are not generally available to the public, unless you have obtained express written authorization from the former employer for their possession and use. You also agree to honor all obligations to former employers during your employment with the Company.

At-Will Employment Relationship; Termination of Employment

Your employment relationship with the Company will at all times be at-will. Accordingly, both you and the Company may terminate the employment relationship at any time, with or without cause, and with or without advance notice.

Notwithstanding the foregoing, in the event that (i) the Company is subject to a Change in Control (as defined in the Plan), and (ii) your Continuous Service (as defined in the Plan) is terminated by the Company, other than for Cause (as defined in the Plan), or you resign for Good Reason (as defined in the Plan), in either case at any time within a period of three months prior to or twelve months following the date of consummation of such Change in Control (the "***Change in Control Period***"), then the vesting and exercisability of all outstanding unvested Company equity awards that are held by you and which are scheduled to vest and become exercisable under a time-based or performance based schedule shall immediately become fully vested with respect to 100% of the shares then-unvested (and, for clarity, if any unvested equity award is in the form of restricted stock where the unvested shares are subject to a share reacquisition or repurchase right on behalf of the Company upon your termination from employment or service (e.g., at the lower of the stock's fair market value or the original purchase price), such unvested share reacquisition or repurchase right will lapse as to the shares of stock that otherwise are scheduled or are eligible to vest).

Further, if your Continuous Service with the Company is terminated other than for Cause or if you resign for Good Reason outside of the Change in Control Period set forth above, then, effective as of your termination date, the vesting and exercisability of all outstanding unvested Company equity awards that are held by you as of immediately prior to your termination date and which are scheduled to vest and become exercisable under a time-based schedule shall be modified so that any unvested shares scheduled to vest during the 12-month period following your termination date shall be deemed immediately vested and exercisable as of your termination date (and, for clarity, if any unvested equity award is in the form of restricted stock where the unvested shares are subject to a share reacquisition or repurchase right on behalf of the Company upon your termination from employment or service (e.g., at the lower of the stock's fair market value or the original purchase price), such unvested share reacquisition or repurchase right will lapse as to the shares of stock that otherwise are scheduled or are eligible to vest during the 12-month period following your termination date).

Dispute Resolution

To aid the rapid and economical resolution of disputes that may arise in connection with your employment with the Company, and in exchange for the mutual promises contained in this offer letter agreement, you and the Company agree that any and all disputes, claims, or causes of action, in law or equity, including but not limited to statutory claims, arising from or relating to the enforcement, breach, performance, or interpretation of this letter agreement, your employment with the Company, or the termination of your employment, shall be resolved to the fullest extent permitted by law, by final, binding and confidential arbitration conducted by JAMS, Inc. ("***JAMS***") or its successor, under JAMS' then applicable rules and procedures appropriate to the relief being sought (available upon request and also currently available at the following web address: (i) https://www.jamsadr.com/rules-employment-arbitration/) and (ii) https://www.jamsadr.com/rules-comprehensive-arbitration/) at a location closest to where you last worked for the Company or another mutually agreeable location. You acknowledge that by agreeing to this arbitration procedure, both you and the Company waive the right to resolve any such dispute through a trial by jury or judge. The Federal Arbitration Act, 9 U.S.C. § 1 et seq., will, to the fullest extent permitted by law, govern the interpretation and enforcement of this arbitration agreement and any arbitration proceedings. This provision shall not be mandatory for any claim or cause of action to the extent applicable law prohibits subjecting such claim or cause of action to mandatory arbitration and such applicable law is not preempted by the Federal Arbitration Act or otherwise invalid (collectively, the "***Excluded Claims***"), such as non-individual claims that cannot be waived under applicable law, claims or causes of action alleging sexual harassment or a nonconsensual sexual act or sexual contact, or unemployment or workers' compensation claims brought before the applicable state governmental agency. In the event you or the Company intend to bring multiple claims, including one of the Excluded Claims listed above, the Excluded Claims may be filed with a court, while any other claims will remain subject to mandatory arbitration. You acknowledge and agree that proceedings of any non-individual claim(s) under the California Private Attorneys General Act ("***PAGA***") that may be brought in court shall be stayed for the duration and pending a final resolution of the arbitration of any individual or individual PAGA claim. Nothing herein prevents you from filing and pursuing proceedings before a federal or state governmental agency, although if you choose to pursue a claim following the exhaustion of any applicable administrative remedies, that claim would be subject to this provision. In addition, with the exception of Excluded Claims arising out of 9 U.S.C. § 401 et seq., all claims, disputes, or causes of action under this section, whether by you or the Company, must be brought in an individual capacity, and shall not be brought as a plaintiff (or claimant) or class member in any purported class, representative, or collective proceeding, nor joined or consolidated with the claims of any other person or entity. You acknowledge that by agreeing to this arbitration procedure, both you and the Company waive all rights to have any dispute be brought, heard, administered, resolved, or arbitrated on a class, representative, or collective action basis. The arbitrator may not consolidate the claims of more than one person or entity, and may not preside over any form of representative or class proceeding. If a court finds, by means of a final decision, not subject to any further appeal or recourse, that the preceding sentences regarding class, representative, or collective claims or proceedings violate applicable law or are otherwise unenforceable, as to a particular claim or request for relief, the parties agree that any such claim(s) or request(s) for relief be severed from the arbitration and may proceed in a court of law rather than by arbitration. All other claims or requests for relief shall be arbitrated. You will have the right to be represented by legal counsel at any arbitration proceeding. Questions of whether a claim is subject to arbitration and procedural questions which grow out of the dispute and bear on the final disposition are matters for the arbitrator to decide, provided however, that if required by applicable law, a court and not the arbitrator may determine the enforceability of this paragraph with respect to Excluded Claims. The arbitrator shall: (a) have the authority to compel adequate discovery for the resolution of the dispute and to award such relief as you or the Company would otherwise be entitled to seek in a court of law; and (b) issue a written statement signed by the arbitrator regarding the disposition of each claim and the relief, if any, awarded as to each claim, the reasons for the award, and the arbitrator's essential findings and conclusions on which the award is based. The Company shall pay all JAMS arbitration administrative fees in excess of the administrative fees that you would be required to pay if the dispute were decided in a court of law. Each party is responsible for its own attorneys' fees, except as may be expressly set forth in your Confidential Information Agreement or as otherwise provided under applicable law. Nothing in this letter agreement is intended to prevent either you or the Company from obtaining injunctive relief in court to prevent irreparable harm pending the conclusion of any such arbitration. Any awards or orders in such arbitrations may be entered and enforced as judgments in the federal and state courts of any competent jurisdiction.

Miscellaneous

This Agreement, including the attached Confidential Information Agreement, constitutes the complete, final and exclusive embodiment of the entire agreement between you and the Company with regard to the subject matter hereof. It is entered into without reliance on any promise or representation, written or oral, other than those expressly contained herein, and it supersedes any other agreements, promises, warranties or representations concerning its subject matter, including but not limited to the Prior Agreement. Changes in your employment terms, other than those expressly reserved herein to the Company's or the Board's discretion, can only be made in a writing signed by the Company and you. This Agreement will bind the heirs, personal representatives, successors and assigns of both you and the Company, and inure to the benefit of both you and the Company, their heirs, successors and assigns. If any provision of this Agreement is determined to be invalid or unenforceable, in whole or in part, this determination shall not affect any other provision of this Agreement and the provision in question shall be modified so as to be rendered enforceable in a manner consistent with the intent of the parties insofar as possible under applicable law. This Agreement shall be construed and enforced in accordance with the laws of the State of California without regard to conflicts of law principles. Any ambiguity in this Agreement shall not be construed against either party as the drafter. Any waiver of a breach of this Agreement, or rights hereunder, shall be in writing and shall not be deemed to be a waiver of any successive breach or rights hereunder. This Agreement may be executed in counterparts which shall be deemed to be part of one original, and facsimile signatures shall be equivalent to original signatures.

Sincerely,

AMBROS THERAPEUTICS, INC.

EXHIBIT 10.46

EMPLOYMENT AGREEMENT

This **Employment Agreement** (the "***Agreement***") is entered into effective as of the Start Date (as defined below) by and between **Michael Cruse** (the "***Executive***") and **Ambros Therapeutics, Inc.** (the "***Company***").

The Company desires to employ Executive and, in connection therewith, to compensate Executive for Executive's services, performed personally by Executive, to the Company; and

Executive wishes to be employed by the Company and provide services to be performed personally by Executive and certain covenants to the Company in return for certain compensation and benefits.

Accordingly, in consideration of the mutual promises and covenants contained herein, the parties agree to the following:

1. Employment by the Company.

1.1 Position. Subject to the terms set forth herein, the Company agrees to employ Executive initially in the position of **Chief Operating Officer**, and Executive hereby accepts such employment.

1.2 Effectiveness of Agreement and Start Date. Executive's employment with the Company shall commence on the date the parties execute this Agreement or such other date mutually agreed to in writing by Executive and the Company (the "***Start Date***"). In the event that Executive does not commence employment with the Company under this Agreement, the Company shall have no obligation to provide Executive with compensation and benefits (including, but not limited to, the "Severance Benefits" and "Change in Control Severance Benefits" stated in Section 6.1, 6.2 or 6.3).

1.3 Duties. Executive will initially report to the Company's Chief Executive Officer (the "***CEO***"), performing such duties as are normally associated with Executive's position and such duties as are assigned to Executive from time to time, subject to the oversight and direction of the CEO or their designee. During the term of Executive's employment with the Company, Executive will devote Executive's best efforts and substantially all of Executive's business time and attention to the business of the Company. Executive shall perform Executive's duties under this Agreement principally from **the Company's office in Orange County, California**, or such other location as assigned. In addition, Executive shall make such business trips to such places as may be necessary or advisable for the efficient operations of the Company. During Executive's employment with the Company, Executive will not change the state where Executive is primarily working for the Company or resides, without prior written approval from the Company of such change, other than in the case of any such change requested or required of Executive by the Company.

1.4 Company Policies and Benefits. The employment relationship between the parties shall be subject to the Company's personnel policies and procedures as they may be established, interpreted, adopted, revised or deleted from time to time in the Company's sole discretion. Executive will be eligible to participate on the same basis as similarly-situated Executives in the Company's benefit plans in effect from time to time during Executive's employment. The Company reserves the right to change, alter, or terminate any benefit plan in its sole discretion. Notwithstanding the foregoing, in the event that the terms of this Agreement differ from or are in conflict with the Company's general employment policies or practices, this Agreement shall control.

2. COMPENSATION.

2.1 Salary. Executive shall receive for Executive's services to be rendered under this Agreement an initial base salary of **$450,000** on an annualized basis, subject to review and adjustment by the Company in its sole discretion, and payable subject to standard federal and state payroll deductions and withholding requirements in accordance with the Company's standard payroll practices ("***Base Salary***").

2.2 Signing Bonus. Upon Executive's commencement of employment hereunder, Executive will be eligible to receive a one-time bonus in the amount of **$269,230**, subject to standard federal and state payroll deductions and withholding requirements in accordance with the Company's standard payroll practices (the "***Signing Bonus***"). The Signing Bonus will be paid to Executive in a single lump sum within thirty (30) days after the Start Date, provided Executive remains employed with the Company on such date.

2.3 Annual Discretionary Bonus. Beginning as of January 1, 2025, Executive will be eligible to be awarded a discretionary annual cash bonus with a target of **40%** of Executive's then-current Base Salary, subject to review and adjustment from time to time by the Company in its sole discretion, payable subject to standard federal and state payroll deductions and withholding requirements in accordance with the Company's standard payroll practices ("***Target Bonus***"). Whether or not Executive is awarded any bonus will be dependent upon (a) the actual achievement by Executive and the Company of the applicable individual and corporate performance goals, as determined by the Company's Board of Directors (the **"*Board***"), or a committee thereof, in its sole discretion, and (b) Executive's continuous performance of services to the Company through the date any such bonus is paid. The bonus may be greater or lesser than the Target Bonus and may be zero. In the event Executive's Base Salary is increased during an applicable bonus year, any bonus Executive is eligible to receive for that year (as a percentage of Executive's Base Salary) will be calculated such that the modified Base Salary rate only applies to the period of time from the effective date of the Base Salary adjustment through the end of the applicable bonus year (and the prior Base Salary rate applies to the period before the Base Salary adjustment). The Board will determine in its sole discretion the extent to which Executive has achieved the performance goals upon which the bonus is based and the amount of the bonus, if any. Any bonus earned under this Section 2.3 shall be paid to Executive no later than March 15 of the calendar year following the year for which the bonus is awarded.

2.4 Equity Awards. Executive was previously granted **200,000 shares** of the Company's common stock pursuant to that certain Restricted Stock Award Grant Notice, dated as of October 07, 2024 (the "***Prior Award***") pursuant to the Company's 2024 Equity Incentive Plan, as amended (the "***Plan***"). Executive hereby acknowledges that, except as otherwise set forth in Section 6 below, the Prior Award, as well as any other existing or future equity grants issued by the Company to Executive will continue to be governed by the terms of the Plan and other applicable award 3 agreement documents. The parties acknowledge that service as a consultant, employee, or member of the Board is and will be deemed to be "Continuous Service" (as defined in the Plan) for purposes of vesting under the Plan.

2.5 Expense Reimbursement. The Company will reimburse Executive for reasonable business expenses in accordance with the Company's standard expense reimbursement policy, as the same may be modified by the Board from time to time. The Company shall reimburse Executive for all customary and appropriate business-related expenses actually incurred and documented in accordance with Company policy, as in effect from time to time. For the avoidance of doubt, to the extent that any reimbursements payable to Executive are subject to the provisions of Section 409A of the Internal Revenue Code of 1986, as amended (the "***Code***"): (a) any such reimbursements will be paid no later than December 31 of the year following the year in which the expense was incurred, (b) the amount of expenses reimbursed in one year will not affect the amount eligible for reimbursement in any subsequent year, and (c) the right to reimbursement under this Agreement will not be subject to liquidation or exchange for another benefit.

3. Confidential Information, Inventions, Non-Competition and Non-Solicitation Obligations. As a condition of employment, Executive agrees to execute and abide by the Employee Confidential Information and Inventions Assignment Agreement attached as Exhibit A ("***Confidential Information Agreement***"), which may be amended by the parties from time to time without regard to this Agreement. The Confidential Information Agreement contains provisions that are intended by the parties to survive and do survive termination of this Agreement.

4. Outside Activities During Employment. Except with the prior written consent of the Company's CEO, Executive will not, while employed by the Company, undertake or engage in any other employment, consulting, occupation or business enterprise that would interfere with Executive's responsibilities and the performance of Executive's duties hereunder, except for (i) reasonable time devoted to volunteer services for or on behalf of such religious, educational, non-profit and/or other charitable organization as Executive may wish to serve, (ii) reasonable time devoted to activities in the non-profit and business communities consistent with Executive's duties, and (iii) such other activities as may be specifically approved in writing by the Company's CEO. This restriction shall not, however, preclude Executive (i) from owning less than one percent (1%) of the total outstanding shares of a publicly-traded company or (ii) from employment or service in any capacity with Affiliates of the Company. As used in this Agreement, "***Affiliates***" means an entity under common management or control with the Company. Executive agrees to promptly disclose to the CEO his/her involvement in any activities contemplated by this Section 4.

5. No Conflict with Existing Obligations. Executive represents that Executive's performance of all the terms of this Agreement and service as an executive of the Company do not and will not breach any agreement or obligation of any kind made prior to Executive's employment by the Company, including agreements or obligations Executive may have with prior employers or entities for which Executive has provided services. Executive has not entered into, and Executive agrees that Executive will not enter into, any agreement or obligation, either written or oral, in conflict herewith.

6. **TERMINATION OF EMPLOYMENT.** The parties acknowledge that Executive's employment relationship with the Company will at all times be at-will. Either Executive or the Company may terminate the employment relationship for any reason whatsoever at any time, with or without cause or advance notice. The provisions in this Section govern the amount of compensation, if any, to be provided to Executive upon termination of employment and do not alter this at-will status.

6.1 Termination by the Company without Cause (not in connection with a Change in Control).

(a) The Company shall have the right to terminate Executive's employment with the Company pursuant to this Section 6.1 at any time without "Cause" (as defined below) by giving notice as described in Section 7.1 of this Agreement. A termination pursuant to Sections 6.5 or 6.6 below is not a termination without Cause for purposes of receiving the benefits described in this Section 6.1.

(b) If the Company terminates Executive's employment at any time without Cause, then Executive shall be entitled to receive the Accrued Obligations (as defined below), and provided that such termination constitutes a "separation from service" (as defined under Treasury Regulation Section 1.409A-1(h), without regard to any alternative definition thereunder, a "***Separation from Service***") and subject to Executive's compliance with the obligations in Section 6.1(c) below, Executive shall also be eligible to receive the following severance benefits (the "***Severance Benefits***"):

(i) The Company will pay Executive an amount equal to the sum of Executive's then current Base Salary for **nine (9) months** plus **75%** of Executive's Target Bonus for the year in which Executive's termination hereunder occurs, less all applicable withholdings and deductions, in a lump sum on the Company's second regularly-scheduled payroll date following the Release Effective Date (as defined below).

(ii) If Executive timely elects continued coverage under COBRA for Executive and Executive's dependents under the Company's group health plans following such termination, then the Company shall reimburse Executive for the cost of the COBRA premiums necessary to continue Executive's and his/her covered dependents' health insurance coverage in effect on the termination date until the earliest of: (i) **twelve (12) months** following the Separation from Service; (ii) the date when Executive becomes eligible for substantially equivalent health insurance coverage in connection with new employment or self-employment; or (iii) the date Executive ceases to be eligible for COBRA continuation coverage for any reason, including plan termination (such period from the termination date through the earlier of (i)-(iii), (the "***COBRA Payment Period***"). To receive this reimbursement, Executive will be required to remit timely payment of each COBRA premium during the COBRA Payment Period to the Company or its designee and present proof of payment within ten (10) days. The Company will then process the reimbursement to Executive in accordance with its ordinary expense reimbursement policies. Notwithstanding the foregoing, the Company may in its discretion pay COBRA premiums directly to the applicable carrier or pay Executive on the last day of each remaining month of the COBRA Payment Period, a fully taxable cash payment equal to the COBRA premium for such month, subject to applicable tax withholding, for the remainder of the COBRA Payment Period (the "***Special COBRA Payments***"). The Company may also in its discretion pay the Special COBRA Payments for the remainder of the COBRA Payment Period in one fully taxable lump sum as opposed to monthly installments. Nothing in this Agreement shall deprive Executive of his/her rights under COBRA or ERISA for benefits under plans and policies arising under his/her employment by the Company.

(iii) Effective as of the date of termination hereunder, the vesting and exercisability of all outstanding unvested Company equity awards that are held by Executive as of immediately prior to the termination date and which are scheduled to vest and become exercisable under a time-based schedule shall be modified so that any unvested shares scheduled to vest during the **nine (9) month** period following Executive's termination date shall be deemed immediately vested and exercisable as of Executive's termination date (and, for clarity, if any unvested equity award is in the form of restricted stock where the unvested shares are subject to a share reacquisition or repurchase right on behalf of the Company upon Executive's termination from employment or service (*e.g.*, at the lower of the stock's fair market value or the original purchase price), such unvested share reacquisition or repurchase right will lapse as to the shares of stock that otherwise are scheduled or are eligible to vest following Executive's termination date).

(c) Executive will be paid all of the Accrued Obligations on the Company's first payroll date after Executive's date of termination from employment or earlier if required by law. Executive shall receive the Severance Benefits pursuant to Section 6.1(b) of this Agreement if: (i) by the sixtieth (60th) day following the date of Executive's Separation from Service, Executive has signed and delivered to the Company a separation agreement containing (among other terms) an effective, general release of claims in favor of the Company and its affiliates and representatives, in a form presented by the Company (the "***Release***") and which cannot be revoked in whole or part by such date (the date that the Release can no longer be revoked is referred to as the "***Release Effective Date***"); (ii) if Executive holds any other positions with the Company or any Affiliate, including a position on the Board, Executive resigns such position(s) to be effective no later than the date of Executive's termination date (or such other date as requested by the Board); (iii) Executive returns all Company property; (iv) Executive is in compliance with his/her post-termination obligations under this Agreement and the Proprietary Information Agreement when any such Severance Benefits are due and payable; and (v) Executive complies with the terms of the Release, including without limitation any mutual non-disparagement and confidentiality provisions contained in the Release. To the extent that any of the Severance Benefits are deferred compensation under Section 409A of the Code, and are not otherwise exempt from the application of Section 409A, then, if the period during which Executive may consider and sign the Release spans two calendar years, the payment of the Severance Benefits will not be made or begin until the later calendar year.

(d) For purposes of this Agreement, "***Accrued Obligations***" are (i) Executive's accrued but unpaid salary through the date of termination, (ii) Executive's accrued but unused vacation time through the date of termination, (iii) any unreimbursed business expenses incurred by Executive payable in accordance with the Company's standard expense reimbursement policies, and (iv) benefits owed to Executive under any qualified retirement plan or health and welfare benefit plan in which Executive was a participant in accordance with applicable law and the provisions of such plan.

(e) The Severance Benefits provided to Executive pursuant to this Section 6.1 are in lieu of, and not in addition to, any benefits to which Executive may otherwise be entitled under any Company severance plan, policy or program.

(f) Any damages caused by the termination of Executive's employment without Cause would be difficult to ascertain; therefore, the Severance Benefits for which Executive is eligible pursuant to Section 6.1(b) above in exchange for the Release is agreed to by the parties as liquidated damages, to serve as full compensation, and not a penalty.

(g) For purposes of this Agreement, the term "***Change in Control***" shall have the meaning set forth in the Plan.

6.2 Resignation by Executive for Good Reason (not in connection with a Change in Control).

(a) Provided Executive has not previously been notified of the Company's intention to terminate Executive's employment, Executive may resign from employment with the Company for Good Reason (as defined in Section 6.2(b) below).

(b) "***Good Reason***" for purposes of this Agreement shall mean the occurrence of any of the following conditions without Executive's consent, after Executive's provision of written notice to the Company of the existence of such condition (which notice must be provided as described in Section 7.1 within thirty (30) days of the initial existence of the condition and must specify the particular condition in reasonable detail), provided that the Company has not first provided notice to Executive of its intent to terminate Executive's employment: (i) a material reduction in Executive's duties, responsibilities or authorities; (ii) a material (greater than 10%) reduction by the Company of Executive's Base Salary (except in the case of either an across-the-board reduction in salaries or a temporary reduction due to financial exigency, in either case, not to exceed six (6) months); (iii) the relocation by the Company of Executive's principal place of employment by fifty (50) or more miles from Executive's then-current principal place of employment; or (iv) the Company requiring Executive to violate applicable law or established professional ethics rules in the performance of Executive's duties hereunder. Notwithstanding the foregoing, Good Reason shall only exist if the Company is provided a thirty (30) day period to cure the event or condition giving rise to Good Reason, and it fails to do so within that cure period (and, additionally, Executive must resign for such Good Reason condition by giving notice as described in Section 7.1 within thirty (30) days after the period for curing the violation or condition has ended).

(c) In the event Executive resigns for Good Reason from Executive's employment, then Executive shall be entitled to the Accrued Obligations and, provided such resignation constitutes a Separation from Service, and Executive complies with the obligations in Section 6.1(c) of this Agreement (including the requirement to provide an effective Release), Executive shall also be eligible to receive the same Severance Benefits as described in Section 6.1 and on the same conditions as if Executive had been terminated by the Company without Cause.

6.3 Termination by the Company without Cause or Resignation by Executive for Good Reason in Connection with a Change in Control.

(a) In the event that the Company terminates Executive's employment without Cause (as defined below) or Executive resigns for Good Reason within three (3) months before or twelve (12) months following the effective date of a Change in Control ("***Change in Control Termination Date***"), then Executive shall be entitled to the Accrued Obligations and, subject to Executive's compliance with Section 6.1(c), including but not limited to the Release requirement and Executive's continued compliance with Executive's obligations to the Company under Executive's Confidential Information Agreement, then Executive will be eligible for the following "***Change in Control Severance Benefits***:"

(i) The Company will pay Executive an amount equal to the sum of Executive's then current Base Salary for **twelve (12) months** plus **100%** of Executive's Target Bonus for the year in which Executive's termination hereunder occurs, less all applicable withholdings and deductions, in a lump sum payment upon the Company's second regularly-scheduled payroll date following the Release Effective Date (as defined below).

(ii) If Executive timely elects continued coverage under COBRA for Executive and Executive's dependents under the Company's group health plans following such termination, then the Company shall reimburse Executive for the cost of the COBRA premiums necessary to continue Executive's and his/her covered dependents' health insurance coverage in effect on the termination date until the earliest of: (i) **eighteen (18) months** following the Change in Control Termination Date; (ii) the date when Executive becomes eligible for substantially equivalent health insurance coverage in connection with new employment or self-employment; or (iii) the date Executive ceases to be eligible for COBRA continuation coverage for any reason, including plan termination (such period from the termination date through the earlier of (i)-(iii), (the "***CIC COBRA Payment Period***"). To receive this reimbursement, Executive will be required to remit timely payment of each COBRA premium during the CIC COBRA Payment Period to the Company or its designee and present proof of payment within ten (10) days. The Company will then process the reimbursement to Executive in accordance with its ordinary expense reimbursement policies. Notwithstanding the foregoing, the Company may in its discretion pay COBRA premiums directly to the applicable carrier or pay Executive on the last day of each remaining month of the CIC COBRA Payment Period, a fully taxable cash payment equal to the COBRA premium for such month, subject to applicable tax withholding, for the remainder of the CIC COBRA Payment Period (the "***Special CIC COBRA Payments***"). The Company may also in its discretion pay the Special CIC COBRA Payments for the remainder of the CIC COBRA Payment Period in one fully taxable lump sum as opposed to monthly installments. Nothing in this Agreement shall deprive Executive of his/her rights under COBRA or ERISA for benefits under plans and policies arising under his/her employment by the Company.

(iii) Effective as of Executive's Change in Control Termination Date, and provided that Company equity awards have been continued, assumed or substituted for by the Company and/or the acquiror (or any affiliate of the acquiror) in connection with such Change in Control transaction, the vesting and exercisability of all outstanding unvested Company equity awards that are held by Executive as of immediately prior to the Change in Control Termination Date and which are scheduled to vest and become exercisable under a time-based or performance based schedule shall be deemed immediately vested and exercisable as of Executive's termination date (and, for clarity, if any unvested equity award is in the form of restricted stock where the unvested shares are subject to a share reacquisition or repurchase right on behalf of the Company upon Executive's termination from employment or service (*e.g.*, at the lower of the stock's fair market value or the original purchase price), such unvested share reacquisition or repurchase right will lapse as to the shares of stock that otherwise are scheduled or are eligible to vest following the Change in Control Termination Date).

6.4 Termination by the Company for Cause.

(a) The Company shall have the right to terminate Executive's employment with the Company at any time for Cause by giving notice as described in Section 7.1 of this Agreement.

(b) "***Cause***" for purposes of this Agreement shall mean that the Company has determined in its sole discretion that Executive has engaged in any of the following: (i) a material breach of any covenant or condition under this Agreement or any other agreement between the Company and Executive; (ii) any act constituting dishonesty, fraud, immoral or disreputable conduct which causes or is reasonably likely to cause material harm to the Company, its business or its reputation; (iii) any conduct which constitutes a felony under applicable law; (iv) material violation of any Company policy or any act of misconduct; (v) repeated refusal to follow or implement a clear reasonable and lawful directive of Company; (vi) negligence or incompetence in the performance of Executive's duties or failure to perform such duties in a manner satisfactory to the Company after the expiration of thirty (30) days without cure, to the extent curable, after written notice of such failure; (vii) failure to pass to the satisfaction of the Company, a preliminary background check or failure to submit proof of legal eligibility to work in the United States; or (viii) breach of fiduciary duty.

(c) In the event Executive's employment is terminated at any time for Cause, Executive will not receive Severance Benefits, Change in Control Severance Benefits, or any other compensation or benefits, except that, pursuant to the Company's standard payroll policies, the Company shall provide to Executive the Accrued Obligations.

6.5 Resignation by Executive (other than for Good Reason).

(a) Executive may resign from Executive's employment with the Company at any time by giving notice as described in Section 7.1.

(b) In the event Executive resigns from Executive's employment with the Company (other than for Good Reason), Executive will not receive Severance Benefits, Change in Control Severance Benefits, or any other compensation or benefits, except that, pursuant to the Company's standard payroll policies, the Company shall provide to Executive the Accrued Obligations.

6.6 Termination by Virtue of Death or Disability of Executive.

(a) In the event of Executive's death while employed pursuant to this Agreement, all obligations of the parties hereunder shall terminate immediately, and the Company shall, pursuant to the Company's standard payroll policies, provide to Executive's legal representatives all Accrued Obligations.

(b) Subject to applicable state and federal law, the Company shall at all times have the right, upon written notice to Executive, to terminate this Agreement based on Executive's Disability. Termination by the Company of Executive's employment based on "***Disability***" shall mean termination because Executive is unable due to a physical or mental condition to perform the essential functions of Executive's position with or without reasonable accommodation for six (6) months in the aggregate during any twelve (12) month period or based on the written certification by two licensed physicians of the likely continuation of such condition for such period. This definition shall be interpreted and applied consistent with the Americans with Disabilities Act, the Family and Medical Leave Act, and other applicable law. In the event Executive's employment is terminated based on Executive's Disability, Executive will not receive the Severance Benefits, Change in Control Severance Benefits, or any other severance compensation or benefit, except that, pursuant to the Company's standard payroll policies, the Company shall provide to Executive the Accrued Obligations.

6.7 **Application of Section 409A.** It is intended that all of the severance payments payable under this Agreement satisfy, to the greatest extent possible, the exemptions from the application of Section 409A of the Code and the regulations and other guidance thereunder and any state law of similar effect (collectively, "***Section 409A***") provided under Treasury Regulations Sections 1.409A-1(b)(4) and 1.409A-1(b)(9), and this Agreement will be construed in a manner that complies with Section 409A. If not so exempt, this Agreement (and any definitions hereunder) will be construed in a manner that complies with Section 409A, and incorporates by reference all required definitions and payment terms. No severance payments will be made under this Agreement unless Executive's termination of employment constitutes a "separation from service" (as defined under Treasury Regulation Section 1.409A-1(h)). For purposes of Section 409A (including, without limitation, for purposes of Treasury Regulations Section 1.409A-2(b)(2)(iii)), Executive's right to receive any installment payments under this Agreement (whether severance payments or otherwise) shall be treated as a right to receive a series of separate payments and, accordingly, each installment payment hereunder shall at all times be considered a separate and distinct payment. To the extent that any severance payments are deferred compensation under Section 409A, and are not otherwise exempt from the application of Section 409A, then, if the period during which Executive may consider and sign the Release spans two calendar years, the severance payments will not begin until the second calendar year. If the Company determines that the Severance Benefits or Change in Control Severance Benefits provided under this Agreement constitutes "deferred compensation" under Section 409A and if Executive is a "specified Executive" of the Company, as such term is defined in Section 409A(a)(2)(B)(i) of the Code at the time of Executive's Separation from Service, then, solely to the extent necessary to avoid the incurrence of the adverse personal tax consequences under Section 409A, the timing of the Severance will be delayed as follows: on the earlier to occur of (a) the date that is six months and one day after Executive's Separation from Service, and (b) the date of Executive's death (such earlier date, the "***Delayed Initial Payment Date***"), the Company will (i) pay to Executive a lump sum amount equal to the sum of the Severance Benefits or Change in Control Severance Benefits that Executive would otherwise have received through the Delayed Initial Payment Date if the commencement of the payment of the Severance Benefits or Change in Control Severance Benefits had not been delayed pursuant to this Section 6.7 and (ii) commence paying the balance of the Severance Benefits or Change in Control Severance Benefits in accordance with the applicable payment schedule set forth in Section 6.1. No interest shall be due on any amounts deferred pursuant to this Section 6.7.

6.8 Notice; Effective Date of Termination.

(a) Termination of Executive's employment pursuant to this Agreement shall be effective on the earliest of:

(i) immediately after the Company gives notice to Executive of Executive's termination, with or without Cause, unless pursuant to Section 6.4(b)(vi) in which case thirty (30) days after notice if not cured or unless the Company specifies a later date, in which case, termination shall be effective as of such later date;

(ii) immediately upon Executive's death;

(iii) ten (10) days after the Company gives notice to Executive of Executive's termination on account of Executive's Disability, unless the Company specifies a later date, in which case, termination shall be effective as of such later date, *provided* that Executive has not returned to the full-time performance of Executive's duties prior to such date;

(iv) ten (10) days after Executive gives written notice to the Company of Executive's resignation not for Good Reason, *provided* that the Company may set a termination date at any time between the date of notice and the date of resignation, in which case Executive's resignation shall be effective as of such other date. Executive will receive compensation through any required notice period; or

(v) for a termination for Good Reason under Section 6.2(b), immediately upon Executive's full satisfaction of the requirements of Section 6.2(b).

(b) In the event notice of a termination under subsections (a)(i) and (iii) is given orally, at the other party's request, the party giving notice must provide written confirmation of such notice within five (5) business days of the request in compliance with the requirement of Section 7.1 below. In the event of a termination for Cause, written confirmation shall specify the subsection(s) of the definition of Cause relied on to support the decision to terminate.

6.9 Cooperation With Company After Termination of Employment. Following termination of Executive's employment for any reason, Executive shall fully cooperate with the Company in all matters relating to the winding up of Executive's pending work including, but not limited to, any litigation in which the Company is involved, and the orderly transfer of any such pending work to such other executives as may be designated by the Company. The Company will reimburse Executive for reasonable out-of-pocket expenses Executive incurs in connection with any such cooperation (excluding forgone wages, salary, or other compensation) and will make reasonable efforts to accommodate Executive's scheduling needs. The Parties further agree that no cooperation under this Section 6.9 shall be required after the six (6)-month anniversary of Executive's termination date and any cooperation hereunder in excess of ten (10) hours per month after the one (1)-month anniversary of Executive's termination date shall be compensated at an hourly cash rate to be agreed upon by Executive and the Company after the termination date.

6.10 Excise Tax Adjustment.

(a) If any payment or benefit Executive will or may receive from the Company or otherwise (a "***280G Payment***") would (i) constitute a "parachute payment" within the meaning of Section 280G of the Code, and (ii) but for this Section, be subject to the excise tax imposed by Section 4999 of the Code (the "***Excise Tax***"), then any such 280G Payment provided pursuant to this Agreement (a "***Payment***") shall be equal to the Reduced Amount. The "*Reduced Amount*" shall be either (x) the largest portion of the Payment that would result in no portion of the Payment (after reduction) being subject to the Excise Tax, or (y) the largest portion, up to and including the total, of the Payment, whichever amount (i.e., the amount determined by clause (x) or by clause (y)), after taking into account all applicable federal, state, and local employment taxes, income taxes, and the Excise Tax (all computed at the highest applicable marginal rate), results in Executive's receipt, on an after-tax basis, of the greater economic benefit notwithstanding that all or some portion of the Payment may be subject to the Excise Tax. If a reduction in a Payment is required pursuant to the preceding sentence and the Reduced Amount is determined pursuant to clause (x) of the preceding sentence, the reduction shall occur in the manner (the "***Reduction Method***") that results in the greatest economic benefit for Executive. If more than one method of reduction will result in the same economic benefit, the items so reduced will be reduced pro rata (the "***Pro Rata Reduction Method***").

(b) Notwithstanding any provision of this Section 6.10 to the contrary, if the Reduction Method or the Pro Rata Reduction Method would result in any portion of the Payment being subject to taxes pursuant to Section 409A that would not otherwise be subject to taxes pursuant to Section 409A, then the Reduction Method and/or the Pro Rata Reduction Method, as the case may be, shall be modified so as to avoid the imposition of taxes pursuant to Section 409A as follows: (A) as a first priority, the modification shall preserve to the greatest extent possible, the greatest economic benefit for Executive as determined on an after-tax basis; (B) as a second priority, Payments that are contingent on future events (*e.g.*, being terminated without Cause) shall be reduced (or eliminated) before Payments that are not contingent on future events; and (C) as a third priority, Payments that are "deferred compensation" within the meaning of Section 409A shall be reduced (or eliminated) before Payments that are not deferred compensation within the meaning of Section 409A.

(c) Unless Executive and the Company agree on an alternative accounting firm or law firm, the accounting firm engaged by the Company for general tax compliance purposes as of the day prior to the effective date of the Change in Control transaction shall perform the foregoing calculations. If the accounting firm so engaged by the Company is serving as accountant or auditor for the individual, entity, or group effecting the Change in Control transaction, the Company shall appoint a nationally recognized accounting or law firm to make the determinations required by this Section 6.10. The Company shall bear all expenses with respect to the determinations by such accounting or law firm required to be made hereunder. The Company shall use commercially reasonable efforts to cause the accounting or law firm engaged to make the determinations hereunder to provide its calculations, together with detailed supporting documentation, to Executive and the Company within fifteen (15) calendar days after the date on which Executive's right to a 280G Payment becomes reasonably likely to occur (if requested at that time by Executive or the Company) or such other time as requested by Executive or the Company.

(d) If Executive receives a Payment for which the Reduced Amount was determined pursuant to clause (x) of Section 6.10(a) and the Internal Revenue Service determines thereafter that some portion of the Payment is subject to the Excise Tax, Executive agrees to promptly return to the Company a sufficient amount of the Payment (after reduction pursuant to clause (x) of Section 6.10(a)) so that no portion of the remaining Payment is subject to the Excise Tax. For the avoidance of doubt, if the Reduced Amount was determined pursuant to clause (y) of Section 6.10(a), Executive shall have no obligation to return any portion of the Payment pursuant to the preceding sentence.

7. General Provisions.

7.1 Notices. Any notices required hereunder to be in writing shall be deemed effectively given: (a) upon personal delivery to the party to be notified, (b) when sent by electronic mail or confirmed facsimile if sent during normal business hours of the recipient, and if not, then on the next business day, (c) five (5) days after having been sent by registered or certified mail, return receipt requested, postage prepaid, or (d) one (1) day after deposit with a nationally recognized overnight courier, specifying next-day delivery, with written verification of receipt. All communications shall be sent to the Company at its primary office location and to Executive at Executive's address as listed on the Company payroll or to Executive's Company-issued email address or Executive's email address as listed in Company records, or at such other address as the Company or Executive may designate by ten (10) days' advance written notice to the other.

7.2 Severability. Whenever possible, each provision of this Agreement will be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Agreement is held to be invalid, illegal or unenforceable in any respect under any applicable law or rule in any jurisdiction, such invalidity, illegality or unenforceability will not affect any other provision or any other jurisdiction, but this Agreement will be reformed, construed and enforced in such jurisdiction as if such invalid, illegal or unenforceable provisions had never been contained herein.

7.3 Survival. Provisions of this Agreement which by their terms must survive the termination of this Agreement in order to effectuate the intent of the parties will survive any such termination, whether by expiration of the term, termination of Executive's employment, or otherwise, for such period as may be appropriate under the circumstances.

7.4 Waiver. If either party should waive any breach of any provisions of this Agreement, it shall not thereby be deemed to have waived any preceding or succeeding breach of the same or any other provision of this Agreement.

7.5 **Complete Agreement.** This Agreement constitutes the entire agreement between Executive and the Company with regard to the subject matter hereof. This Agreement is the complete, final, and exclusive embodiment of their agreement with regard to this subject matter and supersedes any prior oral discussions or written communications and agreements. This Agreement is entered into without reliance on any promise or representation other than those expressly contained herein, and it cannot be modified or amended except in writing signed by Executive and an authorized officer of the Company. The parties will enter into a separate Confidential Information Agreement and may enter into separate agreements related to equity. These separate agreements govern other aspects of the relationship between the parties, have or may have provisions that survive termination of Executive's employment under this Agreement, may be amended or superseded by the parties without regard to this Agreement and are enforceable according to their terms without regard to the enforcement provision of this Agreement.

7.6 **Counterparts.** This Agreement may be executed in separate counterparts, any one of which need not contain signatures of more than one party, but all of which taken together will constitute one and the same Agreement.

7.7 **Headings.** The headings of the sections hereof are inserted for convenience only and shall not be deemed to constitute a part hereof nor to affect the meaning thereof.

7.8 **Successors and Assigns.** The Company shall assign this Agreement and its rights and obligations hereunder in whole, but not in part, to any Company or other entity with or into which the Company may hereafter merge or consolidate or to which the Company may transfer all or substantially all of its assets, if in any such case said Company or other entity shall by operation of law or expressly in writing assume all obligations of the Company hereunder as fully as if it had been originally made a party hereto, but may not otherwise assign this Agreement or its rights and obligations hereunder. The Executive may not assign or transfer this Agreement or any rights or obligations hereunder, other than to the Executive's estate upon Executive's death.

7.9 **Choice of Law.** All questions concerning the construction, validity and interpretation of this Agreement will be governed by the laws of the **State of California**.

7.10 Resolution of Disputes. To ensure the rapid and economical resolution of disputes that may arise in connection with Executive's continued employment with the Company, Executive and the Company agree that any and all disputes, claims, or causes of action, in law or equity, including but not limited to statutory claims, arising from or relating to the enforcement, breach, performance, or interpretation of this Agreement, Executive's employment with the Company, or the termination of Executive's employment, shall be resolved pursuant to the Federal Arbitration Act, 9 U.S.C. § 1-16, to the fullest extent permitted by law, by final, binding and confidential arbitration conducted by JAMS or its successor, under JAMS' then applicable rules and procedures appropriate to the relief being sought (available upon request and also currently available at the following web addresses: (i) https://www.jamsadr.com/rules-employment-arbitration/ and (ii) https://www.jamsadr.com/rules-comprehensive-arbitration/). **Executive acknowledges that by agreeing to this arbitration procedure, both Executive and the Company waive the right to resolve any such dispute through a trial by jury or judge or administrative proceeding.** In addition, all claims, disputes, or causes of action under this Section, whether by Executive or the Company, must be brought in an individual capacity, and shall not be brought as a plaintiff (or claimant) or class member in any purported class or representative proceeding, nor joined or consolidated with the claims of any other person or entity. The arbitrator may not consolidate the claims of more than one person or entity, and may not preside over any form of representative or class proceeding. To the extent that the preceding sentences regarding class claims or proceedings are found to violate applicable law or are otherwise found unenforceable, any claim(s) alleged or brought on behalf of a class shall proceed in a court of law rather than by arbitration. This Section shall not apply to any action or claim that cannot be subject to mandatory arbitration as a matter of law, including, without limitation, **claims brought pursuant to the California Private Attorneys General Act of 2004, as amended, the California Fair Employment and Housing Act, as amended, and the California Labor Code, as amended, or** claims alleging sexual harassment or a nonconsensual sexual action or sexual contact, to the extent such claims are not permitted by applicable law(s) to be submitted to mandatory arbitration and the applicable law(s) are not preempted by the Federal Arbitration Act or otherwise invalid (collectively, the "***Excluded Claims***"). In the event Executive intends to bring multiple claims, including one of the Excluded Claims listed above, the Excluded Claims may be filed with a court, while any other claims will remain subject to mandatory arbitration. Executive will have the right to be represented by legal counsel at any arbitration proceeding. Questions of whether a claim is subject to arbitration under this Agreement shall be decided by the arbitrator. Likewise, procedural questions which grow out of the dispute and bear on the final disposition are also matters for the arbitrator. The arbitrator shall: (a) have the authority to compel adequate discovery for the resolution of the dispute and to award such relief as would otherwise be permitted by law; and (b) issue a written statement signed by the arbitrator regarding the disposition of each claim and the relief, if any, awarded as to each claim, the reasons for the award, and the arbitrator's essential findings and conclusions on which the award is based. The arbitrator shall be authorized to award all relief that Executive or the Company would be entitled to seek in a court of law. Executive and the Company shall equally share all JAMS' arbitration fees, or such fees shall be paid in such other manner to the extent required by, and in accordance with, applicable law to effectuate Executive's and the Company's agreement to arbitrate. To the extent JAMS does not collect or Executive otherwise does not pay to JAMS an equal share of all JAMS' arbitration fees for any reason, and the Company pays JAMS Executive's share, Executive acknowledges and agrees that the Company shall be entitled to recover from Executive half of the JAMS arbitration fees invoiced to the parties (less any amounts Executive paid to JAMS) in a federal or state court of competent jurisdiction. Each party is responsible for its own attorneys' fees, except as expressly set forth in the Confidential Information Agreement. Nothing in this Agreement is intended to prevent either Executive or the Company from obtaining injunctive relief in court to prevent irreparable harm pending the conclusion of any such arbitration. Any awards or orders in such arbitrations may be entered and enforced as judgments in the federal and state courts of any competent jurisdiction.

Re: Separation Agreement

Dear Mike:

This letter sets forth the substance of the separation agreement (the "***Agreement***") which Ambros Therapeutics, Inc. (the "***Company***") is offering to you to aid in your employment transition.

1. Separation Date. Your last day of work with the Company and your employment termination date will be May 31, 2026 (the "***Separation Date***"). Between the date of this Agreement and your Separation Date, you will be expected to perform your regular job duties and such other duties as may be assigned to you by the Company's Chief Executive Officer.

2. Accrued Salary. On the Separation Date, the Company will pay you all accrued salary and all accrued and unused PTO earned through the Separation Date, subject to standard payroll deductions and withholdings. You acknowledge that you will receive these payments regardless of whether or not you execute this Agreement.

3. Severance Benefits. You are eligible for certain severance benefits pursuant to Section 6.1 of your Employment Agreement with the Company dated September 30, 2025 (the "***Employment Agreement***"). If you return this fully signed and dated Agreement to the Company within the time frame specified below (but no earlier than the Separation Date), do not revoke it, and fully comply with your obligations under this Agreement and your Employment Agreement (collectively, the "***Severance Preconditions***"), the Company will, in accordance with the Employment Agreement, provide you with the following severance benefits (the "***Severance Benefits***"):

(a) Severance. The Company will pay you, as severance, a lump sum cash payment equal to the sum of (A) the equivalent of nine (9) months of your base salary in effect as of the Separation Date and (B) 75% of your target annual bonus (as of the date of this Agreement) (the "***Cash Severance Payment***"). The Cash Severance Payment will be paid, subject to applicable payroll deductions and withholdings, on the Company's second regularly-scheduled payroll date following the Effective Date (as defined below).

(b) COBRA Severance Benefit. If you timely elect continued coverage under COBRA under the Company's group health plans, then, as an additional severance benefit, the Company will reimburse your full COBRA premiums to continue your coverage (including coverage for eligible dependents, if applicable) in effect for yourself (and your eligible dependents, if applicable) until the earliest of: (A) twelve (12) months following the Separation Date; (B) the expiration of your eligibility for the continuation coverage under COBRA; or (C) the date when you become eligible for and covered by substantially equivalent health insurance (ccoverage in connection with new employment or self-employment (such period from the termination date through the earliest of (A) through (C), the "***COBRA Payment Period***" and such severance benefit, the "***COBRA Severance Benefit***"). Notwithstanding the foregoing, if at any time, (i) the Company determines, in its sole discretion, that the payment of the COBRA premiums would result in a violation of the nondiscrimination rules of Section 105(h)(2) of the Internal Revenue Code or any statute or regulation of similar effect (including but not limited to the 2010 Patient Protection and Affordable Care Act, as amended by the 2010 Health Care and Education Reconciliation Act), or (ii) the Company's health insurance plan in effect on the Separation Date terminates (either (i) or (ii), a "***COBRA Severance Benefit Terminating Event***"), then provided you otherwise were eligible for the COBRA Severance Benefit on the date of the COBRA Severance Benefit Terminating Event, in lieu of providing the COBRA premium reimbursement, the Company will instead pay you a fully taxable lump sum cash payment equal to the remainder of the COBRA premiums due under this Section 3(b) for the COBRA Payment Period (the "***Special Cash Payment***"), which payment shall be payable within 30 days following the applicable COBRA Severance Benefit Terminating Event. You may, but are not obligated to, use such Special Cash Payment for medical expenses, including COBRA Premiums (as applicable). If, prior to any COBRA Severance Benefit Terminating Event, you become eligible for coverage under another employer's group health plan through self-employment or otherwise cease to be eligible for COBRA coverage under the Company's group health plan during the COBRA Payment Period, you must immediately notify the Company of such event, and all payments and obligations under this Section will cease.

(c) Equity Award Acceleration. As an additional Severance Benefit, and as described in Section 6 below, the Company will partially accelerate the vesting of the Equity Awards (as defined below).

(d) Consulting Opportunity. As an additional Severance Benefit, the Company will retain you as a consultant, subject to the terms of this Section 3(d) (the "***Consulting Services***"), beginning as of the Separation Date and ending on July 31, 2026 (the "***Consulting Period***"); *provided, however*, that (i) if you do not timely sign and return this Agreement, the Consulting Period will automatically terminate effective as of the date that is twenty-one (21) days after the Separation Date, and (ii) if you timely sign but later revoke the Agreement (pursuant to Section 14(c) below), the Consulting Period will automatically terminate effective as of the date of such revocation. During the Consulting Period, you will not be permitted to perform any services for the Company except as explicitly requested by the Company's Chief Executive Officer, Chief Financial Officer or consulting General Counsel. In exchange for your provision of Consulting Services, you will (i) be paid an hourly consulting fee of $450 for Consulting Services performed and (ii) be deemed to be in Continuous Service (as described in Section 6 below) until the end of the Consulting Period and the post-termination exercise period applicable to your Option (as defined below) will not commence until such date. You agree that, during the Consulting Period and thereafter, you will not use or disclose, in any manner that is not authorized by the Company and essential to your performance of specifically requested Consulting Services, any confidential or proprietary information or materials of the Company that you obtain or develop in the course of performing the Consulting Services. You further agree that any and all work product you create in the course of performing the Consulting Services, including all intellectual property rights thereto, will be the sole and exclusive property of the Company.

The Company is offering severance to you in reliance on Treasury Regulation Section 1.409A-1(b)(9) and the short-term deferral exception in Treasury Regulation Section 1.409A-1(b)(4). Any payments made in reliance on Treasury Regulation Section 1.409A-1(b)(4) will be made not later than March 15 of the year following the year in which the Separation Date occurs. For purposes of Section 409A of the Internal Revenue Code of 1986, as amended ("***Code Section 409A***"), your right to receive any installment payments under this letter (whether severance payments, reimbursements or otherwise) shall be treated as a right to receive a series of separate payments and, accordingly, each installment payment hereunder shall at all times be considered a separate and distinct payment. To the extent that any Severance Benefits are not otherwise exempt from the application of Code Section 409A, then, if the period during which you may consider and sign this Agreement spans two calendar years, the payment of severance will not be made or begin until the later calendar year.

4. Benefit Plans. If you are currently participating in the Company's group health insurance plans, including medical, dental, and/or vision, plans, your participation as an employee will end on May 31, 2026. Thereafter, to the extent provided by the federal COBRA law or, if applicable, state insurance laws, and by the Company's current group health insurance policies, you will be eligible to continue your group health insurance benefits at your own expense, with the potential for certain payments to be made by the Company as described in Section 3(b) above.

5. Unemployment Insurance. You may be eligible for unemployment insurance benefits after the Separation Date. You acknowledge that whether you receive unemployment compensation will be decided by the applicable agency that is charged with unemployment insurance matters in your state, and not by the Company. That agency can provide you with benefits and eligibility information regarding unemployment compensation.

6. Equity Awards. You were granted an option to purchase 250,000 shares of the Company's common stock (the "***Option***") and issued 200,000 shares of the Company's restricted common stock (the "***RSA***" and together with the Option, the "***Equity Awards***") pursuant to the Company's 2024 Equity Incentive Plan, as amended (the "***Plan***"), and your applicable Option and/or RSA agreement (together with the Plan, the "***Equity Award Documents***"). Notwithstanding anything to the contrary in the Equity Award Documents, you acknowledge and agree that (i) the vesting of your Option and/or RSA (as applicable) will cease as of the Separation Date and (ii) you shall otherwise be deemed to be in Continuous Service (as defined in the Plan) to the Company until the end of the Consulting Period. For avoidance of doubt, if you satisfy the Severance Preconditions, then effective as of the Separation Date, the vesting and exercisability of the Equity Awards shall be modified so that any unvested shares scheduled to vest during the nine month period following the Separation Date shall be deemed immediately vested and exercisable (as applicable) as of the Separation Date (and, for clarity, the unvested share repurchase right under the RSA will lapse as of the Separation Date as to such shares that become immediately vested). Any Options or RSUs that you currently hold shall continue to be governed by the terms of the Equity Award Documents.

7. Other Compensation or Benefits. You acknowledge that, except as expressly provided in this Agreement, you will not receive any additional compensation, severance, commissions, bonuses or benefits after the Separation Date. You also acknowledge that the Company's provision of the Severance Benefits set forth in Section 3 above fully satisfy any severance or other obligations under the Employment Agreement.

8. Expense Reimbursements. Within ten (10) days following the Separation Date, you agree to submit your final documented expense reimbursement statement reflecting all business expenses you incurred through the Separation Date, if any, for which you seek reimbursement. The Company will reimburse you for reasonable business expenses pursuant to its regular business practice.

9. Return of Company Property. Within three (3) days following the Separation Date, you agree to return to the Company all Company documents (and all copies thereof) and other Company property that you have had in your possession at any time, including, but not limited to, Company files, notes, drawings, records, business plans and forecasts, financial information, specifications, computer-recorded information, tangible property (including, but not limited to, computers), credit cards, entry cards, identification badges and keys; and, any materials of any kind that contain or embody any proprietary or confidential information of the Company (and all reproductions thereof). Notwithstanding the foregoing, the Company may instruct you to retain certain Company property to facilitate the performance of consulting services under the Consulting Agreement, provided that you return such property upon the termination of your Consulting Agreement.

10. Proprietary Information and Post-Termination Obligations. Both during and after your employment you acknowledge your continuing obligations under your Employee Confidential Information and Inventions Assignment Agreement (the "***Confidential Information Agreement***") not to use or disclose any confidential or proprietary information of the Company and to refrain from certain other activities. As you know, the Company will enforce its contract rights. Please familiarize yourself with the enclosed agreement which you signed. Confidential information that is also a "trade secret," as defined by law, may be disclosed (A) if it is made (i) in confidence to a federal, state, or local government official, either directly or indirectly, or to an attorney and (ii) solely for the purpose of reporting or investigating a suspected violation of law; or (B) is made in a complaint or other document filed in a lawsuit or other proceeding, if such filing is made under seal. In addition, in the event that you file a lawsuit for retaliation by the Company for reporting a suspected violation of law, you may disclose the trade secret to your attorney and use the trade secret information in the court proceeding, if you: (A) file any document containing the trade secret under seal; and (B) do not disclose the trade secret, except pursuant to court order.

11. Confidentiality. The provisions of this Agreement will be held in strictest confidence by you and will not be publicized or disclosed in any manner whatsoever; *provided, however,* that: (a) you may disclose this Agreement to your immediate family; (b) you may disclose this Agreement in confidence to your attorney, accountant, auditor, tax preparer, and financial advisor; and (c) you may disclose this Agreement insofar as such disclosure may be required by law. Notwithstanding the foregoing, nothing in this Agreement shall limit your right to voluntarily communicate with the Equal Employment Opportunity Commission, United States Department of Labor, the National Labor Relations Board, the Securities and Exchange Commission, other federal government agency, similar state or local agency, or an attorney you retain, or to discuss the terms and conditions of your employment with others to the extent expressly permitted by Section 7 of the National Labor Relations Act.

12. Mutual Non-Disparagement. Both you and the Company agree not to disparage the other party, and the other party's officers, directors, employees, shareholders and agents, in any manner reasonably likely to be harmful to them or their business, business reputation or personal reputation. The Company's obligations under this Section are limited to the Company's current officers and directors. Notwithstanding the foregoing, nothing in this Agreement shall limit your right to voluntarily communicate with the Equal Employment Opportunity Commission, the United States Department of Labor, the National Labor Relations Board, the Securities and Exchange Commission, other federal government agency or similar state or local agency or to discuss the terms and conditions of your employment with others to the extent expressly permitted by Section 7 of the National Labor Relations Act. In addition, nothing in this Section or this Agreement is intended to prohibit or restrain you in any manner from making disclosures protected under the whistleblower provisions of federal or state law or regulation or other applicable law or regulation.

13. Cooperation. Consistent with your obligations under Section 6.9 of the Employment Agreement, you agree to cooperate fully with the Company in all matters relating to Company-related litigation or disputes and the transition of your work and responsibilities on behalf of the Company, including, but not limited to, any present, prior or subsequent relationships and the orderly transfer of any such work and institutional knowledge to such other persons as may be designated by the Company, by making yourself reasonably available during regular business hours. Notwithstanding the foregoing, you and the Company agree that your obligations hereunder shall not extend beyond the 6-month anniversary of the Separation Date.

14. Release.

(a) General Release of Claims. In exchange for the consideration provided to you under this Agreement to which you would not otherwise be entitled, you hereby generally and completely release the Company, and its affiliated, related, parent and subsidiary entities, and its and their current and former directors, officers, employees, shareholders, partners, agents, attorneys, predecessors, successors, insurers, affiliates, and assigns (the "***Company Parties***") from any and all claims, liabilities, demands, causes of action, and obligations, both known and unknown, arising from or in any way related to events, acts, conduct, or omissions occurring at any time prior to and including the date you sign this Agreement.

(b) Scope of Release. This general release includes, but is not limited to: (i) all claims arising from or in any way related to your employment with the Company or the termination of that employment; (ii) all claims related to your compensation or benefits from the Company, including salary, bonuses, commissions, vacation pay, expense reimbursements, severance pay, fringe benefits, stock, stock options, or any other ownership, equity, or profits interests in the Company; (iii) all claims for breach of contract, wrongful termination, and breach of the implied covenant of good faith and fair dealing; (iv) all tort claims, including claims for fraud, defamation, emotional distress, and discharge in violation of public policy; and (v) all federal, state, and local statutory claims, including claims for discrimination, harassment, retaliation, attorneys' fees, or other claims arising under the federal Civil Rights Act of 1964 (as amended), the federal Americans with Disabilities Act of 1990, the Age Discrimination in Employment Act, as amended ("***ADEA***"), the California Labor Code (as amended), the California Family Rights Act, and the California Fair Employment and Housing ,Act (as amended). **You acknowledge that you have been advised, as required by California Government Code Section 12964.5(b)(4), that you have the right to consult an attorney regarding this Agreement and that you were given a reasonable time period of not less than five business days in which to do so.**

(c) ADEA Release. You acknowledge that you are knowingly and voluntarily waiving and releasing any rights you have under the ADEA, and that the consideration given for the waiver and releases you have given in this Agreement is in addition to anything of value to which you were already entitled. You further acknowledge that you have been advised, as required by the ADEA, that: (i) your waiver and release does not apply to any rights or claims arising after the date you sign this Agreement; (ii) you should consult with an attorney prior to signing this Agreement (although you may choose voluntarily not to do so); (iii) you have twenty-one (21) days to consider this Agreement (although you may choose voluntarily to sign it sooner); (iv) you have seven (7) days following the date you sign this Agreement to revoke this Agreement (in a written revocation sent to the Company); and (v) this Agreement will not be effective until the date upon which the revocation period has expired, which will be the eighth day after you sign this Agreement provided that you do not revoke it (the "***Effective Date***").

(d) Section 1542 Waiver. In giving the release herein, which includes claims which may be unknown to you at present, you acknowledge that you have read and understand Section 1542 of the California Civil Code, which reads as follows: **"A general release does not extend to claims that the creditor or releasing party does not know or suspect to exist in his or her favor at the time of executing the release and that, if known by him or her, would have materially affected his or her settlement with the debtor or released party."** You hereby expressly waive and relinquish all rights and benefits under that section and any law of any other jurisdiction of similar effect with respect to your release of claims herein, including but not limited to your release of unknown claims.

(e) Exceptions. Notwithstanding the foregoing, you are not releasing the Company hereby from: (i) any claims that may arise from events that occur after the date this waiver is execute; (ii) any existing obligation to indemnify you pursuant to the Articles and Bylaws of the Company, any valid fully executed indemnification agreement with the Company, applicable law, or applicable directors and officers liability insurance; (iii) any claims that cannot be waived by law, including, without limitation, any rights you may have under applicable workers' compensation laws and your right, if applicable, to file or participate in an investigative proceeding of any federal, state, or local government agency; or (iv) any claims for breach of this Agreement.

15. Protected Rights. You understand that nothing in this Agreement has limited, currently limits, or shall limit your ability to file a charge or complaint with the Equal Employment Opportunity Commission, the Department of Labor, the National Labor Relations Board, the Occupational Safety and Health Administration, the California Department of Fair Employment and Housing, the Department of Justice, the Securities and Exchange Commission, or any other government agency, law enforcement agency, or commission ("***Government Agencies***"). You further understand this Agreement does not limit your ability to communicate with any Government Agencies or otherwise participate in any investigation or proceeding that may be conducted by any Government Agency, including providing documents or other information, without notice to the Company. While this Agreement does not limit your right to receive a government-issued award for information provided to any Government Agency in connection with a government whistleblower program or protected whistleblower activity, you understand and agree that, to maximum extent permitted by law, you are otherwise waiving any and all rights you may have to individual relief based on any claims that you have released and any rights you have waived by signing this Agreement. Nothing in this Agreement has prevented, currently prevents, or shall prevent you from discussing or disclosing information about unlawful acts in the workplace, such as harassment, or discrimination or any other conduct that you have reason to believe is unlawful. Additionally, nothing in this Agreement waives any rights you may have under Section 7 of the National Labor Relations Act (subject to the release of claims set forth herein).

16. Your Acknowledgments and Affirmations. You acknowledge and agree that (i) the consideration given to you in exchange for the waiver and release in this Agreement is in addition to anything of value to which you were already entitled; and (ii) that you have been paid for all time worked, have received all the leave, leaves of absence and leave benefits and protections for which you are eligible, and have not suffered any on-the-job injury for which you have not already filed a claim. You affirm that all of the decisions of the Company Parties regarding your pay and benefits through the date of your execution of this Agreement were not discriminatory based on age, disability, race, color, sex, religion, national origin or any other classification protected by law. You affirm that you will not voluntarily (except in response to legal compulsion or as permitted in Section 15 above) assist any person in bringing or pursuing any proposed or pending litigation, arbitration, administrative claim or other formal proceeding against any of the Company Parties. You further affirm that you have no known workplace injuries or occupational diseases. You acknowledge and affirm that you have not been retaliated against for reporting any allegation of corporate fraud or other wrongdoing by any of the Company Parties, or for exercising any rights protected by law, including any rights protected by the Fair Labor Standards Act, the Family Medical Leave Act, or any related statute or local leave or disability accommodation laws, or any applicable state workers' compensation law.

17. No Admission. This Agreement does not constitute an admission by the Company of any wrongful action or violation of any federal, state, or local statute, or common law rights, including those relating to the provisions of any law or statute concerning employment actions, or of any other possible or claimed violation of law or rights.

18. Breach. You agree that upon any breach of this Agreement you will forfeit all amounts paid or owing to you under this Agreement. Further, you acknowledge that it may be impossible to assess the damages caused by your violation of the terms of Sections 9, 10, 11, and 12 of this Agreement and further agree that any threatened or actual violation or breach of those Sections of this Agreement will constitute immediate and irreparable injury to the Company. You therefore agree that any such breach of this Agreement is a material breach of this Agreement, and, in addition to any and all other damages and remedies available to the Company upon your breach of this Agreement, the Company shall be entitled to an injunction to prevent you from violating or breaching this Agreement. You agree that if the Company is successful in whole or part in any legal or equitable action against you under this Agreement, you agree to pay all of the costs, including reasonable attorneys' fees, incurred by the Company in enforcing the terms of this Agreement. You also affirm and agree that, consistent with the terms of your Employment Agreement, any and all disputes, claims or causes of action arising from or relating to the enforcement, breach, performance, negotiation, execution or interpretation of this Agreement or the Employment Agreement, your employment with the Company or the termination of such employment, including, but not limited to, all statutory claims, will be resolved pursuant to binding and confidential arbitration under the terms and conditions set forth in the Employment Agreement.

19. Miscellaneous. This Agreement, including Exhibit A, constitutes the complete, final and exclusive embodiment of the entire agreement between you and the Company with regard to this subject matter. It is entered into without reliance on any promise or representation, written or oral, other than those expressly contained herein, and it supersedes any other such promises, warranties or representations. This Agreement may not be modified or amended except in a writing signed by both you and a duly authorized officer of the Company. This Agreement will bind the heirs, personal representatives, successors and assigns of both you and the Company, and inure to the benefit of both you and the Company, their heirs, successors and assigns. If any provision of this Agreement is determined to be invalid or unenforceable, in whole or in part, this determination will not affect any other provision of this Agreement and the provision in question will be modified by the court so as to be rendered enforceable. This Agreement will be deemed to have been entered into and will be construed and enforced in accordance with the laws of the State of California as applied to contracts made and to be performed entirely within such state or commonwealth.

If this Agreement is acceptable to you, please sign below and return it to me on or before the date that is twenty-one (21) days after you receive this Agreement (but no earlier than the Separation Date). The Company's severance offer contained herein will automatically expire if you do not sign and return the fully signed Agreement within this timeframe.

EXHIBIT 10.48

EMPLOYMENT AGREEMENT

This **Employment Agreement** (the "***Agreement***") is entered into effective as of the Start Date (as defined below) by and between **Cris Calsada** (the "***Executive***") and **Ambros Therapeutics, Inc.** (the "***Company***").

The Company desires to employ Executive and, in connection therewith, to compensate Executive for Executive's services, performed personally by Executive, to the Company; and

Executive wishes to be employed by the Company and provide services to be performed personally by Executive and certain covenants to the Company in return for certain compensation and benefits.

Accordingly, in consideration of the mutual promises and covenants contained herein, the parties agree to the following:

1. Employment by the Company.

1.1 Position. Subject to the terms set forth herein, the Company agrees to employ Executive initially in the position of Chief Financial Officer, and Executive hereby accepts such employment.

1.2 Effectiveness of Agreement and Start Date. Executive's employment with the Company shall commence on April 20, 2026 or such other date mutually agreed to in writing by Executive and the Company (the "***Start Date***"). In the event that Executive does not commence employment with the Company under this Agreement, the Company shall have no obligation to provide Executive with compensation and benefits (including, but not limited to, the "Severance Benefits" and "Change in Control Severance Benefits" stated in Section 6.1, 6.2 or 6.3).

1.3 Duties. Executive will initially report to the Company's Chief Executive Officer (the "***CEO***"), performing such duties as are normally associated with Executive's position and such duties as are assigned to Executive from time to time, subject to the oversight and direction of the CEO or his designee. During the term of Executive's employment with the Company, Executive will devote Executive's best efforts and substantially all of Executive's business time and attention to the business of the Company. Executive shall perform Executive's duties under this Agreement principally from Executive's home office or, once the Company has established a permanent office location in San Diego, California, at the Company's office in San Diego, California, or, from time to time, the Company's office in Orange County, California. In addition, Executive shall make such business trips to such places as may be necessary or advisable for the efficient operations of the Company. During Executive's employment with the Company, Executive will not change the state where Executive is primarily working for the Company or resides, without prior written approval from the Company of such change, other than in the case of any such change requested or required of Executive by the Company.

1.4 Company Policies and Benefits. The employment relationship between the parties shall be subject to the Company's personnel policies and procedures as they may be established, interpreted, adopted, revised or deleted from time to time in the Company's sole discretion. Executive will be eligible to participate on the same basis as similarly-situated Executives in the Company's benefit plans in effect from time to time during Executive's employment. The Company reserves the right to change, alter, or terminate any benefit plan in its sole discretion. Notwithstanding the foregoing, in the event that the terms of this Agreement differ from or are in conflict with the Company's general employment policies or practices, this Agreement shall control.

2. COMPENSATION.

2.1 Salary. Executive shall receive for Executive's services to be rendered under this Agreement an initial base salary of **$445,000** on an annualized basis, subject to review and adjustment by the Company in its sole discretion, and payable subject to standard federal and state payroll deductions and withholding requirements in accordance with the Company's standard payroll practices ("***Base Salary***").

2.2 Annual Discretionary Bonus. Beginning as of the Start Date, Executive will be eligible to be awarded a discretionary annual cash bonus with a target of **40%** of Executive's then-current Base Salary, subject to review and adjustment from time to time by the Company in its sole discretion, payable subject to standard federal and state payroll deductions and withholding requirements in accordance with the Company's standard payroll practices ("***Target Bonus***"). Whether or not Executive is awarded any bonus will be dependent upon (a) the actual achievement by Executive and the Company of the applicable individual and corporate performance goals, as determined by the Company's Board of Directors (the **"*Board***"), or a committee thereof, in its sole discretion, and (b) Executive's continuous performance of services to the Company through the date any such bonus is paid. The bonus may be greater or lesser than the Target Bonus and may be zero. In the event Executive's Base Salary is increased during an applicable bonus year, any bonus Executive is eligible to receive for that year (as a percentage of Executive's Base Salary) will be calculated such that the modified Base Salary rate only applies to the period of time from the effective date of the Base Salary adjustment through the end of the applicable bonus year (and the prior Base Salary rate applies to the period before the Base Salary adjustment). The Board will determine in its sole discretion the extent to which Executive has achieved the performance goals upon which the bonus is based and the amount of the bonus, if any. Any bonus earned under this Section 2.2 shall be paid to Executive no later than March 15 of the calendar year following the year for which the bonus is awarded.

2.3 Equity Awards. Subject to approval of the Board, as soon as practicable following the Start Date, the Executive shall be granted an option to purchase **450,000** shares of the Company's common stock (the "***Initial Option Grant***") under and subject to the terms of the Company's 2024 Equity Incentive Plan, as amended (the "***Plan***"). The Initial Option Grant shall have an exercise price per share equal to the fair market value of the Company's common stock as of the date of grant, as determined in good faith by the Board. One-fourth of the shares subject to the Initial Option Grant shall vest on the first anniversary of the Start Date and the balance of the shares shall vest in a series of 36 successive equal monthly installments thereafter, subject to Executive's Continuous Service (as defined in the Plan) as of each such vesting date. Executive hereby acknowledges that, except as otherwise set forth in Section 6 below, the Initial Option Grant, as well as any other future equity grants issued by the Company to Executive will continue to be governed by the terms of the Plan and other applicable award agreement documents. The parties acknowledge that service as a consultant, employee, or member of the Board is and will be deemed to be "***Continuous Service***" (as defined in the Plan) for purposes of vesting under the Plan.

2.4 **Expense Reimbursement.** The Company will reimburse Executive for reasonable business expenses in accordance with the Company's standard expense reimbursement policy, as the same may be modified by the Board from time to time. The Company shall reimburse Executive for all customary and appropriate business-related expenses actually incurred and documented in accordance with Company policy, as in effect from time to time, including any out-of-pocket costs relating to Executive's travel to and from Orange County, California (including food, lodging and ground transportation). For the avoidance of doubt, to the extent that any reimbursements payable to Executive are subject to the provisions of Section 409A of the Internal Revenue Code of 1986, as amended (the "***Code***"): (a) any such reimbursements will be paid no later than December 31 of the year following the year in which the expense was incurred, (b) the amount of expenses reimbursed in one year will not affect the amount eligible for reimbursement in any subsequent year, and (c) the right to reimbursement under this Agreement will not be subject to liquidation or exchange for another benefit.

3. **Confidential Information, Inventions, Non-Competition and Non-Solicitation Obligations.** As a condition of employment, Executive agrees to execute and abide by the Employee Confidential Information and Inventions Assignment Agreement attached as Exhibit A ("***Confidential Information Agreement***"), which may be amended by the parties from time to time without regard to this Agreement. The Confidential Information Agreement contains provisions that are intended by the parties to survive and do survive termination of this Agreement.

4. **Outside Activities During Employment.** Except with the prior written consent of the Company's CEO, Executive will not, while employed by the Company, undertake or engage in any other employment, consulting, occupation or business enterprise that would interfere with Executive's responsibilities and the performance of Executive's duties hereunder, except for (i) reasonable time devoted to volunteer services for or on behalf of such religious, educational, non-profit and/or other charitable organization as Executive may wish to serve, (ii) reasonable time devoted to activities in the non-profit and business communities consistent with Executive's duties, (iii) reasonable time acting as a part-time advisor to a maximum of two (2) other companies as may be specifically approved in writing by the Company's CEO, which companies will initially consist of [***], and (iv) such other activities as may be specifically approved in writing by the Company's CEO. This restriction shall not, however, preclude Executive (i) from owning less than one percent (1%) of the total outstanding shares of a publicly-traded company or (ii) from employment or service in any capacity with Affiliates of the Company. As used in this Agreement, "***Affiliates***" means an entity under common management or control with the Company. Executive agrees to promptly disclose to the CEO his/her involvement in any activities contemplated by this Section 4.

5. **No Conflict with Existing Obligations.** Executive represents that Executive's performance of all the terms of this Agreement and service as an executive of the Company do not and will not breach any agreement or obligation of any kind made prior to Executive's employment by the Company, including agreements or obligations Executive may have with prior employers or entities for which Executive has provided services. Executive has not entered into, and Executive agrees that Executive will not enter into, any agreement or obligation, either written or oral, in conflict herewith.

6. **Termination Of Employment.** The parties acknowledge that Executive's employment relationship with the Company will at all times be at-will. Either Executive or the Company may terminate the employment relationship for any reason whatsoever at any time, with or without cause or advance notice. The provisions in this Section govern the amount of compensation, if any, to be provided to Executive upon termination of employment and do not alter this at-will status.

6.1 Termination by the Company without Cause (not in connection with a Change in Control).

(a) The Company shall have the right to terminate Executive's employment with the Company pursuant to this Section 6.1 at any time without "Cause" (as defined below) by giving notice as described in Section 7.1 of this Agreement. A termination pursuant to Sections 6.5 or 6.6 below is not a termination without Cause for purposes of receiving the benefits described in this Section 6.1.

(b) If the Company terminates Executive's employment at any time without Cause, then Executive shall be entitled to receive the Accrued Obligations (as defined below), and provided that such termination constitutes a "separation from service" (as defined under Treasury Regulation Section 1.409A-1(h), without regard to any alternative definition thereunder, a "***Separation from Service***") and subject to Executive's compliance with the obligations in Section 6.1(c) below, Executive shall also be eligible to receive the following severance benefits (the "***Severance Benefits***"):

(i) The Company will pay Executive an amount equal to the sum of (A) Executive's then current Base Salary for **nine (9) months**, plus (B) **75%** of Executive's Target Bonus for the year in which Executive's termination hereunder occurs, less all applicable withholdings and deductions, in a lump sum on the Company's second regularly-scheduled payroll date following the Release Effective Date (as defined below).

(ii) If Executive timely elects continued coverage under COBRA for Executive and Executive's dependents under the Company's group health plans following such termination, then the Company shall reimburse Executive for the cost of the COBRA premiums necessary to continue Executive's and his/her covered dependents' health insurance coverage in effect on the termination date until the earliest of: (i) **twelve (12) months** following the Separation from Service; (ii) the date when Executive becomes eligible for substantially equivalent health insurance coverage in connection with new employment or self-employment; or (iii) the date Executive ceases to be eligible for COBRA continuation coverage for any reason, including plan termination (such period from the termination date through the earlier of (i)-(iii), (the "***COBRA Payment Period***"). To receive this reimbursement, Executive will be required to remit timely payment of each COBRA premium during the COBRA Payment Period to the Company or its designee and present proof of payment within ten (10) days. The Company will then process the reimbursement to Executive in accordance with its ordinary expense reimbursement policies. Notwithstanding the foregoing, the Company may in its discretion pay COBRA premiums directly to the applicable carrier or pay Executive on the last day of each remaining month of the COBRA Payment Period, a fully taxable cash payment equal to the COBRA premium for such month, subject to applicable tax withholding, for the remainder of the COBRA Payment Period (the "***Special COBRA Payments***"). The Company may also in its discretion pay the Special COBRA Payments for the remainder of the COBRA Payment Period in one fully taxable lump sum as opposed to monthly installments. Nothing in this Agreement shall deprive Executive of his/her rights under COBRA or ERISA for benefits under plans and policies arising under his/her employment by the Company.

(iii) Effective as of the date of termination hereunder, the vesting and exercisability of all outstanding unvested Company equity awards that are held by Executive as of immediately prior to the termination date and which are scheduled to vest and become exercisable under a time-based schedule shall be modified so that any unvested shares scheduled to vest during the **nine (9) month** period following Executive's termination date shall be deemed immediately vested and exercisable as of Executive's termination date (and, for clarity, if any unvested equity award is in the form of restricted stock where the unvested shares are subject to a share reacquisition or repurchase right on behalf of the Company upon Executive's termination from employment or service (*e.g.*, at the lower of the stock's fair market value or the original purchase price), such unvested share reacquisition or repurchase right will lapse as to the shares of stock that otherwise are scheduled or are eligible to vest following Executive's termination date).

(c) Executive will be paid all of the Accrued Obligations on the Company's first payroll date after Executive's date of termination from employment or earlier if required by law. Executive shall receive the Severance Benefits pursuant to Section 6.1(b) of this Agreement if: (i) by the sixtieth (60th) day following the date of Executive's Separation from Service, Executive has signed and delivered to the Company a separation agreement containing (among other terms) an effective, general release of claims in favor of the Company and its affiliates and representatives, in a form presented by the Company (the "***Release***") and which cannot be revoked in whole or part by such date (the date that the Release can no longer be revoked is referred to as the "***Release Effective Date***"); (ii) if Executive holds any other positions with the Company or any Affiliate, including a position on the Board, Executive resigns such position(s) to be effective no later than the date of Executive's termination date (or such other date as requested by the Board); (iii) Executive returns all Company property; (iv) Executive is in compliance with his/her post-termination obligations under this Agreement and the Proprietary Information Agreement when any such Severance Benefits are due and payable; and (v) Executive complies with the terms of the Release, including without limitation any mutual non-disparagement and confidentiality provisions contained in the Release. To the extent that any of the Severance Benefits are deferred compensation under Section 409A of the Code, and are not otherwise exempt from the application of Section 409A, then, if the period during which Executive may consider and sign the Release spans two calendar years, the payment of the Severance Benefits will not be made or begin until the later calendar year.

(d) For purposes of this Agreement, "***Accrued Obligations***" are (i) Executive's accrued but unpaid salary through the date of termination, (ii) Executive's accrued but unused vacation time through the date of termination, (iii) any unreimbursed business expenses incurred by Executive payable in accordance with the Company's standard expense reimbursement policies, and (iv) benefits owed to Executive under any qualified retirement plan or health and welfare benefit plan in which Executive was a participant in accordance with applicable law and the provisions of such plan.

(e) The Severance Benefits provided to Executive pursuant to this Section 6.1 are in lieu of, and not in addition to, any benefits to which Executive may otherwise be entitled under any Company severance plan, policy or program.

(f) Any damages caused by the termination of Executive's employment without Cause would be difficult to ascertain; therefore, the Severance Benefits for which Executive is eligible pursuant to Section 6.1(b) above in exchange for the Release is agreed to by the parties as liquidated damages, to serve as full compensation, and not a penalty.

(g) For purposes of this Agreement, the term "***Change in Control***" shall have the meaning set forth in the Plan.

6.2 Resignation by Executive for Good Reason (not in connection with a Change in Control).

(a) Provided Executive has not previously been notified of the Company's intention to terminate Executive's employment, Executive may resign from employment with the Company for Good Reason (as defined in Section 6.2(b) below).

(b) "***Good Reason***" for purposes of this Agreement shall mean the occurrence of any of the following conditions without Executive's consent, after Executive's provision of written notice to the Company of the existence of such condition (which notice must be provided as described in Section 7.1 within thirty (30) days of the initial existence of the condition and must specify the particular condition in reasonable detail), provided that the Company has not first provided notice to Executive of its intent to terminate Executive's employment: (i) a material reduction in Executive's duties, responsibilities or authorities; (ii) a material (greater than 10%) reduction by the Company of Executive's Base Salary (except in the case of either an across-the-board reduction in salaries or a temporary reduction due to financial exigency, in either case, not to exceed six (6) months); (iii) the relocation by the Company of Executive's principal place of employment by fifty (50) or more miles from Executive's then-current principal place of employment; or (iv) the Company requiring Executive to violate applicable law or established professional ethics rules in the performance of Executive's duties hereunder. Notwithstanding the foregoing, Good Reason shall only exist if the Company is provided a thirty (30) day period to cure the event or condition giving rise to Good Reason, and it fails to do so within that cure period (and, additionally, Executive must resign for such Good Reason condition by giving notice as described in Section 7.1 within thirty (30) days after the period for curing the violation or condition has ended).

(c) In the event Executive resigns for Good Reason from Executive's employment, then Executive shall be entitled to the Accrued Obligations and, provided such resignation constitutes a Separation from Service, and Executive complies with the obligations in Section 6.1(c) of this Agreement (including the requirement to provide an effective Release), Executive shall also be eligible to receive the same Severance Benefits as described in Section 6.1 and on the same conditions as if Executive had been terminated by the Company without Cause.

6.3 Termination by the Company without Cause or Resignation by Executive for Good Reason in Connection with a Change in Control.

(a) In the event that the Company terminates Executive's employment without Cause (as defined below) or Executive resigns for Good Reason within three (3) months before or twelve (12) months following the effective date of a Change in Control ("***Change in Control Termination Date***"), then Executive shall be entitled to the Accrued Obligations and, subject to Executive's compliance with Section 6.1(c), including but not limited to the Release requirement and Executive's continued compliance with Executive's obligations to the Company under Executive's Confidential Information Agreement, then Executive will be eligible for the following "***Change in Control Severance Benefits***:"

(i) The Company will pay Executive an amount equal to the sum of (A) Executive's then current Base Salary for **twelve (12) months**, plus (B) **100%** of Executive's Target Bonus for the year in which Executive's termination hereunder occurs, less all applicable withholdings and deductions, in a lump sum payment upon the Company's second regularly-scheduled payroll date following the Release Effective Date (as defined below).

(ii) If Executive timely elects continued coverage under COBRA for Executive and Executive's dependents under the Company's group health plans following such termination, then the Company shall reimburse Executive for the cost of the COBRA premiums necessary to continue Executive's and his/her covered dependents' health insurance coverage in effect on the termination date until the earliest of: (i) **eighteen (18) months** following the Change in Control Termination Date; (ii) the date when Executive becomes eligible for substantially equivalent health insurance coverage in connection with new employment or self-employment; or (iii) the date Executive ceases to be eligible for COBRA continuation coverage for any reason, including plan termination (such period from the termination date through the earlier of (i)-(iii), (the "***CIC COBRA Payment Period***"). To receive this reimbursement, Executive will be required to remit timely payment of each COBRA premium during the CIC COBRA Payment Period to the Company or its designee and present proof of payment within ten (10) days. The Company will then process the reimbursement to Executive in accordance with its ordinary expense reimbursement policies. Notwithstanding the foregoing, the Company may in its discretion pay COBRA premiums directly to the applicable carrier or pay Executive on the last day of each remaining month of the CIC COBRA Payment Period, a fully taxable cash payment equal to the COBRA premium for such month, subject to applicable tax withholding, for the remainder of the CIC COBRA Payment Period (the "***Special CIC COBRA Payments***"). The Company may also in its discretion pay the Special CIC COBRA Payments for the remainder of the CIC COBRA Payment Period in one fully taxable lump sum as opposed to monthly installments. Nothing in this Agreement shall deprive Executive of his/her rights under COBRA or ERISA for benefits under plans and policies arising under his/her employment by the Company.

(iii) Effective as of Executive's Change in Control Termination Date, and provided that Company equity awards have been continued, assumed or substituted for by the Company and/or the acquiror (or any affiliate of the acquiror) in connection with such Change in Control transaction, the vesting and exercisability of all outstanding unvested Company equity awards that are held by Executive as of immediately prior to the Change in Control Termination Date and which are scheduled to vest and become exercisable under a time-based or performance based schedule shall be deemed immediately vested and exercisable as of Executive's termination date (and, for clarity, if any unvested equity award is in the form of restricted stock where the unvested shares are subject to a share reacquisition or repurchase right on behalf of the Company upon Executive's termination from employment or service (*e.g.*, at the lower of the stock's fair market value or the original purchase price), such unvested share reacquisition or repurchase right will lapse as to the shares of stock that otherwise are scheduled or are eligible to vest following the Change in Control Termination Date).

6.4 Termination by the Company for Cause.

(a) The Company shall have the right to terminate Executive's employment with the Company at any time for Cause by giving notice as described in Section 7.1 of this Agreement.

(b) "***Cause***" for purposes of this Agreement shall mean that the Company has determined in its sole discretion that Executive has engaged in any of the following: (i) a material breach of any covenant or condition under this Agreement or any other agreement between the Company and Executive; (ii) any act constituting dishonesty, fraud, immoral or disreputable conduct which causes or is reasonably likely to cause material harm to the Company, its business or its reputation; (iii) any conduct which constitutes a felony under applicable law; (iv) material violation of any Company policy or any act of misconduct; (v) repeated refusal to follow or implement a clear reasonable and lawful directive of Company; (vi) negligence or incompetence in the performance of Executive's duties or failure to perform such duties in a manner satisfactory to the Company after the expiration of thirty (30) days without cure, to the extent curable, after written notice of such failure; (vii) failure to pass to the satisfaction of the Company, a preliminary background check or failure to submit proof of legal eligibility to work in the United States; or (viii) breach of fiduciary duty.

(c) In the event Executive's employment is terminated at any time for Cause, Executive will not receive Severance Benefits, Change in Control Severance Benefits, or any other compensation or benefits, except that, pursuant to the Company's standard payroll policies, the Company shall provide to Executive the Accrued Obligations.

6.5 Resignation by Executive (other than for Good Reason).

(a) Executive may resign from Executive's employment with the Company at any time by giving notice as described in Section 7.1.

(b) In the event Executive resigns from Executive's employment with the Company (other than for Good Reason), Executive will not receive Severance Benefits, Change in Control Severance Benefits, or any other compensation or benefits, except that, pursuant to the Company's standard payroll policies, the Company shall provide to Executive the Accrued Obligations.

6.6 Termination by Virtue of Death or Disability of Executive.

(a) In the event of Executive's death while employed pursuant to this Agreement, all obligations of the parties hereunder shall terminate immediately, and the Company shall, pursuant to the Company's standard payroll policies, provide to Executive's legal representatives all Accrued Obligations.

(b) Subject to applicable state and federal law, the Company shall at all times have the right, upon written notice to Executive, to terminate this Agreement based on Executive's Disability. Termination by the Company of Executive's employment based on "***Disability***" shall mean termination because Executive is unable due to a physical or mental condition to perform the essential functions of Executive's position with or without reasonable accommodation for six (6) months in the aggregate during any twelve (12) month period or based on the written certification by two licensed physicians of the likely continuation of such condition for such period. This definition shall be interpreted and applied consistent with the Americans with Disabilities Act, the Family and Medical Leave Act, and other applicable law. In the event Executive's employment is terminated based on Executive's Disability, Executive will not receive the Severance Benefits, Change in Control Severance Benefits, or any other severance compensation or benefit, except that, pursuant to the Company's standard payroll policies, the Company shall provide to Executive the Accrued Obligations.

6.7 Application of Section 409A. It is intended that all of the severance payments payable under this Agreement satisfy, to the greatest extent possible, the exemptions from the application of Section 409A of the Code and the regulations and other guidance thereunder and any state law of similar effect (collectively, "***Section 409A***") provided under Treasury Regulations Sections 1.409A-1(b)(4) and 1.409A-1(b)(9), and this Agreement will be construed in a manner that complies with Section 409A. If not so exempt, this Agreement (and any definitions hereunder) will be construed in a manner that complies with Section 409A, and incorporates by reference all required definitions and payment terms. No severance payments will be made under this Agreement unless Executive's termination of employment constitutes a "separation from service" (as defined under Treasury Regulation Section 1.409A-1(h)). For purposes of Section 409A (including, without limitation, for purposes of Treasury Regulations Section 1.409A-2(b)(2)(iii)), Executive's right to receive any installment payments under this Agreement (whether severance payments or otherwise) shall be treated as a right to receive a series of separate payments and, accordingly, each installment payment hereunder shall at all times be considered a separate and distinct payment. To the extent that any severance payments are deferred compensation under Section 409A, and are not otherwise exempt from the application of Section 409A, then, if the period during which Executive may consider and sign the Release spans two calendar years, the severance payments will not begin until the second calendar year. If the Company determines that the Severance Benefits or Change in Control Severance Benefits provided under this Agreement constitutes "deferred compensation" under Section 409A and if Executive is a "specified Executive" of the Company, as such term is defined in Section 409A(a)(2)(B)(i) of the Code at the time of Executive's Separation from Service, then, solely to the extent necessary to avoid the incurrence of the adverse personal tax consequences under Section 409A, the timing of the Severance will be delayed as follows: on the earlier to occur of (a) the date that is six months and one day after Executive's Separation from Service, and (b) the date of Executive's death (such earlier date, the "***Delayed Initial Payment Date***"), the Company will (i) pay to Executive a lump sum amount equal to the sum of the Severance Benefits or Change in Control Severance Benefits that Executive would otherwise have received through the Delayed Initial Payment Date if the commencement of the payment of the Severance Benefits or Change in Control Severance Benefits had not been delayed pursuant to this Section 6.7 and (ii) commence paying the balance of the Severance Benefits or Change in Control Severance Benefits in accordance with the applicable payment schedule set forth in Section 6.1. No interest shall be due on any amounts deferred pursuant to this Section 6.7.

6.8 Notice; Effective Date of Termination.

(a) Termination of Executive's employment pursuant to this Agreement shall be effective on the earliest of:

(i) immediately after the Company gives notice to Executive of Executive's termination, with or without Cause, unless pursuant to Section 6.4(b)(vi) in which case thirty (30) days after notice if not cured or unless the Company specifies a later date, in which case, termination shall be effective as of such later date;

(ii) immediately upon Executive's death;

(iii) ten (10) days after the Company gives notice to Executive of Executive's termination on account of Executive's Disability, unless the Company specifies a later date, in which case, termination shall be effective as of such later date, *provided* that Executive has not returned to the full-time performance of Executive's duties prior to such date;

(iv) ten (10) days after Executive gives written notice to the Company of Executive's resignation not for Good Reason, *provided* that the Company may set a termination date at any time between the date of notice and the date of resignation, in which case Executive's resignation shall be effective as of such other date. Executive will receive compensation through any required notice period; or

(v) for a termination for Good Reason under Section 6.2(b), immediately upon Executive's full satisfaction of the requirements of Section 6.2(b).

(b) In the event notice of a termination under subsections (a)(i) and (iii) is given orally, at the other party's request, the party giving notice must provide written confirmation of such notice within five (5) business days of the request in compliance with the requirement of Section 7.1 below. In the event of a termination for Cause, written confirmation shall specify the subsection(s) of the definition of Cause relied on to support the decision to terminate.

6.9 Cooperation With Company After Termination of Employment. Following termination of Executive's employment for any reason, Executive shall fully cooperate with the Company in all matters relating to the winding up of Executive's pending work including, but not limited to, any litigation in which the Company is involved, and the orderly transfer of any such pending work to such other executives as may be designated by the Company. The Company will reimburse Executive for reasonable out-of-pocket expenses Executive incurs in connection with any such cooperation (excluding forgone wages, salary, or other compensation) and will make reasonable efforts to accommodate Executive's scheduling needs. The Parties further agree that no cooperation under this Section 6.9 shall be required after the six (6)-month anniversary of Executive's termination date and any cooperation hereunder in excess of ten (10) hours per month after the one (1)-month anniversary of Executive's termination date shall be compensated at an hourly cash rate to be agreed upon by Executive and the Company after the termination date.

6.10 Excise Tax Adjustment.

(a) If any payment or benefit Executive will or may receive from the Company or otherwise (a "***280G Payment***") would (i) constitute a "parachute payment" within the meaning of Section 280G of the Code, and (ii) but for this Section, be subject to the excise tax imposed by Section 4999 of the Code (the "***Excise Tax***"), then any such 280G Payment provided pursuant to this Agreement (a "***Payment***") shall be equal to the Reduced Amount. The "*Reduced Amount*" shall be either (x) the largest portion of the Payment that would result in no portion of the Payment (after reduction) being subject to the Excise Tax, or (y) the largest portion, up to and including the total, of the Payment, whichever amount (i.e., the amount determined by clause (x) or by clause (y)), after taking into account all applicable federal, state, and local employment taxes, income taxes, and the Excise Tax (all computed at the highest applicable marginal rate), results in Executive's receipt, on an after-tax basis, of the greater economic benefit notwithstanding that all or some portion of the Payment may be subject to the Excise Tax. If a reduction in a Payment is required pursuant to the preceding sentence and the Reduced Amount is determined pursuant to clause (x) of the preceding sentence, the reduction shall occur in the manner (the "***Reduction Method***") that results in the greatest economic benefit for Executive. If more than one method of reduction will result in the same economic benefit, the items so reduced will be reduced pro rata (the "***Pro Rata Reduction Method***").

(b) Notwithstanding any provision of this Section 6.10 to the contrary, if the Reduction Method or the Pro Rata Reduction Method would result in any portion of the Payment being subject to taxes pursuant to Section 409A that would not otherwise be subject to taxes pursuant to Section 409A, then the Reduction Method and/or the Pro Rata Reduction Method, as the case may be, shall be modified so as to avoid the imposition of taxes pursuant to Section 409A as follows: (A) as a first priority, the modification shall preserve to the greatest extent possible, the greatest economic benefit for Executive as determined on an after-tax basis; (B) as a second priority, Payments that are contingent on future events (*e.g.*, being terminated without Cause) shall be reduced (or eliminated) before Payments that are not contingent on future events; and (C) as a third priority, Payments that are "deferred compensation" within the meaning of Section 409A shall be reduced (or eliminated) before Payments that are not deferred compensation within the meaning of Section 409A.

(c) Unless Executive and the Company agree on an alternative accounting firm or law firm, the accounting firm engaged by the Company for general tax compliance purposes as of the day prior to the effective date of the Change in Control transaction shall perform the foregoing calculations. If the accounting firm so engaged by the Company is serving as accountant or auditor for the individual, entity, or group effecting the Change in Control transaction, the Company shall appoint a nationally recognized accounting or law firm to make the determinations required by this Section 6.10. The Company shall bear all expenses with respect to the determinations by such accounting or law firm required to be made hereunder. The Company shall use commercially reasonable efforts to cause the accounting or law firm engaged to make the determinations hereunder to provide its calculations, together with detailed supporting documentation, to Executive and the Company within fifteen (15) calendar days after the date on which Executive's right to a 280G Payment becomes reasonably likely to occur (if requested at that time by Executive or the Company) or such other time as requested by Executive or the Company.

(d) If Executive receives a Payment for which the Reduced Amount was determined pursuant to clause (x) of Section 6.10(a) and the Internal Revenue Service determines thereafter that some portion of the Payment is subject to the Excise Tax, Executive agrees to promptly return to the Company a sufficient amount of the Payment (after reduction pursuant to clause (x) of Section 6.10(a)) so that no portion of the remaining Payment is subject to the Excise Tax. For the avoidance of doubt, if the Reduced Amount was determined pursuant to clause (y) of Section 6.10(a), Executive shall have no obligation to return any portion of the Payment pursuant to the preceding sentence.

7. General Provisions.

7.1 Notices. Any notices required hereunder to be in writing shall be deemed effectively given: (a) upon personal delivery to the party to be notified, (b) when sent by electronic mail or confirmed facsimile if sent during normal business hours of the recipient, and if not, then on the next business day, (c) five (5) days after having been sent by registered or certified mail, return receipt requested, postage prepaid, or (d) one (1) day after deposit with a nationally recognized overnight courier, specifying next-day delivery, with written verification of receipt. All communications shall be sent to the Company at its primary office location and to Executive at Executive's address as listed on the Company payroll or to Executive's Company-issued email address or Executive's email address as listed in Company records, or at such other address as the Company or Executive may designate by ten (10) days' advance written notice to the other.

7.2 Severability. Whenever possible, each provision of this Agreement will be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Agreement is held to be invalid, illegal or unenforceable in any respect under any applicable law or rule in any jurisdiction, such invalidity, illegality or unenforceability will not affect any other provision or any other jurisdiction, but this Agreement will be reformed, construed and enforced in such jurisdiction as if such invalid, illegal or unenforceable provisions had never been contained herein.

7.3 Survival. Provisions of this Agreement which by their terms must survive the termination of this Agreement in order to effectuate the intent of the parties will survive any such termination, whether by expiration of the term, termination of Executive's employment, or otherwise, for such period as may be appropriate under the circumstances.

7.4 Waiver. If either party should waive any breach of any provisions of this Agreement, it shall not thereby be deemed to have waived any preceding or succeeding breach of the same or any other provision of this Agreement.

7.5 Complete Agreement. This Agreement constitutes the entire agreement between Executive and the Company with regard to the subject matter hereof. This Agreement is the complete, final, and exclusive embodiment of their agreement with regard to this subject matter and supersedes any prior oral discussions or written communications and agreements. This Agreement is entered into without reliance on any promise or representation other than those expressly contained herein, and it cannot be modified or amended except in writing signed by Executive and an authorized officer of the Company. The parties will enter into a separate Confidential Information Agreement and may enter into separate agreements related to equity. These separate agreements govern other aspects of the relationship between the parties, have or may have provisions that survive termination of Executive's employment under this Agreement, may be amended or superseded by the parties without regard to this Agreement and are enforceable according to their terms without regard to the enforcement provision of this Agreement.

7.6 Counterparts. This Agreement may be executed in separate counterparts, any one of which need not contain signatures of more than one party, but all of which taken together will constitute one and the same Agreement.

7.7 Headings. The headings of the sections hereof are inserted for convenience only and shall not be deemed to constitute a part hereof nor to affect the meaning thereof.

7.8 Successors and Assigns. The Company shall assign this Agreement and its rights and obligations hereunder in whole, but not in part, to any Company or other entity with or into which the Company may hereafter merge or consolidate or to which the Company may transfer all or substantially all of its assets, if in any such case said Company or other entity shall by operation of law or expressly in writing assume all obligations of the Company hereunder as fully as if it had been originally made a party hereto, but may not otherwise assign this Agreement or its rights and obligations hereunder. The Executive may not assign or transfer this Agreement or any rights or obligations hereunder, other than to the Executive's estate upon Executive's death.

7.9 Choice of Law. All questions concerning the construction, validity and interpretation of this Agreement will be governed by the laws of the State of California.

7.10 Resolution of Disputes. To ensure the rapid and economical resolution of disputes that may arise in connection with Executive's continued employment with the Company, Executive and the Company agree that any and all disputes, claims, or causes of action, in law or equity, including but not limited to statutory claims, arising from or relating to the enforcement, breach, performance, or interpretation of this Agreement, Executive's employment with the Company, or the termination of Executive's employment, shall be resolved pursuant to the Federal Arbitration Act, 9 U.S.C. § 1-16, to the fullest extent permitted by law, by final, binding and confidential arbitration conducted by JAMS or its successor, under JAMS' then applicable rules and procedures appropriate to the relief being sought (available upon request and also currently available at the following web addresses: (i) https://www.jamsadr.com/rules-employment-arbitration/ and (ii) https://www.jamsadr.com/rules-comprehensive-arbitration/). **Executive acknowledges that by agreeing to this arbitration procedure, both Executive and the Company waive the right to resolve any such dispute through a trial by jury or judge or administrative proceeding.** In addition, all claims, disputes, or causes of action under this Section, whether by Executive or the Company, must be brought in an individual capacity, and shall not be brought as a plaintiff (or claimant) or class member in any purported class or representative proceeding, nor joined or consolidated with the claims of any other person or entity. The arbitrator may not consolidate the claims of more than one person or entity, and may not preside over any form of representative or class proceeding. To the extent that the preceding sentences regarding class claims or proceedings are found to violate applicable law or are otherwise found unenforceable, any claim(s) alleged or brought on behalf of a class shall proceed in a court of law rather than by arbitration. This Section shall not apply to any action or claim that cannot be subject to mandatory arbitration as a matter of law, including, without limitation, **claims brought pursuant to the California Private Attorneys General Act of 2004, as amended, the California Fair Employment and Housing Act, as amended, and the California Labor Code, as amended, or** claims alleging sexual harassment or a nonconsensual sexual action or sexual contact, to the extent such claims are not permitted by applicable law(s) to be submitted to mandatory arbitration and the applicable law(s) are not preempted by the Federal Arbitration Act or otherwise invalid (collectively, the "***Excluded Claims***"). In the event Executive intends to bring multiple claims, including one of the Excluded Claims listed above, the Excluded Claims may be filed with a court, while any other claims will remain subject to mandatory arbitration. Executive will have the right to be represented by legal counsel at any arbitration proceeding. Questions of whether a claim is subject to arbitration under this Agreement shall be decided by the arbitrator. Likewise, procedural questions which grow out of the dispute and bear on the final disposition are also matters for the arbitrator. The arbitrator shall: (a) have the authority to compel adequate discovery for the resolution of the dispute and to award such relief as would otherwise be permitted by law; and (b) issue a written statement signed by the arbitrator regarding the disposition of each claim and the relief, if any, awarded as to each claim, the reasons for the award, and the arbitrator's essential findings and conclusions on which the award is based. The arbitrator shall be authorized to award all relief that Executive or the Company would be entitled to seek in a court of law. Executive and the Company shall equally share all JAMS' arbitration fees, or such fees shall be paid in such other manner to the extent required by, and in accordance with, applicable law to effectuate Executive's and the Company's agreement to arbitrate. To the extent JAMS does not collect or Executive otherwise does not pay to JAMS an equal share of all JAMS' arbitration fees for any reason, and the Company pays JAMS Executive's share, Executive acknowledges and agrees that the Company shall be entitled to recover from Executive half of the JAMS arbitration fees invoiced to the parties (less any amounts Executive paid to JAMS) in a federal or state court of competent jurisdiction. Each party is responsible for its own attorneys' fees, except as expressly set forth in the Confidential Information Agreement. Nothing in this Agreement is intended to prevent either Executive or the Company from obtaining injunctive relief in court to prevent irreparable harm pending the conclusion of any such arbitration. Any awards or orders in such arbitrations may be entered and enforced as judgments in the federal and state courts of any competent jurisdiction.

While on the Client's premises, Consultant agrees to comply with Client's then-current access rules and procedures, including those related to safety, security and confidentiality. Consultant agrees and acknowledges that Consultant has no expectation of privacy with respect to Client's telecommunications, networking or information processing systems (including stored computer files, email messages and voice messages) and that Consultant's activities, including the sending or receiving of any files or messages, on or using those systems may be monitored, and the contents of such files and messages may be reviewed and disclosed, at any time, without notice.

2. Compensation. Client will pay Consultant the fee set forth in each Project Assignment for Services rendered pursuant to this Agreement as Consultant's sole compensation for such Services. Consultant will be reimbursed only for expenses that are expressly provided for in a Project Assignment or that have been approved in advance in writing by Client, provided Consultant has furnished such documentation for authorized expenses as Client may reasonably request. Payment of Consultant's fees and expenses will be in accordance with the applicable Project Assignment. Upon termination of this Agreement for any reason, Consultant will be paid fees on the basis stated in the Project Assignment(s) for work that has been completed. Unless otherwise provided in a Project Assignment, payment to Consultant of undisputed fees will be due 30 days following Client's receipt of an invoice that contains accurate records of the work performed that are sufficient to substantiate the invoiced fees.

3. Ownership of Work Product. Consultant hereby irrevocably assigns to Client all right, title and interest worldwide in and to any deliverables specified in a Project Assignment and to any ideas, concepts, processes, discoveries, inventions, developments, formulae, information, materials, improvements, designs, artwork, content, software programs, other works of authorship, and any other work product created, conceived or developed by Consultant (whether alone or jointly with others) for Client during or before the term of this Agreement, including all copyrights, patents, trademarks, trade secrets, and other intellectual property rights therein (including all rights to priority and rights to file patent applications and/or registered designs) (collectively, the "***Work Product***"). Consultant retains no rights to use the Work Product and agrees not to challenge the validity of Client's ownership of, or intellectual property rights in, the Work Product. Consultant agrees to execute, at Client's request and expense, all documents and other instruments necessary or desirable to confirm such assignment, including without limitation, any copyright assignment or patent assignment provided by the Client. Consultant hereby irrevocably appoints Client as Consultant's attorney-in-fact for the purpose of executing such documents on Consultant's behalf, which appointment is coupled with an interest. At Client's request, Consultant will promptly record any such patent assignment with the United States Patent and Trademark Office. Client will reimburse Consultant for any reasonable out-of-pocket expenses actually incurred by Consultant in fulfilling its obligations under this section. Consultant will deliver each item of Work Product specified in each Project Assignment and disclose promptly in writing to Client all other Work Product.

4. Other Rights. If Consultant has any rights, including without limitation "artist's rights" or "moral rights," in the Work Product that cannot be assigned, Consultant hereby unconditionally and irrevocably grants to Client an exclusive (even as to Consultant), worldwide, fully paid and royalty-free, irrevocable, perpetual license, with rights to sublicense through multiple tiers of sublicensees, to use, reproduce, distribute, create derivative works of, publicly perform and publicly display the Work Product in any medium or format, whether now known or later developed. In the event that Consultant has any rights in the Work Product that cannot be assigned or licensed, Consultant unconditionally and irrevocably waives the enforcement of such rights, and all claims and causes of action of any kind against Client or Client's customers and channel partners.

5. License to Preexisting IP. Consultant agrees not to use or incorporate into Work Product any intellectual property developed by any third party or by Consultant other than in the course of performing services for Client ("***Preexisting IP***") unless the Preexisting IP has been specifically identified and described in the applicable Project Assignment. In the event Consultant uses or incorporates Preexisting IP into Work Product, Consultant hereby grants to Client a non-exclusive, worldwide, fully-paid and royalty-free, irrevocable, perpetual license, with the right to sublicense through multiple tiers of sublicensees, to use, reproduce, distribute, digitally transmit, create derivative works of, publicly perform and publicly display in any medium or format, whether now known or later developed, such Preexisting IP incorporated or used in Work Product.

6. Representations and Warranties. Consultant represents and warrants that: (a) the Services will be performed in a professional manner and in accordance with the industry standards and the Work Product will comply with the requirements and specifications set forth in the applicable Project Assignment, (b) the Work Product will be an original work of Consultant, (c) Consultant has the right and unrestricted ability to assign the ownership of Work Product to Client as set forth in Section 3 (including without limitation the right to assign the ownership of any Work Product created by Consultant's employees or contractors), (d) neither the Work Product nor any element thereof will infringe upon or misappropriate any copyright, patent, trademark, trade secret, right of publicity or privacy, or any other proprietary right of any person, whether contractual, statutory or common law, (e) Consultant has an unqualified right to grant to Client the license to Preexisting IP set forth in Section 5, (f) none of the Work Product incorporates any software code licensed under the GNU General Public License, Lesser General Public License, Affero General Public License, "copyleft" license or any other license that, by its terms, requires or conditions the use or distribution of such code on the disclosure, licensing, or distribution of any source code owned or licensed by Client, except as expressly agreed by the Client in writing, and (g) Consultant will comply with all applicable federal, state, local and foreign laws governing self-employed individuals, including laws requiring the payment of taxes, such as income and employment taxes, and social security, disability, and other contributions. Consultant further represents and warrants that Consultant is self-employed in an independently established trade, occupation, or business; maintains and operates a business that is separate and independent from Client's business; holds themself out to the public as independently competent and available to provide applicable services similar to the Services; has obtained and/or expects to obtain clients or customers other than Client for whom Consultant performs services; and will perform work for Client that Consultant understands is outside the usual course of Client's business. Consultant agrees to indemnify and hold Client harmless from any and all damages, costs, claims, expenses or other liability (including reasonable attorneys' fees) arising from or relating to the breach or alleged breach by Consultant of this Agreement, including any of the representations and warranties set forth in this Section 6.

7. **b**. Consultant's relationship with Client is that of an independent contractor, and nothing in this Agreement is intended to, or should be construed to, create a partnership, agency, joint venture or employment relationship between Client and any of Consultant's employees or agents. Consultant is not authorized to make any representation, contract or commitment on behalf of Client. Consultant (if Consultant is an individual) and Consultant's employees will not be entitled to any of the benefits that Client may make available to its employees, including, but not limited to, group health or life insurance, profit-sharing or retirement benefits. Because Consultant is an independent contractor, Client will not withhold or make payments for social security, make unemployment insurance or disability insurance contributions, or obtain workers' compensation insurance on behalf of Consultant. Consultant is solely responsible for, and will file, on a timely basis, all tax returns and payments required to be filed with, or made to, any federal, state or local tax authority with respect to the performance of Services and receipt of fees under this Agreement. Consultant is solely responsible for, and must maintain adequate records of, expenses incurred in the course of performing Services under this Agreement. No part of Consultant's compensation will be subject to withholding by Client for the payment of any social security, federal, state or any other employee payroll taxes. Client will regularly report amounts paid to Consultant by filing Form 1099-NEC with the Internal Revenue Service as required by law. If, notwithstanding the foregoing, Consultant is reclassified as an employee of Client, or any affiliate of Client, by the U.S. Internal Revenue Service, the U.S. Department of Labor, or any other federal or state or foreign agency as the result of any administrative or judicial proceeding, Consultant agrees that Consultant will not, as the result of such reclassification, be entitled to or eligible for, on either a prospective or retrospective basis, any employee benefits under any plans or programs established or maintained by Client.

8. **Confidential Information**. During the term of this Agreement and thereafter Consultant (i) will not use or permit the use of Client's Confidential Information in any manner or for any purpose not expressly set forth in this Agreement, (ii) will hold such Confidential Information in confidence and protect it from unauthorized use and disclosure, and (iii) will not disclose such Confidential Information to any third parties except as set forth in this section and in Section 9 below. Consultant will protect Client's Confidential Information from accidental loss and unauthorized use, access or disclosure in the same manner as Consultant protects its own confidential information of a similar nature, but in no event will it exercise less than reasonable care. Notwithstanding the foregoing or anything to the contrary in this Agreement or any other agreement between Client and Consultant, nothing in this Agreement shall limit Consultant's right to report possible violations of law or regulation with any federal, state, or local government agency. "***Confidential Information***" as used in this Agreement means all information disclosed by Client to Consultant, whether during or before the term of this Agreement, that is not generally known in the Client's trade or industry and will include, without limitation: (a) concepts and ideas relating to the development and distribution of content in any medium or to the current, future and proposed products or services of Client or its subsidiaries or affiliates; (b) trade secrets, drawings, inventions, know-how, software programs, and software source documents; (c) information regarding plans for research, development, new service offerings or products, marketing and selling, business plans, business forecasts, budgets and unpublished financial statements, licenses and distribution arrangements, prices and costs, suppliers and customers; (d) existence of any business discussions, negotiations or agreements between the parties; and (e) any information regarding the skills and compensation of employees, contractors or other agents of Client or its subsidiaries or affiliates. Confidential Information also includes proprietary or confidential information of any third party who may disclose such information to Client or Consultant in the course of Client's business. Confidential Information does not include information that (x) is or becomes a part of the public domain through no act or omission of Consultant, (y) is disclosed to Consultant by a third party without restrictions on disclosure, or (z) was in Consultant's lawful possession without obligation of confidentiality prior to the disclosure and was not obtained by Consultant either directly or indirectly from Client. In addition, this section will not be construed to prohibit disclosure of Confidential Information to the extent that such disclosure is required by law or valid order of a court or other governmental authority; *provided, however*, that Consultant will first have given notice to Client and will have made a reasonable effort to obtain a protective order requiring that the Confidential Information so disclosed be used only for the purposes for which the order was issued. All Confidential Information furnished to Consultant by Client is the sole and exclusive property of Client or its suppliers or customers. Upon request by Client, Consultant agrees to promptly deliver to Client the original and any copies of the Confidential Information. Notwithstanding the foregoing nondisclosure obligations, pursuant to 18 U.S.C. Section 1833(b), Consultant will not be held criminally or civilly liable under any federal or state trade secret law for the disclosure of a trade secret that is made: (1) in confidence to a federal, state, or local government official, either directly or indirectly, or to an attorney, and solely for the purpose of reporting or investigating a suspected violation of law; or (2) in a complaint or other document filed in a lawsuit or other proceeding, if such filing is made under seal.

8.1 Personal Information. With respect to any information that Consultant collects, receives, stores, processes, generates, uses, transfers, discloses, makes accessible, protects, secures, disposes of, and transmits (collectively, processes) in connection with the Services that relates to an identified or identifiable natural person or which otherwise constitutes personal data, personal information, personally identifiable information or similar information under applicable privacy or data security laws (collectively, "***Personal Information***"), Consultant shall not (i) sell or share Personal Information, (ii) retain, use or disclose Personal Information for any purpose other than the business purpose specified in this Agreement, (iii) retain, use, or disclose the Personal Information outside of the direct business relationship between Consultant and Client, or (iv) combine the Personal Information Consultant receives from, or on behalf of, Client with Personal Information that it receives from, or on behalf of, another person or persons, or collects from its own interaction with consumers. For the avoidance of doubt, the foregoing prohibits Consultant from "selling" Personal Information, as defined in the California Consumer Privacy Act of 2018 (as amended, the "***CCPA***"), and from retaining, using, or disclosing Personal Information outside of the direct business relationship between Consultant and Client or for a "commercial purpose" (as defined in the CCPA). Client retains the right to take reasonable and appropriate steps to ensure that Consultant uses the Personal Information transferred in a manner consistent with Client's obligations under the CCPA. Client retains the right to, upon notice, take reasonable and appropriate steps to stop and remediate unauthorized use of Personal Information. Consultant hereby certifies that it understands the obligations under this Section 8.1 and will comply with them, and agrees to notify Client if Consultant is no longer able to meet the obligations under this Section 8.1.

(a) Consultant shall comply with applicable obligations under the CCPA, as amended, and provide the same level of privacy protection as required for Client.

(b) Consultant shall use reasonable security measures appropriate to the nature of any Personal Information in its possession or control to protect the Personal Information from unauthorized access, destruction, use, modification, or disclosure.

(c) The parties acknowledge and agree that Consultant's access to Personal Information is not part of the consideration exchanged by the parties in respect of the Agreement.

(d) If any individual contacts Consultant to make a request pertaining to their Personal Information, Consultant shall promptly forward the request to Client and shall not respond to the individual except as instructed by Client. Consultant shall promptly take such actions and provide such information as Client may request to help Client fulfill requests of individuals to exercise their rights under the applicable privacy or data security laws, including, without limitation, requests to access, delete, opt-out of the sale of, or receive information about the processing of, Personal Information pertaining to them. Consultant agrees to cooperate with Client to further amend the Agreement as may be necessary to address compliance with applicable privacy or data security laws.

9. Consultant's Employees, Consultants and Agents. Consultant shall have the right to disclose Confidential Information only to those of its employees, consultants, and agents who have a need to know such information for the purpose of performing Services and who have entered into a binding written agreement that is expressly for the benefit of Client and protects Client's rights and interests in and to the Confidential Information to at least the same degree as this Agreement. Client reserves the right to refuse or limit Consultant's use of any employee, consultant or agent or to require Consultant to remove any employee, consultant or agent already engaged in the performance of the Services. Client's exercise of such right will in no way limit Consultant's obligations under this Agreement.

10. Term and Termination.

10.1 Term. The initial term of this Agreement is for six (6) months from the Effective Date set forth above, unless earlier terminated as provided in this Agreement. Thereafter, this Agreement will automatically renew for successive six (6) month terms, unless Client provides 15 days' written notice prior to any such anniversary date that the Agreement will not renew.

10.2 Termination Without Cause. Client may terminate this Agreement with or without cause, at any time upon 5 days' prior written notice to Consultant. Consultant may terminate this Agreement without cause, at any time when no Project Assignment is in effect upon 15 days' prior written notice to Client.

10.3 Termination for Cause. Either party may terminate this Agreement immediately in the event the other party has materially breached the Agreement and failed to cure such breach within 3 days after notice by the non-breaching party is given.

10.4 Survival. The rights and obligations contained in Sections 3 ("***Ownership of Work Product***"), 4 ("***Other Rights***"), 5 ("***License to Preexisting IP***"), 6 ("***Representations and Warranties***"), 8 ("***Confidential Information***") and 12 ("***Non-solicitation***") will survive any termination or expiration of this Agreement.

11. No Conflicts. Consultant will refrain from any activity, and will not enter into any agreement or make any commitment, that is inconsistent or incompatible with Consultant's obligations under this Agreement, including Consultant's ability to perform the Services. Consultant represents and warrants that Consultant is not subject to any contract or duty that would be breached by Consultant's entering into or performing Consultant's obligations under this Agreement or that is otherwise inconsistent with this Agreement.

12. Non-solicitation. Consultant agrees that during the Term of this Agreement, and for one year thereafter, Consultant will not either directly or indirectly, solicit or attempt to solicit any employee, independent contractor, or consultant of Client to terminate their relationship with Client in order to become an employee, consultant, or independent contractor to or for any other person or entity.

13. Successors and Assigns. Consultant may not subcontract or otherwise delegate or assign this Agreement or any of its obligations under this Agreement without Client's prior written consent. Any attempted assignment in violation of the foregoing will be null and void. Subject to the foregoing, this Agreement will be for the benefit of Client's successors and assigns, and will be binding on Consultant's assignees.

14. **Notices**. Any notice required or permitted by this Agreement will be in writing and will be delivered as follows with notice deemed given as indicated: (i) by personal delivery when delivered personally; (ii) by overnight courier upon written verification of receipt; (iii) by email (*provided, however*, if the sender receives an automatically generated notification that such email was not delivered, such attempted email notice shall be ineffective and deemed to not have been given); or (iv) by certified or registered mail, return receipt requested, upon verification of receipt. Notice will be sent to the addresses set forth below or such other address as either party may specify in writing.

15. **Governing Law**. This Agreement will be governed in all respects by the laws of the United States of America and by the laws of the State of Delaware, without giving effect to any conflicts of laws principles that require the application of the law of a different jurisdiction.

16. **Severability**. Should any provisions of this Agreement be held by a court of law to be illegal, invalid or unenforceable, the legality, validity and enforceability of the remaining provisions of this Agreement will not be affected or impaired thereby.

17. **Waiver**. The waiver by Client of a breach of any provision of this Agreement by Consultant will not operate or be construed as a waiver of any other or subsequent breach by Consultant.

18. **Injunctive Relief for Breach**. Consultant's obligations under this Agreement are of a unique character that gives them particular value; breach of any of such obligations will result in irreparable and continuing damage to Client for which there will be no adequate remedy at law; and, in the event of such breach, Client will be entitled to injunctive relief and/or a decree for specific performance, and such other and further relief as may be proper (including monetary damages if appropriate).

19. **Entire Agreement**. This Agreement constitutes the entire agreement between the parties relating to this subject matter and supersedes all prior or contemporaneous oral or written agreements concerning such subject matter. The terms of this Agreement will govern all services undertaken by Consultant for Client; *provided, however*, that in the event of any conflict between the terms of this Agreement and any Project Assignment, the terms of the applicable Project Assignment will control, provided that the Project Assignment specifically calls out the applicable Section number of this Agreement to be superseded and has been signed by an authorized officer of Client. This Agreement may only be changed or amended by mutual agreement of authorized representatives of the parties in writing. This Agreement may be executed in two or more counterparts, each of which will be deemed an original, but all of which together will constitute one and the same instrument. Counterparts may be delivered via facsimile, electronic mail (including pdf or any electronic signature complying with the U.S. federal ESIGN Act of 2000, Uniform Electronic Transactions Act or other applicable law) or other transmission method and any counterpart so delivered will be deemed to have been duly and validly delivered and be valid and effective for all purposes.

Re: Member of the Ambros Therapeutics Board of Directors

Dear Scott:

This letter confirms our understanding regarding the terms of your service as a member of the Board of Directors (the "Board") of Ambros Therapeutics, Inc., a Delaware corporation (the "Company"), beginning on August 17, 2026. This letter sets forth our understanding regarding such services to be performed in such capacity, and nothing in this letter nor the services rendered hereunder are meant, or shall be construed in any way or manner, to create between you and the Company a relationship of employer and employee.

In connection with your service on the Board, you will be granted a stock option to purchase 50,000 shares of the Company's common stock (the "Option"). This Option will be a non-statutory stock option and will have an exercise price per share that will be equal to the fair market value of the Company's common stock on the date of grant as determined by the Board. The Option will generally be subject to the terms and conditions applicable to options granted under the Company's 2024 Equity Incentive Plan (as amended, the "Plan"), as described in the Plan and the applicable stock option agreement, and will vest in forty-eight equal monthly installments subject to your continuous service to the Company through each such vesting date. However, if, during your service to the Company, the Company completes a Change in Control (within the meaning of the Plan), 100% of any shares subject to the Option that remain unvested shall immediately vest and become exercisable as of immediately prior to the consummation of such Change in Control.

In addition, in connection with your service on the Board, you will receive annual cash compensation of $40,000, payable in equal quarterly installments in arrears on the last day of each fiscal quarter in which the service occurred, and pro-rated based on days served in any partial quarter.

As a member of the Board, pursuant to the Delaware General Corporation Law ("DGCL") and related case law you will owe fiduciary duties to the Company and its stockholders, including the duty of care (directors must act in good faith, with the care of a prudent person, and in the best interest of the corporation), duty of loyalty (directors must refrain from self-dealing, usurping corporate opportunities and receiving improper personal benefits) and the duty of disclosure (directors must disclose all material information to their fellow directors and, when stockholder action is sought, to the corporation's stockholders). Our bylaws provide that, as a director, you will be entitled to indemnification to the fullest extent permitted by the DGCL, and, upon your becoming a member of the Board, we will enter into the Company's standard form of indemnification agreement with you. We would be happy to arrange a conference with our outside counsel, Cooley LLP, if you have any questions about the indemnification agreement or your duties in general under Delaware law.

As a member of the Board, you will be reimbursed for any reasonable travel and other out-of-pocket expenses incurred in connection with your services on the Board. Please keep copies of all bills, receipts, or other written documentation of such reimbursable expenses and submit such documentation with your requests for reimbursement.

We look forward with enthusiasm to your service as a member of the Company's Board of Directors. If the foregoing terms are acceptable to you, please sign one copy of this letter and return it to me.

Sincerely,

ARTICLE 2. PREMISES

2.1. LEASED PREMISES. Landlord leases to Tenant and Tenant leases from Landlord the Premises shown in **Exhibit A** (the "**Premises**"), containing approximately the floor area set forth in Item 8 of the Basic Lease Provisions (the "**Floor Area**"). The Premises are located in the building identified in Item 2 of the Basic Lease Provisions (the "**Building**"), which is a portion of the project described in Item 2 (the "**Project**"). Landlord and Tenant stipulate and agree that the Floor Area of Premises set forth in Item 8 of the Basic Lease Provisions is correct.

2.2. ACCEPTANCE OF PREMISES. Except as set forth in Section 2.3 below, Tenant acknowledges that neither Landlord nor any representative of Landlord has made any representation or warranty with respect to the Premises, the Building or the Project or the suitability or fitness of any of them for any purpose, except as set forth in this Lease. The taking of possession or use of the Premises by Tenant for any purpose other than construction will conclusively establish that the Premises, the Building, and the Project were in satisfactory condition and in conformity with the provisions of this Lease in all respects. Nothing contained in this Section 2.2 will affect the commencement of the Term or the obligation of Tenant to pay Rent (as defined in Section 4.2).

2.3. GOOD WORKING ORDER. Landlord warrants to Tenant that the fire sprinkler system, lighting, plumbing, heating, ventilation and air conditioning systems and electrical systems serving the (collectively, the "**Building Systems**") will be in good operating condition, and the Tenant Improvements (as defined on **Exhibit X** attached hereto) will be in compliance in all material respects with current building codes and all other applicable Federal, State and local laws, including, but not limited to, the Americans with Disabilities Act ("**ADA**"), as of the Commencement Date of this Lease. Provided that Tenant notifies Landlord that the Building Systems are not in good operating condition within 30 days following the Commencement Date, then Landlord will, except as otherwise provided in this Lease, promptly after receipt of such notice from Tenant setting forth the nature and extent of such noncompliance, rectify same at Landlord's sole cost and expense and not as part of the Operating Expenses described in **Exhibit B** of this Lease.

ARTICLE 3. TERM

3.1. GENERAL. The term of this Lease ("**Term**") will be for the period shown in Item 5 of the Basic Lease Provisions. The Term will commence ("**Commencement Date**") on the earlier of (a) the later of (x) the date the Premises are deemed "ready for occupancy" (as hereinafter defined) and possession thereof is delivered to Tenant, and (y) September 1, 2026, and (b) the date Tenant commences its regular business activities within the Premises. Promptly following request by Landlord, the parties will memorialize on a form provided by Landlord (the "**Commencement Memorandum**") the actual Commencement Date and the expiration date ("**Expiration Date**") of this Lease; should Tenant fail to execute and return the Commencement Memorandum to Landlord within 10 business days (or provide specific written objections thereto within that period), then Landlord's determination of the Commencement and Expiration Dates as set forth in the Commencement Memorandum will be conclusive. The Premises will be deemed "**ready for occupancy**" when Landlord, to the extent applicable, has substantially completed all the work required to be completed by Landlord pursuant to the Work Letter (if any) attached to this Lease but for minor punch list matters, and has obtained the requisite governmental approvals for Tenant's occupancy in connection with such work.

3.2. DELAY IN POSSESSION. Except as set forth in Section 3.3 below, if Landlord, for any reason whatsoever, cannot deliver possession of the Premises to Tenant on or before the Estimated Commencement Date set forth in Item 4 of the Basic Lease Provisions, this Lease will not be void or voidable nor will Landlord be liable to Tenant for any resulting loss or damage. However, Tenant will not be liable for any rent until the Commencement Date occurs as provided in Section 3.1 above, except that if Landlord's failure to substantially complete all work required of Landlord pursuant to Section 3.1 above is attributable to any action or inaction by Tenant (including without limitation any Tenant Delay described in the Work Letter, if any, attached to this Lease), then the Premises will be deemed ready for occupancy, and Landlord will be entitled to full performance by Tenant (including the payment of rent), as of the date Landlord would have been able to substantially complete such work and deliver the Premises to Tenant but for Tenant's delay(s).

3.3. RENT ABATEMENT FOR DELAYED DELIVERY. If the Commencement Date has not occurred on or before the Outside Commencement Date (as defined below), Tenant will be entitled to a rent abatement following the Commencement Date of $593.03 for every day in the period beginning on the Outside Commencement Date and ending on the Commencement Date. The "**Outside Commencement Date**" is the date that is 180 days after Estimated Commencement Date. Landlord and Tenant acknowledge and agree that: (i) the determination of the Commencement Date will take into consideration the effect of any Tenant Delays (as defined in **Exhibit X** attached hereto) by Tenant; and (ii) the Outside Commencement Date will be postponed by the number of days the Commencement Date is delayed due to events of force majeure.

ARTICLE 4. RENT AND OPERATING EXPENSES

4.1. BASIC RENT. From and after the Commencement Date, Tenant must pay to Landlord without deduction or offset, except as otherwise expressly provided in this Lease, a Basic Rent for the Premises in the total amount shown (including subsequent adjustments, if any) in Item 6 of the Basic Lease Provisions (the "**Basic Rent**"). If the Commencement Date is other than the first day of a calendar month, any rental adjustment shown in Item 6 will be deemed to occur on the first day of the next calendar month following the specified monthly anniversary of the Commencement Date. The Basic Rent will be due and payable in advance commencing on the Commencement Date and continuing thereafter on the first day of each successive calendar month of the Term, as prorated for any partial month. No demand, notice or invoice will be required. An installment in the amount of 1 full month's Basic Rent at the initial rate specified in Item 6 of the Basic Lease Provisions will be delivered to Landlord concurrently with Tenant's execution of this Lease.

4.2. **OPERATING EXPENSES**. Tenant must pay Tenant's Share of Operating Expenses in accordance with **Exhibit B** of this Lease. "**Rent**" constitutes Basic Rent, Tenant's Share of Operating Expenses, parking charges, and all other additional Rent and other sums due from Tenant under this Lease.

4.3. **SECURITY DEPOSIT**. Concurrently with Tenant's delivery of this Lease, Tenant must deposit with Landlord the sum, if any, stated in Item 9 of the Basic Lease Provisions (the "**Security Deposit**"), to be held by Landlord as security for the full and faithful performance of Tenant's obligations under this Lease, to pay any Rent, including without limitation such additional Rent as may be owing under any provision hereof, and to maintain the Premises as required by this Lease. Upon any breach of the foregoing obligations by Tenant, Landlord may apply all or part of the Security Deposit as full or partial compensation. If any portion of the Security Deposit is so applied, Tenant must within 5 business days after written demand by Landlord deposit cash with Landlord in an amount sufficient to restore the Security Deposit to its original amount. Landlord will not be required to keep the Security Deposit separate from its general funds, and Tenant will not be entitled to interest on the Security Deposit. In no event may Tenant utilize all or any portion of the Security Deposit as a payment toward any Rent due under this Lease. Any unapplied balance of the Security Deposit will be returned to Tenant or, at Landlord's option, to the last assignee of Tenant's interest in this Lease within 30 days following the termination of this Lease and Tenant's vacation of the Premises. Tenant waives the provisions of Section 1950.7 of the California Civil Code, or any similar or successor laws now or hereafter in effect.

ARTICLE 5. USES

5.1. **USE**. Tenant will use the Premises only for the purposes stated in Item 3 of the Basic Lease Provisions and for no other use whatsoever. Tenant will not do or permit anything to be done in or about the Premises which will in any way interfere with the rights or quiet enjoyment of other occupants of the Building or the Project, or use or allow the Premises to be used for any unlawful purpose, nor will Tenant permit any nuisance or commit any waste in the Premises or the Project. Tenant will not perform any work or conduct any business whatsoever in the Project other than inside the Premises. Tenant will comply at its expense with all present and future laws, ordinances and requirements of all governmental authorities that pertain to Tenant or its use of the Premises, and with all energy usage reporting requirements of Landlord. Pursuant to California Civil Code § 1938, Landlord states that the Premises have not undergone inspection by a Certified Access Specialist (CASp) (defined in California Civil Code § 55.52(a)(3)). Pursuant to Section 1938 of the California Civil Code, Landlord provides the following notification to Tenant: "A Certified Access Specialist (CASp) can inspect the subject premises and determine whether the subject premises comply with all of the applicable construction-related accessibility standards under state law. Although state law does not require a CASp inspection of the subject premises, the commercial property owner or lessor may not prohibit the lessee or tenant from obtaining a CASp inspection of the subject premises for the occupancy or potential occupancy of the lessee or tenant, if requested by the lessee or tenant. The parties shall mutually agree on the arrangements for the time and manner of the CASp inspection, the payment of the fee for the CASp inspection, and the cost of making any repairs necessary to correct violations of construction related accessibility standards within the premises."

During the Term, Landlord will be responsible, at its cost (except to the extent properly included in Project Costs), for correcting any violations of applicable law, including, without limitation, Title III of the Americans with Disabilities Act ("**ADA**") of which it is notified by governmental authorities with respect to the Common Areas of the Building, except for any obligations specifically imposed upon Tenant pursuant to this Lease. Notwithstanding the foregoing, Landlord will have the right to contest any alleged violation in good faith, including, without limitation, the right to apply for and obtain a waiver or deferment of compliance, the right to assert any and all defenses allowed by law and the right to appeal any decisions, judgments or rulings to the fullest extent permitted by law. Landlord, after the exhaustion of any and all rights to appeal or contest, will make all repairs, additions, alterations or improvements necessary to comply with the terms of any final order or judgment. Notwithstanding the foregoing, Tenant, not Landlord, will be responsible for the correction of any violations that arise out of or in connection with any claims brought under any provision of applicable law, including, without limitation, the Americans with Disabilities Act other than Title III, the specific nature of Tenant's business in the Premises (other than general office use), the acts or omissions of Tenant, its agents, employees or contractors, Tenant's arrangement of any furniture, equipment or other property in the Premises, any repairs, alterations, additions or improvements performed by or on behalf of Tenant (including the Tenant Improvements) and any design or configuration of the Premises specifically requested by Tenant after being informed that such design or configuration may not be in strict compliance with the ADA.

5.2. **SIGNS**. Landlord will affix and maintain a sign (restricted solely to Ambros Therapeutics, Inc. or Ambros Therapeutics, or such other name as Landlord may consent to in writing) adjacent to the entry door of the Premises, together with a directory strip listing Tenant's name as set forth herein in the lobby directory of the Building. Tenant will not place or allow to be placed any other sign, decoration or advertising matter of any kind that is visible from the exterior of the Premises. In the event of a Default, Landlord reserves the right to remove any signage that includes a name other than that of the then named Tenant.

5.3. **HAZARDOUS MATERIALS**. Tenant will not generate, handle, store or dispose of hazardous or toxic materials (as such materials may be identified in any federal, state or local law or regulation), including, but not limited to, per- and polyfluoroalkyl substances (PFAS), in the Premises or Project without the prior written consent of Landlord; provided that the foregoing will not be deemed to proscribe the use by Tenant of customary office supplies in normal quantities so long as such use comports with all applicable laws. To the best of Landlord's knowledge, as of the date of this Lease, there are no hazardous materials present in the Building except for standard products typically used in the construction, operation and maintenance of an office building. Should any hazardous or toxic materials, except for except for normal janitorial, maintenance, construction and office supplies, be discovered in the Premises and should their remediation be legally required, then unless such materials were introduced by Tenant, its agents, employees, subtenants, vendors, licensees, invitees or contractors, Landlord will remediate same at its expense and will hold Tenant harmless from any cost in connection therewith.

ARTICLE 6. LANDLORD SERVICES

6.1. UTILITIES AND SERVICES. Landlord and Tenant will be responsible to furnish those utilities and services to the Premises to the extent provided in **Exhibit C**, subject to the conditions and payment obligations and standards set forth in this Lease. Landlord's failure to furnish, or any interruption, diminishment or termination of, services due to the application of laws, the failure of any equipment, the performance of repairs, improvements or alterations, utility interruptions or the occurrence of an event of force majeure (defined in Section 20.8) will not render Landlord liable to Tenant, constitute a constructive eviction of Tenant, give rise to an abatement of Rent, nor relieve Tenant from the obligation to fulfill any covenant or agreement. Electricity used by Tenant in the Premises will be paid for by Tenant by separate charge billed by the applicable utility company and payable directly by Tenant. Notwithstanding any contrary provision in the Lease, Tenant acknowledges that a portion of Tenant's electricity to the Premises may be provided by Landlord and/or Landlord's affiliate utilizing an on-site energy system ("**Energy System**"). Tenant agrees to pay Landlord and/or Landlord's affiliate within 10 business days after written demand for all such charges at rates determined by Landlord and/or Landlord's affiliate from time to time, provided in no event will the kilowatt per hour charge for the Energy System exceed the total charges for electricity then being charged by the applicable electric utility provider. However, if the Premises, or a material portion of the Premises, are made untenantable for a period in excess of 5 consecutive business days as a result of a service interruption that is reasonably within the control of Landlord to correct and through no fault of Tenant and for reasons other than as contemplated in Article 11, then Tenant, as its sole remedy, will be entitled to receive a per diem abatement of Basic Rent in the proportion that the rentable area of the portion of the Premises that Tenant is prevented from using, and does not use, bears to the total rentable area of the Premises during the period beginning on the 6th consecutive business day of the service interruption and ending on the day the service has been restored.

6.2. OPERATION AND MAINTENANCE OF COMMON AREAS. During the Term, Landlord will operate all Common Areas within the Building and the Project in a first class manner. The term "**Common Areas**" means all areas within the Building, Project and other buildings in the Project which are not held for exclusive use by persons entitled to occupy space.

6.3. COMMON AREAS. The occupancy by Tenant of the Premises includes the use of the Common Areas in common with Landlord and with all others for whose convenience and use the Common Areas may be provided by Landlord, subject, however, to compliance with Rules and Regulations set forth in **Exhibit E**. Landlord will at all times during the Term have exclusive control of the Common Areas, and may restrain or permit any use or occupancy. Landlord may temporarily close any portion of the Common Areas for repairs, remodeling and/or alterations, to prevent a public dedication or the accrual of prescriptive rights, or for any other reasonable purpose. To the extent feasible, Landlord will endeavor to not unreasonably interfere with Tenant's normal business operations during the exercise of its rights under this Section 6.3.

ARTICLE 7. REPAIRS AND MAINTENANCE

7.1. TENANT'S MAINTENANCE AND REPAIR. Subject to Articles 11 and 12, Tenant at its sole expense will make all repairs necessary to keep the interior, non-structural portions of the Premises and all improvements and fixtures therein in good condition and repair. Tenant's maintenance obligation includes without limitation all appliances, interior glass, doors, door closures, hardware, fixtures, electrical, plumbing, fire extinguisher equipment and other equipment installed in the Premises, together with any supplemental HVAC equipment servicing only the Premises. If Landlord or its management agent agree to make a repair on behalf of Tenant and at Tenant's request, Tenant will promptly reimburse Landlord as additional Rent for all reasonable costs incurred (including the standard supervision fee) upon submission of an invoice.

7.2. LANDLORD'S MAINTENANCE AND REPAIR. Subject to Articles 11 and 12, Landlord will provide service, maintenance and repair with respect to the heating, ventilating and air conditioning ("**HVAC**") equipment of the Building (exclusive of any supplemental HVAC equipment servicing only the Premises) and will maintain in good repair the Common Areas, roof, foundations, footings, the exterior surfaces of the exterior walls of the Building (including exterior glass), and the structural, electrical, mechanical and plumbing systems of the Building (including elevators, if any, serving the Building), except to the extent provided in Section 7.1 above. Notwithstanding any provision of the California Civil Code or any similar or successor laws to the contrary, Tenant will not make repairs at Landlord's expense or by rental offset. Except as provided in Section 11.1 and Article 12 below, there will be no abatement of Rent and no liability of Landlord by reason of any injury to or interference with Tenant's business arising from the making of any repairs, alterations or improvements to any portion of the Building, including repairs to the Premises, nor will any related activity by Landlord constitute an actual or constructive eviction; provided, however, to the extent feasible, Landlord will endeavor to not unreasonably interfere with Tenant's normal business operations during the performance of repairs under this Section 7.2. Tenant waives any and all rights under and benefits of subsection 1 of Section 1932, and Sections 1941 and 1942 of the California Civil Code, or any similar or successor laws now or hereafter in effect.

7.3. ALTERATIONS. Except for cosmetic alteration projects that do not exceed $50,000.00 during each calendar year and that do not affect the structural, electrical or mechanical components or systems of the Building, are not visible from the exterior of the Premises, do not change the basic floor plan of the Premises, do not require a permit and utilize only Landlord's building standard materials (which work will require notice to Landlord but not Landlord's consent), Tenant will make no alterations, additions, decorations, or improvements (collectively referred to as "**Alterations**") to the Premises without the prior written consent of Landlord. Landlord may impose, as a condition to its consent, any requirements that Landlord in its discretion may deem reasonable or desirable. Tenant will use Landlord's designated mechanical and electrical contractors, obtain all required permits for the Alterations and will perform the work in compliance with all applicable laws, regulations and ordinances with contractors reasonably acceptable to Landlord. Except for cosmetic Alterations not requiring a permit, Landlord will be entitled to a supervision fee in the amount of 5% of the cost of the Alterations. Landlord may elect to cause its architect to review Tenant's architectural plans, and the reasonable cost of that review will be reimbursed by Tenant. If the Alterations proposed by Tenant and consented to by Landlord change the floor plan of the Premises, then Tenant will, at its expense, furnish Landlord with as-built drawings and CAD/REVIT files compatible with Landlord's systems. Unless Landlord otherwise agrees in writing, all Alterations affixed to the Premises, including without limitation all Tenant Improvements constructed pursuant to the Work Letter (except as otherwise provided in the Work Letter), but excluding moveable trade fixtures and furniture, will become the property of Landlord and will be surrendered with the Premises at the end of the Term, except that Landlord may, by notice to Tenant given at the time of Landlord's approval, require Tenant to remove by the Expiration Date or sooner termination date of this Lease, all or any Alterations (including without limitation any Tenant Improvements constructed pursuant to the Work Letter) installed either by Tenant or by Landlord at Tenant's request (collectively, the "**Required Removables**"). In connection with its removal of Required Removables, Tenant will repair any damage to the Premises arising from that removal, and will restore the affected area to its pre-existing condition, reasonable wear and tear, casualty and condemnation excepted.

7.4. MECHANIC'S LIENS. Tenant will keep the Premises free from any liens arising out of any work performed, materials furnished, or obligations incurred by or for Tenant. If, within 15 days following the imposition of any lien, Tenant fails to cause the lien to be released of record by payment or posting of a proper bond in accordance with California Civil Code Section 8424 or any successor statute, then, in addition to all other available remedies, Landlord will have the right to cause the lien to be released by any means it deems proper, including payment of or defense against the claim giving rise to the lien. Tenant will reimburse Landlord for all reasonable expenses so incurred by Landlord promptly following Landlord's written demand. Tenant will give Landlord no less than 20 days' prior written notice before commencing construction of any kind on the Premises.

7.5. ENTRY AND INSPECTION. Except in emergencies or to provide Building services (in which case, no prior notice will be required), Landlord will at all reasonable times and with reasonable prior verbal notice have the right to enter the Premises to inspect them, to supply services in accordance with this Lease, to make repairs and renovations as reasonably deemed necessary by Landlord, and to submit the Premises to prospective or actual purchasers or encumbrance holders (or, during the final 12 months of the Term or when a Default exists, to prospective tenants), all without being deemed to have caused an eviction of Tenant and without abatement of Rent, except as provided elsewhere in this Lease. To the extent feasible, Landlord will endeavor to not unreasonably interfere with Tenant's normal business operations during the exercise of its rights under this Section 7.5.

ARTICLE 8. SPACE PLANNING AND SUBSTITUTION

Landlord has the right, upon providing not less than 90 days' prior written notice, to move Tenant to other space of comparable size in the Building or in the Project. The new space will be provided with improvements of comparable quality to those within the Premises and will contain similar finishes as the Premises, approximately the same rentable square footage as the Premises and approximately the same number of work stations, offices, breakrooms and reception areas as are contained in the Premises as of the date Tenant receives Landlord's notice of relocation. The total monthly Basic Rent for the new space will in no event exceed the total monthly Basic Rent for the Premises prior to the relocation and Tenant's Share for the new space located in the Building will in no event exceed Tenant's Share for the Premises prior to the relocation. Landlord will pay the reasonable out-of-pocket costs to relocate and reconnect Tenant's personal property and equipment within the new space and to provide building standard suite entry signage. Landlord will also reimburse Tenant for such other reasonable out-of-pocket costs that Tenant may incur in connection with the relocation. To the extent feasible, Landlord will endeavor to not unreasonably interfere with Tenant's normal business operations during the move to the new space under this Article 8, including, without limitation, scheduling the move to the new space at a mutually convenient time that minimizes workflow disruption for Tenant. Within 10 days following request by Landlord, Tenant will execute an amendment to this Lease prepared by Landlord to memorialize the relocation. Notwithstanding anything in this Lease to the contrary, Landlord will not relocate Tenant under this Article 8 during the initial 60-month Term of this Lease.

ARTICLE 9. ASSIGNMENT AND SUBLETTING

9.1. RIGHTS OF PARTIES. Tenant will not, directly or indirectly, assign, transfer or encumber any interest in this Lease, sublease, or allow any third party to use any portion of the Premises (collectively or individually, a "**Transfer**") without the prior written consent of Landlord, which consent will not be unreasonably withheld, conditioned or delayed if Landlord does not exercise its recapture rights. If the entity(ies) which directly or indirectly controls the voting shares/rights of Tenant (other than through the ownership of voting securities listed on a recognized securities exchange) changes at any time, whether in a single transaction or a series of transactions, such change of ownership or control constitutes a Transfer. Notwithstanding the foregoing, a Transfer shall not include the infusion of additional equity capital in Tenant or an initial public offering of equity securities of Tenant under the Securities Act of 1933, as amended, which results in Tenant's stock being traded on a national securities exchange, including, but not limited to, the NYSE, the NASDAQ Stock Market or the NASDAQ Small Cap Market System. It is not unreasonable for Landlord to withhold consent to a Transfer: (i) if Tenant is in Default, (ii) to a proposed assignee or subtenant who is an existing tenant or occupant of the Building or Project and Landlord or its affiliate has space in the Building or Project to meet their needs, (iii) to a proposed assignee or subtenant who intends to generate, handle, store or dispose of hazardous or toxic materials (as such materials may be identified in any federal, state or local law or regulation) in the Premises or Project in violation of Section 5.3 of this Lease, or (iv) to a prospective tenant with whom Landlord or Landlord's affiliate has been actively negotiating. Within 30 days after receipt of executed copies of the transfer documentation and such other information as Landlord may request (which may include a completed Hazardous Material Survey Form accessible here: https://form.jotform.com/220737091256051), Landlord will either: (a) consent to the Transfer by execution of a consent agreement in a form reasonably designated by Landlord; (b) refuse to consent to the Transfer; or (c) except in connection with a Permitted Transfer (as defined below), recapture the portion of the Premises that Tenant is proposing to Transfer if such Transfer results in more than 20% of the Floor Area of the Premises being subleased for more than 50% of the then remaining Term. Tenant waives the provisions of Section 1995.310 of the California Civil Code, or any similar or successor laws, now or hereinafter in effect, and all other remedies, including, without limitation, any right at law or equity to terminate this Lease, on its own behalf and, to the extent permitted under all applicable laws, on behalf of the proposed transferee. In no event will any Transfer release or relieve Tenant from any obligation under this Lease, as same may be amended. Tenant will pay Landlord a review fee of $1,000.00 for Landlord's review of any requested Transfer. Tenant will pay Landlord, as additional Rent, 50% of all rent and other consideration which Tenant receives as a result of a Transfer that is in excess of the Rent payable to Landlord for the portion of the Premises and Term covered by the Transfer less Transfer costs. For purposes herein, such Transfer costs will include all reasonable and customary expenses directly incurred by Tenant attributable to the Transfer, including brokerage fees, legal fees, construction costs, and Landlord's review fee. If Tenant is in Default, Landlord may require that all sublease payments be made directly to Landlord, in which case Tenant will receive a credit against Rent in the amount of Tenant's share of payments received by Landlord.

9.2. PERMITTED TRANSFER. Notwithstanding the foregoing, Tenant may assign this Lease to a successor to Tenant by merger, consolidation or the purchase of substantially all of Tenant's assets, or effect a reverse triangular merger in which Tenant is the surviving entity, or assign this Lease or sublet all or a portion of the Premises to an Affiliate (defined below), without the consent of Landlord, provided that all of the following conditions are satisfied (a "**Permitted Transfer**"): (a) Tenant is not then in Default hereunder; (b) the proposed assignee or subtenant or surviving entity does not intend to generate, handle, store or dispose of hazardous or toxic materials (as such materials may be identified in any federal, state or local law or regulation) in the Premises or Project in violation of Section 5.3 of this Lease; (c) Tenant gives Landlord written notice at least 10 business days prior to such Permitted Transfer (or if prohibited due to contractual or legal confidentiality requirements, within 10 days after the Permitted Transfer); and (d) if (x) Tenant ceases to exist as a going concern as a result of any merger or consolidation of Tenant or the sale of all or substantially all of the assets of Tenant or (y) a change of control of Tenant occurs as a result of a reverse triangular change of control, the successor entity or surviving entity (as the case may be) has a tangible net worth not less than the greater of the tangible net worth of Tenant (i) as of the date of this Lease or the last amendment to the Lease pursuant to which the Term was extended or the Premises enlarged, and (ii) immediately before the Permitted Transfer. "**Affiliate**" means an entity controlled by, controlling or under common control with Tenant.

ARTICLE 10. INSURANCE AND INDEMNITY

10.1. TENANT'S INSURANCE. Tenant, at its sole cost, will provide and maintain in effect the insurance described in **Exhibit D**. Evidence of that insurance must be delivered to Landlord prior to the Commencement Date.

10.2. TENANT'S INDEMNITY. To the fullest extent permitted by law, but subject to Section 10.4 below, Tenant will defend, indemnify and hold harmless Landlord and Landlord's agents, employees, lenders, and affiliates, from and against any and all negligence, claims, liabilities, damages, costs or expenses including attorney's fees and costs (collectively, "**Costs**") arising either before or after the Commencement Date which arise from or related to or are caused by (i) Tenant's use or occupancy of the Premises, the Building or the Common Areas thereof, or the Project or the Common Areas thereof, or (ii) the conduct of Tenant's business, or by any activity, work, or thing done, permitted or suffered by Tenant or Tenant's agents, employees, subtenants, vendors, contractors, invitees or licensees in or about the Premises, the Building or the Common Areas thereof, or the Project or the Common Areas thereof, or (iii) by any Default in the performance of any obligation on Tenant's part to be performed under this Lease, or (iv) any act, omission or negligence on the part of Tenant or Tenant's agents, employees, subtenants, vendors, contractors, invitees or licensees. Landlord may, at its option, require Tenant to assume Landlord's defense in any action covered by this Section 10.2 through counsel reasonably satisfactory to Landlord. Notwithstanding the foregoing, Tenant will not be obligated to indemnify Landlord against any liability or expense to the extent it is ultimately determined that the same was caused by the sole negligence or willful misconduct of Landlord, its agents, contractors or employees. If Landlord requires Tenant to assume defense in accordance with this Section 10.2, Tenant will in all cases accept any tender of defense of any action or proceeding in which Landlord is named or made a party, within 30 days of the tender and will, notwithstanding any allegations of sole negligence or willful misconduct on the part of Landlord, defend Landlord as provided herein until a final determination of sole negligence or willful misconduct is made; in which event, Landlord will reimburse Tenant for the reasonable out of pocket cost incurred by Tenant in connection with such defense. Costs also include all of Landlord's reasonable attorneys' fees, litigation costs, investigation costs and court costs and all other costs, expenses and liabilities incurred by Landlord or its counsel from the date Landlord first receives Notice that any claim or demand is to be made or may be made. Tenant will also tender the action or proceeding to its insurer, and request coverage for its indemnity obligations to Landlord. For purposes of this Section 10.2, "***Landlord***" includes Landlord and Landlord's directors, officers, shareholders, members, agents and employees. Tenant's obligations under this Section 10.2 survive the termination of this Lease.

10.3. WAIVER OF CLAIMS. Unless caused by the gross negligence or willful misconduct of Landlord, its agents, employees or contractors with respect to clauses (ii) and (iii) below, but subject to Section 10.4 below, Landlord will not be liable to Tenant, its employees, agents and invitees, and Tenant waives all claims against Landlord, its employees and agents for loss of or damage to any property, or any injury to any person, resulting from any condition (including, but not limited to, (i) acts or omissions (criminal or otherwise) of third parties and/or other tenants of the Project, or their agents, employees or invitees, (ii) fire, explosion, falling plaster, steam, gas, electricity, water or rain which may leak or flow from or into any part of the Premises, or (iii) the breakage, leakage, obstruction or other defects of the pipes, sprinklers, wires, appliances, plumbing, air conditioning, electrical works or other fixtures in the Building), whether the damage or injury results from conditions arising in the Premises or in other portions of the Building. Notwithstanding anything to the contrary contained in this Lease, in no event will Landlord be liable for Tenant's loss or interruption of business or income (including without limitation, Tenant's consequential damages, lost profits or opportunity costs), or for interference with light or other similar intangible interests.

10.4. WAIVER OF SUBROGATION. Landlord and Tenant waive all rights of recovery against the other on account of loss and damage to the property of such waiving party to the extent that the waiving party is entitled to proceeds for such loss and damage under any property insurance policies carried or otherwise required to be carried by this Lease; provided however, that the foregoing waiver will not apply to the extent of Tenant's obligation to pay deductibles under any such policies and this Lease.

ARTICLE 11. DAMAGE OR DESTRUCTION

11.1. RESTORATION.

(a) If the Building of which the Premises are a part is damaged as the result of a casualty, then subject to the provisions below, Landlord will repair that damage as soon as reasonably possible unless Landlord reasonably determines that: (i) the Premises have been materially damaged and there is less than 1 year of the Term remaining on the date of the casualty; (ii) any Mortgagee (defined in Section 13.1) requires that the insurance proceeds be applied to the payment of the mortgage debt; or (iii) proceeds necessary to pay the full cost of the repair are not available from Landlord's insurance, including without limitation earthquake insurance. If Landlord elects not to repair the damage for any of the preceding reasons, Landlord will so notify Tenant in the "Casualty Notice" (as defined below), and this Lease will terminate as of the date of delivery of that notice. In addition, Tenant will have the right to terminate this Lease if: (a) a substantial portion of the Premises has been damaged by casualty and such damage cannot reasonably be repaired within 60 days after Tenant's receipt of the Casualty Notice; (b) there is less than 1 year of the Term remaining on the date of the casualty; (c) the casualty was not caused by the negligence or willful misconduct of Tenant or its agents, employees or contractors; and (d) Tenant provides Landlord with written notice of its intent to terminate within 10 days after the date of Tenant's receipt of the Casualty Notice.

(b) As soon as reasonably practicable following the casualty event but not later than 60 days thereafter, Landlord will notify Tenant in writing ("**Casualty Notice**") of Landlord's election, if applicable, to terminate this Lease. If this Lease is not so terminated, the Casualty Notice will set forth the anticipated period for repairing the casualty damage. If the anticipated repair period exceeds 270 days, and if the damage is so extensive as to reasonably prevent Tenant's substantial use and enjoyment of the Premises, then either party may elect to terminate this Lease by written notice to the other within 10 days following delivery of the Casualty Notice.

(c) If neither Landlord nor Tenant terminates this Lease pursuant to Section 11.1(a) or (b) above, Landlord will repair all material damage to the Premises or the Building as soon as reasonably possible and this Lease will continue in effect for the remainder of the Term. Upon notice from Landlord, Tenant will assign or endorse over to Landlord (or to any party designated by Landlord) all property insurance proceeds payable to Tenant under Tenant's insurance with respect to any Alterations. Within 15 days of demand, Tenant will also pay Landlord for any additional excess costs that are determined during the performance of the repairs to such Alterations.

(d) From and after the casualty event, the Rent to be paid under this Lease will be abated in the same proportion that the Floor Area of the Premises that is rendered unusable by the damage from time to time bears to the total Floor Area of the Premises.

(e) Notwithstanding the provisions of subsections (a), (b) and (c) of this Section 11.1, but subject to Section 10.4, the cost of any repairs will be borne by Tenant, and Tenant will not be entitled to Rent abatement or termination rights if the damage is due to the gross negligence or willful misconduct of Tenant or its employees, subtenants, contractors, invitees or representatives.

11.2. LEASE GOVERNS. The provisions of this Lease, including without limitation Section 11.1, govern any damage or destruction and will accordingly supersede any contrary statute or rule of law.

ARTICLE 12. EMINENT DOMAIN

Either party may terminate this Lease if any material part of the Premises is taken or condemned for any public or quasi-public use under law, by eminent domain or private purchase in lieu thereof (a "**Taking**"). Landlord also has the right to terminate this Lease if there is a Taking of any portion of the Building or Project which would have a material adverse effect on Landlord's ability to profitably operate the remainder of the Building or Project. The termination will be effective as of the effective date of any order granting possession to, or vesting legal title in, the condemning authority. All compensation awarded for a Taking will be the property of Landlord. The provisions of this Lease will govern any Taking and will accordingly supersede any contrary statute or rule of law.

ARTICLE 13. SUBORDINATION; ESTOPPEL CERTIFICATE

13.1. SUBORDINATION. Tenant accepts this Lease subject and subordinate to any mortgage(s), deed(s) of trust, ground lease(s) or other lien(s) now or subsequently arising upon the Building or the Project, and to renewals, modifications, refinancings and extensions thereof (collectively referred to as a "**Mortgage**"). The party having the benefit of a Mortgage is referred to as a "**Mortgagee**". This clause is self-operative, but upon request from a Mortgagee, Tenant will execute a commercially reasonable subordination and attornment agreement in favor of the Mortgagee, provided such agreement provides a non-disturbance covenant benefiting Tenant. Alternatively, a Mortgagee has the right at any time to subordinate its Mortgage to this Lease. Upon request, Tenant, without charge, will attorn to any successor to Landlord's interest in this Lease in the event of a foreclosure of any Mortgage. Any purchaser at a foreclosure sale or lender taking title under a deed in lieu of foreclosure will not be responsible for any act or omission of a prior landlord, will not be subject to any offsets or defenses Tenant may have against a prior landlord, and will not be liable for the return of the Security Deposit not actually recovered by such purchaser nor bound by any Rent paid in advance of the calendar month in which the transfer of title occurred; provided that the foregoing will not release the applicable prior landlord from any liability for those obligations. Tenant acknowledges that Landlord's Mortgagees and their successors-in-interest are intended third party beneficiaries of this Section 13.1.

13.2. ESTOPPEL CERTIFICATE. Within 10 days after receipt of a written request from Landlord, Tenant will execute and deliver a commercially reasonable estoppel certificate in favor of those parties as are reasonably requested by Landlord (including a Mortgagee or a prospective purchaser of the Building or the Project).

ARTICLE 14. DEFAULTS AND REMEDIES

14.1. TENANT'S DEFAULTS. In addition to any other event of default set forth in this Lease, the occurrence of any one or more of the following events that continues beyond the applicable notice and cure period constitutes a "**Default**" by Tenant:

(a) The failure by Tenant to make any payment of Rent required to be made by Tenant, as and when due, where the failure continues for a period of 5 days after written notice from Landlord to Tenant.

(b) Except where a specific time period is otherwise set forth for Tenant's performance in this Lease (in which event the failure to perform by Tenant within such time period will be a Default), the failure or inability by Tenant to observe or perform any of the covenants or provisions of this Lease to be observed or performed by Tenant, other than as specified in any other subsection of this Section 14.1, where the failure continues for a period of 30 days after written notice from Landlord to Tenant; provided, however, that if the nature of Tenant's obligation is such that more than 30 days are required for its performance, then Tenant will not be deemed to be in Default if it commences performance within the 30 day period and thereafter diligently pursues the cure to completion.

The notice periods provided herein are in lieu of, and not in addition to, any notice periods provided by law, and Landlord will not be required to give any additional notice under California Code of Civil Procedure Section 1161, or any successor statute, in order to be entitled to commence an unlawful detainer proceeding.

14.2. LANDLORD'S REMEDIES. In addition to all other rights or remedies of Landlord set forth in this Lease, if a Default occurs, Landlord has all rights available to Landlord under California law, without further notice or demand to Tenant, including, without limitation, the right to terminate this Lease. In addition, Landlord has the remedy described in California Civil Code Section 1951.4 (Landlord may continue this Lease in effect after Tenant's breach and abandonment and recover Rent as it becomes due, if Tenant has the right to sublet or assign, subject only to reasonable limitations). In any case in which Landlord re-enters and occupies the Premises, by unlawful detainer proceedings or otherwise, Landlord, at its option, may repair, alter, subdivide or change the character of the Premises as Landlord deems best, relet all or any part of the Premises and receive the rents therefor, and none of these actions constitutes a termination of this Lease, a release of Tenant from any liability, or result in the release of any Guarantor. Landlord will not be deemed to have terminated this Lease or the liability of Tenant to pay any Rent or other charges later becoming due by any re-entry of the Premises pursuant to this Section 14.2, or by any action in unlawful detainer or otherwise to obtain possession of the Premises, unless Landlord has first given Tenant notice that it is terminating this Lease. Any notice given by Landlord pursuant to Section 14.1 will be in lieu of, and not in addition to, any notice required by Section 1161 of the California Code of Civil Procedure or superseding statute. Any payment of Rent following Landlord's delivery of notice to Tenant pursuant to Section 14.1 will not constitute acceptance of Rent. If Landlord elects to terminate this Lease pursuant to the provisions of this Section 14.2, damages will include, without limitation, the remedy and measure of damages specified pursuant to California Civil Code Section 1951.2, which will include the worth at the time of award of the amount by which the unpaid Rent for the balance of the Term after the time of award exceeds the amount of Rent loss Tenant proves could have been reasonably avoided. Notwithstanding anything to the contrary contained in this Lease, if Tenant is in Default, Landlord may, at Landlord's sole option, take any action to attempt to cure such Default, and in such event, if Landlord performs work in lieu of or on behalf of Tenant or pays any reasonable charges on behalf of Tenant, then in addition to the costs incurred by Landlord to perform such work or to pay such charges, Tenant will pay to Landlord a fee equal to 15% of the amount incurred by Landlord as reimbursement of Landlord's estimated costs of Landlord's actions.

14.3. LATE PAYMENTS. Any Rent due under this Lease that is not paid to Landlord within 5 business days of the date when due will bear interest at the maximum rate permitted by law from the date due until fully paid. If any Rent due from Tenant is not received by Landlord or Landlord's designee within 5 business days after the date due, then Tenant will pay to Landlord, in addition to the interest, a late charge for each delinquent payment equal to the greater of (i) 5% of that delinquent payment or (ii) $100.00. Notwithstanding the foregoing, no late fee or interest will accrue on the first late payment in any consecutive 12-month period provided that Tenant pays such amount within 5 days of receipt of written notice from Landlord that such amounts are overdue.

14.4. DEFAULT BY LANDLORD. Landlord will not be deemed to be in default in the performance of any obligation under this Lease unless and until it has failed to perform the obligation within 30 days after written notice by Tenant to Landlord specifying in reasonable detail the nature and extent of the failure; provided, however, that if the nature of Landlord's obligation is such that more than 30 days are required for its performance, then Landlord will not be deemed to be in default if it commences performance within the 30 day period and thereafter diligently pursues the cure to completion.

14.5. EXPENSES AND LEGAL FEES. If either Landlord or Tenant brings any action in connection with this Lease, the prevailing party will be entitled to recover as a part of the action its reasonable attorneys' fees, and all other reasonable costs. The prevailing party for the purpose of this paragraph will be determined by the trier of the facts.

14.6. JUDICIAL REFERENCE/WAIVER OF JURY TRIAL. Landlord and Tenant agree that any disputes arising in connection with this Lease (including but not limited to a determination of any and all of the issues in such dispute, whether of fact or of law) will be resolved (and a decision will be rendered) by way of a general reference as provided for in Part 2, Title 8, Chapter 6 (§§ 638 et. seq.) of the California Code of Civil Procedure, or any successor California statute governing resolution of disputes by a court appointed referee. Nothing within this Section 14.6 will apply to an unlawful detainer action. LANDLORD AND TENANT EACH ACKNOWLEDGES THAT IT IS AWARE OF AND HAS HAD THE ADVICE OF COUNSEL OF ITS CHOICE WITH RESPECT TO ITS RIGHT TO TRIAL BY JURY, AND, TO THE EXTENT PERMITTED BY LAW, EACH PARTY EXPRESSLY AND KNOWINGLY WAIVES AND RELEASES ALL SUCH RIGHTS TO TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM ARISING OUT OF OR IN ANY WAY CONNECTED WITH THIS LEASE.

14.7. SATISFACTION OF JUDGMENT. The obligations of Landlord do not constitute the personal obligations of the individual partners, trustees, directors, officers, members or shareholders of Landlord or its constituent partners or members. If Tenant recovers a money judgment against Landlord, such judgment will be satisfied only from the interest of Landlord in the Project and out of the rent or other income from such property receivable by Landlord, and no action for any deficiency may be sought or obtained by Tenant.

ARTICLE 15. END OF TERM

15.1. HOLDING OVER. If Tenant holds over for any period after the Expiration Date (or earlier termination of the Term), such tenancy will constitute a tenancy at sufferance only and possession will be subject to all of the terms of this Lease, except that the monthly Rent will be 150% of the total monthly Rent for the month immediately preceding the date of termination. The acceptance by Landlord of monthly hold-over Rent in a lesser amount will not constitute a waiver of Landlord's right to recover the full amount due unless otherwise agreed in writing by Landlord. If Tenant fails to surrender the Premises upon the expiration of this Lease despite demand to do so by Landlord, Tenant will indemnify and hold Landlord harmless from all loss or liability, including without limitation, any claims made by any succeeding tenant relating to such failure to surrender. The foregoing provisions of this Section 15.1 are in addition to and do not affect Landlord's right of re-entry or any other rights of Landlord under this Lease or at law.

15.2. SURRENDER OF PREMISES; REMOVAL OF PROPERTY. Upon the Expiration Date or upon any earlier termination of this Lease, Tenant must quit and surrender possession of the Premises to Landlord in as good order, condition and repair as when received or as hereafter may be improved by Landlord or Tenant, reasonable wear and tear and repairs which are Landlord's obligation excepted, and must remove or fund to Landlord the cost of removing all wallpapering, voice and/or data transmission cabling installed by or for Tenant and Required Removables, together with all personal property and debris, and must perform all work required under Section 7.3 of this Lease. If Tenant fails to comply with the provisions of this Section 15.2 and remove any personal property within 10 days following the expiration or earlier termination of this Lease, such personal property will be conclusively deemed to have been abandoned, then Landlord may effect the removal and/or make any repairs, without notice and without incurring any liability to Tenant, and the cost to Landlord will be additional Rent payable by Tenant upon demand. Tenant waives all rights under and benefits of Section 1993.03 of the California Civil Code, or any similar or successor laws now or hereafter in effect and authorizes Landlord to dispose of any personal property remaining at the Premises following the expiration or earlier termination of this Lease without further notice to Tenant.

ARTICLE 16. PAYMENTS AND NOTICES

All sums payable by Tenant to Landlord will be paid, without deduction or offset, in lawful money of the United States to Landlord at its address set forth in Item 12 of the Basic Lease Provisions, or at any other place as Landlord may designate in writing. Unless this Lease expressly provides otherwise, all payments will be due and payable within 5 business days after written demand. All payments requiring proration will be prorated on the basis of the number of days in the pertinent calendar month or year, as applicable. Any notice, election, demand, consent or approval to be given or other document to be delivered by either party to the other may be delivered to the other party, at the address set forth in Item 12 of the Basic Lease Provisions, by personal service or by any courier or "overnight" express mailing service. Either party may, by written notice to the other, served in the manner provided in this Article, designate a different address. The refusal to accept delivery of a notice, or the inability to deliver the notice (whether due to a change of address for which notice was not duly given or other good reason), will be deemed delivery and receipt of the notice as of the date of attempted delivery. Tenant will have the right to make all payments of rent or additional rent hereunder via Automated Clearing House (ACH) or by wire transfer.

ARTICLE 17. RULES AND REGULATIONS

Tenant agrees to comply with the Rules and Regulations attached as **Exhibit E**, and any reasonable and nondiscriminatory amendments, modifications and/or additions as may be adopted by Landlord from time to time.

ARTICLE 18. BROKER'S COMMISSION

The parties recognize as the broker(s) who negotiated this Lease the firm(s) whose name(s) is (are) stated in Item 10 of the Basic Lease Provisions, and agree that Landlord will be responsible for the payment of brokerage commissions to those broker(s) unless otherwise provided in this Lease. Each party agrees to indemnify and hold the other party harmless from any cost, expense or liability (including reasonable attorneys' fees) for any compensation, commissions or charges claimed by any other real estate broker or agent employed or claiming to represent or to have been employed by such party in connection with the negotiation of this Lease.

ARTICLE 19. TRANSFER OF LANDLORD'S INTEREST

Landlord has the right to transfer and assign, in whole or in part, all of its ownership interest, rights and obligations in the Building, Project or Lease, including the Security Deposit, and upon transfer Landlord will be released from any further obligations hereunder, and Tenant agrees to look solely to the successor in interest of Landlord for the performance of such obligations and the return of any Security Deposit.

ARTICLE 20. INTERPRETATION

20.1. NUMBER. Whenever the context of this Lease requires, the words "Landlord" and "Tenant" include the plural as well as the singular.

20.2. JOINT AND SEVERAL LIABILITY. If more than one person or entity is named as Tenant, the obligations imposed upon each are joint and several and the act of or notice from, or notice or refund to, or the signature of, any one or more of them will be binding on all of them with respect to the tenancy of this Lease, including, but not limited to, any renewal, extension, termination or modification of this Lease.

20.3. SUCCESSORS. Subject to Sections 13.1 and 22.1 and to Articles 9 and 19 of this Lease, all rights and liabilities given to or imposed upon Landlord and Tenant will extend to and bind their respective heirs, executors, administrators, successors and assigns. Nothing contained in this Section 20.3 is intended, or will be construed, to grant to any person other than Landlord and Tenant and their successors and assigns any rights or remedies under this Lease.

20.4. TIME OF ESSENCE. Time is of the essence with respect to the performance of every provision of this Lease in which time of performance is a factor.

20.5. CONTROLLING LAW/VENUE. This Lease is governed by and interpreted in accordance with the laws of the State of California. Tenant irrevocably consents to the jurisdiction and venue of the state and federal courts for the county where the Premises are located.

20.6. SEVERABILITY. If any term or provision of this Lease, the deletion of which would not adversely affect the receipt of any material benefit by either party or the deletion of which is consented to by the party adversely affected, is held to be invalid or unenforceable to any extent, the remainder of this Lease will not be affected and each term and provision of this Lease will be valid and enforceable to the fullest extent permitted by law.

20.7. WAIVER. One or more waivers by Landlord or Tenant of any breach of any term, covenant or condition contained in this Lease will not be a waiver of any subsequent breach of the same or any other term, covenant or condition. Consent to any act by one of the parties will not be deemed to render unnecessary the obtaining of that party's consent to any subsequent act. No breach of this Lease will be deemed to have been waived unless the waiver is in a writing signed by the waiving party.

20.8. INABILITY TO PERFORM. If either party is delayed or hindered in or prevented from the performance of any work or in performing any act required under this Lease by reason of any cause beyond the reasonable control of that party (each, an "**event of force majeure**"), then the performance of the work or the doing of the act will be excused for the period of the delay and the time for performance will be extended for a period equivalent to the period of the delay. The provisions of this Section 20.8 will not operate to excuse Tenant from the prompt payment of Rent.

20.9. ENTIRE AGREEMENT. This Lease constitutes the entire agreement between the parties and supersedes all prior agreements and understandings related to the Premises. This Lease may be modified only by a written agreement signed by Landlord and Tenant.

20.10. QUIET ENJOYMENT. Upon the observance and performance of all the covenants, terms and conditions on Tenant's part to be observed and performed, and subject to the other provisions of this Lease, Tenant has the right of quiet enjoyment and use of the Premises for the Term without hindrance or interruption by Landlord or any other person claiming by or through Landlord.

20.11. SURVIVAL. All covenants of Landlord or Tenant which reasonably would be intended to survive the expiration or sooner termination of this Lease, including without limitation any warranty or indemnity hereunder, survive and continue to be binding upon and inure to the benefit of the respective parties and their successors and assigns. The expiration of the Term, whether by lapse of time, termination or otherwise, will not relieve either party of any obligations which accrued prior to or which may continue to accrue after the expiration or termination of this Lease.

ARTICLE 21. EXECUTION

21.1. COUNTERPARTS; DIGITAL SIGNATURES. This Lease may be executed in one or more counterparts, each of which will constitute an original and all of which will be one and the same agreement. The parties expressly agree that one or each of the parties may execute and deliver this Lease electronically using a certificate-based electronic signature and delivery software service approved and initiated by Landlord that provides an audit trail and method for authenticating signers (the "**Approved Service**"). The Approved Service will have the same legal effect as a handwritten signature and will be admissible evidence of the parties' mutual intent to be legally bound by this Lease. The parties declare that they have received all of the information required to be fully aware of the certificate-based electronic signature software process, and each party waives any claim which it may have against the enforceability of this Lease based on the use of the Approved Service.

21.2. CORPORATE AND PARTNERSHIP AUTHORITY. Each party represents and warrants to the other party, and agrees, that each individual executing this Lease on behalf of such party is authorized to do so on behalf of such party.

21.3. EXECUTION OF LEASE; NO OPTION OR OFFER. The submission of this Lease to Tenant is for examination purposes only, and does not constitute an offer to or option for Tenant to lease the Premises unless and until Landlord has executed and delivered this Lease to Tenant.

21.4. BROKER DISCLOSURE. By the execution of this Lease, each of Landlord and Tenant acknowledge and confirm (a) receipt of a copy of a Disclosure Regarding Real Estate Agency Relationship conforming to the requirements of California Civil Code 2079.16, and (b) the agency relationships specified in Item 10 of the Basic Lease Provisions, which acknowledgement and confirmation is expressly made for the benefit of Tenant's Broker identified in Item 10 of the Basic Lease Provisions. If there is no Tenant's Broker so identified in Item 10 of the Basic Lease Provisions, then such acknowledgement and confirmation is expressly made for the benefit of Landlord's Broker. By the execution of this Lease, Landlord and Tenant are executing the confirmation of the agency relationships set forth in Item 10 of the Basic Lease Provisions.

ARTICLE 22. MISCELLANEOUS

22.1. MORTGAGEE PROTECTION. No act or failure to act on the part of Landlord which would otherwise entitle Tenant to be relieved of its obligations hereunder or to terminate this Lease will result in such a release or termination unless (a) Tenant has given notice by registered or certified mail to any Mortgagee of a Mortgage covering the Building whose address has been furnished to Tenant and (b) such Mortgagee is afforded a reasonable opportunity to cure the default by Landlord. Tenant will comply with any written directions by any Mortgagee to pay Rent due hereunder directly to such Mortgagee without determining whether a default exists under such Mortgagee's Mortgage.

22.2. SDN LIST. Tenant represents and warrants that neither Tenant nor, to Tenant's actual knowledge as of the date of this Lease, any officer, director, employee, partner, member or other principal of Tenant (collectively, "**Tenant Parties**") is listed as a Specially Designated National and Blocked Person ("**SDN**") on the list of such persons and entities issued by the U.S. Treasury Office of Foreign Assets Control. If Tenant or any Tenant Party is or becomes listed as an SDN, Tenant will be deemed in breach of this Lease and Landlord will have the right to terminate this Lease immediately upon written notice to Tenant.

22.3. NONDISCLOSURE OF LEASE TERMS. Landlord and Tenant each agree that neither Landlord or Tenant or the agents or other parties acting on behalf of Landlord or Tenant, as applicable, will disclose any matters set forth in this Lease or any amendment or other document related hereto or disseminate or distribute any information concerning the terms, details or conditions hereof to any person, firm or entity without obtaining the express written consent of the other party, other than to their respective affiliates, employees, lenders, assignees, subtenants, financial and legal advisors and consultants, agents, and prospective lenders, purchasers of the Building, assignees and subtenants, each of whom agree to keep the terms confidential in accordance with the terms hereof; or pursuant to any legal requirement or order of a court of competent jurisdiction, arbitrator or governmental authority, or to enforce its rights under this Lease.

[Remainder of page intentionally left blank.]

IN WITNESS WHEREOF, the parties have executed this Lease as of the day and year first above written.

Offering Note

1. Relates to common stock, $0.0001 par value per share ("Werewolf Common Stock"), of Werewolf Therapeutics, Inc., a Delaware corporation ("Werewolf"), issuable to holders of common stock, $0.00001 par value per share ("Ambros Common Stock"), of Ambros Therapeutics, Inc., a Delaware corporation ("Ambros"), and other Ambros security holders in the proposed merger of Wave Atlantis Merger Sub., a Delaware corporation and a direct, wholly owned subsidiary of Werewolf, with and into Ambros, with Ambros continuing as a wholly owned subsidiary of Werewolf and the surviving corporation of the merger. The amount of Werewolf Common Stock to be registered includes the estimated maximum number of shares of Werewolf Common Stock that are expected to be issued (or become issuable) pursuant to the merger, without taking into account the effect of a reverse stock split of Werewolf Common Stock, assuming an estimated pre-split exchange ratio (which is subject to adjustment prior to the closing of the merger) of approximately 10.7623 shares of Werewolf Common Stock for each outstanding share of Ambros Common Stock. The issuances of (i) all shares of Werewolf Common Stock in exchange for each share of Ambros Common Stock and each share of Ambros preferred stock, $0.00001 par value per share ("Ambros Preferred Stock"), (ii) all shares of Werewolf Common Stock issuable upon exercise of pre-funded warrants to purchase shares of Werewolf Common Stock ("Werewolf Merger Warrants") issued in exchange for shares of Ambros Common Stock and/or Ambros Preferred Stock, and (iii) all shares of Werewolf Common Stock issuable upon exercise of options to purchase shares of Werewolf Common Stock issued in exchange for options to purchase shares of Ambros Common Stock, are intended to be covered by this registration statement on Form S-4. In accordance with Rule 416 under the Securities Act of 1933, as amended (the "Securities Act"), this registration statement shall be deemed to cover any securities that may from time to time be offered or issued resulting from forward or reverse stock splits, stock dividends or similar transactions. Estimated solely for purposes of calculating the registration fee in accordance with Rule 457(f)(2) of the Securities Act. Ambros is a private company, no market exists for its securities, and it has an accumulated capital deficit. Therefore, the proposed maximum aggregate offering price for the shares expected to be issued pursuant to the merger is one-third of the aggregate par value of the Ambros securities expected to be exchanged in the proposed merger.
2. Consists of Werewolf Merger Warrants issued in the merger in exchange for Ambros Common Stock and/or Ambros Preferred Stock, without taking into account the effect of a reverse stock split of Werewolf Common Stock, assuming an estimated pre-split exchange ratio (which is subject to adjustment prior to the closing of the merger) of approximately 10.7623 shares of Werewolf Common Stock for each outstanding share of Ambros Common Stock. The registration fee with respect to the Werewolf Merger Warrants has been allocated to the underlying shares of Werewolf Common Stock issuable upon exercise of such Werewolf Merger Warrants, as described in footnote (1).
